¹ Among the first settlers were Benj. Seeley, Joseph Plumbs, Jehial and James Barnum, Chester Tuller, Robert Wilson, Joel Griffin, G. Dickinson, H. Conger, J. Bowen, and L. Sylvester. At this time Daniel McCormack owned the N. half of the town,

Wm. Cooper the s. e. quarter, and Asahel Baker the s. w. quarter. Samuel Russell taught the first school, in 1808.

Two buildings, erected by the town in 1834-35, are used for religious meetings. A Christian church was formed in 1818.

³ Named in honor of Wm. Bell, an early proprietor. It includes township 8, and parts of 7 and 9, of the old Military Tract.

India. It embraces "Macoub." or No. 1 of Great Tract No. I. of Macoub Purchase, and the St. Regis Indian Reservation.

A controversy in regard to title has prevented the full improvement of this power.

⁷ Formerly "Gray's Mills." It was the residence of the late

Rev. Eleazar Williams, the reputed Bourbon Louis XVII.

8 The lands of this reservation are partly leased to whites; but the cultivation of all is extremely slovenly and improvident.

9 Previous to the settlement, most of the valuable timber had

been stolen by parties from Canada.

10 Named from Brandon, Vt., from which place the first settlers emigrated. It embraces the townships of "St. Patrick," "Westerly," "Ennis," "Gilchrist," "Margate," "Killarney," and "Cove Hill," or Nos. 8, 11, 14, 17, 20, 23, and 26, of Great Tract

settlement was made in 1796-98, by Jehial Barnum, Noah Lee, and others. There are 3 churches in town.1

CHATEAUGAY2—was formed from Champlain, March 15, 1799. "Harrison" (now Malone) was taken off in 1805, Bellmont in 1833, and Burke in 1844. A part was annexed to Jay, (Essex co.,) in 1822. The surface is rolling, with a northerly inclination. The principal streams are the Chateaugay River and its branches. The river has worn a deep channel through the drift deposits and Potsdam sandstone, forming a wild and peculiar feature in the landscape.3 Half a mi. E. of the village of Chateaugay is an intermitting spring, rising from the sand, sometimes flowing in sufficient quantities to carry a mill, and at others perfectly dry. It has no regular periods of intermission, sometimes flowing steadily one or two years, and again only a few weeks. Bubbles of nitrogen gas are emitted with the water. There is a constant gas spring 1 mi. N. E. of this. The soil is a clayey loam interspersed with clay. Chateaugay* (p. v.) lies on the plain, a little E. of the deep, narrow valley of the Chateaugay River.⁵ Pop. 360. The first settlement was commenced in 1796, at the village, and was the first in the co.6 Within the next five years many families came in from Vermont. In 1812 a blockhouse was built for protection against invasions by the enemy. In the fall of 1813, Gen. Hampton was encamped here for several weeks, with a force designed to co-operate with Gen. Wilkinson in the invasion of Canada; but late in Nov., he returned to Plattsburgh without accomplishing his object. In the spring of 1814 the enemy invaded the place, pressed teams, and took away a considerable amount of provisions left by the American army. There are 4 churches in town.

CONSTABLE⁸—was formed from "Harrison," (now Malone,) March 13, 1807. Fort Covington was taken off in 1817, and Westville in 1829. The surface is rolling, with a northerly inclination. The streams are Trout River and its tributary Little Trout River. The soil is principally a light, sandy loam. A strip of sand lies along the s. border, and of swamp along the N. Constable (W. Constable p. o.) is a small village upon Trout River. Trout River (p. o.) is a hamlet near the N. line, and East Constable is a p. o. The first settlement was commenced near the s. line, in 1800.9 The first church (Presb., organized as Cong.) was formed in 1817.10

DICKINSON'1—was formed from "Harrison," (now Malone,) April 4, 1808. Bangor was taken off in 1812, and Moira in 1828. It lies on the w. border of the co., and is 47 mi. in length, The N. part is rolling and hilly, and has a soil of sandy loam of good quality; the central and s. parts are mostly sterile and rocky mountain regions. It is watered by the same streams as Brandon, and among the hills are great numbers of small lakes. Dickinson (p. o.) is on the St. Lawrence Turnpike. East Dickinson and Dickinson Center are p. offices. Thomasville is a small settlement on Deer River, founded by John Thomas in 1839. The principal settlements are in the N. part. 12 There are in town 2 churches; M. E. and F. W. Bap.

DUANE¹³—was formed from Malone, Jan. 24, 1828. Harrietstown was taken off in 1841. Brighton was taken off in 1858. It is an interior town, lying s. E. of the center of the co. Its surface is broken and mountainous, and the soil is light and sandy. Much the greater part of the town is unfit for cultivation. The principal streams are the Deer River and the E. branch of St. Regis River. Magnetic iron ore has been found in considerable quantities. There is no village in town. Duane is a p. o. Jas. Duane, of Schenectady, son-in-law of Wm. Constable, acquired by marriage the title to this town, and began settlement here in 1823-24. A forge was built in 1828, and a high furnace in 1838, both of which were run a few years and supplied with ore found

 About a mile above the village this ravine is 200 feet deep, and in it is a waterfall of 50 feet.
 4 On the 30th of June, 1856, a destructive tornado passed over the village, more or less injuring every building in it. In the course of 6 mi. 185 buildings were destroyed, nursofed, or moved from their foundations; and several lives were lost.

⁶ The first settlers were Benj. Roberts, Saml. and Nathan Beeman, Levi Trumbull, Joshua and Kincade Chamberlain, Ethan A. Roberts, and Jared Munson. Nathan Beeman in his youth resided near Tieonderoga, and acted as guide to Ethan Allen when he surprised that place in May, 1775. He died in this town in 1850. David Mallory built the first grist mill in the co., on Marble River, 1½ mi. N. E. of the village. In 1803-04 a forge was built, by Wm. Bailey, 3 mi. above the village, and run a short time, being supplied with bog ore.

in the town. After making about 600 tons of iron, the works were abandoned, with the loss of the entire capital invested in them. There is but one church (M. E.) in town.

FORT COVINGTON²—was formed from Constable, Feb. 28, 1817. Bombay was taken off in 1833. It lies on the N. border of the co., w. of the center. Its surface is level, or gently Salmon River, the principal stream, is navigable to Fort Covington Village. The soil in the N. is a rich, clayey loam, and in the s. a light, sandy loam. Fort Covington³ (p. v.) is situated in the N. w. part of the town, upon Salmon River. Pop. 894. The first settlements were made by French families, about 1796, around "French Mills." Settlers from Vt. began to arrive about 1800.4 Much of the timber near Salmon River was stolen before this, and sold in the Montreal market. Soon after the battle of Cryslers Field the American army passed up Salmon River and took up winter quarters at "French Mills." In Feb. the place was evacuated,6 and immediately taken possession of by the enemy. The Fort Covington Academy, incorp. April 21, 1831, has been changed to a district school. The census reports 4 churches.8

FRANKLIN9—was formed from Bellmont, May 20, 1836. It lies on the E. border of the co., s. of the center. Its surface is broken and mountainous, and it has an elevation of 1200 to 2000 feet above tide. The principal streams are the Saranac, which flows across the s. E. corner, and the head branches of the Salmon River. Among the mountains are numerous ponds and lakes. The soil is sandy, and scarcely fit for agricultural purposes, except along the streams. Iron ore abounds, and has been worked to some extent. The settlements are mostly confined to the s. E. corner, and the people are chiefly engaged in lumbering. The old Port Kent and Hopkinton Road passes diagonally through the town, and a plank road extends from Franklin Falls to Keeseville. Franklin Falls¹⁰ (p. v.) contains 12 houses, and Vermontville 20. Brook and Merrillsville are p. offices. The first settlement was made at Franklin Falls, in 1827, at which time a forge and sawmill were erected.¹¹ In town are 5 large gang sawmills, and several small manufactories of buckskin leather, mittens and gloves. There are 2 churches in town,-M. E. and R. C.

HARRIETSTOWN¹²—was formed from Duane, March 19, 1841. It is the s. E. corner town of the co. Its surface is very rocky and mountainous, and its soil a light, sandy loam, generally unfit for cultivation. Mt. Seward lies along the s. border.¹³ It is the least populous and wealthy town in the co. It is principally drained by the Saranac. Among the mountains are a great number of small lakes, the principal of which are the Lower Saranac, Big Clear, and St. Regis. There are no villages or churches in town, Saranac Lake, on the line of Essex co., is a p. o. The first settlers located on the North West Bay Road, about 1812.14

MALONE¹⁵—was formed from Chateaugay, March 2, 1805, as "Harrison." The name was changed to "Ezraville," April 8, 1808, and to Malone, June 10, 1812. Constable was taken off in 1807, Dickinson in 1808, and Duane in 1828. It is an interior town, lying N. of the geo-

1 By an act of May 20, 1841, a company was chartered by the name of "The Franklin Native Steel Manufacturing Co.;" but it was never organized. The making of steel directly from the ores of this region has proved to be practically a failure. A few years since, silver was said to be discovered; but it has never been successfully worked.

2 Named from Brig, Gen. Leonard Covington, who was mortally wounded at Cryslers Field and buried here. It embraces the w. part of the township of "Cormachus," or No. 2 of Great Tract No. I., and a part of the original St. Regis Reservation, since ceded to the State.

3 Formerly called "French Mills." It is situated on a mile square reserved by the Indians in 1796. This tract was leased by the Indians to Wm. Gray, in 1793, and assigned to Jas. Robertson, of Montreal, in 1798. These Indian leases occasioned much difficulty concerning title, which was finally settled by commissioners, after the purchase of the z. part of the reservation, in 1816-18 — Hough's Hist. of St. Law. and Frank. Co's.

4 Mills were built at a very early period, and were swept away

by a flood in 1804.

⁶ Here a fearful mortality occurred among the troops, on account of exposure to the rigors of a northern winter in tents and slight board shanties. The medicines and hospital stores had been lost or destroyed on the passage down the St. Lawrence, nor could fresh supplies be obtained nearer than Albany. The surrounding country was mostly a wilderness; and the army of Gen. Hampton the fall previous had exhausted the resources of

the inhabitants, and consequently, provisions were of a bad quality and were procured with difficulty.

6 As an appropriate finale to an imbecile enterprise, the retreating army destroyed the boats on the river, sunk 60 tons of biscuit, and destroyed all the public property too heavy for

transportation. The enemy soon completed the work of de-

11 Anong the first settlers were Wm. McClenathan, Jas. Malory, Horace Gould, John Griffin, Harry Wood, Richmond and Davis Spaulding, Simeon French, and John Hough. The first birth was that of Sanford Hough; and the first death of an adult, that of Mrs. H. Wood. McClenathan kept the first inn and store and built the first mill and forge.

12 Named from Harriet, daughter of Wm. Constable and wife of Jas. Duane. It embraces the townships of "Harriestown," "Barrymore," and "Tipperary," or Nos. 21, 24, and 27 of Great Tract No. I.

12 Mt. Seward, named from Wm. H. Seward, was called by the Indians "On-no-wan-lah," the big eye.

14 Among the first settlers were Isaac Livingston. Isaiah C. Flanders, Pliny Miller, Wm. Kelly, and Nehemiah White.

15 Named "Harrison" from Richard Harrison, proprietor; "Exzaville" from Ezra L'Hommedieu, of Suffolk co.; and Malone from a family related to Harrison. It embraces the townships of "Malone" and "Sheiah," or Nos. 6 and 9 of Great Tract No. I.

graphical center of the co. and s. of the center of population. Its surface is level in the N. and broken and hilly in the s. The principal stream is the Salmon River, which flows northerly through the town in a deep valley worn by its waters, and nearly its whole course in town is a succession of rapids and cascades. Along the N. border are extensive pine plains. The soil in the No, where not covered by light drift deposits, is fertile and well improved, but in the s. it is sandy and unproductive. An iron ore, from which a paint resembling sienna is manufactured, has been discovered in the s. part. Potsdam sandstone, of an excellent quality for building, has been extensively quarried near the village. Malone, 1 (p. v.,) the co. seat, and the only incorp. village in the co., is pleasantly situated on Salmon River. Pop. 1993. It is the seat of the Franklin Academy,² and is the most important intermediate station upon the Ogdensburgh R. R.³ The village is supplied with spring water by an incorp. company.4 Titusville (p.o.) is a small village at the Great Falls, on Salmon River in the s, part of the town, 5 The first settlements were made near Malone Village, about the beginning of the present century, by emigrants from Vt.6 An arsenal was built at the village in 1812, and sold in 1850. In 1813-14 the place was visited and plundered by the British. The first church (Cong.) was formed in 1806-07, by Ebenezer Hibbard and Amos Pettengill. Rev. Ashbel Parmelee was the first pastor, and the first settled minister in the co.8

MOIRA9—was formed from Dickinson, April 15, 1828. It lies on the w. border of the co., N. of the center. The surface is generally level, with a slight inclination toward the N. The principal streams are Little Salmon River and Lawrence Brook. The soil is a sandy loam, generally fertile. Moira Corners (Moira p.o.) is a small village near the center. Brushs Mills, 10 (p.v.,) on Little Salmon River, is an important wooding station on the R. R. This town fell to the share of Gilchrist and Fowler, upon apportionment, and was first settled by Appleton Foote, as agent, in 1803.11 Luther Bradish, 12 Robert Watts, and Peter Kean afterward became the owners respectively of the N., middle, and s. thirds of the town. There are 3 churches in town.13

WESTVILLE¹⁴—was formed from Constable, April 25, 1829. It lies near the center of the N. border of the co. The surface is nearly level, with a slight inclination toward the N. It is drained by Salmon River, upon which are several falls, affording a good supply of water power. The soil is a fertile, clayer loam. Bog iron ore, found on the s. border, has been used to some extent in forges in the town. A sulphur spring, of some local notoriety, lies near the center of the N. border. Westville (W. Constable p.o.) is a small village on Salmon River. This town was held by the Constable family; and for many years Wm. Bailey, of Chateaugay, and Albon Mann, were agents. In 1822 the unsold portions were sold to Edward Ellice, of London. The first settlements commenced about 1800, by emigrants from Vt. 15 There are 4 churches in town. 16

FULTON COUNTY.

This county was formed from Montgomery, April 18, 1838.1 It lies N. of the Mohawk, E. of the center of the State. It is centrally distant 45 miles from Albany, and contains 544 sq. mi. Its surface is a rolling and hilly upland, rising into a mountainous region on the N. border. The highland region is divided into three general ridges, extending N. E. and S. W. The most eastern of these ridges. occupying the s. E. corner, consists of rounded drift hills of moderate elevation, bounded by gradual slopes, the highest summits being about 400 ft. above the Mohawk. The second ridge extends through near the center of the co. and occupies a wide space along the N. border. The declivities in the N. are usually steep and rocky; and the highest summits are 800 to 1,000 ft, above the Mohawk. The

third ridge, similar in character to the second, extends through the w. part of the co. Its highest summits are 1,200 ft. above the Mohawk.

Sacondaga2 River flows s. E. through the N. E. corner of the co. It receives from the w. Mayfield Creek, which has for its tributaries Fondas Creek and Cranberry Creek. The Chuctenunda flows through the s.E. corner. The Cayadutta flows s.w. through near the center, its valley separating the central from the eastern ranges of hills. Garoga Creek flows s., a little w. of the center, its valley separating the western and central ranges of hills. Stony Creek, a tributary of the Sacondaga, flows N. E. in the northerly continuation of the Garoga Valley, and breaks through the central ranges of hills. East Canada Creek forms the greater part of the w. boundary, receiving as tributaries North, Fish, and Little Sprite Creeks. The other streams are branches of the foregoing or of the Mohawk. They are mostly rapid streams, frequently interrupted by falls, and affording an ample supply of water-power.

Among the hills in the N. part of the co. are many of the small lakes forming a characteristic feature of the wilderness region of Northern N. Y. Along the Sacondaga, near the mouth of Mayfield Creek, and occupying portions of Northampton, Broadalbin, and Mayfield, is an extensive swamp or vlaie, said to contain an area of 13,000 acres.3

The greater part of the surface of the co. is covered with drift deposits. The southern parts of the central and w. ridges are principally composed of calciferous sand rock; and farther N. Potsdam sandstone and gneiss appear and cover a considerable portion of the surface. Black River limestone, Trenton limestone, and Utica slate are also found in different localities. Quarries of gneiss and of birdseye limestone have been opened in Johnstown and Mayfield. An excellent building stone is found in all the N. part of the co.

The soil in the s. part and along the valleys is mostly a gravelly and clayey loam, derived from the drift deposits. It is well adapted to pasturage, and in the most favorable localities produces good crops of grain. A large portion of the N. part is too rough and broken for profitable cultivation.4 The manufactures consist principally of leather, lumber, and buckskin gloves and mittens.5

The co. seat is located at Johnstown.6 The courthouse is a brick building in the N. part of the village, erected in 1772, by Sir Wm. Johnson, for the courthouse of "Tryon" co. The jail, a stone building, situated in the s. E. part of the village, contains the usual jail accommodations, and the residence of the jailer. The clerk's office is a fireproof brick building, in the vicinity of the courthouse. The poorhouse is situated upon a farm of 94 acres at West Bush, 6 mi. N. of the

2 This name is said to signify "Drowned Lands," from the great marsh which lies along its course.

3 This vlaie was apparently a lake at no remote period. It is now covered with a small growth of evergreens around its border, and a wet prairie in the center, where hundreds of tons of course grass of poor quality are cut annually.

4 The mountainous portion in the N. part of this co. forms the s. extremity of the Great Northern wilderness of N. Y. The settlements are very sparse, and are confined to the narrow valleys of the streams. The hills are covered with a light growth of forest trees; and when once cleared, the soil is too light and thin to produce any thing else.

to produce any thing else.

More buckskin gloves and mittens are manufactured in this

co, than in all other parts of the U.S. The center of the manufacture is at Gloversville, though it is largely carried on at Johnstown and other villages. Work is given out to families through a large section of country, forming the most productive branch

of labor in the co.

The first officers of "Tryon co." were Guy Johnson, First Judge; John Butler and Peter Congue, Judges; and Sir John Johnson, Kt., Daniel Claus, John Wells, and Jellis Fonda, Assume that the constraint was arganized Sept. 8, 1772. Jonnson. Rt., Daniel Claus, John Wells, and Jellis Fonda, Assistant Judges. The first co. court was organized Sept. 8, 1772. Upon the organization of Fulton co., the first co. officers were Donald McIntyre. First Judge; John W. Cady, Dist. Attorney; T. A. Stoutenburgh, Clerk; David J. McMartin, Sheriff; and Archibald McFarland, Surrogate.

7 The Johnson family retained a lien upon the building until annulled by the Excellence of their paragraphs.

annulled by the forfeiture of their estates.

¹ A dissatisfaction arising from the removal of the county seat | of Montgomery co. from Johnstown to Fonda was the immediate cause of the division of that co.

2 This name is said to signify "Drowned Lands," from the

courthouse. The average number of inmates is 50, supported at an average cost of \$1.25 per week each. The children attend the public school. The farm yields a revenue of \$200.

Four weekly newspapers are now published in the co.1

The history of this co. is intimately connected with that of Sir William Johnson and his family. At the age of 21, Johnson came to America as agent of his uncle, Sir Peter Warren, and located in the Mohawk Valley. He soon became identified with the interests of that section of the colony, and a zealous promoter of its prosperity. He was appointed Indian Agent, learned the language of the natives, adopted with facility their habits when it suited his interests, and gradually acquired an ascendency over these people which his official relations served to strengthen. His successful management in the expedition to Lake George in 1755 gave him a high position in the esteem of the home Government, and secured him, as an especial favor, the grant of a large tract of land N. of the Mohawk, as a direct gift from the king. He was also honored with knighthood. His first residence was fixed at what is still known as Fort Johnson, on the Mohawk, in the town of Amsterdam; but about 1761 he removed to a new mansion, near the village of Johnstown, still standing, and known as Johnson Hall. At this time he possessed an estate that had few rivals in extent and value in the country; his tenants were numerous and attached to his interests, and the prospects of future greatness to his family were most flattering. On the approach of the Revolution he is supposed to have been liberally inclined; but his duty to the Government, whose offices he held, forbade him from favoring the cause of the colonies, while his attachment to his neighbors and the inhabitants of the colony rendered the thought of any measures tending to their ruin extremely painful to his feelings. It was apparent that a struggle between the mother country and the colonies must ensue; but, with the prescience that foreshadowed the significant purpose of his mind, he intimated to his friends that he should never live to see it, and he besought the British Government to appoint his son to his office,—that of Indian Agent. He died suddenly at Johnson Hall, on the afternoon of June 24, 1774, at the age of nearly sixty years.²

The Gloversville Standard was commenced in Sept.

1856, by W. H. Case, and is still published.

2 It has been the general belief that Sir William ended his own life; and there is not much doubt but that he hung him-self in his garden. His gardener, who found him and took him down, intimated, in his old age, facts which confirm this belief; and his will—dated Jan. 27, 1774—indicates that the near approach of death was a familiar thought, as his burial was an event for which he gave the most minute directions. In was an event for which he gave the most minute directions. In this instrument—after commending his soul to God, who gave it —he directs his body to be buried in the place he had selected by the side of his wife, Catharine. He directs mourning for his housekeeper, Mary Brant, and her children, and for young Brant and William, half-breed Mohawks, and for his servants and slaves. The sachems of hoth Mohawk villeges gate to be a served. by the side of his wife, Catharine. He directs mourning for his housekeeper, Mary Brant, and her children, and for young Brant and William, half-breed Mohawks, and for his servants and slaves. The sachems of both Mohawk villages are to be invited to his funeral, and to receive each a black stroud blanket, crape, and gloves, which they were to receive and wear as mourners next after his family. The bearers are to have white scarf, crape, and gloves; and the whole cost of the funeral is not to exceed £300. The funeral debt is to be first paid by Sir John, out of his 3 per cent. consolidated annuities, within 6 months. He bequeathed to Peter £300, and to the other children of Mary Brant (7 in number) £100 each,—the interest to be expended on their education. To young Brant, alias Kaghnephago, and William, alias Tagawirunta, two Mohawk lads, £100 York currency each; to Sir John, his son, one-half of the rest of his money; and to Daniel Claus and Guy Johnson, his sons-in-law, each one-half of the remainder. He then gives his library and plate, slaves, stock, and personal estate, (certain portions excepted.) to Sir John; and his landed estate is divided between his children and friends, specifically naming to each the lots they are to receive, and especially enjoining upon his children never to sell or alienate any portion of the Royal Grant, as he had received it as a free gift from the king. The legatees of his lands were Sir John and Col. Guy Johnson, Daniel Claus, each of the children of Mary Brant, and her brothers, Joseph and William, Mary McGrah, John and Warren Johnson, his brothers, and Dease, Sterling, Plunket, and Fiximons, brothers-in-law, and John Dease, his nephew. To Robert Adams, Joseph and William, Mary McGrah, John and Warren Johnson, bis brothers, and Dan's Campbell, of Schenectady, John Butler, Jellis Fonda, John Dease, Junes Stevenson, Henry Frey, and Joseph (hew. Each executor and guardian was to receive a ring, as a memento from their once sincere friend. Sir William was buried in a Yault under burial is just outside of the present church edifice.

The active interest in the royal cause taken by Sir John Johnson and all whom he could influence, is well known. He fortified Johnson Hall late in 1775, armed the Scotch Highlanders on the Kingsborough Patent, and spread discontent among the Indian tribes under his control. His conduct could not be tolerated; and in Jan. 1776, Gen. Schuyler was sent with an army of 700 militia to disarm the tenants and to secure a strict neutrality on the part of Sir John and his friends. After several days' negotiation, a feigned acquiescence was received, and on the 19th the Scotch surrendered their arms, and Sir John gave his word of honor to abstain from further hostile measures. His intrigues continued notwithstanding; and in May, 1776, a patriot force, under Col. Dayton, was sent to apprehend him. Upon their approach, he left his family papers, money, and plate to be buried by a faithful slave, and, attended by large numbers of his dependents, he fled through the woods northward to Canada. In May, 1780, Sir John made his appearance with 500 troops from the Northern wilderness, to recover his buried treasure and take vengeance upon his old neighbors. The settlements were surprised, and the Mohawk Valley, from Tribes Hill upward to The Noses, was ravaged. Many houses were burned, 11 persons were slain, and several others were left as dead but finally recovered. An ineffectual rally was made for pursuit; but the invaders returned without molestation. In the fall of the same year, Sir John, with 800 men, invaded the Schoharie and Mohawk Valleys with fire and sword, while an army advanced by way of Lake Champlain to create a diversion on the northern frontier. In returning, he was pursued by a body of troops under Gen. Robert Van Rensselaer, and would have been overtaken and captured had not the cowardice or treachery of that officer prevented.2 The battle of Stone Arabia was fought upon this occasion. In Aug. 1781, Major Ross and Walter N. Butler, with a band of tories and savages, appeared by way of Sacondaga with 607 men,3 and encamped a little N. of Johnson Hall. Col. Willett moved from Fort Plain on the 22d, with 300 men, to attack the enemy, and, upon approaching, detached 100 men, under Col. Harper, to make a circuit and attack the rear of the camp. A short distance above the Hall, Willett's forces met those of Ross, and the former retreated; but at the village they rallied, and were joined by 200 militia. The enemy were finally driven from the ground, with a loss of 17, while the Americans lost 13. Ross retreated all night, and was followed. At West Canada Creek the infamous Butler was killed.4

The estates of the Johnsons were forfeited, and a race of New Englanders succeeded the Scotch Highlanders in this co. No further event of especial interest has since disturbed the even current of events.

BLEECKER5—was formed from Johnstown, April 4, 1831. A part was re-annexed to that town in 1841, and a part of Caroga was taken off in 1842. It is the central town upon the N. border of the co. Its surface is a hilly and mountainous upland, the highest summits upon the N. border being 2,000 ft. above tide. The streams are head branches of West Stony⁶ and Garoga Creeks. In the valleys are several small lakes, the principal of which are Chases Lake, in the N., and Woodworth Lake, on the s. border. The soil is thin and light, and the surface is very stony. Lumbering and tanning are the leading pursuits. Bleecker, (p. v.,) near the s. border, contains a church, a sawmill, a large tannery, and 20 dwellings. The first settlements were commenced about 1800.8 The census reports 3 churches; M. E., Germ. Meth., and R. C.

BROADALBIN9—was formed from "Caughnawaga," (now Broadalbin, Johnstown, and Mayfield,) March 12, 1793. Northampton was taken off in 1799, and a part of Perth in 1842. It is the central town on the E. border of the co. Its surface is rolling and mostly susceptible of cultivation. Chuctenunda Creek flows through the s.E. corner. Fondas Creek flows w. through near the center; Frenchmans Creek through the N. part; and Mayfield Creek through the N. w. corner. The soil is mostly of the drift formation, inclining to sand. The x. part extends into the great Sacandaga Vlaie, which is annually overflowed, and in which the soil is alluvial. Fondas Bush, (Broadalbin p. o.,) on Fondas Creek, near the w. line, was incorp. April 17, 1815, as

8 Among the early settlers were James Morse, Wm. Rood, Ephraim Lin Isley, James London Samuel Shaffer, Wm. Eedan, Frederick Mils, — Goodwell, and Geo Hamilton.—all from New Lengland. The first death was that of — Goodwell about 1806. Wm. Chase, the patentee, built a gristmill on the N. branch of Stony Crask in 1804.05

of Stony Creek, in 1804-05.

Named from a place in Scotland by James McIntyre, one of the early settlers—This town comprises parts of Sacondaga,

"Rawsonville." It contains 3 churches, 3 buckskin dressing mills, a saw and grist mill, and 3 mitten factories. Pop. 651. Mills Corners, (p. o.,) in the E. part, is a hamlet. Union Mills (p. o.) contains a sawmill, paper mill, a peg factory, and 10 houses. North Broada!bin, (p.o.,) in the N. E. part, contains a church, saw and grist mill, and 10 houses. The first settlement was commenced before the Revolution. The census reports 5 churches in town.2

CAROGA³—was formed from Stratford, Bleecker, and Johnstown, April 11, 1842. It lies on the N. border of the co., w. of the center. Its surface is rolling in the s. and broken in the N. by small, sharp mountains. A large hill lies w. of Garoga Creek; and a swell of land rises about 300 ft. between the principal branches. Numerous clusters of lakes lie in the center and N. part of the town, the principal of which are E. and W. Fish Lakes, Garoga Lake, the Stink Lakes, Bellows, Prairie, Green, and Pine Lakes. Garoga Creek flows s. from Garoga Lake. A small portion of the area only is susceptible of cultivation. Lumbering is the principal business. Newkirks Mills (p. v.) contains a church, (Ref. Prot. D.,) a large tannery, and 30 houses. The first settlement commenced about 1790.4

EPHRATAH—was formed from Palatine, (Montgomery co.,) March 27, 1827. A part was re-annexed to that town on the division of the co. in 1838. It lies on the s. border of the co., w. of the center. Its surface is mostly a hilly upland, 400 to 1,500 ft. above the Mohawk. Garoga Creek flows s. w. through the town, in a deep valley, the hills on either side rising about 800 feet above the creek. The soil is sandy, and in the s. E. a clayey loam. Ephratah, (p. v.,) in the s. part, contains a church, gristmill, a large tannery, and 359 inhabitants. Garoga, (p. v.,) in the N, part, contains a saw and grist mill and 12 houses. Rockwood, (p. v.,) in the N, E. corner, contains 2 churches, 2 sawmills, a gristmill, 2 tanneries, a buckskin dressing mill, and 196 inhabitants. Lassellsville, (p. v.,) in the w. part, contains 2 churches and 20 houses. The first settlement commenced under the auspices of Sir Wm. Johnson, in 1765.5 The census reports 6 churches in town.6

JOHNSTOWN'-was formed from "Caughnawaga," (now Broadalbin, Johnstown, and Mayfield,) March 12, 1793. Lake Pleasant was taken off in 1812, Bleecker in 1831, Mohawk in 1837, and a part of Caroga in 1842. A part of Bleecker was re-annexed in 1841. It lies on the s. border of the co., near the center. A series of hills occupy the N. part. A high ridge extends through the E. part; Garoga Creek, through the N. w. corner; and a branch of the Cayadutta through the w. part. The soil is a clayey and sandy loam. The manufacture of buckskin gloves and mittens w. part. The soil is a clayey and sandy loam. There are in this town over 100 establishments for the manu

facture of gloves and mittens, and 10 mills for dressing the skins. This business was first commenced by Ezeklel Case, in 1893, and has grown from a small beginning, until now it is said that over \$500,000 capital is invested in it.

settlement was commenced under the auspices of Sir Wm. Johnson, in 1760. He removed to "Johnson Hall," about 3 of a mi. N. w. of Johnson Village, in 1761 or '62. There were then about a dozen houses in the village, and 100 tenants on farms adjacent. The lands were leased by him with the evident intention of establishing a baronial estate for his family.\(^1\) The census reports 11 churches

MAYFIELD3—was formed from "Caughnawaga," (now Broadalbin, Johnstown, and Mayfield.) March 12, 1793. Wells was taken off in 1805, and another portion of Mayfield was annexed to that town in 1812. A part was annexed to Perth in 1842. It lies on the N. border of the co., E. of the center, and extends nearly to the s. line. Its surface in the N. part is broken by mountains rising 1,500 to 2,000 ft. above tide. These elevations are of primary formation, with rounded summits, the higher peaks having steep declivities. The central and s. parts are rolling and generally susceptible of cultivation. Stony Creek flows through the N. w. corner; Mayfield Creek through near the center; Fondas Creek through the s. E. part; and Cranberry Creek in the E. part. The soil is sandy and gravelly, in some places strewn with boulders. The valleys are alluvial, with some clayey loam. Mayfield (p. v.) contains 2 churches, a saw and grist mill, and 600 inhabitants. Vails Mills, (p. v.,) in the s. E. part, contains a sawmill, a gristmill, a tannery, and 20 houses. Jackson Summit is a p.o. The first settlement was commenced about 1760 or '61, under Sir Wm. Johnson, on the old road from Tribes Hill to the Sacondaga, and was then called "Philadelphia Bush." There are 2 churches in town; M. E. and Presb.

NORTHAMPTON 6-was formed from Broadalbin, Feb. 1, 1799. It is the N. E. corner town of the co. Its surface is hilly in the N., the hills rising about 1,000 ft. above the valley. In the s. part the Sacondaga Vlaie occupies several thousand acres, which cannot easily be drained. Sacondaga River flows s. E. through the center of the town, in a valley \(\frac{1}{4}\) to \(\frac{1}{4}\) mi. wide. Mayfield Creek flows E. near the s. border. The soil in the valley is a rich alluvium, and on the apland a sandy loam. In places it is stony and rocky. Shell marl abounds in the bed of the Vlaic. Northville, (p. v.,) in the N. part, contains 3 churches, 4 mitten factories, and 450 inhabitants. Northampton, (p. v.,) in the s. E. corner, contains 2 churches, a large tannery, and 210 inhabitants; and Osborns Bridge (p.o.) a church and 10 houses. Cranberry Creek is a p. o. The first settlement commenced under Sir Wm. Johnson, about 1770.9 The census reports 5 churches in town. 10 A part of Wells (Hamilton co.) was taken off in 1805.

OPPENHEIM—was formed from Palatine, (Montgomery co.,) March 18, 1808. St. Johnsville (Montgomery co.) was taken off in 1838. It is the s. w. corner town of the co. Its surface is a hilly upland, inclining gradually to the s. w. In the N.E. part the hills rise 1,200 to 1,500 ft. above the Mohawk. East Canada Creek Hows s. along the w. border. Fish Creek flows through the N. W. corner. Little Sprite, Crum, Zimmermans, and Fox Creeks all flow s. w. The soil in the s. w. is clay, in the s. E. a clayey loam, and in the center and N. a light, sandy and gravelly loam. Boulders are scattered over the surface in profusion; and primary rock appears in the N. Limestone has been extensively quarried in the s.w. part, for the Erie Canal and for private use. Oppenheim, (p. v.,) near the center, contains a church, a sawmill, and 59 inhabitants. Brocketts Bridge, (p. o.,) in the w. part, on the line of Herkimer co., Lotville, (p. o.,) in the

PERTH³—was formed from Amsterdam, (Montgomery co.,) April 18, 1838. Parts of Mayfield and Broadalbin were annexed Feb. 17, 1842. It is the s. E. corner town of the co. Its surface is gently rolling. Chuctenunda Creek flows through the extreme E. part of the town. The soil is mostly a clay loam. Limestone crops out in several places; but the prevailing rock is slate. West Galway, (p. v.,) in the N. E. corner, on the line of Saratoga co., contains a church and 20 houses. Perth, (p. o.,) in the N. part, contains a church and 8 houses. West Perth (p. o.) is a hamlet. The first settlement commenced on the road from Tribes Hill to Sacondaga, about 1760.4 The census reports 2 churches in town; Presb. and Asso. Ref. Presb.

STRATFORD 5-was formed from Palatine, (Montgomery co.,) April 10, 1805. A part of Caroga was taken off in 1842. It is the N. w. corner town of the co. Its surface is a high, rolling, and hilly upland, 800 to 1,200 ft. above the Mohawk, and in the extreme N. 1,800 to 2,000 ft. above tide, with a general inclination to the s. w. East Canada Creek flows through the N. w. corner and forms a part of the w. boundary. North, Ayers, and Fish Creeks are the principal streams. In the N. part are several small lakes, the principal of which are Dexter, Spectacle, North Pleasant, and Ayers Lakes. The soil in the s. w. and in the valley of East Canada Creek is a clayey loam; and in other parts it is light, sandy, and gravelly. Nicholsville, (Stratford p. o.,) on the w. border, partly in Herkimer co., at the junction of Ayers and East Canada Creeks, contains 2 churches, 4 sawmills, a gristmill and tannery, and 32 houses. Whitesburgh (p. o.) is a hamlet, in the s. w. corner. The first settlement was commenced by Samuel Bennett, in 1800.6

GENESEE COUNTY.

This county was formed from Ontario, March 30, 1802. It originally comprised all that part of the State lying w. of Genesee River, and a line extending due s. from the point of junction of the Genesee and Canaseraga Creek to the s. line of the State. Allegany was taken off in 1806, Cattaraugus, Chautauqua, and Niagara in 1808, parts of Livingston and Monroe in 1821, Orleans in 1824, and Wyoming in 1841. A part of Covington was annexed to Livingston co, in 1823, and Shelby was added to Orleans in 1825. It is one of the western cos. in the State, separated by Orleans from Lake Ontario and by Erie from Niagara River. It is centrally distant 229 mi. from Albany, and contains 507 sq. mi. The surface is mostly level or gently undulating. The s. border is occupied by

ranges of hills which extend N. from Wyoming co. and attain an elevation of 200 to 300 feet above the valleys and about 1000 feet above tide. A limestone terrace, bordered in many places by nearly perpendicular ledges, extends E. and W. through the co., N. of the center. At each extremity in the co. this terrace ranges in height from 50 to 100 feet, but it declines toward the center to a height of 20 to 40 feet. Tonawanda Creek' enters Alexander from the s., and flows in a N.E. direction to the village of Batavia, thence turns and flows in a general N. w. direction to the w. border of the co. Its course is very tortuous, and its current generally sluggish.2 Its principal tributaries are Little Tonawanda and Bowens Creeks. Oak Orchard Creek takes its rise near the center of the co. and pursues a winding course to the N. E. corner of Elba, thence turns w. and flows through the great Tonawanda Swamp, which occupies the N. part of Elba, Oakfield, and Alabama. Black Creek³ flows N. through near the center of Bethany, Stafford, and Byron, thence easterly through Bergen into Monroe co. Its tributaries are Bigelow and Spring Creeks. Oatka Creek flows across the s. E. corner of the co., and Murder4 and Eleven Mile5 Creeks across the s. w. corner. Tonawanda, Black, and Oatka Creeks form a series of fine cascades in their passage down the limestone terrace near the center of the co. The lowest rocks in the co. belong to the Onondaga salt group, extending along the N. border. Gypsum is quarried in Le Roy, Stafford, and Byron. This is succeeded by the hydraulic, Onondaga, and corniferous limestones, which form the limestone terrace extending through the co. Lime and building stone are extensively obtained from the outcrop of these rocks.

Succeeding the limestone in order are the Marcellus and Hamilton shales, occupying the whole s. part of the co. The surface generally is covered thick with drift deposits, and the underlying rocks only appear in the ravines of the streams. Nearly all the swamps contain thick deposits of muck and marl, furnishing in abundance the elements of future fertility to the soil. Many of the springs and streams are constantly depositing lime in the form of marl. Along the N. border are numerous wells yielding water strongly impregnated with sulphuric acid, and known as "Sour Springs." The soil is generally a very deep and fertile sandy or gravelly loam intermixed with clay and mostly underlaid by clay or limestone. This co. embraces a portion of the "Genesee Country," which from the first settlement has been famed for its fertility. The people are almost exclusively engaged in agriculture. For many years wheat formed the staple product; but of late the ravages of the midge have led to the more general raising of the coarser grains, and have turned the attention of farmers to the cultivation of fruit, wool growing, cattle raising, and dairying.

The co. seat is located at the village of Batavia. The courthouse is a fine stone edifice, 3 stories high, containing the co. clerk's office and the other co. offices. The jail is a new brick building, a few rods w. of the courthouse.8 The poorhouse is situated on a farm of 133 acres in Bethany, near

A school is maintained 7 months in the year, and at suitable age the children are bound out. The general management is creditable to the co., and is far better than that of a large majority of similar establishments in the State.1

The N. Y. Central R. R. extends in a s. w. direction through Bergen, Byron, Stafford, Batavia, Pembroke, and the N. W. corner of Darien. A branch of this road extends s. from Batavia through Alexander to Attica. The Canandaigua and Niagara Falls Branch extends w. through Le Roy, Stafford, Batavia, and Pembroke, crossing the main line at Batavia. The Buffalo, New York & E. R. R. extends through Le Roy, Stafford, Batavia, and Alexander.2 Several plank roads have been built in the co.; but most of them have been abandoned. An important canal feeder extends from Tonawanda Creek through the N. w. corner of Alabama. There are 5 newspapers published in the co.8

This co. embraced within its original limits all that portion of the State included in the purchase of Robert Morris. Phelps and Gorham, the original purchasers of the whole of Western N.Y., failed to meet the obligations to the State of Mass., and a large share of their tract reverted, and was purchased by Samuel Ogden for Robert Morris, May 12, 1791. Morris sold the w. portion of the tract, constituting about seven-eighths of the whole, to the Holland Land Company, July 20, 1793,6 reserving to himself a strip of an average width of 12 mi., lying between the Phelps and Gorham and the Holland Purchases, and known as the Morris Reserve.6 The Holland Land Company, an association of capitalists in Holland, made this purchase through agents who were citizens

6 This Reserve was sold out in several large tracts to different purchasers. A tract containing 87,000 acres, lying immediately w. of Phelps and Gorham's "Mil Yord," was sold to Le Roy, Bayard and McEvers, and is known as the Triangular Tract. The Connecticut Tract lies immediately w. of the Triangle, and contains 100,000 acres. It was purchased by the State of Conn and Sir Wm. Pultney and was divided between them. The Cragie Tract, containing 50,000 acres, joins the Conn. Tract on the s., and immediately E. is the 40,000 Acre Tract. South of these are successively the Ogden Tract, of 50,000 acres, the Cottinger Tract, of 50,000 acres, the Sterritt Tract, of 150,000 acres, and the Church Tract, of 100,000 acres. A small tract joining the 40,000 Acre Tract on the s. is known as Morris's Honorary Creditors' Tract. Creditors' Tract.

of this country, as at that time aliens could not hold real estate. Immediately after the passing of title, measures were taken to extinguish the Indian titles and to survey the tract. A council of the Senecas was held at "Big Tree," now Geneseo, in Sept. 1797, at which time the Indians ceded most of their lands to the whites.

The general office of the Holland Land Co. was located at Philadelphia. Theophilus Cazenove, the first general agent, took charge of all the business relating to the company from the first purchase of the lands until 1799. He was succeeded by Paul Busti, who took the chief management of affairs until 1824,—a period of 25 years. His successor was John J. Vander Kemp, who continued to manage the affairs of the company until their final settlement. In July, 1797, Joseph Ellicott was engaged as principal surveyor of the Holland Land Co.² In 1798, Mr. Ellicott and his assistants ran the E. line of the territory—since known as the Transit Line—from Penn. to Lake Ontario, forming the basis for the future surveys and divisions of the territory. The surveys were continued until the whole territory was divided into ranges and townships. The former numbered from E. to w. and the latter from s. to N.

In 1798 the first State roads were laid out from Conewagas, on Genesee River, to the mouth of Buffalo Creek, and to Lewiston, on Niagara River. A few settlers located in various places in 1798-99, but the settlements did not progress with great rapidity until after the opening of the Land Office in Oct. 1800. The first place of business opened was the "Transit Store House," located on the present site of Stafford Village, in 1798, to furnish supplies to the surveyors engaged in running the Transit Line. The land office was first established at "Pine Grove," the residence of Asa Ransom, on the present site of Clarence Hollow, Erie co. Upon the organization of Genesee co., in 1802, the office was transferred to Batavia, where it continued until the final closing up of the affairs of the company. In 1821, Mr. Ellicott resigned his agency, and was succeeded by Jacob S. Otto, who held the office until his death, in 1827. His successor was David E. Evans, who continued in charge of affairs until 1837, when the business of the company was closed. In 1811. Ebenezer Mix entered the service of the company as clerk, and for 27 years he had control of the entire sales and subdivisions of lands,—a post for which his mathematical abilities, a tenacious memory, and habits of order admirably qualified him. In 1835 the Holland Company sold all their remaining lands and all their interests to a new company, principally of Batavians, and a new order of things was established. Difficulties at once arose between the new company and the settlers in various parts of the purchase; and, finally, mobs collected to destroy the land offices.4 The opening of this new region to settlement, under the auspices of a liberal and wealthy company, instituted a new order of things in the general history of the co., and was of incalculable benefit to the settlers. Mills were erected, costly roads opened, and every thing done to facilitate settlement and to remove difficulties in the path of settlers. The lands were sold at fair prices and on the most liberal terms, The affairs of the company, both at their general and local offices, were conducted by gentlemen of liberal culture, enlarged views, and humane hearts. In consequence of the richness of the lands and the liberal terms offered by the company, the whole region rapidly filled up with an industrious, intelligent, and enterprising population. Many of the early settlers afterward occupied high official positions and became known throughout the State for their ability and integrity.

¹ The tracts reserved by the Indians were the Cannawagus Reservation, of 2 sq. mi., on the Genesee, w. of Avon; Little Beards and Big Tree Reservation, of 4 sq. mi., on the Genesee, opposite Genese; Squakie Hill Reservation, of 2 sq. mi., on the Genesee, N. of Mt. Morris; Gardeau Reservation, of 28 sq. mi., on both sides of the Genesee, in Castile and Mt. Morris; the Caneadea Reservation of 16 sq. mi., on both sides of the Genesee, in Allegany co.; the Oil Spring Reservation, of 1 sq. mi., on the line between Cattaraugus and Allegany; the Allegany Reservation, of 42 sq. mi., on both sides of the Allegany River, extending N. from the Penn. line; the Cattaraugus Reservation, of 42 sq. mi., on both sides of Cattaraugus Creek; the Buñalo Reservation, of 130 sq. mi., on both sides of Tonawanda Creek, mostly in Genesee co.; and the Tuscarora Reservation, of 1 sq. mi., 3 mi. E. of Lewiston, Niagara co. The titles to all these reservations, except the Tonawanda, Buffalo, Cattaraugus, Tuscarora, and Allegany, have since been extinguished.

2 Mr. Ellicott took entire charge of the surveys of these lands, and completed them in 10 or 12 years. In 1800 he received the appointment of local agent, and for a period of more than 20 years he had almost exclusive control of the company's local business. Under his management an immense tract of wilderness was converted into one of the finest agricultural regions in the world. From his first advent into Western N. Y., he took a high position as an enterprising citizen, independent of his connection with the land office. He conducted the large and complicated business committed to his charge with marked

ability, and he left a name highly honored throughout the extensive domain over which he exerted so commanding an influ-

8 In 1850 an act was passed directing the original field notes and maps to be deposited in the secretary's office for preservation and as legal proofs. In closing the affairs of the company, it was found necessary to obtain evidence of the death of certain original proprietors; and an act, passed May 13, 1846, directed the appointment of a special commissioner to visit Europe. Julius Rhoades was intrusted with this duty.

4 One of the principal causes of disturbance was a rumor that the new company intended to exact a certain sum for the renewal or extension of every contract. This rule became very obnoxious; the extra payment received the name of the "Genese Tarifi," and opposition to it was extensively resolved upon. The office at Mayville, Chautauqua co., was broken open Feb. 6, 1836, and the books and papers were seized and burned in the public highway. On the 13th of May, a report reached Batavia that 700 armed men were on their way to burn the land office, and collected a force of 50 men, well armed, to protect it. The militia were also called out. The mob soon came into town; but, learning the preparations made to give them a warm reception, and well knowing the resolute character of Mr. Evans, they concluded that "discretion was the better part of valor," and went away without offering any violence. Between 50 and 60 of the ringleaders were arrested; but the difficulties were afterward amicably adjusted, and the prosecutions were dropped.

The location of the principal land office of the company at Batavia converted it at once into a place of business and consequence; and the subsequent selection of the village as the co. seat of Genesee co. made it for many years one of the most important places in Western N.Y. Several other land offices were afterward established, but they were all subordinate to the one at Batavia.

In the summer of 1826, William Morgan, of Batavia, a mason, commenced the preparation of a work disclosing the secrets of free masonry, to be published by David C. Miller, a printer of the same place. When this fact became known, members of the masonic order became excited. and took measures at once to suppress the book. A stranger was introduced to the printer, who, under the pretense of friendship, labored to gain an interest in the publication, and thus get possession of the MS. Morgan was arrested on a civil suit, and gave bail; but in Aug. 1826, his bail surrendered him to the sheriff, and he was imprisoned over the Sabbath, while his lodgings were searched, and it is said some of his papers were seized. An attempt was also made to burn the office where the book was to be printed. On Sunday, Sept. 10, a warrant was obtained at Canandaigua, by Nicholas G. Chesebro, for the arrest of Morgan at Batavia, 50 mi. distant, on a charge of stealing a shirt and cravat, which he had borrowed of one E. C. Kingsley. The next day he was arrested and taken in a stage coach to Canandaigua, but was discharged by the justice who had issued the warrant. He was immediately re-arrested, at the instance of Chesebro, on a claim of \$2 for a tavern bill assigned to him by one Ackley; and, although he took off his coat that the officer might levy upon it for payment, he was lodged in jail. On the evening of the 12th, while the jailer was absent, his wife, acting under the advice of Chesebro, released the prisoner, as the claim upon which he was held had been paid by Loton Lauson, a pretended friend. As Morgan passed out of the jail, he was seized by Lauson and a man called Foster, gagged, thrust into a carriage, and driven toward Rochester. This was the last that was seen of him except by masons; and whatever else is known was ascertained by judicial inquiry. Various theories were advanced as to his fate, the most prevalent one being that he was drowned in Niagara River.

The disappearance of Morgan excited suspicion, and led to an investigation. Citizens of Batavia, Le Roy, and other places along the route of the abduction, held meetings, appointed committees which brought to light the facts above stated, and an intense excitement followed. Several persons were tried for participating in the abduction. Some plead guilty, and were imprisoned, and others escaped conviction. The delays finally barred new prosecution, by the statute of limitation, except for murder. The excitement following the investigation, at first directed against the immediate participants in the outrage, was soon turned against the masonic fraternity. The belief that a powerful organization, bound by secret oaths, with their members occupying high official positions, would perpetrate a crime of this magnitude, excited alarm, and led at once to the formation of anti-masonic organizations as a political party. The excitement spread through the State and country, members of the fraternity seceded in large numbers, and a systematic effort was made to crush the order. The intense feeling continued, and the mutual recriminations of the two parties entered into all the political, religious, and social relations of society until about 1832, when other political questions arose, and the excitement gradually died away, and now it is understood that members of the masonic order generally condemn the deed as heartily as others,1

Immediately after the abduction of Morgan, an attempt was made to obtain the MS. of Morgan's "Revelations," then in the hands of Miller the printer, but without success.2

1 In 1828, a law was passed authorizing the Governor to appoint a commissioner to make a full investigation of the Morgan affair. Daniel Moseley, of Onondaga co., was appointed to this office; but upon receiving the appointment of Circuit Judge, in 1829, he resigned, and was succeeded by John C. Spencer, who made a report to the Legislature in 1830, containing all the in-

formation upon the subject then known.

The personal characters of the two men who were made the victims of these outrages would have ruined their schemes had victims of these outrages would have ruined their schemes had they been made publicly known. Morgan was a bricklayer and stonemason of damaged reputation, and Miller a refugee debtor from N.H., and finally left Batavia under circumstances extremely inconsistent with honor. For details, see Hammond's Political Hist. N.Y., chap. xxxviii; Assembly Journ. 1828, p. 961; do. 1829, p. 469, and Appendix F', Assen. Docs. 1830, No. 67-186; Anti-Masonic Excitement, &c. 21n Sept. 1827, Jesse French, Roswell Wilcox, and James Hurlburt were tried and convicted for assault and battery upon David C. Miller, and for false imprisonment and riot. In the evidence before the court it appeared that, on the 12th of Sept. 1826, French, then holding the office of constable, came into the printing office of Miller, and arrested him upon a writ issued by Justice Bartow, of Le Roy. Miller was taken into a carriage and driven off, attended by a large party armed with clubs,

conspicuous among whom were Wilcox and Hurlburt. At Stafford he was taken into a masonic lodge room, where efforts were made to frighten him, and he was threatened with the fate of Morgan. When taken out of the lodge room, a large number of his friends had collected, and he was there first permitted to see counsel, and to know the nature of the suit against him, which was a civil action for debt. Bail was refused, and repeated demands to be taken immediately before the magistrate were unheeded. From Stafford to Le Roy ho was closely guarded by a large number of armed men and attended by an equally large number of in friends. Upon his arrival at Le Roy he resolutely insisted upon going before the magistrate, and, assisted by his crowd of friends, he was enabled to do so, taking the unwilling constable along with him. After a short delay he was discharged. On his way back to Batavia, under escort of a number of his friends, who had followed him to Le Roy, efforts were made to re-arrest him, which his friends prevented. It is said that a portion of the Ms. was preserved by the wives of some of the masons who were most prominent in their efforts to destroy it. French was sentenced to one year's imprisonment in the co. jail, Wilcox to 6 months, and Hurlburt to 3 mes. James Granson was tried and acquitted.

Great excitement followed these events, and a civil war was and acquitted.

ALABAMA1—was formed from Shelby (Orleans co.) and Pembroke, as "Gerrysville," April 17, 1826. Its name was changed April 21, 1828. A part of Wales was annexed in 1832. It is the N. W. corner town of the co. The surface is level or gently undulating. The N. and W. portions are covered by marshes, forming a part of the Tonawanda Swamp. Oak Orchard Creek flows across the N. E. corner, and Tonawanda Creek across the s. w. corner. A limestone terrace, 50 to 75 ft. high, extends across the s. part of the town. Tonawanda Creek flows down this declivity in a perpendicular cascade known as Tonawanda Falls, furnishing a fine water power. Near the center of the N. part of the town, a few rods from the banks of Oak Orchard Creek, are the "Oak Orchard Acid Springs."3 The soil is a gravelly and sandy loam with a clay sub-soil. Alabama Center (Alabama p. o.) contains 2 churches and several mills. Pop. 166. Wheatville (p. v.) lies in the N. E. part of the town. Pop. 93. Smithville (South Alabama p.o.) lies near the E. line. Pop. 147, The first settlement was made in 1806, by James Walsworth.4 The first church (F. W. Bap.) was formed in the E. part of the town, in 1824, by Elder Samuel Whitcomb, the first preacher.⁵ The Tonawanda Indian Reservation occupies a section of land 2 mi. wide, lying on Tonawanda Creek and comprising about one-fourth of the area of the town.

ALEXANDER⁶—was formed from Batavia, June 8, 1812. It lies on the s. border of the co., w. of the center. Its surface is hilly in the center and s. and rolling in the N. The summits in the s. w. are 200 to 250 ft. above the valleys. The streams are Tonawanda Creek, flowing N. through the center of the town, Little Tonawanda, Huron, and Bowens Creeks, and several smaller streams. The soil upon the hills is a gravelly loam with a clay sub-soil, and in the valleys it is a rich alluvium. Alexander, (p. v.,) incorp. April 24, 1834, is situated upon Tonawanda Creek, near the center of the town. It contains a flouring mill, seminary, and 3 churches. It is a station upon the Attica branch of the Central R. R., and also upon the B., N. Y. & E. R. R. Pop. 345. Brookville (p.o.) is a hamlet. The first settlement was made by Alexander Rea, in 1802. The first church (M. E.) was formed in 1835.9

BATAVIA—was formed March 30, 1802. Chautauqua was taken off in 1804, Alexander, Bergen, Bethany, and Pembroke in 1812, and Elba and a part of Stafford in 1820. It is the central town of the co. Its surface is level or gently undulating. A limestone ridge, 20 to 50 feet high extends E. and w. through the N. part of the town. Tonawanda Creek flows northward from the line of Alexander to Batavia Village, where it turns westward and flows centrally through the town to the w. border, Bowens Creek is the only other considerable stream. The soil is a deep, fertile, sandy and gravelly loam with a clay sub-soil. Batavia, (p.v.,) the co. seat, was incorp. April 23, 1823. Besides the co. buildings, it contains a female seminary, 10 union school, 11 bank, 3

Horace Gibbs erected the first sawmill, on a branch of Spring Creek, in the E. part of the town, in 1810; and Comfort Smith the first gristmill, on the same stream, in 1815. The widow of John Young gives the following account of some off the trials of pioneer life:—"My husband having the year before been out and purchased his land upon the Holland Purchase, in the fall of 1804 we started from our home in Virginia, on horseback, for our new location. We came through Maryland, crossing the Susquehanna at Milton, thence via Tioga Point and the then usual route. In crossing the Alleghany Mrs. night came upon us: the horses became frightened by wild beasts, and refused to proceed. We wrapped ourselves in our

The frightened horses snorted and stamped had a disturbed night of it. Trainiers came hear as, storig terrific screams. The frightened horses sorted and stamped upon the rocks. Taking an early start in the morning, we soon came to a settler's house, and were informed that we had stopped in a common resort of the panther. My husband built a shanty, which was about 10 feet square, flat roofed, covered with split ash shingles; the floor was made of the halves of split basswood; no chimney. A blanket answered the purpose of a door for a ball, and the purpose of a door for a continuous continuous and the purpose of a door for a continuous conti ash shingles; the floor was made of the halves of split basswood; no chimney. A blanket answered the purpose of a door for a while, until my husband got time to make a door of split plank. We needed no window: the light came in where the smoke went out. For chairs we had benches, made by splitting logs and setting the sections upon legs. A bedstead was made by boring holes in the side of the shanty, inserting pieces of timber which rested upon two upright posts in front, a side piece completing the structure, peeled basswood bark answering the place of a cord. We of course had brought no bed with us on horseback; so one had to be procured. We bought a cotton bag of Mr. Brisbane, and, stuffing it with cat-tail, it was far better than no bed. The second year we were in, I had an attack of the fever and ague, which confined me for nearly a year. That year my husband cleared four acres, besides taking care of me and doing the cooking. It was no uncommon thing, in the first years of settlement, for women in childbirth to be deprived of the aid of a physician; and often the attendance of their own sex had to be dispensed with. Mr. Young died in 1836." Turner's Pion. Hist. 8 The census reports 5 churches in town; I each Bap, Cong., M. E., Prot. M., and Friends.

GREENE COUNTY.

This county was formed from Albany and Ulster, March 25, 1800, and named in honor of Gen. Nathaniel Greene, of the Revolution. Parts were annexed to Ulster co. May 26, 1812. It lies upon the w. bank of Hudson River, centrally distant 32 mi. from Albany, and contains 686 sq. mi. Its surface is very broken and mountainous. The main range of the Catskill Mts. commences 8 to 10 mi. w. of the Hudson and extends along the s. border of the co. to Delaware co. These mountains are 3000 to 3800 feet above tide. Their summits are broad, wild, and rocky, and their declivities steep and often precipitous. A branch from the main ridge extends in a n. w. direction through the co., separating the towns of Durham and Cairo from Windham and Hunter and dividing the co. into two nearly equal

parts. This ridge is 2500 to 3000 feet above tide. It has a steep and wall-like front on the E., and on the w. it sends off numerous spurs, which extend to the valley of Schoharie Creek. The whole intermediate territory consists of high, rocky ridges separated by narrow valleys. The declivities are generally steep on the N., but more gradual on the s.² Another branch from the main ridge extends northward through the extreme w. part of the co., between the towns of Halcott and Lexington, and forms the series of highlands that rise upon the w. bank of Schoharie Creek. This range forms the watershed between Schoharie Creek and Delaware River. The E. half of the co. is hilly and broken. An irregular line of bluffs extends along the Hudson, with an average elevation of about 100 ft. Parallel to these bluffs, and 2 to 4 mi. further w., is a range of hills 500 to 700 ft. above the river. These highlands are known as the Potick Hills in the town of Athens. Between this ridge and the E. foot of the Catskills the surface is moderately hilly, gradually sloping toward Catskill Creek.

The principal streams of the co. are Hudson River, forming its E. border, Schoharie Creek and its tributaries, draining the w. slope of the mountains, and Catskill Creek3 and its principal tributary the Kaaterskil, draining the E. slope. Small branches of these streams flow through narrow, rocky ravines, which break entirely through the mountains and form passes locally known as "cloves." The principal of these cloves are the Kaaters Kil, opening westward from the Hudson into the valley of Schoharie Creek, and the Bushkil Clove, Stony Clove, Mink Hollow, and Plattekil Hollow, opening southward from Schoharie Creek into the valleys of Ulster co. In many places these ravines are bordered by naked cliffs, nearly perpendicular, and 1000 to 1700 ft. above the streams. The small streams that drain the w. slope of the range in Halcott form branches of the Delaware. Schoharie Creek rises in the town of Hunter, within 12 mi. of the Hudson, flows w. and N., and forms a branch of the Mohawk. The streams are mostly rapid, and are subject to sudden and violent freshets. The E. slope of the mountain and the outcropping strata of the Catskill and Kaaterskil Creeks present to the geologist one of the most interesting and comprehensive fields of investigation to be found on the continent. Within the distance of 12 mi. from the village of Catskill to the Mountain House may be seen nearly all the strata composing the New York system. The gray grits and conglomerates forming the floor of the coal measures are found 110 ft. deep at the summit of the Pine Orchard. The depth of the whole series, within the 12 mi. referred to, is scarcely less than 4000 feet. Few or no metallic veins or valuable minerals, except building and flagging stone, are found in the co.

The soil on the w. slopes of the Catskill is chiefly a reddish, gravelly or shall loam extensively underlaid by hardpan. The surface is stony, except upon the river bottoms, where the soil is fertile and productive. North and E. of the mountains the soil is greatly diversified by sections of gravelly, shally, clayey, and sandy loams; but a stiff clay predominates. Where properly cultivated, it is moderately productive. The whole region is best adapted to grazing; and the principal agricultural exports are butter, cheese, and pressed hay. Oats, barley, and potatoes are extensively cultivated, but, like most of the other eastern course, the grain grown is insufficient for the consump-

all the valuable land in this section lies upon the N. side of the valley.

¹ High Peak has an elevation of 3804 feet above tide, Round Top 3718 feet, and Pine Orchard 3000 feet. The Catskill Mountain House is situated upon the last named mountain.

² The N. sides of these spurs are generally rocky and bare, and the S. sides covered with vast deposits of drift, indicating that a great current of water from the N. once swept over them. Nearly

tion of the population. The principal manufactured products are brick, leather, and paper. Brick are extensively made on the banks of the Hudson, in Catskill, Athens, and Coxsackie, for the New York market. The co. has a considerable interest in the commerce of the Hudson, but less, perhaps, than it had many years ago. No co. has been more seriously damaged in its commercial and manufacturing prospects by the public works of the State than Greene. Before the Erie Canal was completed, Catskill, the co. seat, commanded the trade of the adjacent cos. w., and of the s. tier through to Lake Erie, and some portions of Northern Penn. It was a large wheat market; and at the falls of Catskill Creek, 3 mi. w. of the village, were the most extensive flouring mills in the State. The canals and railroads have limited the commercial transactions of the co. strictly to home trade. A change scarcely less marked and important has taken place in the industrial pursuits of the mountain towns. About 1817, upon the discovery of improved methods of tanning leather, tanners rushed into the Catskill Mts., purchased large tracts of mountain lands covered with hemlock timber, and erected extensive tanneries. The valleys of Schoharie Creek, Batavia, and West Kils soon teemed with a numerous, active laboring population, and the solitude of the deep mountain glens was made vocal by the hum of industry, the buzz of the waterwheel, and the rattling of machinery. Villages of considerable magnitude, with churches, schools, stores, and taverns, rose up in the wilderness as if by magic. Thirty years ago Greene co. made more leather than all the State beside. The supply of bark in this region was soon exhausted, and the proprietors gradually abandoned their establishments and followed the mountain chain s., erecting new factories in Ulster and Sullivan cos.; and their successors are now pursuing the hemlock into the heart of the Alleganies. The result of all this was to facilitate the occupation of the lands in the mountain towns, and in many cases to carry cultivation to the summits of the most lofty ranges, thereby opening one of the finest dairy and wool growing regions in the State.

The county seat is located at Catskill, on the Hudson.2 The first courthouse was a wood building. erected under act of May 26, 1812.3 Some years since, this building was torn down, and a new brick edifice was erected in its place. It contains the court and jury rooms, and district attorney and co. clerk's offices. A stone jail was erected in 1804, and a fireproof clerk's office in 1812. The co. poorhouse is located on a farm of 130 acres in Cairo, 10 mi. w. of Catskill. The farm yields a revenue of \$900. It has on an average 130 inmates, supported at a weekly expense of \$.75 each. A school is taught in the house most of the year. The condition and adaptation of the building, and the management of the inmates, are not thought creditable to the co. authorities.

Five weekly newspapers are published in the co.4

2 Ira Day, Isaac Dubois, Orin Day, Joseph Klein, Ezra Hawley, and Lyman Hall, having executed to the supervisors a bond, under a penalty of \$16,000, to procure a lot and build a courthouse, an act was passed May 26, 1812, allowing the judges to accept the premises when completed. Courts were previously held at the academy, and the prisoners confined in Albany co. jail.

small, isolated settlements were made in the valleys of the streams in the interior of Greene co. The great Hardenburgh Patent, granted by Queen Anne, covered nearly all of that portion of the co. lying w. of the mountains. The N. line of this grant commenced at the headwaters of the Kaaters Kil, being the head of the upper lake at Pine Orchard, and ran a N. W. course to the headwaters of the w. branch of the Delaware, in Stamford, Delaware co. This line was run at three different periods, near the close of the last century, by three different surveyors, no two of them agreeing by the width of whole farms. This disagreement has proved a prolific source of litigation in the courts of the State for 50 years. The patent included all that part of Delaware co. lying E. of the w. branch of Delaware River, and nearly all of Ulster and Sullivan cos. When the settlements commenced, the tract was owned by a great number of individuals, who had purchased by townships. At an early period, Stephen Day (from Conn.) purchased a large tract in Greene co., embracing a considerable portion of the old town of Windham, now forming the towns of Windham, Ashland, Jewett, and a portion of Lexington and Hunter. This tract was principally settled by immigrants from Connecticut.

ASHLAND—named from the home of Henry Clay—was formed from Windham and Prattsville, March 23, 1848. It lies in the N. W. part of the co. Its N. and S. borders are occupied by two parallel spurs of the Catskill Mts., 800 to 1000 ft. above the valley. Batavia Kil flows westward through the town at the foot of the s. range. This stream is bordered upon the N. by steep bluffs 150 to 200 ft. high; and from their summits the surface gradually slopes upward to the s. foot of the N. ridge near the N. border of the town. Lewis Creek and several smaller streams are tributaries of Batavia Kil. About two-thirds of the land in the town is improved. Ashland, (p.v.,) on Batavia Kil, in the s. part of the town, contains 2 churches and a collegiate institute. Pop. 400. East Ashland is a hamlet. The first settlement was made in the valley of Batavia Kil, previous to the Revolutionary War, by a few Dutch families from Schoharie co. During the war, being harassed by the Indians and tories, the settlers returned to Schoharie co. The first permanent settlement was made in 1788, by Elisha Strong and several brothers named Stimpson.² The first tannery was built in Ashland, in 1798, by Foster Morss. There are 6 churches in town.³

ATHENS—was formed from Catskill and Coxsackie, Feb. 25, 1815. It is situated on the Hudson, near the center of the E. border of the co. Its surface is broken by several rocky hills and ridges lying parallel with the Hudson, with uneven or undulating intervales between. A range of high clay bluffs borders upon the river; and a high rocky ridge, known as Poticks Hill, extends through the w. part of the town. Several small streams flow southerly through the town, and Potick Creek forms its w. line. In the w. part of the town are 3 small lakes. In their vicinity, 4 or 5 mi. w. of the Hudson, are extensive beds of the Helderbergh limestone, large quantities of which are quarried for building purposes and for the manufacture of lime. Near the river the soil is a tough clay, bordered by sand; elsewhere it is a sandy and gravelly loam of a good quality. Brick and lime are the principal articles manufactured, and these, with hay, form the exports of the town. Athens, 4 (p. v.,) incorp. April 2, 1805, is situated on the Hudson, opposite the city of Hudson. Pop. 1747. The E. part of the town was settled at a very early period by immigrants from Holland.⁵ There are 5 churches in town.⁶

CAIRO—was formed from Catskill, Coxsackie, and "Freehold," (now Durham,) March 26, 1803, as "Canton," and its name was changed April 6, 1808. It is situated at the E. foot of the Catskill Mts., the crest of the mountain forming its w. boundary. Its central and E. parts are broken by several high, rocky ridges. Round Top, also called the Dome Mountain, is a rocky, isolated hill 500 ft. high. The Catskill Creek flows s. E. through the town, and receives from the N. John Debackers Creek and Platte Kil, and from the s. Shingle and Hagel Kils. The soil is a clayey, gravelly, and shaly loam, fertile in the valleys and of medium quality among the hills. Cairo, (p. v.,) situated near the center of the town, on the Old Susquehanna Turnpike, contains 4 churches and several manufacturing establishments. Pop. 353. Acra, (p.o.,) in the w., S. Cairo, (p.o.) and Cairo Forge, about 1 mi. s. of Cairo, are hamlets. Settlements were made on the Shingle Kil previous to the Revolution. A Presb. church was organized May 22, and a Bap. May 25, 1799. There are 7 churches in town.8

¹ The Ashland Collegiate Institute was founded in 1854, under the care of the M. E. denomination. The present number of boarding pupils (1858) is 100.

Doarding pupils (1858) is 100.

2 Among the early settlers were Argalus White, John Tuttle, Jairus Strong, Solomon Ormsbee, Dr. Thomas Benham, and Medad Hunt, most of whom were from Connecticut. The first birth was that of Deborah Stone, in 1789. Sandford Hunt kept the first store, and Medad Hunt the first inn, in 1795. Ex Gov. Washington Hunt, son of Sandford Hunt, was born in this town.

CATSKILL¹—was formed March 7, 1788, as part of Albany co. It was annexed to Ulster co. April 5, 1798. A part of Woodstock (Ulster co.) was annexed March 25, 1800; a part of Cairo was taken off in 1803 and a part of Athens in 1815. It lies upon the Hudson, in the s. E. corner of the co. The surface is broken by several rocky ridges parallel to the Hudson: these ridges are principally composed of shales and gray grit. In the latter formation are extensive quarries, from which a fine quality of flagging stone is obtained and largely exported. A swamp, covering an area of several hundred acres, extends along the Hudson below Catskill Village. The Catskill Creek flows s. E. through the N. E. corner to the Hudson, and receives the Kaaters Kil after the latter has pursued an irregular course through the center and s. w. part of the town. The other streams are Kiskatom Creek, and Jan Vosent Kil. The soil is principally tenacious clay, with sections of gravelly and shalv loam. Hav is the principal agricultural export. Large quantities of brick are manufactured and exported. Catskill Village being the chief entrepôt for the co., commerce is a leading pursuit. Catskill, (p. v.,) the co. seat, was incorp. March 14, 1806. It is situated on the Hudson, at the mouth of Catskill Creek. It contains 5 churches, 3 newspaper offices, 2 banks, and a large number of mercantile and manufacturing establishments. Pop. 2,520. Leeds, (p. v.,) situated at the falls on Catskill Creek, contains 2 churches and several manufactories. Pop. 450. Jefferson, (p. v.,) between Catskill and Leeds, has a population of about 300. Palensville, (p. v.,) in the w. part, on the Kaaters Kil, contains 2 tanneries, a woolen factory, and 18 houses. Kiskatom is a p. o. Settlements were made upon the Hudson at an early period, by German immigrants. The flats in the valley of Catskill Creek w. of Leeds were first settled by Martin G. Van Bergen and Sylvester Salisbury, who in 1677 purchased the Indian title to an extensive tract. There are 9 churches in town.² The Catskill Mountain House is on the line of Hunter. See page 333.

CONSACKIE3—was formed, as a district, March 24, 1772, and as a town, March 7, 1788. Durham was taken off in 1790, a part of Cairo and Greenville in 1803, New Baltimore in 1811, and a part of Athens in 1815. It lies upon the Hudson, N. E. of the center of the co. A range of clay bluffs about 100 ft. high extends along the course of the river, and a range of hills 500 ft. high through the center of the town. The surface is level or undulating in the E. and is hilly and broken in the w. The principal streams are the Coxsackie, Potick, and Jan Vosent Creeks. The soil in the E. is clayey and sandy, and in the w. it is a gravelly, shaly, and clayey loam: brickmaking is extensively pursued. Coxsackie, (p. v.,) situated near the Hudson, contains—churches, an academy, and several manufactories. Pop. 1,800. Coxsackie Landing, 1 mi. E. of the village, contains 1 bank, newspaper office, and 4 churches. Jacksonville, in the w. part, is a hamlet. The Dutch settled in town about 1652, on a tract about 6 mi. sq. purchased of the Indians. There are 8 churches in town.

DURHAM—was formed from Coxsackie as "Freehold," March 8, 1790; its name was changed March 28, 1805. Parts of Cairo, Windham, and Greenville were taken off in 1803. It lies near the center of the N. border of the co. Its surface is hilly and broken, the N.E. corner being occupied by the s. slopes of the Helderbergh Mts., and the w. border by the Catskills. The principal streams are Catskill Creek, flowing s. E. through the E. part, and its tributaries Fall, Bowery, Posts, and Brink Street Creeks. The soil is generally a heavy clay, with occasional sections of gravel. There are several mills and tanneries on Catskill Creek, which stream affords a fair amount of water power. Oak Hill, (p.v.,) on Catskill Creek, has a pop. of 320. Durham, (p.v.,) 1 mi. w. of Oak Hill, contains 2 churches and 30 houses, East Durham (p.v.) 17 houses, Cornwallville, (p.v.,) in the central part of the town, 15 houses, and South Durham (p.o.) 10 houses. Centerville is a hamlet. The settlement of the town was commenced in 1776. Capt. Asahel Jones and Rozel Post, from Conn., settled in 1788. There are 7 churches in town.

GREENVILLE—was formed from Coxsackie and "Freehold," (now Durham, March 26, 1803, as "Greenfield." Its name was changed to "Freehold" in 1808, and to Greenville, March 17, 1809. It lies on the N. border of the co., E. of the center. Its surface is hilly,—the southern extremity of the Helderbergh Mts. occupying the central and w. parts of the town. The principal streams are Potick, John Debackers, and Basic Creeks. The soil is chiefly a heavy, clay loam, well adapted to grazing; but much of it has been exhausted by too frequent croppings with hay. About 1 mi. w. of Greenville Center is a sulphur spring. HALCOTT-was formed from Lexington, Nov. 19, 1851, and named from George W. Halcott, then sheriff of Greene co. It is situated in the s.w. corner of the co., and is separated from the other towns of the co, by a mountain ridge 1000 feet high. This ridge is crossed by difficult and unfrequented roads. A considerable portion of the territory is covered with forests. The surface is mountainous, comprising four valleys, in which rise the sources of the E, branch of the Delaware. The soil is chiefly a gravelly loam of medium quality, and stony, but is well adapted to grazing. From its isolated position among the mountains,4 the chief avenue of communication with the outside world is on the s., by way of Middletown, Delaware co. West Lexington (p. o.) is in the central part of the town. The first settlement was made on the Bush Kil, in 1790, by Reuben Crysler, — Thurston, Joseph Brooks, and Timothy Tyler. There are 2 churches in town; O. S. Bap, and M. E.

HUNTER6—was formed from Windham as "Greenland," Jan. 27, 1813. Its name was changed April 15, 1814, a part of Saugerties was taken off in 1814, and a part of Jewett in 1849. The surface is rocky and mountainous, not more than one-fourth being susceptible of cultivation. Several of the highest peaks of the Catskills-among which are High Peak, Round Top, and Pine Orchardlie within the limits of this town. Two narrow valleys extend quite through the mountains and cross each other at nearly right angles near the center of the town. The first of these is the valley of Schonarie Creek and its southerly continuation, that of the Platte Kil; and the second, that of the Kaaters Kil and Stony Clove. The soil is generally a heavy, clayey and shaly loam, very stony, and poorly adapted to agriculture. Hunter, (p.v.,) situated on Schoharie Creek, in the N.W. part of the town, contains 2 churches and several manufacturing establishments. Pop. 393. Tannersville, near the center, is a p. office. Settlements were made during the Revolution, by "cowboys" from Putnam co. Their property was confiscated by the Whigs.8 Col. Wm. W. Edwards and his son Wm. W., from Northampton, Mass., moved into town in July, 1817, and erected the first extensive tannery in the State in which the then new method of tanning was adopted. Within a few years after, other tanneries were built, and a very large amount of leather was made in the town annually for a long series of years, until the hemlock bark was exhausted. Most of the establishments are now abandoned. There are 3 churches in town; Presb., M. E., and R. C.

JEWETT⁹—was formed from Lexington and Hunter, Nov. 14, 1849. A part of Lexington was taken off in 1858. It lies near the center of the w. half of the co. High and rocky spurs extend w. from the principal N. branch of the Catskills; and a high and almost precipitous ridge extends along the s.w. border. Schoharie Creek and its tributary East Kil are the principal streams. The soil is a heavy, reddish, gravelly loam of medium quality, often stony and rocky, and largely underlaid by a tough hardpan. **Jewett**, ¹⁰ (p. v.,) in the N. w. part of the town, contains 2 churches and 14 houses. Jewett Center, at the junction of East Kil and Schoharie Creek,

8 Samuel, Elisha, and John Haines, and Gershon Griffin, entered the mountains by way of Kingston and Mink Hollow, and settled on Schoharie Kil. Their location was discovered a year or two after by some Dutchmen from the E. side of the mountain, while hunting bears. They were followed, in 1786, by a number of Shay's followers, from Mass., who, on the suppression of his rebellion, field to the mountains. James and Jacob Carl settled in the town in 1785; Saml. Merritt, and Saml. and Win. Hayes, in 1791. Roger Bronson was the first settler at the village of Hunter. The first birth was that of John Haines. Mr. Olmsted built the first gristmill, in 1794, and subsequently the first tannery, and kept the first store and inn.

LEXINGTON-was formed from Windham as "New Goshen," Jan. 27, 1813, and its name was changed March 19, 1813. A part of Jewett was taken off in 1849, but reannexed in 1858, and a part of Halcott was taken off in 1851. It lies on the s. border of the co., w. of the center. More than one-half of the surface is occupied by the lofty peaks and ridges of the Catskills. Schoharie Creek, flowing through the N. E. corner of the town, is bordered by high and steep rocky ridges. West Kil, its principal tributary, drains a valley 9 mi. in length, everywhere bordered by lofty mountains except on the w. Bush Kil Clove is a natural pass in the mountains, extending from the Schoharie Valley s, into Ulster co. The soil is a slaty and gravelly loam. Only about two-fifths of the surface is susceptible of cultivation. Lexington, (p. v.,) on Schoharie Creek, N. of the center of the town, contains 2 churches and 27 dwellings, and West Kill (p.v.) 1 church and 31 dwellings. Bushnellsville is a p. o. on the line of Ulster co. The first settlement was made in 1788, on the flats of Schoharie Kil.2 There are 3 churches in town; 2 Bap. and M. E.

NEW BALTIMORE—was formed from Coxsackie, March 15, 1811. Scutters, Little, and Willow Islands were annexed from Kinderhook April 23, 1823. It lies upon the Hudson, in the N. E. corner of the co. The general surface is hilly and broken. A line of high, rugged clay and slate bluffs rises from the river to a height of 100 to 200 feet, and a range of high, broad hills extends s. through the center of the town. The w. part is comparatively level. The principal streams are Hannakrois Creek in the N. w. corner, Deep Clove Kil, Cabin Run, and the E. branch of Potick Creek. Nearly all these streams flow through narrow and rocky ravines. The soil is chiefly a heavy clay loam, with limited patches of sand and gravel. New Baltimore, (p. v.,) on the Hudson, in the N. part of the town, contains 2 churches, and has a pop. of 709. Medway is a p. office. Settlement was commenced upon the Coxsackie flats at an early period. The Broncks, Houghtalings, and Conyns were among the first settlers. There are 9 churches in town.8

PRATTSVILLE—was formed from Windham, March 8, 1833, and named from Col. Zadock Pratt. A part of Ashland was taken off in 1848. It is the N.W. corner town of the co. Its surface is principally occupied by broad mountain uplands bordered by steep and rocky slopes. Schoharie Creek and Batavia Kil flow through wild and narrow mountain gorges. The soil is a heavy, reddish, gravelly and clayey loam, moderately fertile and profitable only for grazing. Prattsville, (p. v.,) on Schoharie Kil w. of the center of the town, contains 3 churches and several manufactories.4 Pop. 617. Red Falls, (p.v.,) on Batavia Kil, contains a cotton factory, a paper mill, and several other manufacturing establishments. Pop. 231. Settlements were made on the flats at Prattsville by Dutch immigrants from Schoharie co., during the period between the close of the Old French War in 1763 and the breaking out of the Revolution in 1776.5 During the latter war the settlement was attacked by a body of Indians and tories led by a British officer. The inhabitants rallied, and a battle took place upon the bank of Schoharie Kil, a little below the Windham Turnpike Bridge, N. of the village, in which the Indians and their allies were routed. Rev. Cornelius D. Schermerhorn was the first settled preacher. There are 3 churches in town; Ref. Prot. D., Prot. E., and M. E.

WINDHAM—was formed from Woodstock, (Ulster co.,) as part of Ulster co., March 23, 1798. "Greenland" (now Hunter) and Lexington were taken off in 1813, Prattsville in 1833, and a part of Ashland in 1848. A part of "Freehold" (now Durham) was annexed March 26, 1803. It lies upon the w. declivities of the Catskills, N. w. of the center of the co. Its surface is very broken and hilly. A high range of mountains extends along the s. border, at the N. foot of which flows Batavia Kil,6 in a deep, rocky valley. The central and N. parts are occupied by mountain spurs divided by narrow ravines. The soil is a heavy, gravelly and clayey loam, of which disintegrated shale forms a large

¹ Zephaniah Chase, from Marthas Vineyard, (Mass.,) settled in the town in 1787; and Chester Hull, from Wallingford, Conn., a soldier of the Revolution, in 1789. Among those who settled soon after were Zadock Pratt, Theop. and Sam. Peck, Eb'r David, and Stephen Johnson. Laban, Ichabod, Abraham, and Amherst Andrews, Benajah, John, and Jared Rice, Henry Goslee, Justus Squires, Daniel Miles, Adnah Beach, Isaac and Munson Buel, Gideon, Reuben, and Joel Hosford, and Samuel and Daniel Mervin. The first birth was that of Henry Coslee, Jr. Wm. Gass kept hen first inn, in 1790, Elisha Thompson the first store, in 1795, and Laban Andrews built the first gristmill the same year.

2 Among the early settlers were John Laraway and his sons John, Jonas, Derick, and Martinus, Isaac Van Alstyne, — Vroman, John and Peter Van Loan, Hendrick Becker, and a family by the name of Shoemaker. The first school was taught with the first transport of the first gristmill.

HAMILTON COUNTY.

This county was formed from Montgomery, Feb. 12, 1816; but its independent organization has never been fully completed.1 It occupies the central portions of the great wilderness region in the N.E. part of the State; is centrally distant 80 miles from Albany. and contains 1,745 sq. mi. Its surface is a rocky, mountainous, and hilly upland and is still mostly covered with the original forests. The highlands are divided into several ranges, generally distinct, but in many places sending out spurs that interlock with each other. and all extending N.E. and S.W. The Schroon Range-called in Fulton co. the Mayfield Mts, -crosses the s. E. corner of Hope. This range ends upon Lake Champlain at Crown Point, the highest point being Mt. Crane, in Warren co. The Baquet Range, parallel

to the first, extends through the co. between Wells and Lake Pleasant. This range terminates upon Lake Champlain at Split Rock, the highest peak being Dix Peak, in Essex co. The Adirondack Range, next N., extends from the Mohawk, at Little Falls, N. E. through Morehouse, Arietta, Long Lake, Gilman, and Wells, ending at Trembleau Point, on Lake Champlain, Mt. Marcy being the highest peak, and the highest point in the State. Its course is in a wave or undulating line occupying a space of 4 to 6 mi. in width. Next N. is the Au Sable Range, extending N. of the Fulton chain of lakes and Long and Racket Lakes. The highest points are Mt. Emmons, in this co., and Mt. Seward, in Franklin co. Spurs from this range occupy the entire N. part of the co. and extend into St. Lawrence and Herkimer cos.2

Within the valleys between these mountain ranges are several remarkable chains of lakes, many of them connected by considerable streams and all affording a large amount of boat navigation. These lakes are generally long and narrow, are bordered by steep banks and high mountain peaks. Their waters are clear and cold, and they form the most interesting features of the landscape. Although flowing in different directions, separated by high mountains, and extending over an area of more than 60 mi., they have a nearly uniform elevation.3 The first chain on the s., commencing in Stratford, Fulton co., includes several small ponds in the s. E. corner of Hope, several ponds in Johnsburgh, Warren co., and Schroon and Paradox Lakes in Essex co. The second chain embraces Jerseyfield Lake and several others in Herkimer co., flowing s., Piseco, Round, Spy, and Ox Bow Lakes, Lake Pleasant, and a great number of smaller ones, all flowing into Sacondaga River. The third chain, lying between the two highest ranges of mountains, is composed of lakes less in extent than either of the other chains. It comprises Woodhull Reservoir and about 20 small lakes, principally in Herkimer co., flowing into Black River; a large number of small ponds in the immediate vicinity, flowing into West Canada Creek; Indian, Square, Beaver, Wilmurt, and a dozen smaller ones, in Hamilton co., flowing into Black and Indian Rivers; and the Indian Lakes, flowing into the Hudson. In Essex co. this chain embraces Lakes Rich, Sanford, and Henderson, and numerous others, lying near the foot of Mt. Marcy. The fourth or N. chain is the most extensive of all. It comprises Brantingham and other Lakes in Lewis co., flowing into Moose and Black Rivers; the Fulton chain and about 20 other lakes in the N. part of Herkimer, respectively flowing into Beaver and Moose Rivers; Cranberry Lake and many others in the s. part of St. Lawrence, flowing into Oswegatchie and Grasse Rivers; Tuppers, Racket, Forked, and Long Lakes, and 50 others, in Hamilton co., and a large number in Franklin, flowing into Racket River; St. Regis Lake, Osgoods Pond, and numerous others, into St. Regis River; Ragged Lake, Round and Ingraham Ponds, into Salmon River; Lake Placid, into the Au Sable; the Chateaugay Lakes, into Chateaugay River; and the Chazy Lakes, into Chazy River. All these last named lakes are in Hamilton, Franklin,

2 This region was called by the natives Coughsarage, "the dismal wild-rness." The following entry on a map published about the period of the Revolution, or soon after, gives the prevailing opinion of that day concerning these lands :- "Through 336

this tract of land runs a chain of mountains, which, from Lake Champlain on one side and the river St. Lawrence on the other side, show their tops always white with snow; but altho' this sue, show their tops always white with snow; but altho' this one unfavorable circumstance has hitherto secured it from the claws of the harpy land jobbers, yet no doubt it is as fertile as the land on the east side of the lake, and will in future furnish a comfortable retreat for many industrious families."

3 The eighth lake in the N. chain, flowing W., is 1,678 feet above tide; Racket Lake, 2 mi. N., flowing E., 1,745 feet; the Upper Saranac, flowing E., 1,567 feet; and Lake Sanford, flowing S., 1,826 feet.

¹ Named in honor of Alexander Hamilton. The territory was included in Herkimer co. Feb. 16, 1791, but was reannexed to Montgomery March 31, 1797. It can complete its organization Montgomery March 31, 1797. It can complete its organization when it has a sufficient population to entitle it to a member of Assembly. It remained appended to Montgomery until 1838, when it was annexed to Fulton on the erection of the latter co. Courts were established in 1837.

Essex, and Clinton cos., in close proximity to each other. The streams, forming the outlets of the lakes, are mostly small. The whole region being a mountainous plateau higher than the surround ing country, the streams that rise here flow in all directions and form tributaries of the St. Lawrence, Lake Champlain, the Hudson, Mohawk, and Black Rivers. Several of the rivers have the same name as the lakes which respectively form their headwaters; as the Racket, Chazy, and Chateaugay.1

This whole region is primitive, the rock being principally gneiss. Calciferous sandstone and Trenton limestone are found upon Sacondaga River. White limestone is also found in several localities. Peat is found in great abundance in the vlaies, or natural meadows, which extend along the valleys. Iron ore and graphite are both found,—though no surveys have been made to ascertain their extent. A large amount of labor has been expended in mining for silver; with what success is unknown. The soil is a light, sandy loam, and, except in the valleys, is not susceptible of profitable cultivation. The mountain sides are covered with a thin growth of forest trees, and when cleared seem incapable of supporting vegetation. The valleys at first are productive, but, being deficient in lime, as soon as the vegetable mold is exhausted they become barren,

The county seat is located at Sageville, in the town of Lake Pleasant.2 The co. buildings, consisting of a courthouse, jail, and elerk's office, were erected in 1840. Each town supports its own poor, and the co. poor are provided for by the Superintendent at the most convenient place. There has never been a paper printed within the co.3 The public works are entirely prospective.4 Most of the territory of the co. is included in the Totten and Crossfield Purchase of 1773.5 Grants within the limits of the co. were made in colonial times to Sir Jeffrey Amherst, Henry bulfour, and Thomas Palmer. Arthursboro, in Morehouse, was granted to Arthur Noble. The first settlement was made about 1790.

ARIETTA6—was formed from Lake Pleasant, May 13, 1836. A part of Long Lake was taken off in 1837. It extends from the s.w. border northward nearly across the co., a little w. of the center. Its surface is much broken, and it contains a great number of wild, picturesque lakes. Of these, Racket and Forked Lakes, in the N. part, and Piseco,7 in the s., are the most important. The principal streams are the w. and s. branches of Sacondaga River. A considerable amount of lumbering is carried on.8 Piseco, formerly a p.o., and once a busy village of some 250 inhabitants, is now nearly deserted, and contains but 4 families.9 There is no p.o. in town. The first settlers were Shadrack Dunning, at the E. end of Piseco Lake, in 1827, and David Woolworth, in the s. part, about the same time. Rensselaer Van Rensselaer, of Albany, settled in 1834.10

GILMAN¹¹—was formed from Wells, April 23, 1839. A part was annexed to Wells in 1858. It is an interior town, extending in a long, narrow strip near the E. border of the co. Its surface is much broken by mountains and diversified by small lakes. Several of the highest peaks in the co. are in this town; but their elevations have never been ascertained. It is the least populous town in the State. Gilman (p.o.) is in the s. border. Most of the settlers are in the s. part, a few only living on the extreme N. border, quite isolated from their fellow townsmen. Philip Rhinelander, a wealthy merchant of New York, began the first settlement.¹²

² The first co. officers were Richard Peck, First Judge; Saml. Call, County Clerk; James Harris, Sheriff; G. R. Parburt, District Attorney; and Thos. H. Kline, Surrogate.

The route of the Ontario & Hudson R. R., from Saratoga to *The route of the Untario & Hudson R. R., from Saratoga to Sackets Harbor, extends through the N. part of the co. The route is located; but no grading has been done within the co. Several surveys have been made to test the practicability of connecting Piseco Lake with Lake Pleasant, the Fulton chain with Racket Lake, and Racket River with the Upper Saranac Lake, for the purpose of forming a slackwater navigation through the co. These schemes have been pronounced feasible. Considerable sums have been expended upon some of the streams so that logs might be floated down.

5 A large share of this tract has reverted to the State by escheat, confiscation, and tax sales. It was purchased, at the request and expense of Joseph Totten, Stephen Crossfield, and others, from the Mohawk and Canajoharie Indians, at Johnsons.

8 Henry Devereaux, some years since, began lumbering on a large scale in the s. part, and built a tram R. R. some 8 or 10 mi. long. He also spent many thousand dollars in buildings and machinery; but the enterprise proved a failure.

9 In 1838 Andrew K. Morehouse, an extensive landholder, built at this place a gristmill, sawmill, machine shop, a large hotel and boarding house, and some half dozen dwellings. Strong inducements were offered to settlers; but they became dissatisfied with the title, and one by one dropped off. In 1843 he again tried to retrieve his fortunes by the formation of a joint stock Co. and induced some 200 settlers to come in. Some returned the same day; others remained a week or a month.

10 Eli Rood, of Saratoga, settled on the beech flats, E. of Piseco Lake; R. Dibble and Seth Whitman near the foot of the lake; and Zadock Ross, from Clifton Park, s. of the lake. The first birth was that of Miss M. M. Dunning, Aug. 23, 1829; the first birth was that of Miss M. M. HOPE'-was formed from Wells, April 15, 1818. A part of Lake Pleasant was annexed May 10, 1847. It lies upon Sacondaga River, in the s.E. corner of the co. Its surface is broken and mountainous. It is the most populous town in the co., and the settlements are chiefly in the E. part. The w. portion is still a wilderness, known only to hunters. The mountains are very irregular; but in general they extend upon both sides of the river, and, as usual in this region, have their longest slope to the s.w. The principal tributary of the Sacondaga is East Stony Creek; and the main range of mountains lies between this stream and the river.2 Lumbering and tanning are extensively carried on. Hope Center, Benson, and Benson Center are p. offices. Hope Falls (p. o.) is a hamlet. Settlement was begun in 1790, in the s. border of the town.3

INDIAN LAKE—was formed from Gilman, Long Lake, and Wells, Nov. 13, 1858. It lies upon the E. border of the co., N. of the center.4

LAKE PLEASANT—was formed from Johnstown, Fulton co., May 26, 1812. Parts of Stafford, Johnstown, and Salisbury were annexed at the time of the formation of Hamilton co. Morehouse was taken off in 1835, Arietta in 1836, and a part of Long Lake in 1837. A part was annexed to Hope in 1847, and a part to Wells in 1858. It is the central town of the co., and includes a long tract extending from x, to s, to within a few mi, of each extremity of the co. Its surface is broken and mountainous, and most of it is still a wilderness. Lake Pleasant, from which it derives its name, is about 4 mi. long by 1 wide. Round Lake, ½ mi. from this, is very irregular in form, and about 1½ mi. across in the widest part. The Eckford chain of lakes, in the N. part, are in the midst of wild mountain solitudes. The upper of these is named Janet Lake.6 The principal streams in the s. are the N. and w. branches of the Sacondaga, and in the N. the Racket and its tributaries. A mine of graphite has been opened 4 mi. N. of Sageville. Limestone mixed with silex and mica, from which quicklime is obtained, is found s. of Lake Pleasant. Lumbering and shingle making are carried on to a considerable extent. Lake Pleasant, (p.o.,) at the foot of the lake, contains a hotel and 2 dwellings. Sageville (p.v.) is situated on a beautiful elevation 50 feet above Lake Pleasants and Round Lake, about one-fourth of a mi. distant from each. It contains the co. buildings, a large hotel, a church, and several dwellings. Settlement was commenced about 1795, by Joseph Spier, of Columbia co.9 Meetings were first held by Rev. Elisha Yale; and the first settled minister was Rev. Ryan Bristol.

LONG LAKE-was formed from Arietta, Lake Pleasant, Morehouse, and Wells, May 4, 1837. It extends across the N. end of the co., and is named from the principal lake within its borders. Its surface is very broken, and numerous small lakes are scattered through its forests. Settlement was begun in Township 21, a few years before the date of its organization.¹⁰ There is no p.o. in town.

MOREHOUSE¹¹—was formed from Lake Pleasant, April 13, 1835. A part of Long Lake was taken off in 1837. It extends along the w. border of the co., from the s. extremity to Long Lake.

He remained here until the death of his wife, in 1818 or '19, and soon after, being struck with paralysis, was obliged to return to New York. The property, after repeated sales, is now owned by Dr. Elliott, an oculist of New York City. Gilman and his sons were the next settlers. John Carter, Anew Morrison, Samuel Johnson, Jr., Wm. B. Peek, Wm. Orcutt, and others were early settlers. Mrs. Rhinelander was the first person that died. Susan Gilman taught the first school, in 1823. No inn has ever been licensed in town.

³ Gideon and Jeremiah Olmstead, from Mass, were the first settlers. Issachar Robinson, Peter Wager, Asa Deville, Jacob Houck, John Graff, and Elisha Wright settled about 1791–92, a little № of the center of the town. Zadock Bass, — Conklin, Elkanah, Amos, and Issace Mason came into the E. part in 1805. The first birth was that of Lucinda Olmstead; and the first death, that of Mrs. Conklin, about 1800. — Wilson, a Scotchman, kept the first school.

7 Known for several years as "Luke Pleasant," until changed through the agency of Hezekiah Sage, of Chittenango, who built a large hotel and attempted to establish an extensive business there. Efforts have been made to procure a change of the present name, but without success.

8 A few years since, Abraham R. Lawrence, of New York City, built a large hotel for summer resort at the head of Lake Pleasant. As a speculation it proved a failure.

9 Benj. Macomber, John Barnes, Joseph Davis, Joshua and Jonathan Rich, Jesse Callop, Caleb Nichols, Geo. Wright, Ephraim Page, Daniel Fish, Henry Burton, Lemuel Holmes, and B. Saterlees settled in town before 1806. The first birth was that of Olivia Spier, in 1806; and the second, that of Eleanor Macomber, who died a missionary in Burmah. Geo. Wright kept the first int, in 1806, and Wm. B. Peck the first store, in 1817. A sawmill was built by — Foster, in 1795; and a gristmill, by Joseph Spier, in 1797.

10 David Keller, James Sargent, Owen Skinner, Zenas Parker Josel Plumley, and John Cunningham were first settlers. The first death occurred in 1838. A school was first taught in 1840 by Lucina Bissell. There are now 3 schools in town. A Cong church was formed in 1842, by Rev. John Todd, of Pittsfield, Mass, and placed under the charge of Rev. M. Parker. This is the most secluded town in the State. It is usually reached from Essex co., to which the settlers resort for their mails and trade. Schroon River n.o., Essex co., is the nearest and most Schroon River p.o., Essex co., is the nearest and most convenient office for receiving mails.

Its surface is hilly and mountainous. In the several valleys which extend across the town are numerous lakes. Jerseyfield Lake, upon the s. border, is the principal lake in the s. part. The 5th, 6th, 7th, and 8th lakes of the Fulton chain, in the N. part, discharge their waters into Moose River. Jones, Deer, Goose, and several other lakes flow into West Canada Creek. Morehouse-Ville, in the s. part, is a p.o. The Arthurboro Patent was mostly within the limits of this town. The tract of 50,000 acres purchased by Jonathan Lawrence was also partly in this town. The first settlement was commenced, under the agency of Andrew K. Morehouse, in 1833.2

WELLS3—was formed from Mayfield and Northampton, Fulton co., May 28, 1805. Hope was taken off in 1818, a part of Long Lake in 1837, and Gilman in 1839. A part of Mayfield was annexed June 19, 1812; parts of Mayfield and Northampton in 1816; and parts of Gilman and Lake Pleasant in 1858. It lies along the E. border of the co. and forms a part of the hunting grounds of Northern N.Y. Its s. part is inhabited by a few families on Indian Lake. It is intersected by mountain ranges separated by deep, narrow valleys. The highest peaks are 2,000 to 2,500 feet high and are covered by masses of naked rock. The three branches of the Sacondaga unite in the s. part, forming a large stream. Jessup and Cedar Rivers, in the N., are large streams. Indian Lake is a sheet of water about 6 mi. long; and further x. is a cluster of small lakes flowing into the Hudson. There are numerous other small lakes in other parts, known only to hunters. The soil is light and sandy. Calciferous sandstone appears in situ above Wells Village. Wells (p.v.) contains a large tannery, gristmill, sawmill, and 15 dwellings; Pickleville, one-half mi. above, contains 2 churches and 15 dwellings. Settlement began in 1798.4

1 The Arthurboro Patent included 3 townships, one 10 and the first death, that of a son of Christian Weaver, by a fall-the others each 3 mi. square. It was granted to Arthur Noble, Feb. 15, 1787, for 1 shilling per acre. He endeavored to effect the settlement of 100 families, but failed. The tract to Mr. Lawrence was granted for 3½ shillings per acre.

3 Named from Joshua Wells, the first settler.

² Mr. Morehouse bought a tract of land, built a sawmill, store, and dwelling, and came in with his family early in Aug. 1834. Began a small village 1 mi. w. of Morehouseville, called "Bethuneville," but the project failed. Dennis and Henry Tucker, Theodore Marnche, Ezra Combs, Jonathan Tift, Christian Warger, Flice, Floherd, I. P. Beily, and P. Parett very tian Weaver, Elias Rickard, J. B. Reily, and B. Bennett were early settlers. The first birth was that of a son of Wm. Baker; the first marriage, that of David Bushnell and Miss Squires;

Named from Joshua Weils, the first settler.
4 Joshua Wells, a native of Long Island, who came on as agent for the proprietors of Palmer's Purchase, in 1798, built the first mills. Issac and Joshua Brown came with Wells, and kept "bachelors' hall" several summers before any families came in Amass Gage, Giles Vanderhoof, Nicholas Bradt, John Francisco, Phacther Joseph Weight Overachen Issiah Whitman.— Rose. Elnathan Lacy, Michael Overacken, Isaiah Whitman, — Rose, and others, were early settlers. — Van Zandt kept the first store; and Platt Whitman built the first tannery, in 1825.

HERKIMER COUNTY.

This county was formed from Montgomery, Feb. 16, 1791.1 Onondaga was taken off in 1794, Oneida and a part of Chenango in 1798; the present territory of Hamilton co. was taken off and annexed to Montgomery in 1797; parts of Montgomery co. were annexed April 7, 1817; and parts of Richfield and Plainfield, Otsego co., were annexed in forming Winfield in 1816. It is centrally distant 80 mi. from Albany, and contains 1,745 sq. mi. Its surface is a hilly upland, with a series of ridges extending in a general N. and s. direction. Mohawk River flows E. through the co. in a deep valley which cuts the ridges at right angles and separates the highland into two distinct parts. A broad ridge extends from the s. border to the Mohawk, and thence N. of that river along the w.

bank of East Canada Creek to the N. line of the co. The Hasenclever Mts., another broad ridge, lie along the w. border of the co., N. of the Mohawk. From the Mohawk the highlands rise toward the s. in a series of hills, the declivities of which are steep and their summits 500 to 1,000 ft. high. North of the river the surface gradually rises to a height of 1,000 to 1,500 ft., where it spreads out into a rocky and broken plateau region, the highest summits being 2,500 to 3,000 ft. above tide.

Mohawk River breaks through a mountain ridge at Little Falls, the valley forming a natural channel of communication between Lake Ontario and Hudson River. At this place the mountains on each side of the river are masses of naked rock rising nearly perpendicular to a height of 500 to 600 ft. An intervale, with an average width of 2 mi., extends along the river w. of the pass, and from it the land rises on each side in gradual slopes. East of this point the Mohawk flows for some distance through a valley bordered by steep and nearly perpendicular hills. The river receives from the N., Starling, West Canada, Cathatachua, and East Canada Creeks; and from the s Furnace, Browns Hollow, and Nowadaga Creeks. East Canada Creek² forms a portion of the E. boundary of the co., and receives as tributaries Trammel, Spruce, and several other small creeks. West Canada Creek flows s. w. through Wilmurt, Ohio, and Russia, thence s. E. along the w. border of Russia, thence s. through Newport, Fairport, and Herkimer, to the Mohawk. It receives from the E. Black, White, and North Creeks, and from the w. several small brooks. Several small streams take their rise in the s. part of the co. and form branches of the Unadilla. The N. part of the co. is yet an unbroken wilderness. It is a wild, mountainous region, with very little land susceptible of cultivation. The streams, usually flowing in deep, rocky ravines, form headwaters of Black, Moose, Beaver, and Oswegatchie Rivers.

The portion of the co. lying N. of a line extending w. of Brocketts Bridge, on East Canada Creek, is covered with primary rocks.3 This same formation also outcrops at Little Falls on the Mohawk. Rising successively above the primary are the Trenton limestone, appearing in Norway and Russia; the Utica slate, appearing upon the summits of all the hills immediately N. of the Mohawk; the Frankfort slate, appearing immediately s. of the river; the Oneida conglomerate and Clinton group, extending in a belt through near the center of the s. half of the co.; the Onondaga salt group, waterlime, Onondaga and corniferous limestones, appearing in thin layers next s.; and the Marcellus shales and limestones of the Helderbergh Range, covering the summits of the s. hills. These rocks yield an abundance of lime, waterlime, and building material in nearly every part of the co.; and for these purposes they are extensively quarried. Drift is found in deep deposits in many parts of the co. The useful minerals are few in number.4

Agriculture forms the leading pursuit. The hilly character of the surface particularly adapts this co. to pasturage; and dairying has long been the leading branch of industry.5 Hops are

spar and hornblende. Cal with gneiss at Little Falls.

* Gypsum is found in small quantities; and this co. is said to

be the most easterly point in the State where it can be obne the most easterly point in the State where it can be ob-tained. The discovery of small particles of anthracite, found associated with sandstone near Little Falls, has led to the erro-neous supposition that coal might be obtained in the vicinity. Among the other minerals found are crystals of quartz, adapted to optical instruments, iron sand, iron and copper pyrites, lead ore, heavy spar, graphite, alum, and alum slate.

The amount of cheese produced in this co. is three times as creat as in any other co. in the State.

¹ This name was originally "Erghemar;" and it has been variously written, as Herchkeimer, Hareniger, Harkemeir, Herchamer, Harchamer, Harkemar, and Herkimer.—Benton's Herkimer. p. 150.

2 West Canada Creek was called by the Indians Teugh-tagh-ra-row, and the East Creek Ci-o-ha-na.

The county seat is located at the village of Herkimer.1 The courthouse is a fine brick building fronting Main St., near the center of the village. The jail is a stone building, on the opposite side of the st. from the courthouse. The clerk's office is a fireproof brick building, upon the courthouse lot, fronting Court St. The poorhouse is located upon a farm of 65 acres 63 mi. N. of the courthouse. The average number of inmates is 130, supported at a weekly cost of \$1.30 each. The farm yields a revenue of about \$700. A school is taught about 6 months in the year. The institution is in good condition and seems to be well managed.2 The works of internal improvement within the co. are the Eric Canal and the N. Y. Central R. R., both extending along the valley of the Mohawk.

Four weekly newspapers are now published in the co.3

The lands of this co. adjacent to the river were granted mostly in the first half of the last century, and the greater portion now settled was conveyed before the Revolution. The N. portion and small tracts in other sections remained in possession of the State Government until conveyed to Macomb and others.4

1 The first courthouse of the co. was located at Whitesboro, new Oneida co. The first courthouse and jail at Herkimer was burned Jan. 25, 1834. The first co. officers were Henry Staring, First Judge; Michael Myers, Hugh White, and Abraham Hardenburgh, Judges; Jenss Platt, Clerk; Wm. Celbreath, Sheriff; and Moses De Witt, Surrogate.

The first settlements were made upon the river intervales above Little Falls, about 1722, by a colony of Palatinates. Accessions were made to their number from time to time, and up to the close of the Revolution they constituted almost the sole inhabitants of the co. During the French War of 1756, this colony was twice invaded, and numbers of the people were killed or carried away prisoners. During the Revolution also it was repeatedly invaded; the buildings and crops were destroyed; and at last the inhabitants were obliged to abandon their homes and seek protection in the lower part of the valley. The German Flats were invaded by a body of 300 tories and 152 Indians, under Brant, in Sept. 1778. This party burned 63 dwellings, 57 barns, 3 gristmills, 2 sawmills, and killed or took off 235 horses, 229 horned cattle, 269 sheep, and 93 oxen. Only 2 persons lost their lives; and the forts were not attacked. A party of militia pursued them or their retreat, but without effecting any thing. Andrustown, in Warren, was burned in July of the same year. A stockade fort was built at the German Flats, and another at Danube, a short time previous to the commencement of the French War. In 1776 another fort was built at Herkimer, N. of the Mohawk; and strong blockhouses were erected in several other parts of the co.2

This co. shared in the loss of men at the battle of Oriskany. Gen. Arnold came as far as German Flats in the summer of 1777, on his way to relieve Fort Schuyler; and from this place was sent the tory Han Yost Schuyler, to spread alarm among the savages in St. Leger's camp and hasten the abandonment of the siege.

After the war the settlements rapidly spread, and within 15 years over 10,000 persons from New England and the eastern cos. of the State located in the central and s. portions of the co. From that time its progress has been gradual and continually prosperous.

COLUMBIA³—was formed from Warren, June 8, 1812. It lies on the s. border of the co., w. of the center. Its surface is rolling and moderately hilly, with an average elevation of 500 to 600 ft. above the Mohr wk. The streams are small brooks, a portion of them flowing N. to the Mohawk and the remainder flowing s. to the Unadilla. The soil is a clayey loam and generally fertile. Columbia Center (Columbia p.o.) contains 98 inhabitants; Cedarville, (p.v.,) on the line of Litchfield, 2 churches, a tannery, and 145 inhabitants. South Columbia, in the s. E. part, is a p.o. The first settlement was commenced before the Revolution, by families from the Mohawk: but their improvements were abandoned during the war. The first religious services (Ref. Prot. D.) were held at an early period. Abram Rosegrantz was the first preacher.⁵

2 Fort Herkimer was built in the French War, and Fort Dayton just before the Revolution. The former stood around the present stone church and other buildings in German Flata and the latter a few rods from the site of the present courthouse, in Herkimer Village. At the time of the Revolution there were but about 70 dwellings near these forts, but there was a large population for the number of dwellings in the country around.

3 This town embraces Staley's Second Tract,—except 1½ tiers of lots on the w.,—a small triangular piece from the n. w. corner of Henderson's Patent, and all of the patent to Coenradt Frank and others, except 7 lots on the E.

⁴ Among the early settlers were Conrad Orendorf, Conrad Frank, Conrad Fulmer, Frederick Christian, Timothy Frank, Nicholas Lighthall, Joseph Moyer, and Henry Frank. The settlement was named "Coonrodston" at an early day.—*Benton's* Herkimer, p. 390.

Philip Ausman taught the first school, (German,) in 1795, and

Joel Phelps an English school, in 1796. The first store was kept by David W. Golden and Benj. Mix, in 1796. The first gristmill was built in 1791-92, by Andrew Miller and Geo. Bell, at Millers Mills.

off in 1828. It lies on the E. border of the co., s. of the center. Its surface is hilly in the center, rising 400 to 800 ft. above the Mohawk, and is broken by ravines on each side of the valley of the creek. Fine flats extend along the Mohawk on the N. border. The principal stream is Nowadagal Creek, which flows N. E. through the town near the center. The soil is gravelly in the N. and a sandy toam in the s. In the N. part are two sulphur springs. Newville (p. v.) contains 1 church and 20 houses, and Indian Castle (Danube p. o., a hamlet) 1 church. Settlements are supposed to have commenced as early as 1730; but no records have been preserved. During the Revolution the settlements were broken up, and did not commence again until about 1780.3 The first patents are dated 1730-31.4 A mission church was established here by Sir William Johnson in 1768. This church had a bell, which the Indians attempted to carry off in the war, and for that purpose secreted it. Search was made in vain. After sufficient time had elapsed the thieves, on returning by night to bear away the coveted treasure, had their presence and business betrayed by the unruly member which they neglected to muffle. As it was borne along on a pole, its ringing brought the Germans to its rescue with such weapons as they in their haste could snatch, and the bell was recovered. The present church occupying the site of the old Mission Church is known as the "Indian Castle Church." There are 2 union churches in town. This town was the residence of King Hendrick⁵ and Joseph Brant, ⁶ the celebrated Mohawk chiefs, and of Gen. Nicholas Herkimer.7 King Hendrick sustained a high character for sagacity and integrity, was warmly attached to the English, and especially to Sir Wm. Johnson, whom he accompanied to Lake George in the summer of 1755, where he was killed. He was recognized as a chief as early as 1697.

FAIRFIELD⁸—was formed from Norway, Feb. 19, 1796. A part of Newport was taken off in 1806, and a part of Little Falls in 1829. It lies in the interior of the co., near the center. Its surface is a hilly upland, the center rising into a ridge 800 to 1,000 ft. above West Canada Creek. The streams are small. West Canada Creek flows s. on the w. border. The soil on the uplands is mostly clay, and in the valleys it is gravelly, with local drift deposits of sand. Several fine quarries of limestone are found in different parts.10 Fairfield, (p. v.,) near the center, contains 3 churches, an academy, 11 a cheese box factory, and 60 houses; Middleville, (p. v.,) on the line of Newport, 1 church, a cotton factory, tannery, 12 chair factory, grist and saw mill. Pop. 295. Settlements were first made in 1770, by 3 German families named Maltanner, Goodbrodt, and Shaffer, who located upon the Royal Grant. 13 The first preacher was Rev. — - Fields, (Presb.,) in 1791.14

⁸ An inn was kept by Cornelius C. Van Alstyne, in 1795, and a store by Peter Smith, at the same time. Andrew Nellis built the first gristmill, near the mouth of Nowadaga, in 1800.

⁴ Small portions of Fall Hill, Vaughan's, and L'Hommedieu's Patents, the whole of Lindsay's, and parts of J. Vrooman's, C. Colden's, Van Horne's, and Lansing's Patents are in this town.

⁵ The dwelling of King Hendrick stood upon the high ground near the site of the present Indian Castle Church. On one occasion he remarked to Sir William Johnson that he had dreamed a dream. On being questioned he related that On one occasion he remarked to Sir William Johnson that he had dreamed a dream. On being questioned, he related that the English agent had in his slumber appeared to present him a suit of new clothes. Johnson fulfilled the dream, and not long after had in turn a dream to relate to the chief, in which he thought the latter had presented to him a large tract of land. The Indian was caught in his own trap. He, however, gave the necessary title, but hinted, as he conveyed the lands described, that they would have no more dreaming. This tract

Brant lived in the same place that had been occupied by Hendrick. Fort Hendrick stood on land now owned by Abram Owens, w. of the Nowadaga, on a small eminence overlooking the flat. The fort was built in the French War.

General Herkimer's house is still standing, 3 mi. below Little Falls, s. of the canal. It is of imported brick, and was built in 1763, at a cost of \$7,500 to \$8,000. Some of the rooms were finished in panel work and were plastered on the brick walls; and in its day the house was surpassed by none in this section. It is now owned by Daniel Conner. Efforts were made to burn it in the Revolution by throwing combustibles upon the roof; but further attempts of this kind were prevented by covering it with a layer of clay. Gen. Herkimer's grave is 25 rods s. E. from the house, on a knoll, and is marked by a plain white tombstone inscribed as follows:—

"Gen.

Windecker, and Pickert settled near the Manheim line, and others settled on the Glen Purchase, before the war. Cornelius Chatfield settled in March, and Abijah Mann in May, 1785. Josiah, David, and Lester Johnson, John Bucklin, Benj. Bowen, John Eaton, Nath'l and Wm. Brown, Sam'l Low, David Benseley, Elisha Wyman & Comfort Eaton, Jeremiah Ballard, Wm. Bucklin, D. A. Arnold, Daniel Venner, Nathan Smith, Nahum Daniels, Amos and Jas. Haile, — Neely, and Peter and Bela Ward, all from New England, settled soon after. The first store was kept by Smith & Daniels, in 1792-93. The first gristmill was built by — Empie, and the first sawmill by Samuel & Paul Green. A school was taught in 1795-by Wm. D. FRANKFORT'-was formed from German Flats, Feb. 5, 1796. It was divided in the formation of Oncida co. in 1798, and a part annexed to Deerfield. It lies on the w. border of the co., s. of the Mohawk. Its surface is a broad intervale, rising into hills of moderate elevation on the s. w. border, the highest points being about 500 ft. above the river. The Mohawk flows s. E. on the N. border. The streams are small brooks and creeks. The soil on the uplands is a clayey and slaty loam, and on the flats an alluvial loam. Limestone ledges are found in the s.w. The most important of these is called Horsebone Ledge. The stone is whitish and makes excellent lime. Slate and calciferous sandstone are also found in some places. Frankfort, (p. v.,) in the N. E., near the Mohawk, contains 4 churches, 1 bank, a grist and saw mill, woolen factory, and distillery. Pop. 1,150. New Graefenberg (p.o.) is the seat of a water cure, 4½ mi. from Utica. Howards Bush (Frankfort Hill p. o.) is w. of the center. Jacob Folts made the first settlement, on Lot 3, Burnetsfield Patent, before the Revolution.2 The census reports 7 churches in town,3

GERMAN FLATS'-was formed, as a district of "Tryon co.," March 24, 1772. Its name was exchanged with the Kingsland District, March 8, 1773. It was recognized as a town March 7, 1788. Frankfort, Litchfield, and Warren were taken off in 1796, and a part of Little Falls in 1829. It lies upon the s. bank of the Mohawk, s. of the center of the co. A fine intervale extends along the river, and from it the surface gradually rises to a height of 300 to 400 ft. and spreads out into an undulating upland. The valley of Fulmer Creek divides this upland into two nearly equal parts. Steele Cr. is a large stream in the w. The soil is a clay and slaty loam upon the hills, and a gravelly loam and alluvium in the valleys. Mohawk, (p.v.,) a canal village, in the N. w. part of the town, was incorp. April 16, 1844. It contains 3 churches, a bank, and newspaper office. Pop. 1,355. **Hion** (p.v.) is a canal village, $1\frac{1}{2}$ mi. w. of Mohawk. It contains 2 churches, a bank, and Remmington's rifle factory. Pop. 813. Fort Herkimer, upon the Mohawk, in the E. part, contains 2 churches and 20 houses. Denisons Corners (Denison p.o.) and Pains Hollow are hamlets. The first settlements were made in 1722, by a colony of Palatinates who had previously located upon the Hudson.⁵ The population rapidly increased until 1756, when the whole settlement was laid waste by a party of Canadians, French, and Indians, A council was held with the Indians at this place, June 28, 1775, at which the Oneidas and Tuscaroras agreed to remain neutral.7 During the Revolution the Indians committed many murders in town; and in July, 1782, they destroyed nearly the whole settlement.8 The German inhabitants carly espoused the Patriot cause; and the first liberty-pole in the Mohawk Valley, erected here, was cut down by Sheriff White and a body of militia, who came up from Johnstown for the purpose, in the spring of 1775. At the close of the war the settlements progressed with great rapidity. A treaty was held with the Indians at Fort Herkimer, June 28, 1785, at which time the Oneidas and Tuscaroras ceded to the State the territory lying between Unadilla and Chenango Rivers. The first church was built of logs, in 1725; it was superseded by one built of stone, in 1767. The building is still standing, and is the most ancient structure in the co. It was commenced under a permit granted in 1746, but from apprehension of Indian troubles it was delayed, and a new permit was granted Oct. 6, 1751. It was not fully completed for use until 1767. On the 24th of Sept. 1730, Nicholas Wolever deeded Lot 30 of Burnetsfield Patent for church and school purposes. A society was formed soon after, and the conveyance was perfected April 26, 1733. Lots 45, 46, and 47 in German Flats were conveyed Sept. 18, 1755, by Hans Dedrick Stelly, and others, to Peter Remsen, for the support of the Ref. Prot. D. church at this place. The first preacher was Rev. A. Rosegrantz.9

Doun, on the part of the Commissioners for the Northern Department, to induce the Indians to go to Albany to hold a great council. They attended at Albany soon after; but sufficient inducements could not be offered to detach them from the royal cause.

8 In July, 1782, a party of 600 Indians and tories entered the settlement, and were discovered by Peter Wolever, who, with Augustinus Hess, lived about 50 rods from the fort. Both families escaped to the fort, except Hess, who was killed at the picker gate. HERKIMER¹—was formed from Kingsland District, March 7, 1788. A part of Palatine (Montgomery co.) was annexed in 1791. Norway and Schuyler were taken off in 1792, a part of Newport in 1806, and a part of Little Falls in 1829. A part was annexed to Schuyler in 1808, and restored in 1811. It lies on the M. bank of the Mohawk, near the center of the settled portions of the co. A wide intervale extends along the river, and from it the surface gradually rises to the N. line of the town. West Canada Creek flows s. through near the center, dividing the uplands into two distinct ridges. The Hasenclever Mts., w. of the creek, are 600 to 800 ft. above the Mohawk. The soil upon the hills is a gravelly loam, and in the valleys a deep, fertile alluvium. Herkimer,2 (p. v.,) upon the Mohawk, w. of the mouth of West Canada Creek, was incorp. April 6, 1807. It contains the co. buildings, 3 churches, a bank, newspaper office, paper mill, and gristmill. Pop. 1,371. It is a station upon the N. Y. C. R. R. Eatonville (p.o.) is a hamlet, in the N.E. corner, on the line of Fairfield and Little Falls. The early history of the town is blended with that of German Flats, of which it formed a part until its organization as a town. The first settlements were made by Palatinates, under the patronage of Gov. Hunter, in 1722.4 It had its share of suffering during the Revolution; and all the patriot families that remained during the war were those sheltered by Fort Dayton. This fortress stood upon a point of the stone ridge about 30 rods above the present site of the courthouse. After the destruction of Fort Schuyler by flood and fire, in May, 1781, Forts Dayton and Herkimer became the frontier defenses of the Mohawk Valley.5 After the war, many of the Indians and tories who had been actively engaged in hostilities returned to the settlements; but they were received by the settlers in a way little calculated to inspire sentiments of friendship, and the greater part emigrated to more congenial places.⁶ The first church (Ref. Prot. D.) was formed at an early period, by Rev. A. Rosegrantz; but the precise date has been lost.7

LITCHFIELD⁸—was formed from German Flats, Feb. 5, 1796. A part of Winfield was taken off in 1816. It lies on the w. border of the co., s. of the Mohawk. Its surface is elevated and moderately hilly, its mean elevation being about 500 feet above the river. A series of ridges in the w. and s. are known as the "Dry Lots," no water being found upon them. The streams are small; some flow s. into the Unadilla and others N. into the Mohawk. In the E. part is a sulphur spring. 10 Litchfield (p.v.) contains 1 church and about 15 houses; Cedar Lake (p. o.) 1 church and 9 houses; **Jerusalem**, a hamlet near the center, 2 churches and 7 houses. The first settlement was commenced about 1789, by Jabez Snow, on Snow Hill.¹¹ The first religious services were held in 1794; Rev. —— Spaulding was the first preacher. 12

The first schools were German. — Robinson taught the first English school, at the village.

5 Lieut. Solomon Woodworth was stationed at Fort Dayton with a small force of Continental troops. He rendered great service to the settlers in this part of the valley. In the summer of 1781, with 40 men, he went out to reconnoiter; but about 3 mi. N. of Herkimer the party fell into an Indian ambuscade, and only 15 escaped. The commander and 20 men were killed. A Mrs. Smith. scalped by the Indians during the war, recovered and lived to a good old age. On the 6th of August, 1781, a party of tories and Indians, under Donald McDonald, a Scotch refugee, from Johnstown, made an attack upon the settlement at Shells Bush. The inhabitants mostly fled to Fort Dayton; but John Christian Shell and his family, consisting of his wife and 6 sons, took refuge in their own house, which was a strong blockhouse. His two little sons, twins, 8 years of age, were taken prisoners; but the remainder of the family escaped within and secured the entrance. In trying to force the door, McDonald was wounded, and made prisoner. The attack continued until dark, when the tories fled, with a loss of 11 killed and 6 wounded. McDonald

6 John Adam Hartman, an active and successful ranger, was engaged in perilous service through the war. Soon after the peace, an Indian came into an inn, in the w. part of this town, where Hartman was present, and, getting intoxicated, began to boast of his exploits and showed a tobacco pouch made from the skin of a white child's arm and hand, with the nails still on. When the Indian left, Hartman found business on the same road. They both passed into a swamp; and the Indian never came out. In reply to questions put to him, Hartman said that he last saw the Indian, some distance ahead, standing on a log; and that he fell as if hurt. Hartman was tried for murder, but was acquitted. He lived in town till his death, in the spring of 1836.—Benton's Herkimer, p. 409.

Patent, granted in 1725, and small portions of several other

patents.

4 Among these early settlers were John Jost Temouth, Mary Beerman, Nicholas Kesler, Johannes Pouradt, and Christian Fox. John Petrie kept the first inn, before the Revolution. A gristmill built on Casler Creek, in the N. part of the town, was

stockaded during the war.

⁵ In June, 1782, a party of tories and Indians invaded the town, burned a gristmill on Furnace Creek, killed Daniel Petrie,

and carried away several prisoners.

6 Among the first settlers after the war were Wm. Alexander. Richard Phillips, Thos. Smith, Joel Lankton, Richard Winsor,

early settlers. The town embraces 6 lots of Glen's Purchase, a part of the fourth allotment of the Royal Grant, the Patents of John Van Driessen and of Snell and Zimmerman, a part of the patents of Rev. Peter Van Driessen and of Vrooman, and several minor tracts granted since the Revolution.

10 This stream was called by the Indians Ci-o-ha-na and Sag-

o-ha-ra.

11 This is the largest tannery in the co. It has a capital of \$250,000, consumes 5,000 cords of bark per annum, and manu-

\$200,000, consumes 5,000 cords of bark per annum, and manufactures sole leather exclusively.

12 Among the early settlers were families named Snell, Zimerman, and Van Driessen. Snell was the patentee of a large tract. Seven of the name, including several of his sons, were killed at the battle of Oriskany. John Beardsley built the first mill, in 1793. The first school (German) was taught by

Kaufman.

13 A blockhouse stood at this place, and many of the inhabitand shot refuge in it. Twelve of the prisoners were taken at one house by half the number of Indians, without resistance. The captives all returned after the war, except one who died in Canada, and one that escaped. John G. Snell, while searching for cattle in the woods, was surprised by the Indians and shot through the body. He recovered, however, and lived to an advanced age. The town was deserted after this by all but tories.

NEWPORT1-was formed from Herkimer, Fairfield, Norway, and Schuyler, April 7, 1806. It lies on the w. border of the co., near the center. Its surface is broken by ridges of highlands, which rise 400 to 500 ft. each side of the narrow intervale of West Canada Creek. This stream flows s. E. through the town, near the center. White Creek flows s. through the E. part. The soil is a clayer loam, with some gravel on the hills. It is chiefly underlaid by limestone, which is quarried in some localities. Newport, (p. v.,) near the center, incorp. March 20, 1857, contains 3 churches, 1 bank, a gristmill, tannery,2 and 671 inhabitants. Settlement was commenced in 1791, by Christopher Hawkins, from R. I.; Rev. David Haskell (Bap.) held the first meetings, in 1796.4

NORWAY5-was formed from Herkimer, April 10, 1792. Fairfield was taken off in 1796, Remsen (Oncida co.) in 1798, Russia, as "Union," and a part of Newport, in 1806, and Ohio in 1823. It lies in the interior of the co., N. of the Mohawk. Its surface is clevated and rolling. It is drained by tributaries of West Canada Creek. The soil is sandy in the N. w., and loam and gravelly in the E. and s. Limestone is quarried in several places; and fossils have been found near White Creek. There is a sulphur spring 1 mi. N. of the village. Norway, (p. v.,) near the center, contains 3 churches, a cheese box factory, and about 30 houses; Graysville,6 (p. v.,) on the line of Ohio, contains an extensive tannery and 30 houses.7 The first settlement was made by ple and Christopher Hawkins, from R. I., in 1786; but it was soon abandoned.8 The first religious meetings were held by Rev. — Robertson, in 1792.9

OHIO10—was formed from Norway, as "West Brunswick," April 11, 1823. Its name was changed May 3, 1836. A part of Wilmurt was taken off in 1836. It lies in the interior, on the N. border of the settlements. Its surface is moderately hilly, with an elevation of 700 to 900 ft. above the Mohawk. A range of high, steep hills extends through the N. part. It is drained by West Canada and Black Creeks and their tributaries. The soil is a sandy loam, with some clay. A large portion of the town is still a wilderness. Graysville, (p. v.,) on the line of Norway, contains a tannery, and about 30 houses. Ohio City, (Ohio p.o.,) in the w. part, contains 10 houses. A few scattering settlements were begun before the Revolution, but were broken up during the war. 11 Religious services were first held at Ohio City, in 1808. 12

RUSSIA¹³—was formed from Norway, as "Union," April 7, 1806. Its name was changed April 6, 1808. A part of Wilmurt was taken off in 1836. It lies on the w. border of the co., N. of the Mohawk, its N. part extending into the border of the great northern wilderness. Its surface is rolling and moderately hilly, and on the w. descends abruptly to the valley of West Canada Creek. The hills are 800 to 1,000 ft. above the Mohawk. West Canada and Black Creeks flow w. through the N. W. part, the former forming a part of the w. boundary. On it are some extensive lumber works.14 Trenton Falls, upon West Canada Creek, is on the w. border. The soil is sandy

Prospect is a hamlet, and contains - sawmills. The first settlement was commenced in 1792, by Stodard Squires, from Conn. The first religious meetings (F. W. Bap.) were held by Rev. Benajah Corp.2

SALISBURY3—was formed from Palatine, (Montgomery co.,) March 3, 1797, and annexed from Montgomery co., April 7, 1817. It lies on the E. border of the co., and extends N. into the great wilderness. Only about one-fourth of its surface is cultivated. It is a broken and mountainous upland in the N. and hilly in the s. The principal streams are East Canada Creek, which forms a part of the E. boundary, and Spruce Creek, which flows through the s. w. and s. parts. The soil is a sandy and clavey loam. A bed of iron ore has been worked to some extent on Lot 105, fourth allotment of the Royal Grant. Salisbury Center, (p. v.,) in the s. part, contains 2 churches, a tannery, and 319 inhabitants; Salisbury Corners, (Salisbury p. o.,) in the s. w., 2 churches and 30 houses; Diamond Hill, 25 houses; Devereaux, 15 houses. Whitesburgh, (p. o.,) on the line of Fulton co., is a hamlet. Settlement was begun before the Revolution, by tenants of Sir Wm. Johnson, who followed his lead during the war, and shared his fate at the hands of the Commissioners of Forfeiture.4 The census reports 4 churches in town 5

SCHUYLER 6—was formed from Herkimer, April 10, 1792. Trenton was taken off in 1797, Deerfield (Oneida co.) in 1798, and a part of Newport in 1806. A part was annexed from Herkimer in 1808, and re-annexed to Herkimer in 1811. It lies on the w. border of the co., N. of the Mohawk. Its surface is hilly. The Hasenclever Mts. extend through the center, attaining in this town an elevation of 1,000 to 1,200 ft. above tide. A wide intervale extends along the Mohawk, which forms the s. boundary. Its streams are tributaries of the Mohawk and generally flow through narrow ravines. The flats bordering the river are annually overflowed. The soil upon the hills is slaty and gravelly. East Schuyler, (p. v.,) in the s. E., contains 25 houses; and West Schuyler, (p. v.,) in the s. w., a church and 25 houses. Settlement was commenced previous to 1775, by several German families. There was a good carriage road in 1757, on the bank of the river, from the crossing, where Utica now stands,8 to the Palatine village, German Flats. There are 2 churches in town; M. E. and Meth. Prot.

STARK 9-was formed from Danube, March 18, 1828. It is the s. E. corner town of the co. Its surface is hilly and broken, with a mean elevation of 500 feet above the Mohawk. The principal streams are Otsquago and Nowadaga Creeks. Otsquago Creek flows through a narrow valley, bordered by steep banks 150 to 200 ft. high. The soil is generally a sandy loam in the valleys, and sandy and gravelly on the hills. Starkville, (p. v.,) in the N. E. part, contains 2 churches, a gristmill, and 190 inhabitants: Van Hornesville, (p. v.,) in the s. part, I church, a cotton factory, (now in operation,) a grist and saw mill, and 228 inhabitants. WARREN³—was formed from German Flats, Feb. 5, 1796. Columbia was taken off in 1812. It lies centrally on the s. border of the co. Its surface is hilly, the highest points being 500 to 800 feet above the Mohawk. The principal stream is Fish Creek, which flows s. through Richfield, Otsego co., into Schuyler Lake. Mud Lake, in the E., and Weavers and Youngs Lakes, in the s., are small bodies of water. The soil is a sandy and clay loam. There are 2 small sulphur springs in town. Jordanville (p. v.) contains 2 churches and 125 inhabitants; Pages Corners (p. v.) a gristmill, sawmill, and 82 inhabitants; Little Lakes, (Warren p. o.,) in the s. part. 1 church and 117 inhabitants. Crains Corners is a hamlet. Some settlements were commenced before the Revolution, by Germans from the Upper Valley. Elder Phineas Holcomb was the first settled minister in town, about 1793.6

WILMURT'—was formed from Russia and "West Brunswick," (now Ohio.) May 3, 1836. This is the largest town in the State, and is one of the least populous. It includes the whole N. part of the co., extending nearly 50 mi. in length, by about 16 mi. in breadth, entirely within the wild primeval forests of Northern New York. Its surface is rocky and mountainous, and the greater part is unfit for cultivation. In the deep valleys among the mountains are numerous beautiful, picturesque lakes, forming one of the finest features of the landscape.8 The soil is a sandy loam. The hills are usually covered with a thin growth of forest trees; but in the valleys only is found soil fit for profitable pasturage. The settlements are confined to the s. part. There is no p. o., village, store, church, or gristmill in town. The lumber cut in this region is mostly floated down West Canada Creek, and manufactured at Prospect in the town of Russia. An attempt was made to settle the town in 1790, by Arthur Noble, the patentee, and a sawmill was built at that time; but the project failed. It was again tried in 1793, with no better success. Toward the close of the last century, John Brown, a wealthy capitalist of Providence, R. I., who owned a large tract in this town, made an attempt at settlement; but his project failed. In 1812 his son-in-law, Chas. T. Harrisoff, made another attempt to settle upon this tract. He built a forge and sawmill, and cleared 2,000 acres; but, the outlay bringing no return, and his supply of money from the E. being cut off, the project was abandoned, and the colonists returned to their respective homes.9

WINFIELD¹⁰—was formed from Litchfield, Richfield, (Otsego co.,) and Plainfield, (Otsego co.,) April 17, 1816. The bounds of the co. were enlarged upon the formation of this town. It is the s. w. corner town of the co. Its surface is moderately hilly, and forms the dividing upland between the Mohawk and Unadilla Valleys, the general elevation being about 500 feet above the Mohawk. A range of hills in the s. E. rises about 200 ft. higher. The E. branch of the Unadilla flows s. through a deep valley in the w. part. Browns Hollow Creek, a branch of the Mohawk, rises on the N. border. Near East Winfield is a sulphur spring; and several limestone quarries are found in different parts of the town. East Winfield (Winfield p.o.) contains 30 houses; West Winfield (p. v.) 2 churches, the West Winfield Academy, a bank, 2 gristmills, 2 saw-

Tetherly, and others. Another settlement was commenced at The Kyle, so called.—Benton's Herkimer, p. 463. The families of Walwrath, Adam Young, and others, were early settlers. Abraham Van Horne, from N.J., settled in town in 1791, at what is now Van Hornesville. The first German school was taught by——Garner, and the first English school by——Haight. Abraham Van Horne built the first mills, soon after his settlement, and his sons kept the first store.

5 Andrustown, in the N. part,—then containing 7 families,—was plundered and burned by Brant in July, 1778. A part of the inhabitants were killed, and the remainder carried away captive. Young's settlement at the Lakes was spared by the Indians on account of the tory principles of the proprietor; but the Americans soon after plundered and burned this place in retaliation. In March, 1792, Samuel Cleland, from Mass., and his sons Norman. Salmoni, Jonas, Martin, and Moses, settled in town. Danforth Abbott, Hugh Panell, Amos Allen, Elder Phineas Holcomb, Richard Schooley Hull, Thomas, James, and Garret Abeel, and —Thayer were early settlers. Nobleborough, Moose Vrooman's Patents, Adgate's, Brown's, Nobleborough, Moose River, and Watson's Tracts, and Totten and Crossfield's Pur-chase. Brown's tract, held by L. R. Lyon and others, embraces 210,000 acres, and extends across the co. into Hamilton and Lewis cos.

⁸ Nos. 1 to 4 of the Fulton chain of lakes are sources of Moose River; Transparent, Woodhull, Bisby, and Chub Lakes flow into Black River. Several of these lakes are used as reser-voirs for the canal. Upon the shores are large quantities of iron sand, derived from the abrasion of the rocks containing iron ore.

It is said that the day before his death he made preparations for going to Providence, and gave particular orders for his men to go out the next morning after he left and fill up a large hole that had been dug for ore. They went out to perform their labor; but one of them went down to see if any tools had been left, and at the bottom he found Harrisoff, who had secreted himself there, intending to be buried. The next day he accomplished his object by a pistol shot.

¹ Among the early settlers were Jos. Walker, Timothy Walker, Capt. Nathan Brown, Oliver Harwood, Oliver Corbit, Benj. Cole, and Dea. Gile, from Mass. Abel Brace came in from Conn. in 1793. Josiah Harwood taught the first school, in 1794; Charles Brace kept the first inn, in 1794; John Dillingham the first

JEFFERSON COUNTY.

This county was formed from Oneida, March 28, 1805, and named in honor of Thomas Jefferson. Its bounds have been changed by setting off a portion of Rodman to Lewis co. in 1808. and by annexing a portion of Lewis co. to Wilna in 1813. It lies in the angle formed by the St. Lawrence River and Lake Ontario, is distant 145 mi. from Albany, and contains 1868 sq. mi. The s. w. part is marshy, but at a short distance from the lake the land rises in gentle undulations, and, farther inland, by abrupt terraces, to the highest point, in the town of Worth. A plateau, about 1000 feet above the lake, spreads out from the summit, and extends into Oswego and Lewis cos. An ancient lake beach, 390 feet above the present level of the lake, may be traced through

Ellisburgh, Adams, Watertown, and Rutland. North of the Black River the surface is generally flat or slightly undulating: in the extreme N.E. corner it is broken by low ridges parallel to the St. Lawrence. With the exception of a few isolated hills, no part of this region is as high as the ancient lake ridge mentioned above.¹

The rocks of the co. belong to the primary formation and the lower strata of the N. Y. system. Gneiss is the underlying rock of the E. border in Wilna and Antwerp, of the Thousand Islands and the shore at Alexandria Bay, and of two strips of land extending from the E. border, one toward Theresa Falls, and the other toward Evans Mills. Next above this is a thick deposit of Potsdam sandstone, extending through Wilna, Antwerp, Philadelphia, Theresa, Alexandria, Orleans, and Clayton, the margin of which may be traced along its entire extent by a low mural precipice. The soil upon this rock is thin, and principally derived from drift deposits. The rock itself is almost indestructible, and preserves diluvial scratches and marks with great distinct-Above this is a thin deposit of calciferous sandstone, extending through parts of Cape Vincent, Lyme, Clayton, Orleans, and Le Ray. The soil upon this rock is deeper than that upon the Potsdam sandstone, and is derived principally from disintegration. The Black River limestone overlies this, and forms the surface rock in most of the remaining parts of the co. N. of the river, and in a part of Champion and Rutland, s. Above this is the Trenton limestone, appearing on the lake shore at Cape Vincent and extending in a s. E. direction through Lyme, Brownville, Watertown, Rutland, and Champion. This rock is of great thickness, and it forms the principal declivities of the plateau in the s. part of the co. About midway in this strata is found the ancient lake ridge before noticed. The caves near Watertown are in the lower strata of this rock. Next above come the Utica slate and Lorraine shales, forming the summit of the irregular table land which covers the s. "peak" of Champion, the s. border of Rutland, the greater part of Rodman, a corner of Adams, the E. part of Ellisburgh, and the whole of Lorraine and Worth. These shales are easily decomposed, and produce a deep, rich soil. Along the streams that flow from this formation the water has worn deep and often highly picturesque ravines, sometimes miles in length, and almost through the soft and yielding strata. The rounded outline of the slate hills, the abrupt terraces of the limestone, and the sharp, wall like margins of the sandstone, afford characteristic features to the country underlaid by these several formations. Alluvial deposits uniformly occur where the streams from the slate flow out upon the limestone; and drift deposits are scattered promiscuously over the whole co. The most remarkable of these is the "Pine Plains," a sand barren several miles in extent in Wilna and Le Ray. The lake shore in Ellisburgh consists of drifting sand, behind which are marshes. From Stony Point to Cape Vincent the shore is bordered by the level edges of the Trenton limestone; but farther down the river it presents that alternation of rounded ridges of rocks, intervales, and marshes peculiar to the primary formation. The highest point in Worth is about 1200 feet above the lake. The streams are Black,2 Indian, and Perch Rivers, the two Sandy Creeks,3 Stony, Catfish, Kent, French, Pleasant, and Black Creeks, and their tributaries. Hungry Bay4 (including Henderson,

¹ An isolated hill in Pamelia formerly bore a crop of red cedar; and, as this timber is now only found upon the islands in the lake, it is supposed that the hill was an island at a time when at least three fourths of the county was covered by water.

Black River, and Chaumont Bays) has a coast line of great length; and the Thousand Islands present many attractions from their romantic scenery and historical associations. Several small lakes, filling deep gorges, in Antwerp, Theresa and Alexandria, -one in Rutland, two in Henderson, Perch Lake in Pamelia and Orleans, and Pleasant Lake in Champion, constitute the other waters of the co. Iron ore abounds in Antwerp. Traces of lead and copper are found in the primary region; limestone, capable of a great variety of uses, water limestone and barytes are also abundant. The Black River enters the co. at Carthage, where commence a series of cascades and rapids which continue almost to the lake, with a total fall of 480 feet. Indian River affords water power at half a dozen places, and most of the streams s. of Black River are available for the same purpose.

The flat country along the St. Lawrence at times is affected by drouth, which is never felt on the uplands; while the latter are somewhat noted for the great depth of their snows. The mirage has been frequently seen on the lake, bringing into view places beyond the horizon. One form of this refraction, in which a line of clear sky appears along the shore, is almost a constant attendant upon clear, pleasant days in summer. Waterspouts, attended with dark clouds and a roaring noise, have been seen upon the lake and its bays. In the primary regions the intervales are remarkably fertile, while the ridges are often naked rock. The soil over a part of the sandstone is too thin for cultivation, but the barren region is comparatively limited. The limestone and slate districts are exceedingly fertile, and particularly adapted to dairying and the raising of spring grains. Of these, barley, within a few years, has become the most important. Winter wheat is raised less than formerly; oats, corn, rye, and peas are staple products. For many years manufactures have received much attention and employed a large amount of capital. consist of iron from the ore, castings, machinery, cotton and woolen fabrics, paper, leather, and flour, and have been chiefly carried on along the line of the Black River, and in Antwerp, Theresa, Philadelphia, Adams, and Ellisburgh. Rafting, shipbuilding, and lake commerce form prominent pursuits at several points along the St. Lawrence.

Upon the erection of the co., in 1805, Watertown was selected for the co. seat. A combined courthouse and jail was erected in 1807 and burned in 1821. Soon after, separate buildings, of stone, were erected, which are still in use. In 1816 a fireproof clerk's office was built, and occupied until 1831, when the present one was erected. The jail having become unfit for use, and having been officially complained of, a writ was issued, Dec. 1, 1848, by the Supreme Court, ordering its immediate improvement.2 This led to the erection of an additional building, with excellent arrangements for both the security and convenience of prisoners. The first poorhouse was erected on the Dudley Farm, in Le Ray, about 5 mi. N. of Watertown, in 1825; and it was used until 1833, when the present spacious buildings were erected in Pamelia, 1 mi. below Watertown. In 1852 a special act was passed for the supervision of the poor in this co.

The first newspaper in the co., called the "American Eagle," was established at Watertown, Its name was soon after changed to the "American Advocate." in 1814, by Henry Coffeen.

1 The commissioners appointed for the selection of the co. seat by the Gov. and Council were Matthew Dorr, David Rodgers, and John Van Benthuysen. The first court and the first board of supervisors met at a schoolhouse on the site of the present Univ. Church. The first co. officers were Augustus Sacket, First Judge; Joshua Bealls and Perley Keyes, Judges; Thomas White, Lyman Ellis, Wm. Hunter, and Ethni Evans, Assistant Justices; Henry Coffeen, Clerk; Abel Sherman, Sheriff; Benj. Skinner, Surrogate and Treasurer; and Hart Massey, Ambrose Pease, and Fairchild Hubbard, Coroners. At the time of its erection most of the taxes of the co. were paid by non-residents. residents

residents.

2 In 1807 the jail liberties were first established, which were so extraordinary as to demand a passing notice. "They covered a small space around the courthouse and part of the public square, and included most of the houses of the village; while between these localities, along the sides of the roads, and sometimes in the center, were paths, from 4 to 8 feet wide, with occasional crossings; so that, by carefully observing his route, turning right angles, and keeping himself in the strict ranges which the court had established, a prisoner might visit nearly every building in the village; but if the route was, by any accident, obstructed, by a pile of lumber, a pool of mud, or a loaded wagon, he must pass over, through, or under, or else expose himself to the peril of losing this precarious freedom, by close imprisonment, and subjecting his bail to prosecution for the violation of his trust."—Hough's Hist, of Jeff. Co., p. 31.

This co. is all embraced in the Macomb purchase of 1791, except the islands in the lake and river, a small reservation at Tibbits Point near Cape Vincent, and a tract 10 mi. square, with one corner extending to the St. Lawrence at French Creek, reserved by the Oneida Indians in the treaty of 1788 for Peter Penet, and called "Penet Square." That part N. of a line running E. from Chaumont Bay, in the line of the s. bounds of Diana, was known as Great Tract No. IV., and was sold to the "Antwerp Company," of Holland. Gouverneur Morris became the first agent, and afterward Jas. D. Le Ray de Chaumont became extensively interested in the title, and under him much of it was settled. The land between No. IV. and Black River (210,000 acres) was purchased by Peter Chassanis, of Paris, for a company of capitalists; a romantic scheme of colonization was formed, and settlement begun at its southern point, near the High Falls, in Lewis co. A few years after, the emigrants returned to France. Ellisburgh was mostly purchased by Marvel Ellis, of Troy, in March, 1797, but it afterward reverted to Constable. A tract known as the "Eleven Towns" was purchased in 1795 by Nicholas Low, Wm. Henderson, Richard Harrison, and Josiah Ogden Hoffman: it was divided by them and sold by their agents. Penets Square was mostly settled by squatters, with whom the owners afterward had much difficulty. With the exception of Carlton Island, the first settlement in the co. was made in Ellisburgh, in 1797, and within 10 years nearly the whole of this town and of the "Eleven Towns" was taken up by actual settlers. Settlement commenced under Le Ray in Wilna, Antwerp, Le Ray, and Philadelphia, about 1806, and in the N. part of the co., along the St. Lawrence, after the war of 1812-15. But a small part is now owned by the original purchasers or their heirs, much the greater portion having long been owned in fee by actual settlers.2

The embargo and non-intercourse laws were quite unpopular along the N. frontier, and met with open hostility or secret evasion in many cases. The declaration of war filled the co. with alarm, and some families hastily prepared to leave. Ft. Carlton,3 within the American boundary, had been held until this time by the British, and was immediately captured by a small volunteer party and the buildings burned. A regiment of drafted militia, under Col. C. P. Bellinger, was stationed at Sackets Harbor in May. A fleet of 5 sail of the enemy was repulsed from that place July 19, with loss. On the 30th Capt. Forsyth was stationed there with a fine company

scalping parties of tories and Indians. of riflemen, and, Sept. 20, made a descent upon Gananoqui, Canada, and destroyed a large quantity of provisions. The details of the operations upon the N. frontier belong to general history. Sackets Harbor became the principal seat of military and naval preparations, and from this post were fitted out the armaments that captured Little York and Ft. George, and the disgraceful expedition, under Gen. Wilkinson, that descended the St. Lawrence late in the fall of 1813.1 Large bodies of troops were stationed here during most of the war; and a fleet of frigates of the largest class was fitted out at this point, to cope with one, equally formidable, built at Kingston. The enemy were repulsed in an attack upon Sackets Harbor, May 29, 1813, and were subsequently defeated at Cranberry Creek and Sandy Creek and in several minor engagements. After the war the costly navy was left to rot, or was sold for commercial purposes; and, in accordance with the provisions of the convention of April, 1817, but one armed vessel was left affoat upon the lake. Extensive barracks were built in 1816-19 at Sackets Harbor. A considerable body of regular troops was stationed here until withdrawn for service in the Indian wars of the Northwest and of Florida. In the abortive scheme known as the "Patriot War," in 1837-40, this co. became the scene of intense excitement, and the seat of many grave as well as ludicrous events. "Hunter Lodges" were formed in every village to promote the Patriot cause, and large sums raised for the same purpose found their way into the pockets of the leaders, most of whom evinced a cowardice as little creditable to their honor as was their financial management to their honesty.

The earliest market of this co. was down the St. Lawrence, which has ever been the route of the lumber trade. Several State roads were built through the co. before the war, and a military road was laid out and partly worked from Sackets Harbor to Plattsburgh. Soon after the introduction of canals and railroads many projects of internal improvement were formed, and surveys were made in this co., without result. The Watertown and Rome R. R. extends from Cape Vincent s. through Lyme, Brownville, Pamelia, Watertown, Adams, and Ellisburgh, connecting with the N. Y. Central at Rome. The Sackets Harbor and Ellisburgh R. R., a branch of the preceding, extends from Sackets Harbor through Henderson to Pierrepont Manor. The Potsdam and Watertown R. R. extends N. E. from Watertown through Pamelia, Le Ray, Philadelphia, and Antwerp, forming a connection with the Ogdensburgh R. R. at Potsdam. In 1848-51 about 170 mi. of plank road were built within the co., by over 20 companies; but most of the lines have been surrendered to the towns in which the roads were laid. Steam navigation commenced upon Lake Ontario in 1816, and commodious lines have since been run, touching at Sackets Harbor, Cape Vincent, Clayton, and Alexandria Bay, within this co.

ADAMS1—was formed from Mexico, April 1, 1802, and named in honor of John Adams, Ex-President. Rodman was taken off in 1804. It is an interior town, lying s. w. of the center of the co. Its surface is rolling, and generally inclined toward the lake, and, with the exception of its s. E. border, is underlaid by Trenton limestone. Several remarkable upheavals of this formation occur along its N. and W. borders, and a bold terrace extends into Watertown and Rutland. It is well watered by the N. Sandy and Stony Creeks. The soil is a clayey loam, with occasional sand and gravel, especially along the ancient lake ridge, which may be traced through this town. It is very productive, and equally adapted to dairying and the cultivation of grains. Manufactures are carried on to some extent. Adams, (p. v.,) situated on North Sandy Creek and the W. & R. R. R., contains 4 churches, a bank, a seminary, printing office, and several small manufactories. Pop. 1,268. Adams Center (p. v.) and Smithville (p. v.) have each about 250 inhabitants. Appling³ and North Adams (p. o.) are hamlets. The town was mostly settled under Isaac W. Bostwick, agent of Nicholas Low, the proprietor.4 The first sermon was preached in 1802, by Rev. Mr. Woodward, a missionary.⁵ A private academy—now called the Philharmonic Institute—has been taught at Adams Village for many years, The remains of several ancient fortifications are found in town.

ALEXANDRIA—was formed from Brownville and Le Ray, April 3, 1821, and named from Alexander Le Ray, a son of the proprietor. Theresa was taken off in 1841. It lies on the St. Lawrence, in the N. extremity of the co., and embraces the E. part of Wells Island and a considerable portion of the Thousand Islands. The surface underlaid by gneiss is rough and rocky, but that portion underlaid by sandstone is level, with a thin, clayey and sandy soil. A vein of lead has been discovered near Redwood, and examined to the depth of 40 feet. Alexandria Bay6 (Alexandria p. o.) contains 24 houses, Plessis (p. v.) 32, and Redwood (p. v.) 429 inhabitants. Settlement commenced in 1811, under Le Ray. An engagement took place within the limits of this town during the war of 1812.9 An elegant Ref. Prot. D. church was erected at Alexandria Bay in 1848-51.10

ANTWERP—was formed from Le Ray, April 5, 1810, and named from the Antwerp Company.11 It is the extreme E. town in the co. The N. and E. portions are broken by low rocky ridges parallel to the river. The s. w. part is more level. The soil in the valleys is a clayey loam, and is very fertile.12 The ridges are made up of masses of gneiss, 13 white crystalline limestone, 14 and sandstone.15 Between the gneiss and sandstone in this town are several of the richest iron mines in the State. The "Sterling Mine" lies about 3 mi. N. of Antwerp Village; another, of less extent, 1 mi. N.; a third, known as the "Keene Mine,"17 on the borders of St. Lawrence co.; and a fourth, known as the "Parish Mine," immediately adjacent. In the same range are found the mines of Rossie and Gouverneur, which have furnished most of the ore used at the furnaces in this region. Bog iron ore is found near Ox Bow. 19 One or two sulphur springs are found in town. Antwerp, (p. v.,) on the P. and W. R. R., was incorp. July, 1853. It contains

^{**}AThe first settlers came on for permanent residence in 1800; among them were Nicholas and Alexander Salisbury, Solomon Smith, Daniel Comstock, Daniel Smith, Abram Ripley, Jonathan Cable, Stephen Shippey, and Enon D'Estaing. The first inn was kept by Abel Hart, and the first store by Jesse Hale. Daniel Smith erected the first grist and saw mills in 1801-02, the former superscript the Struck Paragraph of the first speece. Smith erected the first grist and saw mills in 1801–02, the former superseding the stump mortars of the first season. The first birth was that of Edmund Salisbury; the first marriage, that of Daniel Ellis to Mrs. A. Salisbury, widow of Alexander Salisbury, in 1802; and the first death, that of Alexander Salisbury, drowned in 1801. Schools were first taught in 1803.

⁵ Rev. Chas. G. Finney, Pres. of Oberlin College, was a law student in this town. The census reports 9 churches; 3 Bap., 2 Seventh Day Bap., 2 Cong., M. E., and Prot. E.

⁶ This place was surveyed and laid out as a village for Le Ray in 1818. A custom house was established here in 1828. Sunken Rock Lighthouse was built in 1847. It is an important wooding station for steamers, and within a few years has become a favorite resort for fishing and excursion parties among the Thousand Islands.

9 The "Neptune" and "Fox," two small American armed vessels, captured a brigade of bateaux belonging to the enemy, July 20, 1813, and took their prizes into Cranberry Creek, in this town. They were pursued, and a sharp skirmish ensued, resulting in the retreat of the British with considerable loss.

10 This church was built through the agency of Kev. G. W. Bethune, of Brooklyn, and is called "The Church of the Thousand Isles." A parsonage was built in 1852. The sites for both edifices were given by Francis Depau. The census reports 6 churches; 2 Prot. E., Bap., M. E., Presb., and R. C.

11 This land company, formed in Holland, bought Great Tract No. 1V., within which this town is situated. For particulars see Hough's Hist. Leff. Co., p. 58-61.

12 According to the last census, this town produces more butter than any other town in the co.; and, with one exception, it has the greatest number of cows of any town in the State.

13 From 1895 to 1828 about 100 pairs of millstones were manufactured from this rock in this town.

Sterlingburgh, 1 mi. above Antwerp, and Spragues Corners, on the line of St. Lawrence co., are hamlets. The first improvements were made in 1803, at the Ox Bow, under the direction of Lewis R. Morris, the original proprietor.4 In 1808, Morris sold 29,033 acres to George and David Parish, under whose agents the greater part of the settlements were made. A party of militia was stationed here in 1808, to enforce the embargo, and a blockhouse was built at the village in 1812. The first church was built, in 1816, by Parish.5

BROWNVILLE—was formed from Leyden, April 1, 1802, and was named from Gen. Jacob Brown, its founder. Le Ray was taken off in 1806; Lyme, in 1818; Pamelia, in 1819; and Orleans, and a part of Alexandria, in 1821. It is situated on the N. side of Black River and Black River Bay. Its surface is level or gently undulating. The soil is a sandy and clayey loam. Sulphate of barytes is found on Pillar Point, and the vein has been worked to some extent for lithic paint. Upon the w. bank of Perch River, a few rods below Limerick, is a cave extending 150 yards into the bank and 30 feet below the surface. Manufactures receive considerable attention. Brownville, (p. v.,) on Black River, 4 mi. below Watertown, was incorp. April 5, 1828. It has a valuable water power, and contains 3 churches, a cotton factory, and several founderies and machine shops. Pop. 621. **Dexter**⁶ (p. v.) is situated at the head of navigation on Black River. It is the seat of an extensive woolen factory built in 1836.7 Pop. 429. Limerick (p. o.) and Moffatville, (Perch River p. o.) contain a dozen houses each. Pillar Point (p.o.) is situated across the bay from Sackets Harbor. Pop. 50. Gen. Jacob Brown began the settlement of the town in 1799, as proprietor and agent.8 During the war Brownville village became the seat of a hospital; and on different occasions large bodies of troops were posted in the vicinity. For several years it was the residence and headquarters of Maj. Gen. Brown, commander in chief of the N. department, and afterward of Col. Edward Kirby, his son-in-law. There are 10 churches in town.10

CAPE VINCENT—was formed from Lyme, April 10, 1849, and named from Vincent Le Ray. son of the proprietor. It is the N. w. corner town of the co., and embraces Carlton, Grenadier, and Fox Islands in the St. Lawrence. The surface is level, or slightly undulating, and the soil is a clayey loam. Kent Creek is the principal stream. There are 2 or 3 sulphur springs in town. Considerable attention is paid to ship building. Cape Vincent, 11 (p.v.,) the terminus of the W. and R. R. R., near the head of the St. Lawrence River, is a thriving commercial village. Pop. 1026. Saint Lawrence and Millens Bay are p. offices and hamlets. The first settlement in the town and co, was made upon Carlton Island, 12 at about the time of the Revolution. A regular fortification, known as "Fort Carlton," was erected upon the island, and a tract of 30 acres was cleared and cultivated, and long known as the "Kings Garden." The first settlement upon the mainland was commenced in 1801 at Port Putnam, 2 mi. below Cape Vincent, by Capt. Abijah Putnam.14 Count Real, Chief of Police under Napoleon, and other French families of note, resided in this town for some time. A custom house was established in 1819. Upon the shores of Grenadier Island, 15

6 Named from S. Newton Dexter, of Whitesboro', one of the proprietors. It was formerly known as "Fish Island." During the war the mills at this place furnished lumber for the public works at Sackets Harbor. The steamer "Brownville," built in 1827, and designed to run between this place and the lake ports, was burned upon her first trip. The Black River Nav. Co., incorp. in 1810, built locks here, which were little used. Piers for the improvement of navigation were built at the mouth of the river by the Gen. Government; but they have resulted in injury.

CHAMPION3—was formed from Mexico, March 14, 1800. A part of Harrisburgh was taken off in 1803. It is the central town on the s. E. border of the co. The surface is broken and hilly. The most elevated portions are the slate hills in the s. angle, (known as the "peak,") which are about 1700 feet above tide. From their summits the land descends in a series of broken and irregular terraces to the river. The N. part is more level. The soil is generally a clay loam, but near the river in some places it is sandy. Champion (p.v.) contains 20 houses, Great Bend (p.v.) and West Carthage about 30 each. Champion South Roads is a p.o. The first settlement was begun in 1798, by Noadiah Hubbard, as agent for Storrs. The first settlers came by water down the river as far as the Long Falls, and the town was settled with great rapidity.5 The first church (Cong.) was formed in 1805.6

CLAYTON—was formed from Orleans and Lyme, April 27, 1833, and named in honor of John M. Clayton, U.S. Senator from Del. It is centrally situated on the N. w. border of the co. It embraces two-fifths of Penets Square, a gore w. and another N. of that tract, and Grindstone and several smaller islands in the St. Lawrence. The surface is level, or slightly rolling. Water lime has been manufactured in considerable quantities. Clayton, (p.v.,) situated at the mouth of French Creek,8 is largely engaged in the lumber trade and in ship building.9 Pop. 896. Depauville¹⁰ (p.v.) is situated at the head of navigation on Chaumont (Sha-mo) River, (or Catfish Creek,) 6 mi. from the bay. Pop. 386. Clayton Center is a p. o. Settlement commenced in 1803, but progressed slowly until after the war. For many years the titles to the portions included in Penets Square and the islands became the subject of much controversy and litigation. In early times the shores of the St. Lawrence in this and adjoining towns became the scene of many lawless adventures in the prosecution of smuggling.¹¹ In 1813, the enemy attacked the advanced guard of Wilkinson's expedition, commanded by Gen. Brown, at Bartlets Point, but were repulsed. The census reports 7 churches in town. 12

ELLISBURGH¹³—was formed from Mexico, Feb. 22, 1803. Henderson was set off in 1806. It is situated in the s.w. corner of the co., upon the shore of Lake Ontario. The surface is rolling and inclined toward the lake. A range of low sand hills extend along the shore, and these are succeeded by a wide marshy region, producing wild grasses that in dry seasons may be mown. North and South Sandy Creeks are the principal streams. The soil is sandy on the w., clayey through the center, and a slaty loam in the E. There is a sulphur spring in town. This is the wealthiest agricultural town in the co., and is surpassed by but few in the State. Ellis Village, 14 (Ellisburgh p.o.,) situated on S. Sandy Creek, 4 mi. from its mouth, has a limited amount of manufactures. Pop. 230. Belleville, 15 (p.v.,) is situated on N. Sandy Creek, 3 mi. from Ellis Village, and on the S. H. & E. R. R. Pop. 363. The Union Literary Society (academy) is located here. Pierrepont Manor, 16 (p.v.,) at the junction of the W. & R. and S. H. & E. R. R., contains 255 inhabitants. Woodville, 17 (p.v.,) is situated on N. Sandy Creek. Pop. 180. Mannsville, 18 (p.v.,) on Skinners Creek and the W. & R. R. R., has a population

4 Considerable amounts of lumber, oil, flour, and cloth are manufactured in this village.

5 Among the first settlers, who came in in 1798-99, were John, Thos, and Salmon Ward, David and Saml. Starr, Joel Mix, Ephm. Chamberlain, Jonathan Mitchell, Bela Hubbard, and David Miller. The first school was taught by E. Chamberlain, in 1800. The first sawmill was built in 1802, by John Eggleson and Wm. Hadsall. The first grist mill was built at West Carthage, by David Coffeen, in 1806. A furnace was built at the same place in 1834, and about 1000 tons of iron produced. Several prominent lawyers, among whom were Moss Kent, brother of same place in 1834, and about 1000 tons of iron produced. Several prominent lawyers, among whom were Moss Kent, brother of the chancellor, Egbert Ten Eyck, and Henry R. Lyman Ellis and a large number of others made the first settlement, in 1797.2 A tract of 3000 acres in the s.w. corner of the town was sold by Wm. Constable, in 1796, to Brown and Eddy, and was settled by squatters. Upon the advent of the first settlers, near Ellis Village, on Sandy Creek, were found numerous traces of an early occupation by civilized races.3 During the war an engagement took place near the mouth of S. Sandy Creek, between a party of 150 American regulars and a few militia and Indians, under Maj. Appling, and a party of 200 British, who were pursuing a flotilla of boats, commanded by Lieut. Woolsey, laden with stores for Sackets Harbor. The British were defeated, and nearly the whole party were killed or taken prisoners.4 The census reports 11 churches in

HENDERSON⁶—was formed from Ellisburgh, Feb. 17, 1806. It lies on Lake Ontario, s. w. of the center of the co. The surface is rolling; and it is deeply indented by Henderson Bay, formed by a long rocky point known as Six-Town Point. There are in town two small lakes and several marshes. Stony and Little Stony Creeks are the principal streams. The soil is clay and loam. Henderson's (p. v.) is situated near the center, on Stony Creek. Pop. 404. Henderson Harbor9 contains 12 houses; and Smithville10 (p.o.) 40. Roberts Corners (p. o.) is a hamlet. Settlement was begun in 1802, under Asher Miller, agent for the proprietor.11 At the head of Henderson Bay is a curved embankment or bar of stone, 100 rods long, and a little above the water, known as "Indian Wharf;" and from this point to Stony Creek there was an Indian trail or portage. The census reports 5 churches in town.12

HOUNSFIELD¹³—was formed from Watertown, Feb. 17, 1806. It is situated on Black River Bay, on the w. border of the co. Its surface is very level, and the soil is a clavey and sandy loam. Ship building and manufactures have received considerable attention. Sackets Harbor14 (p.v.) is the principal village. Pop. 994. This was the principal military and naval station on the northern frontier during the last war with Great Britain, and millions of dollars were spent in fortifications and in building vessels. East Hounsfield (p.v.) and Stowells Corners (p.o.) are hamlets. Amasa Fox was the first settler. In 1802 there were 30 families in town. In 1805 several English families came in. During the war this town was the center of important military events. Several expeditions were here fitted out against Canada; and, in turn, the town was invaded on several occasions.17 Large bodies of troops were frequently quartered here, and the citizens became familiar with the lights and shades of military After the war most of the troops were withdrawn, leaving only enough to keep the

Pop. 410. Sandfords Corners, (p. v.,) on the P. & W. R. R., contains a dozen houses. Black River, a village of 50 houses, is partly in this town. The first settlement was made in 1802, by a party under Benj. Brown, agent for Le Ray. Le Ray removed to this place in 1808, and began a liberal system of settlement, by opening roads and building bridges and mills. The census reports 6 churches.8

LORRAINE9—was formed from Mexico, March 24, 1804, as "Malta." Its name was chauged April 6, 1808. Worth was taken off in 1848. It is the central town on the s. border of the co. The town is elevated, and is underlaid by slate and traversed by immense gulfs. The surface is rolling, and the soil is a clay and loam. It is mostly drained by Sandy and Skinners Creeks. Lorraine, (p. v.,) the only village, contains about 30 houses. Settlement was begun in 1802, by James McKee and Elijah Fox. 10 The State Road from Rome to Sackets Harbor was laid through this town in 1804. A sulphur spring is found on the farm of — Totman. The town has 2 churches, Bap. and M. E.

LYME11—was formed from Brownville, March 6, 1818. A part of Clayton was taken off in 1833, and Cape Vincent in 1849. It lies upon Chaumont Bay, in the w. part of the co. The surface is very level. The w. border is deeply indented by Chaumont Bay12 and its branches. The soil is principally clay. There are several sulphur springs in town. Near Chaumont are extensive and valuable limestone quarries.13 Chaumont (p.v.) is situated upon the bay at the mouth of Chaumont River. Pop. 306. Three Mile Bay14 (p. v.) lies upon a bay of the same name. Pop. 295. Point Peninsula (p. o.) is a scattered settlement containing 25 houses. The first settlement was begun under Jonas Smith and Henry A. Delamater, agents for Le Ray, in 1801.15 The first location was 2½ mi. above Chaumont; but in 1805 the settlers removed to the site of the present village. During several years much sickness prevailed; but this gradually disappeared as the co. became more settled. In 1812 the inhabitants, numbering about a dozen families, built a blockhouse, which was taken and destroyed by the enemy. The first church (Bap.) was organized in 1816.16

ORLEANS—was formed from Brownville, April 3, 1821. A part of Pamelia was taken off April 1, 1829, and a part of Clayton in 1833. The boundary between Orleans and Alexandria has twice been changed. It lies on the N, border of the co., and embraces the w, part of Wells and

Penets Square, which embraced most of this town, was settled by squatters.4 The first settlements commenced about 1806.5 In 1824, John La Farge, a large owner in these lands, came into town to assert his claim. After a great deal of difficulty and some resistance, he succeeded in establishing his title. In 1838 the mansion and farm of La Farge, 1 mi. s. of the village, were purchased by Bishop Dubois as the site for a Catholic seminary. This institution, named "St. Vincent de Paul," combining a theological seminary and classical boarding school, was soon after opened; but in two or three years it was removed to Fordham, Westchester co., and was afterward incorp, as St. John's College, Rock Island Lighthouse was built in 1853. The British steamer Sir Robert Peel was plundered and burned on the night of May 29, 1838, while taking in wood at Wells Island, in this town, by a party of 22 selfstyled patriots, led by Bill Johnston.6 The census reports 8 churches.7

PAMELIA⁸—was formed from Brownville, April 12, 1819. In 1824 its name was changed to "Leander;" but soon after the former name was restored. A portion of Orleans was annexed April 1, 1824. It is the central town of the co. The surface is level, or gently undulating, and the soil is clay and sand. Near the cascade opposite Watertown are several caves in the limestone rock.9 In the vicinity of Perch Lake have been found several barrows, or sepulchral mounds. Pamelia Village and Juhelville10—the former opposite the lower part and the latter the upper part of Watertown Village—are places of considerable manufactures, 11 and have each 200 to 300 inhabitants. Pamelia Four Corners (p. v.) contains about 30 houses. The first settlement began in 1799.12 The census reports 2 churches.13

PHILADELPHIA—was formed from Le Ray, April 3, 1821. It is an interior town, E. of the center of the co. Its surface is level in the E., but rocky and broken in the w. The soil is generally a clayey loam. Indian River and Black Creek are the principal streams. Iron ore is found in considerable quantities. The principal bed that is worked is known as the Shurtliff mine. In Sterlingville is a large chalybeate spring. Philadelphia, 14 (p.v.,) upon Indian River, has 55 houses, and Sterlingville, 15 (p. v.,) upon Black Creek, 40. At the latter place are a large blast furnace 16 and a forge. 17 The first settlement was commenced in 1804, by Friends from Penn. and N. J. 18 In 1810 the Friends erected a building which for 17 years was used as a school and meeting house.19

RODMAN'1—was formed from Adams, March 24, 1804, under the name of "Harrison." Its name was changed April 6, 1808. A part of Pinckney (Lewis co.) was taken off in 1808. It lies upon the borders of Lewis, in the s. part of the co. The surface is hilly, and broken by the deep ravines of Sandy Creek and its branches. The soil is generally a fertile, gravelly loam. There are 3 sulphur springs in town. Rodman (p. v.) has 45 houses, Zoar and Whitesville2 (E. Rodman p.o.) each about 20. Settlement began in 1801, and from 1803 to 1806 it progressed with great rapidity.3 In 1813 an epidemic prevailed, causing 60 deaths in 3 months. The census reports 3 churches.4

RUTLAND5—was formed from Watertown, April 1, 1802. It lies upon the s. bank of Black River, E. of the center of the co. Its surface consists of the narrow river valley on the N. a terraced plateau in the center, and a hilly region in the s. The central plateau, embracing the greater part of the town, is 300 to 400 feet above the flat country farther N., and it descends by a succession of steep declivities to the level of the river. It is underlaid by Trenton limestone. Upon the s. the surface gradually rises to the summits of the slate hills which occupy the s. part of the co. A remarkable valley, known as "Rutland Hollow," extends through the town upon the lower terrace of the plateau, parallel to the river. It is deeply excavated in the limestone, and appears like the bed of an ancient river. Another valley, smaller and deeper, extends in the same direction across the summit of the plateau, and forms the bed of a deep, narrow lake. Pleasant Lake, in Champion, is situated in the continuation of the latter valley. These valleys and terraces seem the result of abrasion rather than of upheaval. Upon the edge of the terrace. 100 feet below the summit, may be seen the ancient lake ridge before described. There are 2 or 3 sulphur springs in town. The soil is a very fertile loam upon the plateau, and a sandy loam upon the river. Felts Mills, 6 (p. v.,) on Black River, contains 50 houses; Black River, 7 (p. v.,) on the river, partly in this town and partly in Le Ray, 40; Tylerville, 8 (South Rutland p.o.,) in the narrow valley of Sandy Creek, 30; and Rutland Center, (Rutland p.o.,) 10. This town fell to the share of Wm. Henderson, and settlement was begun in 1799, under Asher Miller. his agent. The greater part of the land was sold10 to New England farmers, who came in within 3 years after the first settlement.11 An old Indian fort is to be seen on the farm of Geo. Wilson; and a bone pit was found near the line of Watertown. The census reports 5 churches. 12

THERESA—was formed from Alexandria, April 15, 1841, and named from a daughter of Le Ray. It is the central town upon the N. w. border of the co. The surface along Indian River is broken, and traversed by ridges of gneiss rock, with fertile intervales. A part of the town, underlaid by sandstone, is level or undulating. In the primary regions are a number of romantic lakes; and some of these have highly interesting mineral localities upon their shores and islands.13 Theresa, (p. v.,) upon the High Falls14 of the Indian River, was early selected by Le Ray as a favorable point for settlement, and about 1810 he caused several "jobs" to be cleared and a sawmill to be built.15 West Theresa is a p. o. A furnace, built near Millseat Lake in 1847, was in part supplied with ores from the vicinity. A private academy has been taught several years. The census reports 3 churches. 16

7 Locally known as "Lockport." See p. 359.
8 Named from Josiah and Frederick Tyler, early settlers.
9 On some maps called "Brooksville," from Curtis G. Brooks, a former citizen. It is never known by this name in town.
10 17,549 acres were sold, in farms within 3 years, for \$50,738.
11 Among the settlers who came in during the first and second yyears were Levi Miller, Perley and Wm. Keyes, David and Goldenith Coffeen, Amos Stebbins, Raphael Porter, Israel Wright, Jonathan and Clark Ross, Jas. Kilham, Chas. Kelsey, Jephtha

King, John Dale, C. Cummings, Gardner Cleveland, Warren Foster, and John Cotes. Miss A. Porter taught the first school, in 1803. Levi Butterfield kept the first inn, and Jacob Williams the first store. David Coffeen built the first gristmill in the co., near the mouth of Mill Creek, in the present village of Felts Mills, in 1801, and a sawmill in 1802. The first child born was in the family of Chas. Kelsey, and the first death, that of Mrs. Francis Towne.

12 Fluorspar, sulphate of barytes, sulphurets of iron and copper, phosphate of lime, zircon, feldspar, tourmaline, hyalite, pyroxene, Rensselaerite, idocrase, calcite, phlogopite, and other minerals, are found in this locality, and some of them are beartifully crystallized. Iron ore has been found in considerable quantity.

14 The river here descends 85 feet within a quarter of a mile. From this place to Rossie its banks are low, and large tracts are often overflowed, causing much sickness. A small steamer has run upon this part of the river.

15 Among the first settlers were James Shurtliff, Anson and Jeremiah Cheeseman, M. B. Ashley, Sylvester Bodman, Azariah Walton, Col. S. Ball, Abram Morrow, Joseph Miller, Archibald Fisher, Jas. Lake, Ebenezer and N. W. Lull, and J. D. Davison.

Mr. Lull built the first store, in 1820. Dr. Jas. Brooks, the first physician, settled in 1822. and died the next year. The first school was taught by Lindley Gibbs, at Hyde Lake. The first child born was Fanny A. Cole, May 26, 1819. The first marriage was that of Ebenezer Lull and Almira Barnes. The first death was that of Mr. Casselman, who was drowned. A gristmill and inn were erected in 1819 for the proprietor.

WATERTOWN1-was formed from Mexico, March 14, 1800. Rutland was taken off in 1802. and Hounsfield in 1806. It lies upon Black River, s. w. of the center of the co. The surface in the s. E. part is broken by the irregular terraces of the Trenton limestone, and in the w. it is level or rolling. The river bank is rocky throughout its whole extent; and in the village, about 3 mi. below, are several extensive caves. It is an important agricultural town; but it is chiefly distinguished for the extent of its trade and manufactures. In amount of business it is unsurpassed by any town in Northern N.Y. Watertown,2 (p.v.,) the co. seat, pleasantly situated upon the s. bank of Black River, was incorp. April 5, 1816. Pop. 5873. It contains an academy, 4 newspaper offices, 5 banks, and 9 churches. Black River here flows, for the space of a mile, in a succession of rapids over the limestone terraces, affording an abundance of water power, which is largely improved, making the village one of the most important manufacturing places in the State. Three road and 2 R. R. bridges cross the river within the limits of the village: one of the former is a wire suspension bridge. An ice cave, near Whittleseys Point, 5 extends under a part of the village. By an act passed March 22, 1853, a board of water commissioners was created. with power to borrow \$50,000 for the construction of water works for the village. The work was finished during the following summer. The water is taken from the river, near the upper part of the village, and thrown by water power into a reservoir 200 feet above the village, and about 1 mi. distant; and from the reservoir it is distributed through the streets. A beautiful fountain is constructed in the center of the principal square.6 At an early day, two rectangular pieces of land were given by the owners of the adjacent lots for public use; and these now constitute beautiful public squares.8 Burrs Mills (p. o.) is a hamlet, on Cold Creek, in the E. part of the town. Watertown Center and Fields Settlement are hamlets. Henry Coffeen and Zachariah Butterfield were the pioneer settlers, in 1800; they located upon the present site of the village. An arsenal was built at Watertown in 1809, and a building for an academy in 1811; the latter was used as a hospital during the war. The census reports 10 churches.11

WILNA¹²—was formed from Le Ray, and Leyden (Lewis co.) April 2, 1813. It lies upon Black River, in the extreme E. part of the co. Its surface is somewhat broken. It is chiefly underlaid by the primary rock, which rises into low, naked ridges, and by calciferous sandstone. Black River forms its w. boundary; and upon it are a series of rapids, forming an abundance of water power.13 The Indian River, in the N. part, also affords water power at several places. At Natural Bridge this stream flows beneath the surface through passages worn in the coarse white limestone which here forms the surface rock. Several interesting minerals are found at this place.

academic building was erected in a grove in the s. E. part of the village. It was soon after merged in the Black River Literary and Religious Institute, founded under the joint auspices of the Watertown Presbytery and B. R. (Cong.) Assoc. in 1836. In May,

4 During the war a factory was built, at a cost of \$75,000, for the manufacture of cotton and woolen cloths. In 1827, Levi Beebe purchased Cowans Island and erected upon it an immense stone cotton factory. It had just been put in operation when, July 7, 1833, it was burned, under suspicious circumstances. The loss was \$200,000; and the site has since remained a ruin. The manufactures of cotton and woolen goods, flour paper, iron castings, machinery, leather, agricultural implements, lead pipe, sash and blinds, and furniture, are extensively carried on.

6 Named from the wife of Samuel Whittlesey, who in 1815 threw herself from this point into the river, and was drowned. Her husband, a lawyer, and paymaster to the drafted militial, had received in N.Y. the sum of \$30,000, in bills, and while returning to Watertown was secretly robbed of \$8700 by his wife. He was greatly alarmed, but was persuaded by her to keep quiet, as it would be difficult to convince the public that a thief would have left so large a portion, and, as they must themselves be suspected of having taken a part, they might as well keep the whole. Her logic succeded upon the weak-minded old man, and before reaching home she had matured plans for concealment and evasion. He started with his portmantean for Oneida co., leaving appointments along the road for paying on his return: but on arriving at Trenton he found he had been robbed. The news of the robbery spread quickly over the country; but the most active inquiry and very liberal rewards failed to bring the thief to justice. On his return home he met his family frantic with grief; but there was an inconsistency in his story, and upon a searching conversation, held separately, with his two bondsmen, Perley Keyes and Jason Fairbanks, the with his two bondsmen, Perley Keyes and Jason Fairbanks, the the State Bridge 500.

1 Its present limits embrace No. 2, or "Leghorn," of the Eleven Towns." It first contained Nos. 1, 2, and 3.

By an ingenious course of inquiry and eavesdropping, they were not only confirmed in the belief, but assured that the family soon intended to remove, and that summary means must be employed to recover the money. They accordingly invited W. to take a walk, which led as if by accident to a lonely spot near the village, previously prepared, where they suddenly charged him with the robbery and threatened instant drowning unless he disclosed. He was twice submerged and life nearly extinguished, when he confessed and was liberated. The money was found sewed into a pair of drawers fitted to be worn by either husband or wife. Mrs. W. immediately after slipped away from the crowd unobserved, nyshed down to the river, and was drowned.—Hought's

Hart Massey built a saw and grist mill here, in 1801, for Low, the proprietor.

10 Oliver Bartholomew came in the same year, (1801,) and in

1802, about 80 families arrived. Jonathan Cowan built the first grist mill, in 1802, and Dr. Isaiah Massey opened the first inn the same year. In 1803, a bridge was built near the present courthouse. In 1805, Wh. Smith and John Paddock opened the first store; and a dam was built across Black River the same year. The first birth was in the family of Moses Bacon; and the first death, that of — Thornton, who was killed by a falling tree.

¹⁸ After affording 42 mi. of navigation, the river here commences to descend by a series of rapids, extending to the lake, failing, in all, 480 feet. The "Long Falls" here descend 55 feet in a distance of 5090; and in the rapids are about 50 small islands. The State Dam, built at this place, is 900 feet long, and

The soil is sandy and moderately fertile. Carthage1 (p.v.) is finely situated upon Black River, at the lower terminus of the B. R. Canal improvement. It contains 5 churches, a private academy, and is the seat of important manufactures. Pop. about 1,500. Natural Bridge. (p. v.,) on Indian River, contains 40 houses. Wilna and North Wilna are p. offices; and Wood Settlement is a hamlet. Settlement was commenced in 1798, at Carthage, by Henry Boutin, one of the French Company.5 The village and town were chiefly settled under Le Ray.6 The census reports 7 churches.7

WORTH8—was formed from Lorraine, April 12, 1848. It lies upon the high, slaty, and shaly ridges in the s. part of the co. It is 1200 to 1500 feet above tide, and is the most elevated land in the co. It is subject to deep snows and early frosts. Wherever the surface is exposed to the action of running water, deep gulfs have been worn in the soft and yielding rock. There are several sulphur springs in town. The soil is principally derived from the disintegration of the underlying rocks, and is well adapted to grazing. About one half of the town is settled. Worthville is a hamlet, and is the only p.o. The first settlement was made in 1802, by an association from Litchfield, Herkimer co., who bought the N. W. quarter, balloted for the lots, built rude mills, and began small improvements.9 A part of the settlers left during the war, and during the succeeding cold seasons of 1816-17 the whole settlement was abandoned. Settlement was not recommenced until several years after. The census reports 1 church, (M. E.)

KINGS COUNTY.

This county was organized with its present limits, Nov. 1, 1683.1 It lies upon the w. end of Long Island, adjacent to New York Harbor, and embraces several small islands adjacent to the coast. It is centrally distant 140 mi. from Albany, and contains 72 sq. mi. The surface is generally level or gently undulating. A broad range of drift hills, 50 to 300 feet above tide, extends from the shore of the bay in the s. w. corner in a N.E. direction through the co. From their summits the surface gradually declines both to the N. and s., and terminates upon the shores in extensive salt meadows. The portion lying N. of the hills is moderately uneven, being occasionally broken by low, isolated drift hills. The shores are deeply indented by bays, which for the most part are shallow, and very

irregular in outline. The principal of these are Newtown Creek, Bushwick Creek, Wallabout, Gowanus, and Gravesend Bays on the w., and Sheeps Head Bay on the s. Jamaica Bay, a large, shallow, landlocked bay upon the s. shore, is partially in this co. It incloses a large number of low, marshy islands separated by narrow and irregular tidal currents. Wide salt marshes extend along the shores of the bays, and far inland along the courses of the small creeks.3 The soil is mostly a light, sandy loam. A strip immediately surrounding the marshes and embracing a large share of the w. extremity is fertile, and capable of producing almost any crop adapted to the climate. Its close proximity to New York, the great commercial center of the country, renders it favorably situated for the development of manufactures and commerce; and both of these pursuits are largely carried on at the centers of population. The agriculture of the co. is mostly confined to gardening for the N. Y. market. All of the business of the co.-manufacturing, commercial, and agricultural — is so intimately connected with the interests of New York that the co. may be considered as a suburb of the great city.4

The county seat is located at the city of Brooklyn.⁵ The courts are accommodated at the City Hall, which belongs exclusively to the city. The jail, located upon Raymond St., is closely surrounded by other buildings, and its ventilation is very imperfect. The average number of inmates is 80, supported at a weekly cost of \$2.10 each. The Kings Co. Penitentiary is located upon a farm of 38 acres near the s. line of Brooklyn. The buildings, now nearly completed, are of stone, and sufficiently spacious for the accommodation and care of all the prisoners of the co. The main building is 490 feet long by 86 feet broad, with two wings of 50 feet each. The total cost up to January 1, 1857 was \$190,414.35. The institution is designed to be self supporting. The county clerk's office is kept at the City Hall. The Kings County Almshouse is located upon a farm of 70 acres in Flatbush, about three miles s. of the City Hall of Brooklyn. This institution consists of four large brick buildings,-the almshouse proper, hospital, nursery, and lunatic asylum. These buildings are spacious and well arranged, but poorly ventilated. A school is maintained through the year, and religious instruction is given upon the Sabbath.

^{*}This creek is a thea current, receiving several shant its awater streams, and is properly a narrow bay.

*Upon the beach the General Government has established 2 lifeboat stations. In Jan. 1821, the bay and the Narrows between the w. extremity of Long Island and Staten Island were frozen so that persons crossed on the ice.

4 For more minute description of the business of the co., see

⁴ For more minute town descriptions.
5 The courts were originally held at Gravesend; but, by an act of the General Assembly, passed Nov. 7, 1685, they were removed to Flatbush, and a courthouse was built there the succeeding year. This building was used until 1758, when a new continued courthouse and jail was erected. By an act passed to the pairs of the repair. ceeding year. This building was used until 1735, when a new combined courthouse and jail was erected. By an act passed April 6, 1784, a tax of £200 was authorized to be raised to repair the injuries which had been done to the courthouse and jail by the British. The repairs were expended under the direction of Philip Nagel and Jeremyas Vanderbilt. By an act of March

¹ From 1665 to 1683 this co. formed a part of the "West Riding of Yorkshire." England. See p. 544.

2 This creek is a tidal current, receiving several small fresh Chas. Doughty, and £1,200 was appropriated for that purpose. During the next year £300 additional was raised to finish the buildings. These buildings were burned Nov. 3, 1832; and by act of Feb. 27, 1834, the co. seat was removed to Brooklyn. The first co. officers after the Revolution were Nicholas Couchhoven, First Judge; Jacob Sharp, ir., Clerk; Wm. Boerum, Sheriff; and Johannes E. Lott, Surrogate.

6 Up to June 1, 1858, 39,910 prisoners had been confined in

this jail.

⁷ By an act of May 1, 1828, a fireproof co. clerk's office was directed to be built in Brooklyn. A more spacious one was built in 1837, which was used until the office was removed to its present location in the City Hall. By an act passed in 1852, an office of Register was created; and by a later act, discretionary powers have been granted to a Board of Commissioners for the better preservation of the public records.

Children are bound out at the age of 12 years. The average number of inmates is 1,800, supported at a weekly cost of about \$2.00 each. The farm yields a revenue of \$3,500.

The Brooklyn & Jamaica R. R. extends from the s. ferry of Brooklyn eastward through near the center of the co. The Flushing R. R. extends from Hunters Point, (Queens co.,) N. of Brooklyn, to the village of Flushing, a distance of 8 mi. In the city of Brooklyn are several local rail roads; and from the city lines of stages extend to every village in the co.

Four newspapers—three daily and one weekly—are now published in the co.1

The first settlements of this co. were made mostly by the Dutch, about 1625. In 1640, a colony of Mass. Quakers, in quest of religious freedom, settled at Gravesend under the protection of the Dutch Government. Long previous to the English conquest of 1664, settlements had been made, mills erected, and churches and schools established in every town in the co. The settlers were so exclusively Dutch that the Dutch language and customs prevailed until within a comparatively recent period. Bushwick, Brooklyn, Flatbush, Flatlands, and New Utrecht were known under the English Government as the "Five Dutch Towns;" and they were associated, for certain purposes, until 1690.2 The Five Towns also formed an ecclesiastical society, and joined in the support of their minister until the final separation of the American church from the Classis of Holland, in

Few events of interest occurred within the limits of this co. during the colonial period. Its Revolutionary annals belong to the general history of the country. During its occupation by the British, from 1776 to 1782, the people were subjected to a series of disgraceful and oppressive acts. Many of the inhabitants left the co. from fear of hostile visits during the War of 1812-15; and at times much alarm was felt,-although no hostile visit actually took place. It has shared in the growth of New York City, and is closely identified with it in business. This co. is included in the "Metropolitan Police District" created by act of April 15, 1857, and in the Board of Police Commissioners it is represented by the Mayor of Brooklyn and one other member. Vast schemes of speculation have from time to time arisen, most of which have resulted in loss, and several of them, devised upon a magnificent scale, have seriously retarded the progress of needful improve-

From 1850 to 1853 about 40 building associations were organized in this co., ostensibly to enable hose of humble means to acquire a home, but practically to form contributions to a fund which was loaned to those members who would allow the highest premium. The rates submitted to were often extremely ruinous, and the speculation had but a brief existence.

BROOKLYN1-was incorp. by patent, with the usual privileges of townships, under Gov. Lovelace, Oct. 18, 1667, and its rights were confirmed by Gov. Dongan, May 13, 1686. It was recognized as a town under the State Government March 7, 1788. The village of Brooklyn was incorp. as a fire district April 2, 1801, and as a village April 12, 1816, and both town and village were incorp, as a city April 8, 1834. The city of Williamsburgh and town of Bushwick were annexed April 17, 1854.2 The city extends along New York Bay and East River to Newtown Creek, occupying the N. part of the co. Its exterior line is 22 mi., and it contains an area of 16,000 acres. The s. and E. borders are occupied by a broad range of low hills,

which extend E. into Queens co. Along the shore opposite the lower point of New York is an irregular bluff known as "Brooklyn Heights." A considerable portion of the s. part of the city is low and level. Newtown Creek, forming the N. boundary, is an irregular arm of the sea, receiving several small fresh water streams. Wallabout Bay is a deep indentation lying between the old cities of Williamsburgh and Brooklyn. Gowanus Bay extends into the s. part of the city.3 The land that borders upon these bays is flat and marshy.

Within the limits of Brooklyn are several districts known by the names which they bore when they were distinct localities, before the city was incorporated. These will eventually all be lost in the growth and consolidation of the business of the city. Brooklyn (p.o.) includes the old settled parts of the city s. of Wallabout Bay. Upon East River, in this district, are several large manufactories. The water front is entirely occupied by wharves and warehouses. Williamsburgh (p. o.) includes the thickly settled portions N, of Wallabout Bay. It contains a large number of manufacturing establishments, and its entire water front is devoted to commercial purposes. Green Point, (p.o.,) comprising the 17th ward, lies between Bushwick and Newtown Creeks, and occupies the extreme N. W. part of the city. It contains extensive shipyards, and manufactories of porcelain, coal oil, lifeboats, and many other articles. Wallabout (sometimes called East Brooklyn) lies E. of Wallabout Bay. Bedford and New Brooklyn are localities on the R. R., in the E. part of the city. Bushwick Cross Roads and Bushwick Green are villages E. of Williamsburgh. Gowanus is a village near the head of Gowanus Bay. South Brooklyn comprises the portion of the city lying s. of Atlantic St. It has an extensive water front; and along the shore immense works have been constructed to facilitate commerce.4 It contains extensive wood, coal, stone, and lumber yards, and numerous planing mills, distilleries, breweries, plaster mills, founderies, and machine shops. The city is connected with New York by 11 steam ferries, all supplied with excellent boats, which perform regular and frequent trips.⁵ From the Atlantic St. Ferry the Brooklyn & Jamaica R. R. extends E. to the E. bounds of the co.6

From the principal ferries lines of city railroads extend through the principal avenues and radiate to nearly every part of the city, affording easy, rapid, and cheap means of communication. The commerce of Brooklyn is extensive, though it scarce has an independent existence, from its intimate relations with that of New York. The docks and piers at South Brooklyn are among the most extensive and commodious in the country. Ship and boat building and repairing are extensively carried on at Williamsburgh and Green Point. The whole water front of the city is occupied by ferries, piers, slips, and boat and ship yards; and the aggregate amount of business

Bushwick—signifying wood-town—was invested with certain powers of government March 14, 1661. Another patent was granted Oct. 25, 1667; but it remained associated with other towns until Aug. 12, 1708. Williamsburgh Village, in this town, was incorp. April 14, 1827, and the town of Williamsburgh was formed March 16, 1840. The village and town were united and incorp. as the City of Williamsburgh April 7, 1851, and the city and town of Bushwick were annexed to Brooklyn April 17, 1854. Bushwick now constitutes the 17th and 18th wards, and Williamsburgh the 13th, 14th, 15th, 16th, and a part of the 19th wards.

sufficient depth of water for any vessel. An outside pier is 3.000 feet long. The warehouses upon the piers are of granite. The Erie Basin and other extensive docks along the bay have been contained and work upon them has commenced. These docks Erie Basin and other extensive docks along the bay have been projected, and work upon them has commenced. These docks afford perfect security to vessels while loading and unloading, and security to goods against theft. It is estimated that \$1,000,000 worth of goods are annually stolen from the wharves and ships at New York and Brooklyn.

5 These several ferries are all chartered by the Corporatiou of N. Y. City. The boats average 400 tons, and are noted for the regularity with which they perform their trips. See page 428.

6 This road is leased to the Long Island R. R. during the term of its charter. A tunnel 2.750 feet long, extending under a portion of Atlantic St., commences near the ferry. It was finished in Dec. 1844, at a cost of \$96,000.

transacted there forms an important item in the commerce of the State. In the extent and variety of its manufactures Brooklyn ranks among the first cities in the country. Located near the great commercial center, it has become the seat of an immense manufacturing interest.1

The U. S. Navy Yard is located upon Wallabout Bay.2 The premises connected with it occupy an area of 45 acres, and are inclosed on the land side by a high wall. Within the inclosure are various mechanic shops necessary in building and repairing vessels, a large and costly dry dock,3 two large buildings to cover ships of war while in process of building, extensive lumber warehouses. several marine railways, and a large amount of balls, cannon, and other munitions of war. The Naval Lyceum is filled with curiosities sent home by naval officers. Upon a gentle rise, a little E. of the Navy Yard, is a U.S. Marine Hospital for the care of sick and infirm seamen belonging to the navy. Near it is an extensive laboratory for the manufacture of medicines for the navy. The grounds belonging to these establishments occupy an area of 35 acres. A little E. of the Navy Yard, upon Park Avenue, are extensive temporary Marine Barracks.

The city is well supplied with pure, soft water, derived from Hempstead Hook, Valley, and Spring-

The work was suspended from Aug. 1842, till Oct. 1844. The main chamber is 286 feet long by 35 feet wide at the bottom, and 307 feet long by 98 feet wide at the top. Depth, 36 feet. The masonry foundations are 400 by 120 feet, upon piles driven 40 feet into the earth. It is emptied by steam pumps in 4½ hours.—Stuart's Naval Dry Docks of the U. field Creeks. It is brought 73 mi. in an open canal and 43 mi. in a brick conduit, thence pumped into a reservoir on Cypress Hill, 170 ft. above tide, and thence distributed in iron pipes throughout the city. The conduit has a capacity of 40,000,000 gallons per day, and the pumps can raise 10,000,000 gal. per day. The reservoir is 20 feet deep, and has a capacity of 167,000,000 gals. The whole cost of the work is estimated at \$4,200,000.1 The Fire Departments of the Eastern and Western Districts are separately organized under special acts.² The city is supplied with gas by 3 companies.

The City Park, between Park and Flushing Avenues and Navy and Park Sts., contains 7 acres; Washington Park, between Myrtle and De Kalb Avenues and Cumberland and Canton Sts., contains 33 acres. It occupies the site of Fort Green of the Revolution. In the newly surveyed

sections several sites for parks have been reserved by the city.

The City Armory, at the corner of Henry and Cranberry Sts., was erected in 1858, at a cost of \$14,000. A State Arsenal, on Portland Ave. was built in 1856, at a cost of \$40,000.

The City Hall, situated at the junction of Fulton and Court Sts., is a fine building, faced with white marble.3 Besides these, there are in the city 9 banks of discount, 5 savings' banks, and 10 stock fire insurance companies.

The Public Schools are under the charge of a board of education, consisting of 45 members. The city contains 32 school districts; and in 1857 there were employed 320 teachers,—27 males and 293 females. The whole number of children between 4 and 21 years of age is 46,000, of whom 35,817, or 78 per cent., attended school during some portion of the year. The total expenses of the schools for 1857 was \$231,474.61. A normal school for the professional instruction of teachers has been established.

The Packer Collegiate Institute, for girls, occupies an elegant building upon Joralemon St., w. of the City Hall. It was incorp. May 8, 1845, as the "Brooklyn Female Academy." Its name was changed March 19, 1853, in honor of Mrs. Wm. S. Packer, who endowed the institution with \$65,000. An astronomical observatory is connected with it.4

The Brooklyn Collegiate and Polytechnic Institute, for boys, on Livingston St., was incorp. April 7, 1854. It was established by a stock company, with a capital of \$75,000, and has accommodations for 450 pupils. Besides these, there are in the city 100 private schools and seminaries, several of which are large institutions, with corps of professors and with permanent investments. The aggregate number of pupils in attendance at the schools is 2,600.

The Brooklyn Institute was incorp. Nov. 20, 1824. It occupies a commodious building on Washington St., the gift of Augustus Graham. It has a free library, provides free lectures and lessons in drawing and painting for apprentices, and its rooms are depositories for books, maps, models,

and drawing apparatus.

The Brooklyn Athenaum and Reading Room, on the corner of Atlantic and Clinton Sts., was incorp. Jan. 28, 1852. It occupies a large three story edifice, erected at a cost of \$60,000. The first story is used for mercantile purposes, the second for a library and reading room, and the third for public lectures.

The Law Library in Brooklyn, incorp. Jan. 8, 1850, is located at 341 Fulton St.

The Naval Lyceum, within the Navy Yard, was established in 1833 by officers of the navy. 18 has a fine library and museum.

The Kings County Lodge Library Association, at Williamsburgh, was incorp. Feb. 7, 1847.

Among the societies for intellectual improvement are the Hamilton Library Association, founded in 1830; the Franklin Debating Association, in 1852; the Young Men's Association, in 1853; the St. Charles Institute, in 1854; the Eccleston Literary Association, in 1854; and the Columbia Literary Association, in 1855. The Great Northwestern Zephyr Association, designed to encourage native talent in music, painting, and sculpture, was organized in 1838. The Philharmonic Society

^{1.} This great work is just completed. Until a very recent date the city has depended upon wells and cisterns for its supply of water. There were 122 public cisterns in the city; but all the supplies were entirely inadequate to the demand for water. The first agitation for a better supply of water commenced in 1835; but nothing was accomplished until 1847, when a report was made recommending the building of reservoirs to be supplied from wells. In 1849, W. J. McAlpine submitted a plan for obtaining a supply from the streams flowing into Jamaica Bay. The question of prosecuting this work at public expense was repeatedly voted down. Several private companies caused surveys to be made, and one of them acquired titles to the streams in question; and June 4, 1856, the Common Council subscribed \$1,300,000 to the stock of the Nassau Water Company. The work was commenced July 31, 1856, under the charge of James

of Brooklyn, for the encouragement of music, was incorp. May 6, 1857. The Brooklyn Horticultural Society was incorp. April 9, 1854, and holds annual fairs. The Hunt Horticultural and Botanical Garden was incorporated April 9, 1855, with a capital of \$150,000. It has a garden of 16 acres.

The Brooklyn City Hospital, on Raymond St. near De Kalb Avenue, was incorp. May 8, 1845. Its present buildings were opened April 28, 1852. It is supported by voluntary contributions and legislative appropriations. The Brooklyn City Dispensary, located at 109 Pineapple St., was incorp. March 5, 1850. It is supported in the same manner as the hospital. The Brooklyn Dispensary, (Homeopathic,) 83 Court St., was incorp. Dec. 3, 1852. It is supported by private subscriptions. The Williamsburg Dispensary, on the corner of 5th and South Sts., was incorp. March 4, 1851; 2,221 persons received medical treatment at the institution in 1857. It is supported by private contributions. The Brooklyn Central Dispensary, 473 Fulton St., was incorp. Dec. 11, 1855. The Brooklyn German General Dispensary is located at 145 Court St. The Brooklyn Eye and Ear Infirmary, 109 Pineapple St., was incorp. March 27, 1851.

The Orphan Asylum Society was incorp. May 6, 1834. The institution is situated upon a fine site on Cumberland St. near Myrtle Avenue.

The Roman Catholic Orphan Asylum of Brooklyn was incorp. May 6, 1834. The asylum for boys is located at the corner of Clinton and Congress Sts., and the asylum for girls upon Congress St, near Clinton. The former has 120 inmates, and the latter 250. The girls are under the charge of the Sisters of Charity. The support of these institutions is principally derived from the income of a large property bequeathed by Cornelius Heeney and under the charge of the Brooklyn Benevolent Society.¹

The Brooklyn Association for Improving the Condition of the Poor was formed March 26, 1844. It numbers about 180 visitors, whose duty it is to investigate the condition of the poor in every part of the city, afford such temporary relief in the way of food and clothing as the cases may warrant, and to refer the needy to the appropriate sources for permanent relief. This association distributes \$6,000 to \$7,000 per year. The Brooklyn Benevolent Society, founded upon a bequest of Cornelius Heeney, was incorp. in May, 1845. It is managed by 11 trustees, of whom the Archbishop of N. Y. and the Mayor of Brooklyn are ex officio members. Its funds are principally devoted to the support of various Catholic charities. The Brooklyn Society for the Relief of Respectable and Indigent Females, incorp. in 1851, was founded by John B. Graham, who erected a fine edifice, corner of Washington and De Kalb Sts., as a home for the unfortunates named in the title. It derives its support from private subscriptions. The Children's Aid Society was organized in Feb. 1854, as an industrial school. The Brooklyn Industrial School Association, under the management of ladies of the several churches, was incorp. April 4, 1854. It has established schools in different parts of the city for girls who do not attend the public schools, and who are entirely deprived of moral training. The Brooklyn Female Employment Society, an association of ladies to furnish employment to respectable females who may be reduced to want, was incorp. April 19, 1854. Its office and salesroom is at 65 Court St. The Church Charity Association for the relief of the aged, sick, and indigent was incorp. in March, 1851. It is under the patronage of the Prot. E. Church.

The churches of Brooklyn are justly celebrated for their general elegance and beauty of architectural design. Large numbers of people doing business in New York reside in Brooklyn; and this has led to the erection of so great a number of churches that the city has been denominated the "city of churches." In 1858 there were 139 churches in the city. Connected with these churches are various religious and charitable societies. The Freemasons, Odd Fellows, and Sons of Tem-

1 The other benevolent Catholic societies in the city are as follows:—St. James's School, Jay St., with 500 pupils under the Brothers of Christian Schools, and 450 pupils under the Sisters of Mercy; St. Puwl's Female School, with 400 pupils, under the Sisters of Charity; St. Peter's and Paul's School, with 300 girls, under the Sisters of St. Joseph; St. Mary Star of the Sca, with 300 girls, under the Sisters of St. Joseph; St. Mary Star of the Sca, with 300 girls, under the Sisters of Charity; Convent and Female School attached to the Church of the Holy Trinity; Convent and Boarding Academy of the Sisters of St. Joseph; Convent and Academy of the Visitation; St. Francis of Assis? Convent of Sisters of Mercy and Nuns of the Order of St. Dominic. The Re. C. Beneficial Society of St. Feler's and St. Paul's Church was incorp. June 15, 1858, to sustain a Sunday school and library, and support the sick and bury the dead. Free schools are connected with all the churches except that of St. Charles. 25 Prot. E., 22 M. Greenwood Cemetery, upon the s. line, is mostly within the limits of the city. It is owned by a joint stock company, incorp. April 18, 1838. It comprises an area of 400 acres, beautifully located upon the elevated and broken ground E. of Gowanus Bay. The grounds were purchased, and opened for burial in 1842; and up to Aug. 1858, 64,000 burials had been made. It is one of the oldest and most beautiful of the rural cemeteries connected with the great cities in this country. The grounds are laid out with taste; and many of the sculptured monuments are costly and beautiful specimens of art.

The Cemetery of the Evergreens, upon the E. line, is partly in Queens co. It is beautifully located upon a bluff, affording fine views of New York, the bay, the ocean, and the surrounding country. It

was opened for interment in 1849.

The Friends' Cemetery lies near the city line, N. of Greenwood. It has a fine location; but, in accordance with the principles of the sect, no ornamental monuments are allowed to be erected in it.

The Citizens' Union Cemetery, incorp. in 1851, contains an area of 29 acres. The trustees allow the burial of persons of color and of the poor for no charge except that of opening and closing

the ground.

The first settlements were made under the Dutch Government, in 1625, by several families of French Protestants from near the river Waal, in Netherlands, who located near Wallabout Bay. They named their settlement "Walloons," and the bay "Walloons Boutt," from which is derived its present name Wallabout.2 Little progress was made in settlement for many years; and no governmental organization was effected under the Dutch. Up to the commencement of the present century the population was principally confined to several little hamlets scattered over the territory now embraced in the city. Since 1840 the increase of population and the growth of the city have been very rapid, scarcely paralleled by the magical growth of the cities of the West.3 Although possessing a separate municipal government, in all its business and interests it forms an integral part of the city of New York. In the summer of 1776, New York and vicinity became the theater of stirring military events. After the British had evacuated Boston, Washington marched immediately to New York, believing that the enemy would make this the next point of attack. Every effort was made to construct and strengthen the military defenses of the place. Strong works were erected in Brooklyn and other points upon Long Island, and large bodies of troops were posted there to defend them. The British arrived, and landed their troops upon Staten Island July 8; and on the 22d of Aug. they passed over to Long Island, to the number of 10,000 strong. They landed in New Utrecht, whence three roads led over the hills to where the Americans were encamped. One of these roads passed near the Narrows, the next led from Flatbush, and the third far to the right by the route of Flatlands. It was the design of Gen. Putnam, who commanded the American forces, to arrest the enemy upon the heights; and the appearance of columns of troops early on the morning of the 27th on the middle road led to the belief that the main attack was to be made at that point. While intent upon this movement, it was found that the main army of the enemy were approaching from the direction of Bedford, and that there was imminent danger of being surrounded by them. Attacked in front and rear, the Americans fought with bravery; but a part only succeeded in gaining their entrenchments. The loss of the Americans was more than 3,000 in killed, wounded, and prisoners; and of the enemy, less than 400. Gens. Sullivan. Stirling, and Woodhull were taken prisoners,—the last named of whom died from wounds inflicted after his surrender. The Americans withdrew to New York early on the 30th, under the personal direction of Gen. Washington.4 The American prisoners taken at this battle, and those taken afterward during the war, were confined in the hulks of old ships anchored in Wallabout Bay,

FLATBUSH²—was chartered by Gov. Stuyvesant in 1652, and its rights were confirmed by Gov. Nicoll, Oct. 11, 1667, and by Gov. Dongan, Nov. 20, 1685.³ It was recognized by the State Government March 7, 1788. New Lots was taken off in 1852. It is the central town in the co.. lying immediately s. of Brooklyn. A low, broad range of hills extends along the N. border, occupying nearly one-fourth of its surface. The remainder of the town is level. The soil is light and sandy, but productive. Flatbush (p. v.) is a long, scattered village, extending through the center of the town. It contains 4 churches,4 the Erasmus Hall Academy,5 and many elegant dwellings. Greenfield is a thinly settled village plat in the s. w. corner of the town. A part of Greenwood Cemetery lies in the N. W. corner. Calvary Cemetery lies E. of the village. The first settlement was made by the Dutch at an early period.

FLATLANDS6—was incorp. by patent under Gov. Nicoll, Oct. 4, 1667, confirmed by Gov. Dongan, March 11, 1685,7 and recognized by the State Government March 7, 1788. It is the s. E. town in the co. The surface is very flat, as indicated by the name; and a considerable portion consists of salt marshes bordering upon Jamaica Bay.8 Several small, marshy islands belong to the town.9 Flatlands (p.o.) is a farming settlement. Canarsie10 (p.o.) is a hamlet, upon the road leading to the bay. The first settlement was made by the Dutch, in 1636. Ex-Gov. Wouter Van Twiller had a tobacco farm in this town while it was under Dutch rule. There are 3 churches in town; 2 M. E. and Ref. Prot. D.

GRAVESEND¹¹—was granted to English settlers, by patent under Gov. Keift, Dec. 19, 1645, and confirmed by Gov. Nicoll, Aug. 13, 1667, and by Gov. Dongan, Sept. 10, 1686.12 It was recognized as a town March 7, 1788. It is the most southerly town in the co. The surface is generally very level. A beach and ridge of sand hills extend along the coast, and in the rear of these are extensive salt meadows. Coney Island is separated from the mainland by a narrow tidal current flowing through the marshes. 13 Gravesend, (p. v.,) near the center, is compactly built, and was formerly fortified with palisades. It was the county seat prior to 1686.14 Unionville is a small settlement on the bay, near the w. line. The Cove is a settlement on Sheeps Head Bay. This town was settled before 1640, by English Quakers, from Mass. Lady Deborah Moody-a woman of rank, education, and wealth-was a prominent person in this enterprise. The liberal terms of their first grant were not fully regarded by the Dutch; but the prudence and firmness of Lady Moody eventually secured a good degree of respect and a more indulgent policy toward them. In 1655 the settlement was saved from destruction by North River Indians by a guard from the city. In 1656 the people petitioned for and obtained 3 big guns for their protection. In 1659 the town agreed to give Henry Brazier 500 gilders for building a mill, and

The Hope and the Falmouth, anchored near by, were the hospital ships; and upon these most of the deaths occurred. It is reported that 11,500 prisoners died upon these ships during the war. The persistent barbarity and cold-hearted inhumanity practiced by the British toward these prisoners finds no parallel in the history of civilized nations; and the horrible sufferings of the prisoners in their foul dungeons, reeking with filth, disease, and the air of the charnel house carried through months and years, completely east into the sheal the ble sufferings of the prisoners in their foul dungeons, reeking with filth, disease, and the air of the charnel house carried through months and years, completely cast into the shade the lesser horrors of the Middle Passage, or of the Black Hole of Calcutta. The graves of these martyrs of freedom were uncovered while grading for the Navy Yard, in 1808. Twenty hogsheads of bones were collected, deposited in 18 coffins,—representing the 13 original States,—and, May 26, 1808, they were buried upon Hudson Avenue, near the Navy Yard, under the auspices of the Tammany Society. The land upon which they were interred was given for that purpose by John Jackson. Several years since, Benj. Romaine inclosed the remains in a vault; and, Jpril 11, 1851. an association was incorp. for collecting funds to build a monument. Onderdonk's Hist. Prison Ships.

NEW LOTS1-was formed from Flatbush, Feb. 12, 1852. It lies in the extreme E. part of the co. Its surface is generally level, the s. half being occupied by extensive salt meadows. East New York (p.v.) is a prospective city of "magnificent distances" near the N. line. It contains a newspaper office, 4 churches, a manufactory of dvestuffs and colors, several shoe manufactories, and 1,000 inhabitants. Cypress Hills is a newly surveyed village near the N. E. corner. The Cypress Hills Cemetery, Cemetery of the Evergreens, and Cemetery of the Congregation of Emanuel (Jewish) are partly in this town. The first settlement was made by about 20 families from Holland and a few Palatinates, in 1654. In 1660 the portions of lands previously held in common were divided into lots and assigned to individuals. During the same year a horsemill was erected. For many years the deacons of the church were chosen overseers of the poor, and from 1799 to 1812 the schools were under the direction of church officers. A detachment of 1,200 militia was stationed here in the War of 1812, in anticipation of an attack by the British. There are 5 churches in town.3

NEW UTRECHT—was incorp. by Gov. Stuyvesant in 1662, by Gov. Nicoll, Aug. 15, 1668, and by Gov. Dongan, May 13, 1686.4 It was recognized as a town March 7, 1788. It lies upon the Narrows, in the w. part of the co. A range of low hills extends across the N. border, and the remaining part of the surface is level. The soil is a light, sandy loam, but for the most part is highly cultivated. New Utrecht, (p. v.,) in the s. part, is a small, compact village. In ancient times it was inclosed by a palisade as a defense against Indians and pirates. Fort Hamilton, (p.v.,) near the U.S. grounds, is a fine village, chiefly inhabited by persons doing business in New York. Bath is a place of summer resort on Gravesend Bay. Bay Ridge is a suburban village adjoining Brooklyn. Fort Hamilton is a U.S. fortification upon the bluff commanding the passage of the Narrows.5 Fort La Fayette is a strong water battery built upon Hendricks Reef, 200 yards from the shore.6 There are 6 churches in town.7

LEWIS COUNTY.

This county was formed from Oneida, March 28, 1805, and named in honor of Gov. Morgan Lewis. Slight changes were made in the boundary on the erection of Pinckney, in 1808, and of Wilna, in 1813. It lies mostly within the valley of Black River, N. of the center of the State. It is centrally distant 116 mi. from Albany, and contains 1,288 sq. mi. Its surface consists of the broad intervales which extend along the course of Black River, and uplands which rise upon the E. and w. The eastern half rises gradually to the E. border of the co., where it attains an elevation of about 1400 feet above tide. This part of the co. forms a portion of the great wilderness of Northern N. Y. The surface in many places is broken by low ridges or isolated masses of naked gneiss. The streams

generally flow over rocky beds, and in places through wild ravines. The soil is a light, yellow, sandy loam and unprofitable for cultivation. In the eastern forests are great numbers of picturesque lakes, many of which are scarcely known except to hunters and fishermen. The streams flowing from the plateau are generally rapid, furnishing an abundance of water power.\(^1\) Magnetic iron ore has been found interstratified with gneiss and red specular ore on the N.E. border of the co., and along the margins of the streams is an abundance of iron sand. At the junction of the gneiss and white limestone in Diana are a great number of interesting minerals.2

The w. side rises from the valley of Black River by a series of terraces to near the center of the w. half of the co., whence it spreads out toward Lake Ontario. These terraces are occasionally broken by oblique valleys from the N. w. The summit is 1500 to 1700 feet above tide. The intervale along the river, and the banks which immediately border upon it, are underlaid by Black River limestone. Next above this, in an irregular terrace, rises the Trenton limestone, 300 feet thick in the N. part of the co. and gradually diminishing toward the s. This limestone is very compact and strongly resists the action of the elements. In many places it presents the face of steep declivities approaching the perpendicular, and the streams from the w. plateau generally flow over this formation in a single perpendicular fall. This rock underlies an extremely fertile and nearly level tract of 1 to 3 mi. wide. Above it, on the w., the strata of the Utica slate and Lorraine shales rise about 500 feet higher, and from the summit the surface spreads out into a nearly level region, with its waters flowing both toward the E. and w.3 This range in Lewis co. is known as Tug Hill. The soil in the limestone region is sometimes thin, but is everywhere productive. Near the foot of Tug Hill is a strip of stiff clay a few rods wide, extending the whole length of the co., and marked by a line of springs and swamps. The soil upon the slate is deep and well adapted to grazing, but, from its great elevation, it is liable to late and early frosts. Upon the summit of the slate table lands are extensive swamps, which give rise to streams flowing into Black River, Lake Ontario, Oneida Lake, and the Mohawk. Drift deposits are scattered promiscuously, and sometimes lie at a great depth, more particularly upon the northerly sides of the oblique valleys

The streams which rise on the summit of Tug Hill in many places flow through ancient beaver meadows, and upon the brow of the hill they have invariably worn deep ravines into the slates and shales, in some instances 3 or 4 mi, in length and 100 to 300 feet deep. Chimney Point and Whetstone Gulf, in Martinsburgh, are localities of this kind. There are but few ravines in the limestone terraces, though the Deer River Falls, near Copenhagen, are in a gorge worn in this rock. thin layer of Potsdam sandstone rests immediately upon the gneiss in Martinsburgh. Waterlime of excellent quality has been made from the lower strata of Black River limestone, and veins of lead ore have been worked in the upper part of the Trenton limestone in Martinsburgh and Lowville.4 The outline of the hills readily indicates the character of the underlying rocks.⁵

¹ The water of these streams is discolored by organic matter, manganese, and iron, and imparts to Black River the color which has given it its name.

which has given it its name.

2 Zircon, sphene, tabular spar, pyroxene, nuttallite, blue calcite, bright crystallized iron pyrites, Rensselaerite, and coccolite are found near the Natural Bridge.

3 The highest part of this range is said to be on Lot 50, in High Market, and is 1700 feet above tide. On a clear day the hills of Madison co. can be seen from this place.

⁴ About the year 1828 a silver mine was announced as discovered near Lowville; and in 1837 a lead mine was somewhat extensively wrought 1 mi. n. w. of Martinsburgh Village, and several tons of lead were made at a great loss. More recently a company of speculators have bought the premises; but work has not been resumed, and probably will not be. Black oxyd of manganese has been found in swamps upon the summit of

Tug Hill, in the s. w. part of Martinsburgh.

6 In the primary region the upheavals retain their original

The s. w. part of the co. is drained by Fish Creek and its branches, and the headwaters of the Mohawk. Salmon River rises upon the w. border, and the Oswegatchie and Indian¹ Rivers take their rise in the N.E. The principal tributaries of Black River are Moose2 and Beaver Rivers,3 Otter.4 Independence, and Fish Creeks, and Fall Brook, on the E.; and Sugar River, Mill, Houses, and Whetstone Creeks, Roaring Brook, Lowville Creek, and Deer River⁵ upon the w. Several mineral springs are found within the co.6 Spring grains are readily cultivated; but this co. is particularly adapted to pasturage, dairying forming the principal pursuit of the people. Droughts seldom occur; but the uplands are noted for their deep snows. Within a few years, several extensive establishments have been erected upon Black, Moose, Beaver, and Deer Rivers, for the manufacture of leather, paper, lumber, and articles of wood. Two furnaces for the manufacture of iron from the ore are located near the N. border.

The county seat is located at Martinsburgh. A wooden courthouse and jail were built here in 1810-11, upon a site given by Gen, Martin.7 The present clerk's office was erected by citizens of Martinsburgh in 1847. Active efforts were made at an early day, and renewed in 1852, to obtain the removal of the co. seat to Lowville, and a fine edifice was built at that place for the courts, in the hope of securing their removal. The co. poorhouse is located upon a farm of 59 acres 1 mi, w. of Lowville. The average number of inmates is about 90. The institution is well managed in regard to economy, neatness, and the health of the inmates. The only internal improvement in the co. is the Black River Canal, connecting Black River below Lyons Falls with the Eric Canal at Rome. From Lyons Falls the river is navigated to Carthage, a distance of 42½ mi., by small steamers. Three newspapers are now published in the co.9

This co. is entirely within Macomb's Purchase, and includes a part of Great Tract No. IV., 10 most of the Chassanis Purchase, 11 Watson's West Tract, 12 the Brantingham Tract, 13 and a small part of John Brown's Tract,14 on the E. side of the river: and 4 of the "Eleven Towns,"15 5 of the Thirteen Towns of the Boylston Tract, 16 Constable's Five Towns, 17 and Inman's Triangle 18 on the w. The first settlers came from New England and settled at Leyden in 1794. The fame of the

forms without change; the limestone terraces rise by steep slopes to their level summit; and the slate and shale hills exhibit the yielding character of the rocks which compose them, by their rounded outline and the gorges which every spring torrent has worn upon their sides.

10 This tract was bought by the Antwerp Company, and embraced an area of 450,950 acres. Seep. 353.

11 This tract was purchased by Pierre Chassanis in 1792, and was supposed to contain 600,000 acres. Upon a survey being made, it was found that the tract fell far short of this; and a new agreement was made, April 2, 1793, for 210,000 acres. A narrow strip of this tract extended along the z. side of the river to High Falls. The settlers of this tract were principally refugees of the French Revolution. Many of them were wealthy, titled, and highly educated, and, in consequence, were poorly fitted for the hardships of pioneer life. Large sums of money were expended to render the settlement successful, but the settlers soon after returned to France and the enterprise was abandoned. Rodolph Tillier was the first agent; and in 1800 he was superseded by Gouverneur Morris, who appointed Richard Coxe his agent. The first buildings were erected near the present residence of Francis Seger.

12 James Watson purchased 61,433 acres, in 2 tracts, connected by a narrow isthmus. The eastern tract is mostly in Herkimer co.

and contains 74,400 acres.

H This tract, which is popularly regarded as the whole northern wilderness of New York, included 210,000 acres sold by Constable to John Julius Angerstein, and afterward conveyed to John Brown, of Providence, R. I. It was divided into 8 townships, as follows:

 Industry.
 Enterprise. Sobriety.
 Economy 3. Perseverance.

4. Unanimity.

18. Regularity.

It has been said that all these social virtues are needed for the settlement of this region. The first 4 townships are partly

26,250 acres, forming a perfect triangle.

"Black River country" spread through Mass. and Conn., and within the next ten years the country between Tug Hill and the river rapidly filled up with a laborious, intelligent, and enterprising population. A romantic project of settlement formed by refugees of the French Revolution, in which Arcadian dreams of rural felicity were to be realized, was abandoned after a short experience of the real hardships of pioneer life. Except an expensive but ineffectual attempt by Brown to settle his tract, toward the close of the last century, little improvement was made E. of the river until about 1820; and this section has at present less than one-fourth of the population, and a still less proportion of the wealth, of the co. A systematic effort at settlement of the extreme w. part was first made in 1840-46, under Seymour Green and Diodate Pease, agents of the Pierrepont estate. Much of this region is still a wilderness.

CROGHAN¹—was formed from Watson and Diana, April 5, 1841, and a part of New Bremen was taken off in 1848. It lies E. of Black River, in the N. part of the co. The surface has an inclination toward the w. and N., and in the central and E. parts it is broken and hilly. Oswegatchie and Indian Rivers rise in the town and flow northerly into Diana; and Beaver River forms a portion of its s. boundary. In the E. part of the town are several lakes. The soil is light and sandy, and along the river intervales it is moderately fertile. The town is thinly settled along Black and Beaver Rivers, but in the N. and E. it is still a wilderness. Croghan, (p.o.,) on Beaver River, and Naumburg,2 (p.o.,) in the w. part of the town, are small villages. Indian River, (p.o.,) N. of the center of the town, and Belfort, on Beaver River, are hamlets. Settlement commenced before 1830, under P. S. Stewart, agent for Le Ray. Many of the settlers are French and Germans. There are 5 churches in town.3

DENMARK4—was formed from Harrisburgh, April 3, 1807. It lies w. of Black River, on the N. border of the co. Its surface descends to Black River on the E. by a succession of irregular terraces. Deer River flows through the town, and upon its course are several falls, affording an abundant water power. The High Falls, one mi, below Copenhagen, descend 160 feet, at an angle of about 80°, and are celebrated for their picturesque beauty. Kings Fall, 2 mi. below, has a descent of about 40 feet. The E. part of the town is covered with deep deposits of drift. Near the mouth of Deer River are extensive flats; and Black River is bordered by a cedar swamp. The soil is very fertile. Copenhagen, (p. v.,) on Deer River, in the w. part, contains 3 churches and several manufactories.6 Pop. 505. Denmark, (p. v.,) in the E. part, contains about 50 houses; and **Deer River**, (p.v.,) on the river of the same name, 2 mi. from its mouth, 35.7 The first settlement was made in 1800, by Jesse Blodget.⁸ The census reports 6 churches in town.⁹

DIANA—was formed from Watson, April 16, 1830, and a part of Croghan was taken off in 1841. This is the extreme N. E. town in the co. Its surface is level, or gently rolling. In the E. part are 2 isolated hills, 300 to 500 feet above the surrounding surface. The principal streams are Oswegatchie and Indian Rivers and their branches. Bonaparte10 and Indian Lakes, in the N. part, and Cranberry, Legiers, and Sweets Lakes, in the E., are the principal bodies of water. The greater part of this town is yet a wilderness. The soil is light and sandy. Iron ore is found in the N. and E. parts, and coarse, crystalline marble, of a sky-blue tint, on the banks of Indian River, near Natural Bridge. Sterlingbush, 11 (p. v.,) in the w. part, contains 15 houses; and Harrisville 12. Blanchards Settlement (Diana Center p. o.) is in the s. part. Diana is a p. o., and Alpina12 is a hamlet. There are 2 churches in town, (Bap. and M. E.,) but no church edifice.

GREIG¹⁸—was formed from Watson, April 5, 1828, as "Brantingham." Its name was changed Feb. 20, 1832. It is the s. E. corner town of the co. Its surface is rolling in the w., but it is broken, rocky, and in some places hilly, in the E. The principal streams, all tributaries of Black River, are Moose River, Otter, Stony, and Fish Creeks, and Cole and Fall Brooks. The scenery

on an extensive scale; but it has recently been abandoned.

7 Abel French was the first settler at this place, and it was originally known as "Frenchs Mills."

⁸ Among the early settlers were Freedom Wright, Major J.

Crary, Robert Howe, Asa Pierce, Ichabod Parsons, Lewis Graves, Jonathan Barker, J. Rich, and Andrew Mills. ⁹ Bap., organized in 1810, Cong., M. E., Univ., and 2 Union. ¹⁰ Bonaparte Lake was so called in honor of Joseph Bonaparte, who built a log house upon its banks, for the accommodation of himself and friends while upon hunting and fishing excursions, during his stay at his summer residence at Natural Bridge.

11 Formerly called "Louisburg." It owes its origin to an iron furnace built here in 1833.

12 An iron furnace was built here in 1847 by Suchard & Far-

vager, Swiss capitalists, and the place has grown up around it.

along Moose River is celebrated for its wildness and beauty. The greater part of the town is yet a wilderness. In the E. part are several small lakes, which constitute some of the favorite resorts of fishermen. The soil is principally a light, sandy loam. Iron ore and other are found, and near Brantingham Lake is a sulphur spring. Lumber, leather, and paper are made, and on Otter Creek is an extensive match box factory. Lyonsdale, on Moose River, 3 mi. from its mouth, and Greig and Brantingham, near Black River, are p. offices. In 1796 the French, under Rodolph Tillier, settled on the Chassanis Tract, near Black River, below the High Falls.2 The only church in town (Presb.) was formed in 1807.

HARRISBURGH3—was formed from Lowville, Champion, (Jefferson co.,) and Mexico, (Oswego co.,) Feb. 22, 1803. Denmark was taken off in 1807, and a part of Pinckney in 1808. It lies upon the slate hills and limestone terraces N. w. of the center of the co. Its general inclination is toward the N. E., its s. w. corner being 300 to 500 feet above Black River. Its surface is generally rolling, but in the s. w. it is moderately hilly. Deer River and its tributaries are the principal streams. The soil is generally a rich loam largely intermixed with disintegrated limestone and slate. Harrisburgh, in the N. E. part, and South Harrisburgh, in the s., are p. offices. Settlement commenced a short time previous to the War of 1812.4 The first religious services were conducted by Elder Amasa Dodge, a Free Will Baptist minister. There are 4 churches in town.⁵

HIGH MARKET⁶—was formed from West Turin, Nov. 11, 1852. It lies upon the elevated slate region w. of Black River, a little s. of the center of the co. Its general inclination is toward the s. E. Its surface is rolling in the s., but broken and moderately hilly in the N. and W. Its streams are Fish Creek and its branches, the principal of which are Big and Little Alder Creeks. The soil is a loam mixed with disintegrated slate, and is best adapted to pasturage. High Market (p.o.) is in the s.E. part of the town. Most of the town is still unsettled. Among the first settlers were Alfred Hovey, L. Fairchild, John Felshaw, Sol. Wells, and Benj. Martin. A large proportion of the people are of Irish nativity.8 There are no churches in town.

LEWIS⁹—was formed from West Turin and Leyden, Nov. 11, 1852. It lies upon the elevated plateau in the s. angle of the co. Its surface is generally rolling, but in the w. part it is broken and hilly. Its entire surface is 700 to 1200 feet above the valley of Black River. The principal streams are Fish Creek, the w. branch of the Mohawk, and the w. branch of Salmon River. Most of the town is yet an uninhabited wilderness. The soil is generally a sandy loam, moderately fertile and best adapted to grazing. Owing to the elevation of the town, spring is late, autumn early, and snows deep. West Leyden, (p.v.,) situated on the headwaters of the Mohawk, in the E. part of the town, contains about 20 houses. Settlement was commenced about 1800; but the present inhabitants of the town are mostly new comers, of German nativity. 10 The first church (Presb.) was organized in 1826. There are now 4 churches in town. 11

LEYDEN¹²—was formed from Steuben, (Oneida co.,) March 10, 1797. Brownville (Jefferson co.) was taken off in 1802, Boonville (Oneida co.) in 1805, a part of Wilna (Jefferson co.) in 1813, Watson in 1821, and a part of Lewis in 1852. It lies on the w. bank of Black River, upon the s border of the co. Its inclination is toward the E., the w. border being about 500 feet above the river. Its surface is undulating. Its principal streams are Sugar River and Moose Creek.13 The soil is a fertile loam mixed with disintegrated slate and limestone. Port Leyden, (p.v.,) on Black River, has a population of 192; Talcottville, (Leyden p.o.,) in the center of the town, of 50; and Leyden Hill, in the N. part, of 40. Settlement began in 1794,14 under the owners

LOWVILLE2—was formed from Mexico, (Oswego co.,) March 14, 1800, and a part of Harrisburch was taken off in 1803. It lies upon the w. bank of Black River, a little N. of the center of the co. Its w. border is about 400 feet above the river. Its surface is gently rolling. A wide intervale, the N. part of which is swampy, extends along the course of the river. The soil is a deep, fertile loam intermixed with disintegrated limestone.3 A mineral spring is found near the N. border of the town. Lowville, (p. v.,) incorp, under the act of 1847,4 is situated near the s. border of the town. It contains 5 churches, an academy, 5 2 printing offices, and a bank. Pop. 908. West Lowville, (p.o.,) in the w. part of the town, Stows Square, about 3 mi. N. of Lowville, and Smiths Landing, on Black River, are hamlets. Settlement was commenced about 1797, under Silas Stow, agent for N. Low, and the town was rapidly filled with immigrants from New England.⁶ The first church (M. E.) was founded in 1804. There are now 6 churches in town.⁷

MARTINSBURGH8-was formed from Turin, Feb. 22, 1803, and a part of Turin was annexed in 1819. It lies upon the w. bank of Black River, near the center of the co. It has an easterly inclination, its w. border being nearly 1000 feet above the river valley. Its surface is rolling, with a wide, level intervale bordering upon the river. The principal streams are Martins and Whetstone Creeks.9 The soil is a deep, fertile loam, except along the river, where it is sandy. Near the head of Whetstone Gulf is a sulphur spring. Martinsburgh (p.v.) is situated on Martins Creek, near the center of the town. It contains the co. buildings, 3 churches, and a newspaper office. Pop. 210. West Martinsburgh, (p. v.,) in the N. part of the town, has a pop. of 164. Glensdale, (p.o.,) in the s. E. part, is a hamlet of about 12 dwellings. Settlement was begun by Gen. Walter Martin, at Martinsburgh, in 1801.10 The first church (Presb.) was organized in 1804, by Rev. Elijah Norton. There are 7 churches in town. 11

MONTAGUE¹² (Mon-ta-gu')—was formed from West Turin, Nov. 14, 1850. It lies near the center of the w. border of the co. Its inclination is toward the N. W., and its elevation is 1200 to 1600 ft. above tide. Its surface is generally rolling, but in some places it is broken and hilly. It is watered by numerous small streams, flowing into Deer River. The N. branch of Salmon River flows through the s. w. corner. Upon lot 22, in the N. w. part, is a sulphur spring. The soil is a moderately fertile, sandy and gravelly loam. Gardners Corners (Montague p. o.) is in the N. part of the town. Settlement commenced in 1846, under the agency of Diadate Pease, agent of the Pierrepont estate. There are 2 churches in town; M. E. and Bap.

NEW BREMEN—was formed from Watson and Croghan, March 31, 1848. It lies upon the E. bank of Black River, N. of the center of the co. Its surface is level in the w., but rolling, broken, and rocky in the E. It is watered by several tributaries of Black River, the largest of which is Beaver River, on the N. boundary. The E. part is sparsely settled. The soil is a light, sandy loam. Dayansville¹³ (New Bremen p. o.) is in the w. part of the town, Pop. 200. Settlement was commenced in 1798, by Samuel Illingworth and some French families.¹⁴ In the w. part is a settlement of Germans, and in the N. one of French. There are 4 churches in town. 15

the s. w corner of the co. Its general inclination is toward the s. w. Its surface is undulating, and the highest points are 1500 to 1600 ft. above tide. The streams are branches of Fish Creek and Salmon River. The soil is a moderately fertile, sandy loam. Nearly all the town is yet a wilderness. Osceola is a p.o. in the s. part. Settlement was commenced about 1838, by Seymour Green, agent for Pierrepont. There are 2 churches in town, M. E. and Ind.

PINCKNEY1—was formed from Harrisburgh and "Harrison," (now Rodman, Jefferson co.,) Feb. 12, 1808. It lies upon the highlands in the N. w. corner of the co., and has an average elevation of 1300 ft. above tide. It forms the watershed between Deer River and Sandy Creek, the head branches of which constitute the principal streams. A series of swamps extend along the E. border. In the town are several mineral springs, one of which has acquired considerable local notoriety for its medicinal qualities. The soil is a light, slaty loam upon the hills, and a deep, black loam in the valleys. Pinckney, New Boston, Barnes Corners, and Cronks Corners are p. offices. Settlement was commenced in 1804, under Abel French, agent of Mr. Henderson,² The first church (Bap.) was formed in 1810. There are now 4 churches in town,³

TURIN—was formed from Mexico, (Oswego co.,) March 14, 1800. Martinsburgh was taken off in 1803, another portion was annexed to Martinsburgh in 1819, and West Turin was taken off in 1830. It lies upon the w. bank of Black River, s. of the center of the co. Its w. boundary is 800 to 1000 ft. above the river, giving to the town an easterly inclination. The surface is level, except near the w. border, where it ascends to the slate hills, and in the E., where it descends to the river intervale. The soil is generally a deep, fertile loam mixed with disintegrated slate and limestone. Turin. (p. v.,) situated in the s. part, contains 3 churches and several manufactories. Pop. 438. Houseville, (p. v.,) in the N part, has a pop. of 90. The first settlement was made about 1797, by Nathaniel Shaler, of Middletown, agent of Wm. Constable and part owner, and the town was rapidly settled by immigrants from New England.6 The first church (Presb.) was organized Sept. 19, 1802, by Rev. John Taylor. There are 6 churches in town.

WATSON⁸—was formed from Leyden, March 30, 1821. "Brantingham" (now Greig) was taken off in 1828, Diana in 1830, a part of Croghan in 1841, and a part of New Bremen in 1848. It lies upon the E. bank of Black River, and extends from near the center of the co. to its E. border. Its surface is level or gently rolling in the w. part, but in the central and E. parts it is more hilly and broken. It is watered by Beaver River, Independence Creek, and several smaller branches of Black River. The central and E. parts are yet covered with unbroken forests; and a large tract upon the extreme E, border constitutes a portion of the far famed "John Brown's Tract." In the recesses of these forests are numerous beautiful lakes that are scarcely known except to hunters. Chases Lake, on the s. border, is noted for its beautiful scenery and is much visited by tourists. The soil is light and sandy. **Watson**, (p.o.,) situated on Black River, in the w. part of the town, is a hamlet. The early settlers located along the river, and settlements were not made in the interior until about 1815.10 The first church (M. E.) was organized in 1820. There are 3 churches and 1 church edifice (M. E.) in town.11

WEST TURIN—was formed from Turin, March 25, 1830. Osceola was taken off in 1844, Montague in 1850, and High Market and a part of Lewis in 1852. It lies upon the w. bank of Black River, s. of the center of the co. Its inclination is toward the E., its surface rising by successive terraces from the intervale of Black River to the hills 800 feet above. Its streams are Sugar River, which flows easterly through near the center of the town, and numerous smaller creeks and brooks. Lyons Falls, upon Black River, plunge over a ledge of gneiss rock 63 feet in height, at an angle of about 60°.12 These falls form an excellent water power but little used.

LIVINGSTON COUNTY.

This county was formed from Genesee and Ontario, Feb. 23, 1821. A portion of Allegany was annexed in 1846, and another portion in 1856. It occupies a nearly central position in the w. half of the State. It is centrally distant 205 mi. from Albany, and contains 655 sq. mi. Its surface is an upland, rolling in the N. and hilly in the s. The hills upon the s. border are 1,000 to 1,200 ft. above the valleys and 2,000 to 2,200 ft. above tide. From their summits the surface declines toward the N., the extreme N. border being 500 to to 800 ft. above tide. The slopes are usually smooth and gradual. except along the banks of the streams; and nearly every acre of land in the co. is arable.

The streams generally flow in deep ravines. They are usually bordered by steep, and sometimes precipitous, hillsides. The principal stream is Genesee River, flowing N. E. through the w. part of the co. In the s. its course is between steep and often precipitous banks, but further N. it is bordered by broad and beautiful intervales.1 Its tributaries are Conesus Creek, Fall Brook, and Canaseraga Creek, from the E., and Beards, White, and several other small creeks, from the w. Coshaqua Creek is a tributary of the Canaseraga. Hemlock and Honeove Outlets flow along the E. border, and a few tributaries of the Susquehanna take their rise in the s. part. Conesus Lake, near the center, and Hemlock Lake, along the E. border, occupying long, narrow valleys, are the only considerable bodies of water.

The underlying rocks, commencing upon the N. border, are the waterlime of the Onondaga salt group, the Onondaga and corniferous limestones, Marcellus and Hamilton shales, Genesee slate, and Portage shales and sandstones. The limestones of the N. are extensively quarried for lime and building stone; and the sandstones of the Portage group furnish excellent building stone and flagging. The soil, derived from the disintegration of these rocks, in all the elements of fertility has no superior in the State. Until the commencement of the ravages of the midge, wheat was the staple production; but it has been principally superseded by the spring grains. Broomcorn is largely cultivated along the Genesee Flats; and considerable attention is paid to cattle and sheep growing and dairying in the s. part.

The county seat is located at the village of Geneseo. The courthouse is beautifully situated upon a fine lot in the N. part of the village.2 The jail, in the rear of the courthouse, is an old building, without means of ventilation, and it is impossible properly to classify the prisoners. The clerk's office is a small fireproof building upon the courthouse lot. The co. poorhouse is located upon a farm of 118 acres about 1 mi. E. of Geneseo. Its average number of inmates is 107, supported at a weekly expense of 75 cts. each. The farm yields a revenue of \$2,000. A school is taught 9 or 10 months in the year. The house is well constructed and is very well kept.

The Genesee Valley Canal extends along the valley of the Genesee from the N. bounds of the co. to Mt. Morris; thence it turns s. E. to Coshaqua Creek and up the valley of that stream to Nunda, and thence s. w. to the Genesee at Portage, where it crosses the river upon a wood aqueduct supported by stone piers. The Dansville Branch Canal extends from Mt. Morris s. E. to Dansville.8 The Canandaigua & Niagara Bridge Branch of the N. Y. Central R. R. extends through Caledonia. The Buffalo & N. Y. City R. R. extends s. E. through Portage and Nunda. The Buffalo, New York & Erie R. R. extends s. E. through Caledonia, Avon, Livonia, Conesus, and Springwater. The Genesee Valley R. R. extends s. through Avon, Geneseo, and Groveland to Mt. Morris.

Five newspapers—one daily, three weekly, and one monthly—are now published in the co.4

¹ The Genesee is subject to an annual overflow, the water often covering the entire flats which border upon it. This frequently causes destruction of property; but it is a source of con-

quellay cause tast used a property stant fertility to the soil.

2 The first co. officers were Moses Hayden, First Judge: James Ganson, County Clerk; Gideon T. Jenkins, Sheriff; and James

Roseburgh, Surrogate.

8 The highest level of the Genesee Valley Canal within this co. is 622 feet above the Erie Canal at Rochester and 1,132 feet above tide.

Warner became proprietors; and it was successively published by Warner, Percival, Elias Clark, Wm. H.

Kelsey, and Richard M. Miel. In 1835 Miel became sole Kelsey, and Richard M. Miel. In 1835 Miel became sole proprietor. He was soon after succeeded by D. S. Curtis. In 1837 its publication was suspended. It was soon after revived, and published for a short time by Hugh Harding. He was succeeded by John Kempshall, who published it until 1840, when it was discontinued. The Livingston Journal was commenced at Geneseo in 1822 by Chauncey Morse. Asahel Harvey was subsequently

Before the advent of the whites, this co. was the seat of several of the principal villages of the Seneca Nation. Considerable advances had been made in the arts of civilization, and a large quantity of land had been cleared and was cultivated. Corn, apples, and peaches were extensively produced. The orchards were destroyed, and the whole region was laid waste, by Gen. Sullivan, in 1779. The co. was included in the Phelps and Gorham Purchase, and in the Morris Reserve. The latter tract was subdivided into several tracts, generally distinguished as separate patents.

In Sept. 1797, a treaty was held with the Indians at Geneseo, at which they ceded all their lands in this co. to the whites, except several small reservations.2 The first settlements were made about 1790, previous to the extinguishment of the Indian title. The most prominent of the early settlers were James and Wm. Wadsworth, from Durham, Conn., who located at Geneseo, June 10. 1790. They were large landowners, and by a wise and liberal policy they greatly facilitated the settlement of the surrounding region. The greater part of the early settlers were immigrants from New England. York and Caledonia were settled principally by a colony of Scotch.

AVON—was formed, as "Hartford," in Jan. 1789. Its name was changed in 1808. Rush was taken off in 1818. It is the center town upon the n. border of the co. Its surface is a rolling and moderately hilly upland, terminating in flats on Genesee River. Deming Hill, on Lot 192, is the highest point in town. The principal stream is Conesus Creek, or Outlet, a tributary of Genesee River. The soil upon the uplands is a sandy and gravelly loam intermixed with clay. and on the flats, a deep, rich alluvium. Avon, (p. v.,) in the w. part, a station on the G. V., and B., N. Y. & E. R. R's., celebrated for its medicinal springs, was incorp. June 13, 1853. It contains 3 churches, 5 large hotels, and 879 inhabitants. East Avon, (p. v.,) near the center, contains 2 churches and about 35 houses. South Avon, (p. o.,) in the s. part, contains 9 houses. Littleville, 11 mi. s. of Avon, contains a church, gristmill, furnace, and 23 houses. The first

Dennison, H. F. Evans, Evans & Woodruff, and Wm. J. Ticknor. Its publication was suspended in 1834 or '25. In the fall of 1835 the establishment was purchased by David Mitchell and W. H. Kelsey, who revived the paper under the nams of The Livingston Democrat. It was continued until 1837, when its publication was suspended. In the fall of that year S. P. Allen became proprietor of the press, and revived the paper under the name of The Livingston Republican. In Sept. 1846, it passed into the hands of John M. Campbell; and was successively published by Joseph Kershner and Chas. E. Bronson. In 1849 James T. Norton became proprietor, and is its present publisher.

3 These springs—two in number, and about one fourth of a mile apart—are located about 1 mi. s. w. of the village. The lower spring discharges about 54 gallons of water per minuto. settlement was made in 1785.1 The first church (Presb.) was organized in 1795; Rev. Daniel Thatcher was the first preacher. There are 6 churches in town.2

CALEDONIA—was formed, as "Southampton," March 30, 1802. Its name was changed April 4, 1806. A part of York was taken off in 1819. It is the N. w. corner town of the co. The surface is level or gently undulating, and a considerable portion of it is stony. Genesco River forms the E. boundary. Caledonia Spring, in the N. part, covers an area of about 2 acres; and the outlet forms a good water-power, a few rods N. of the spring. The soil is a clay loam, underlaid by limestone.3 In the s. part is a valuable quarry of limestone, yielding excellent lime and a fine quality of building stone. Caledonia, (p. v.,) in the N. part, a station on the B., N. Y. & E. R. R. and C. & N. B. Branch of the N. Y. C. R. R., contains 3 churches, a grist and saw mill, a brewery, and 623 inhabitants. The first settlement was made about 1797, by —— Peterson, a Dane, and — Brooks, an Englishman.4 The first church (Presh.) was organized in 1805; and the first settled preacher, Rev. Alexander Denoon, was installed Aug. 17, 1808.5

CONESUS—was formed from Livonia and Groveland, as "Freeport," April 12, 1819. Its name was changed to "Browersville," March 26, 1825, and to Conesus, April 15, 1825. It is the central town upon the E. border of the co. Hemlock Lake forms the E. and Conesus Lake a part of the w. boundary. Its surface is hilly. The Marrowback Hills in the E. part, w. of Hemlock Lake, rise to about 1,200 feet above it. A deep valley extends s. E. from near the center into Springwater, through which the B., N. Y., & E. R. R. passes. The principal stream is Mill Creek. The soil is generally a clay loam. Conesus Center (p. v.) contains 2 churches, a grist and saw mill, and about 40 houses. Conesus (p.o.) is a R. R. station. Foots Corners and Union Corners are hamlets. Settlement was commenced at the head of Conesus Lake, in 1794 or '95, by James Henderson, from Penn.⁶ The first church (Meth.) was organized in 1814.⁷

GENESEO-was formed in Jan. 1789. It is an interior town, lying N. of the center of the co. Its surface is undulating, with an abrupt declivity of 200 to 300 feet toward the river, on the w. Genesee River, forming its w. boundary, is bordered by fertile flats of an average width of about half a mi. The other principal streams are Fall Creek, and several small brooks that flow w. into the river and E. into Conesus Lake. On Fall Creek, s. of the village, is a perpendicular fall of 70 feet. The soil is clay and clay loam. Geneseo, 8 (p. v.,) a station on the G. V. R. R., was incorp. April 21, 1832; it contains the co. buildings, 5 churches, the Geneseo Academy, 2 banks, a library, gristmill, furnace, and machine shop, and about 2,000 inhabitants. Settlement was commenced by Lem'l B. Jenkins and Capt. Noble, about 1788 or '89, near the village. 10 The first church organization is supposed to have been in 1795, in the N. E. part of the town, near Lakeville.11

GROVELAND—was formed Jan. 27, 1789. A part of Conesus was taken off in 1819, and a part of Sparta in 1856. It lies near the center of the co. Its surface is moderately hilly. In the w.

MADISON COUNTY.

This county was formed from Chenango, March 21, 1806, and named in honor of President Madison. That part of Stockbridge E. of Oneida Creek was annexed from Oneida in 1836. It is situated in the central part of the State, is centrally distant 98 mi. from Albany, and contains an area of 670 sq. mi. The extreme n. part is low, level, and swampy; but the central and s. parts are hilly, and constitute a portion of the general system of highlands which occupy Central New York. The hills generally have rounded outlines and steep declivities, their highest summits being 500 to 800 ft. above the valleys and 900 to 1,200 ft. above tide. The highlands are divided into separate ridges by a series of valleys extending N. and s., and they form the watershed between Susquehanna River and Oneida

The principal streams upon the N. slope are Chittenango¹ Creek, forming a part of the w. boundary of the co., Oneida Creek, forming a part of the E. boundary, and the Canaseraga, 2 Canastota,3 and Cowaselon Creeks: and the principal flowing s. are Unadilla River, upon the E. border, Beaver Creek, Chenango River and its branches, Otselic4 Creek, and Tioughnioga River. The principal bodies of water are Oneida Lake, forming the N. boundary, and Owahgena or Cazenovia Lake, near the center of the w. border. The latter, a beautiful sheet of water, 4 mi. long, is 900 ft. above tide, and is completely surrounded by gradually sloping hillsides. The lowest rocks of the co., outcropping along Oneida Lake, belong to the Clinton group. The red iron ore peculiar to this group is found to a limited extent, but not in sufficient quantities to render mining profitable. Next above this successively appear the Niagara and Onondaga groups, underlying the whole swampy region.6 The red shales form the surface rock s, of the swamp, and beds of gypsum extend along the base of the hills. These beds are extensively quarried in some sections, and furnish an excellent quality of plaster. Upon the N. declivities of the hills successively appear the water limestone, Pentamerus limestone, Oriskany sandstone, and Onondaga limestone. From these groups are obtained an abundance of waterlime, quicklime, and building stone, all of excellent quality. Next above appear the Marcellus and Hamilton shales, covering more than one-half of the entire surface of the co. The Tully limestone, Genesee slate, and Ithaca groups are found to a limited extent covering the tops of the southern hills. A large share of the co. is covered deep with drift deposits. The soil upon the flat lands of the N. is generally a red clay, with great quantities of muck and marl in the swampy regions. Upon the northern declivities of the hills the soil is a gravelly loam intermixed with lime and plaster, and is very productive. Farther s. the soil upon the hills is a clayer, gravelly, and shaly loam, best adapted to pasturage, and in the valleys a gravelly loam and alluvium. The people are principally engaged in stock raising and dairying. Hops are largely cultivated. Manufactures are principally confined to two or three villages.

The co. seat is located at Morrisville. The courthouse is a two story wooden building, pleasantly situated on a small park, fronting on a main street. It was built in 1849, and contains the court⁶ and jury rooms. The clerk's office is a small, brick, fire-proof building adjoining the courthouse. The jail was burned in the winter of 1858. The poorhouse is located upon a farm of 135 acres near Eaton village, 5 mi. s. E. of Morrisville. The average number of inmates is 130, supported at a cost of 56 cts. per week each. A school is taught during the whole year. The farm yields a revenue of \$1,500.8 The principal public works in the co. are the Eric Canal and the N. Y. Central

I sheaning "waters divide and run n." Seaver, in "The Life of Mary Jemison," says it is a corruption of the Oneida word "Chu-de-nääny," signifying "where the sun shines out."

across."

3 "Ka-ne-to-ta," signifying "pine tree standing alone,"

4 Meaning "Capfull."

5 In the marsh near Canastota a brine spring is found. A boring of 190 ft. was made here; but the water obtained was not sufficiently strong to warrant the further prosecution of the

work.

The first courts were held alternately at "the schoolhouse, near David Barnard's, in Sullivan, [now Lenox,] and at the

The first officers were Peter Smith, First Judge; Sylvanus Smalley, Edward Green, Elisha Payne, and David Cook, Associate Judges; Asa B. Sizer, Co. Clerk; Jeremiah Whipple, Sheriff; and Thos. H. Hubbard, Surrogate. In 1810, Cazenovia was selected as the site of the co. buildings, and Col. John Lincklaen and Capt. Jackson were appointed to superintend the building of a courthouse. A brick building was erected, and the first court was held in it in Jau. 1812. In 1817 the co. seat was removed to Morrisville, and the first court was held there Oct. 7, 1817.

7 Ellis Moss, Sam'l White, and Oliver Pool were appointed to superintend the erection of the courthouse.

R. R., extending through Lenox and Sullivan. Among the hills are several large artificial reservoirs, used as feeders for the canal. Cazenovia Lake is used for the same purpose.

There are seven weekly newspapers published in the co.1

Nearly all the s. half of this co. belonged to the tract known as the "Chenango Twenty Towns."2 A strip lying between this tract and the Military Tract, including De Ruyter and the greater part of Cazenovia, was embraced in the Lincklaen Purchase. The Oneida Indian Reservation, originally embracing all the N. part of the co., was subsequently divided into several large tracts. The "New Petersburgh Tract," or purchase of Peter Smith, includes nearly all of Smithfield and Fenner, the N. part of Cazenovia, and a strip a mile wide across the s. part of Stockbridge. The remainder of Stockbridge was included in the reservation of the Stockbridge Indians. Lenox and Sullivan constituted the N. w. portion of the Oneida Indian Reservation. The first settlements were made by squatters upon the Oneida Reservation, in 1790.3 The permanent settlements were commenced about 1795, and the co. rapidly filled up with immigrants, principally from New England.

10 Muller settled on the hill, about 3 mi.w. of Georgetown, erected a large and spacious dwelling, laid out extensive grounds, excavated an artificial pond, and planted great numbers of fruit trees. He attempted the establishment of a village, by erecting 2 storehouses, several dwellings, a blacksmith shop, and a gristmill. It is supposed that he brought with him to town not less than \$150,000, and that he carried away not to exceed \$1500. When Bonaparte abdicated, Muller returned to France, leaving his wife and children in New York. He afterward returned to dispose of his property here. When he reached Georgetown, his house was stripped of its furniture; his stock and every m. cable article had disappeared; weeds covered the gardens, the walks, the roads, and fields; his village was forsaken, and the mill deserted. The agent in whose charge he had left his property had sold every movable article and deserted the place. Muller sold the property and returned to France; and to this day no one knows who or what he was.

on the Indian Reservation near Canaseraga. The Indians complained to the Governor of their intrusion, and they were ordered to remove. They neglected to do so; and in 1791, Col. Colbraith, the sheriff of Montgomery co., was sent with a posse of 60 men to dislodge them. They still refused; and their movables were taken from their dwellings and their houses burned. They taken from their dwellings and their houses burned. They then removed to the neighborhood of Chittenango and settled on lands that the State had lately acquired of the Indians. John G. Moyer, John Walroth, Capt. Timothy Brown, Solomon, Joseph, and David Beebe, Col. Zebulon Douglas, John Mathews, Philip Daharsh, Nicholas Pickard, Ovid Weldon, Peter Dygart, John Keller, John Sower, Wm. Miles, David Burton, Timothy Freeman, and Peter Ehle settled in the town shortly after. The first birth was that of Peggy Schuyler, in 1791; and the first death, that of a child of David Freemyer. John G. Moyer built the first saw and gristmill, and Jacob Schuyler kept the first inn.

2 In this town is a bed of waterline,—the first disgovered in the State. The material was first quarried and burned for quick-lime to be used on the canal; but it was found that it would not slack. Experiments were then made, and the material was not slack. Experiments were t discovered to be hydraulic lime.

MONROE COUNTY.

This county was formed from Ontario and Genesee, Feb. 23, 1821. It lies on Lake Ontario, N. w. of the center of the State. It is centrally distant 202 mi. from Albany, and contains 682 sq. mi. The surface is generally level or slightly undulating, with a moderate inclination toward the lake. The shore of the lake rises in bluffs 10 to 30 ft. in height; and from its summit the surface gradually slopes upward to the lake ridge, a distance of 5 to 8 mi. from the lake. The summit of this ridge is 160 ft. above the lake; and from it the surface declines a few feet to the s., and then rises to the summit of the Mountain Ridge, a distance of 1 to 3 mi., and 310 ft. above the lake. South of this point the surface is gently rolling, the ridges extending N. and s. The summits of the ridges along

the s. border are about 400 ft. above the lake and 600 to 650 ft. above tide. The principal stream is Genesee River, which flows a little E. of N. through the center of the co. Its valley is ½ mi. to 2 mi. wide, bordered by ridges 30 to 60 ft. high. At Rochester the river flows over the solid limestone which forms the Mountain Ridge a distance of 96 ft., forming the Upper Genesee Falls, and $2\frac{1}{2}$ mi. below it again descends 105 ft., to near the level of the lake, forming the Lower Genesee Falls.

The principal tributaries of the Genesce are Oatka and Black Creeks from the w., and Honeoye Creek from the E. The other principal streams of the co. are Sandy, Little Salmon, Salmon, Buttonwood, and Long Pond Creeks, w. of the Genesce, and Irondequoit and Four Mile Creeks, E. of that river, all flowing into Lake Ontario or some of its bays. In their passage from the central part of the co. to the lake, these streams nearly all flow over the limestone ridge in a succession of falls, forming an abundance of water-power. The principal bodies of water are Lake Ontario, which forms its N. boundary, Irondequoit and Braddocks Bays, and Buck, Long, and Cranberry Ponds, all indentations from Lake Ontario and connected with it by narrow and shallow straits.¹

The lowest rock in the co. is the Medina sandstone, extending in a broad belt along the lake shore. Next above this is a thin stratum of the Clinton group, almost disappearing upon the w. border of the co.; and next above is the Niagara group, forming the abrupt terrace of the Mountain Ridge. This rock forms an excellent building material, and is extensively quarried. It also yields weak brine springs in several localities. The underlying rocks in the s. part of the co. belong to the Onondaga salt group. Lime is extensively manufactured from the Niagara limestone; and the rocks in the s. part yield gypsum and waterlime. A large part of the co. is covered with drift deposits, which mostly assume the character of ridges and rounded hills, many of them rising 50 to 100 ft. above the general surface. Tufa and marl are found in several localities, forming elements of fertility to the soil almost invaluable. A small quantity of iron is found associated with the Clinton group.

The soil is generally very fertile. Along the lake shore it consists of a red, argillaceous loam, principally derived from the disintegration of the Medina sandstone. This is succeeded by a clay derived from the disintegration of the Clinton and Niagara shales. The soil in the s. part is impregnated with lime and gypsum,—two of the most important elements of wheat lands. Agriculture forms the leading pursuit. Until within a few years past, wheat has been the great staple; but since the commencement of the ravages of the wheat midge, barley, corn, and oats have become the staple productions. Most parts of the co. are well adapted to the culture of fruit, and apples and peaches are largely produced. Wool growing is extensively carried on, and stock growing and dairying are beginning to receive considerable attention. The manufactures are extensive, though mostly confined to Rochester and vicinity. They consist chiefly of flour, machinery, edge tools, cars, and almost every variety of articles of iron. Rochester is the business center of the co.; and from it a large trade is carried on with the surrounding rich agricultural regions. The canals and railroads centering at this place give it facilities for an extensive inland trade and commerce. A limited amount of commerce is carried on upon Lake Ontario.

¹ The Irondequoit Bay is a narrow, deep body of water, extending inland about 6 mi. from the lake shore. From its s. logists have supposed that Genesee River formerly flowed extremity a deep valley extends several mi. further s., forming | through this valley.

The co. seat is located at the city of Rochester. The courthouse, situated upon Buffalo St., near the center of the city, is a commodious brick edifice, with an Ionic portico supported by four massive pillars. The building is surmounted by a dome, the summit of which is 150 ft, high. It contains the usual offices and rooms for the court and co. officers, the co. clerk's office, and rooms for the city officers.2 The jail is an old stone building, situated upon the bank of the Genesee, in the s. part of the city. The poorhouse establishment is located upon a farm of 134 acres in Brighton, just s. of the city line of Rochester. It consists of three large buildings, one of which is used for an insane asylum. The average number of inmates is 360, supported at a weekly cost of 68 cts. each. A school is taught throughout the year. The farm yields a revenue of \$3,500.

Four daily, 2 tri-weekly, 8 weekly, 1 semi-monthly, and 3 monthly papers are published in

1 The first co. officers were Elisha B. Strong, First Judge; Timothy Barnard, Judge; Joseph Spencer, Assistant Justice; James Seymour, Sheriff; Nathaniel Rochester, Clerk; and

James Seymour, Sheriff; Nathaniel Rochester, Clerk; and Elisha Ely, Surrogate.

2 The first courthouse was built in 1821, soon after the organization of the co. It was removed to give place to the present structure in 1852. The present courthouse was built at a cost of \$50,000, at the joint expense of the city and co.

The first settler was Ebenezer Allen, a tory, who located upon the Genesee, near the present site of Rochester, in 1788. He soon after removed to Canada. The first permanent settlements were made in 1789, in Wheatland and near the head of Irondequoit Bay. During the next five years settlements sprang up in various parts of the co., though the general growth was greatly retarded by the difficulty of access, the dense forests, and the unhealthiness of the climate when the lands were first cleared. The unsettled condition of Indian affairs also had the effect to retard settlement; and the War of 1812 almost put an end to improvement. At the close of the war, settlers came in more rapidly, and a great business began to develop itself at Rochester. The construction of the Erie Canal gave an impetus to business, and speedily pushed settlements into every portion of the co. From that time the progress of the co. has been rapid and continuous. The co. was contained in the Phelps and Gorham Purchase. The three western towns belonged to the Triangle Tract, and the remainder of the co. w. of the Genesee constitutes a portion of the celebrated "Mill Yard Tract."1

BRIGHTON²—was formed from "Smallwood," March 25, 1814. A part of Rochester was taken off in 1834, and Irondequoit in 1839. It is an interior town, lying upon the E. bank of the Genesee, a little s. E. of the center of the co. Its surface is gently rolling, with a slight inclination toward the N. The deep valley of Irondequoit Bay is on the E. border. Its streams are small brooks, tributaries of the Genesee and Irondequoit. The soil is a sandy loam in the E. and a clay loam upon the river. Near the center are gypsum beds; formerly extensively worked. The people are largely engaged in raising vegetables for the Rochester market. There are several extensive nurseries in town. Brighton, (p. v.,) in the N.E. part, contains a church and about 30 dwellings. It is a canal village and a station upon the N. Y. C. R. R., where the two branches from the E. unite. A large brick and tile manufactory is located about 2 mi. s, of the village; and the Genesee Model School* is situated upon a beautiful site 2 mi. s. E. West Brighton, (p. v.,) near the Genesee, s. of the line of Rochester, contains about 15 dwellings. In its immediate vicinity are the co. workhouse, poorhouse, and insane hospital, the Mount Hope Rural Cemetery, the Monroe co. almshouses, an extensive glue factory, and several other manufactories. The first settlement was made in 1790, by John Lusk and Oran Stone, who located about 4 mi. E. of the river. 5 Rev. Solomon Allen, from Northampton, Mass., preached the first sermon and was the first settled minister. There is but one church (Cong.) in town.

CHILL-was formed from Riga, Feb. 22, 1822. It is an interior town, lying s. w. of the center of the co. Its surface is level or gently rolling, with a slight inclination to the E. Genesee River forms the E. boundary; and Black Creek, a sluggish stream, flows E. through near the center. The soil is a clay loam, mixed with sand. South of Black Creek are several peculiar gravelly knolls, the principal of which is Dumpling Hill, near the river. Chili, (p. v.,) in the N. part, contains a church and 15 houses; North Chili, (p. v.,) a R. R. station in the N. W. corner, contains a church and 25 houses; Clifton, (p. v.,) in the s. w. part, contains I church, a saw and grist mill, plaster mill, furnace, and 201 inhabitants; South Chili is a hamlet. The first settlement was made in the E. part, by Joseph Morgan, in 1792.6 There are 5 churches in town.7

¹ In his treaty with the Indians, Mr. Phelps wished to obtain | cey and Calvin Hyde, Samuel Sheffer, Enos Blossom, Timothy a tract w. of the Genesee; but the Indians were only willing to cede the lands E. of that river. A compromise was finally effected, by which a tract 24 mi. long by 12 mi. wide was granted effected, by which a tract 24 m. long by 12 ml. wide was granted to Phelps and Gorham for a mill yard. It is said that the Indians were much astonished when they came to see the mill and know how much land was really required for a yard. The Mill Yard Tract was bounded z. by the Genesee, w. by a line parallel to and 12 mi. w. of it, and it extended 24 mi. s. from Lake

Ontario.

2 This town embraces Township 3 of Range 7 of the Phelps and Gorham Purchase. It was originally purchased by Gen. Hyde, Prosper Polly. Enos Stone, Col. Gilbert, and Joseph Chaplin, from Lenox, Mass.

3 The original town, "Boyle," was organized April 6, 1806, and

embraced the six x, towns z, of the river. Penfield was taken off in 1810, and Perinton in 1812. Some time in 1812 or '13 the name was changed to "Smallwood;" and March 25, 1814, it was name was changed to "smallwood;" and March 25, 1814, it was divided into two parts, one taking the name of Brighton and the other of Pittsford.

4 This institution was widely known as the "Clover Street Seminary," under the care of Mrs. Brewster, the author of Ploss's Ancient History.

5 John Lusk owned 1,500 acres at the head of Irondequoit

Bay. Among the other early settlers were Joel Scudder, Chaun-

cey and Calvin Hyde, Samuel Sheffer, Enos Blossom. Timothy Allyn, and Oliver Culver,—the last named from Orwell, Vt. In 1800. most of the business upon the lake was done at Irondequoit Landing. In 1798, Judge John Tryon laid out a village 3 mi. above the head of the bay, and built a large warehouse. The place was called "Tryons Town." As a Dayton kept an inn at this place, in 1801. A tannery and distillery were afterward built, and the place became quite a lively little village; but it is now entirely deserted. — Turner taught the first school; Ira West kept the first store; and Solomon Hatch and Oliver Culver built the first mill. on Allens Creek, in 1806.

§ Among the early settlers were Andrew Wortman, in 1794; Stephen Peabody, Col. ² Asa Carpenter had previously settled, but did not remain. Gen. Jonathan Fassett, of Vt., Caleb Hopkins, — Maybee, and four others, made a settlement, but soon after abandoned it on account of sickness. Hopkins and Maybee remained. As early as 1804, Jossiah J. Kellogg, Dan'l Stilwell, Benj. Minor, Jonathan and David Baker, Isaac Beatty, and Henry Paddock, moved in. Daniel Penfield came in 1810. The first birth was that of a child of Mrs. Fiske; and the first death was that of Benj. Stilwell, in 1804. Jos. Hatch taught the first school; Daniel Stilwell kept the first inn, in 1806; and Wm. McKinster the first store. The first mills were built by Daniel Penfield.

ROCHESTER1-was taken from Brighton and Gates, and incorp. as a village, by the name of "Rochesterville," March 21, 1817. Its name was changed April 12, 1822, and it was enlarged and incorporated as a city April 28, 1834.2 It is located N. of the center of the co., upon Genesee River, 7 mi. from its mouth; and it contains an area of about 8 sq. mi. The surface is level or gently undulating. The N. Y. C. R. R. track is 280 ft. above Lake Ontario; and Mt. Hope Ridge, the highest point upon the s. border, is 160 ft. higher. The city has a solid foundation of Niagara limestone, cropping out along the course of the river, but in other parts of the city usually covered with drift deposits. The Genesee flows N., dividing the city into two nearly

equal parts. Its course through the city is mostly a succession of rapids and falls, affording an extensive and valuable water-power, which is fully improved for manufacturing purposes.3

The city is quite regularly laid out, most of the streets crossing each other at right angles. The N. and s. streets are parallel to the river, and upon the principal E. and W. streets bridges are built across the river.4 The streets are usually well paved and bordered by commodious sidewalks. The city is divided into 12 wards.

The immense water-power furnished by Genesee River gives to the city great advantages for manufacturing.5 Mills were erected at an early period; and gradually other machinery was added, until the present great amount and variety have been attained. The staple manufacture of the city is flour. There are now in operation 24 mills and an aggregate of 125 runs of stone. The mills have a capacity for grinding 800,000 bbls, of flour per annum; and the aggregate capital invested is \$700,000. Since the failure of the wheat crop in Western New York, a considerable portion of the water-power has been directed to other manufacturing purposes.6

The culture of fruit and ornamental trees has for many years formed an important business of the city; and now the nurseries are among the most extensive in the country.

The commerce of the city is large, though of much less importance than the manufactures. It

2 At the first village meeting, held May 13, 1828, under charter, Francis Brown was elected President, and Wm. Cobb, Everard Peck, Dan. Mack, and Jehiel Barnard, Trustees. The village corporation embraced 750 acres. The first city officers—elected in June, 1834—were Jonathan Child, Mayor; Louis Brooks, Thos. Kempshall, Elijah F. Smith, Fred'k F. Backus, and A.W. The whole fall of Genesee River within the co. is 280 ft., of which 265 are below the 8. line of the city. The falls evidently all once formed a single cascade; but the different degrees of hardness of the several rocks over which the river flows have caused an unequal retrograde movement of the falls, until they have assumed their present position. The surface shales have worn away gradually to a uniform slope, over which the water flows in a series of rapids. At the Upper Falls the stream falls a distance of 96 feet over the perpendicular edge of the Niagara limestone underlaid by shale. Below the Upper Falls the river flows 12 mi., through a deep ravine bounded by nearly perpendicular sides, to the Middle Falls, where it has a descent of 25 ft. One hundred rods below, it descends 84 ft. over a ledge of Medina sandstone to the level of Lake Ontario. Several sulphur springs flow out of the rocks below the Middle Falls.

4 The river is crossed by 4 bridges, respectively at Buffalo, Court, Andrew, and Clarissa Sts. The Court and Andrew St. Bridges are of iron, and the others of wood. The first bridge was built upon the site of the present Buffalo St. Bridge, in 1810-12, under a special act. The cost—\$12,000—was raised by tax, in Outario and Genesee cos. The Court St. Bridge was first built in 1826, by individuals. It was replaced by the present structure in 1858, at the city expense. The Central R. R. Other bridges are built across the canal feeder and the various mill-races extending through the city.

Besides the co. buildings, the city contains several fine public edifices.

The City Hall, combined with the co. courthouse, has already been described.

Coriotrian Hall contains the reading room and library of the Atheneum and Mechanics' Association, and is one of the finest public halls in the country.

The Arcade, fronting Buffalo St., is a commodious building, containing the p. o., telegraph offices, and a variety of other offices, stores, &c. It has a broad promenade extending through the center, from which the various rooms open on either side. The roof is built mostly of glass, and the public walk is open to the roof. The rooms of the upper stories open upon galleries, which extend the entire length of the building on either side above the main walk or promenade.

The Central R. R. Depot is one of the finest buildings of the kind in the State. It contains ample accommodations for the various R. R. offices, passenger rooms, and for the cars which arrive on the various roads that center there. Its roof is supported by iron; and the whole structure presents a fine and imposing appearance. Several of the mercantile blocks, the banks, and private residences, are beautiful structures and worthy of becoming architectural models.

The Public Schools of the city are under the control of a Board of Education, consisting of 2 members from each ward and a Superintendent. The schools are graded, and the course of instruction embraces all studies, from the primary through the higher branches taught in academies. The school buildings are 16 in number. The number of teachers employed is 104; 13 are males and 91 females. The number of children between the ages of 4 and 21 is 16,108, of whom 6,320, or 38 per cent., attend school during some portion of the year. The total expenses for 1857 were \$58,945.55. Number of volumes in school libraries, 7000.

The University of the City of Rachester was incorp. in Jan. 1850, and is under the patronage of the Baptist denomination. This school has an optional classical and scientific course. The present number of pupils is 140.2

The Baptist Theological Seminary, connected with the University, was established Nov. 4, 1850.

Its present number of students is 31.

The Rochester Collegiate Institute, corner of Atwater and Oregon Sts., was established in 1854, and is at present a flourishing institution.4

The Rochester Female Academy, on Fitzhugh St., was incorp. in 1837.

The Allen Female Seminary and The Tracy Female Institute are flourishing private seminaries.

There are 8 parish schools connected with the R. C. churches of the city.

The Rochester Atheneum and Mechanics' Association was founded in 1849. It has an extensive reading room and a library of 8,000 volumes. It sustains an annual course of lectures.

The Female Charitable Society was organized in 1826, to furnish clothing and other articles of

necessity to the destitute.

The Home for the Friendless was organized April 11, 1849, to provide work for the needy who cannot obtain employment.

The House for Idle and Vagrant Children was opened June 2, 1854. It is connected with the school department of the city; and to it are sent all vagrant children that are wandering about the streets.

The Rochester Orphan Asylum was established in 1836 and incorp. in 1838. It is a fine brick edifice, situated in the s. w. part of the city, upon a lot donated by the Hon. John Greig. Its average number of inmates is 84, supported by State and county appropriations and private subscription.

The Roman Catholic Orphan Asylum was opened in July, 1842. It is under the charge of the Sisters of Charity. It is situated in the rear of St. Patrick's Church.

The Cartmen's Mutual Benevolent Society was incorp. in July, 1849.

The St. Andrew's Benevolent Society for extending aid to indigent Scotchmen was formed in 1850.

The St. George's Society was formed in March, 1849, by the English residents of the city.

The other societies in the city are the Monroe Co. Bible Society, organized in 1821; The Rochester

¹ The principal landing for the port of Rochester is at Charlotte, at the mouth of Genesee River, 7 mi. below the city. The amount of imports at this port for the year 1858 was \$338.252; exports, \$126.197. The principal imports are wheat, flour, fish, lumber, horses, hides and skins, peas, and wool; and exports, castings, fruit, fruit-trees, furniture, cheese, potatoes, and machinery. The lighthouse is 57 ft. high, surmounted by a lantern 11 ft. diameter and 8 ft. high, with a 4th order of lens. It was erected in 1822, at a cost of \$5.000. The pier is \$ of a mi. in length, built of wood and stone; and on the end is a beacon lighthouse.

² This institution at present occupies temporary buildings upon Buffalo St., in the midst of the city. It owns a site of 12 acres just E. of the city limits, upon which suitable buildings are in process of erection. Connected with the institution is a valuable library and a fine mineralogical cabinet.

³ This institution has an endowment of \$75,000. It has a German Theological Department. Its library contains 5,500 vols., 4,600 of which belonged to Dr. Augustus Neander, the German exclesistical bistorian.

City Tract Society: the Industrial School Association; the Christian Doctrine Society: Society of St. Alphonsus. (German;) St. Joseph's Convent of Redemption; the Academies of St. Patrick. The Sacred Heart, and Our Lady of Mercy. The St. Mary's Hospital has an average of about 70 patients.

The Western House of Refuge for Juvenile Delinquents, a State institution, established in 1844. is located upon a farm of 42 acres 11 mi. N. of the courthouse. The buildings consist of a large and imposing main edifice, with wings containing offices, cells, a chapel, &c. and a variety of workshops. They occupy a site of 4½ acres, surrounded by a high wall. The average number of inmates is nearly 400.1

The first religious services held in the co. were connected with the French missions in the 17th century. The first church at Rochester (Presb.) was formed in 1815, and the church edifice was erected in 1817; Rev. Comfort Williams was the first settled minister, in 1816. Several of the city churches are among the finest church edifices in the State. There are now 46 churches in the city.2

Mount Hope Cemetery is located in Brighton, near the s. line of the city. It embraces a lot of 70 acres located upon Mount Hope, the highest point of land in the vicinity, and one completely overlooking the city. It is laid out in excellent taste, and is one of the finest rural cemeteries in the country. St. Patrick's Cemetery contains 15 acres, and St. Joseph's Cemetery (German) 9 acres.

The territory about the mouth of the Genesee first became known to the whites in the early exploring expeditions of the French. A map of the region, prepared by Baron La Hontan, was published at London in 1703. Views of the Upper and Lower Genesee Falls had been published as early as 1768. Many other adventurers visited the place and gave descriptions of it long previous to the Revolution. The country remained in the peaceable possession of the Indians until after the war, when immigration began to set in toward Western N.Y. The first settler who located at the falls was Ebenezer Allen, the notorious tory.4 He built a mill in 1788 or '90, but soon after sold out his improvements to the Pulteney Estate. The mill went to decay; and there were no other white settlers for several years.5 Among the earliest settlers were Jeremiah Olmstead, who located a short distance s. of the present site of the House of Refuge, in 1798-99; Wm. Cole, who established a ferry, in 1805; and Enos Stone, who built a mill, in 1808. In 1802, Nath'l Rochester, Wm, Fitzhugh, and Charles H. Carroll, from Md., purchased a tract of 300 acres at the Upper Falls; and in 1812 they caused their land to be laid out for settlement. In the same year Francis and Matthew Brown, from Mass., and Thomas Mumford, laid out a tract of 200 acres adjoining the former, and commenced the erection of mills, &c.6

The war with Great Britain broke out at the time when the first efforts were made to build up Rochester, and seriously retarded the progress of settlement. The fear of Indian hostilities and of hostile invasion from Canada caused many of the pioneer settlers to abandon their new homes and emigrate to the more populous sections of the country. At the close of the war, settlements commenced throughout Western N. Y. with increased rapidity; and Rochester immediately felt the new impulse. A large number of settlers came in, mills were built, and the place immediately became the commercial and manufacturing center of the fertile Genesee country. The finishing of the Erie Canal gave a new impetus to the business of the place and served to greatly extend its manufacturing interests. Since that time the city has steadily and rapidly increased both in population, and business, until it has arrived at a front rank among the inland cities of the State.

RUSH—was formed from Avon, (Livingston co.,) March 13, 1818. It lies near the center of the s. border of the co. Its surface is rolling, with a w. inclination. Genesee River forms its w. boundary; and Honeove Creek flows w. through the town and enters the river near the center of the w. border. In the w. part, along the river, are extensive flats. The soil is a sandy, calcareous

Juvenile delinquents are sentenced to this institution from the central, northern, and western parts of the institution from the central, northern, and western parts of the State,—those from the eastern part being sent to a similar institution on Wards Island, New York City. The inmates spend a portion of each day in study and a portion in laboring at some useful employment. The principal business carried on is the manufacture of shoes and brushes. A library of 9,000 volumes is connected with the institution. The yearly cost is about \$31,000, and the earnings of the immates \$12,000. See p. 42.

6 Charles Harford built a small mill in 1807,—the first one after that of Ebenezer Allen. The Browns built a race in 1812, and started a store. The same year Samuel J. Andrews and Moses Atwater laid out a tract of land for settlement. Among the settlers who came in about this time were Rev. Abelard Reynolds, Dr. Jonah Brown, (the first physician,) Abraham Starks, John Matlick, (the first lawyer.) Henry Skinner, Israel Scranton, Luscum Knapp, Hezekiah Noble, Joseph Hughes, Ebenezer Kelly, Ira West, Elisha and Henry Ely, Porter P. Peck, Josiah Bissell, jr., Michael Cully, Harvey Montgomery, Charles D. Farman, and Geo, G. Sill. The first child born was a son of Enos Stone, May 4, 1810. Hamlet Scranton built the first framed dwelling, in 1812, on the present site of the Eagle Tavern.

SWEDEN-was formed from Murray, (Orleans co.,) April 2, 1813. It lies on the w. border of the co., near the center. Its surface is level and gently rolling. A high ridge passes E. and W. through the town, N. of the center. Salmon Creek rises in the s. w. part and flows in an E. and N. E. course through the town. The soil is clay and clay loam. Brockport, 3 (p. v.,) in the N. part, a canal village and R. R. station, was incorp. April 26, 1829, contains 6 churches, the Brockport Collegiate Institute, a bank, 2 newspaper offices, 4 founderies, a planing mill, a manufactory of mowers and reapers, an extensive carriage manufactory, and a rotary pump manufactory. Pop. 2,143. Sweden Center, (Sweden p.o.,) near the center, contains 2 churches and 20 houses; and West Sweden, near the s. w. corner, 2 churches and 15 houses. The first settlement was commenced in 1807,5 by Nathaniel Poole and Walter Palmer. There are 10 churches in town,6

UNION—was formed from Clarkson, Oct. 11, 1852. It is the N. w. corner town of the co. Lake Ontario forms its N. boundary. Its surface is slightly rolling and inclines toward the lake. It is drained by a number of small streams, the principal of which is Sandy Creek. The soil is a sandy, clayey, and gravelly loam. Salt was manufactured to a limited extent by the early settlers. Clarkson Center, (p. v.,) in the s. part, contains 35 houses; North Clarkson. (p. o.,) in the E. part, 8 houses; Kendalls Mills, near the s. w. corner, partly in Kendall, (Orleans co.,) is a hamlet. The first settlement was commenced in 1810, by Aretus Haskell.7 There are 5 churches in town.8 A Fourierite community was organized and located at the mouth of Sandy Creek, in 1843, under Dr. Theller, of Canadian Patriot War notoriety. The bubble soon burst.

WEBSTER—was formed from Penfield, Feb. 6, 1840. It lies on Lake Ontario, in the N. E. corner of the co. Irondequoit Bay forms the w. boundary. Its surface from the ridge in the s. part has a gentle inclination to the lake. The shore rises in places 50 ft., and in the w., on Irondequoit Bay, 80 to 100 ft. The streams are small and flow n. into the lake. The soil is a sandy loam N. of the ridge, and clay and clay loam in the s. Salt was manufactured to some extent by the early settlers. Webster, (p. v.,) in the s. part, on the ridge, contains 4 churches, the Webster Academy, and 310 inhabitants; West Webster, (p. v.,) in the s. w. part, contains 40 houses. The first settlement was commenced in 1805, under the agency of Caleb Lyon.9 The first church (M. E.) was formed in 1812, by Rev. Solomon Pierce. 10

WHEATLAND—was formed from Caledonia, (Livingston co.,) as "Inverness," Feb. 23, 1821. Its name was changed April 3, 1821. It lies upon the s. border, in the s. w. part of the co. Genesee River flows s. on the E. border. Its surface is rolling. Oatka (or Allens) Creek flows E. through near the center of the town. It is joined at Mumford by the Outlet of Caledonia Springs, forming an excellent water-power. The soil is loam, mixed with clay in the interior, and with sand and gravel in some localities, the whole underlaid by limestone. Gypsum is found in large quantities. Scottsville, 11 (p. v.,) in the E. part, contains 4 churches, a union school, extensive flouring mills.

1 Mr. Shaeffer and his sons Peter and Jacob came in Dec. 1789. They found a settlement commenced by Ebenezer Allen and his brother-in-law, Christopher Dugan, near the mouth of Allens Creek, a short distance below Scottsville. Allen had a comfortable log house and about 60 acres of improvement. The Shaeffers became the purchasers of his farm, paying \$2.50 per acre. After the sale. Allen left with his family for Mount Morris. The valley of the river below Shaeffer's was slow in settling; Toseph Morgan came in 1792. Andrew Wortman in 1794 or '95. Caleb Aspinwall, Peter Conkle, Frederick and Nicholas Hetz-tiller were early settlers in the Shaeffer neighborhood. Reuben Heath came from Vt. in 1799. The s. w. part was early settled, under the anspices of Charles Williamson, by Scotch, among whom. were John McNaughton and family, near Mumford. Isaac Scott settled at Scottsville about 1790, and Donald McVean Lead of Peter Shaeffer, ir., built the first swindli, in 1810, 30th and Robert McKay built the first gristmill, at Mumford, in 1808; and Donald McKenzie erected the first cloth dyeing works w. of Genesee River.

MONTGOMERY COUNTY.

This county was formed from Albany, March 12, 1772, under the name of "Tryon Co." Its name was changed April 2, 1784. Ontario was taken off in 1789, Herkimer, Otsego, and Tioga in 1791, Hamilton in 1816,2 and Fulton in 1838. It lies on both sides of the Mohawk, centrally distant 39 miles from Albany, and contains 436 sq. mi. The general system of highlands which forms the connecting link between the northern spurs of the Allegany Mts. on the s. and the Adirondacks on the N. extends through this co. in a N. E. and s. w. direction. Mohawk River cuts through the upland, and forms a valley 1 to 2 mi. wide, and 200 to 500 ft. below the summits of the hills. The valleys of several of the tributaries of the Mohawk extend several miles into the highland district at nearly

right angles to the river valley. The hills bordering upon the river generally rise in gradual slopes, and from their summits the country spreads out into an undulating upland, with a general inclination toward the river, into which every part of the surface of the co. is drained. The principal tributaries of the Mohawk are the East Canada, Garoga, Cayadutta, Chuctenunda Creeks, and Evas Kil, on the N., and Cowilliga, Chuctenunda, Schoharie, Auries, Flat, Canajoharie, and Otsquaga Creeks, on the s. The highest point in the co. is Bean Hill, in Florida, and is estimated to be 700 ft. above tide, and the lowest point is the bed of the Mohawk, on the E. line of the co., 260 ft. above tide.

Gneiss, the only primary rock in the co., is found in patches, the principal locality being at "The Noses," on the Mohawk.³ Resting directly upon this are heavy masses of calciferous sandstone, appearing mostly on the N. bank of the river and extending into Fulton co.4 Next above this are the Black River and Trenton limestone, not important as surface rocks, but furnishing valuable quarries of building stone. The slates and shales of the Hudson River group extend along the s. border of the co, and are found in a few places N. of the river. Drift and boulders abound in various places. The soil along the river consists of alluvial deposits and a deep, rich, vegetable mold, and upon the uplands it is mostly a highly productive sandy and gravelly loam. The productions are principally grass and spring grains. The uplands are finely adapted to pasturage, and dairying forms the leading pursuit. Upon the Mohawk Flats immense quantities of broomcorn are raised. There are several important manufactories in the co., consisting chiefly of woolen goods, carpets, paper, agricultural implements, sash and blinds, and castings. Quarrying is extensively carried on.5

The principal public works are the Eric Canal, extending along the s. side of the Mohawk, and the N. Y. Central R. R., 6 on the N. bank. A wire suspension bridge crosses the Mohawk at Fort Hunter, and wooden bridges at Amsterdam, Fonda, Canajoharie, Fort Plain, and St. Johnsville. An iron bridge was built at Fort Plain, in 1858.

The county seat is located at Fonda, a pleasant village on the Mohawk, built on the site of the ancient Dutch settlement of "Caughnawaga." The courthouse is a fine brick edifice, containing the usual co. offices.8 The jail is a stone building, adjacent to the courthouse.9 The co. poorhouse is located upon a farm of 150 acres situated in Glen, about 3 mi. E. of Fonda. The building is old and poor, and has few arrangements for the health, comfort, or convenience of its inmates. The average number of inmates is 125. The farm yields a revenue of \$1,000.

The first newspaper in the co. was established at Fort Plain, in 1827.10

¹ Named from Wm. Tryon, Colonial Governor. Present name given in honor of Gen. Richard Montgomery, of the Revolu-tion. As first formed, this co. embraced all of the State w. of Delaware River and a line extending N. through Scholaric, and along the E. lines of the present cos. of Montgomery, Fulton, and

along the E. Ines of the present cos. of Montgomery, rution, and Hamilton, and continuing in a straight line to Canada.

E. of the courthouse, but is now included within the incorporation of the village of Fonda. tions of the removal were that a subscription of \$4500 should be raised, and a site of not less than 3 acres donated to the co. This removal occasioned great dissatisfaction, and led to the

The early history of this co. is full of incident and interest. At the time of the first advent of the whites it was the principal seat of the Mohawks, one of the most powerful tribes of the Five Nations. The policy adopted by the early Dutch settlers of the colony, and continued by their English successors, strongly attached a majority of these savages to their interests; and the unprovoked attack of Champlain, in 1609, made them hate the French in Canada with intense bitterness. In the wars that ensued, the Five Nations proved faithful allies to the English, and on many occasions shielded them from hostile attacks. In 1665-66 a French expedition, consisting of 600 men, under De Courcelles and De Tracy, was sent against the Indians, and proceeded as far as Schenectady; but, after much suffering and the loss of many men, the army returned to Canada without affecting any thing. Within the next few years several French expeditions were sent against the western tribes of the Five Nations, and in return the Indians made a descent upon Montreal in 1689, laid waste whole plantations, and destroyed many lives.\(^1\) In retaliation, Count Frontenac sent several expeditions against the Indians and English, one of which destroyed Schenectady in 1690.2 In the winter of 1692-93 the French again invaded the Mohawk country, surprised and destroyed two of their three castles,3 and took about 300 prisoners. In the engagement at the third castle they lost 30 of their number; and in their retreat they were pursued by Maj. Peter Schuyler at the head of 200 regulars and militia, who succeeded in killing 33 and wounding 26 of their number and in rescuing 50 prisoners. Favored by the severe cold, the remainder escaped and fled to Canada through the great northern wilderness. Their sufferings on this journey were intense. As early as 1642-43, a French Jesuit visited the Mohawk settlements; and between that date and 1678, 10 missionaries of this order labored to bring over the Indians of this region to the French interests and the Catholic religion. Though attended with great hardships, and in one or two instances with death, these labors were in some measure successful, and in 1671 a large number of Indians removed from Caughnawaga to Canada.4

A military post, known as Fort Hunter, was established near the mouth of Schoharie Creek in 1711. About the same time a large number of German Palatinates, sent over by Queen Anne, settled upon the Hudson, and shortly after removed to Schoharie and the Mohawk Valley and settled upon lands given them by Government. At about the same period a considerable number of Holland Dutch, from Schenectady and vicinity, found their way into the co. and extended their improvements up the valley. In 1730 the first mill N. of the Mohawk was built on the site of "Cranes" Village by two or three brothers named Groat; and this for a time served the settlements at German Flats, 50 mi. beyond.5

The land grants in this co, were made in comparatively small tracts. The first were issued as early as 1703. On the 19th of Oct. 1723, a patent of 12,700 acres, called "Stone Arabia," N. of the

Mohawk, was granted to John Christian Garlock and others for the benefit of the Palatinates. The principal grants were made between 1730 and 1740; and in 1762 there remained little, if any, unpatented land in the co.

About the year 1735, the British Admiral, Sir Peter Warren, acquired the title to a large tract of land known as "Warrensbush," mostly in the present town of Florida, and sent out his nephew, Wm. Johnson, then but 21 years of age, as his agent. Johnson first located at the mouth of Schoharie Creek: afterward he removed to 3 mi. above Amsterdam, and finally to Johnstown. Through the influence of his uncle he received the appointment of Agent of Indian Affairs, which gave him great facilities for intercourse and traffic with the natives. Applying himself industriously to the study of the character and language of the Indians, and adopting their habits and dress whenever it suited his convenience, he gained an ascendency and influence over them never before enjoyed by any white person. His easy and obliging manners made him equally a favorite with the white settlers; and until his death, which took place on the 24th of June, 1774, the events of his life are intimately interwoven with the history of the co.1 His title and estates descended to his son, Sir John Johnson; but his commanding personal influence could not be inherited. Guy Johnson, sonin-law of Sir William,2 Col. Daniel Claus, and Col. John Butler, were attached to the interests of the Johnson family, possessed large estates, and lived in what were then considered sumptuous residences in the Mohawk Valley. They had considerable influence with both whites and Indians. In the controversy between the colonists and the mother country which resulted in the Revolution, the Johnsons and their adherents strongly espoused the cause of the King, from whom they had received so many favors.

As a class, the German Palatinates sided with the colonies, and a majority of the other settlers entertained similar sentiments; but for a long time they were overawed, and their efforts at organization were thwarted by the zeal and activity of the tory leaders. In the spring of 1775, while the court was in session at Johnstown, through the influence of the tories the signatures of most of the grand jurors and magistrates were procured to a document opposing the measures of the Continental Congress.3 This proceeding, coupled with others of a more aggressive and personal character, tended greatly to organize the opposition forces, to separate the friends and enemies of freedom, and to kindle feelings of bitter and vindictive hatred, which naturally led to all the horrors of civil war.

"Tryon co" was divided into 6 districts; and, for the purpose of a more thorough organization, delegates were appointed in each by the Patriots to form a committee of public safety. Upon a meeting of these delegates a significant remonstrance was addressed to Col. Guy Johnson, Indian Agent, for his aggressive and partisan acts; he withdrew in June, 1775, to Cosbys Manor, above German Flats, under pretense of holding a council with the Indians in the w. part of the co.; and in a short time he fled to Montreal, by the way of Oswego, accompanied by a large number of dependents and followers. He continued to act as Indian Agent during the war, and by liberal rewards and still more liberal promises he greatly stimulated the natural ferocity of the Indians, and incited them to more active hostility. He was joined in Canada by Joseph Brant, a distinguished and educated Mohawk chief, and John and Walter N. Butler, 2 tories who afterward gained an infamous notoriety. At the head of marauding parties of tories and Indians, they afterward returned and committed the most inhuman atrocities upon their old friends and neighbors. Sir John Johnson remained at "Johnson Hall," but continued active in his intrigues, and kept up a correspondence with Col. Guy Johnson in Canada. His preparations to fortify "Johnson Hall" excited alarm; and in Jan. 1776, a committee, consisting of Gen. Philip Schuyler, Gen. Ten Broeck, and Col. Varick, was despatched from Albany to consult with the local committee of safety and satisfactorily arrange matters. Gen. Herkimer called out the militia; and the affair was finally settled by the surrender of Sir John as prisoner, and an agreement that his Scotch tenants should be disarmed. He was sent to Fishkill, but, being released on parole, he soon returned to Johnstown and resumed his intrigues. In May, Col. Dayton was sent with a regiment to again arrest him; but, being warned of their approach, Sir John and his followers fled to the woods, and finally reached Canada by the way of Sacandaga and Racket Rivers, after 19 days of fasting and suffering.⁵ Sir John received a commission as colonel in the British service, raised a regiment of tories known

as "Johnson's Greens," and was active and bitter in his hostility throughout the war,1 Through the influence of the Johnsons, all of the Five Nations, with the exception of a portion of the Oneidas and Tuscaroras,2 were attached to the British interests, and were liberally aided by arms and provisions in their frequent incursions into the frontier settlements under the Butlers and Brant,3

In the summer and fall of 1777, this co., in common with the whole northern and western frontier, was the scene of great alarm and of stirring military events, produced by the expedition of Burgoyne. Gen. St. Leger, at the head of a large body of tories and Indians, was dispatched by the way of Oswego to reduce the rebel posts and settlements on the Mohawk and join the main army at Albany. On the 3d of Aug. they laid siege to Fort Schuvler, upon the site of the present village of Rome. The militia of Montgomery co. were called out, and, under Gen. Herkimer, marched to the relief of the fort. On the way the bloody battle of Oriskany was fought, in which 200 of the brave patriots of the co, were killed and as many more carried into Indian captivity.4 In the latter part of the same month, Genls, Arnold and Learned, at the head of 900 troops, marched up the river, and St. Leger hastily abandoned the siege and fiel.5 The destruction of the valley was thus averted, and for several months the inhabitants were allowed to remain undisturbed, save by small scalping parties, that hung round the unprotected frontiers and cut off the defenseless inhabitants.

In the spring of 1778, Gen. La Fayette, accompanied by Gen. Schuyler and Col. Duane, went to Johnstown and held a conference with a body of Indians, which resulted in a treaty of considerable subsequent benefit to the settlers. In the following summer the horrible butcheries at Wyoming, Harpersfield, German Flats, and Cherry Valley were perpetrated; and in the summer of 1779 the army of Gen. Clinton marched from this co. to join Gen. Sullivan's expedition against the chief villages and farming grounds of the Onondagas, Cavugas, and Senecas. On the 21st of May, 1780, Sir John Johnson, at the head of 500 Indians and tories, suddenly made his appearance at Johnson Hall. He arrived about sunset on Sunday, and, dividing his force into two parties, at daylight the next morning he made a simultaneous attack upon Tribes Hill and Caughnawaga. Several persons were killed and others taken prisoners, and every building upon the route, except those belonging to tories, was burned. The militia began to collect in considerable numbers, and toward night Sir John hastily retreated, and safely reached Canada by the way of the wilderness w. of the Adirondack Mts.6 Near the last of the July succeeding, the militia of the co. were employed to convey a provision train sent to the relief of Fort Schuyler; and on the 2d of Aug., while they were absent, Brant, at the head of 500 Indians and tories, made an attack upon the settlements in the neighborhood of Fort Plain. Fifty-three dwellings were burned, 16 persons slain, and 60 women and children carried into captivity. Upon the approach of the militia from Johnstown and Schenectady, the party retreated. On the 15th of the following Oct. a large party of tories, Indians, and Canadians, under Sir John Johnson, Brant, and Cornplanter, made their appearance in the Mohawk Valley, at the mouth of Schoharie Creek, after having laid waste the Schoharie settlements above. From this point they marched up the valley, burning the houses, destroying the property, and murdering or taking prisoners all that they met. The militia under Gen. Robert Van Rensselaer hastily came together and marched to attack the invaders. On the 18th of Oct., Col. Brown, who commanded a small stockade fort at Stone Arabia, acting under the order of Van Rensselaer, marched out with 150 men to attack the enemy; but, receiving no support from the main army, the little detachment was soon routed, with the loss of the commander and 30 to 40 men killed. Sir John halted at Fox's Mills, about 8 mi. above Fort Hunter, in the town of St. Johnsville, and erected a temporary breastwork. At a late hour in the day he was attacked by a detachment under Col. Dubois, and the Indians under his command were defeated.⁷ The Americans, under Van Rensselaer, fell back 3 mi. and encamped; and the next morning, upon marching forward to renew the attack, they found that the enemy had fled.8 Sir John finally succeeded in making his escape,

³ The Americans made several efforts to attach the Six Nations The Americans made several efforts to attach the Six Nations to their interests, or at least to induce them to remain neutral. In the winter of 1776-77, Col. Harper was sent to ascertain the object of the assembling of a large body of Indians at Oquago, on the Susquehama. In the succeeding June, Brant, with a party of Indians, made a levy upon the settlers of the Unadilla; and many fled to a place of safety. Gen. Herkimer, at the head of 380 militia, marched to meet him; and on the 27th of June. 1777, a conference was held between the general and the chief, but without producing any definite results. All efforts to propitiate the Six Nations were then abandoned, and all conferences ceased

until the close of the war, when the Indians were called upon, as vanquished enemics, to confirm the surrender of most of their lands as an atonement for their hostility.

⁴ There was scarcely a hamlet in the valley that did not lose one or more of its inhabitants. ⁵ For further particulars concerning these transactions, see

⁵ For intrier particulars, concerning the page 316, and the page 316, but the principal object of this incursion was to obtain the silver plate which had been buried by Sir John on his first hasty flight from Johnson Hall. The plate was recovered and carried to Canada in the knapsacks of 60 men. 7 This engagement is known as the battle of "Klocks Field." 8 Du Bois had nearly gained the victory, when Van Rensselaer came up and gave orders not to renew the battle until the signal should be given from headquarters. The forces of the former proprised. were under arms all night, momentarily expecting the promised

though his force was greatly reduced by hunger, fatigue, and the continual, harassing attacks of the militia, which hung upon their rear.

The prospects of the Mohawk Valley were now gloomy in the extreme. Nearly every settlement had been desolated, and nearly every family had lost some of its members.¹ In the spring of 1781, Col. Willett assumed the command of the American forces on the Mohawk, and, by his military skill, daring, and knowledge of Indian warfare, he not only successfully repelled all attacks made upon the Mohawk settlements, but carried the war into the enemy's own country.

On the 9th of July, 1781, 300 Indians, under a tory named Doxtader, made a sudden attack upon the settlement of Currytown, (in the town of Root.) After burning the buildings and collecting a large amount of booty, they retreated. Col. Willett, at the head of 150 militia, immediately pursued and overtook them at "Durbah," (Dorlach,) a few mi. over the line of Schoharie co. A severe skirmish ensued, when the Indians fled, leaving 40 of their number dead on the field.2 The final incursion into the Mohawk Valley was made Oct. 24, 1781, by a party of 600 British and Indians, under Maj. Ross and Walter N. Butler, who made their first appearance in the neighborhood of Warrensbush. They marched to the vicinity of Johnson Hall and commenced the usual work of plunder and murder, but were arrested by a sudden attack by forces under Cols. Willett, Rowley, and Harper. A severe engagement ensued, resulting in the retreat of the enemy. Col. Willett pursued, and, coming up with the rear guard at West Canada Creek, another skirmish took place, in which the infamous Walter N. Butler was killed.3 The shattered remnant of the British forces escaped by way of Oswego. This affair practically ended the war in Tryon co., and the remaining citizens, stripped of almost every thing except the soil, were allowed to resume in peace their accustomed employments.4 In a few years the ravages of the war were completely obliterated, and the fertile regions of Central and Western N. Y., which had become known through the military expeditions that had traversed them, soon began to fill up with a New England population. The splendid domains of the Johnsons and other royalists were confiscated, and the feudal tenants of the colonial period were replaced by enterprising freeholders under the new government.5

AMSTERDAM6—was formed from "Caughnawaga," March 12, 1793. Perth (Fulton co.) was taken off in 1831. It lies on the N. bank of the Mohawk, in the N.E. corner of the co. Its surface consists of the intervale along the river, and a rolling upland gradually rising for the space of 2 mi. and attaining an elevation of 300 to 500 feet. The principal streams are the Kayaderosseras, 3 mi. w. of Amsterdam Village, Chuctenunda,8 at the village, and Evas Kil,9 near the E. border. The soil in the valley is a deep, rich alluvium, and upon the hills it is a fertile, gravelly loam. Near Tribes Hill are extensive stone quarries. A considerable amount of manufactures is carried on in town, consisting of mill machinery, agricultural implements, carriages, car springs, and carpets, at Amsterdam Village, and of woolen goods at Hagamans Mills. had been caught, without the possibility of preventing their escape. Had it not been for the indecision or cowardies of Gen. Van Rensselaer, the whole party might have been taken. At the time, he was openly charged of cowardies or treachery by the Oneida chief, and he entirely lost public confidence.

1 Some idea of the extent of these ravages may be formed from a statement prepared by the supervisors of "Tryon co," dated Dec. 20, 1780, and addressed to the legislature. They therein stated that 700 buildings had been burned within the co.; that 354 families had abandoned their habitations and removed; 613 persons had deserted to the enemy, 197 had been killed, 121 taken prisoners; and 1200 farms lay uncultivated by reason of the enemy. This statement did not include Cherry Valley, Newtown-Martin. Middlefield, Springfield, Harpersfield, and Old England District, which had been totally deserted and abandoned. The population of the co. at the beginning of the war was about 10,000. While the sufferings of the colonists were thus great, the Indian loss was much greater. Their whole country had been ravaged, their homes and crops destroyed, and a large portion of their number had died in battle or by starvation. At the close of the war the miserable remnant of the once powerful nations humbly sued for peace, and were content to accept terms that deprived them of almost their entire country.

2 By stratagem Col. Willett succeeded in drawing the Indians into an ambuscade. They field so hastily that all their baggage and plunder was captured. On their retreat they murdered a number of prisoners to prevent their escape.

3 Walter N. Butler was one of the most inhuman wretches that ever disgraced humanity. Ferocious, bloodthirsty, and cruel, he seemed to revel in perfect delight at the spectacle of

5 For several years after the war, ghosts were reported as frequently seen stalking about the old residences of the royalists. The appearances which gave rise to these reports were doubtless the tories themselves, returned in disguise to obtain valuables which had been secreted upon their previous hasty flight. The settlers, who had suffered so much, were slow in forgetting the injuries they had received; and for many years after, few, either Indians or tories, who had been engaged in the war, could show themselves in the settlement with safety.

"Caughnawaga" was formed as a town, March 7, 1788. It embraced all that part of Montgomery co. lying N. of the Mohawk and E. of a line extending from The Noses N. to Canada. A wire suspension bridge here crosses the Mohawk to Florida.3 The first settlement was commenced about 1710, by Dutch and Palatinates. About 1740, Sir Wm. Johnson built a large stone mansion upon the w. side of the Kayaderosseras, 3 mi. w. of Amsterdam Village,4 This building was fortified and named "Fort Johnson," Col. Daniel Claus and Guy Johnson, sons-in-law to Sir William, occupied fine mansions respectively 1 and 2 mi. below Fort Johnson, previous to the Revolution. The first settlers at Amsterdam Village were Albert Veeder, E. E. De Graff, Nicholas Wilcox, and Wm. Kline. The first church (Ref. Prot. D.) was formed in 1792.6 The first settled minister was Rev. Conrad Ten Eyck, in 1799. There had been preaching in town at a much earlier period.

CANAJOHARIE7—was formed as a district March 24, 1772, and as a town March 7, 1788. Cherry Valley was taken off in 1791, Minden in 1798, a part of Root in 1823, and of Minden in 1849. It lies on the s. border of the co., w. of the center. The surface consists of the intervale of Canajoharie or Bowmans Creek, and undulating uplands 200 to 600 feet above the valley. The soil is a gravelly loam, derived from the disintegration of the underlying slate, in some places intermixed with clay. The cultivation of hops receives some attention. A small woolen factory is located on Bowmans Creek. Canajoharie, (p. v.,) incorp. April 30, 1829, contains 5 churches, the Canajoharie Academy, and 2 banks; pop. 1500. Sprout Brook, (p. o.,) Mapleton, and Marshville are hamlets. The first settlement in town was commenced in early colonial times; but the precise date is not known." During the Revolution the people warmly espoused the American cause, and were afterward among the greatest sufferers in the Mohawk Valley.¹² Gen. Clinton, while marching to join Sullivan in 1779, made this place his headquarters for some weeks.¹³ In Aug. 1780, Brant made an incursion into the valley and destroyed nearly the whole settlement.14 During the war several other incursions were made; and the people were often driven to the utmost extremity. Several small forts were built in the town, which afforded some protection to the people. In 1795, Archibald and James Kane established themselves as merchants at this place, and commenced a business which soon grew to be one of the largest in the interior of the State. In 1823, the "Central Asylum for the Instruction of the Deaf and Dumb" was located near Buel, in this town; but in 1836 it was united with the one previously established in New York City. The first church (Free Will Bap.) was organized at Ames, in 1796-97, by Rev. George Elliott. 18

CHARLESTON—was formed from Mohawk, March 12, 1793.19 Glen and a part of Root were taken off in 1823. It is the most southerly town in the co., and the only one not bordering upon the Mohawk. It lies upon the high plateau region immediately w. of Schoharie Creek; and the

FLORIDA—was formed from Mohawk, March 12, 1793. It embraces that part of the co. lying s. of the Mohawk, and E. of Schoharie Creek. The greater part of the surface is a rolling upland, 600 ft. above the valley. Bean Hill, in the s.w. part, is the highest land in the co. The declivities bordering upon the streams are usually steep. The two principal streams within its borders are Chuctenunda and Cowilligat Creeks. The soil and productions are similar to those of neighboring towns. Several sulphur springs are found in town, the most noted of which is near Scotch Bush. The Eric Canal crosses the Schoharie Creek between this town and Glen, on a costly aqueduct. Broomcorn is one of the principal agricultural products, and brooms are extensively manufactured. Port Jackson (p. v.) is a canal village on the Mohawk, opposite Amsterdam. Pop. 369. Minaville, (p.v.,) on Chuctenunda Creek, near the center, contains 95 inhabitants. Fort Hunter, (p.o.,) at the mouth of Schoharic Creek, and Scotch Bush, (p.o.,) near the s. border, are hamlets. One of the 3 Mohawk castles was situated at the mouth of Schoharie Creek at the first advent of the whites. The first white settlement in this co. is supposed to have been made in this town. Fort Hunter⁶ was built here by the whites in 1711. Queen Anne's Chapel was soon after erected, and was furnished with a valuable set of communion plate by Queen Anne.7 The fort was garrisoned until after the French War, when it was abandoned. During the Revolution the chapel was inclosed with palisades, and converted into a strong fortress defended by cannon. In Oct. 1780, several houses were burned on the opposite side of the creek by the forces under Sir John Johnson, but the fort was not molested. Before the close of the war several newly arrived German emigrants settled in town, and they were followed soon after by Scotch and Irish families.8 The first preacher after the war was Rev. Thos. Romeyn, (Ref. Prot. D.,) in 1784. The census reports 5 churches in town.9

GLEN¹⁰—was formed from Charleston, April 10, 1823. It lies in the s.w. angle formed by the junction of Schoharie Creek and the Mohawk. Its surface consists principally of uplands about 600 feet high, descending by abrupt declivities to the narrow intervales along the streams. The principal streams are Auries11 Creek, a tributary of the Mohawk, and Irish Creek, a branch of the Schoharie.12 The soil is generally a clayey loam. One mi. E. of Voorheesville is a chalybeate spring.13 Fultonville¹⁴ (p. v.) is situated on the Mohawk and the Erie Canal. Pop. 850. Voorheesville, (Glen p. v.,) near the center of the town, contains 40 houses, and Auriesville, (p. v.,) a canal village near the mouth of Auries Creek, 170 inhabitants. The land bordering upon the river was granted in 10 patents to different persons in 1722 to 1726, and the greater part of the remainder to James De Lancey in 1737. Peter Quackenboss settled on Scott's Patent, near Auries Creek.

11 This fort was built by a French engineer for the Government, and was the finest fortification in the valley. It was octagonal, a stories high, each story projecting beyond the one below. In the lower story was a cannon, which was fired in cases of alarm to notify the people of danger.

12 Fort Plank was situated about 2 mi. N. w. of Fort Plain, on the farm now occupied by C. House. Fort Clyde was situated 2 mi. s. w. of Fort Plain, near the residence of Peter Devendorf, at Freysbush. Fort Willett was w. of Fort Plank.

14 In his previous intercourse with the Indians, Abeel had married the daughter of a Seneca chief, after the Indian fashion. A child of this marriage was the famous chief Cornplanter. Abeel subsequently married a white woman, and at the Davison of the control o planter. Abeel subsequently married a white woman, and at the commencement of the war was living upon his farm. During the incursion of Oct. 1780, Abeel was taken prisoner by a party of Indians, and, while momentarily expecting death, Cornplanter addressed him as father and assured him of his safety. He was given his choice either to accompany the Indians under the protection of his son, or to return to his white family. He chose the latter; and after the war Cornplanter visited him, and was received by his Fort Plain relatives with the civilities due his rank and manly bearing. The chief died at his residence in Penn., March 7, 1836. Stone, in his Life of Brant, says that Cornplanter was more than 100 years old at the time of his death. Mr. Webster, of Fort Plain, a descendent of John Abeel, states that Abeel did not make his appearance in the Indian country until 1748, and that Cornplanter was born about 1750, This would make his age about 30 when he accompanied the expedition that took his father prisoner, and but 86 when he died. approach of the enemy the women showed themselves dressed in men's clothes, and the Indians thereupon kept at a respectful distance. The first church (Ref. Prot. D.) was organized at Fort Plain, long before the war. The census reports 9 churches in town.1

MOBAWK-was formed from Johnstown, April 4, 1837.2 It lies upon the N. bank of Mohawk River and near the center of the N. border of the co. The surface is uneven, and gradually rises from the river to the N. line, where it attains an elevation of about 400 ft. above the valley. Its principal screams are Cayadutta and Da-de-nos-ca-ra³ Creeks. The soil is generally a good quality of gravelly leam. Fonda, (p. v.,) pleasantly situated upon the Mohawk, is the co. seat Besides the co. buildings, it contains 2 churches, a bank, printing offices, and several manufactories Pop. 687. Tribes Hill, (p.v.,) on the border of Amsterdam, contains 327 inhabitants. The site of the present village of Fonda was called "Canghnawaya" by the Indians, and was one of the favorite resorts of the Mohawks. It was the scene of some of the earliest labors of the French Jesuits among the Five Nations, two of whom lost their lives here in 1646. The names of the first actual white settlers are not known. Nicholas Hansen⁶ settled at Tribes Hill before 1725, and others, by the names of Fonda, Vanderworker, Doxtader, and Fisher, at an early day.7 Among the other residents of the town before the Revolution were Col. John Butler and his son Walter N., who afterward attained an infamous notoriety for their inhuman atrocities and for the vindictive hate which they seemed to cherish against their old whig neighbors.8 The principal weight of the incursion of Sir John in May, 1780, fell upon the two settlements of Tribes Hill and Caughnawaga.9 In the autumn of the same year the second incursion of Sir John swept over the town, destroying the greater part of the property that escaped the first. A stone church (Ref. Prot. D.) erected in 1763 is still standing. 10 Rev. Thos. Romeyn was the first pastor. In 1795 he was succeeded by Rev. Abraham Van Horne. The census reports 3 churches in town; Ref. Prot. D., True D., M. E.

to put out the fire that had been applied to the roof, and while standing on the fence he was shot, and fell across the fence dead. The mother was knocked down with the breech of a gun and left for dead. The Col. was also knocked down by a tomahawk, dragged down stairs by his hair, and thrown upon the ground, dragged down stairs by his hair, and thrown upon the ground, when an Indian jumped upon his back, drew a knife across his throat, as was supposed, cutting it from ear to ear, then, cutting round the scalp, seized it by his teeth and tore it from his head, and finally gave him a blow in the shoulder with his hatchtand fled. The Col. had not lost his senses through all this mangling, and his throat, being protected by a leather belt worn inside of his cravat, was only slightly wounded. As soon as the Indians disappeared, he arose, went up stairs and brought down his mother, placed her in a chair and leaned her up against the fence; returned, and brought down the body of his brother John and laid it on the grass; then, becoming exhausted from loss of blood and the effect of the scalping, he lay down 2pon an old rug that lay out of doors,—as he supposed, to die. The old negro and girls soon returned, and found the house burned down and the dead and wounded as described. By sl₂us the Col. made known to the negro that he wanted water, who immediately brought it from the creek near by and gave it to him to drink, and also bathed his head, which restored his speech. A diately brought it from the creek near by and gave it to him to drink, and also bathed his head, which restored his speech. A tory named Clement passing by, the negro asked what he should do: the reply, given in German, was, "Let the d—d rebel die." According to the directions of the Col., the negro caught the colts, which had never been broken, harnessed them to the wagon, and took him to the house of Putnam, at Tribes Hill. From there he, together with his mother, sisters, and the bodies of his brothers, was conveyed across the river to Wemples, and of his brothers, was conveyed across the river to Wemples, and thence in a canoe to Schenectady, where they arrived about sundown, and he had his wounds dressed for the first time. After five years' suffering, he nearly recovered from the effects of his wounds. He built a new house on the site of the old one, and lived 29 years after he was wounded,—for several years holding the office of First Judge of the co. His mother also recovered from her wounds, and lived with him. After the war the Iudian who scalped him returned to the settlements, and stopped at a tavern kept by a tory at Tribes Hill. The wife of the landlord, who was a white sent word immediately to the buse of at a tavern kept by a tory at Tribes Hill. The wife of the landlord, who was a whig, sent word immediately to the house of
Col. Fisher that the Indian was there and would soon call at
his house. The family, knowing that the Col. had sworn revenge, and wishing to prevent any more bloodshed, kept the
news from him. As they were all in the front room, about the
time the Indian was expected they overset a pot of lye upon the
hearth, and persuaded the Col. to go into the back rocm and lie
down until they cleaned it up. While the Col. was gone, the
Indian came to the door, where he was met by the old lady, who
addressed him in the Indian tonge, told him her son's intenaddressed him in the Indian tongue, told him her son's inten-tions, and pointed to a gun which was always kept loaded in readiness for him. The Indian listened, gave a grunt, and ran away with all speed.

4 Named from Douw Fonda, who removed from Schenectady and settled here in 1751. At the time of the Revolution he was living on the flats, between the present turnpike and the river, a few rods E. of the road leading to the bridge, at which place he was murdered by the Indians under Sir John, May 22, 1780. At the time of his death he was \$4 years old. In former years he had greatly befriended the Johnson family; but the ruthless savages led by Sir John spared neither friend nor foe. His three sons, John, Jellis, and Adam, were stanch whigs, residing in the neighborhood. Indian name, Ga-ns-wada, "on the rapids."

Meaning those in the water," or "at the rapids."

Patents of 1000 acres each, on the Mohawk, were granted to Nicholas Hansen and his brother Hendrik July 12, 1713.

The first birth N. of the river, of which there is any record, was that of Henry Hausen. ——Collins taught a school in 1774. Jellis (Glies) Fonda is said to have been the first merchant w. of Schenectady. He carried on an extensive trade with the native tribes, and with the whites at Forts Schuyler and Stanwix and the forts at Oswego, Niagara, and Schlosser. His sales consisted chiefly of blankets, trinkets, ammunition, and rum, and his purchases of peltries, ginseng, and potash. At one time before the Revolution his ledger showed an indebtedness of over \$10,000 in the Indian country. John Chaley was an early settler at Tribes Hill. He was in the war, and found his own brother arrayed against him.

8 Alexander White, Colonial Sheriff of Tryon co., resided on the present site of the courthouse. He was a zealous tory, and was obliged to flee to Canada. He was succeeded by John Frey, appointed by the Provincial Congress.

9 The detachment against Tribes Hill was led by Henry and Wm. Bowen, who had lived in the vicinity. Passing the tory settlement of Albany Bush (in Johnstown) without molestation, they proceeded to the home of Gerrer Putnam, a stanch whig at Tribes Hill, and there by mistake murdered two tories, who had hired the place a short time before. From this place they went up the river, plundering the houses and murdering their old friends and neighbors. Every building was burned except the church and parsonage, and several slaves and white male prisoners were carried to Canada. The women were not particularly molested on this occasion. At the house of Col. Fred. Fisher they were warmly received by the Col.'s family, consisting of himself. his mother, and his two brothers John and Harmon. The Col.'s wife and children had been sent to Schenectady for safety: and his two sisters and an old negro, on the first alarm, fled to the woods and escaped. The Indians made a desperate attack upon the house, and a constant firing was kept up by the inmates until their ammunition was exhausted. They then all retreated to the chamber except John, who stood in the stairway and defended it with a hatchet until he had killed 7 Indians. He then retreated above, and, slipping upon some peas which lay upon the floor, he fell, and was dispatched with a tomahawk. Harmon jumped out of the window

PALATINE—was formed as a district, by the name of "Stone Arabia," March 24, 1772; its name was changed March 8, 1773. It was formed as a town March 7, 1778, embracing all the territory between "Little Falls and The Noses," and extending from the Mohawk to Canada. Salisbury (Herk. co.) was taken off in 1797, Stratford (Ful. co.) in 1805, Oppenheim (Ful. co.) in 1808, Manheim (Herk, co.) in 1817, and Ephratah (Ful. co.) in 1827. It lies on the N. bank of the Mohawk, w. of the center of the co. Its surface is mostly an upland, 200 to 500 feet above the valley, broken by deep, narrow ravines, and descending irregularly toward the river. The principal streams are the Kau-a-da-rauk, in the E. part of the town, and the Garoga, in the w. The soil is fertile, and well adapted to grazing. Stone Arabia, (p.v.,) near the center of the town, contains about 15 houses, and Palatine Bridge, (p. v.,) on the Mohawk opposite Canajoharie, 40. Palatine Church, (Palatine p. o.,) on the w. border, is a hamlet. The first settlement was made in town in 1713, by German Palatinates, who came over in 1710. The larger part of the Stone Arabia Patent was within the limits of this town,3 Wm. Fox settled near Palatine Church, and Peter Waggoner a little below, on the Mohawk, in 1715. The early records of the settlement are lost. A stockade called Fort Paris, the ruins of which are still visible, was built at Stone Arabia, and another, called Fort Keyser, 1 mi. N. The disastrous engagement resulting in the death of Col. Brown was fought within this town, between Stone Arabia and the river.⁵ The Ref. Prot. D. church at Stone Arabia is one of the oldest in the valley.6 The stone church (Luth.) at Palatine Church was built in 1770.7 The census reports 3 churches in town; 2 Ev. Luth., Ref. Prot. D.

ROOT⁸—was formed from Canajoharie and Charleston, Jan. 27, 1823. It lies upon the s. bank of the Mohawk, near the center of the co. The hills which border upon the river rise abruptly to a height of 630 feet,9 and from their summits the country spreads out into an undulating upland. The high hills just below Sprakers, on opposite banks of the river, are called "The Noses." The high ridge near the E. border is known as "Stone Ridge." The principal streams are Platte Kil, and Lashers and Flat Creeks. Mitchells Cave, 10 in the vicinity of The Noses, consists of several apartments, with the roof hung with stalactites. The soil is a fine, gravelly loam. Leatherville (Root p.o.) contains 15 houses, and Currytown, 11 Sprakers Basin, (p.o.,) Flat Creek, (p. o.,) and Browns Hollow, about a dozen each. Yatesville is a hamlet on the canal. The first settlers were Jacob Devendorf, at Currytown, Rudolph Keller, David and Fred. Lewis, and Jacob Tanner.12 The first church (Ref. Prot. D.) was formed at Currytown. Rev. Peter Van Buren became its pastor in 1806.13 The principal incursions into this town during the war were those made in the summer and fall of 1781. The weight of the first of these, led by the tory Doxtader, July 9, 1781, fell upon the settlements in and near Currytown.14 In Oct. of the same year Ross and Butler passed through the town, but committed no depredations, except capturing part of a funeral procession, and taking a few prisoners at Stone Ridge.

ST. JOHNSVILLE¹⁵—was formed from Oppenheim, (Fulton co.,) April 18, 1838. It lies upon the N. bank of the Mohawk, in the w. part of the co. Its surface consists of a broad river intervale and a broken upland gradually rising N. of it. Its streams are East Canada, Crum, Fox, Zimmermans, Caldwell, and Mother Creeks. Upon East Canada Creek, 12 mi. from its mouth, are a succession of falls and rapids descending 75 feet in a distance of 80 rods. The soil is a fine quality of gravelly loam. St. Johnsville, (p. v.,) on the Mohawk, was incorp. in 1857. It contains a woolen factory, and is an important station on the Central R. R. Pop. 648. The first settlement at the village was made by Jacob Zimmerman, in 1776.16 During the Revolution

14 Upon the alarm being given, the settlers hastened to a picketed blockhouse near the dwelling of Henry Lewis, closely pursued by the enemy. Every house in the village except one was set on fire; but the flames were extinguished by the vanguard of Col. Willett's forces, under Capt. Robert Kean. Frederick, son of Jacob Devendorf, was scalped, but he recovered, Jacob, jr., another son, was taken prisoner, and was scalped on the retreat of the Indians. He also recovered, and lived to the age of 85 years. He died in 1854, one of the wealthiest farmers in the valley. Mary Miller, a little girl, was scalped and found alive, but died soon after. Several other prisoners were murdered. Most of the cattle driven away were abandoned, and found their way back to the settlement.

These forts were both attacked, but never taken. Fort Hill, situated on an eminence E, of East Creek, was erected during the French War. It was repaired and used during the Revolution. The battle between the forces of Sir John and the advanced guard of Van Rensselaer's army, under Col. Dubois, was fought at "Klocks Field," near "Fort House," Oct. 18, 1780. The enemy forded the river, and retreated up the valley during the night following. The Indians, in small parties, continued to prowl about the settlement during the war, and shot and captured several of the inhabitants.2 Clarksburgh is a hamlet, containing a pitchfork manufactory. NEW YORK COUNTY.

THE city of New York¹ was incorp, by Gov. Stuyvesant in 1652. and its municipal powers were confirmed and enlarged by Gov. Dongan, April 22, 1686, and by Gov. Montgomerie, April 19, 1708. An act was passed Oct. 14, 1732, confirming its rights; and subsequent enactments were embodied in one act in the revised laws of 1813 and in the revised statutes of 1828. Numerous changes in the details of the municipal government have been made from time to time.2

The co., from the beginning, has embraced Manhattan, Governors, Bedloes, Ellis's, Blackwells, Wards, and Randalls Islands, and the lands under water to low water mark on the shores opposite, in Westchester, Queens, and Kings cos., and in New

Jersey. Manhattan Island is 13 mi. long, by 2 mi. wide at the broadest part. It is centrally distant 130 mi. from Albany, and contains an area of 22,000 acres.4 It is separated from Westchester co. by a strait known as Spuyten Duyvil Creek,5 and Harlem River. The surface of the island was originally quite broken by ridges of gneiss and hornblendic slate, especially in the N. part; and immense masses of rock and earth have been removed in grading. A deep valley extended across the island on the line of Canal St.; 7 another near Carmansville; 8 a third at Manhattanville; and a fourth at Tubby Hook, near the N. extremity. The s. part of the island was covered with drift and boulders, presenting conical hills, some of which were 80 ft. above the present grade of the streets. Fresh water was readily obtained by wells sunk to the surface of the rock; and the porous nature of the soil has greatly favored the construction of deep foundations and vaults without annoyance from water.9

Along the E. shore, from 94th St. northward, and around Harlem, the surface is very level, and to some extent covered with salt marshes. On the w. side, toward the N., the valleys are often deep and the hills precipitous. The highest point, at Fort Washington, is 238 ft. above tide.

Both sides of the island afford ample facilities for commerce; and the noble harbor embraced within the shores of New Jersey, Staten Island, Long Island, and the city has scarcely an equal for extent, safety, and facility of access, and for the amount of its commercial transactions.10

The preservation of this harbor from injurious encroachments has been a subject of solicitude; and investigations which these have occasioned have developed many interesting facts connected with its interests.11

² Important acts were passed in 1830, 1849, 1851, 1853, and 1857, the last mentioned embracing all the essential features of the city government.

The Halls of Justice, known as the Tombs, and the "Five Points" district, now occupy the site of the ancient pond; and a large sewer under Canal St. represents the position of the

9 Until 1842 the city was entirely dependent upon wells for its supply of fresh water. See p. 424.

10 The strait known as Harlem River and Spuyten Duyvil The Stratt known as nation live and Spayen Buyen Creek is too shallow and crooked to be available for commerce, Various plans have been proposed to improve it; but none have been carried into effect. Harlem River is about 800 to 1,000 ft. wide, and mostly bordered by narrow, marshy flats, behind which the banks rise into hills. At Kingsbridge the bank is 190 ft. bits and mostly perpendicular. The Huden River R. R. 180 ft. high and nearly perpendicular. The Hudson River R. R. and the Harlem R. R. cross these waters, and also the High Bridge, (used only for the Croton Aqueduct and foot passengers,) and the Harlem Bridge, at the head of 3d Avenue. The latter was a toll bridge until the expiration of the charter in the spring of 1858. Macomb's Bridge, formerly at the head of 7th Avenue, of 1898. Macomo's bridge, formerly at the head of the Avenue, was much used; but it is now down. A dam was constructed at this place for using tide water; but, being found to impede navigation, it was removed. In 1827 a co. was formed to build a canal across the upper end of the island, and in 1836 a similar plan was proposed, and a canal was partly built, traces of which plan was proposed, and a canal was partly built, traces of which may be seen on the z. side of the island, at 106th St. One of the objects of this canal was to gain access to a marble quarry; but the stone was found to be of inferior quality, and the project was abandoned. The capacity of the harbor of New York is limited only by the depth of water on the bars at its entrance near Sandy Hook. Vessels of about 23 ft. draft can pass at high tide. The approaches by way of Long Island Sound have no practical limitation of this kind; and vessels of 60 ft. draft could approach the upper part of the island and land on the Westchester shores adjacent without difficulty.

11 The Colony and State have at sundry times granted to the city lands under water adjacent to its shores, the riparian owners being usually secured in the right of pre-emption. The principal of these grants have been as follows:—

Although the city forms but a single organization, it has localities known by distinct names as villages or neighborhoods; but the number of these is gradually becoming obliterated as population increases; and most of them will soon be known only to the student of history.1

Of the several islands, other than Manhattan, comprised in New York City and co., those in the harbor are owned by the General Government and occupied as military posts, and those in the East River are chiefly owned by the city and devoted to charitable and penal institutions.

In 1811 the exterior line was fixed by the commissioners for laying out the city into streets: but changes of their plan and the extension of streets led to encroachments upon the and the extension of streets led to entroachments upon tac-channel, requiring remedial measures. An act was accordingly passed, March 30, 1855, appointing 5 commissioners in pursuance of advice of a Senate committee of the year previous, and these persons, associating with themselves several officers of the General Government, proceeded to examine the subject. The harbor and shores were surveyed and sounded, the effects of harbor and shores were surveyed and sounded, the effects of tides and currents examined, maps constructed, and lines for the limitation of piers and bulkheads recommended, and mostly confirmed by law, April 7, 1857. These surveys were performed by 10 parties of about 200 persons from the U.S. Coast Survey, at a cost of \$85,000. The reports of the commission embrace a large amount of statistical and historical information.—Assem. Doc. 8, 1856; Sen. Doc. 40, 126, 1857.

The first dock was built from Broad to Dock St., on the East River. There are now 66 piers on the w. and 78 on the E. side of the city. A part of these are built and owned by the corporation, others by individuals or companies, and others jointly by the city and individuals. Of the last class the city pays one-third the cost of building and receives one-half of the revenues. The city owns 39 piers and 7 half-piers on the Hudson, and 31 piers and 20 half-piers on the East River,—the former valued at \$1,428,500, and the latter at \$1,829,000. They are under the care of the Street Department.

care of the Street Department.

The wants of commerce led to the erection of a lighthouse on Sandy Hook, at the expense of the colony of New York, in 1762, which was supported by special duties upon commerce until ceded to the U. S. Feb. 3, 1790. The commissioners for its erection were John Cruger, Philip Livingston, Leonard Lispenard, and Wm. Bayard. It was burned in 1776. Within the Hook are lights at Princes Bay, Fort Tompkins, Robins Reef, and Whitehall Landing, and numerous buoys to mark the channels.

The tide enters at Sandy Hook at 7h. 29m. past the moon's southing, and rises at Governors Island from 2.2 to 6.1 ft., the mean rise being 4.3 ft. The harbor was frozen over in 1789, and again in 1820. On the former occasion persons passed on the loc to Staten Island. It sometimes happens that the Hudson and East Rivers will be closed for a few hours in intensely cold seasons, and people have on these occasions rashly attempted to cross; but the occurrence is not common.

2 Governors Island was formerly called "Nutten Island," and by the Indians "Pag-ganck." It lies I,066 yards S. E. from the Battery, and contains 72 acres. It is separated from Long Island by Buttermilk Channel, formerly shallow, but now of sufficient depth for the largest ships. This island was bought by Gov. Van Twiller, and has always been reserved for public defense. Quarantine was located here from 1794 to 1797. In the settlement of accounts with the U. S., New York undertook to erect fortifications here as payment for her proportion of the expenses of the Revolution. Jurisdiction was ceded to the U. S. Feb. 15, 1800, with Fort Jay, then partially erected. By the authority of an act passed March 26, 1794, £30,000 were expended by the State in fortifications, under the supervision of Geo. Clinton, Matthew Clarkson, James Watson, erected. By the authority of an act passed March 26, 1794, 230,000 were expended by the State in fortifications, under the supervision of Geo. Clinton, Matthew Clarkson, James Watson, Richard Varick, Nicholas Fish, Ebenezer Stevens, and Abijah Hammond. A further sum of £20,000 was granted April 6, 1795, to complete the works on this and "Oyster" (now Ellis) Islands. Castle William (named from Gen. Williams of the N.Y. Militia) is a round tower on the w. shore of the island, 600 feet in circumference and 60 feet high, mounting 80 casemate and 40 barbette guns. The land side is open, and a covered way leads to the works in the center of the island. Fort Columbus is a star-shaped work of 5 points on the summit of the island, mounting 105 guns; and South Battery, fronting Buttermilk Channel, has 13 guns. These works from 1830 to 1858 cost \$285,897; and they are adapted to a garrison of 800 men. The island is used as a receiving station for newly enlisted troops, and a school for instructing boys in music. About 60 lads of 14 years and upward are usually under instruction upon the drum, bugle, and other instruments.

Bedloes Island, 2,950 yards s.w. from the Battery, was named from Isaac Bedloe, the patentee under Gov. Nicoll. It was known for some years as "Kennedys Island." It was known for some years as "Kennedys Island." It was known for the U.S. in 1800, having been previously used for quarantine purposes. It is now occupied by Fort Wood, erected in 1841 at a cost of \$213,000, on the site of a fort built about the beginning of the century. It mounts 77 guns, and accommodates a garrison of 350 men. During several months in 1840 it was used by the Commissioners of Emigration as a hospital.

Blackwells Island is a long, narrow island in the Bast River, extending from 51st to 88th Sts., and containing 120 acres. It was named from the Blackwell family, who owned it for a hundred years or more. It is now owned by the city corporation, and is the seat of various penal and charitable institutions. This island was formerly called "Manning sland," from Capt. John Manning; and by the Indians it was named "Minnahanck." It was patented to Gov. Van Twiller, and continued private property until 1828, when it was sold by James Blackwell to the city for \$30,000. In 1843 the city paid \$20.000 more to perfect the title.

The city is divided into 22 Wards, which are again subdivided into 149 Election Districts, and such other civil divisions as the election of State, city and co. officers, the administration of justice, and the regulation of municipal ordinances require.1

The Board of Supervisors in New York co. is composed of 12 persons, who are so classified that 2 are elected or appointed annually. A ballot can have but one name; and it is the duty of the canvassers to declare that the two persons having the highest number of votes are elected.2 Their general powers and duties-which chiefly concern taxes and assessment-are the same as those of Supervisors in other cos.

The Legislative Power of the city government is vested in the Common Council, consisting of 2 co-ordinate branches,—a board of 17 Aldermen and a board of 24 Councilmen.3 The former are elected by single districts for 2 years, and the latter are elected annually, 6 to each Senatorial district.4 Ordinances must be passed by both bodies the same year, and receive the assent of the Mayor, to become valid.

The regular sessions of the Board of Councilmen commence at 5 o'clock P. M. on the first Monday in each month, and continue on each Monday and Tuesday until the business of the month is concluded. Each house elects a presiding officer, clerk, and other officers; and the journals of each are published.

The Executive Power is vested in a Mayor, beletted for 2 years, and in 7 Executive Departments, viz., those of Police, Finance, Streets, Croton Aqueduct, Almshouse, Law, and City Inspector, -most of which are subdivided into bureaus, each having specific duties to perform. The Mayor is charged with the general administration of the city, nominates for the approval of the Aldermen certain officers, and may suspend or remove officers within limits fixed by statute. He communicates annually and from time to time to the Common Council such messages as he deems proper.

The Police Department has general charge of police regulation in New York City, Kings, Richmond, and Westchester cos. By act of April 15, 1857, it was placed under the Commissioners of the Metropolitan Police District,6 of whom the Mayors of New York and Brooklyn are ex officio members.

bought by Van Twiller in 1637, confiscated in 1664, and granted to Thos. Delavel. The Wards bought it in 1806; and in Dec. 1847, a part was leased by the Commissioners of Emigration for an Emigrata Refuge and Hospital. The Commissioners have since purchased 106 acres; and a portion of the remainder is used as a Potter's Field. The cost of buildings and improvements up to 1858 was \$250,000. The structures erected before 1850 were slight barracks and shanties; but those built since are chiefly of brick. The island is supplied with Croton water; and a ferry connects it with 106th St.

Randalls Island, named from Jonathan Randall, who purchased it in 1784 and resided here nearly 50 years, lies N. of Wards Island, near the Westchester shore. It was formerly known as "Little Barn" Island. It was patented under the Dutch Government, but was confiscated in 1664 and granted to Thos. Delavel. It was subsequently named "Belleisle," "Tailbots Island," and "Montressors Island." The city purchased it in 1835 for \$50,000. It is now occupied by nursery schools and by the establishment of the Society for the Reformation of Juvenile Delinquents. A ferry connects it with 122d St.

Sunken Meadow Island lies adjacent to Randalls Island.

1 The city was divided Dec. 8, 1683, into 6 wards, known as South, East, North, West, Dock, and Out Wards. They were designated by numbers, and a new ward was created by act of Feb. 23, 1791, to take effect Sept. 28, 1792. Those subsequently erected have been as follows:—

According to the Council Manual for 1858, the number of employees in the police was 1,004, of whom 11 were surgeons, 7 were attached to the office of the Commissioners, 5 were employed in the office of the General Department, 24 in that of the Deputy Superintendent, 21 as Detectives, 79 in attendance at public offices and courts, 26 as harbor police, and 841 on police stations. The number is at times largely increased, and is annually becoming permanently greater

The Department of Finance is under a Comptroller, elected by separate ticket for a term of 4 years. This officer has charge of the fiscal concerns of the city, and reports the condition of its finances annually to the Common Council. The Department is divided into the Auditing Bureau, a Bureau of Arrears, a Bureau of Taxes, a Bureau of City Revenue, and a Bureau of Deposits and Disbursements, the officers of which are appointed by the Comptroller.1

The Street Department is under the charge of the Street Commissioner, who is appointed for 2 years by the Mayor with the advice and consent of the Board of Aldermen. He has the general direction of opening, altering, regulating, grading, guttering, and lighting streets, roads, places, and avenues, of building, repairing, and lighting wharves and piers, and of the construction and repair of public roads and the filling up of sunken lots, under the ordinances of the Common Council. The paying of streets is not under his charge. The department has a Bureau of Street Improvements, of Repairs and Supplies, of Lands and Places, of the Chief Engineer of Fire Department, of Collection of Assessments, of Wharves, of Roads, and of Lamps and Gas. Of each of these bureaus there is a superintendent, or chief, and several clerks, numbering in the several offices of the Department nearly sixty persons.1

1 Most of the streets in the lower part of the city are winding and crooked; but above the old settled Dutch portion they are very regular. An act passed April 3, 1807, appointed Simeon De Witt, Gouverneur Morris, and John Rutherford to lay out and survey the whole island N. of Fitzroy Road, Gansevoort St., Greenwich Lane, (Greenwich Avenue,) and Art Street, (Waverly Place,) to the Bowery Road; and down the same to North St., (Houston St.,) and thence to the East River. The powers of these commissioners were more amply specified in an act passed March 24, 1809; and Canal St. was by this act to be made a covered passage for the waste waters of its vicinity. The labors of the commission ended within the time specified, and their maps were filed in the secretary's office March 11, 1811. The surveys under this plan were executed by John Randall, jr., with great accuracy, and finally completed in 1821. To the commendable forethought of these gentlemen is the city indebted for the admirable arrangement of its up town streets 1 Most of the streets in the lower part of the city are winding debted for the admirable arrangement of its up town streets and avenues.

The Streets of the portion covered in this survey generally extend from the Hudson to the East River direct, and are known by their numbers, the highest being at the time of first survey by their numbers, the linguist being at the time to first survey 154, but since extended to 228. Above 14th St. these are known only by their numbers, and the lots upon them are numbered z. and w. from Fifth Avenue. They are each 60 feet wide, except 14th, 23d. 34th, 42d, 57th, 72d, 79th, 85th, 95th, 105th, 116th, 125th, 135th, 145th, and 155th, each of which is 100 feet wide. The blocks between them vary from 184 to 212 feet, being generally about 200 feet, or about 20 blocks to the mile.

The Avenues run nearly N. and s., and are numbered from E. to w., beginning upon the East River. Several short avenues on the E. side of the city are designated by letters, as Avenue A, beginning at the one next E. of First Avenue. These avenues are each 100 feet wide, except s. of 23d St., where Avenues A and C are 80 feet and Avenue B 60 feet. North of 33d St. Fourth Avenue is 125 feet wide. The blocks between the avenues are 610 to 920 feet, being generally 800 feet.

The Lands and Places belonging to the city date their title from Dongan's charter, by which all waste and unappropriated lands on Manhattan Island to low water mark, and all rivers, bays, and waters adjoining, were confirmed to the city. The

The city contains 20 public and several private parks, most of which are inclosed with iron railing and handsomely laid out,1

The Fire Department in some form has existed since 1653, when the city enjoyed the privilege of collecting a beaver for each house and a guilder yearly for each chimney to support a fire apparatus. The Fire Department in its present form was incorp. April 16, 1831; and its powers have been modified by acts of March 25, 1851, and April 3, 1855.2

1 The Central Park, for the purpose of construction, is in | charge of a special Board of Commissioners, consisting of 10 members, who serve without pay, and report annually to the Common Council. The history of this park is briefly as fol-

On the 5th of April, 1851, Mayor Kingsland, in a special mee On the 5th of April, 1851, Mayor Kingsland, in a special message to the Common Council, called attention to the importance of a public park sufficiently ample to meet the growing wants of the city population. The message was referred to a select committee, who reported in favor of purchasing the tract of 150 acres between 66th and 75th Sts. and 3d Avenue and the East acres between ooth and 70th Sts. and 3d Avenue and the sar River, known as Jones's Wood. An act was passed July 11, 1851, allowing this to be taken; but, from some errors in the act, the Supreme Court refused to appoint Commissioners, and the law was repealed April 11, 1854. On the 5th of August, 1851, a committee was appointed to examine whether another more suitable site for a park could not be found; and the result of the inquiry site for a park could not be found; and the result of the inquiry was the selection of the site now known as the "Central Park," between 5th and 8th Avenues, originally extending from 49th to 106th Sts., and in 1859 extended to 110th St. The act for creating this park passed July 23, 1853, and an act for its regulation and government April 17, 1857. The grounds are 2½ miles long by ½ mile wide, embracing 840 acres, of which 136 are occupied by Croton reservoirs. It will be crossed by 4 thoroughfares, sunk below the general surface and passing under the carriage ways and other avenues of the park, so as not to obstruct the movement of visitors. Access to the grounds under the carriage ways and other avenues of the park, so as not to obstruct the movement of visitors. Access to the grounds cannot be had from these transverse roads. This park is now under construction, and will embrace a parade ground 50 acres in extent, for the maneuver of large bodies of infantry, availry, and artillery; a botanical garden, cricket grounds, playgrounds, ponds for skating in winter, and every variety of scenery which a surface naturally rugged and broken can be made to present. The plan embraces carriage drives and bridle paths, winding ways for pedestrians, and broad, noble avenues for promenade; fountains, lawns, terraces, and every variety of woodland scenery. Ground is reserved for a public hall intended for concepts: for a large conservatory, and exotic terraces; for a secondary. secency. Ground is reserved for a public half incended for con-certs; for a large conservatory, and exotic terraces; for a geo-metrical flower garden, with wall fountains; for an architectural terrace, with a large jet and tazza fountain; for public houses of refreshment; for residences of the Superintendent and head of refreshment; for residences of the superintendent and near gardener; for a police station, a zoological garden, and for an astronomical observatory, chartered in 1859. The grounds now include the building erected and still used for a State Arsenal, but sold to the corporation, and the Mount St. Vincent Academy of the Sisters of Charity. There will be over 25 miles of walks, 5 miles of bridle paths, and 8 miles of carriage road. The main 5 miles of bridle paths, and 8 miles of carriage road. The main entrance will be at the corner of 5th Avenue and 59th St.; but other entrances will be provided at convenient points on 7th

Avenue on both ends, and along 5th and 8th Avenues.

The Battery comprises a tract of about 20 acres at the s. point of the island, planted with trees and fronting upon the harbor.

It was formerly a place of fashionable resort; but, in the extension of commerce, it has lost most of its prestige. It is still atsion of commerce, it has lost most of its presinge. It is still attractive on account of its cool brezes and refreshing shade. The point, formerly called "Schreyers Hook," showed a number of rocks above water, upon which a platform was built in 1693 for a battery. This shallow spot was afterward filled in; and in 1853-56 it was further extended so as to embrace its present likely in the solution of the control of the solution of the state of the solution of

The Park is a triangular space of 10½ acres between Broadway, Chatham, and Chamber Sta, near the present center of commercial business in the city. The City Hall, Hall of Records, Rotunds, and New City Hall, used for courts and public offices, are located upon it. It has a large fountain, which is seldom used. This tract, formerly called "The Fields," or "The Common," from the beginning has been owned by the city and used for public purposes. While distant from the settled portion, it was used as a place of execution; and the victims of the nerro nlot mon, 'from the beginning has been owned by the city and user for public purposes. While distant from the settled portion, it was used as a place of execution; and the victims of the negro plot proscription were here burned. In the early part of the Revolution the Sons of Liberty here rallied to assert their rights; and at a later period it became the scene of cruelty as the prison and at a later period it became the scene or crueity as the prison and execution ground of American patriots. The s, gateway was formerly of marble, beautifully finished, and surmounted by two marble balls, gifts from the Turkish Government to Commodore Perry, and by him presented to the city. They had been made for cannon balls. The foundation of this gateway was laid with great pomp, the Mayor presiding and depositing in it various coins, papers, and memorials. The Park is now

partly surrounded by an iron fence, and its sides are open for some distance to allow the easy passage of pedestrians. Its central location renders it a favorite place for popular gatherings, and, from the throng constantly passing, an audience can be swelled to thousands in a brief space of time. This Park is

valued at \$3,000.000. Wishing 9\frac{1}{2} acres, formerly the "Potter's Field," lies between Waverly Place, McDougal, Fourth, and Wooster Sts. It is handsomely laid out, and is surrounded with residences of a superior class. It has a fountain, and is a favorite resort for promenade. It is estimated that 100,000 persons were buried here before the ground was taken for a park. It is

valued at \$816,000.

2 This department has a Board of Fire Wardens, consisting for 14 members, a Chief Engineer and 13 assistants, and 3,700 men, of whom 1.922 are members of engine companies, 1,262 of hose companies, and 502 of hook and ladder companies. This body of men constitutes a distinct and powerful combination, whose services, although gratuitous, are prompt and in every respect praiseworthy, and whose interests the city authorities find it their policy to protect. The city is divided into 8 fire districts, furnished with 11 district fire alarm bells, all connected by telegraphic signals. There are 47 engine companies, 57 hose companies, 15 hook and ladder companies and 4 hydrant companies. The first class engines have companies of hydrant companies. The Croton Aqueduct Department is under a board styled the Croton Aqueduct Board, consisting of a President, Commissioner, Chief Engineer, and Assistant, appointed by the Mayor and Aldermen for five years. It has charge of all structures and property connected with the supply of Croton water and the collection of water rents, of the underground drainage of the city, of public sewers, of permits for street vaults, of paving and repairing streets, and of digging and constructing wells. It has a Bureau of Water Rents, and one of Pipes, Sewers, and Pavements. The department was organized in July, 1849, under an act passed April 11 of that year. Previous to this the Water Commissioners were appointed by the Governor and Senate.²

The number of fires in the year, ending Feb. 17, 1859, was 261, and of alarms, 160. The loss by fire on buildings was \$593,647, and on stock \$514,999,—of which the Crystal Palace, burned in loct. 1858, formed a large item. During the last year two large steam fire engines have been obtained; but, except in extraordinary cases, they are not used. The city owns about \$80,000 feet of hose. The Department elects one Fire Commissioner annually for a term of 5 years from among exempt firemen. These commissioners form a Board to decide upon the formation of new volunteer companies, to investigate applications for admission to companies, to examine into charges against members, and for cause to suspend or remove them. The Fire Department possesses a fund derived from special trusts, donations, festivals, concerts, fines for violation of fire laws, and other sources, the income of which is applied in aid of the families of deceased and disabled firemen. The report of 1857 showed an expenditure of \$30,567.91 by the trustees of this fund. Among the items of this expense were 1,978 pairs of shoes and 500 tons of coal. The invested fund amounts to \$95.250. Two scholarships for educating the sons of firemen in the University of New York have been endowed by Myndert Van Schaick.

Harlem Gas Light Company was incorp. Feb. 8, 1855, with a capital of \$250,000. Its works are situated upon Harlem River, at the N. extremity of 1st Avenue. There are also several minor gas works for furnishing light to hotels and private esta-

a The Croton Aqueduct is the most extensive and costly work in America for supplying a city with water; and its magnitude justifies a somewhat minute account of its origin and subsequent history.

In 1741 the General Assembly passed a law (which was continued by repeated enactments) for mending and keeping in repair the public wells and pumps of the city. In 1774 Christopher Colles contracted to erect a reservoir on Broadway, between Pearl and White Sts; and the plan was partially carried into effect before the Revolution. In 1785 schemes were again agitated, which led to surveys and examinations; and in 1799 the Manhattan Company was formed, ostensibly to supply the city with water, but really as a banking institution, with a perpetual charter and large privileges. Its principal well was at the corner of Duane and Cross Sts., whence the water was raised by steam and distributed in pipes; but the supply was limited in amount and was of very impure quality. During the next thirty years various schemes were proposed for constructing common and artesian wells, and open canals from the Bronx and other streams in Westchester co. and Conn., and several companies were formed; but no practical steps were taken to secure the result. An act was passed May 2, 1834, which authorized the city to supply itself with "pure and wholesome water" and to issue its stock to defray the cost. The Governor and Senate appointed Stephen Allen. R. M. Brown, Charles Dusenberry, Saul Alley, T. T. Woodruff, and William W. Fox Commissioners, under whom accurate surveys were made and various plans and estimates considered, which resulted in recommending that the water of the Croton be taken near its mouth and brought in an aqueduct to a reservoir on Murray Hill, 114 ft. above tide. This plan was approved, March 11, by the Mayor, and in April, 1835, by the people, by a vote of 11,367 to 5,963. David B. Douglass was appointed Chief Engineer; but in Oct. 1836, he was succeeded by John B. Jervis. The work was begun in the spring of 1837, and so f

Its completion was commemorated by a grand civic celebration Oct. 14 of the same year.

This aqueduct is a covered canal, of solid stone and brick masonry, arched above and below, 8 ft. 5½ in. high, 7 ft. 5 in. wide at the widest part, and 40½ ml. in length from the dam to the distributing reservoir. It has a descent of 47.9 ft., or 13 in. to a ml. and a capacity of supplying 60,000,000 gallons of water per day. At intervals of 1 ml. are openings through small towers for ventilation. The flow of water is generally 2 to 3 ft. in depth, or 27,000,000 gallons a day. It is covered below the reach of frosts; and the surface works are carefully guarded by fences from injury by cattle. It passes through 16 tunnels in rock, varying from 160 to 1,263 ft., with a total of 6,841 ft. In Westchester co. it crosses 25 streams 12 to 70 ft. below the line of grade, besides numerous small brooks furnished with culverts. Harlem River is crossed upon High Bridge in two 48 inch mains, 12 ft. below the level of the grade of the aqueduct, and furnished with gate chambers at each end. This bridge is of granite, 1,450 ft. long, 21 ft. wide between the parapets, 100 ft. above the surface of high tide to the crown of the arch, and 114 ft. to the top of the parapets. It rests upon 15 arches, 8 of which are of 80 ft. span and 7 of 50 ft. Upon one of the piers is inscribed the following record of the construction of the bridge:—

AQUEDUCT BRIDGE. BEGUN 1839; FINISHED 1848. JOHN B. JERVIS, Chief H. Allen, Princ. Assist. P. Hastie, Res dent (Neers STEPHEN ALLEN, NEERS. SAUL ALLEY, WATER COM-MISSIONERS. GEORGE LAW, SAMUEL ROBERTS, ARNOLD MASON, CONTRACT-ORS. E. H. TRACY, Assistant WATER COM-C. DUSENBERRY, W. W. Fox, T. T. WOODRUFF,

The aqueduct of masonry is continued from the bridge 2 mi. to the Manhattan Valley, a depression which is 4,171 ft. wide and 102 ft. deep. This is crossed by an inverted siphon of iron pipes 4,180 ft. in length, with a gate chamber at each end. The mesonry is then resumed, and the aqueduct is carried $2\frac{17.3}{1000}$

msonry is then resumed, and the aqueduct is carried 2\frac{17.3}{10.0} mi. to the receiving reservoir in the Central Park, crossing in this distance the Clendening Valley, 1,900 ft. across and 50 ft. deep, on an aqueduct, with archways for three streets, each of which has 30 ft. span for carriage way and 10 ft. span on each side for foot passengers.

The receiving reservoir in the Central Park is 1,826 ft. long, 836 ft. wide, covers an area of 3,505 acres, and has a capacity of 150,000,000 gallons. The banks are of earth, 18 ft. wide at top, and rise 9 ft. above the level of the water. The pipes pass through brick waults. A new reservoir is now under construction adjacent to the former ones, and also upon Central Park. It will cover an area of 106 acres, and will be surrounded by an earth bank of irregular outline, which will constitute a broad promenade. The distributing reservoir at Murray Hill, between 40th and 42d Sts. and 5th and 6th Avenues, is a stone structure in 2 divisions, designed to contain 36 ft. or 20,000,000 gallons. Its surface is 115 ft. above mean tide.

The cost of the work was \$8,575.000, including water rights and land, besides \$1,800,000 for distributing pipes. The expense came within 5 per cent. of the estimate of Mr. Jervis, the Engineer. The annual interest, amounting to \$665,000, is paid by direct water taxes and by some indirect taxes; and a sinking fund is provided for the final liquidation of the debt. The construction of this work has lowered the annual rates of fire insurance about 40 cts. on every \$100 insured. Sing Sing Prison is supplied from the aqueduct as it passes near that place.

The Almshouse Department is under the charge of a Board of Ten Governors of the Almshouse, generally known as the "Ten Governors." The department was organized under an act of April 6, 1849, and was modified the succeeding year. This board has charge of the Almshouse, of the Relief and Support of the Poor, of the County Lunatic Asylum, of the Nurseries for Poor and Destitute Children, the Penitentiary, and all the city prisons and houses of detention, except the sheriff's jail in Elbridge Street and the House of Refuge. All ordinary appropriations for this department must be submitted to a board consisting of the Presidents of the Boards of Aldermen and Councilmen, the Mayor and Comptroller.2 If this board approves, it reports to the

view of ascertaining its topography minutely, the better to decide upon future reservoirs or other structures as they may be found necessary. The ridge line or watershed inclosing the valley above the dam is 101 mi. in length. The stream is 39 mi. in length, and its tributaries 136 mi. The total area of the valley is 352 square mi.; and within it are 31 natural lakes and ponds, many of which are available as reservoirs, and 16 of which have been minutely surveyed and estimated.

1 The Governors of the Almshouse are elected by single ballot, one being voted for and two elected. This places the board above the control of party politics.

2 Public measures for the relief of the poor are among the first

² Public measures for the relief of the poor are among the first necessities of a civilized government; and one of the earliest statutes of the General Assembly in 1683 was for this object. In 1699 a law was passed for the relief of the poor at their homes; and about 1714 the first almshouse was built, on the present site of the City Hall. In 1795 a lottery of £10,000 was granted for a new almshouse, and the large brick building on the Park near Chambers St. (burned in 1854) was erected. In 1811 a tract on the East River, at the foot of 26th St., was bought; and the first stone was laid Aug. 1, 1811. The present main edifice at Bellevue Hospital was opened April 22, 1816, as a hospital, penitentiary, and almshouse, at a cost of \$421,109. The management was for many years intrusted to five commissioners appointed by the Common Council. In 1822 the average number of paupers was 1,547; and the cost of the establishment for several years was as follows:—

In	1817 1818	\$90.886	In	1820	\$84,420
66	1818	107,600	66	1821	85,000
66	1819	105,509	66	1822	82,200

The law then required paupers to be returned to the town where they had gained residence; but this was often difficult, and vessels then, as since, often landed paupers in or near the city from distant places. In 1822 two vessels put about 100 paupers on shore a few miles from the city, and brought on their baggage. Efforts were made to remedy these abuses; but their baggage. Efforts were made to remedy these abuses; but it was found difficult in a large population to distinguish those coming into the city liable to public charge, until they applied for relief in the early winter months.—Sen. Doc. No. 86, 1824. Meanwhile the affairs of the institutions at Bellevue became very corrupt and mercenary; but a malignant fever, which broke out in 1825 and committed frightful ravages in the filthy wards

and loathsome cells, forced the question of reform upon the public. In 1845 the Almshouse was placed under the care of a single commissioner, and in 1849 the present system of super-

vision went into operation.

Blackwells Island was bought in 1828, and Randalls Island in 1835. In 1848 the Almshouse was completed on the former; and the whole of both islands is now devoted to objects of charity and reform, Randalls Island being in part under the care of the Governors of the Almshouse and in part under the Trustees of the House of Refuge.

Upon Blackwells Island, commencing at the s. end, are located

Upon Blackwells Island, commencing at the s. end, are located respectively the Small Pox Hospital, the Penitentiary, Island Hospital, female and male Almshouses, Workhouse, and Lunatic Asylum. Upon Wards Island is the Potters' Field, under the charge of the Ten Governors; and upon Randalls Island are the extensive nurseries and hospitals for poor children. Bellevue Hospital, the largest in the city, remains under the charge of the Governors as a fever, surgical, and general hospital. The Colored Orphan Asylum, Colored Home, four city prisons, and the out-door poor, are also under the care of this department. A short sketch of these several charges is essential to a full knowledge of the city.

A short sketch of these several charges is essential to a full knowledge of the city.

Bellevue Hospital is 350 ft. long, the center portion 5 stories high and the wings 4 stories. Upon each story are verandas and outside stairways of iron. Its arrangements throughout are ample and judicious, and it can accommodate 1,350 patients. It has a clinical theater fitted up for the accommodation of large classes of students. In 1858 the number of prescriptions was 145,503; and the number of births is about 350 annually.

The results of its operation during 10 years have been as fol-

The Small Pox Hospital, Blackwells Island, was commenced April 1, 1854, and was finished in the same year. It is built, in the English gothic style, of stone quarried upon the island. It is 104 ft. by 44, 3 stories high, and cost \$38,000. It is not designed for the treatment of paupers only, but is fitted up with express reference to receiving persons able and willing to pay for their treatment, and where, secluded from friends to whom they might impart their disease, they may receive every attention that science and the most attentive nursing can bestow. It is the only hospital of the kind in or near the city, and takes the place of some old wooden buildings previously erected on the island.

The Penitentiary, opposite 55th St., is built of hewn stoles and rubble masonry. It consists of a middle building, 65 by 76 ft., and two wings, each 50 by 200 ft., making the whole length of the building 465 ft. A new wing was finished in 1859; and another is needed for the accommodation of the immates. The total number of cells is 1,736. The convicts are employed as occasion requires in quarrying and dressing stone for buildings upon the island, and as blacksmiths, shoemakers, carpenters, weavers, coopers, painters, wheelwrights, &c. The Island Hospital, Blackwells Island, was first erected in 1848, under the name of the "Penitentiary Hospital." Its name was changed Dec. 15, 1857. The building was found to be constructed "in a most reckless and careless manner, and as a public building was a reproach to any city." It continued in use, however, until destroyed by fire, Feb. 13, 1858. At the

time of the fire it contained 600 inmates; but they were all removed without loss of life. In Feb. 1858, a most humane regulation was adopted by which the suffering poor are relieved without being committed as vagrants. The building now in the process of erection to supply the place of the former is 3½ stories high, includes 14 wards and accommodations for 744 patients. As on other buildings on the island, convict and workhouse labor is largely employed in the erection. The statistics of the hospital have been as follows:—

Workhouse.-This establishment was authorized by act of Workhouse.—This establishment was authorized by act of April 11, 1849, and grew out of a recommendation of the Prison Association of New York, in which the Society for Improving the Condition of the Poor concurred. A plan for buildings was adopted the succeeding season, and work was begun Oct. 3, 1849. The n. wing, 3 stories high, has 150 rooms, opening upon galleries around a common central hall, and capable of lodging 600 persons. At the n. end is a cross arm 4 stories high, containing workshops. A central building contains the residence of the Superintendent, the kitchen, storerooms, offices, chapels; and a 6. wine, for females, is constructed mon the plan and of the Superintendent, the kitchen, storerooms, offices, chapels; and a 8. wing, for females, is constructed upon the plan and of the size of the n. wing. This establishment was designed for those able to work and who, not finding means of support, were willing to be committed, as well as such paupers, vagrants, and others as might be deemed fit subjects for employment. The males are usually kept employed as circumstances permit, in quarrying and grading, and as carpenters, coopers, wheelwrights, painters, boat builders, blacksmiths, tinsmiths, shoemakers, and tailors. The females are employed in knitting, sewing, and other light occupations. This institution has scarcely resulted in the benefits anticipated, and of all the charities under the care of the Governors is perhaps the only one that might possibly be dispensed with. It is found impracticable to keep all hands profitably employed; and the name of "workhouse" loses its terrors when coupled with the idea of leisure hours, comfortable quarters, and sufficient food.

The Potters' Field, on Randalls Island, was placed under the charge of the Governors of the Almshouse June 19, 1850; but its location and quality of soil were made a subject of complaint, and it was repeatedly presented by grand juries. A tract of 69 acres was purchased on Wards Island, and brought into use in June, 1852, since which time the former field has not been used. About 2,500 interments are made annually at the public charge.

The Nurseries and Nursery Hospitals on Randalls Island consist of about a dozen detached buildings, not arranged on any systematic plan. The grounds are inclosed and of ample extent; and a farm is connected with the institution, which extent; and a sarm is connected with the institution, which goes far toward furnishing it with culinary vegetables. The institution is provided with ample schools and playgrounds. The numbers remaining here at the beginning of 1859 were 88 men, 96 women, 833 boys, and 303 girls. The children are indentured, given for adoption, or returned to friends, as circumstances warrant.

The Colored Orphan Asylum was begun in the fall of 1836, and was incorp. April 16, 1838. It is situated on 5th Avenue, between 43d and 44th 8ts, and is under the immediate charge of lady managers, who report to and receive funds from the Governors of the Almshouse Department. The numbers remaining at the close of the several years since, under this arrangement, have been as follows:—

In 22 years it has received in the aggregate 970 colored orphans. This institution is partially supported by benevolent contributions and partially by occasional appropriations from

the State.

The Colored Home, on 1st Avenue, between 64th and 65th The Colored Home, on 1st Avenue, between 64th and 65th Sts., has 44 lots of ground, on which substantial buildings are erected. It was originally intended as a House of Industry. In Oct. 1858, the foundations of a new building were laid, 90 ft. by 40, with a corridor from 6 to 12 ft. wide on the s. side, extending from each wing of the present building nearly 120 ft., so that access may be had from all parts of the house without exposure to the weather. It contains departments for male and female hospitals, home for the aged and infirm, schools, and lying-in and nursery accommodations. This is also under the immediate care of lady managers, and is sustained by contributions, legacies, and grants from the State. In point of order and neatness it equals any hospital in the city. The male hospital usually has about 30 inmates, the female hospital 75, the lyingin department 40, and the home of the aged 150. The average number of births is about 90 annually.

The City Prisons—four in number, under charge of the Governors—are situated as follows:

The Hulls of Justice, or "Tombs," is situated on Center St. between Leonard and Franklin. A portion is occupied by courtrooms and prisons for persons awaiting sentence. The house

The Commissioners of Emigration were incorp. by an act of May 7, 1847, and consist of 6 commissioners appointed by the Governor of the State, and of the Mayors of New York and Brooklyn, and the Presidents of the German Society and the Irish Emigrant Society. They have charge of the Marine Hospital at Quarantine, the Emigrant Depot at Castle Garden, and numerous buildings on Wards Island for the accommodation of the sick.1

The Law Department is under a chief officer called the "Counsel to the Corporation," elected for three years. He has charge of all the law business in which the city is interested, when so ordered by the corporation, and institutes all legal proceedings necessary for the opening and widening of streets. He draws all leases, deeds, and other papers connected with the finances of the city. This department has a Bureau of Corporation Attorney, and another of Public Administrator.

The City Inspector's Department is under a chief officer styled the City Inspector. who has cognizance of all matters affecting the public health, pursuant to the ordinances of the Common Council and the lawful requirements of the Commissioners of Health and of the Board of Health. It has a Bureau of Sanitary Inspection and Street Cleaning, of Records and Statisties, and of Superintendent of Markets. Coroners report to this department all inquests made by them. The Inspector is required to report all births, marriages, and deaths within the city. He also appoints 2 Inspectors and Sealers of Weights and Measures, who hold office upon the same terms as Chiefs of Bureaus. One Street Inspector is appointed to each of the 22 wards, 1 clerk to each of the 11 markets,2 and a keeper and assistant to each of the corporation yards.

1 Castle Garden, (formerly "Castle Clinton,") at the lower point of the Battery, on the Hudson, was granted by the corporation of the city to the United States, in May, 1807, for the purpose of erecting a fortification. The present structure was built soon after; but the foundations were found not sufficiently strong for heavy ordnance, and the site was re-conveyed to the corporation under an act of Congress passed March 30, 1822. The building was subsequently used for the public reception of distinguished strangers, and for concerts, operas, public meetings, the annual fairs of the American Institute, and similar

The Emigrant Refuge and Hospital, upon Wards Island, consists of several large buildings for hospitals, nurseries, and other purposes, located upon a farm of 106 acres. The total number of emigrants who have arrived in the port of New York since 1846 has been 2,486,463, distributed as follows:—

1847	129,061	1851	289,515	1855	136,233

The principal market for wholesale is the Washington Market; and thither most of the teams from the surrounding country resort for the sale of produce. The principal has market is adjacent to Fulton Market, where facilities are provided for unloading fishing vessels. The immense supply of animal food required by the population of New York has led to enormous investments of capital for the production, and corresponding arrangements for the bringing forward, of this class of provisions. Cattle are now seldom driven to market on foot. Illinois is the greatest beef producing State in the Union, and its market cattle are brought by x. R., stopping on the way only 3 or 4 times to rest and feed. About \$12,000,000 are annually expended by New York and its suburbs for beef alone. The measures taken for supplying the city with fish oysters, and game are correspondingly great, and have each in their several departments led to organized systems for furnishing their proportion with great regularity and in quantities proportioned to portion with great regularity and in quantities proportioned to the demand.

The markets for live stock in New York are provided entirely by individual enterprise; and the principal ones are now on 44th St. and 5th Avenue. The great market days are Tuesdays and by individual enterprise; and the principal ones are now on 44th St. and 5th Avenue. The great market days are Tuesdays and Wednesdays; and, since supplies can reach the city at all seasons with equal facility, the amount is distributed throughout the year in a proportion nearly uniform. This market occupies 14 acres, and has 150 yards, and, with its stalls, can accommodate 5,000 bullocks, and an equal number of sheep and calves The largest hog markets are at the w.end of 40th St., and on the Hudson, at the foot of 37th St. There are 2 other market places,—one on 6th St. z. of 3d Avenue, and one in Robinson St., where nearly 450,000 sheep have been sold, besides cows and calves. There are also extensive markets at Bergen Hill.

The criminal courts consist of a Court of Oyer and Terminer, held by a justice of the Supreme Court. a Court of General Sessions, held by the Recorder or city judge, Courts of Special Sessions, held by the police justices, 4 Police Courts, and 6 Justices' or District Courts.

The Burials from the city are regulated by law; and none can take place without a certificate from the Inspector's Department, and a record of the time, cause, and circumstances of the death, as far as can be ascertained.1

The Board of Health consists of the Mayor and Common Council. The Mayor is President. The Mayor, the Presidents of the two branches of the Common Council, the Health Officer. the Resident Physician, the Health Commissioner, and the City Inspectors, are constituted a Board of Commissioners, who render advice to the Board of Health. The Health Officer is appointed by the Governor and Senate. The Mayor, with the advice of the Board of Aldermen, appoints an Inspector of Vessels. It is the duty of the Board of Health to watch over the health of the city and port, and conduct and attend to the business of the Quarantine establishment.²

Ferries are established from New York to Brooklyn, Jersey City, the islands, and to numerous points around the harbor. Up to 1810 the ferry boats were propelled by horse and man power; but during that year steam was introduced, and now it is exclusively used on all important routes. A few of the islands are reached only by row boats.8

The facilities for passing from one point to another in the city are numerous, cheap, and con-

1 The Burial Places of New York were originally around the places is very large.

1 The Burial Places of New York were originally around the churches; and in 1822 there were 22 places of interment s. of the City Hall. The practice was found to be offensive to the senses and prejudicial to the public health, and was accordingly prohibited in the older parts of the city. The plan of marble cemeteries within the city was proposed, and two were constructed between 2d and 3d Sts. and the Bowery and 2d Av. These contained 234 and 156 vaults respectively, were built entirely of stone, and intended to receive each a large number of bodies. The plan was found unsuccessful, and soon after was superseded by that of rural cemeteries. This appropriate custom, introduced at Greenwood in 1842, has led to the laying out of many similar grounds, each rivaling the other in beauty of location and in plans for the adornment of the resting places of the dead. The principal of these are Greenwood, Cypress Hills, Evergreens, Mount Olivet, Calvary, Citizens' Union, Friends, Shearith Israel, and Washington, on Long Island; Trinity, on New York Island; Beechwood, at New Rochelle; Dale, at Sing Sing; Oak Hill, at Nyack; and Machpelah, in West-hesster co.; and New York Bay and others, in New Jersey. The Potters' Field belonging to the city is on Wards Island, By an ordinance of Feb. 3, 1831, no burials are allowed s. of 86th St.; and Trinity Church Cemetery, embracing 23.94 acres 86th St.; and Trinity Church Cemetery, embracing $23\frac{9.4}{100}$ acres between the Hudson and 10th Av. and 153d and 155th Sts., is the principal one now in use on the island. It was purchased in 1842.

² Pestilence has on several occasions committed frightful ravages among the population of the city. Among these visitations the following are worthy of record:—

1702.—A pestilence, probably yellow fever, was brought from St. Thomas, of which 500 died up to Sept., and 70 more during the first week of that month, out of a population of 6,000 to 7,000.

1732.—In autumn an infectious fever prevailed, of which 70 died in a few weeks.

1743.—A "bilious plague" broke out, of which 217 died in one season. It was confined to swampy ground. This is the first official report on mortality to the Mayor.

1745.—Malignant yellow fever prevailed.

1747.—The bilious plague re-appeared.

1794.—The yellow fever prevailed, of which 200 died.

1794.—Yellow fever again appeared, occasioning much alarm,—
though only 20 to 30 died.

500 were foreigners recently arrived.

1797.—The yellow fever occasioned 45 deaths.

1798.—Memorable for its pestilence,—probably yellow fever,—which appeared in New York in the first week in August, and proved fatal to 2,086 persons, of whom 1,110 were men, 589 women, and 885 children.

1799.—Yellow fever again prevailed, but much less aggravated.

1799.—Yellow fever again prevailed, but much less aggravated.
1801.—About 160 died of yellow fever.
1803.—From 600 to 700 died in New York of yellow fever.
Since this year regular statistics of mortality for the
city are preserved for each year, from which it appears
that yellow fever in 1805 destroyed 270, and in 1822,
166; and that cholera destroyed 3.513 in 1832; 971 in
1834; 5,071 in 1849; and 374 in 1852. The mortuary
tables show during the 50 years ending with 1853 a
total of 364,698 deaths.

The ferries running to and from New York are under the exclusive jurisdiction of the corporation, and derive their authority by lease, usually for a term of years. The following is a summary of those now running:—

venient, and the establishment of all of them is so recent as to be within the memory of every adult citizen. They consist of 5 city rail roads and 29 lines of omnibuses.\(^1\) Since the introduction of rail roads and the multiplication of steam ferries and steamboat routes, a large number of persons transacting business in the city have been enabled to provide residences in the country adjacent, where they can enjoy the comforts and luxuries of a rural home without a sacrifice of business interests. A large proportion of the inhabitants of Brooklyn, and great numbers residing within 30 mi. of the city, on Long Island and Staten Island and in the adjacent parts of Westchester county and New Jersey, are in this manner closely identified with the business of the city, and might in one sense be included in its population. New York and its immediate suburbs are thus so united in interests that they virtually constitute one great metropolis, and would probably at this time number, within a radius of 10 mi. from the City Hall, about a million and a quarter of inhabitants.2

The institutions of New York designed to meet the intellectual and social wants of the people in extent and variety have no equals in America; and many of them surpass all similar institutions in the world. These institutions, noticed under special heads, are devoted to education, both general and special, to benevolent objects in various forms, to religion and morality, to intellectual culture. and to the promotion of the useful and fine arts. They do not strictly all belong to the city, nor do they adequately represent the wants of the city population. Many of the schools and other institutions, from their peculiarities and excellence, attract great numbers from abroad; and, on the other hand, a great number of educational institutions in the adjoining counties depend for support almost entirely upon city patronage. A reciprocity of interests between city and country is thus kept up in intellectual as well as in business affairs.

The Public School System of New York now constitutes one of the most important interests of the city, both in regard to its effect upon the social position of the people and in the amount of its annual expenditures. There were reported, at the close of 1858, a free academy³ for the complete collegiate education of boys, 4 normal schools for the instruction of teachers, 57 ward schools, including 51 grammar schools for boys, 48 grammar schools for girls, and 55 primary departments for both sexes; 35 primary schools, 42 evening schools, of which 23 are for males and

² Most of the suburban districts of New York within this State are particularly noticed in this work in the counties and towns are particularly noticed in this work in the counties and towns in which they are located. Jersey City, which has grown up within a few years, had, in 1855, 21,715 inhabitants. It is the terminus of the New Jersey R. R., connecting with lines s. and w., and the Union R. R., connecting with the New York & Erie and the Northern New Jersey R. R. It is the landing place of the Cunard steamers, the seat of important manufactures, and the residence of multitudes doing business in New York City. the residence of multitudes doing business in New York City. Hoboken City is also a place of considerable importance from its proximity to the city. It had, in 1855, 6,727 inhabitants. Hudson City, in the rear of these, had 3,322 inhabitants; and numerous other places along the Hudson in N. J. are receiving attention as desirable places for homes.

3 The Free Academy was established by an actof May 7, 1857, subject to a popular vote, which gave 19,404 for and 3,409 against measure. An edifice in the gothic style of the townhalls of the Netherlands, 80 by 100 ft., was erected on Lexington Avenue, corner of 23d Street, in 1848, with accommodations for

19 for females, and 11 corporate schools. In the same year there were employed 1,729 teachers. -of whom 440 were males and 1,289 were females.

The Public Schools are managed by a Board of Education, consisting of two commissioners from each ward. The local affairs of each ward are managed by local Boards of Trustees. The present system was organized under an act of 1812; but it has been modified by various acts since. In 1853 the Public School Society was dissolved and the schools under its control were merged in the ward schools of the city. The Board of Education distributes its duties among committees, and appoints a City Superintendent to exercise a general supervision over the schools.2

Academies and Colleges. There are in the city 3 academic institutions, 2 colleges, 4 medical colleges, 2 theological schools, and a great number of schools for perfecting students in special branches of education.3 In addition to the schools sharing in the distribution of the school fund, there are a great number of mission, charity, parish, denominational, and private schools, of

1.000 pupils. The cost of the grounds, buildings, furniture, apparatus, and library was \$100,801.48; and the cost of maintenance to Jan. 1, 1859, was \$33,238.17. The students and the graduates in each year have been as follows:-

	1849.	1850.	1851.	1852.	1853.
Students Graduates	201	285	383	498	536 17

Applicants for admission to this school must reside in the city, be 14 years of age, and must have been students in the common schools 12 months, and must sustain an examination in the ordinary English studies. The school has a 5 years' course of study, and its graduates receive the degree of A.B. Several medals and money prizes have been endowed, and socie-ties of students and alumni have been formed.

2 The "Free School Society," afterward the "Public School Society," was founded in June, 1805, and its first school was opened May 17, 1806. During its long career this honored society disbursed millions of dollars of public money, afforded education to 600,000 children, and fitted 1,200 teachers at its normal schools. It twice tendered its property to the city authorities to satisfy a popular objection that so much property should not to satisfy a popular objection that so much property should not be managed by a corporation; but in both instances the tender was declined. After the society was dissolved, its books and papers were deposited with the New York Historical Society. Its real estate used for school purposes consisted of 15 public schoolhouses, a trustees' hall on Grand Street, and a workshop on Crosby Street.—Dissolution of Pub. School Soc. and Rep. of

Columbia College was chartered as "King's College" Oct. 31, 1754, and under the Colonial Government was aided by a lottery, grants of lands, and liberal private donations from England.
A plot of ground between Murray, Barclay, Church, and Chapel Streets was given by Trinity Church for the college site, and the corner stone was laid July 23, 1756. The building was finished in 1760, and during the Revolution it was used for a hospital. In 1792 the trustees established a medical school, and pital. In 1792 the trustees established a medical school, and sustained it until 1813. The college remained in its first location until the premises were greatly enhanced in value by the growth

of the city and the spread of commercial establishments around of the city and the spread of commercial establishments around and beyond it. An act was passed March 19, 1857, untorizing the purchase of another site for college purposes, in accordance with which the grounds at the foot of Park Place were sold for \$596,650, the college still retaining many lots on Barclay Street, Park Place, Murray Street, and College Place, which are rented for long register. \$506,650, the college still retaining many lots on Barclay Street, Park Place, Murray Street, and College Place, which are rented for long periods, and whose prospective value it is impossible to estimate. The premises lately owned by the Trustees of the Deaf and Dumb Asylum on 49th Street, near 4th Avenue, were purchased, with 4 other lots, for \$55,366.10, and fitted up at a total cost of \$114,336.01. This change is understood to be only a temporary one, the ultimate intention being to locate on the premises of the Botanical Garden, between 47th and 51st Streets, on 5th Avenue. This garden, originally embracing about 20 acres, was laid out by Dr. David Hosack, early in the present century, for the introduction of exotic plants, experiments in agriculture and horticulture, and the promotion of science The Governor, in his message of 1806, commended the object as worthy of public aid. In 1810 a memorial from the corporation of New York, the County and State Medical Society, and the Governors of the New York Hospital was addressed to the Legislature, in pursuance of which the Garden was purchased for \$73,000, upon the appraisal of 3 commissioners, and placed in charge of the Regents of the University. The latter placed it in the hands of the Trustees of the College of Physicians and Surgeons, April 1, 1811. In 1814 it was granted by the Legislature to Columbia College, upon the condition that within 12 years the College should be removed thither; but in 1819 this condition was rescinded, and \$10,000 was given to the College is at this moment perhaps the wealthiest in the Union, with this important feature: that its wealth is not coupled with irksome conditions and provisions, but left free to the discretion of its trustees. A grammar school has been coupled with irksome conditions and provisions, but left free to the discretion of its trustees. A grammar school has been many years connected with the College.

The University of the City of New York, located on the E. side of Washington Square, occupies a fine marble building in the English collegiate style of architecture. It is 100 by 200 ft. on the ground; and besides the portion occupied by the College, it contains rooms leased to societies, artists, and professional persons. This College grew out of a discussion with regard to a sons. This College grew out of \hat{a} discussion with regard to a University on a more extended plan than any in the Union. A convention of literary and scientific gentlemen was held in the fall of 1830, and in that year a subscription was opened to raise \$100,000 for the establishment of a University. A heavy debt depressed it until 1854. It has a Preparatory, a Collegiate, and a Professional Department; the last embracing 5 schools,—viz.: of Art, of Civil Engineering, of Analytical and Practical Chemistry, of Medicine, and of Law. It has a total of 38 professors and 165 students.

The College of Physicians and Surgeons is located on 23d St. and 4th Avenue. The site and grounds are leased with privilege of purchase, and funds derived from the proceeds of the sale of the building on Crosby St., formerly owned by it, have been

The edifice now used is 75 by 100 ft., and is valued at \$90,000. The first story is leased for stores. The College was incorp. by the Regents in 1807, by virtue of an act passed March 21, 1791. Lectures were first held in 1807–08. The Medical Department of Columbia College was merged in this Nov. 1, 1813. The College has 2 courses of lectures annually, and a library of 1,200 volumes.

The University Medical College, formed under an act of [Feb. 11, 1837, as a branch of the University of New York, is located on 14th St. between Irving Place and 3d Avenue. The building is 80 by 103 ft., 4 stories in front and 5 in rear, and is valued at \$50,000. Its charter provides that 5 students of the Free Academy shall be admitted free of charge except the matriculation fee. Its library numbers 5,000 volumes, and its museum is valued at \$25,000. Two courses of lectures are delivered annually.

The Academy of Medicine was formed in 1847 and incorp. in 1851. It meets monthly at the University, and sends 5 representatives to the State Medical Society. There are several other medical and surgical societies in various parts of the city.

The General Theological Seminary of the Prot. E. Church of the U.S. was established at New Haven in 1819 and removed to this city in 1822. It was incorp. April 5, 1822, and is well endowed. Its library numbers over 12,000 volumes. It occupies 2 handsome stone buildings, each 50 by 110 ft. on 20th St., between 9th and 10th Avenues. Its trustees consist of the Bishops of the U.S. and others appointed in proportion to moneys granted to the seminary.

The Union Theological Seminary (Presb.) was founded in 1836, and incorp. March 27, 1839. It is located in Waverly Place, on 8th St., and near Washington Square. It has a library of 16,000 volumes. Its Board of Directors are clergymen and laymen, an equal number of each, elected for 4 years.

Commercial colleges, writing schools, and studios for instruction in the fine arts, are numerous. (See p. 748.) 1 The Protestant Episcopal Public Schoot was founded in 1710, and has continued until the present time. At some future time it will be largely aided by a bequest made Sept. 20, 1796, by Dr. John Baker, who, having no heirs, devised his country seat near 80th St., on the East River, embracing 46 acres, for a charity school. With a prudent forecast, the testator preserved the property from sale until after the death of 9 persons then living; and the dense part of the city has already approached the premises. An act passed April 16, 1859, authorized the sale of portions, but no benefit has hitherto been received. In April, 1859, 3 of the 9 lives were existing.

New Fork Weekly Journal, the second paper in the Colony, was commenced in New York in 1735 by John Peter Zenger. He died in 1746, and the paper was conducted by his widow, and afterward by his son, until 1752, when it was discontinued. This paper opposed the administration of Governor Crosby and supported the interest of Rip Van Dam, who had previously conducted the administration. The ballads, serious charges, and, above all, the home truths in his democratic journal irritated Crosby and his Council to madness. Zenger was confined several months by order of the Governor and Council for printing and publishing seditious libels, treated with unwarrantable severity, deprived of pen, ink, and paper, and denied the visits of his friends. The popular feeling, however, was strongly against these proceedings. The Assembly, notwithstanding the application of the Governor, refused to concur with him and his Council. The Mayor and the magistrates also refused to obey the mandate of the Governor and Council, and to attend the burning of the libelous papers "by the common hangman and whipper, near the pillory." The grand jury manifested equal contunuacy, and ignored the presentment against Zenger. The attorney general was then directed to file an information. The judges refused to hear and allow the exceptions taken by Zenger's counsel, and excluded them from the bar; but he was ably defended by other counsel, and especially by Andrew Hamilton, then a barrister of Philadelphia. Zenger pleaded not guilty. His counsel admitted the printing and publishing of the papers, and offered to give their truth in evidence. The counsel for the prosecution then said, "The jury must find a verdict for the king;" and gave the usual definition of a lib

The Benevolent Institutions of New York are numerous, and comprehend measures for the relief of nearly every variety of human suffering. Those under the direct charge of the city have already been noticed. The greater part of other institutions of like character are under the management of companies incorporated for limited and special objects. Prominent among these are the hospitals and dispensaries, affording relief to every class of the sick and distressed. Up to 1857, at these various institutions, 179,377 persons had been vaccinated; 1,666,559 patients had been treated; and \$297,761.60 had been expended. The Legislature usually appropriates money to several of these institutions.\(^1\) Several of the more important of the benevolent institutions are supported wholly, or in part, by the State, among which are the Deaf and Dumb Asylum,2 the Institution for the Blind, and the Society for the Reformation of Juvenile Delinquents.

'1 The New Fork Hospital, founded in 1770, was incorp. June 13, 1771, and is under the care of 26 governors. It has two very extensive establishments,—the hospital proper, upon Broadway, between Worth and Duane Sts., and the Bloomingdale Lunatic Asylum, on 117th St. near 10th Avenue. The first hospital, poul while still unfinished was occupied by British and Hessian troops for barracks, and it was not finally opened for patients until Jan. 3, 1791. On the 14th of March, 1806, the Legislature enacted that \$12,500 should be given to the hospital annually for 50 years, on condition that apartments for various forms and until Jan. 3, 1791. On the 14th of March, 1806, the Legislature enacted that \$12,500 should be given to the hospital annually for 50 years, on condition that apartments for various forms and degrees of insanity should be prepared, and that an annual report be made to the Legislature. The sum thus appropriated was to be chargeable upon duties on auction sales. In 1801 a lying-in ward was opened, and continued 20 years. In 1806 the lunatic department was organized, and one of the buildings of the present hospital was erected; but in 1816 a change of site was authorized. A library was founded in 1796, and a pathological cabinet in 1840; but a suitable building was not provided for the latter until 1856. In 1833 a new and spacious building, s. of the main hospital, was erected, upon a plan the most perfect that experience could devise. It was finished in 1855, at a cost of \$140,103.92. Clinical instruction, both medical and surgical, has long been given; and two operating theatres have been provided for this purpose. The hospital on Broadway is now limited to the receiving of cases of sudden injuries from accident, and non-contagious diseases in which there is prospect of improvement; and it is not intended for the support of the incurable, or to supply in any sense the place of a poorhouse. Those received are either supported gratuitously, or pay at a rate barely sufficient to defray cost of support. The former constitute about 40 per cent. of the entire number treated. Seamen are received and their expenses are paid wholly or in part from the hospital money raid by the U.S. Government. From Feb. 1, 1702 to 40 per cent. of the entire number treated. Seamen are received and their expenses are paid wholly or in part from the hospital money paid by the U.S. Government. From Feb. 1, 1792, to 1856, 106,111 patients had been received, of whom 77,390 had been cured and 4,763 relieved. Of the 10,893 who died, many were brought in from the street in a dying condition. Nearly 4,000 now receive the benefits of the hospital yearly. The Lunatic Asylum, in 1818, was located at Bloomingdale. A building was commenced May 7, 1818, and was opened to patients in June, 1821. The plan comprehends a center building 211 by 60 feet, with 2 detached wings. A wing for the violent insane male patients was built in 1830, and another for the

like class of females in 1837, making the whole cost, up to 1839, \$200,000. In 1854 two spacious 2 story brick buildings were erected, at a cost of \$52,000. From May, 1821, to Jan. 1856, 4,182 patients were received here, of whom 1,911 were cured, 851 improved, and 471 died. The grounds have an extent of about 40 acres, and are finely adapted to outdoor exercise in fine weather. The annual expense of both institutions is about \$146,000. St. Vincent's Hospital, at 102 and 104 E. 13th St., was established by, and is under the care of, Sisters of Charity.

St. Luke's Hospital is located at the corner of 5th Avenue and 54th St. The building was erected in 1854, and is designed to accommodate 230 nations.

The society was formed and a building erected in 1854. The hospital has received a bequest of \$20,000 from the late Mr. Touro, of New Orleans. Woman's Hospital, on Madison Avenue, was established in Feb. 1855, by Dr. J. Marion Sims, and incorp. April 18, 1857, under 27 governors.

2 The New Forle Institution for the Deaf and Dumb was incorp. April 15, 1817, and opened May 12, 1818. It was located in the "New City Hall" until 1839, when it was removed to E. 50th St., corner of 4th Avenue,—the premises now occupied by Columbia College. It there remained until the wants of the institution required more ample accommodations and the growth of the city suggested a retreat from the approaching pressure of business. A fine tract of nearly 40 acres at Fanwood, on the Hudson, on 164th St., was accordingly purchased, and the erection of buildings was commenced in 1853. They are in the aggregate 650 feet in length, and cover 2 acres. The institution has accommodations for 450 pupils. The work was sufficiently advanced to justify removal toward the close of 1856, The cost greatly exceeded the estimate; and under an act of April, 1857, the institution was assumed by the State, with all the property connected therewith. Pupils are received from every co. of the State, and to a limited extent from New Jersey. It is strictly an educational institution, and is designed to impart a useful amount of literary instruction, and the knowledge of some mechanical operation by which to gain support. Dr. Harvey P. Peet has been for many years President of the Institution.

The New York Institution for the Blind, incorp. April 21, 1831, was opened March 15, 1832, principally through the influence of Dr. Samuel Akerly, Samuel Wood, and Dr. John D. Russ. A

The city of New York has a large number of charitable corporations chiefly dependent upon private subscriptions for support; and their management is highly creditable to those who have bestowed their time and money for the relief of the suffering and friendless. Several of these have received aid from the State and the city in their organization and support.1

school with 6 pupils was opened May 19, 1832, at 47 Mercer St., under Dr. Russ. By the aid of fairs and donations from individuals and the city, a piece of ground and buildings on 8th Avenue were obtained of James Boorman at a nominal rent, with a covenant to sell. An instructor in the mechanic arts was procured, and Dec. 2, 1833, the first public exhibition was held at the City Hall. The success in teaching from raised letters and characters, the proficiency of the 16 pupils in reading, geography, arithmetic, and especially in music, and the skill of their workmanship in mats, mattresses, and baskets, excited great interest. The present site, between 8th and 9th Avenues and 33d and 34th Sts., was purchased of Mr. Boorman at a reduction of more than \$10,000 below what it could have been sold for; and on the 30th of April, 1836, \$12,000 was given by the State, conditioned to the raising of \$8,000 more by the managers. In 1839 \$15,000 was given to erect buildings. Annual reports are made to the State Legislature. State pupils have been received since 1834; and for many years the institution has received pupils from New Jersey. The site, originally beyond the improved portion of the city, is now in the midst of a densely settled quarter, and the square which it occupies is valued at \$400,000. The managers are endeavoring to obtain leave to sell and erect new buildings on the upper part of the island. The school with 6 pupils was opened May 19, 1832, at 47 Mercer St., and erect new buildings on the upper part of the island. The proceeds of the sale would, it is believed, procure new and superior premises without other aid. The institution now has 200 pupils, and employs 11 blind instructors and assistants. manual trades taught are broom, mat, bandbox, and mattress making and needle work. Musical instruction is received with great facility by the blind; and with those that evince decided talent it often becomes a means of support. Those of proper age are instructed in the common and higher branches of English

talent it often becomes a means of support. Those of proper age are instructed in the common and higher branches of English education; and the number of books with raised characters now prepared for the blind is quite extensive, including the entire Bible, and volumes upon almost every branch of useful learning. The New York Juvenile Asylum is intended to secure the maintenance and promote the welfare of children under 14 years of age who may be in destitute circumstances. This asylum was incorp. June 30, 1851. Its office is located at 23 W. 18th St., and its temporary asylum is at the foot of E. 50th St. A permanent asylum, erected on 175th St., near High Bridge, was epened April 2, 1856. This society takes children between 7 and 14 intrusted to it by parents, guardians, or other competent authority, and affords them the means of a moral and industrial education. A fund originally of \$50,000, and afterward of \$20,000 in addition, was raised by subscription; and to this \$40,000 was added by the city. The total number sent to the house of reception up to Jan. 1859, was 4,893. Several companies of children are sent annually to the Western States, to be indentured to farmers and others, under the direction of a judicious person. Children are also bound out in the city and vicinity as occasion offers. An act of March 25, 1856, directed a sum not exceeding \$75 per annum to be levied by tax and paid to this asylum for each child committed by the city and supported by the society, and gave \$20,000 toward the erection of a new house of reception on 13th St. The edifice is now nearly completed.

The Society for the Prevention of Pauperism, formed Dec. 16, 1817; after promoting the establishment of the first Savings Bank and other institutions of public utility, resolved itself into The Society for the Reformation of Juvenile Delinquents, Dec. 19, 1823, and measures were taken to carry the purpose implied by the name into effect. An act of incorporation was obtained March 29, 1824; and, having in that year raised \$17,000 and obtained possession of the U. S. Arsenal near Madison Square, the establishment was opened Jan 1, 1825, with 9 inmates. This place was burned in 1839, and the location changed to a building on the East River at the foot of 23d St., erected for a fever hospital. In 1851 the society exchanged a parcel of land it possessed on Wards Island for about 36 acres on the s. end of Randalls Island, where the corner stone of a new building was laid Nov. 24, 1852, by the Mayor. The buildings were opened Nov. 24, 1854. The male department will consist of a central building and 4 wings, of which 2 are parallel to the front of the center building, and form together with it a front of 590 ft. upon the river. The other two wings are to radiate from the center of the rear at angles of 60°; they have not yet been erected. The arrangement admits of the necessary classification and embraces every modern improvement. A workshop 3 stories high and 30 by 100 ft. is erected in the rear of each of the front wings. The female department, when completed, will be on a plan similar to the other, of 250 ft. front, and otherwise proportionally smaller. With the refuse stone obtained in excavation and grading, a sea wall was built out to low water mark; and some seven acres were thus added to the grounds. The entire cost, including the fitting up, to Nov. 1854, was \$310,441.15, of which \$14,190.39 had been for the Female Department. The whole number of inmates from its first and 77 girls. A female department is now in course of building,

and when complete will afford to the whole a capacity for 1,000 inmates. Juvenile offenders from the several counties have been

Numerous institutions of beneficence are established upon the principle of mutual support, all of which derive their means from fixed contributions of members. The number of these is very great, including many which are limited to particular nationalities and to certain mechanical or other occupations.1 The city has a large number of religious associations and societies for the promotion of morality,—some national or cosmopolitan in their field of operation, and others local in their range. While some of these oppose vice and wrong in their widest sense, others restrict their efforts to narrower limits of labor and concentrate upon a single object the united efforts of their members. There are at present about 290 churches in the city of New York,²

Children's Aid Society, office No. 11 Clinton Hall, Astor Place, was formed in 1853. It has for its object to provide homes and employment for destitute children, and, to a limited extent, for adults of both sexes. Up to 1856 it had provided homes for 3.576. In 1857 it sent 468 boys, 200 girls, 28 men, and 37 women to other States. It had opened 6 industrial schools, with a total of 968 pupils, maintained a lodginghouse for newsboys and peddlers, at a low charge, and another one for girls, and had under its direction several boys' meetings and libraries. Its annual expenses are about \$15,000, not including a large amount of gratuitous services.

was formed in 1843, and incorp. Dec. 6, 1848. Its object is to afford temporary relief to such as do not come within the sphere of other existing charities, and to elevate the physical and moral condition of the indigent. To discountenance indiscriminate almsgiving and street begging, it inquires through its visitors into the merits of applications, and for this end has a supervisory council of 5 to each ward, and as many visitors as may be needed. It is supported by annual donations and collections, and in the year ending Oct. 14, 1857, expended \$41,480.88.

The American Bible Society, formed May, 1816, as a national institution, claims notice in this place from the spacious and elegant edifice which it has erected. This structure occupies three-fourths of an acre, and is nearly triangular, extending 198 ft. on 4th Avenue, 202 ft. on 8th St., 96 ft. on 3d Avenue, and 232 ft. on 9th St., with a court within. It cost nearly \$300,000, and contains the offices of numerous religious and denominational societies. Its manufactory of Bibles and Testaments, when in full operation, employs 600 persons. A City Bible Society was formed several years before the one above noticed; and numerous kindred associations have been formed at different periods.

1 Of this class are Masonic, Odd Fellows, and other secret societies who possess funds for the relief of the sick, the support of widows and orphans, and the burial of the dead. Others, limited to particular occupations, some of which have been discontinued, have been chiefly as follows:—

The Marine Society of New York was created by patent April 12, 1770. It has for its principal object to collect moneys, by admission fees and yearly dues of members, for the relief of the widows and orphans of seamen. Up to 1826 it had distributed \$88,100 for these objects. Its meetings are held at the United States Hotel, corner of Pearl and Fulton Sts.; and its chief importance now arises from the circumstance that its president is one of the trustees of the Saliors' Snug Harbor, on Stat

Besides these, there are and have been a great number of societies and unions, particularly among the German, Irish, Italian, and other foreign classes, and among the Jews and other denominations, concerning which it is difficult to procure full statistics, or even the names. The "George Clinton Society," Washington Benevolent Society," "Tammany Society," or "Columbian Order," (the latter founded in 1805, and still existing,) are among those memorable for their political influence; the "Society of Cincinnati," for its Revolutionary associations, and the "Wilberforce Philanthropic Society," "Manumission Society" of 1785, "Society for the Relief of Imprisoned Debtors," and a great variety of others, for their labors in the field of charities, but which have disappeared with the abuses they combated, and their elements re-organized under other names, for new labors which the misfortunes, vices, and crimes of mankind are constantly providing,

The Reformed Dutch Church retained the ascendency until 1664, when the chapel in the Fort was devoted to the English service. Trinity, formed in 1697, received grants of property from the Government, which by the subsequent growth of the city have become enhanced in value beyond parallel in America, if not in the world. Its revenues are usually considered adequate not only for the support of its several chapels and other edifices of worship, but for aiding liberally the poorer churches of this denomination throughout the country. Its income, already very large, will in a few years be greatly increased as leases at a low rate for long periods expire and the property is again offered for lease. The library was mostly scattered during the Revolution; but its charter was revived Feb. 18, 1789, and the Revolution; but its charter was revived reb. 16, 1783, and the books as far as possible were recollected. It was at first kept in the City Hall. In 1793 it was removed to a building in Nassau St., afterward to Chambers St., and in 1840 to a new building corner of Broadway and Leonard Sts. It was afterward moved to the Bible House, and in 1857 to its present quarters, University Place, between 12th and 13th Sts. The library building is a fine edifice, and the library now contains

40,000 vols. The New York Historical Society was organized Dec. 10, 1804, and incorp. Feb. 10, 1809. After occupying rooms many years in the New York University Buildings, it was removed in 1837 to a new, fireproof building on 2d Avenue, corner of 11th St., which was dedicated Nov. 17 of that year. The Mercantile Library Association, at Clinton Hall, Astor Place, was organized in 1820, and has a library, reading room, lecture room, and cabinet. It was originally intended for the use of merchants' clerks, but is now accessible to all. The Astor Library was founded upon a bequest of \$400,000 made by John Jacob Astor in his will, Aug. 22, 1839. Its trusces organized in May, 1848, and employed Dr. Joseph G. Cogswell to visit Europe for the purchase of books. On the 10th of Dec. 1849, they adopted a plan for an edifice, 120 by 65 ft., which was opened to the public Feb. 1, 1854. On the 31st of Oct. 1855, Wm. B. Astor presented to the trustees a lot, 80 by

100 ft., adjoining the library, upon which has been erected a building similar to the first, the two forming the most spacious library rooms in America. The buildings will contain 200,000 volumes, and half that number are already in the library. This noble institution is situated on La Fayette Place, in a quiet quarter of the city, and is open to all without charge. Books are not allowed to be taken from the rooms. The trustees are required to report annually to the Legislature.

The New York Academy of Music, corner of Irving Place and 14th St., was incorp. April 10, 1852. The building is 121 ft. by 114 ft., and will seat 4,000 persons. It is richly decorated, and is constructed with express reference to fine acoustic effect. The cost is estimated at \$350.000.

present century.1 The completion of the Erie Canal gave an impetus to its growth and greatly increased its business transactions. The commerce of the city, without a parallel on the Western continent, has already been noticed in the general article upon the commerce of the State. The financial institutions are of a number and magnitude commensurate with its wants as the great center of commercial wealth in the nation.2

The manufactures of the city form one of the most important branches of the industry of the inhabitants. They embrace nearly every variety of article produced in the civilized world, and the aggregate capital employed is very great. The last State census reported 2,424 manufacturing establishments. In single instances the capital invested exceeds a million of dollars, and the number of persons dependent upon these large establishments for employment extends to several The above estimate does not profess to include the minor trades, in which little is invested beyond an industrial education and a small stock of implements and materials, but which in the aggregate amount to considerable sums. A large number of manufacturing establishments legitimately belonging to the city are located in the several suburban places for economy of rent and for room; and if these were added to those located in the city the aggregate would probably be nearly equal to that of the most noted manufacturing cities of Europe.

The Public Buildings of New York are many of them elegant and substantial structures, combining strength and durability with architectural beauty. Among the most noted of these is the U. S. Custom House, the Merchants' Exchange, and the City Hall.3

first movement toward a savings bank was made Nov.

The first movement toward a savings bank was made Nov. 29, 1816, when at a public meeting the plan was discussed and approved. The first deposits were made July 3, 1819, and within six months \$153.378.31 had been deposited by 1,527 persons, and of this sum \$6,606 had been withdrawn. Up to 1857, \$47.530,067.61 had been deposited in these institutions. They owe their origin to the Society for the Prevention of Pauperism.—Common Council Minual, 1858, 6.24.

The Clearing House Association was formed Oct. 1, 1853, for the purpose of facilitating the settlements of banks with each other. Its office is on Wall, corner of William St. The arrangements are so perfected that the entire daily settlements of all the banks in their immense transactions with each other are made in six minutes. The whole amount of bank funds which passed through this institution up to Aug. 31, 1858, was \$30,675,933,656.56; and during that period so perfect has been \$30,675,933,556.56; and during that period so perfect has been the system of balances that the error of one cent has never

Fire Insurance Companies, to the number of 75, with an aggregate capital of \$17,654,000, are located in the city. Besides

these, a large number of agencies for companies in other States and in foreign countries are established in the city. The amount of capital invested in marine, life, and other insurance companies is not known, as no general reports are published. A list of these companies is elsewhere given. There are also several trust companies, with large capital, and a very great number of companies, associations, and individuals engaged in the business of banking and exchange, of which no statistics

the business of banking and exchange, of which no statistics are attainable.

The Chamber of Commerce was instituted in 1768, and incorp. by patent March 13, 1770. It probably owes its origin to the necessity felt toward the close of the colonial period, of concerted action to protect the interests of trade against the usurpations of the British Government. Its rights were confirmed April 13, 1784, and it has since continued in operation without material interruption. Its objects are to adjust disputes and establish equitable rules concerning trade, and to operate upon public sentiment in the procuring of such acts and regulations as the commercial interests require. Within a short time it has commenced the formation of a library of statistical and commercial works, and opened rooms sufficiently ample and convenient for the wants of the association. Its first report was publised in 1859.

3 The Custom House, located on Wall St., on the site of the old Federal Hall, is a marble structure, in the Greek order of architecture, with a Doric portico at each end. It has a marble roof, and is fireproof throughout. It was commenced in May, 1834, and finished in May, 1841, at a cost of 350,000.

The Merchant's Exchange, on Wall St., built of Quincy granite, is 171 by 144 ft., and 77 feet high. A portico in front is supported by 18 Ionic columns, 38 feet high, each formed of a single stone weighing 45 tons. The rotunda is 80 ft. in diameter and 80 ft. high. The building is owned by an incorporated company, and cost over \$1,000,000.

The City Hall, on the Park, is 216 by 105 ft., with two stories

The City Hall, on the Park, is 216 by 105 ft., with two stories and a high basement. It is built in the Italian style, and is faced with marble except on the north side. It was begun Sept. 26, 1803, and finished in 1812, at a cost of over half a million of dollars. The upper story and cupola were burned Aug. 17, 1858, and have since been rebuilt. It is occupied by the Common Council, County Clerk, and various city and county offices. The first City Hall. built in 1698, stood on the present site of the Custom House, at the head of Broad St.

The Hall of Records, on the Park, is chiefly interesting from its historical associations. It was formerly the debtore' prison, and in the Revolution it was the prison into which American prisoners were crowded, and from which great numbers were taken to execution. In 1832 it was a cholera hospital. The Fukunda, on the Park, was built by John Vanderlyn in 1818, for the exhibition of panoramic views, and is now an office of the Almshouse. It reverted to the city at the expiration of a tenyears' lease.

The Halls of Justice, or "The Tombs," on Center St., is a structre built of Maine granite, in the Egyptian style of architecture. It is a hollow square, 252 by 200 ft., with a large central building. It was erected in 1838. Executions take place in the open courts

It was erected in 1855. Executions take place in the vyew within its walls.

The New Armory, or Down-Town Arsenol, corner of White and Elm Sts., is 131 by \$4 ft. and 2 stories high. It is built of blue stone, and is supplied with narrow windows for easy defense against mobe. It is used as a receptacle for a part of the artillery of the lat Division N. Y. State Militia, and as a drill room.

The Commercial Buildings and Private Residences of New York are many of them on a scale of great magnificence. The first of these are built of marble or a beautiful kind of brownstone; and in the upper part of the city are numerous streets which for miles present unbroken lines of palatial residences. Within the past few years a great improvement has taken place in the character of the commercial buildings erected, and many of them now in size and ele-

gance have no superiors in the world.1

The Bay of New York was first discovered by Henry Hudson, then in the employ of the Dutch East India Co., Sept. 12, 1609. A settlement was made upon Manhattan Island by a company of Dutch traders, under the auspices of the West India Co., in 1612; but no permanent agricultural occupation began until 1623. During this year 30 families of Walloons from the Flemish frontiers, and a number of domestic animals, were sent over to form the nucleus for the permanent occupation of the country. Sarah de Rapalje, a child of one of these families, born soon after their arrival, was the first white child born in New York. In 1626, Peter Minuet, the first Dutch Governor of the colony, purchased Manhattan Island of the natives for \$24, and during the same year he caused a fort surrounded by cedar palisades to be erected. A new fort was begun in 1633 and was finished 2 years after.2 The Colony of New Netherlands increased slowly; but in 1652 a feud arose between the company and settlers, which continued during the entire period of the Dutch occupation. The interest of the company was solely to make money by their operations; and they pursued their object by the exercise of an arbitrary power and without any regard to the prosperity of the settlers. This controversy tended greatly to develop democratic sentiments in the hearts of the people, and prepared them for the events which subsequently happened. In 1664 the colony fell into the hands of the English, and a new immigration took place, which materially changed the character of the population. A city charter, granted in 1652 and confirmed in 1686, secured many of the privileges since uninterruptedly enjoyed by the people, and formed the basis of all subsequent enactments. From the English conquest to the Revolution the history of the city is merged in that of the State and has no features of special interest.

Trade and commerce have been from the first the leading elements of the industry and wealth of the city, and in colonial times every measure of Government tending to embarrass trade occa-

It was constructed very poorly, and was hardly finished before it began to tumble down From a part of the proceeds of this property a new arsenal was built, in 1858, corner of 7th Avenue and 35th St.; but, before it was finished, the roof, constructed on a novel plan, fell in by its own weight on the morning of Nov. 19, 1858

The Post Office occupies the old stone edifice of the Middle Dutch Church, on Nassau, Pine, and Liberty Sts. It is small and inconveniant, and poorly adapted for the purposes of a post office. In the Revolution the pews of the church were broken up for fuel, and the building was used as a prison, and at one up for fuct, and the building was used as a prison, and at one of time as a riding school. The project of a building for a post office on or near the Park has been agitated; but there is at present no arrangement tending to that result.

The Assay Office occupies an unassuming marble building adjacent to the Custom House, formerly one of the branches of the United States Bank. Its operations are elsewhere noticed.

See p. 122.

1 Under the first race of colonists the style of architecture was an exact copy of that prevailing in Holland; and for many was an exact copy of that prevaining intolaint, and to handy years New York was noted for buildings with peaked gables, tiled roofs, and high, wooden stoops. After the English conquest, a greater variety in style was introduced. Of late years the march of improvement has completely obliterated the old style of houses, and scarcely a vestige of the olden time re-New York now remaining is a vestige of the olden time remains. One of the most interesting relies of the infancy of New York now remaining is a venerable pear tree at the corner of 13th St. and 3d Avenue, formerly on the farm of Governor Peter Stuyvesant. It is widely known as "The Stuyvesant Pear Tree."

2 The first fort was built in the rear of Trinity Church, near the river, and portions were found in 1751 by some workmen in digging through a bank. The next fort stood on what is in digging through a bank. The next fort stood on what is now the Bowling Green, then a high mound of earth overlooking the bay and adjacent country. A threatened invasion by the forces of Cromwell, in 1653, led to the construction of an embankment and ditch across the then N.line of the city. This fortification extended along the present line of Wall St.; and from it that street derives its name. In 1692 a war with France occasioned a further attention to the defenses of the city, and led to the erection of a battery on the rocky point at the s. end of the island. A stone fort, with 4 bastions, afterward built at the same place, included most of the Government offices, and bore the name of the reigning sovereign for the time being. It remained until finally taken down in 1788. In the summer of remained until finally taken down in 1788. In the summer of 1776, while an attack was expected from the British army, the city was strongly fortified. On the s. point was the Grand Battery, of 23 guns, with Fort George Battery, of 2 guns, just above it and near the Bowling Green. McDougall's Battery, of mustered in one body in America.

4 guns, was built on a little hill near the North River, a little w. of Trinity Church. The Grenadiers' or Circular Battery, of 5 guns, was above, and the Jersey Battery, of 5 guns, on the left of the latter. On the E. of the town were Coenties Battery, of 5 guns, on Ten Eyck's wharf; Waterbury's Battery, of 7 guns, at the shipyards; Badlam's Battery, of 8 guns, on Rutgers Hill, near the Jews' burial ground; Thompson's Battery, of 9 guns, at Hoorns Hook, and the Independence Battery, on Bayards Mount, corner of Grand and Center Streets. Breastworks were erected on Governors Island, Paulus Hook, Jersey City, Brooklyn Heights, and Red Hook. During the War of 1812-16 great apprehension prevailed at several times, and during the first year bodies of militia were stationed in New Utrecht and on Staten Island to repel any attempt on the part of the enemy first year bodies of militia were stationed in New Utrecht and on Staten Island to repel any attempt on the part of the enemy to land. Subsequently, fortifications were begun at Harlem, and in Brooklyn volunteer companies were formed, and the citizens generally became familiar with the discipline of the camp and the duties of the soldier. In Aug. 1814, for the purpose of constructing a line of fortifications to prevent the expected approach of the enemy, it was arranged that 3 military companies of Brooklyn should turn out to work on Monday, 3 military companies and 1 fire company on Tuesday, the people companies of Brooklyn should turn out to work on Monday, 3 military companies and 1 fire company on Tuesday, the people of Bushwick on Wednesday, of Flatbush on Thursday, of Flat-lands on Friday, of Gravesend on Saturday, of New Utrecht on Monday, and the Mechanics' Society of Brooklyn, the military exempts, and 2 fire companies, on Tuesday. The patriotic diggers crossed the ferries every morning with banners and music, and large parties worked in the night by moonlight. The citizens of New York were not behind their neighbors in patriotism, and numerous volunteer associations pressed their services unon the Committee of Defense, without rezard to party patriotism, and numerous volunteer associations pressed their services upon the Committee of Defense, without regard to party or station in life, and the rich and the poor wrought together with the most patriotic emulation. Many gave money freely to the work, and these zealous labors continued so long as there appeared reason to anticipate danger. During the same month the General Government made a requisition for 20,000 militia from New York and New Jersey to repel an attack which was reported to be in preparation. The funds to meet the expenses were raised by the city, but were repaid by the General Government the next year. Four hundred heavy cannon were mounted on the various forts, and large quantities of ammunition were collected. The fleet in charge of Commodore Decatur was also prepared for the emergency; and it is probable that these prompt preparations saved the city from an attack. Toward winter the hostile fleet bore off to the south, and the enemy closed their operations before New Orleans. On "Evacuation Day" in 1814 the Governor reviewed 25,000 troops in New York.—a larger number than ever before or since mustered in one body in America.

sioned great uneasiness. This city was among the first to feel the effects of the arbitrary measures of Great Britain, and was among the earliest to resist their tendencies.1 The aristocratic element was probably stronger in this city than in any other part of America; and this was arrayed in favor of the British measures and against the "Sons of Liberty." Many prominent citizens, who had warmly sympathized with the popular movement in the hope of gaining redress of grievances, at length yielded their opposition when there appeared no alternative but war, and continued active or quiet friends of the Royal Government while it lasted. Several members of the first Provincial and Continental Congress afterward became friends of the king. The British forces took possession of the city immediately after the battle upon Long Island, Aug. 26, 1776, and remained until Nov. 25, 1783. The anniversary of this last event, known as "Evacuation Day," is still held in grateful remembrance, and is usually celebrated by military parade or other cere-

In 1785 the first Congress of the United States after the war met in this city and held its sessions in the City Hall, corner of Wall and Nassau Streets. In the gallery of this building, facing Broad St., Gen. Washington was inaugurated first President, April 30, 1789. The New York Legislature returned to this city in 1784 and continued its sessions with intervals until finally removed to Albany with the State offices in 1797. The Port of New York was made a port of entry soon after the peace. Its revenues were collected under the State Government till 1789, but have since formed a most important source of income to the Federal Government. The receipts from customs at this port considerably exceed those of all the other commercial cities of the Union general prosperity the city has had seasons of adversity. At different times destructive fires have occurred, which have for a time seriously retarded business.

1 The principal events which occurred in the city during the troubles leading to the Revolution are briefly as follows:—
1765, "Sons of Liberty" were organized to oppose

the Stamp Act.

1765, Oct. 31.—A committee of correspondence with other colo-

nies was appointed.

1765, Nov. 1.—The Stamp Act took effect, and popular excitement became extreme. The Lieut Governor was burned in effigy before the fort.

1765, Dec. 26.—The ship Minerva was boarded by the Sons of Liberty in search of stamp paper. The paper was traced to a brig soon after, and ten packages were seized and burned.

1766, June 29.—The Assembly petitioned for a bronze statue of Pitt to be erected.

1766, Oct. 18-22.—The liberty pole on the Common (Park) was repeatedly destroyed, and there was imminent danger of a collision between the populace and the troops.

1770, Jan. 13.—New attempts were made to destroy the liberty pole, and the soldiers became riotous.

"Jan. 17.—At a meeting of 3.000 citizens, resolutions were

passed not to submit to the acts of oppression.

Jan. 18.—A collision took place between the soldiers and citizens at Golden Hill.

citizens at Golden Hill.

Jan. 30.—The Corporation forbade the erection of a new liberty pole, and the people soon after planted one on their own land, inscribed "Liberty and Property."

May.—Another attack was made upon the pole, which excited great indignation, and led to its being nightly cuarded, until May 3.

May.—A committee of 100 was formed to resist the importation of goods under the obnoxious laws; but they receded from their purpose July 9, and agreed to import every thing but tea.

Aug. 21.—A leaden equestrian statue of George III. was erected in Bowling Green. This statue was erected in Bowling Green. This statue was
thrown down by the populace on the receipi
of the Declaration of Independence. July 10,
1776. It was subsequently melted up into
bullets in the family of Gov. Welcott, of
Connecticut. It is said that 42 000 bullets were
made from the metal, and these did service
against 400 British soldiers afterward sent
into Conn. by Gov. Tryon.

"Sept. 7.—A marble statue of Pitt was placed in Wall
Street, in gratitude for his services in the repeal of the Stamp Act. In consequence of the
course of Pitt after he became Lord Chatham,
this statue was mutilated by a mob May 21,
1772. and, having become an unsightly, headless trunk, it was removed, under an act of thrown down by the populace on the receipt of the Declaration of Independence, July 10, 1776. 1773, Nov. 5—The Committee of Vigilance denounced the importation of tea and agreed to resist its landing.

1774, April 21.—A vessel laden with tea arrived at Sandy Hook,

vesser laden with tea arrived at sandy hook, but was not permitted to land; and in a few days it was sent back to London. About the same time 18 chests of tea privately brought into port were destroyed.

May 19.—A great meeting was held in the "Fields," at which strong revolutionary resolutions were passed. A committee of 51 were appointed; passed. A committee of 51 were appointed; but the next day a majority of them receded from their position, and the Whigs requested their names to be struck offi. 1775, April 3.—The Colonial General Assembly finally ad-journed. 2 Two dreadful fires occurred while the city was in possession of the enemy. On the 21st of Sept. 1776, a fire spread from Whiteball Slip w. of Broadway, s. of Barclay Street, burning 492 houses, or one-eighth of the entire city. Another broke out on Cruger's Wharf, Aug. 7, 1778, which burned 300 houses in Gr-at and Little Bock and the adjacent streets. Commissioners were appointed May 4, 1784, to settle claims to the soil and lay out streets in these burned districts. Destructive fires have since occurred, as follows:—

since occurred, as follows:—
1811, May 19.—Upon Chatham Street 80 to 100 buildings were
burned.

1828, \$100,000 worth of property was burned.
1835, Dec. 16.—A fire broke out in the lower part of the city, which was not arrested until 40 acres, mostly

Papers and Periodicals discontinued since the Revolution.

Since the Revolution, the following papers have appeared and been discontinued. The list is very imperfect; as, among the constant changes that are going on, it is impossible to ascertain precise data. It is possible that a few in this list may be still issued, and very probable that others may continue to exist under a different name:

NIAGARA COUNTY.

This county was formed from Genesee, March 11, 1808. Erie was taken off April 2, 1821. It lies upon the w. border of the State, in the angle formed by the junction of Niagara River and Lake Ontario. It is centrally distant 255 mi. from Albany, and contains 558 sq. mi. The surface is generally level or gently undulating. It is divided into 2 distinct parts or terraces by a ridge extending E. and w. The lake shore is a bluff 10 to 30 feet high, and from its summit the lower terrace slopes gradually upward to the foot of an elevation known as the mountain ridge, where it attains an elevation of 100 to 150 feet above the lake. This ridge extends E. and w. through the N. part of Royalton and Lockport, and near the center of Cambria and Lewiston, and forms the N. declivity of the s. ter-

race. At its w. extremity it has an elevation of 250 feet above the lower terrace, and is nearly perpendicular. This height gradually declines toward the E., and upon the E. line of the co. it has an elevation of 80 to 100 feet. Through the central part of the co. the ridge is divided into two declivities, separated by a plateau from a few rods to a half mi. in width. The upper ridge is limestone, and for many mi. presents the face of a perpendicular cliff. Throughout the co. the ridge is too steep for cultivation. The s. half of the co., extending s. from the summit of this ridge, is very level. It has a slight inclination toward the s., and terminates in the Tonawanda Swamp. The whole inclination of the slope within the limits of the co., however, does not exceed 30 feet. The lake ridge—supposed to have been the ancient shore of the lake—extends w. from Orleans co. through Hartland and Newfane, thence turns s.w., and appears to terminate near Lockport Village. It appears again farther w., and at Cambria it is divided into two parts, the N. extending N. w. about 3 mi. and gradually declining to the level of the general surface, and the s. extending s. w. and uniting with the mountain ridge 4 mi. E. of Lewiston. This ridge is composed of sand and gravel and the usual debris thrown up by a large body of water, and in character is essentially different from the surrounding surface. It varies from 5 to 25 feet in height, and is 20 to 150 feet in width. The N. descent is generally slightly longer and steeper than the s. The lowest rock in the co. is the Medina sandstone, which crops out in the ravines along the shore of the lake. It is the underlying rock of the w. half of the co., and extends to the foot of the mountain ridge. ridge is composed of the sandstones and limestones belonging to the Niagara and Clinton groups, the heavy masses of compact limestone appearing at the top. The Onondaga salt group occupies a narrow strip along the s. border of the co. Nearly the entire surface is covered with deep deposits of drift, the rocks only appearing on the declivities of the mountain ridge and in the ravines of the

Springs of weak brine are found in the ravines throughout the N. half of the co. They exude from the Medina sandstone; but none of them are sufficiently strong to be profitably worked. The Medina sandstone which lies at the foot of the mountain ridge has been quarried at several places for paving and flagging. Above the sandstone is a layer of impure limestone, about 4 feet thick. from which water cement is manufactured. The Niagara limestone furnishes an excellent building material and a good quality of lime. The principal quarries are situated in the vicinity of Lockport, and from them was obtained the stone for the construction of the canal locks at that place,2 A vein of this stone filled with fossils admits of a high polish, and is used for ornamental purposes, presenting a beautiful variegated appearance.

Niagara River forms the w. and a part of the s. boundary of the co. It flows almost due w. from the E. extremity of Grand Island to the Falls, and thence nearly due N. to Lake Ontario. It contains several small islands belonging to this co., the principal of which are Tonawanda, Cayuga, Buckhorn, and Goat Islands. In its passage from Lake Erie to Lake Ontario, a distance of about

head of the latter ravine is a nearly perpendicular precipice, at

¹ This deflection in the course of the lake ridge must have | been caused by a large bay that extended s. toward Lockport; and the N. branch of the ridge which terminates so abruptly in Cambria was undoubtedly a bar extending into the lake. Two large streams probably discharged their waters into this bay,— one through the ravine in which the Eric Canal is located, and one through a deep ravine about 2 mi. w. of Lockport. At the

which point must have been a waterfall.

2 This stone is found along the whole course of the mountain ridge, and can be quarried in every town. The deep cut in the canal w. of Lockport is through this strata, and the perpendicular ledges of rock on each side present the most favorable location in the co. for quarrying.

30 mi., the river descends 334 feet, the difference of level between the two lakes. Above Schlosser and below Lewiston the current of the river is not very rapid, and the descent is trifling, so that nearly the whole fall is condensed into a space of about 8 mi. The plateau in which the basin of Lake Erie is situated extends to the mountain ridge at Lewiston, the summit of the ridge being 34 feet higher than Lake Erie. The river originally must have flowed over the face of this precipice, at which time Niagara Falls were 7 mi. below their present position. By the wearing away of the rocks the falls have gradually receded, becoming lower at each period of their progress, and leaving a deep, rocky channel, with ragged and precipitous banks 200 feet high, to mark their course and attest their power.1 At the present time the falls are at the abrupt angle where the river changes from a w. to a N. course, and the water is precipitated in part over the front or extremity of the chasm and in part over the side, the two parts of the fall being at nearly right angles to each other. Goat Island, having an area of about 70 acres, lies between the two falls, its w, edge being a continuation of the precipice over which the water flows.2 The principal fall at the head of the chasm on the w. side is known as the Canadian or Horse Shoe Fall,3 and the fall E. of Goat Island as the American Fall. The Canadian Fall is 2000 feet wide and 154 feet high. and the American Fall 900 feet wide and 163 feet high; and it is estimated that 100 million tons of water flow over the two falls every hour. A mi. above the edge of the falls a series of rapids commences, the water descending 60 feet before taking the final plunge.4 From the foot of the cataract the river flows about 2 mi. in a comparatively still current, but from that point to Lewiston it is compressed within narrow banks, and flows through the tortuous, rocky channel in a perfectly tumultuous and resistless torrent. The immense body of water in Niagara gives to the falls, and to the rapids both above and below, a grandeur scarcely equaled by any other of nature's works. Here one of the largest rivers in the world, forming the outlet of the great internal fresh water seas of North America, plunges down the shelving rapids and leaps into the profound chasm below, and then whirls and struggles with an apparently almost irresistible force in its rocky channel for 7 mi., and at last emerges from its mountain barrier and spreads out into the calm and peaceful waters of Ontario. Scenes of surpassing sublimity and grandeur open upon the view at every point, and pilgrims from every part of the world flock hither to offer their devotions at one of the great shrines of universal nature.

Tonawanda Creek forms the greater part of the s. boundary of the co. Along its course are a series of extensive marshes known as the Tonawanda Swamp.⁵ The other principal streams are

1 The precipice over which the water flows is composed of solid, compact limestone, with shale above and below. The wearing away of the shale above has formed the rapids, and the disintegration of that below has left the limestone in overhanging masses until they break off with their own weight. The dip of the rock is toward the s.; and as the falls recede the The dip of the rock is toward the 5.; and as the falls recede the surface of the limestone will come nearer and nearer the present bottom of the fall, until, at a distance of 4 mi. farther back, it will entirely disappear, and, the soft shales wearing away irregularly, the river will at some distant period of the future fall in a series of rapids.

2 Luna Island lies upon the precipice N. of Goat Island, and is separated from it by a stream 65 feet wide, which forms a distinct fall. Beneath the shelving rock over which this small cataract flows is a recess of 30 feet, known as the Cave of the Winds. Three small islands lying near the head of Goat Island Winds.

Island and the American shore, about 50 rods above the falls. A bridge extends from the American shore to Bath Island, and another thence to Goat Island. The first bridge was built in 1817; but the next spring it was swept away by the ice. The one built in 1818, and rebuilt in 1839, was replaced by the present iron bridge in 1857. The cribs were sunk in the rapids from the end of a long platform projecting from the shore and heavily loaded with stone to keep it firm. As one cribwas sunk and filled with stone, the platform was pushed forward and another sunk at its extremity; and so on to the island. Before the bridge was built, access to the island was attended with great peril, and very few persons had attempted it. It was done by shooting down in boats from above, a strong rone being the bridge was built, access to the island was attended with great peril, and very few persons had attempted it. It was done by shooting down in boats from above, a strong rope being fastened to the shore, by which the boat in returning was swung back. It is related that the first white person who visited the island was Israel Putnam, in 1755, while on a campaign against Fort Nigara.—Duights Travels, If 88. The Indians appear to have crossed occasionally, and traces of their graves are still seen. On the 23d of Feb. 1811, Augustus Porter applied for the purchase of the island, upon which to keep sheep, and alleged in his petition that the wolves that infested the settlement rendered this business next to impossible without some asylum like this for their preservation. It was afterward bought by the Porters.

the Porters.

8 This name was given from the semicircular shape of the edge of the cliff over which the water flowed. The shape now

is nearly that of a right angle.

⁴ Numerous improvements have been made to afford facilities to visitors. A staircase constructed at the N. extremity of the American Fall, some years since, was burnt and rebuilt in 1858; another, upon Goat Island, was built in 1829, and called the Biddle Staircase; and another near Table Rock, upon the Canada shore, by which visitors can descend to the bottom of the precipice. A row boat ferry crosses the river from the foot of the American Staircase, and a carriage road extends up the bank on the Canadian side. A little w. of Goat Island, in the midst of the rapids near the edge of the precipice, a stone tower 45 ft. high was constructed, in 1833, to afford a more extensive view of the falls. The "Maid of the Mist." a small steamer, makes trips upon the river from her dock, a little above Suspension Bridge, into the foam and mist just below the Canadian Fall. The awful majesty of this cataract is seen to great advantage in the winter season, when the spray settling upon all objects in the vicinity covers them with a glittering crust of ice. The rocks below become loaded with immense masses; and in extremely cold winters the river below gets blocked in so as to form a natural bridge, over which people venture to cross to the Canada shore and even up to the island. In the winter of 1841-42 the river was passable for several months, and a small house was built near the center for the sale of refreshments. The ice was estimated to be 100 ft. thick. A year seldom passes without several fatal accidents happening at these falls, and an enumeration of those who have been drawn into the rapids, or who have slipped from the precipice and been mangled upon the rocks below, would form a long and mournful catarapids, or who have slipped from the precipice and been mangled upon the rocks below, would form a long and mournful cata-logue. In 1827 the Michigan, a condemned schooner, was sent logue. In 1827 the Michigan, a condemned schooner, was sent over the falls, with several animals on board, in the presence of 15,000 spectators. She mostly went to pieces in the rapids, In 1829 the schooner Superior, and in 1841 the ship Detroit, were towed into the rapids, but the former lodged several days, and the latter was permanently grounded upon the rocks in the

Tables wamp could be drained if the State dam at the mouth of Tonawanda Creek was removed; and this only is needed to convert the tract into the most productive region in the co. As the land is cleared, it becomes sufficiently dry for agricultural purposes. The muck and marl which abound it the swamp, purposes. and the limestone and gypsum which underlie it, are all sources of great agricultural wealth.

Four Mile, Six Mile, Twelve Mile, and Eighteen Mile Creeks,-named from their respective distances from the mouth of Niagara River,-Fish and Golden Hill Creeks, all emptying into Lake Ontario; Mud Creek and East Branch, tributaries of Tonawanda Creek, and Cayuga and Gill Creeks, tributaries of Niagara River. The streams that flow N. have all worn deep ravines in the drift deposits; and they are frequently interrupted by falls, furnishing abundance of water-power.

A strip of land extending from the summit of the mountain ridge about 2 mi. s. is covered with a sandy loam, and the remainder of the upper terrace is clayey, largely intermixed with muck along the s. border. The soil between the mountain and lake ridges is a clayey loam, and along the lake ridge and N. of it it is a sandy and gravelly loam. The people are principally engaged in grain raising, for which the co. is most admirably adapted; barley, oats, corn, and potatoes are the staple agricultural products.\(^1\) The manufacture of flour and other articles is largely carried on at Lockport, and the manufacturing interests at Niagara Falls are on the increase. The vast water power that can be made available at the falls will continually attract the attention of practical men, until eventually an immense manufacturing interest will be built up.

The co. seat is located at the village of Lockport.² The courthouse is a stone building erected upon a fine lot in the w. part of the village.3 The jail, situated upon the same lot, is a well constructed stone building, but destitute of means of ventilation. The average number of inmates is 27. The co. clerk's office is a stone fireproof building contiguous to the courthouse. The poorhouse is located upon a farm of 130 acres 3 mi. N. w. of the courthouse. The average number of inmates is 95, supported at a weekly cost of 50 cts. each. The farm yields a revenue of \$1000. A teacher is constantly employed to teach the children and to exercise a constant supervision over them. The insane are properly provided for, and are uniformly treated kindly.5

The Erie Canal enters the co. near the N. line of Royalton, and extends s. w. to Lockport, thence nearly due s. to Tonawanda Creek, and thence along that creek to its mouth. The heaviest and most extensive work upon the canal is at Lockport, where the passage of the mountain ridge is effected. A series of combined double locks, 5 in number, overcomes an elevation of 56 ft., and from the summit a deep cut through the solid limestone extends several miles westward.⁶ The Rochester, Lockport, & Niagara Falls Division of the N. Y. Central R. R. extends through Royalton, Lockport, Cambria, and Niagara, and a corner of Lewiston and Wheatfield, terminating at Suspension Bridge upon Niagara River. The Buffalo & Lockport Branch R. R. extends s. w. from Lockport through Cambria, Pendleton, and Wheatfield. The Buffalo & Niagara Falls R. R. extends along Niagara River through Niagara and Wheatfield, and a N. branch is extended to Lewiston. The Canandaigua & Niagara Falls Branch R. R. unites with the B. & N. F. R. at Tonawanda.7 Three daily and five weekly newspapers are published in the co.8

The project of building a ship canal around Niagara Falls has from time to time excited much attention, and several surveys have been made, but thus far without result. The earliest incorporation for this object was in 1798.

This co. was a portion of the domain of the Seneca Nation, though none of its principal villages were located within its limits. The first European visitant of whom there is any record was La Salle, a French adventurer, who, accompanied by Tonti and Father Hennepin, conducted an expedition up the lakes for the double purpose of traffic with the Indians and of extending the French influence among the native tribes. In the fall of 1678 he established a trading post on the present site of Fort Niagara, at the mouth of Niagara River, and soon after laid the keel of a small vessel of 60 tons, at the mouth of Cayuga Creek, above the falls. This vessel was launched in the commencement of the following summer, and christened the Griffin; and on the 7th of Aug. the party set sail upon Lake Erie.¹ The first work at Fort Niagara was a simple palisade; but in 1687 De Nonville, the French commander, constructed there a fort with four bastions. This was soon after besieged by the Senecas; and, a fatal sickness having destroyed most of the garrison, it was soon after abandoned. Joncaire, another French adventurer, built a house on the present site of Lewiston in 1721; and about 4 years after another defensive work was erected on the old site of the palisade of La Salle. This fortress was afterward enlarged, and became one of the most important French posts w. of Montreal. In the summer of 1759, Gen. Prideaux, at the head of a large force of regulars and provincial troops, was sent to reduce the place. The fort was besieged about the 1st of July; and on the 25th it was surrendered to Sir Wm. Johnson, upon whom the command of the expedition had devolved upon the death of Gen. Prideaux.2

The fortress was repaired and garrisoned by the English; and during the Revolution it became the headquarters of the marauding parties of tories and Indians that desolated the frontier settlements along the Mohawk, Susquehanna, and Delaware.3 Fort Niagara continued in possession of the British until 1796.4 The portion of the Tuscarora Indians who were allies of the English during the Revolution removed to the neighborhood of Fort Niagara after the destructive campaign of Sullivan, in 1779, to obtain means of preventing absolute starvation. The Senecas donated them a square mi. of land, and subsequently the Holland Land Co. 2 sq. mi. In 1804 they purchased an additional tract of 4329 acres, for \$13,722. On the 19th of Dec. 1813, Fort Niagara, then in possession of an American garrison, was surprised and taken by the British; and it continued in their possession until the close of the war. The villages at Lewiston and Niagara Falls were burnt about the same time. In 1826, Fort Niagara was the scene of Morgan's imprisonment previous to his final disappearance.⁵ The land in this co. was all included in the Holland Purchase, except the small reservations of the Tonawanda and Tuscarora Indians, and a strip of a mile in width along Niagara River, reserved by the State for the purposes of a portage road around Niagara Falls. The first settlements were commenced about the beginning of the present century, and the growth of the co., in common with the whole territory of the Holland Purchase, was rapid. The great impetus to growth, however, was given by the completion of the Erie Canal in 1825 and the subsequent construction of railroads. In 1837 the co. became the seat of great excitement connected with the so-called Patriot War. Most of the Patriot forces that rendezvoused upon Navy Island-within British territory, and just above the rapids of the falls—were transported from Schlosser, upon the

The vessel sailed through Lakes Erie and Huron to Green

Bay, where it cast anchor and remained some time. After being freighted with a rich cargo of furs, it started on its return voyage; but from that time no tidings ever came of the vessel or crew. La Salle and Father Hennepin left the vessel on its up-

crew. La Salle and Father Hennepin left the vessel on its upward voyage at Detroit, and afterward penetrated the western wilderness to the Mississippi River.

² While Sir Wm. Johnson remained at this place he made a contract with Wm. Stedman to construct a road for a portage from Lewiston to Schlosser above the Falls. This road was finished in 1763; and on the 20th of June of that year the contractor started with 25 loaded wagons from Lewiston, under the convoy of 50 soldiers. As the party were passing a deep culf. convoy of 50 soldiers. As the party were passing a deep gulf upon the very edge of the cliff known as the Devil's Hole, they upon the very edge of the cliff known as the Devil's Hole, they were assailed by a large force of Senecas who were lying in wait for them, and the whole party except one were driven off the precipice, which here has a perpendicular height of 180 ft. Wm. Stedman escaped by forcing his horse through the ranks of the Indians; and one soldier—a drummer—was saved by his belt catching in the top of a tree below and so breaking the force of his full.

8 The prisoners taken upon the war-paths were generally conducted to this place, where they were often obliged to submit to the terrible ordeal of the gauntlet. A premium was also here given for scalps, stimulating the Indians to murder. The tories who rendezvoused here were usually more inhuman than the

American shore; and great excitement prevailed in consequence. The steamer Caroline, engaged in furnishing re-inforcements and supplies to the insurgents, was cut from her moorings, on the night of Dec. 29, by a British force, set on fire, and sent over the falls. This event was the occasion of a long diplomatic controversy between the Governments of the United States and Great Britain, and at one time war seemed almost inevitable. Since that time no event has occurred to disturb the peaceful progress of improvement.

CAMBRIA-was formed from "Willink," (now Aurora, Erie co.,) March 11, 1808. Hartland, Niagara, and Porter were taken off in 1812, Lewiston in 1818, and a part of Lockport in 1824. It is an interior town, w. of the center of the co. The mountain ridgel crosses through the center of the town and divides it into two nearly equal portions. In the N. and s. the surface is level or undulating. The lake ridge crosses the N. part of the town. The principal stream is Twelve Mile Creek. The soil consists of alternations of sandy and clayey loam. Pekin (p.v.) lies partly in Lewiston, but principally in this town. It contains 2 churches and about 60 dwellings. North Ridge and Cambria, in the N. part of the town, are p. offices. The first settlement was made in 1800, by Philip Beach, from Le Roy.² There are 2 churches in town, Cong. and M. E.

HARTLAND³—was formed from Cambria, June 1, 1812. Royalton was taken off in 1817, Somerset in 1823, and a part of Newfane in 1824. It is the central town upon the E. border of the co. The surface is level or gently undulating, the greatest inequality being along the lake ridge, which crosses the s. part of the town. The principal streams are Eighteen Mile and Johnsons Creeks. The soil s. of the ridge is a clayey loam, and n. it is a sandy and gravelly loam. Johnsons Creek, (p. v.,) located on the creek of the same name where it crosses the lake ridge, contains I church and has a population of 114. Hartland Corners, (Hartland p. o.,) on the ridge in the w. part of the town, contains about 18 dwellings. Middleport* is partly in this town. The first settlement was made in 1803, by John and David Morrison.⁵ The first church (Bap.) was organized at Johnsons Creek in 1817. There are 5 churches in town.6

LEWISTON⁷—was formed from Cambria, Feb. 27, 1818. It is the central town upon the w. border of the co. The mountain ridge extends through the town, dividing it into two nearly equal portions. Along the base of this ridge the surface is broken or rolling, but elsewhere it is level. Gill and Six Mile Creeks, and several smaller streams, take their rise in this town, and Niagara River forms its w. boundary. The soil is a sandy loam. The Devil's Hole—a dark chasm, 150 ft. deep, upon the high bank of the Niagara, in the extreme s. part of the town-was the scene of a sanguinary battle during the Old French War.8 Five mi. above Ft. Niagara, bordering upon the river, is a flat of several acres, about 65 ft. lower than the surrounding country. It is called Five Mile Meadow; it was here that the British forces landed the night before the capture of Fort Niagara, in Dec. 1814.9 Lewiston, 10 (p.v.,) incorp. April 17, 1822, was reserved by the State and patented by single lots. It is situated on Niagara River, at the base of the mountain ridge. It is the terminus of the Lewiston & N. F. R. R., and the head of navigation from Lake Ontario. It contains 4 churches, and has a pop. of 1,014. The Lewiston Suspension Bridge across the Niagara River was erected in 1850 and '51.11 Dickersonville (p. o.) is a hamlet. South Pekin is a p. o. in the s. E. part. Pekin lies partly in this town. Fort Gray, a temporary fortification erected during the War of 1812, occupied the verge of the mountain ridge just above the village of Lewiston. LOCKPORT—was taken from Cambria and Royalton, Feb. 2, 1824. It extends from the central part to the southern bounds of the co. The surface in the northern part of the town, through which the mountain ridge extends, is broken and hilly; in the central and southern parts it is level. Eighteen Mile and Mud Creeks are the principal streams. The soil is a clavey loam intermixed with marl, and in the N. it is stony. The Niagara limestone crops out along the mountain ridge, and extensive quarries have been opened in and near the village of Lockport,5 Underlying this is a stratum of hydraulic limestone, from which waterlime is made; and sandstone belonging to the Medina formation is also quarried N. of the ridge.6 The manufactures of the town are extensive, and consist principally of flour, lumber, leather, and machinery. Lockport, (p.v.,) the co. seat, was incorp. March 26, 1829. It is situated on the Eric Canal and the declivities of the mountain ridge. It is an important station on the Niagara Falls R. R., and is the terminus of the branch road to Buffalo. The water-power created by the canal locks at this place has given rise to numerous and extensive manufacturing establishments.8 The village contains 15 churches, a high school, 3 newspaper offices, 3 banks of issue, and 1 savings bank. Pop. 8,939. Wrights Corners, (p. o.,) in the N. part of the town, and Rapids, (p. o.,) in the s. part, are hamlets. Hickory Corners, in the w., is a p. o. The first settlement was made at Cold Spring, about 1 mi. E. of Lockport Village, by Charles Wilbur, in 1805.10 There are 21 churches in town. 11 Ex-Gov. Washington Hunt is a resident of this town.

NEWFANE—was formed from Hartland, Somerset, and Wilson, March 20, 1824. It extends from near the center of the co. to the lake shore. The surface is level. Eighteen Mile Creek crosses the town, dividing it into two unequal portions. The soil is generally a sandy loam; but in some parts it is clavey. Olcott, (p. v.,) on the lake shore, at the mouth of Eighteen Mile Creek, contains 3 churches and about 30 dwellings. Charlotte, (Newfane p.o.,) on Eighteen Mile Creek, near the center of the town, contains 2 churches and about 25 dwellings. Road, in the E., and Coomer, in the w. part, are p. offices. The first settlement was made in 1807, by Wm. Chambers¹² and John Brewer, from Canada.¹³ The first religious services were conducted in 1811, by a colored Methodist minister from Canada. There are 5 churches in town.¹⁴

NIAGARA—was formed from Cambria, June 1, 1812, as "Schlosser;" its name was changed Feb. 14, 1816. Pendleton was taken off in 1827, and Wheatfield in 1836. It is the s.w. corner town of the co., occupying the angle made by the abrupt northerly bend of Niagara River. Its

Brant was an Episcopalian; and the services were usually conducted by some one attached to the British garrison at Ft. Niagara. The church was built of logs and had no belfry. The bell was hung upon a cross-bar resting in the crotch of a tree near by.

2 Among the settlers who were in the town in 1800 were Jos. and John Howell, — Middaugh, Henry Hough, Henry Mills, — McBride, Thos. Hustler, Win. Gambol, and Fred'k Woodman. Geo. Howell was the first child born in the town and in the co., in 1799. Middaugh kept tavern in 1788, and McBride built a tannery about 1799. The first sawmill was built by Jos. Howell, in 1808, and the first gristmill by John Gray, in 1816.

10 Jedediah Darling settled in the town in 1808, —— Gregory in 1809, Thomas Miles, Silliman Wakeman, David Carlton, and Geo. Miller in 1810, and Alex. Freeman and John Dye in 1811. The first inn was opened by Chas. Wilbur, in 1800; the first sawmill was built by Alex. Freeman, in 1811, and the first gristmill by Otis Hathaway, on Eighteen Mile Creek. This was a sawmill was built by Alex. Freeman, in 1811, and the first grist-mill by 0tis Hathaway, on Eighteen Mile Creek. This was a small mill, which was built in 20 days. L. A. Spaulding was then building, and soon after finished, a stone mill of 7 stories in height. Simeon Ford erected a woolen factory in 1828. The first school was taught by Olinda Moore, in the summer of 1816.

surface is level. Cayuga and Gill Creeks are the principal streams. The soil is a heavy clay. Goat Island and the American part of Niagara Falls belong to this town. At Suspension Bridge, on the river bank, is a sulphur spring, which has been fitted up for the accommodation of visitors. Niagara Falls, (p. v.,) incorp. July 7, 1848, is situated on Niagara River, at the cataract. It is the terminus of the Rochester & N. F. R. R., of the N. F. & Lewiston R. R., of the Buffalo & N. F. R. R., and of the Canandaigua & N. F. R. R. It contains 5 churches, 1 newspaper office, 11 hotels, and several manufacturing establishments.\(^1\) Pop. 2,976. The village owes its existence to its proximity to the great cataract. Thousands of visitors, from every part of the U.S. and from almost every country in the world, annually visit this, one of nature's greatest wonders. Nearly all the business of the community is connected with this periodical visitation, and consists of hotel keeping, livery business, and matters of a kindred nature. A large and by no means unimportant business has grown out of the sale of spar ornaments and fancy articles made by the Indians. Niagara City, (Suspension Bridge p.o.,) incorp. June 8, 1854, is situated on Niagara River, 2 mi, below the falls. The Rochester & N. F. R. R. connects at this place with the Lewiston & N. F. R. R., and with the Great Western Railway across the Suspension Bridge,2 The village contains 6 churches, a newspaper office, 15 hotels, and a charitable institution known as the De Veaux College for Destitute Orphans and Children. Pop. 1,365. This place participates with Niagara Falls in the business made by the annual influx of visitors to the cataract. No places of equal size on the Continent have a greater amount of hotel accommodations than these. La Salle is a p. o., at the mouth of Cayuga Creek. In the fall of 1678 the French voyageurs La Salle, Tonti, and Father Hennepin, with their companions, established themselves at the mouth of Cayuga Creek and remained until the "Griffin" was launched the following season.4 Other places along the river were temporarily occupied by the French at different times; but the first permanent settlement was made at Schlosser in 1759, by John Stedman, accompanied by his brothers Wm. and Philip.⁵ The first religious services were conducted by Father Hennepin, at the time of the French sojourn at Cayuga Creek.⁶ There are now 12 churches in town.⁷

PENDLETON⁸—was formed from Niagara, April 16, 1827. It is the central town on the s. border of the co. The surface is level or gently undulating. Tonawanda Creek forms the s. bounds of the town, and Sawyers Creek crosses the w. part. The soil is generally a clayey loam. Pendleton, (p. o.,) on Tonawanda Creek, contains I church and 16 dwellings. Pendleton Center, Beach Ridge, and Mapleton are p. offices. The first settlement was made in 1805, by Jacob Christman.9 There are 5 churches in town.10

PORTER¹¹—was formed from Cambria, June 1, 1812. Wilson was taken off in 1818. It is the most westerly town on the lake shore. Its surface is level. Four Mile and Six Mile Creeks, and the w. branch of Twelve Mile Creek, cross the town in a northerly direction, and Niagara River forms its w. boundary. The soil along the lake shore is composed principally of a marly clay; in the central and southern parts it is a sandy and gravelly loam. Besides the crops which

This canal is 4 of a mi. long, 70 ft. wide, and 10 ft. deep, and will maintain a running stream equal in quantity to 2436 cubic ft. per second. The company by whom the canal has been built was organized March 22, 1853, with a capital of \$500,000. One of the largest paper mills in the U. S., on Bath Island, was burned during the past year, (1858.)

2 The Niagara Suspension Bridge, which crosses the river at this place, was commenced in 1852 and finished in 1855. It is 821 ft. in length from center to center of the towers, and 247 ft. shove the water. It has 2 floors,—the lower for a carriage way, and the upper for a rail way, upon which 4 rails are so laid as to make tracks of 3 different gauges. The cost of the structure was about \$400,000, and the stock of the company \$500,000. The first line was got across the river at this place by the aid of a kite. With this a larger cord was drawn over; and finally a rope, upon which pulleys could be run, bearing the wires of which the bridge is composed. The chief engineer was John A. Roebling.

3 The De Veaux College was established according to the provisions of the will of Samuel De Veaux, who bequeathed for that purpose personal property to the amount of \$154.432 and real estate valued at \$36,213, besides 330 acres of inalienable land. The building was erected in 1855-56. It is built of stone, has 2 stories and an attic above the ground story, and a front of 100 ft., with a depth of 54 ft. The members of the school are supplied by the institution with food, cophing, and books. By the preby the institution with food, clothing, and books. By the pro-

visions of the will of Mr. De Veaux, the president of the college must always be a clergyman of the Prot. E. Church, and the institute itself under the control of the Diocese of Western New York. Members of the school are appointed by the board of trustees, the children of parents belonging to the Prot. E. Church having the preference. When once received, the children are under the sole charge of the trustees until they attain their majority. See Senate Doc. 1858, No. 118. The college reports annually to the Legislature,

ROYALTON6—was formed from Hartland, April 5, 1817, and a part of Lockport was taken off in 1824. It is the s. E. corner town of the co. The surface is generally level or undulating, except in the N. part, where the mountain ridge crosses the town. Johnsons, Eighteen Mile, and Mud Creeks take their rise in this town, and the Tonawanda forms its s. boundary. The soil is a clayey loam. Middleport' (p. v.) incorporated in 1858, lies partly in Hartland, but principally in the N. E. part of this town. It is situated upon the Eric Canal, and is a station on the R. & N. F. R. It contains 5 churches and has a pop. of 689, (586 in Royalton, 103 in Hartland.) Gasport, (p.v.,) situated on the canal near Eighteen Mile Creek, is a station on the R. & N. F. R. R. It contains 1 church and an academy. Pop. 273. Orangeport, (p.v.,) on the canal, in the N. w. part of the town, has a pop. of 224; Royalton, (p. v.,) in the central part, of 168; and Reynales Basin, (p. v.,) on the canal, of 132. Locust Tree and South Royalton are p. offices. McNalls Corners is a hamlet in the w. part. The first settlement was made in 1803, by Thos. Slayton and Gad Warner.¹⁰ The first religious services were held in 1806; the first religious society (Christian) was organized in 1817, and the first church edifice was built the same year.11 There are 12 churches in town.12

SOMERSET—was formed from Hartland, Feb. 8, 1823, and a part of Newfane was taken off in 1824. It is the most easterly town upon the lake shore. The surface is level. Golden Hill and Fish Creeks cross the town in a N. E. direction. The soil is generally a sandy loam; but in some places it is clayey. Near the mouth of Fish Creek is a small salt spring, from which salt was formerly made. Somerset, (p. v.,) N. of the center of the town, contains 3 churches and about 30 dwellings. County Line, on the line of Orleans co., and Lake Road and West Somerset, are p. offices. The first settlement was made in 1810, by Jacob Fitts and Zacharias Patterson.13 The first religious services were conducted by Daniel Shepardson, in 1816, and the first church (Bap.) was organized in 1820. There are 5 churches in town. 14

WHEATFIELD—was formed from Niagara, May 12, 1836. It is the most southerly town in the co., and lies partly on Niagara River and partly on Tonawanda Creek. The surface is level or gently undulating. Cayuga and Sawyers Creeks cross the town, the former in the western part and the latter in the eastern. The soil is generally a hard, clayey loam, difficult to cultivate. About a mi. E. of Tonawanda is a sour spring, and about 2 mi. N. a sulphur spring. A considerable part of the town is yet unimproved. The greater proportion of the population consists of immigrants from Prussia and other parts of Germany.15 Bergholtz,16 (p. v.,) near the center of the town, contains 1 church and about 80 houses; Martinsville, (p.v.,) in the s. E. part, 1 church

15 They nearly all cultivate the soil; but their farms are usually very small, consisting generally of not more than 5 to 10 acres. They retain in a great measure their own churches and schools: their pastors and schoolmasters came from Germany with them, and German is the language of the pulpit and the schoolroom. Their houses are nearly all one story, rough framed buildings, unclapboarded, and filled in with unburned bricks. Several of them are built of hewn logs, the crevices filled with clay; and some are clapboarded on the gable ends down as far as the level of the eaves.

ONEIDA COUNTY.

This county was formed from Herkimer, March 15, 1798. Lewis and Jefferson were taken off in 1805, and a part of Oswego in 1816. Portions were annexed to Clinton in 1801 and to Madison in 1836. A portion of Chenango was annexed in 1804.1 It lies near the center of the State, 100 mi. from Albany, and contains 1,215 sq. mi. A broad valley, nearly level, extends E. and w. through the center of the co., and from it, both N. and S., the surface rises into a broken and hilly region. The highlands which occupy the s. part are arranged in ridges extending N. and s., the highest summits, on the s. border, being 600 to 1,000 ft. above the valley of the Mohawk. North of the central valley the surface rises abruptly to a height of 800 to 1,200 ft., and spreads out into a nearly level

plateau, broken by the rayines of the streams. The E. part of the central valley is drained by the Mohawk, flowing E., and the w. part by Wood Creek, flowing w. This valley affords a natural road from the Hudson to the great lakes, and is the lowest pass through the Appalachian Mt. system. The Mohawk rises upon the N. border of the co., and flows in a southerly direction to Rome, and thence s. E. to the E. border of the co. Its principal tributaries from the N. are Nine Mile Creek and Lansing Kil, and from the s. Sauquoit and Oriskany Creeks. Black River flows across the N. E. corner of the co. East Canada Creek forms a portion of the E. boundary; the head branches of the Unadilla and Chenango drain the s. border, and Oneida, Wood, and Fish Creeks drain the w. part. Oneida Lake, extending several mi. along the w. border, is the only large body of water in the co. In the extreme N. E. corner are several small lakes and ponds.

The rocks of this co. include nearly the whole series lying between the gneiss, which covers the N. E. part, and the Hamilton group, which outcrops on the s. hills. The Trenton limestone, Utica slate, Oneida conglomerate, and Clinton group have received their names from being so distinctly developed in this co. Of useful minerals the co. has the lenticular clay iron ore of the Clinton group, bog ore in the swamps near Oneida Lake, and, probably, magnetic ore in the N. E. part. Marl and peat have been found in some places. Waterlime and gypsum quarries have been wrought to some extent. Building stone in great variety and of superior quality has been extensively quarried. Mineral springs are found in several places. The soil in the N. E., derived from the disintegration of the primitive rocks, is light and sandy, and is capable of producing only a scanty vegetation. This region is sparsely settled, and is not capable of supporting many inhabitants. The central valley is one of the most fertile portions of the State. The soil is a fine quality of sandy and gravelly loam and alluvium, finely tempered with lime and gypsum. The highland region s. of the river has a soil composed of clay and sandy and gravelly loam, and is best adapted to pasturage. The richness and diversity of the soil make this co. one of the best agricultural regions of the State. The people are chiefly engaged in agriculture, the principal branches of which are grain raising in the valleys and dairying and stock raising upon the hills. Hops are largely cultivated in the s. towns. The manufactures of the co. are extensive, though principally confined to Utica and the villages along Oriskany and Sauquoit Creeks.

The county is a half-shire, the co. buildings being respectively located at Utica and Rome.2 The courthouses and jails at both places are well built and conveniently arranged. The clerk's

In 1801, Lisbon—then an immense town upon the N. border—was annexed to Clinton co. It is not certain whether Tracts 1, 2, and 3 of Macomb's Purchase were intended by this arrangement to belong to Clinton; but in 1802 they were annexed to St. Lawrence co. Oneida co. was named from the Oneida Indians, who inhabited and owned this and some adjoining counties. The word Oneida signifies "the people of the stone." The Indians

The act erecting Oneida co. directed the first courts to be held at the schoolhouse near Kert Schuyler, (Rome,) and required the courthouse to be built within 1 mi of the fort. By an act of April 6, 1801, Thomas Jenkins and Hez. L. Hosmer, of Hudson, John Thompson, of Stillwater, and Dirck Lane, of Troy, were appointed to locate the courthouse and jail of Oneida co. These buildings were completed several years afterward, and the courts were held here and at Whiteshord during many years. The courthouse and jail at Rome were burned about 1848, and rebuilt within 3 years after. The and upon the division of the co. the r Whitestown; word Oneida signifies "the people of the stone." The Indians first courts to be held at the schoolhouse near Fcrt Schuyler, had a strange tradition concerning a certain stone, which followed them in their wanderings and finally rested on the sumit of one of the highest bills in the co., from which their beacon fires could be seen to a great distance, and upon which they assembled to hold council or prepare for war. A boulded of gneiss, which tradition identified as this palladium of of gneiss, which tradition identified as this palladium of Dames H. Gregg, in the town of Stockbridge, and placed in a prominent position near the entrance of the Utica Cemetery, clerk's office was removed to Utica in 1816, and the academy at office is a fireproof building, located at Utica. The poorhouse is situated upon a farm of 195 acres about 2 mi. s. w. of Rome. It has an average of 222 inmates, supported at a cost of \$1.00 per week each. Separate buildings have been provided for lunatics and for a pesthouse.1

The Eric Canal extends through Utica, Whitestown, Rome, and Verona. The Chenango Canal extends s. from Utica, up the valley of Oriskany Creek, through New Hartford, Kirkland, Marshall, and a corner of Augusta, connecting with the Susquehanna River at Binghamton. The Black River Canal extends N. from Rome along the valleys of the Mohawk and Lansing Kil through Western and Boonville, connecting with Black River above Lyons Falls, in Lewis co. The Oneida Lake Canal extends w. from Rome to Wood Creek and along that stream to its mouth The N. Y. Central R. R. extends through Utica, Whitestown, Rome, and Verona. The Black River & Utica R. R. extends from Utica N. through Marcy, Trenton, Remsen, and Steuben to Boonville. The Watertown & Rome R. R. extends from Rome N. W. through Annsville and Camden. A large number of plank roads have been built in the co.; but they are mostly abandoned.

Four daily, 9 weekly, 1 semi-monthly, 1 quarterly, and 4 monthly newspapers are now published in the co.3

the wonderful natural channel of navigation that extended through this co., and which, with a short and easy portage, connected the Mohawk with the great lakes and the fertile regions of the West. About the commencement of the last century, plans were proposed for improving this route and for fortifying the most important points upon it. The portage at Rome, from the Mohawk to Wood Creek, became a point of the first importance, and it was occupied as early as 1725; and a fortification known as Fort Bull was built upon Wood Creek soon after. On the 27th of March. 1756, this fort was surprised by a party of French and Indians, under M. De Lery, who had penetrated through an interior route from La Presentation, on the St. Lawrence, by an exhausting march of 15 days. The garrison were unprepared; yet they made a spirited but ineffectual, resistance, and nearly every person perished. Alarm was carried to Fort Williams, on the Mohawk, 4 mi. distant, and a force was hastily sent to relieve Fort Bull, but arrived to late too render assistance. toward Black River. Oswego was besieged by the French during the summer, and was surrendered on the 14th of Aug. Alarmed at the success of the French, and greatly in fear for his personal safety, Col. Webb, then commanding on the Mohawk, destroyed Forts Williams and Craven, and hastily retreated down the valley to Albany, leaving the frontiers to the mercy of the savages; and the sequel is written in blood in the annals of the Upper Mohawk Valley.

Fort Stanwix was erected in the summer of 1758, on the site of the present village of Rome. was heavily armed; but the war ended without furnishing occasion for its use, and upon the peace it was allowed to fall into ruin. In June, 1776, Col. Dayton was sent by the Continental authorities to rebuild this fort, which was from this time named Fort Schuyler. Col. Peter Gansevoort was ordered hither in April, 1777, with the 3d Regiment, and while still unfinished the fort was besieged by the tories and Indians under St. Leger. This movement formed part of a plan of operations against the colonies which contemplated the reduction of this fort and the ultimate meeting at Albany of the three British armies from Lake Champlain, the Mohawk, and New York. To relieve this post, Gen. Herkimer was sent with a detachment of troops chiefly raised in "Tryon" co. This army fell into an ambuscade at Oriskany, where the memorable battle, elsewhere noticed, was fought on the 5th of Aug. 1777. While most of the savages were absent from their camp, a well conducted sortie from Fort Schuyler, by a party under Colonel Willett, attacked the camp of the enemy and took a large quantity of baggage and stores, 5 British standards, and the papers of most of the officers. The discontent which this incident occasioned among the Indians was increased to insubordination by the mysterious reports brought in by the emissaries of the Americans; and on the 22d of Aug. the siege was raised, and the enemy retreated by the way of Oswego to Montreal. Portions of these troops subsequently joined Gen. Burgoyne and shared the fortunes of that officer. The fort was destroyed by fire and flood in May, 1781. Through the influence of Rev. S. Kirkland and others, the Oneidas were induced to remain neutral or join the American cause, and were rewarded by liberal concessions at subsequent treaties.1

Settlement had extended into the borders of the co. before the Revolution; but every vestige of improvement was swept away during the war. Civilization re-appeared with peace; and before the beginning of the present century the hardy pioneers of New England had pressed into nearly every town. The completion of the Western Inland Navigation Co.'s improvement in 1796, and of the Seneca turnpike and other early thoroughfares for emigration, and the construction of the Erie Canal and the 3 lateral canals which here join it, and of the railroads which cross it, have formed marked eras in the improvement and prosperity of the co. In wealth, population, and enterprise it now ranks among the first cos. in the State.

ANNSVILLE2—was formed from Lee, Florence, Camden, and Vienna, April 12, 1823. It lies on the N. border of the co., w. of the center. Its surface is broken with ridges or swells, running E. and w., gradually increasing in height toward the N. There appear to have been at some period three small lakes in the town, two of which have broken through their barriers and left fine, fertile valleys. The E. branch of Fish Creek³ forms a part of the E. boundary, and flows through the s. E part; and the w. branch of the same stream forms a part of the s. boundary. Several small streams are tributaries of the E. branch, the principal of which are Furnace and Fall Creeks. On the latter. near its mouth, are three falls, of 14, 20, and 60 ft. respectively. The soil is clayey in the s., and sandy, gravelly, and stony in the other parts. Glenmore, (p. v.,) near the center, contains 2 sawmills, 1 gristmill, and 15 houses. Taberg, (p. v.,) in the s. part, contains 2 churches, 3

AUGUSTA3-was formed from Whitestown, March 15, 1798. A part of Vernon was taken off in 1802, and a part of Stockbridge (Madison co.) in 1836. It lies on the w. border of the co., s, of the center. Its surface is a rolling upland. Two ranges of hills extend N. and s. through the town on opposite sides of Skanandoa Creek, affording limestone of excellent quality for lime and building purposes. Oriskany Creek flows through the extreme s. E. corner, and Skanandoa Creek flows N. through near the center. The soil is a fertile, clayey and sandy loam. Augusta, (p.v.,) near the center, contains 2 churches and 100 inhabitants. Knox Corners, (p.v.,) N. w. of the center, contains a church and 200 inhabitants. Oriskany Falls, (p. v.,) in the s. E. corner, contains a church, a saw and grist mill, machine shop, distillery, and 711 inhabitants. The first settlement was made by —— Gunn, in 1793.4 The first religious services were held at the house of — Fairbanks, in 1794.5

AVA6—was formed from Boonville, May 12, 1846. It is the central town on the N, border of the co. Its surface is a moderately uneven upland, 700 to 1,000 ft. above the Rome level. It is drained by Fish Creek, the E. and W. branches of the Mohawk, Point Rock, and Blue Brooks. Several small sulphur springs have been found in town. The soil is a gravelly loam. Ava Corners, (Ava p. o.,) w. of the center, contains 20 houses. The first settlement was commenced by Ebenezer Harper, in 1798.7 A Friends meeting house is the only place of worship in town.

BOONVILLE⁸—was formed from Leyden, (Lewis co.,) March 28, 1805. Ava was taken off in 1846. It lies on the N. border of the co., E. of the center. Its surface is a hilly, broken upland, 800 to 1,000 ft. above the canal at Rome. Black River flows through the N. E. part, and Lansing Kil rises near the center and flows s. to the Mohawk. Its soil is clayey loam, in many places thickly covered with boulders and often inclining to sand. Near the village are immense deposits of drift. Its E. border extends into the great forest, and presents the meager, sandy soil and naked rocks peculiar to that region. There is a gas spring 1½ mi. w. of the village, and a sulphur spring 1½ mi. s. The latter has acquired some local celebrity. Boonville, (p. v.,) in the N. W. part, was incorp. in 1855. It contains 3 churches, a printing office, several manufactories, and 1,000 inhabitants. It is the present N. terminus of the Black River & Utica R. R. It is on the summit level of the Black River Canal, and has a large trade with the country N., W., and E. Alder Creek, (p.v.,) in the s. E. part, contains a church and 20 houses. Forest Port, (p. v.,) near the s. E. corner, on the line of Remsen, contains 20 houses. Hawkinsville, (p. v.,) N. w. of the center, contains a saw and grist mill, chair factory, carding mill, and 339 inhabitants. Hurlbutville is a p.o. The first settlement commenced in 1795.9 The first church was formed in 1805.10

BRIDGEWATER¹¹—was formed from Sangerfield, March 24, 1797. It is the s. E. corner town of the co. Its surface is uneven. The valley of the w. branch of the Unadilla and its tributaries, locally known as "Bridgewater Flats," in the N., is about a mi. wide, but decreases to about

CAMDEN—was formed from Mexico, (Oswego co.,) March 15, 1799. Florence was taken off in 1805, Vienna in 1807, and a part of Annsville in 1823. It lies upon the w. border of the co., near the N. w. corner. Its surface is rolling, gradually rising toward the N., where it is broken by hills whose summits are several hundred feet above Oneida Lake. The w. branch of Fish Creek flows diagonally through the town toward the s. E. Mad River from the N. unites with it near Camden Village; and Little River, a tributary, forms part of the s. boundary. The soil is a sandy loam, in some places gravelly and stony, but generally well adapted to grazing. Camden, (p. v.,) in the E. part, was incorp. in 1834. It contains 3 churches, saw and grist mills, a sash and blind manufactory, pump factory, 2 tanneries, a cloth manufactory, and 862 inhabitants. West Camden, (p. v.,) near the N. w. corner, contains 20 houses. Hillsborough, (p. o.,) in the s. part, is a hamlet. The first settlement commenced near the close of the last century. The first religious society was formed Feb. 19, 1798, by Rev. Eliphalet Steele.⁵ The church received from the heirs of John Murray an endowment in lands yielding a revenue of \$112.

DEERFIELD—was formed from Schuyler, (Herkimer co.,) March 15, 1798. Marcy was taken off in 1832. It lies near the center of the E. border of the co. Its surface is mostly a high plateau, 600 to 1,000 ft. above the Mohawk, forming the N. continuation of the Hassenclever Mis. of Herkimer co. A broad intervale, partly overflowed in high water, extends along the Mohawk opposite Utica; and on the N. E. the surface descends abruptly to the creek. The Mohawk flows along the s. w. border of the town, and West Canada Creek along the N. E. border. The soil on the flats is a deep, rich, alluvial loam, and on the hills a slaty and gravelly loam. Deerfield Corners, (Deerfield p. o.,) in the s. part, contains 2 churches, 3 carriage shops, and 50 houses. A thickly settled suburb of Utica extends toward the village. North Gage, (p. o.,) in the N. part, is a hamlet. The first settlement was commenced in 1773.6 The first religious services were held in 1798, by Rev. — Eddy. There are 4 churches in town.

FLOR EXCE⁸—was formed from Camden, Feb. 16, 1805. A part of Annsville was taken off in 1823. It is the N. w. corner town of the co. Its surface is rolling, and 250 to 300 ft. above the Rome level. Mad River flows s. E. through the town. The soil is stony and light, and is underlaid by the Hudson River shales. A portion of the town is still covered by forests, which extend N. to near Jefferson co. Florence, (p. v.,) N. of the center, contains 3 churches, 3 sawmills, a gristmill, tannery, and 40 houses. **Empeyville**, in the E. part, contains a church and 20 houses. East Florence (p. o.) and Florence Hill are hamlets. The first settlement commenced in 1801, by Amos Woodworth. The first religious society (Cong.) was formed Dec. 16, 1816; 10 Rev. Samuel Sweezey was the first settled minister.

FLOYD11—was formed from Steuben, March 4, 1796. It lies in the interior, E. of the center of the co. Its surface is rolling, gradually rising to the N. border, where it attains an elevation of 200 to 300 ft. above the valley of the Mohawk. Nine Mile Creek¹² flows through a small portion

KIRKLAND 3-was formed from Paris, April 13, 1827. Marshall was taken off in 1829, a part was annexed to New Hartford in 1834, and a part of Paris was annexed in 1839. It lies in the interior, s, of the center of the co. Its surface is a hilly upland, divided into two general ridges by the valley of Oriskany Creek. The hills are 200 to 500 ft, high, and the declivities are generally steep. Oriskany Creek flows N. E. through near the center. The soil is a rich, calcareous loam. Near Clinton Village are quarries of good building stone. Iron ore is found; and several thousand tons are annually shipped by the Chenango Canal, to Constantia, Taberg, and Penn. Great attention is paid to fruit growing, and this town excels every other town in the co. in the amount of fruit raised. The town derives its greatest interest from its extensive educational institutions. which entitle it to the appellation of the Literary Emporium of Oneida co. Clinton (p. v.) was incorp. April 12, 1843. Hamilton College' is located upon a hill overlooking the Oriskany Valley. Its buildings consist of Dexter Hall, or North College; Kirkland Hall, or Middle College; Hamilton Hall, or South College; a chapel, laboratory, and an observatory. The course of study embraces a collegiate and a law department. A grammar school, under a separate board of trustees, is connected as a preparatory department. The college libraries contain about 10,000 volumes, and the cabinet of natural history contains about as many specimens. The village also contains 5 churches, 2 newspaper offices, the Clinton Liberal Institute, 5 a grammar, a boarding, and a high school, and a few manufactories. Pop. 1,174. Manchester, (Kirkland p. o.,) a manufacturing village,6 in the N. part, contains 30 houses. Franklin, near the center, contains the Franklin Iron Works7 and 35 houses. Clarks Mills,8 in the N. corner, is a manufacturing village, and contains a cotton factory, grist and saw mill, and 40 houses. 4 Hamilton Oneida Academy was incorp. by the Regents, Jan.
31, 1793, mainly through the exertions of the Rev. Samuel Kirk-land. In 1794 a commodions building was erected, the corner stone of which was laid with much ceremony by Baron Steuben. The school was opened the same year under the Rev. John Niles, whose successors were Rev. Robert Porter, Seth Norton, and Rev. James Robbins. The success of this academy was highly gratifying to its friends; and the rapid development of Central New York suggested the necessity of more ample facilities for instruction and an extension of its course of study. Clinton and New York suggested the necessity of more ample facilities for instruction and an extension of its course of study. Clinton and Fairfield became active competitors for the honors of a college, and charters of similar character and conditions were granted to each, under the names of Hamilton and Clinton Colleges respectively. By a compromise between the friends of the rival locations, the latter institution was never organized. Clinton went on with its literary college, and employed the most active person in the Fairfield enterprise as its agent; while Fairfield organized a medical college. Hamilton College was chartered May 26, 1812, and went into operation soon after, under the presidency of the Rev. Azel Backus. His successors have been Henry Davis, in 1817; Sereno E. Dwight, in 1833; Joseph Penny, in 1835; Simeon North, in 1839; and Samuel Ware Fisher, in 1858. The college is chiefly under the influence of the New School Presbyterian and Congregational Churches. From 1819 to 1832, dissensions between the Trustees and President seriously retarded the prosperity of the institution; and during the same period insubordination among the students was of frequent occurrence. From 1838 to 1846 the college received \$3,000 annually from the State; but the present Constitution cut it off from the receipt of a balance previously appropriated, and the grant has not been since continued. The Trustees many years since adopted the custom of admitting students unable to pay tuition fees; and, from incautious extension, this usage became an abuse that showed itself upon the treasurer's books. The receipts from tuition became only a quarter as great as previously, while the catalogue indicated by its numbers an increasing prosperity. It was found more difficult to abandon this practice than it had been to adopt it; and it is still continued to as great an extent as the means of the institution will justify.

LEE!—was formed from Western, April 3, 1811. A part of Annsville was taken off in 1823. It lies in the interior, N. of the center of the co. Its surface is rolling or moderately hilly, gradually rising from the lowlands in the s. to an elevation of 500 to 800 ft, above the canal at Rome. The w. branch of the Mohawk flows through the N. ⁹ The Brothertown Indians were settled previous to the Revolution on a reservation in this town and Kirkland given them by the Oneidas. They were remnants of New England, Hudson River, and Long Island Indians, who were collected toward the close of the Colonial period, and numbered, when first removed hither, about 400 souls. Coming from many different stocks, they adopted the English language and some of

the arts of civilized life. They were mostly seattered during the war, but afterward returned, and many of them became thrifty farmers; but the greater part acquired the vices of the whites, and a part of them sold out and went to Green Bay. In 1850 the last of the tribe bade adieu to their homes and moved West. Among the early white settlers were Warren Williams, Hezekiah Eastman, Capt. Simeon Hubbard, and Levi Baker. The first birth was that of Col. Lester Baker.

10 Between the Mohawk and Wood Creek was a portage of about 1 mi. in length over level ground. Early in the last century propositions were made to build a road across this point; and in 1796 the Western Inland Navigation Co. constructed a canal between the two streams, and the route speedily became the great thoroughfare of travel. This canal was most of the way on the line of the present Eric Canal, through the village. The Indians called the place Deo-wain-sta, "a carrying place for canoes." Wood Creek was called Kanego-dick. The old canal was constructed under the superintendence of Peter Colt.

SANGERFIELD⁸—was formed from Paris, March 5, 1795. Bridgewater was taken off in 1797. It was transferred from Chenango to Oneida co. April 4, 1804. It is the w. town on the s, line of the co. Its surface is a moderately hilly upland, 700 to 800 ft. above the Mohawk at Utica. The streams are small, and flow N. to the Mohawk and s. to Chenango River. The soil in the valleys is a rich alluvium, and on the hills a gravelly loam. Waterville,4 (p. v.,) near the N. border, contains 4 churches, a bank, an academy, a newspaper office, a saw and grist mill, distillery, and 1,109 inhabitants. Sangerfield Center (Sangerfield p. o.) contains a church and 30 houses; and Stockwell Settlement, in the s. part, about 20 houses. The first settlement was commenced by Zerah Phelps, from Mass., in 1791.3 There are now 7 churches in town.6

STEUBEN' was formed from Whitestown, April 10, 1792. A part of Mexico (Oswego co.) was annexed, and Floyd and Rome were taken off, in 1796; and Leyden (Lewis co.) and Western in 1797. Parts of Steuben's Tract in Western and Remsen were annexed in 1803; and a part was annexed to Remsen in 1809. It lies in the interior, N. E. of the center of the co. Its surface is a hilly, broken upland, rising 800 to 1,200 feet above the Mohawk.8 The streams are small. Cincinnati Creek rises in the interior, and forms part of the E. boundary. The soil is a gravelly loam; and boulders are numerous. Quarries are worked, from which a good quality of building stone is obtained. Steuben Corners (Steuben p.o.) is a hamlet, in the s. part. Steuben Station, on the B. R. & U. R. R., is on the line of Boonville. The first settlement was commenced in 1789,9 under Baron Steuben. The census reports 7 churches in town.10

TRENTON—was formed from Schuyler, (Herkimer co.,) March 24, 1797. It lies upon the w. bank of West Canada Creek, near the center of the E. border of the co. The surface rises from the creek to the height of 400 to 600 feet; and from the summits it spreads out into an upland broken by ridges of drift. Cincinnati Creek flows through the N. part, and Nine Mile Creek through the s. part. The soil is a sandy and clayey loam, best adapted to grazing. The celebrated Trenton Falls, upon West Canada Creek, are within the limits of this town. 11 Trenton, 12 (p. v.,) upon Cincinnati Creek, at the mouth of Steuben Creek, contains 3 churches and 50 houses. Trenton Falls, (p. v.,) a short distance below the Falls, contains a church, gristmill, sawmill, and 20 houses. little w. of the village, in 1813, under the direction of Major James Dalliba. It is still owned by the General Government, but is not in use. In 1784, Gen. Washington came thus far on a tour of business and pleasure. He, in company with Geo. Clinton, owned a tract of land in this co. of about 2,000 acres, comprising a part of Coxborough and Carolina Townships in the town of

westmoreland.

1 Fort Williams, on the Mohawk, and Fort Bull, on Wood Creek, were built on the line between Albany and Oswego about 1725. Fort Bull was surprised by M. De Lery and a party of French and Indians, numbering 362 men, March 27, 1756. The English lost the fort and all the stores which it contained, and 90 men. Forts Williams and Craven, located on the Mohawk, just below Rome, were destroyed by Gen. Webb in 1756, after the reduction of Oswego by the French. Fort Stanwix was begun July 23, 1758, by Brigadier Gen. John Stanwix, of the royal army. It was a square work, with bastions at the corners, and stood a few rods s. of the present park in the village. It was of earth and timber, surrounded by a ditch and mounted with heavy cannon. In June, 1776, Col. Dayton took possession of it and named it Fort Schuyler. It was besieged in 1777 by St. Leger. Within the last few years the ground upon which the fort stood has been leveled; and not a vestige of it now remains. Fort Newport was a small square fort on Wood Creek, built in the French War. An octagonal blockhouse was built about 1795, during the alarm from Western Indian wars.

 ⁷ Named from Baron Steuben. In May, 1786, the Legislature granted him 16,000 acres in this town. He settled soon after, granted him 16,000 acree in this town. He settled soon after, built a log house, and collected a colony of tenants, but did not live to see his contemplated improvements carried out. He was struck by paralysis Nov. 25, 1799, and died 3 days after. He was wrapped in his cloak and laid in the earth with his star of knighthood upon his breast. Shortly before La Fayette's visit in 1826, his remains were taken up and re-interred under a tablet upon raised masonry. His property was mostly bequeathed to Wm. North and Benj. Walker, his aids. His library was given to a young man named Mulligan. Col. Walker gave a Welsh Bap. Society a lease of 50 acres of land, 5 of which was woodland, around the grave, with no other rent than the obligation to keep this woodland fenced and the range of animals prevented therein. This condition is carefully observed.

10 2 M. E., 2 Cong., 2 Bap., and Calv. Meth. 11 This favorite place of resort was first brought to public notice by John Sherman, proprietor of the first public hotel for visitors, erected in 1822. The falls are less interesting from the volume of water and height of fall than for the peculiar wild ness of the surrounding scenery. The ravine through which the stream flows is worn through the Trenton limestone to the depth of 70 to 200 ft. The sides are nearly perpendicular; and the water descends by 5 distinct cascades a total depth of 200 ft. in the space of half a mile. The Indian names Kanata, "dark brown water," and Kuy-a-ho-ra, "slanting water," have been applied to this place. Trenton Village was called One-ti-a-dahque, "in the bone."

12 Incorp. April 19, 1819, as "Oldenbarneveldt," and changed April 26, 1833, to its present name. Its first name was given by Boon, in memory of a Dutch patriot and statesman who perished on the scaffold in 1619, aged 82.—Jones's Oneida, p. 449.

§ An asylum of this kind was recommended by the Governor in 1830, and was annually urged by its friends, until an act was passed, March 10, 1836, appointing 3 commissioners to purchase a site not exceeding \$10,000 in value, and to contract for building. N. Dayton, C. McVean, and R. Withers were appointed; and in 1837 a farm of 120 acres was bought at the joint expense of the State and the citizens of Utica, (\$6,300 of \$16,300), and in that year Wm. Clarke, Francis E. Spinner, and Elam Lynds were appointed commissioners to erect buildings. The first plan (prepared by Clarke) embraced 4 buildings, each 550 feet long, facing outward, connected by open verandas, and inclosing a court of about 13 acres. The main building was erected and the foundations were laid, when the plan was reduced and attention given to finishing the main building. By act of April 7, 1842, the asylum was put in charge of 9 managers, appointed for a term of 3 years each by the Gov. and Senate, a majority of whom must reside within 5 mi. of the asylum. Dr. Amariah Brigham was chosen Superintendent, and upon his death (Sept. 8, 1849) Dr. Nathan D. Benedict succeeded. The present Superintendent is Dr. John P. Gray, who was appointed in 1853.

The building was partially destroyed by a fire set by one of the inmates July 14, 1857. The walls remained standing, and

was appointed in 1853. The walls remained standing and the inmates July 14, 1857. The walls remained standing and the premises have been refitted without interruption of operations, and with improvements far exceeding in safety and convenience those that were destroyed. The sum of \$65,742 was granted in 1858 to rebuild the premises; and the labor is now

Besides the foregoing institutions, there are in the city 10 private schools, 5 banks, and 24 churches.1

The site of the city is included in the colonial grant of 1734, styled Cosby's Manor. Settlement began soon after the Revolution; and in 1787 there were 3 log huts at this place.² The construction of the Seneca Turnpike and of a bridge gave the first impulse to its growth; and the Eric Canal in a few years doubled its business and population. Although the city has experienced disasters, its general growth in wealth and numbers has been steadily forward, and its geographical position, lines of communication, and natural advantages are guarantees of its future increase.3

VERNON-was formed from Westmoreland and Augusta, Feb. 17, 1802. A part of Stockbridge (Madison co.) was taken off in 1836. It lies on the w. border of the co., s. of the center.4 Its surface is rolling, the mean elevation being about 200 ft. above the Mohawk. The principal streams are Oneida Creek, forming the w. boundary, and Skanandoa Creek, 5 flowing through the E. part. The soil is a fine quality of gravelly and clay loam, underlaid by limestone, waterlime, and gypsum. Very few towns in the State surpass this in all the elements of fertility. A mineral spring is found a mi. N. w. of Vernon Center. Vernon, (p. v.,) upon Skanandoa Creek, N. of the center, was incorp. April 6, 1827. It contains 2 churches, the Vernon Academy, a private seminary, bank, newspaper office, and tannery. Pop. 330. Vernon Center (p. v.) contains 2 churches and 30 dwellings. Oneida Castle, (p. v.,) on the w. line, contains a church, academy, and 337 inhabitants, of whom 275 are in this town. Turkey Street is a

nearly completed. The buildings are well supplied with water nearly completed. The buildings are well supplied with water and gas, and have ample fixtures for the extinguishment of fires in future, including steam force pumps, ample reservoirs of water, and pipes for filling the attic and upper rooms with steam. The asylum has shops and gardens for the employment of such as prefer it, and various amusements,—fairs, festivals, musical and theatrical entertainments, books, pictures, innocent games, and such other modes of occupation as are found to exert a salutary influence upon the "mind diseased." The Opal, a monthly magazine, is edited and printed at the asylum by its inmates; and the American Journal of Insanity, a quarterly journal, is conducted by its officers. The aggregate statistics of the asylum from Jan. 16, 1843, to Dec. 1, 1858, have been as follows :-

Of the 5,516 patients received up to Dec. 1, 1858, 4,896 were discharged, of whom 2,226 recovered, 801 were improved, and 1,194 were unimproved; 636 had died, and 39 were not insane. Great success attends the treatment in most cases when received at an early stage; but when the disease has continued a year or more early stage; but when the disease has continued a year of mother the chances of recovery rapidly diminish, and in a few years cease altogether. The asylum is not designed as a hospital for incurables; and when the prospects of recovery or improvement cease, it is its general custom to return patients to their friends

2 Fort Schuyler at this place was built in 1758, and named from Col. Peter, an uncle of Gen. Philip Schuyler. It was a stockaded work, and stood between Main and Mohawk Streets below Second Street. A blockhouse was built before the close of the Revolution on the site of the present depot. Among the early settlers were Uriah Alverson, Philip Morey, Francis Foster, Stephen Potter, Joseph Ballou, Juson Parker, John Cunningham, Jacob Chrestman, and Matthew Hubbell. The first store and inn were kept by John Post, in 1790, on the N. corner of Genesee and Whitesboro' Streets. Post had been a dealer among the Indians, and purchased large quantities of N. corner of Genesee and Whitesboro' Streets. Post had been a dealer among the Indians, and purchased large quantities of ginseng. Some years after, he run 3 "stage boats" for passengers to Schenectady. In 1804, Parker & Stephens received a grant of the sole right of running a stage to Cunandaigna twice every week between May and October. Mails were exceeded from Canajoharie to this place in 1793, the inhabitants along the route paying the expense. Bryan Johnson, in 1797, commenced purchasing produce for cash, and began a business that had been mostly monopolized by the Kanes of Canajoharie. The latter soon removed to Utica; and the spirited rivalry of these men, and others who soon joined in it, zave a wide reputhese men, and others who soon joined in it, gave a wide reputation to the place as a market town. John C. Devereux, Watts Shearman, John Bissell, and Daniel Thomas were also early merchants. Nathan Williams, Erastus Clark, Francis A. Bloodgood, and Joseph Kirkland were early lawyers.

⁴ The territory of this town was included in the original Oneida Reservation. Among the patents granted in town were Olleda Reservation. Among the patents grained in own west. Bleecker's South Patent, Bas Chard's Patent of 4,911 acres, Abraham Van Eps and Rev. John Sargent's Patent. The principal Oneida village was called Kan-on-wall-o-hu-le. A small

remant of this once powerful nation of Indians still live in the s.w. part of the town.

thickly populated farming neighborhood. The first settlements were made in 1794-97.1 The first religious services were held in 1801.2

VERONA—was formed from Westmoreland, Feb. 17, 1802. It lies on the w. border of the co., near the center. Its surface is generally level, slightly rolling in the E., and marshy in the w. Oneida Lake and Creek form the w. boundary, and Wood Creek3 the N. boundary. Several small streams in the town are tributaries to these. The soil is a deep, rich, alluvial loam. There is a mineral spring in the E. part of the town.4 Verona (p. v.) contains 2 churches, a tannery, and 30 houses. Durhamville, (p. v.,) on the w. border, partly in Madison co., contains 2 churches, a glass factory, foundery, tannery, and 1,034 inhabitants. Verona Depot, (p.o.,) a station on the N. Y. C. R. R., contains 10 houses. State Bridge (p. v.) contains 20 houses; Higgiasville (p. v.) 25 houses; New London, (p. v.,) in the N. part, 30 houses; Sconondoa, (p.v.,) in the s. part, on the line of Vernon, 20 houses: Verona Mills (p.v.) 20 houses; Dunbarton a glass factory and 20 houses; and Staceys Basin 10 houses. Settlement was commenced in 1792, by Geo. A. Smith; Rev. Joseph Avery preached the first sermon. There are now 10 churches in town.6

VIENNA7—was formed from Camden, April 3, 1807, as "Orange," Its name was changed to "Bengal," April 6, 1808, and to Vienna, April 12, 1816. A part of Annsville was taken off in 1823. It lies on the w. border of the co., N. of the center. Its surface, rising from Oneida Lake on the s, border to an elevation of about 100 ft., spreads out into a rolling plateau. The N. w. part is hilly. Wood Creek and Oneida Lake form the s. boundary. Fish Creek forms most of the E. boundary, and unites with Wood Creek before it enters Oneida Lake. The w. branch of Fish Creek forms a part of the N. boundary. The soil is a light, sandy loam, underlaid by clay; in the s. w., along Fish Creek, it is alluvium. Good building stone is quarried in the E. part, and large quantities of bog ore have been raised from the marshes near the lake. Vienna, (p. v.,) in the E. part, contains a church and 110 inhabitants. North Bay, (p. v.,) in the s. part, near the lake, contains 2 churches, 3 sawmills, a shingle mill, and 25 houses. McConnellsville, (p. v.,) in the N. part, on the line of Annsville, contains 20 houses; Elpis, a church and 8 houses. Fish Creek Landing contains 20 houses; West Vienna, (p. v.,) on the lake, 20 houses. Fine is a hamlet, in the E. part. The first settlement was commenced near the close of the last century.8 There are now 6 churches in town9.

WESTERN—was formed from Steuben, March 10, 1797. Lee was taken off in 1811. It lies in the interior, N. of the center of the co. Its surface is a hilly upland, broken by numerous gullies worn in the slate by the streams. Mohawk River and Lansing Kil Creek meet near the center and flow s. and s. w. into Rome. The soil in the valleys is alluvium. Stone quarries are worked which have furnished large quantities of stone for the Black River Canal. Westernville (p. v.) contains a church, a tannery, and 287 inhabitants. North Western (p. v.) con-

The first settler was Josiah Bushnell, in 1794. Upon the relinquishment of the Indian title in 1797, a large number of families from Mass. and Conn. came in; and within 2 years every farm in town was taken up. Among the early settlers were families named Hills, Bronson, Wetmore, Holmes, Stone, Gridley, Smith, Bissell, Foot, Goodwin, Frisbie, De Votie, Austin, Stannard, Griswold, Alvord, Thrall, Wilcox, Church, Spencer, Carter, Marshall, Tuttle, Bush, McEwen, Wilcoxson, and Webber, on Bas Chard's location, around Vernon Center; Rev. John Sargent, and families named Codner, Marvin, and McEwen, on Sargent's Patent; Skinner, Lawrence, Shedd, Gratton, Deland, Spaulding, Grant, Kellogg, Tryon. Carter, Moore, Simons, Doane, May, Mahan, Page, Ingraham, Crocker, Graves, Soper, Norton, Dix, Vaughan, Wright, Cody, Kelsey, Raymond, Alling, Haseltine, Carpenter, Hungerford, Burley, and Darling, on the "Reservation;" Griffin, Webster, Stone, Hotchkiss, Warren, Youngs, Willard, Langdon, and Neller, in the s. w. part; Brockway, Upham, Cole, Davis, Blount, Brookins, Day, Frink, Neys, Campbell, Huntington, and Cook, in the N.; and Van Eps Patent. The first death was that of a daughter of Josiah Bushnell, in 1795.

Stephen Parsons preached occasionally. There are now 6 churches in town.2

WESTMORELAND—was formed from Whitestown, April 10, 1792. A part of Whitestown was annexed March 15, 1798. Verona and part of Vernon were taken off in 1802. It is an interior town, lying s. of the center of the co. Its surface is a rolling upland, with a mean elevation of 150 to 250 ft. above the Mohawk. The streams are mostly small brooks. Iron ore has been obtained in large quantities for the Westmoreland, Lenox, Onondaga, and Paris furnaces. Several quarries of fine building stone have been wrought; and from some of these grindstones were formerly manufactured. The soil is principally a gravelly and clayey loam, adapted to grain raising and pasturage. Hampton, (Westmoreland p.o.,) in the E. part of the town, contains 3 churches, several manufactories,3 and 400 inhabitants. Lowell, (p.v.,) in the n.w. part, contains a church and 25 houses. Hecla Works, (p.v.,) s. w. of the center, contains a large furnace4 and 16 houses. Lairdsville,5 (p. v.,) in the s. part, contains a church and 15 houses. Spencer Settlement, on the N. line, and Eureka, 2 mi. s., each contains about 15 houses. The first settlement was made by James Dean, upon a patent granted to him under an act of May 5, 1786.6 The first church (Cong.) was formed Sept. 20, 1792.7

WHITESTOWN⁸—was formed March 7, 1788, and included an indefinite amount of territory extending westward. Steuben, Mexico, Paris, and Westmoreland were taken off in 1792; a part of Cazenovia (Madison co.) in 1795; Augusta and a part of Westmoreland in 1798; Utica in 1817; and New Hartford in 1827. It lies upon the s. bank of the Mohawk, a little s. E. of the center of the co. A broad, flat intervale extends along the Mohawk; and from it the surface rises in gentle slopes about 100 ft. and from the summits spreads out into a rolling upland. Oriskany Creek⁹ flows N. E. through near the center, and Sauquoit Creek through the E. part. The soil is mostly a fine quality of gravelly loam and alluvium, well adapted to grain raising. Whitesboro', 10 (Whitestown p.o.,) in the Mohawk Valley, in the s. E. part of the town, was incorp. March 26, 1813. It contains 4 churches, the Whitestown Seminary, a bank, and several small manufactories. It is a canal and R. R. station. Pop. 953. **Oriskany**, (p. v.,) near the mouth of Oriskany Creek, is a canal village and R. R. station. It contains 5 churches and several extensive manufactories.11 Pop. 711. Yorkville and New York Mills, in the s. part, are manufacturing villages, upon Sauquoit Creek, the former containing about 50 houses and the latter 3 churches and 60 houses. 12 Walesville, (p.o.,) Colemans Mills, and Pleasant Valley are hamlets or thickly settled farming neighborhoods. The first settlement was made by Judge Hugh White and his 5 sons, Daniel C., Joseph, Hugh, jr., Ansel, and Philo, in May, 1784.13 This was the first settlement in the co., and became the nucleus of civilization for Central N. Y. The first church (Presb.) was formed Aug. 20, 1794; the first settled pastor was Rev. Bethuel Dodd. 14

¹ These settlers, with one exception, continued to reside on their first locations until their deaths. Gen. Wm. Floyd, one of the signers of the Declaration of Independence, settled here in 1803, and continued a resident until his death in 1821. ONONDAGA COUNTY.

This county was formed from Herkimer, March 5, 1794, and included the original Military Tract. Cayuga was taken off March 8, 1799; Cortland, April 8, 1808; and a part of Oswego, March 1, 1816. It was named from the Onondaga tribe of Indians, whose principal residence was within its border. It lies near the center of the State, centrally distant 127 mi. from Albany, and contains 812 sq. mi.

Its surface is naturally divided into two nearly equal parts by an E. and w. line, the N. half being nearly level, and the s. broken by ridges of hills and gradually sloping upward to a height of about 1,000 feet on the s. border. These highlands constitute a portion of the most northerly spurs of the Central Allegany Mountains,

where they sink down to a level with the lowlands which surround Lake Ontario. They are divided into five distinct ridges, all having a general N. and s. direction and separated by narrow and deep valleys. The most eastern of these ridges enters the town of Manlius from the E., and extends northward to the immediate vicinity of the Erie Canal, the valley of Limestone Creek forming its w. boundary. Its highest point is 600 to 800 ft. above the valley. The second ridge lies between the valleys of Limestone and Butternut Creeks and embraces the highlands of Fabius and Pompey, the w. part of Manlius, and the E. part of La Fayette and De Witt. In Pompey this range attains an elevation of 1,743 ft. above tide. The lower or N. part of this ridge is subdivided by the deep valley of the w. branch of Limestone Creek. The third range, between the valleys of Butternut and Onondaga Creeks, comprises the highlands of the central part of La Fayette, the w. part of De Witt, and the E. portions of Tully, Onondaga, and Syracuse. Its highest point, in La Fayette, is several hundred ft. lower than the hills of Pompey. The fourth range, between Onondaga and Nine Mile Creeks, comprises the highlands of Otisco, the w. portions of Tully, La Fayette, Onondaga, and Geddes, and the E. portions of Marcellus and Camillus. The highest point of this range, in Otisco, is but a few ft. lower than the highest point of Pompey. The fifth range, lying between Nine Mile Creek and Skaneateles Lake and Outlet, comprises the highlands of Spafford, the w. parts of Marcellus and Camillus, and the E. parts of Skaneateles and Elbridge. Its highest point, Ripley Hill, in Spafford, is 1,981 ft. above tide. The axis of this whole system of highlands, extending through Pompey, Fabius, and Tully, forms a part of the watershed between Susquehanna River and Lake Ontario. The declivities of these hills are generally steep; but their summits are rolling and crowned with forests or cultivated fields.

The geological formation of the co. consists of alternate strata of shale and limestone, overlying each other in nearly horizontal layers. The lowest of these, cropping out on the s. shore of Oneida Lake, is the Clinton group of shale, and successively above these, toward the s., the Niagara limestone, the red and green shales and gypsum belonging to the Onondaga salt group, the waterlime group, Oriskany sandstone, Onondaga limestone, corniferous limestone, Seneca limestone, Marcellus shales, Hamilton shales, Tully limestone, Genesee slate, and Ithaca shales. The last four mentioned are found upon the summits of the southern hills. The salt group occupies the very base of the hills; and the limestones crop out along their declivities in an E. and w. line extending through the center of the co. The celebrated Onondaga Salt Springs are in the deep valley in which Onondaga Lake is situated, and the salt water is found above or within the strata of red shale. The salt wells are 200 to 400 feet deep. The green shales, embracing the hopper-formed strata, the magnesian or vermicular lime, and large quantities of gypsum in isolated masses, lie immediately above the red shales, and form the first declivities of the ranges of hills. The gypsum is extensively quarried, and is one of the most important minerals in the State.¹ Next above these shales is the waterlime stone,—another important and valuable mineral.² The Onondaga limestone

¹ Throughout the gypsum regions are found numerous tunnel-shaped cavities at the surface of the ground, 5 to 30 ft. deep and about the same in circumference. These are supposed to be caused by the underlying rocks being slowly dissolved by the rains, and the earth above falling into the cavity so formed. From year to year new cavities are continually forming.

² This stone is burned and ground, and used for cement. It readily hardens under water, and may be used in all places exposed to continual dampness. It was used in constructing the locks on the Erie Canal, and is used on rail road work throughout the Western States and Canada. It forms one of the most valuable exports of the co.

furnishes a beautiful and valuable building stone; and nearly all of the limestone strata furnish quicklime of a superior quality.

In variety, strength, and fertility, and in all the elements of perpetual productiveness, the soil of this co, is not surpassed by that of any other co. in the State. It is extensively derived from the decomposition of the underlying rocks.1 But the northern towns are nearly all covered with drift, and their soil is generally a light, sandy loam, alternating with heavy clay. The vast deposits of lime upon the hills go far toward enriching the soil of the valleys.2 In the central and N. portions the marshes are covered many feet thick with peat and muck formation, formed by the decaying vegetation of centuries, and furnishing the elements of almost boundless future fertility.3 More than one-half the entire tobacco crop of the State is raised in this co.

The streams of the co. nearly all flow in a northerly direction and discharge their waters through Oswego River into Lake Ontario. In their course from the highlands they often flow over perpendicular ledges and through narrow ravines, forming a great number of beautiful cascades, the principal of which will be more particularly noticed in the description of the different towns. Oswego River, which forms a part of the E. boundary of Lysander, is formed by the junction of Seneca and Oneida Rivers. Seneca Rivers the N. part of the co. from the w. and pursues a winding course until it unites with Oneida River. It is a broad, deep stream, and has upon it one series of rapids, which has been converted into a valuable water-power. In the lower part of its course it contains a broad sweep or bend from a s. E. to a N. W. direction; and at its extreme s, point it receives the Onondaga Outlet from the s. Oneida River, the outlet of Oneida Lake, is a deep, sluggish, crooked stream, 18 mi. in length, and forms a link in the chain of internal navigable waters of the State. Limestone and Butternut Creeks, after flowing through narrow and deep parallel valleys among the hills, unite in the N. part of the town of Manlius, and flow into Chittenango Creek a few mi. above its entrance into Oneida Lake. Onondaga and Nine Mile Creeksthe latter being the outlet of Otisco Lake-both flow into Onondaga Lake. Otisco Inlet, a small stream entering the co. from the s., may be considered the head branch of Nine Mile Creek. Skaneateles Outlet discharges its waters into Seneca River just beyond the w. border of the co. Several small streams take their rise in the s. part of the co., and, flowing s., form the head branches of Tioughnioga River. The principal lakes in the co. are Oneida, Onondaga, and Cross Lakes, upon the level land of the N., and Skaneateles and Otisco Lakes, in deep valleys among the hills of the s. Oneida Lake, extending along the N. E. border of the co., is about 30 mi. in length; and it forms a portion of the chain of the internal navigable waters of the State. Onondaga Lake, celebrated for the salt springs which are found in its immediate vicinity, is about 5 mi. long.6 Cross Lake, upon the N. w. border of the co., is a shallow body of water, about 5 mi. long, and may be considered as simply an enlargement of Seneca River. Skancateles Lake, 16 mi. long, occupies a deep and narrow valley among the hills, and is considered one of the finest sheets of water in the State. The banks along its s. part rise precipitously to a height of several hundred ft., and the scenery is singularly wild and rugged. Toward the N. the summits decline in height, and the land gradually and smoothly slopes down to the very edge of the water, forming a rich and exceedingly beautiful landscape. Otisco Lake is about 4 mi. long, and is nearly surrounded by steep hills, 400 to 800 ft. above its surface. In the region occupied by the waterlime and Onondaga limestone formations are many deep rents and fissures, from 50 to 200 ft. below the surface, some of which contain little sheets of water. These remarkable depressions are evidently the result of

hard soil to work,—being mixed with stones,—but of a most fruitful character. On still farther s. a grazing district takes the place of a wheat growing one. This change, however, may not be due entirely to changes in the composition of the forma-tions. The country has become decidedly hilly. We now find steep slopes, inclined surfaces, deep ravines, rounded hills,—in fine, all the characteristics of good fields and walks for sheep and cows, for sweet grass and pure streams of water."—

and cows, for sweet grass and pure streams of water.—

4 This stream forms the drainage of nearly all of the small lakes in Central N. Y. Large sums of money have been expended in deepening its channel at Jacks Reefs, upon the w. border of the co., for the purpose of draining the extensive marshes near the outlet of Cayuga Lake. The enterprise has been partially successful, and a large amount of valuable land has been reclaimed.

5 The outlet of this lake is navigable; and a canal 7 mi. in

has been reclaimed.

The outlet of this lake is navigable; and a canal 7 mi. in length connects Wood Creek, one of its tributaries, with the Erie Canal at Higginsville.

A low, semi-marshy piece of ground, about 2 mi. in length and 1 in width, extends southward from the head of this lake, and is bordered by steep bluffs 15 to 25 ft. high,—probably the ancient border of the lake. In and around this marsh the salt springs are found. springs are found.

^{1 &}quot;These systems of rocks constitute the basis of our soils; their particles, separated by the action of the elements, have been decomposed and in process of time rendered fruitful. Besides these rocks, we have beds of gravel and rounded stones, that have been brought to us from the far North by water; and that have been brought to us from the far North by water; and we often see large boulders of granitic rocks that were brought here on islands of ice that once drifted about in the sea that, in a period far back in the world's history, submerged all this part of the continent. The springs that flow from the lime rocks deposit tufa,—in many instances in sufficient quantities to make farm fences and to burn lime. So highly are many of these springs charged with carbonate of lime that as soon as the water meets the air it parts with a part of the lime and incrusts leaves and twigs and whatsoever may be encountered. These substances, perhaps, then decay, leaving perfect forms upon the solid rock."—Ag. Address of Hon. George Goddes.

2 "There are large deposits of marl in this co.; one just E. of Syracuse is finely shown by the rail road cutting through it. The great Cicero Swamp is rich in this valuable fertilizer. Lake Sodom, in Manlius, is constantly depositing this mineral; the trees that fall into the lake are whitened with it. Onondaga Lake is surrounded by a marl bed. The lakes of Tully are also marl lakes."—Ag. Address of Hon. Geo. Geddes.

8 "As we go south, the ragged front of the limestone gives us a

subsidence, as the faces of the cliffs are nearly perpendicular, and the surface of the rocks above is much cracked and broken.1

The co. seat is located at the city of Syracuse. The courthouse, a beautiful structure, built of Onondaga limestone and elaborately finished, is situated on W. Genesee St., near the center of the city.2 It is one of the finest buildings of the kind in the State.3 The Onondaga Penitentiary, a city and co. prison and workhouse, is a commodious brick edifice, situated upon an eminence a mi. N. E. of the courthouse. It contains apartments for a jail, and is also used for the imprisonment of criminals sentenced for short terms. Prisoners are received from Oswego and Madison cos. The clerk's office is a fireproof brick building, situated at the corner of Church and North Salina Sts. It contains rooms for the Surrogate and Supervisors. The poorhouse is located upon a farm of 34 acres on Onondaga Hill, 4 mi. s. w. of Syracuse. The average number of inmates is 200, supported at a weekly cost of \$1,26 each. The building is commodious, but poorly ventilated, Little attention is paid to the improvement of the immates; and in accommodations, cleanliness, and attention to the sick and insane, the institution is not above the average of similar institutions in

The Eric Canal extends E. and w. through near the center of the co. The Oswego Canal extends from the Erie at Syracuse, N. through Salina and Clay, to Lake Ontario at Oswego. The N. Y. Central R. R. extends through Manlius, De Witt, Syracuse, Geddes, Camillus, Van Buren, and Elbridge. From Syracuse two divisions of this R. R. extend westward to Rochester, one via Clyde and Lyons, called the New Road, and the other via Auburn and Geneva, called the Old Road. The Oswego & Syracuse R. R. extends from Syracuse N. through Geddes, Van Buren, and Lysander; and the Syracuse, Binghamton & New York R. R. extends from Syracuse s. through Onondaga, De Witt, La Fayette, Fabius, and Tully, uniting with the N. Y. & Erie R. R. at Binghamton. The Union R. R. is a short road extending from the N. terminus of the Binghamton road to the Erie Canal, in Geddes.

Sixteen newspapers are published in the co.; 4 daily, 10 weekly, 1 semi-monthly, and 1 monthly,

1 These lakes are sometimes called "crater lakes," from their peculiar form, and sometimes "green lakes," from the color of their waters.

² The first courts were held in barns and private residences ² The first courts were held in barns and private residences at Onondaga, Levana, on the shore of Cayuga Lake. Cayuga co., and Ovid, Seneca co. The first courthouse was erected at Onondaga Hill, in 1805-06. The commissioners appointed to select the site for the courthouse were Asa Danforth George Ballard, and Roswell Tousley. In 1829 an act was passed to remove the co. seat to the village of Syracuse, and John Smith, Oren Hutchinson, and Samuel Forman were commissioners to select the site. The courthouse was finally built on a lot about midway between the then rival villages of Syracuse and Salina. It was destroyed by fire in 1856, and the present structure was erected soon after. The first co. officers were Seth Phelps, First Judge; Benj. Ledyard, Clerk; John Harris, Sheriff; and Moses De Witt, Surrogate.

The Derne Gazette, established at Manlius in 1806 by Abraham Romeyn, was the first paper published in the co.
At that time an effort was made to change the name
of the village from "Manlius" to "Derne." The paper

At the an enert was made to change the name of the village from "Manlius" to "Derne." The paper was continued about 1 year.

The Herald of the Times was started at Manlius in 1808 by Leonard Kellogg. In 1813 its name was changed to The Manlius Times, and it was successively issued by James Beardley, Seneca Hale, and Daniel Clark. This co. was the chief seat of the Onondaga Nation of Indians, the central of the Five Nations. Their name is said to signify "sons of the hills," or "men of the mountains." To this nation was intrusted the care of the sacred council fire; and upon their territory were held the great councils of the Iroquois, to decide upon peace, war, and matters of general policy. The Onondagas were regarded as particularly a sacred nation; and their chiefs were more influential than those of any other nation. The most authentic accounts of these Indians seem to indicate that they were originally a subordinate tribe, living upon the St. Lawrence near Montreal, and were held in subjection by the Adirondacks, then the most powerful nation of the North. embarking in canoes, went up the St. Lawrence to Lake Ontario, coasted along the lake to the mouth of Oswego River, and went up that river and settled upon the Seneca, near Three River Point. The nation finally divided into five tribes, and the central or Onondaga tribe went up the valley and settled near Onondaga Lake. Upon first entering the co. they found it inhabited by the Alleghans, or "Mound Builders," a tribe supposed to be akin to the Aztec tribes of Mexico. and one considerably acquainted with agriculture. The Iroquois gradually drove them off and took possession of their lands. The celebrated League of the Five Nations is said to have been made about 100 years before the first Dutch colony was planted at Manhattan,-though there are many reasons for believing it was of a much older date. The principal villages of the Onondagas were along the shore of Onondaga Lake and Creek. The first visit ever made by a white person to the Onondaga country of which any record has been preserved was that of Samuel Champlain in 1615.1 In the summer of that year Champlain, with 10 Frenchmen, accompanied a party of Hurons in an attack upon the Iroquois. A battle was fought before the principal fort of the Onondagas; but the invaders were repulsed with loss and were obliged to retreat.2 The French at an early period saw the necessity of obtaining the friendship of the Five Nations, the most powerful of all the Indian tribes. To this end, Jesuit missions were established at an early period, and one of the principal stations was at the seat of the Onondagas. The first missionary that ever visited the Onondaga country was Father Isaac Jogues, in 1642. He was afterward murdered by the Mohawks at Caughnawaga, Montgomery co. In the course of the next hundred years more than 60 missionaries were sent to this region, and at different times many of them were murdered.3 In 1655 a colony of 50 Frenchmen under the guidance of the priests, and with the consent of the Onondagas, made a settlement on the N. shore of Onondaga Lake, near the principal Indian village. For some time the colony flourished, and large numbers of the Indians were converted and baptized; but at length the Indians became jealous of their neighbors, and in March, 1658, they determined to exterminate them. A friendly Indian having exposed the plan, the whites managed to escape.

1 It is possible that some of the French or Spanish adventurers who flocked to this country about the commencement of the sixteenth century may have penetrated into the wilds of Central N. Y. In 1820 a farmer in Pompey found a stone, mostly buried in the earth, upon which was drawn the rude form of a tree with a serpent twined about it, and the inscription, Leo De Lon, VI, 1520. It is supposed that it was placed to mark the grave of some early adventurer.

2 It is supposed that Champlain and his party came in by way

grave of some early adventurer.

2 It is supposed that Champlain and his party came in by way of 0 swego, and across the country to where Brewerton now stands. At this place they captured a party of Onondagas engaged in fishing. They then proceeded to the Onondaga fort, supposed to have been situated on Green Point, about 1 mi. N. w. of the principal salt springs. The fort was assaulted; but it was so bravely defended that the Hurons despaired of taking it, and retreated. They were pursued by the Onondagas until they embarked in their cances upon Lake Ontario.

3 The principal of these missionaries who have left records concerning the Onondaga country are Fathers Le Mercier, Dabion, Cholonec, Le Moyne, Quien, Le Jeune, Ragueneau, and Lallemant. Father Lallemant is the first one who mentions the salt springs, in his journal bearing date of 1645-46. At times these missionaries seemed to meet with considerable success; but the intrigues of the rival French and English Governments, who were striving to secure the friendship of the Indians, con-

who were striving to secure the friendship of the Indians, continually thwarted their work, and rendered their lives at all times insecure.

4 Through the influence of the Mohawks, the Onondagas agreed to murder the French, and the day was fixed for the per-petration of the deed. A young Frenchman, who had obtained considerable influence with the chief, persuaded him to have a considerable influence with the chief, persuaded him to have a general feast a few days previous to the proposed massacre, and, while the Indians were sleeping off the effects of the debauch, the French launched upon the lake several light boats, which they had secretly constructed in the granary or storeroom of the Jesuits' house, and set off as rapidly as possible. The next day the Indians were surprised that the French did not leave their houses, but waited until near night before they broke in. They were completely astonished to find that the French had disapeared, and—ntirely imporant of the construction of the boats peared, and—entirely ignorant of the construction of the boats—they ascribed the escape to supernatural means.

It is reported, upon the authority of the missionaries, that the principal chief of the Onondagas invited the French to establish another colony among them, for the purpose of instructing the Indians in the arts of civilization. Accordingly, in 1665, a number of French families, under the guidance of the missionaries, came into the country and located near the Indian fort and village which stood in the vicinity of the present village of Jamesville. After living in peace for about 3 years, they were visited by a party of Spaniards who came in from the s., and the Indians became jealous of both and murdered them all. It is supposed that several other attempts were made by the French to colonize the country, as numerous remains of French works are found in several places.² In the wars that ensued between the English and French the Onondagas bore their part, and were generally allies of the English. In 1695, Count Frontenac, the French Governor of Canada, invaded the Onondaga country; but he retired after burning a few villages and murdering one old man. During the Revolution the Onondagas espoused the English cause, and many of their warriors, under the leadership of Brant, were engaged in the various attacks upon the frontier settlements. On the 19th of April, 1779, Col. Van Schaick, at the head of 150 men, invaded the Onondaga country by the way of Oneida Lake. A skirmish was fought near the s. w. limits of the present city of Syracuse, in which the Indians were defeated.3 In the fall of the same year, Col. Gansevoort, at the head of 100 men, was detached from Gen. Sullivan's army, at Geneva, and sent through the country of the Cayugas and Onondagas to complete the work of destruction which had been commenced. The villages of the Onondagas were burned, their corn was destroyed, and their sacred council fire was put out. In revenge, small bands of the Indians attacked the defenseless frontier settlements upon the Mohawk and committed the most horrible atrocities.

In 1788 a treaty was made with the Onondagas, in which they ceded to the State all their lands except the Onondaga Reservation.4 The land thus obtained, and another tract lying w. of it, were set apart for bounty lands to Revolutionary soldiers, and became known as the Military Tract.⁵ It included all the lands lying within the original limits of Onondaga co., and now constituting Onondaga, Cayuga, Cortland, and Seneca, and parts of Tompkins, Oswego, and Wayne cos.

1 It is reported that 23 Spaniards came up the Mississippi, Ohio, and Allegany Rivers to Olean, and thence across the country to Onondaga, under the guidance of an Iroquois. They had been informed by the Indians that in the N. there was a lake the banks of which were covered with something shining and white, which they understood to be silver. Their disappointment was great when they found that the Indians meant salt instead. A

quarrel arose between the French and Spaniards, which resulted in the murder of both by the Indians.

² In many of the old fortifications have been found the re-mains of French arms and merchandise, and a variety of re-mains evidently of much older date. The French doubtless mains evidently of much order date. The French doubtes found the fortifications partly built, and took possession of them. In Pompey were found several of these, and a considerable amount of land cleared; and it is supposed that quite a flourishing French settlement was here utterly destroyed at a period not long anterior to the Revolution.

4 The original Onondaga Reservation was a tract of land bounded on the E. by the military townships of Manlius and Pompey, S. by the townships of Pompey and Marcellus, w. by the townships of Marcellus and Camillus, N. by the townships of Camillus and Manlius and the public Reservation bordering upon Onondaga Lake. The N. E. corner was originally at the former N. E. corner of Syracuse. The first white person that took up his residence within the limits of the co. after the Revolution was Ephraim Webster, an Indian trader, who located his trading house on the banks of Onondaga Creek, near its mouth, in 1786. The next year he was accompanied by another trader named Neukerck, who died in the spring of 1787 and was buried near the trading house. In 1788, Asa Danforth and his son Asa, and Comfort Tyler, from Mass., came in, and located on the present site of Onondaga Valley. The salt springs soon became generally known, and attracted many immigrants to this region. The State reserved for salt purposes the territory surrounding the lake and known as the Onondaga Salt Springs Reservation, embracing the greater part of the old town of Salina, now the towns of Salina and Geddes, and the city of Syracuse, all of which, except the land needed for the manufacturing establishments alone, has since been sold. In the treaty with the Indians, the salt springs were to be jointly used by the whites and Indians forever. The salt business immediately became important, and has since kept pace with the growth of the country. It is now one of the most important branches of business carried on in the State, and is constantly increasing.¹

Junius was added to compensate those who drew lots afterward found to belong to the "Boston Ten Towns;" Galen, to supply those who belonged to the Hospital Department, and who at first were not provided for; and Sterling, to satisfy all the remaining claims. The U. S. granted 100 acres to each of the soldiers in Ohio; and it was left optional with them to surrender this claim and receive the whole 600 acres in this State, or to retain the claim and secure but 500 acres. The 100 acres reserved was taken from the s. E. corner of each lot, and became known as the State's Hundred. A charge of 48 shillings was made upon each for the survey; and in default of payment a reserve of 50 acres, known as the Survey Fifty, was made.

1 The first mention in history of the Salt Springs of Onondaga is found in the journal of Father Lallemant, who visited this region in 1645-46. He speaks of a salt spring, and of a fine spring of fresh water, coming out of the same bank, within 80 or 100 paces of each other, on the margin of the lake. Father Le Moyne, who visited the country in 1654, speaks of a spring which the Indians told him was fouled by an evil spirit. He made a personal examination of it, and made some salt from the water, which he carried to Quebec. Other missionaries of an early period make frequent mention of the salt springs; and before the English occupied the country the Indians had learned how to manufacture salt.

learned how to manufacture salt.

At the time of the first settlement the salt spring was located upon the marsh, immediately in the rear of the site of the present Salina pumphouse, and the salt water came up from the bottom. The Indians had excavated a hole, which was constantly filled with water to the surface of the ground. In 1789, Asa Danforth and Comfort Tyler came down from Onnodaga, and brought with them a kettle, which they suspended from a pole supported by 2 crotched sticks; and in this they made the first salt ever manufactured by the present race of settlers. In about 12 hours they made 13 bushels of salt; and, secreting their kettle in the bushes, they went home with the product of their day's labor,—feeling richer than they would had they discovered a mine of gold. For several years it was customary for the settlers from all the surrounding region to bring kettles with

them and manufacture sufficient salt for their own use. The first settlers of Salina came in 1790, and principally located upon the summit of the bluff above the salt springs. Most of them came with the intention of entering into the manufacture of salt. At first kettles suspended from poles were used exclusively; but in a short time it was found more convenient to rest the kettles upon a pile of stones. The "works" were afterward covered to protect the manufacturer from the weather. The first caldron kettle, set in an arch, was used by James Van Vleck, in 1793; and in a short time caldrons were exclusively used. Two kettles were afterward used, and additions have been made from time to time, until 20 to 104 kettles are now put in a single block. The first salt made under a permanent building was manufactured by Elisha Alvord, as agent of the Rederal Company, organized in 1798, and consisting of Asa Danforth, Jedediah Sanger, Daniel Keeler, Thomas Hart, Ebenezer Butler, and Hezekiah Alcott. A new well, about 30 feet deep, was dug a little n. w. of the original one; and a building was erected large enough to contain 32 kettles, set in 8 arches of 4 kettles each. From this time the works increased rapidly in size and number. The manufacture of salt was commenced at Geddes, in 1793, by James Geddes, and in Liverpool about the same time, by John Danforth. The first wells at the old village of Syracuse were opened in 1830. By continuous pumping, the water in the wells becomes less and less salt,—the shallow wells failing first. This renders the constant opening of new wells a matter of necessity. The first solar works were converted in 1821, by a company formed for that purpose. The introduction of the solar vats produced so much opposition that the Legislature was obliged to pass special laws for their protection.

the Legislature was obliged to pass special laws for their protection.

The salt water was at first dipped up by pails and carried to the places for boiling. In 1790 this method was superseded by a pump placed upon a platform above the spring, with open troughs leading to each block. At first each manufacturer pumped water enough for his own use; but in a few years thereafter men were employed to pump for all. As the works increased and were located at a distance from the springs, tines of pump logs were laid from the springs to the various works, and a pump was used for each block, or group of blocks. A horse-power for elevating salt water was used by Asa Danforth, ir., in 1805; and a water-power was obtained from several springs in the vicinity by him soon after. In 1807 or '08, a water-power—obtained by conducting Yellow Brook from the vicinity of the present county clerk's office, in a race, to Salina—was used by John Richardson. All the works in which machinery was used elevated the water by means of a wheel, to which buckets were attached. An experiment was made at an early period to raise salt water by means of steam. An immense tub, placed over the spring and connected with it by tubes, was filed with steam, which was suddenly condensed by the admission of cold water, a vacuum was produced, and the water would rush up with great violence and fill the tub. This experiment was found too costly for general application. In 1821–22 the Coarse Salt Company erected a large pump, worked by machinery driven by the waste water from the canal, for the purpose of supplying themselves with salt water. They also made arrangements to supply others, at certain prices. Up to this time, the greater part of the water had continued to be raised by handpumps. In 1826 the State bought out the pump works of the Coarse Salt Company and enlarged them sufficiently to supply all the manufacturers with brine.

The Salina pumphouse is a fine stone building, completed in 1841, at a cost of about \$30,000. The Syracuse pumphouse, also of stone, was erected in 1858, at a cost of \$50,000. A large ground reservoir has lately been constructed near the Syracuse pumphouse, of sufficient capacity to contain water enough to manufacture 600,000 bushels of salt. The State designs to double its consists immediately.

double its capacity immediately.

The first great improvement made in the manufacture of salt was the introduction of bittern pans, which took place within a few years after the commencement of the business. A great number of experiments have since been made; but the

process of manufacture remains essentially the same as at first. Many experiments have been made to completely separate the impurities from the water before boiling,—but so far without complete success. The addition of alum to the water is found to harden the salt and to render the process of crystallization more perfect. The immense consumption of fuel at the boiling works has almost stripped the surrounding country of wood, rendering that article scarce and high. Late experiments in the use of coal have been completely successful; and by the construction of the Binghamton R. R. an avenue is opened directly to the Pennsylvania coal mines.

In 1797 the Surveyor-General laid out a tract of 15,000 acres, surrounding the lake, known as the Onondaga Salt Springs Reservation, which was set apart for the location of salt works. servation, which was set apart for the location of sait works. It was supposed that this tract was more extensive than would ever be needed; and, pursuant to acts of the Legislature, all, except about 550 acres, was sold in 1822 and 1827. Since that time, however, the State has re-purchased several tracts, and large numbers of solar works have been erected upon private

large numbers of solar works have been erected upon private property. The amount of land at present owned by the State is about 700 acres,

The salt wells are all located in the low lands that surround the lake. Their existence is doubtless owing to the nature and position of the rocks forming the basin of the lake. The Niagara limestone—a solid and almost seamless rock, about 100 ft. thick—crops out 8 miles N. of the springs. In common with all the rocks in the vicinity, it has a dip to the s. of about 26 ft. to the mile. This would make it extend under the lake, forming a floor to the whole valley completely impervious to water. Above this formation are the red shales of the Onondaga salt group, nearly 500 feet in thickness. Observation and experiment have shown that these shales have been removed, by some great force of nature, from the whole valley which extends from ment have shown that these shales have been removed, by some great force of nature, from the whole valley which extends from the w. extremity of the lake several miles up the valley of Onougaga Creek; and the excavation has been filled with drift deposits, consisting chiefly of alternate strata of sand, clay, and gravel. The salt water is found permeated through this drift in all parts of the valley, the strongest being found where the old valley is the deepest. The salt water is probably derived from the dissolving of particles of salt distributed through the whole mass of the green shales and plaster beds, which lie next shows the read shales and which extend rethers many miles above the red shales and which extend perhaps many miles

under the hills. In evidence of the truth of this theory, it is shown that the green shales which have been exposed are full of small hopper-shaped cavities,—the precise shape assumed by crystals of salt when left to form by themselves, and one which no other crystal ever assumes. The water collects in this great basin, and is prevented from overflowing by the impervious floor of Niagara limestone. The waters of the lake are probably prevented from mingling with the salt water by strata of impervious clay and marl. About 50 different wells have been sunk for obtaining salt water, and a great number of experiments have been tried. The depth of the borings has been from 50 to 600 ft.; and in every case where the tubing has been sunk into the strata below the drift no brine has been obtained. Up to 1825 the water was obtained from square holes sunk in the marsh to the depth of about 30 ft. The first wells that were bored were 50 to 80 ft. deep. Subsequent experiment showed that by boring farther out on the marsh the wells could be deeper and a better quality of water could be obtained. A tube sunk to the depth of 414 ft. penetrated a clay bed or the Niagara limestone, and destroyed the well, although at a depth of 392 to 397 ft. a bountiful supply of excellent water was obunder the hills. In evidence of the truth of this theory, it is Magara limestone, and destroyed the went, although at a depth of 392 to 397 ft. a bountiful supply of excellent water was obtained. A boring upon the hills, to the depth of 600 ft., probably penetrated through the limestone and entered the Clinton group below. This last boring was made with the hope of finding rock salt; but not a single salt crystal has ever yet been found here in a natural state.

found here in a natural state.

Wells have been sunk at 4 points, giving to the salt manufacture 4 distinct centers. These are situated respectively at Salina, (now First Ward of Syracuse, 1) Syracuse, Liverpool, and Geddes. The number of wells now in use upon the Salt Springs Reservation is 15, of which 6—from 150 to 310 ft. deep—are at Salina, 6—from 255 to 340 ft. deep—are at Syracuse, and 3—from 80 to 100 ft. deep—are at Liverpool. The Geddes wells have been abandoned, as the water was not sufficiently strong to make the manufacture profitable. The Geddes works are now supplied from the wells at Syracuse.

The strength of the water is tested by an instrument called a salometer, graduated so as to mark pure water 0° and water saturated with salt 100°. The water from the wells as now drawn ranges from 60° to 76°, averaging about 70°. An analysis of the various springs was made in 1837, by Dr. Beck, with the following result:—

The water at the present time does not essentially differ from that last given, a hundred pounds of brine yielding about 17½ lbs. of pure salt. A bushel of salt, weighing 56 lbs., is made from 35 gallons of water. The temperature of the water as it rises from the ground ranges from 50° to 52° Pahrenheit. An analysis of the manufactured salt shows that 96 to 99 per cent. is pure salt, and the remainder is principally sulphate of lime and water. About four-fifths of the salt is made by boiling, and the remainder by solar evaporation. The water in the wells rises to the surface of the ground; thence it is raised by combined suction and force pumps into high reservoirs, from which it is distributed by pump logs to the various works. The machinery for pumping is propelled by water from the canals. The boiling works consist of two parallel arches, generally set with 25 to 30 kettles each. They are covered with a roof, partially open, to allow the egreess of steam; and under the same covers are accommodations for storing and packing the salt. The water at the present time does not essentially differ from thaty open, to show the egress of steam; and under the same covers are accommodations for storing and packing the salt. Each of these works is technically called a "block." A "cistern" is connected with each block, and from it a line of logs conducts the water along the top of the arch, between the rows of kettles, with a spout to each kettle. The greater part of the impurities are precipitated and fall to the bottom of the kettle between the consideration and the consideration of the constitution of the state of the constitution of the same the constitution of the state of the constitution of the same that before the water begins to boil. The pan is removed before the water boils, and the salt is left nearly pure. The kettles usually have a capacity of about 100 gallons, and average in weight about 900 lbs. each. The fuel is applied at one end of the arch, the chimney being situated at the other. Within the past few years several chimneys, ranging from 75 to 150 ft. in height, have been erected, for the purpose of using coal. The blocks are all situated along the canals, or side cuts from them, for convenience in obtaining fuel and in shipping the salt. The number of blocks upon the Reservation reported in 1859 was 312, distributed as follows:—

gravelly loam. Limestone and gypsum are both found in abundance. A large sulphur spring is found in the N. W. corner. Camillus, (p. v.,) on Nine Mile Creek, near the center of the town, was incorp. in 1852; it contains 3 churches, 2 flouring mills, and 552 inhabitants. Amboy, in the N. E. part, contains a church and 170 inhabitants. Belle Isle, (p. v.,) on the canal, 1 mi. E. of Amboy, contains 1 church and 140 inhabitants. Fairmount is a p.o. near the E. border. The first settler was Capt. Isaac Lindsay, who located upon Lot 80 in 1790.2 The first church (Presb.) was formed in 1817. There are 6 churches in town.3

CICERO—was formed from Lysander, Feb. 20, 1807. Clay was taken off in 1827. It lies upon Oneida Lake, in the N.E. corner of the co. Its surface is level or very slightly undulating. An extensive swamp in the s. E part occupies one-third of the entire surface,4 and another considerable swamp extends along the lake shore w. of South Bay. The soil is a clayey and sandy loam. Cicero Corners, (Cicero p.o.,) near the center of the w. line, contains 2 churches and 242 inhabitants. Brewerton, (p. v.,) on the outlet of Oneida Lake, contains 2 churches and 621 inhabitants, of whom 421 are in this town. South Bay and Frenchmans Island are places of resort for pleasure seekers.⁵ Fort Brewerton, ⁶ one of the line of English fortifications between Oswego and the Mohawk Valley, was situated in Oswego co., on the shore of Oneida Outlet, opposite the present village of Brewerton. The first settlement was made by --- Dexter, a blacksmith, who located on the river, opposite the fort, in 1790.7 The first church (Presb.) was formed at Cicero Corners, in 1819; Rev. James Shepard was the first preacher. The census reports 6 churches in town.8

CLAY—was formed from Cicero, April 16, 1827. It is the central town upon the N. border of the co. Its surface is very flat, and but little elevated above the level of Oneida Lake. Seneca River forms the w. and Oneida River the N. boundary. These streams are sluggish; and along the latter is an extensive swampy region. The soil is in part clayey, and in part a light sandy loam. Fruit and onions are largely produced. Belgium, (Clay p.o.,) upon Seneca River, contains a church and 190 inhabitants; **Euclid** (p. v.) 2 churches and 140 inhabitants; **Cen**terville, (Plank Road p. o.,) on the line of Cicero, 2 churches and 111 inhabitants. Three River Point (p. v.) lies at the junction of Oneida and Seneca Rivers, in the N. W. corner. 10 Pop. 90. The first settler was Patrick McGee, who located at Three River Point, in 1793.11 The first church (Evang. Luth.) was located in the N. E. part of the town. The census reports 4 churches.¹²

DEWITT¹³—was formed from Manlius, April 12, 1835. A portion of Syracuse was annexed in 1858. It is an interior town, lying N. E. of the center of the co. The N. half is level, and the s. broken and hilly. The declivities of the hills are usually steep, and their summits are 500 to 700 ft. above the valleys. Butternut Creek, flowing N., divides the highlands into two nearly equal ridges. Upon this stream are several fine mill sites. In the s. w. corner, about 1 mi. n. w. of

than 15,000 sq. ft. The vats are usually arranged in three different grades, the water being drawn down at different times, and the grades, the water being drawn down at different times, and the salt being allowed to crystallize only in the lowest one. In this process the impurities nearly all crystallize before the brine is drawn into the last series of vats, leaving pure salt. It is found that, on an average, the covers can be taken off only 70 days in a season. More than 500 acres are now covered by solar works; and the aggregate number of covers is 30,786, and the amount of evaporating surface 8,403,840 sq. ft. The solar salt is much coarser than that produced by boiling. Large quantities of both kinds are ground for dairy and table purposes. The aggregate amount of bushels of salt manufactured in 1858 was as follows: follows:-

The State levies a duty of one cent per bushel on all salt manufactured; and from the revenue so derived the State works are kept up. The salt is usually packed in bbls., each containing 280 lbs., or 5 bushels. The ground salt, for table and dairy use, is packed in sacks, containing 14, 20, or 28 lbs., and in small boxes. The barrels are principally manufactured in the towns lying N. of the city.

4 The principal manufactures are waterlime and plaster. The Orville (navigable) feeder of the Eric Canal and the S. B. & N. Y. B. R. afford ample facilities for transportation.

5 Locally known as "Britton Settlement."

6 Among other early settlers were Daniel Keeler, Dr. Holbrook, Jeremiah Jackson, Stephen Angel, Stephen Hungerford, John Young, Jeremiah and James Gould, William Bends, Roger Merrill, Caleb Northrup, and Benjamin Sanford,—all of whom located in the town between 1790 and 1800. The first child born was Sarah Morehouse, Feb. 16, 1790; and the first death was that of Egbert De Witt, May 30, 1793. Polly Hibbard taught the first school, in 1795; Benjamin Morehouse kept the first into 1799; and Asa Danforth built the first swmil, in 1792, and in 1790; and Asa Danforth built the first sawmill, in 1792, and

8 In the "part of the town, at the time of the first settlement, were found the remains of three distinct fortifications: one was square, one quadrangular, and one circular. When first discovered, the embankments were 3 feet high; and upon

one of them stood an oak tree 4 ft. in diameter. These works were each situated near a living spring of water. The remains of various articles found here seem to indicate that these fortifications were known to the French.

The channel of this river at Jacks Reefs has been deepened by the State, for the purpose of draining the Cayuga marshes. The work was commenced in 1854 and finished in 1857, under the superintendence of Hon. George Geddes. More than 200,000 yards of rock cutting were removed, and the marshes were drained as far west as Musquito Point. The cost was \$156,000. (— years previous to this work a deep channel was excavated for a distance of — mi., near Oswego River, at an expense of cheet \$100,000. about \$100,000.)

11 The old elm tree under which Mr. Buck and family took shelter before their house was built is still standing, a little w. of the house of Col. John Munro. Among the other early settlers were Robert Fulton, James Strong, Col. Chandler, Dr. Pickard, — Potter, Jas. Wiesner, Wm. Stevens, Dr. John Frisbie, Zenas and Aaron Wright, Martin Tickner, Reynolds Corey, Isaac Smith, Jonathan Rowley, Jonathan Babcock, Moses Carpenter, Squire Munro, Exra and John Brackett, and Joseph and Aaron Colman. John Healy taught the first school, in 1801; Josiah Buck kept the first in, in 1793; Wm. Stevens kept the first store and built the first sawmill, in 1797; and Isaac Strong the first gristmill, in 1798.

13 The town at first embraced the military townships of Fabius
and Tully, each 10 mi. square. The 8. half of the township of
Fabius was erected into the town of Truxton, and now constitutes the N. part of Truxton and Cuyler.

E. and w. borders flow N. into Limestone and Butternut Creeks. A small lake, known as "Labrador Pond," lies at the w. foot of South Hill. The soil is generally a fine quality of gravelly loam, intermixed in places with clay and sand. Along the stream w. of Fabius Village is considerable swamp land. From its elevation, and the broken character of its surface, this town is best adapted to pasturage. Dairying is the principal occupation of the people; and in the amount of dairy products it is the first town in the co. and among the first in the State. Fabius² (p. v.) is situated on a small stream, N. E. of the center of the town. Pop. 472. Apulia (p. v.) is a station of the S. B. & N. Y. R. R., in the w. part of the town. Pop. 140. Gooseville is a hamlet, in the N. E. corner. The first settlers were Josiah Moore and Timothy Jerome, from Stockbridge, Mass., who came in 1794.3 The first church (Presb.) was formed at Apulia, in 1804; and the first pastor was Rev. Mr. Osborne. The first church edifice erected was a Bap., at Fabius Village, in 1806.4

GEDDES5-was formed from Salina, March 18, 1848 It lies upon the w. bank of Onondaga Lake, a little N. of the center of the co. Its surface is level in the N. and rolling in the s. In the s. E. part are several isolated, rounded drift hills, or knolls. Seneca River forms the N. boundary, and Onondaga Creek a part of the E. Nine Mile Creek flows E, through near the center. The soil is a clayey and sandy loam. Near the s. w. extremity of the lake are several salt wells.6 The New York State Asylum for Idiots is in the E. part, near the line of Syracuse; and the S. B. & N. Y. R. R. coal depot is on the canal. In the s. E. part are extensive stone quarries, Geddes, (p. v.,) in the s. E. part, was incorp. April 20, 1832. It contains 2 churches, a brewery and distillery, and a large number of salt works. Pop. 950. The first settlement was commenced by James Geddes, in 1794.7 The census reports 2 churches; Prot. E. and M. E.

LA FAYETTE-was formed from Pompey and the Onondaga Reservation, April 15, 1825. It lies s. E. of the center of the co. Its surface is hilly and broken. Butternut Creek flows N. through the E. part, and Onondaga Creek through the w. The high ridge between the valleys of these streams has steep declivities, and its summit is 300 to 600 feet high. Conklings Brook, in the s. E. part, flows from the E., and within the space of 1 mile it descends 500 ft. generally a sandy and gravelly loam; and a portion is thickly covered with large, water-worn pebbles. About one-half of the Onondaga Indian Reservation lies in the N. w corner of this town. La Fayette, (p. v.,) on the ridge near the center of the town, contains 1 church and 35 houses; and Cardiff, (p. v.,) on Onondaga Creek, a church and 25 houses. Linn is a p. o., in the s. E. part. The first settler was John Wilcox, who located upon Lot 14 in 1791.8 The first church (Cong.) was formed in Oct. 1809; Rev. Benj. Bell was the first preacher. There are 2 churches in town; Cong. and M. E.

LYSANDER—was formed March 5, 1794. Hannibal (Oswego co.) was taken off in 1806, and Cicero in 1807. It is the N. w. corner town in the co. Its surface is level and somewhat swampy in the E., and gently rolling in the w. Seneca River forms its s. and E. boundaries. This stream takes the name of Oswego River, below the mouth of the outlet of Oneida Lake. In the s. w. part is a slight fall in the river, known as Jacks Rifts. At Baldwinsville is a fall of 7 ft., affording a valuable water-power. Mud Lake, a large pond s. w. of the center, covers an area of about 300 acres. The soil is a sandy and gravelly loam, with occasional patches of clay, formed by the disintegration of the red shales. Baldwinsville, (p. v.,) on Seneca River, was incorp. in 1848. It contains a union school, a scythe factory, ax factory, tannery, several extensive

⁸ Among the other early settlers were Capt. Ebenezer Belden. Col. Elijah St. John, Thomas Miles, Jonathan Stanley. Abel Webster, James Harris, John Wallace, Thos. and Simeou Keeney, Jacob Penoyer, and Abel Pixley. The first child born was Charles Moore, in 1798; the first marriages, those of Abel Webster and Lydia Keeney. and of Luther St. John and Polly Joy, in 1804; and the first death, that of Josiah Moore, in 1802. A colored man belonging to Simeon Keeney died about the Joy, in 1804; and the first death, that of Josiah Moore, in 1802. A colored man belonging to Simeon Keeney died about the same time from drinking too much maple syrup. The first school was taught by Miss Jerome. (afterward wife of Judge James Geddes.) in the E. part of the town; Ennice Fowlet taught the first school near Apulia, in 1802-03. The first inns were kept by Josiah Tubbs. near Tully, in 1797, and by Capt. St. John, at Apulia, in 1802: David Caldwell kept the first store, in 1804; Thos Miles built the first sawmill, in 1800; and John Meeker the first grist mill, in 1808.

4 There are 6 churches in town; M. E. and Cong. at Apulia, and Bap., M. E., F. W. Bap., and Univ. at Fabius.

⁵ Named from Hon. James Geddes, first settler.
⁶ The first salt well was dug by James Geddes, in 1796. The Indians claimed the springs w. of the lake; but they adopted Mr. Geddes into their tribe, and allowed him to go on with his works. There are now in town 46 fine salt works, and 7,442

works. There are now in town 40 nne sait works, and 7,442 coarse sait covers. See page 479.

7 Among the other early settlers were Freeman Hughs and James Lamb. Nancy Root taught the first school. in 1803; James Lamb kept the first inn, in 1803; and Noah Smith built the first sawmill, in 1825.

⁸ Comfort Rounds and Wm. Haskens located in town in 1792; 8 Comfort Rounds and Wm. Zenas and Ozias Northway, and Isaac Hull, soon after. The first child born was Amy Wilcox, in 1791; the first marriage, that of Solomon Owen and Lois Rounds, in 1793; and the first death, that of Moses De Witt, in 1794. Rev. Amaziah Branch was the first teacher; — Cheney kept the first inn; Stoughen Morae the first after: and James Sherman built the first ton Morse the first store; and James Sherman built the first sawmill, in 1795.

flouring and saw mills, a newspaper office, furnace, machine shop, and a large distillery. Pop. 1.675.—of which 1,115 are in this town and 560 in Van Buren. Betts Corners (Lysander p. o.) contains 3 churches and 35 houses; Little Utica, 1 church and 30 houses; Plainville (p. v.) a church and 218 inhabitants; and Jacksonville (Polkville p. o.) a church and 25 houses. Lamsons (p. o) is a R. R. station. The first settler within the present limits of the town was Jonathan Palmer, a Revolutionary soldier, who drew Lot 36, and located upon it in 1793.1 The first church (Presb.) was formed in 1813.2

MANLIUS—was formed March 5, 1794. A part of Onondaga was taken off in 1798, a part of Salina in 1809, and De Witt in 1835. It lies on the E. border of the co., N. of the center. The surface of the N. half is level, and that of the s. half rolling and hilly. Limestone Creek flows N. through near the center of the town, and at the northern extremity it receives Butternut Creek from the w., and the two united streams flow into Chittenango Creek, which latter stream forms the N. E. boundary of the town. A few rods s. of the canal, near the center, are two small lakes, similar in character to those already described in De Witt, but somewhat larger. They are known as the "Green Lakes." In the s. w. corner of the town is another small pond of the same kind.3 The E. branch of Limestone Creek, near the s. border of the town, falls down a limestone precipice 100 ft., forming a beautiful cascade. Several sulphur and other mineral springs are found in town, but none of any considerable note.4 In the w. part are extensive quarries, from which are obtained immense quantities of waterlime, quicklime and gypsum. The soil is a deep, fertile alluvium in the N., and a sandy and clayey loam in the s. Manlius, (p. v.,) on Limestone Creek, near the s. line of the town, was incorp. March 12, 1813. It contains the Manlius Academy, a union school, 4 churches, 2 carriage factories, 2 flouring mills, an ax factory, 2 founderies, and a paper mill. Pop. 934. Fayetteville, (p. v.,) on Limestone Creek, 2 mi. N. w. from Manlius, and 1 mi. from the Erie Canal, with which it is connected by a navigable feeder, was incorp. May 6, 1844. It is finely situated on a gentle elevation, and has a number of valuable water-privileges.⁵ It contains 4 churches, a union school, a bank, 2 large flouring mills, 3 sawmills, I pearl barley mill, I paper mill, I sash blind and door factory, 3 lime and plaster mills, I tannery, 1 foundery and machine shop, 1 wheelbarrow factory and 1 cradle factory, 5 carriage factories, and several large establishments for the manufacture of lime, plaster, and waterlime.6 Pop. in 1859, 1,376. Manlius Center (p. v.) is a canal village, containing 40 houses. Manlius Station (p. v.) and Kirkville (p. v.) are small villages and stations upon the Central R. R. High Bridge, in the s. w. part, contains a church, 2 plaster and lime mills, a sawmill, gristmill, and 20 houses. Matthews Mills, (North Manlius p. o.,) Eagle Village, and Hartsville are hamlets. The first settlers were David Tripp, who located 1 mi. N. w. of the present site of Manlius Village, and James Foster, who located on the present site of Eagle Village, in 1790.8 The first church (Prot. E.) was formed in 1798; Rev. Mr. Nash was the first preacher.9

MARCELLUS-was formed March 5, 1794. A part of Onondaga was taken off in 1798; Camillus in 1799; a part of Otisco in 1806; and Skaneateles in 1830. A part of Sempronius

Lindsay, Ebenezer Wells, James Cowan, Abuer and Manly Vickery, Job Lemis, and Dr. Jonas C. Baldwin. Dr. Baldwin was the early proprietor and founder of Baldwinswille. He built the first saw and grist mills, in 1807; and opened the first store, during the same year. By his energy, the place soon became an important manfacturing village. Daniel Ayers kept the first inn. The first child born was John Toll.

2 The census reports 9 churches in town; 4 M. E., 2 Presb., Bap., Ref. Prot. D., and Christian.

3 Among the hills are several other deep chasms; but they do not contain water. Some of them are filled with ice during the winter, and thus become natural icehouses during the greater part of the summer. The nature and origin of these remarkable depressions have given rise to many speculations and theories on the part of geologists and other men of science.

4 Deep Spring, called by the Indians Te-uugh-sat-a-yagh, is a spring 60 ff. in diameter, on the E. line of the town, near the old Seneca Turnpike.

8 Among the other early settlers were Joshua Knowlton and Origen Eaton, on the site of Fayetteville, in 1791; Cornad Lour, Cyrus Kinnie, and John A Shaeffer, in 1792; and Caleb Pratt, Capt. Joseph Williams, Wm. Ward, Col. Elijah Phillips, Charles Mulholland, Charles Moseley, Dr. Sturtevant, Alvan-Marsh, and Dr. Ward, all of whom came previous to 1800. The first child born was Baron Steuben Shaeffer, in 1794. It is related that on the night of his birth Baron Steuben and a party of friends put up at Mr. Shaeffer's, who then kept an inn on the present site of Manlius. The baron was much disturbed during the night, and in the morning severely reprimanded Mr. S. for allowing his guests to be so annoyed that they could not sleep. Upon seeing the infant, he apologized for his ebullition of temper, bestowed his own name upon the child, and gave him a deed of 250 acres of land. The first marriage was that of Nicholas Phillips and Katy Garlock, Jan. 14, 1793; and the first death, that of the father of David Tripp, in 1792; Samuel Edwards taught the first school, in James Foster's barn; James Foster kept the first inn, in 1790; Charles Moseley the first store, in 1793; Elijah Phillips and three others built the first sawmill, in 1792-93; and Wm. Ward the first gristmill, in 1794.

(Cayuga co.) was annexed in 1804, and a part of Spafford in 1840. It is an interior town, lying s. w. of the center of the co. Its surface is a rolling upland, broken by the deep valley of Nine Mile Creek, which extends N. and S. through the center. The declivities which border upon the creek are steep, and 200 to 500 ft. high. Upon the creek are several falls, furnishing a large amount of water-power. Lime and plaster both abound. The soil is generally a deep, black loam, formed by the decomposition of the Marcellus shales, intermixed to some extent with clay. Manufacturing is carried on to a limited extent along Nine Mile Creek. Marcellus, (p. v.,) on the creek, near the center of the town, was incorp. April 29, 1853; it contains 4 churches, a woolen factory, and grist mill. Pop. 380. Marcellus Falls (p. v.) contains a gristmill, sawmill, and 2 paper mills. Pop. 200. Marietta, (p. v.,) upon Nine Mile Creek, in the s. part, contains 30 houses. Clintonville is a hamlet. Thorn Hill (p. o.) is a hamlet in the s. w. part. The first settler was Wm. Cobb, who located on the E. hill in 1794. The first church edifice (Union) was built in 1803; Rev. — Atwater was the first preacher.2

ONONDAGA—was formed from Marcellus, Pompey, and Manlius, March 9, 1798. A part of Salina was taken off in 1809, and a part of Camillus in 1834. The surface is mostly a rolling and hilly upland, separated into two ridges by the valley of Onondaga Creek. The E. ridge is rocky and broken, and the w. is generally smooth and rolling. A fine, wide intervale extends along the creek, and is bordered by steep hillsides, the summits of which are 200 to 400 ft. high. A valley, forming a natural pass between Onondaga and Nine Mile Creeks, extends s. w. through the town. Along the N. line the highlands w. of the valley descend abruptly to the N., presenting in some places the face of a nearly perpendicular precipice 100 to 150 ft. high. This declivity is known as Split Rock. Upon these cliffs is an outcrop of Onondaga limestone, which is extensively quarried for building purposes.3 The Split Rock stone quarry is near the N. W. corner. The soil in the valley is a sandy and gravelly loam, and on the uplands a gravelly and clayey loam. Lime and waterline are both largely manufactured. About one-half of the Onondaga Indian Reservation lies in the s. E. part of this town. Onondaga Hill, (Onondaga p. o.,) on the hill w. of the creek, contains a church and 53 dwellings. Onondaga Valley (p. v.) contains 2 churches and the Onondaga Academy. Pop. 385. South Onondaga (p. v.) contains 2 churches, several mills, and a population of 290. Navarino, (p. v.,) in the s. w. corner, near the line of Marcellus, contains a church and 115 inhabitants. Onondaga Castle is a p. o. near the Indian Reservation. Howlet Hill is a p. o. in the N. W. corner; and West Onondaga a p. o. near the w. line. The first white man who lived in this town and vicinity was Ephraim Webster,⁵ an Indian trader. The first permanent settlers were Asa Danforth, his son Asa, from Mass., and Comfort Tyler, a young man who accompanied them,-all of whom located upon a lot a little s. of Onondaga Hollow. This was the first settlement made in the co.7 Rev. Samuel Kirkland, a

1 Among the other early settlers were Cyrus Holcomb, — Bowen, — Cady, Samuel Tyler, Dan Bradley, Samuel Rice, Nathan Kelsey, Thomas Miller, Bigelow Lawrence, Martin Cossitt, and Samuel Wheadon,—all of whom located previous to 1800. The town rapidly filled up with settlers, principally from Mass. The first child born was a daughter of Wm. Cobb. Miss Asenith Lawrence taught the first school, in the summer of 1796; Dea. Samuel Rice kept the first inn, in 1796; Elnathan Beach the first store, in 1796; Dan Bradley and Samuel Rice built the first sawmill, in 1795–96; and May & Sayles the first gristmill, in 1800. gristmill, in 1800.

4 For many years after the organization of Onondaga co. the co. seat was located at this village. It was a place of considerable business, and the most important village upon the Seneca Turnpike w. of Whitestown. For a long time its only business rivals were Salina, or "Salt Point," and Onondaga Hollow; but, on account of the healthfulness of its situation, the Hill maintained its superiority until the completion of the Eric Canal, in 1825. It is now a mere hamlet.

5 Mr. Webster was a native of N. H., and served 3 years in the army during the Revolution. After the war he became an Indian trader; and, in consequence of his thorough knowledge of the Indian language, he was employed as an interpreter in several of the councils between the whites and Indians. In 1786 he erected a trading house on the banks of Onondaga Creek, near its mouth, and continued his traffic there for several years. He married an Indian woman; and, becoming a great favorite, the tribe made him a present of a square mile of land upon

Onondaga Creek, a little s. of the present village of Onondaga Valley. The Indians also granted him 300 acree near the N. w. corner of the present reservation. He afterward married a white woman, by whom he had a large family of children. He was employed by the Government as a spy, interpreter, and counselor during the Indian wars that followed the Revolution; and he was in active service during the last war with Great Britain. For many years he was Indian Agent, and probably had more influence with the Onondaga tribe than any other white man. He died in 1825. One of his Indian children—Harry Webster—is now chief of the Onondaga Nation.

On Mr. Danforth was the pioneer, and one of the most energetic and prominent of the early settlers of the co. He erected the first sextlemall and gristmill in the co., on Butternut Creek, near Jamesville; and during the many years of privation which followed the first sextlement, his cabin was always the velcome home of the distressed and suffering settlers. He held at different times the offices of Judge of Common Pleas, Superintendent of the Salt Springs, and Major General in the State Militia. He died in 1818.

Brown, Arthur Patterson, Job Tyler, Peter Tenbroeck, —— Lewis, Cornelius Longstreet, Peter Young, Joseph Forman, John Adams, Geo, Kibbe, Wm. and Gordon Needham, Wm. H. Sabine, Jasper Hopper, Aaron Belows, George Hall, Joseph Swan, Thaddeus M. Wood, Jonas C. Baldwin, and Daniel and Nehemiah H. Earll. The first marriage was that of Ephraim Webster and an Indian woman, in 1789 The wife soon after died, and Mr. Webster took another Indian wife, agreeing to live with her as long as she kept sober. He lived with her nearly 20 years. As the settlement began to advance, he was desirous of obtaining a white wife, and to this end endeavored to make his wife drunk. For a long time she resisted every attempt; but at last, with the aid of milk punch, he succeeded. The next morning she left without speaking a 7 Among the other settlers who came soon after Mr. Danforth

OTISCO-was formed from Pompey, Marcellus, and Tully, March 21, 1806. It is an interior town, lying s. w. of the center of the co. Its surface is principally occupied by the high ridge between the valleys of Onondaga Creek and Otisco Lake. The declivities of the hills are generally steep and the summits rolling, and elevated 800 to 1,000 ft. above the valleys and 1,600 to 1,700 above tide. Otisco Lake is 772 ft. above tide. It lies upon the w. border of the town, in a valley 1,000 ft. below the summits of the hills. Bear Mountain,2 in the N. w. part, overhanging the valley of Onondaga Creek, is one of the principal elevations. The soil is generally a sandy or gravelly loam, mixed with clay, and well adapted to grazing. Otisco, (p. v.,) situated upon the high ridge near the center of the town, contains 30 houses; and Amber, (p. v.,) at the foot of Otisco Lake, 25. Maple Grove is a p. o. in the N. E. corner. The first settler was Chauncey Rust, from Northampton, Mass., who moved his family from La Fayette in April, 1801. During this year and the following, a large number of settlers arrived, principally from Mass. and Conn. and the whole town filled up rapidly.³ The first religious service was a prayer meeting, held in Sept. 1801, at the house of — Rust. The first church (Cong.) was formed May 9, 1803, by Rev. Hugh Wallace. There are now two churches in town; Cong. and M. E. This town is noted for being the birthplace and residence of several persons of distinguished literary reputation.4

POMPEY5—was formed in Jan. 1789. Fabius and a part of Onondaga were taken off in 1798; a part of Otisco in 1806; and La Fayette in 1825. It lies on the E. border of the co., s. of the center, and upon the high, rolling ridge which lies between the E. branch of Limestone Creek and Butternut Creek. The highest summit is 906 feet above the surface of Butternut Creek, near the La Fayette R. R. station, 1,343 ft. above the canal at Syracuse and 1,743 ft. above tide. The general ridge is subdivided into 3 ridges by the valleys of the 2 w. branches of Limestone Creek. These valleys are 200 to 300 ft. below the summits and are bordered by steep hillsides. The streams that drain the s. part of the town flow in a southerly direction. Pratts Falls, upon the w. branch of Limestone Creek, are 137 ft. high; and within a few rods of them are several other fine cascades. Near the N. line, upon the same creek, is a cascade of 70 ft. Just E. of the co. line, near Delphi, on the E. branch of the same stream, are 2 other fine cascades. Carpenters Pond, in the s. E. part, covers an area of about 30 acres. The soil is a strong, clayey loam. Pompey Hill, (Pompey p. o.,) on the summit of the ridge, contains 5 churches and the Pompey Academy. Pop. 270. Delphi, (p. v.,) upon Limestone Creek, in the s. E. corner, contains 3 churches and 219 inhabitants. Watervale, (p. v.,) upon Limestone Creek, N. of the center, contains a grist and saw mill and 20 houses. Oran, (p. v.,) in the N. E. corner, contains a church and 82 inhabitants. **Pompey Center**⁷ (p. o.) is a hamlet. In the s. E. corner, above Delphi, are an edge tool factory, and a woolen mill not in operation. 3 Among the first settlers were Jonathan B. Nichols, Charles and Benoni Merriman, Solomon Judd, and Lemon Gaylord, in 1801; Otis Baker, Noah Parsons, Nathaniel Loomis. Amos and Isaac Cowles, in 1802; and Benjamin Cowles, Josiah Clark, Daniel Bennett, Elias and Jared Thayer, Henry Elethrop. Samuel, Ebenezer, and Luther French, Jared and Noah Parsons, and Rufus Clapp, soon after. Lucy Cowles (afterward wife of Rev. Geo. Colton) taught the first school, in 1802. The first child born was Timothy Rust, March 22, 1802; and the first death, that of Nathaniel Dady, jr., killed by the fall of a tree, July 19, 1802. Dan'l Bennett kept the first inn, in 1802; and Michael Johnson the first store, in 1808. Charles Merriman built the first gristmill, in 1806.

4 Willis Gaylord, widely known as the editor of the Genesee Farmer and Albany Cultivator, and as a refined and graceful contributor to the light literature of the day, came into town with his father, from Bristol, Conn., in 1801. He was then 9 years of age; and he resided here until a few years before his death, which occurred in 1844. Willis and Lewis Gaylord Clark, twin brothers, were born in this town in April, 1808. The former is known as a poet, the author of "Oilipodiana," and as the editor of the Philadelphia Gazette; and the latter has obtained a national reputation as the editor of the Knickerbocker Maganational reputation as the editor of the Knickerbocker Maga-

8 Moses Blower and Moses Savage came in the same year.
Among the early settlers upon the hills were Artenus Bisbop,
Josiah Holbrook, Timothy Sweet, John and Samuel Jerome,
Joseph Smith, Jesse Butler, Dr. Deodatus Clarke, Jacob Hoar,
Jas. Olcott, Trueworthy Cook, Selah Cook, Noadiah and Epiphas Olcott, Dr. Samuel Beach, and families named Hinsdale,
Hibbard, Messenger, Western, and Daniel Allen. The early
settlers in the E. hollow were Samuel Draper, James McClure,
Wm. Cook, Ozias Burr, Elihu Barber, John Lamb, Daniel
Thomas, — Savage, Daniel Hubbard, Wm. Shankland, and
David Sweet. The first child born was Sally Hoar, about 1794;
the first male child born was Orange Butler; the first marriage
was that of Zachariah Kinne and Diadama Barnes; and the first
death, that of Mrs. Jas. Cravath. Samuel Clement taught the
first school in the town and co., on Lot 28, in 1794. Ebenezer
Butler kept the first inn, in 1792; Henry Seymour the first store;

was Rev. Mr. Robbins, a missionary from Conn. Several eminent personages, distinguished in the fields of politics, literature, and art, were natives of this town, prominent among whom are Sara J. Clarke, (now Mrs. Sara J. Lippincott, better known as "Grace Greenwood,") Ex-Gov. Horatio Seymour, Charles Mason, late Commissioner of Patents, and Erastus D. Palmer, the sculptor,

SALINA—was formed from Manlius and Onondaga, March 27, 1809. Syracuse was taken off in 1847, and Geddes in 1848. It lies upon the E. bank of Onondaga Lake, N. of the center of the co. Its surface is level or gently undulating. Mud Creek, in the s.E. part, and its tributary, Bear Trap Creek, are the only streams. Along their course is a considerable amount of swamp land. The soil is principally a sandy loam, with occasional intervales of tough clay. The people are largely engaged in the manufacture of salt. Tobacco is cultivated to some extent. Liverpool, (p. v.,) upon the E. bank of Onondaga Lake, on the w. line of the town, was incorp. April 20, 1830. It contains 4 churches, a union school, a steam saw and stave mill, and a large number of salt works. Pop. 1,305. The first settlement was made at Liverpool, in 1795, by John Danforth and 3 sons, from Worcester co., Mass.² There are 4 churches in town.³

SKANEATELES'-was formed from Marcellus, Feb. 26, 1830. A part of Spafford was annexed in 1840. It is the s. town on the w. line of the co. The surface is rolling or moderately hilly. Skaneateles Lake divides the s. half of the town into two nearly equal parts. From the lake the land slopes beautifully upward to a height of 200 to 500 ft. The highlands upon both borders overlooking the lake furnish a great number of sites for country residences, which, in beauty of situation, have no superiors in the State. Many of these are occupied by fine cottages and villas. Skaneateles Outlet, flowing N., is the principal stream. Upon it are numerous falls, furnishing an abundance of water-power.5 The soil is principally a clay loam. Skaneateles,6 (p. v.,) beautifully located at the foot of the lake, was incorp. April 19, 1833. It contains 6 churches, a union school, and 3 carriage manufactories. Pop. 1,200. Mottville, (p. v.,) on Skaneateles Outlet, contains 1 church, 2 machine shops, a foundery, chair factory, fork factory, and gristmill. Pop. 250. Mandana, (p. v.,) on the w. bank of the lake, in the s. part of the town, contains 15 dwellings. Kelloggs Mills, a hamlet 1½ mi. N. of Skaneateles, contains a woolen factory which employs 125 hands. The first settler was John Thompson, a Scotchman, who located upon Lot 18 in 1793. The first church edifice (Cong.) was erected in 1807; Rev. Aaron Bascom was the first pastor.3

SPAFFORD9—was formed from Tully, April 8, 1811. Parts of Marcellus and Skaneateles were taken off in 1840. It lies upon the E. bank of Skaneateles Lake, and is the w. town on the s. line of the co. Its surface consists principally of a high ridge between Skaneateles and Otisco Lakes, abruptly descending to the valleys on each side and gradually declining toward the N. The highest summit, Ripley Hill, is 1,122 ft. above Skaneateles Lake and 1,982 ft. above tide. Otisco Inlet is a small stream flowing through the valley which extends s. from Otisco Lake. The soil is a sandy and gravelly loam. Borodino, (p. v.,) in the N. part of the town, contains a population of 202. Spafford, (p.v.,) near the center, contains 2 churches and 30 houses. Spafford Hollow is a p.o. The first settlers were Gilbert Palmer and his son John, who located on Lot 76 in 1794.10 The first church (M. E.) was formed at an early day; Elder Harmon was the first preacher.11

Pratt & Smith built the first sawmill, in 1796, and the first gristmill, in 1798; Dr. Hezekiah Clarke was the first settled physician. He served 2 years as a surgeon in the Revolutionary

1 The census reports 12 churches; 4 M. E., 3 Bap., Cong., Presb., Prot. E., Univ., and Disciples.

2 Abel Hawley, John Eager, and Patrick Riley came in about the same time. The first marriage was that of Abram Shoemaker and Betsey Danforth, in 1809. The first school was taught by Capt. Conner, about 1797, in a salt block, which at that time contained 4 kettles; and the school was taught while the block was in operation. John Danforth kept the first inn, in 1796.

7 Among the other early settlers were — Robinson, James Watson, Lovel Gibbs, Jonathan Hall, and Winston Day, who came in 1796; Warren Hecox, James and Samuel Porter, Dr.

Munger, Elnathan Andrews, John Legg, Moses Loss, John Briggs, Nathan Kelsey, Wm. J. Vredenburgh, Isaac Sherwood, Dr. Benedict, and families by the names of Kellogg and Earll, who came in soon after. Elisha Cole, now living, (1859), came in with his father in 1793. Capt. Wm. Thomas came in 1796; Hezekiah Earll and Samuel Greenman in 1797. The first child born was Richard P. Watson, June 1, 1796; and the first death, that of Nehemiah Earll, in 1808. James Porter kept the first inn, and Winston Day the first store, in 1797; and Judge Jedediah Sanger built the first saw and grist mill, in 1796. 8 The census reports 8 churches; 2 M. SYRACUSE1-was incorp, as a village in the town of Salina, April 13, 1825, and as a city, Dec. 14, 1847. A portion was annexed to De Witt in 1858. It lies in a basin extending s. of the head of Onondaga Lake, and upon the ridges immediately E. A low portion, partly marshy, containing more than a square mi., lies upon the lake,2 and is bordered by an abrupt declivity 10 to 30 ft. high. From the summit of this declivity the surface spreads out into an almost perfect flat, on which is built the greater part of the more thickly settled portions of the city. A ridge 100 to 200 ft. high extends through the E. part.3 Upon the highlands that surround the city are some of the most beautiful sites for country residences to be found in the State.

city is located in the midst of a rich agricultural region, and near the center of the State.4 The several canals and railroads that terminate at or pass through this city give to it important commercial advantages. Its local trade is very large. It is also largely engaged in manufactures, the principal of which are salt,5 machinery, beer, and barrels.6 A large trade is carried on with the surrounding country to supply the salt works with wood and barrels, and with Penn. to furnish them with coal. The city is supplied with water by the Syracuse Water Company, from springs and brooks which have their sources in the hills s. w. of the city.

The City Hall is a commodious edifice, on the s. side of the canal, fronting Washington St., and containing rooms for the officers of the city government.

The Public Schools, 13 in number, are under the charge of a Board of Education, consisting of 8 members, of whom 4 are elected annually. In 1858, 61 teachers were employed,—7 males and 54 females. The whole number of children, between the ages of 4 and 21, was 9,418, of whom 5,258, or 55 per cent., attended school during some portion of the year. The total expenses were \$34,057,69. The number of volumes in the district libraries was 5,131.7 The schools are graded, and have a classical department or High School. Few places have bestowed more attention upon common school education; and the schools now rank among the best in the State and country.

The Onondaga County Orphan Asylum, a city and county institution for the care of orphan and destitute children, is situated upon Fayette St., in the E. part of the city. It was incorp. April 10, 1845, and is supported by public appropriations and private donations. The children are well treated, and are amply provided with all the necessaries of life. A school is taught throughout the year. At a proper age the children are bound out in respectable families.

The Syracuse Home Association, incorp. in 1853, is an association of ladies for the purpose of systematically visiting the poor, and of furnishing a home for indigent and friendless females. It occupies a fine building upon E. Fayette St., and is in a flourishing condition.

The New York State Asylum for Idiots is located upon a beautiful site in Geddes, s. w. of the city, just outside of the city corporation. Its grounds contain 18 acres, lying upon an eminence overlooking the whole city. The building is a beautiful brick structure, in the Italian style of architecture, and is one of the best arranged and most convenient buildings of the kind ever constructed. It is under the superintendence of Dr. Hervey B. Wilbur. The average number of inmates is more than 100.8

1 This city was known from 1806 to 1809 as "Bogardus Corners;" from 1809 to 1812, as "Milan;" from 1812 to 1814, as "South Salina;" from 1814 to 1817, as "Cossitts Corners;" from 1817 to 1820, as "Corinth;" and from that time it has been known as Syracuse,—the name given it by John Wilkinson, the first postmaster. "Salina," now constituting the N. part of the city, was incorp. as a village March 12, 1824, and continued as an independent corporation until 1847, when it was merged in Syracuse. It was long familiarly known as "Salt Point." The eastern part of the city was formerly known as "Lodi." Point."

3 This ridge is divided into two parts by the valley through which the canal extends. Upon it, a short distance E. of the head of the lake, are large cavities in the ground, generally termed "salt holes." These holes are continually forming; and it not unfrequently happens that a tract of 20 ft. in diameter will suddenly fall to a depth of 10 to 30 ft. See p. 481.

4 From its central location, the city is a favorite place for holding conventions, political, religious, civil, and miscellaneous. From this, it is often called "The City of Conventions," and sometimes "The City of isma." It is also called "The Central City." and "The City of Salt."

6 Several founderies and machine shops give employment to about 200 hands. Greenway's Brewery manufactures annually 50,000 bbls. of beer, worth \$350,000. There are 8 other breweries in the city, producing 500 to 5,000 bbls. each. Barrels for the salt trade are also manufactured in the city, giving employment to a large number of hands. The Central R. R. repair shops employ 150 hands, and about 150 more are engaged as engineers, brakemen, and track hands, belonging to this station. The city also contains large manufactories of agricultural implements, boots and shoes, furniture, saddlery hardware, silver ware, cigars, and a variety of other articles.

7 The Central Library, kept in the City Hall, is a consolidated library for the use of the central schools of the city. It was founded in 1858, and contains 4,000 volumes.

8 The building for this institution was erected in 1853-54, at a cost of about \$70,000. The site and grounds were donated by inhabitants of Syracuse. The enterprise has been highly successful, and has fully demonstrated the utility and necessity of schools of this description. The institution has attained a wide reputation, and it now undoubtedly ranks among the first of the kind in the world. The school was first established at Albany, in 1848, by its present supt., as a private institution. It was adopted by the State, and was continued several years at Albany, but was removed to this place on completion of the buildings, in 1854. buildings, in 1854.

The Franklin Institute, a literary association, was incorp. under the general law, Dec. 1849. It has a fine library and reading room in Wieting Block, S. Salina St., and it supports an annual course of lectures during the winter. The number of volumes in the library is about 3,000.

Syracuse Post Office is situated near the center of the old village of Syracuse, s. of the Eric Salina Post Office is situated in the old village of Salina, near the Oswego Canal.

The State Armory is a fine building, in Regimental Park, near Onondaga Creek. It was built in 1858, from a design by H. N. White.

The city also contains a Commercial College, 2 private seminaries, a classical school, a boarding school for boys, a large number of Masonic, Odd Fellows, and Sons of Malta lodges, a City Tract Society, a Bible Society, a Fugitive Aid Society, a Musical Institute, a German Turnverein, 11 banks of issue, 2 savings banks, 28 churches, and a large number of beautiful and costly private residences. Its hotels and public halls rank among the best in the State.

The first settlement in the city and co. was made by Ephraim Webster, an Indian trader, who In 1788 or 1789 John Danforth, who came located near the mouth of Onondaga Creek in 1786. into the co. soon after his brother Asa, located at "Salt Point" and commenced the manufacture of salt.2 The settlement at this place increased with great rapidity, in consequence of the prospective value of the salt springs. It took the name of "Salina," and speedily became the most important place in the co., -a superiority which it maintained for many years. The first settlers within the limits of the old village of Syracuse, after Webster, the Indian trader, were —— Hopkins, in 1797, and —— Butler, in 1799. Calvin Jackson settled in 1800, and several others before 1805.3 The ground being low and marshy, the settlement did not progress rapidly for many years. The first great impulse to its growth was given by the location of the canal in 1817 and its completion in 1825. In 1829, when the courthouse was removed from Onondaga Hill, Salina and Syracuse were nearly equal in population, and the courthouse was placed about midway between the two villages. Since that time, however, the growth of Syracuse has been rapid and nearly uniform. In 1847 it completely absorbed its old rival, Salina, the two villages and Lodi at that time being incorp, and forming the city of Syracuse. The business prosperity of the place has been based principally upon the salt interests and its commercial advantages. The most notable incidents of the later history of the city are the great gunpowder explosion of Aug. 20, 1841; and the rescue of the slave Jerry from the custody of the U.S. Marshal, Oct. 1, 1851.5

TULLY—was formed from Fabius, April 4, 1803. A part of Otisco was taken off in 1806. and Spafford in 1811. It is the center town upon the s. line of the co. Its surface is an upland, level in the center, but hilly on the E. and w. borders. In the s. part of the central valley are several small lakes, known as the Tully Lakes. Two of these lakes lie but a few rods apart. The smaller, just 800 ft. above the canal at Syracuse, gives rise to Onondaga Creek, flowing N.; and the larger, 4 ft. lower, gives rise to Tioughnioga River, flowing s. In the immediate vicinity of these lakes is considerable swamp land. The soil is a sandy and clayey loam. Tully, (p. v.,) in the s. E. part of the town, contains 2 churches and 216 inhabitants; and Vesper, (p. v.,) on the line Tully Valley is a p.o. The first settler was David of Otisco, 2 churches and 25 houses.

years previous entertained travelers. Elisha Alvord kept the first store, in 1795. In 1793 Mr. Van Vleck brought from Albany a large coffee mill, which was used for grinding corn.

8 Among the other early settlers were Wm. Lee, Aaron Cole, Amos Stanton, Henry Bogardus, and Jonathan Fay. The first child born was Albion Jackson, Dec. 28, 1800. A tract of 250 acres, lying near the center of the city, and including a mill privilege upon Onondaga Creek, was sold by the State to Abraham Walton and became known as the "Walton Tract." It afterward passed into the hands of the "Syracuse Company."

ONTARIO COUNTY.

This county was formed from Montgomery, Jan. 27, 1789. It was named from Lake Ontario, which originally formed its N. boundary. Steuben co. was taken off in 1796, Genesee in 1802, parts of Monroe and Livingston in 1821, and Yates and a part of Wayne in 1823. A strip was annexed from Montgomery co., w. of Seneca Lake, Feb. 16, 1791, and a small tract in the fork of Crooked Lake, from Steuben, Feb. 25, 1814. It is centrally distant 180. mi. from Albany, and contains an area of 640. sq. mi. It lies upon the extreme N. declivities of the central Allegany Mt. Range, and has a northerly inclination, the summits of the s. hills being elevated about 1000 feet above the general level of the N. portions of the co. The s. portion, lying W. of Canandaigua Lake, is a

hilly and broken region, divided into ridges with steep declivities and summits 1,500 to 1,700 feet above tide. The ridges all have a general N. and s. direction, declining toward the N., and terminating in a beautifully rolling region, which embraces all of the co. E. of Canandaigua Lake, and that portion lying w. of the lake and N. of the N. line of Bristol. The ridges in this section gradually rise to a height of 20 to 250 feet above the valleys, and give to the land sufficient inclination for thorough drainage. A terrace with declivities 100 to 250 feet high, descending toward the N., extends through the N. portions of East and West Bloomfield and the s. part of Victor, at right angles to the general range of the ridges. The extreme N. parts of the co. are occupied by drift ridges similar to those in Wayne and Seneca cos.

The geological formation of this co. is nearly the same as that of the cos. lying E. of it in the same latitude. The lowest rocks, occupying the N. parts of Phelps, Manchester, Farmington, and Victor, belong to the Onondaga salt group. The gypsum of this group crops out along the banks of the streams, and is extensively quarried along the Canandaigua Outlet, in Phelps and Manchester, and upon Mud Creek, in Victor. The water limestone, next above, crops out in Phelps, Manchester, and Victor, and is quarried for waterlime and building stone. The Onondaga and corniferous limestones next appear, and are quarried for building stone in Phelps. The Marcellus and Hamilton shales occupy all the central portions of the co. s. of the foot of Canandaigua Lake; and next above them successively appear the Tully limestone, Genesee slate, and the Portage group, the last occupying South Bristol, Canadice, and Naples. This last group furnishes a sandstone used for flagging and building. Except in the extreme s. parts of the co., the underlying rocks have little influence upon the soil, as nearly the whole surface is covered deeply with drift deposits, consisting of sand, clay, and gravel, intermixed with the disintegrated limestone and gypsum evidently deposited by some great torrent that once swept across the co. in a s. direction. The rocks are seen at some points along the banks of the lakes and the courses of the streams. In Bristol are several springs of carburetted hydrogen gas emanating from the strata of Genesee slate.1

The co. is drained by the Honeoye Outlet, a tributary of the Genesee River, and by the Canandaigua Outlet and Mud Creek, tributaries of the Clyde River. Honeoye Outlet receives as tributaries Egypt Brook and the outlets of Hemlock and Canadice Lakes; Mud Creek receives Beaver, Fish, and Hog Hollow Creeks; and Canandaigua Outlet receives Fall and Flint Creeks. Besides these, Irondequoit Creek flows through the n.w. corner of the co. Keshong Creek and Burralls and Castle Brooks flow into Seneca Lake. Several of the beautiful lakes which form the most peculiar and interesting feature of the landscape for which Central New York is celebrated lie partly or wholly in this co. Seneca, forming a portion of the E. boundary, is described under Seneca co. Canandaigua Lake lies almost wholly within the limits of the co. The shores are beautifully sloping down to the very edge of the water, except near the head of the lake, where they rise in steep bluffs to a height of 300 to 800 feet. Its surface is 668 feet above tide.

Honeove, Canadice, and Hemlock Lakes are smaller bodies of water, and are each surrounded by bluffs and hills rising to a height of 500 to 700 feet above them.

The soil for the most part consists of clayey, sandy, and gravelly loam, formed from the drift deposits. In the valleys and the rolling region which extends through the central and N. narts of the co. the loam is very deep and rich, forming one of the finest agricultural regions in the State. Upon the hills in the s. part of the co. the soil is made up principally of disintegrated shale and slate, forming a fine, fertile grazing region. Upon the drift hills in the w. are some small sections covered with a deep, light sand, moderately productive.

The geographical and geological features of this co. render it eminently adapted to the various branches of agriculture; and few cos. in the State excel this in the progress of scientific improvement as applied to agricultural operations. Wheat was for many years the staple crop; but of late more attention has been given to the production of the coarser grains, to stock growing, and the cultivation of fruits. Wool growing has also received considerable attention, and the fine Merino sheep were introduced at an early period. The manufactures are mainly of a domestic character, such as pertain to agricultural districts.

The county seat is located at Canandaigua, at the foot of Canandaigua Lake. A courthouse, jail, and co. clerk's office were erected here in 1793, soon after the organization of the co.3 In 1825 a new courthouse was built; and in 1858 a splendid edifice was erected at the joint expense of the co. and of the U.S. Government, containing a U.S. and co. courtroom, jury and supervisors' rooms, U. S. district clerk's and co. clerk's offices, surrogate's office, and p. office. The building is of brick, with iron and tile floors, and is entirely fireproof. The poorhouse is located upon a farm of 212 acres in Hopewell, 4 mi. E. of Canandaigua. It is built of brick, and contains ample accommodations. The average number of inmates is 136, supported at a weekly cost of 57 cts. each. The farm yields a revenue of \$4,000. A school is taught during the whole year.4 The general management and sanitary arrangements of this establishment are creditable to the co.

The principal works of internal improvement in the co. are the Erie Canal, which enters the extreme N. E. corner of Manchester, the N. Y. C. R. R., extending through the N. and central portions of the co., the Canandaigua & Niagara Bridge R. R., a branch of the Central, extending w. from Canandaigua to Tonawanda, and the Elmira, Jefferson & Canandaigua R. R., extending s. E. and connecting with the N. Y. & E. R. R. at Elmira. Besides these, there are several lines of plank road in the co.; but most of them have been abandoned.

Nine newspapers were published in the co. in 1858.5

3 The first Circuit Court was held at the inn of Mr. Patterson, in Geneva, in June, 1793; and the first court of Common Pleas, at the house of Nathaniel Sanbern, in Canandaigua, in Nov. 1794. The first co. officers were Oliver Phelps, First Judge; Nathl. Gorham, Co. Cierk; John Cooper, Surrogate; and Judah Coit, Sheriff. The first justices of peace appointed in Western N. Y. were Asa Ransom and Wm. Rumsey, for Ontario co., in Dec. 1801. By an act passed April 3, 1798, deeds were required to be recorded in the clerk's office. This was many years before the general act for recording in clerks' office.

The territory lying within the limits of this co. was the chief seat of the Senecas, the most numerous and powerful tribe of the "Six Nations." Their chief village was at Kanadesaga, upon and just w. of the present site of Geneva, at the foot of Seneca Lake. In all the wars of the Iroquois League the Senecas bore a conspicuous part; and especially did they incur the bitter enmity of the French occupants of Canada. In 1687, De Nonville, Governor of "New France," at the head of 1,600 French soldiers and 400 Indian allies, invaded the Seneca country by way of the St. Lawrence and Lake Ontario. At a defile near the site of the present village of Victor an engagement ensued, resulting in the defeat of the Indians, though with great loss to the French. De Nonville marched forward, burned the village of Gannagaro and several others, and returned. In the succeeding year the Senecas and their allies in turn invaded the French settlements in Canada and took bloody revenge.2

In the progress of the wars that ensued, the Six Nations were sometimes neutral and sometimes allies of the English; but the country of the Senecas was never afterward invaded by the French. During the Revolution the Senecas espoused the English cause; and in 1779 Gen. Sullivan invaded their country from the s., burned their villages, destroyed their corn and orchards, and left the most beautiful region in the Indian domains a desolate waste. At the conclusion of peace, the force and spirit of the Indians were annihilated, and they quietly yielded to the gradual encroachments of the whites, until the last acre of their hunting grounds within the limits of this co., and the very graves of their fathers, passed out of their possession.3

lowing month the office was burned and the paper suspended. In May following it was revived as The National New Yorker and Ontario Repository, by H. G. Moore and Dr. B. F. Tifft: and in May, 1857, it passed into the hands of Geo. L. Whitney & Son. by whom it is now published.

The Ontario Freeman was established at Canandaigua by Isaac Tiffany in 1803. In 1806 it passed into the hands of John A. Stevens, who changed its name to

The Ontario Messenger. It was successively published by Day & Morse. L. L. Morse, B. W. Jones, and T. B. Hohn. The latter was succeeded in Nov. 1845, by Jacob J. Mattison, the present publisher.

The Republican was started at Canandaigua by A. N. Phelps in 1824, and was afterward published a short time by T. M. Barnum.

The Ontario Phienix was issued at Canandaigua in 1827 by W. W. Phelps. R. Royce became its publisher scon after, and changed its name to

The Freeman. In 1836 it was united with The Repository.

The Clay Club, a campaign paper, was published at Canandaigua in 1844.

The Seminarian, a literary mo., was published at Canandaigua in 1851.

In this expedition 1000 French were killed and 26 prisoners taken, who were afterward burned at the stake.

Numerous traces of ancient occupation—perhaps by a people that preceded the late Indian race—are found in this co. Trench inclosures have been noticed in Canandaigua, Seneca, and other towns.—Squier's Aboriginal Monuments of N. Y., 4to ed., pp. 50.61 e3.22 89, 61, 62, 62.

Seaver, in his Life of Mary Jemison, gives the following:—
"The tradition of the Seneca Indians in regard to their origin is that they broke out of the earth from a large mountain at the head of Canandaigua Lake; and that mountain they still venerate as the place of their birth. Thence they derive their name, 'Genun-dewah,' or 'Great Hill,' and are called 'The Great Hill People,' which is the true definition of the word Seneca. The great hill at the head of Canandaigua Lake, from whence they group is called Genundayan and has fore long whence they sprung, is called Genundewah, and has for a long time past been the place where the Indians of that nation have met in council, to hold great talks and to offer up prayers to met in council, to hold great talks and to offer up prayers to the Great Spirit, on account of its having been their birthplace; and also in consequence of the destruction of a serpent at that place, in ancient time, in a most miraculous manner, which threatened the destruction of the whole of the Senecas and barely spared enough to commence replenishing the earth. The Indians say that the fort on the big hill, or Genundewah, near the head of Canandaigua Lake, was surrounded by a monstrous serpent, whose head and tail came together at the gate. A long time it lay there, confounding the people with its breath. At length they attempted to make their escape,—some with their hominy blocks, and others with different implements of household furniture.—and in marching out of the fort walked At length they attempted to make their escape,—some with their hominy blocks, and others with different implements of household furniture,—and in marching out of the fort walked down the throat of the serpent. Two orphan children, who had escaped this general destruction by being left on this side of the fort, were informed by an oracle of the means by which they could get rid of their formidable enemy,—which was to take a small bow, and a poisoned arrow made of a kind of willow, and with that shoot the serpent under its scales. This they did, and the arrow proved effectual; for, on its penetrating the skin, the serpent became sick, and, extending itself, rolled down the hill, destroying all the timber that was in its way, disgorging itself and breaking wind greatly as it went. At every motion a human head was discharged and rolled down the hill into the lake, where they lie at this day in a petrified state, having the hardness and appearance of stones; and the pagan Indians of the Senecas believe that all the little snakes were made of the blood of the great serpent after it rolled into the lake. To this day the Indians visit that sacred place, to mourn the loss of their friends and to celebrate some rites that are peculiar to themselves. To the knowledge of white people, there has been on timber on the great strill since it was first discovered by them, though it lay apparently in a state of nature for a great number no timber on the great hill since it was first discovered by them, though it law apparently in a state of nature for a great number of years, without cultivation. Stones in the shape of Indians' heads may be seen lying in the lake in great plenty, which are said to be the same that were deposited there at the death of the serpent. The Senecas have a tradition that previous to and for some time after their origin at Genundewah the country, especially about the lakes, was thickly inhabited by a race of civil, enterprising, and industrious people, who were totally destroyed by the great serpent that afterward surrounded the great hill fort, with the assistance of others of the same species; and that they (the Senecas) went into possession of the improveand that they (the Senecas) went into possession of the improve-ments that were left. In those days the Indians throughout the whole country—as the Senecas say—spoke one language; the whole country—as the Senecas say—spoke one language; but, having become considerably numerous, the before mentioned great serpent, by an unknown influence, confounded their language, so that they could not understand each other, which was the cause of their division into nations,—as the Mohawks, Oneidas, &c. At that time, however, the Senecas retained the original language, and continued to occupy their mother hill, on which they fortified themselves against their enemies and lived peaceably, until, having offended the serpent, they were cut off, as I have before remarked."

By the terms of the charter of the colony of Mass., the region between its N. and S. boundaries, from the Atlantic to the Pacific, was embraced; and the title to this territory was claimed by Mass. after the Revolution. The subsequent charter of the State of New York intervened and conflicted with this claim,-from which difficulties arose, which were finally settled by commissioners at Hartford, Conn., on the 16th of December, 1786. It was there agreed that Mass. should cede to N. Y. the sovereignty of all the territory claimed by the former lying within the limits of the latter, and that N. Y. should cede to Mass. the property of the soil, or the right of the pre-emption of the soil from the Indians. This agreement covered all that part of the State lying w. of a line running N. from the "82d milestone," on the line between N. Y. and Penn., through Seneca Lake to Sodus Bay. This line is known as the "Old Pre-emption Line." In 1787 Mass, sold the whole of this tract, containing 6,000,000 of acres, to Oliver Phelps and Nathaniel Gorham, for one million dollars. In the following spring Mr. Phelps left his home in Granville, Mass., with men and means to explore the country thus acquired. He collected the sachems, chiefs, and warriors of the Six Nations at Kanadesaga, and in July, 1788, concluded with them a treaty of purchase of a tract containing 2,250,000 acres, bounded E. by the pre-emption line, w. by a line 12 mi. w. of, and running parallel with, the Genesee River, s. by the Penn. line, and N. by Lake Ontario.2

The portion of the tract to which the Indian title had not been extinguished, constituting about two-thirds of the original purchase, was abandoned by Messrs. Phelps and Gorham and reverted to Mass. It was re-sold by that State to Robert Morris, in 1796, and subsequently formed what is known as the Holland Land Purchase. In 1789, Mr. Phelps, at Canandaigua, opened the first regular land office for the sale of land to settlers ever established in America. The system he adopted for the survey of his lands by townships and ranges, with slight modifications, was adopted by the Government for the survey of all the new lands in the U.S. When organized in 1789, Ontario was the first co. set off from Montgomery, and embraced all that part of the State lying w. of the E. line of Phelps and Gorham's Purchase, including what was called "The Genesee Country."

The first settlement was made on the site of the Indian village of Kanadesaga, (now Geneva,) in 1787. Soon after the land office at Canandaigua was opened, and several settlements were commenced in different parts of the co. From this period the progress of settlement was rapid, immigrants being attracted by the beautifully rolling character of the surface and the unsurpassed fertility of the soil. Few incidents of general interest have occurred to interrupt the steady and continued progress of peaceful industry. The most notable of its later historical events is its being the scene of the birth of Mormonism. Joe Smith resided for many years in Manchester; and his pretended discovery of the golden plates of the Book of Mormon was made on the 22d of September,

1 The history of this Pre-emption Line is interesting. Of course, it was mere conjecture where the line would fall as far N. as Seneca Lake, and parties were interested to have the line fall w. of Geneva, leaving that place and a considerable tract of land between the Military Tract and the Mass, lands. Seth Reed and Peter Ryckman, both of whom had been Indian traders, applied to the State of New York for a remuneration for services rendered in some previous negotiations with the eastern portion of the Six Nations, and proposed to take a patent for a tract the boundaries of which should begin at a tree on the bank of the Seneca Lake and run along the bank of the lake to the suntil they should have 16,000 acres between the lake and the n. bounds of the land ceded to Massachusetts. Their request was acceded to and a patent issued. Thus situated, they proposed to Messrs, Phelps and Gorham to join them in running the Premption Line, each party furnishing a surveyor. The line was run which is known as the "Old Pre-emption Line," Messrs, Phelps and Gorham were much disappointed in the result,—suspected error or fraud, but made no movement for a re-survey before they had sold to the English Association. Their suspicions had at first been excited by an offer from a prominent member of the Lessee Company for "all the lands they owned cast of the line that had been run." They were so well assured of the fact that in their deed to Mr. Morris they specified a tract in a gore between the line then run and the w. bounds of the counties of Montgomery and Tioga, those counties then embracing all of the Military Tract. Being fully convinced of the inaccuracy of the first survey, Morris, in his sale to the English Company, agreed to run it anew. The new survey was performed under the superintendence of Maj. Hoops, who employed Andrew Ellicott and Augustus Porter to perform the labor. A corps of ax-men were employed, and a vista 30 feet wide opened before the transit instrument until the line had reached the head of Seneca Lake,

Major Hoops had discovered the precise points of deviation to the westward. It had commenced soon after leaving the Pennsylvania line, gradually bearing off until it crossed the outlet of the Crooked Lake, where an abrupt offset was made, and then an inclination for a few miles almost in a N. W. course; then, as if fearful that it was running W. farther than was necessary to secure a given object, the line was made to incline to the E. until it passed the foot of Seneca Lake, when it was run nearly N. and S. to Lake Ontario. All this will be observed upon any of the old maps. It will at once be perceived that the site of Geneva—the 16,000 acres of Reed and Ryckmans—had caused more than a usual variation of the surveyor's compass. Judge Porter's explanation is as follows:—"Geneva was then a small settlement, beautifully situated on the Seneca Lake, rendered quite attractive by its lying beside an old Indian settlement in which there was an orchard"

quite attractive by its lying beside an old Indian settlement in which there was an orchard."

The Old Pre-emption Line terminated on Lake Ontario, 3 mi. w. of Sodus Bay, and the new line very near the center of the head of the bay. With the exception of the abrupt variations that have been noticed, the old line parting from the true meridian about 5 mi. s. of the Chemung River, bears off gradually until it reaches the shore of Lake Ontario. The strip of land between the two lines was called "The Gore." In addition to the patent granted to Reed and Ryckman, the State had presumed the original survey to be correct, and made other grants, and allowed the location of military land warrants upon what had been made disputed territory. As an equivalent to the purchasers of this tract, compensation lands were granted by the

and allowed the location of military land warrants upon what had been made disputed territory. As an equivalent to the purchasers of this tract, compensation lands were granted by the State in the present towns of Wolcott and Galen, Wayne co.

2 The w. boundary of this tract was a line 'beginning in the northern line of Penn., due south of the corner or point of land made by the confluence of the Genesee River and the Canaseraga Creek; thence north on said meridian line to the corner or point, at the confluence aforesaid; thence morthwardly along the waters of the Genesee River to a point two miles north of Canawagus Village; thence running due west twelve miles; thence running northwardly, so as to be twelve miles distant from the western bounds of said river, to the shore of Lake Outario."—Turner's Phelps and Gorham Purchase.

1827. Brigham Young was also a long time a resident of Canandaigua; and the first Mormon society was formed at Fayette, in the adjoining co. of Seneca, in 1830.

BRISTOL1—was formed in Jan. 1789. South Bristol was taken off in 1838, and a part was annexed to Richmond, March 23, 1848, and restored Feb. 25, 1852. It is an interior town, lying s. w. of the center of the co. Its surface consists of a series of ridges, gradually declining to the No. The highest points are about 500 feet above the valleys. These ridges are divided by the deer valleys of Mud Creek and Egypt Brook. The declivities that border upon these streams in the s. part are usually very steep. The soil is a rich alluvial upon the intervales and disintegrated slate and shale among the hills. Bristol Center (p. v.) contains 30 houses; Baptist Hill (Bristol p. o.) 25; and Muttonville 15. Egypt is a hamlet in the s. E. part. Gamaliel Wilder and Joseph Gilbert settled in 1788, at what was called the "Old Indian Orchard." The first religious services were performed by Rev. Zadock Hunn, in 1793. There are now 4 churches in town.5

CANADICE⁶—was formed from Richmond, April 15, 1829, and a part was annexed to Richmond in 1836. It is the s. w. corner town of the co. Its surface consists of a high, broken upland separated into two ridges by Canadice Lake. The w. ridge, known as Bald Hill, is bordered by steep declivities, and the E. by more gradual slopes. The highest summits are about 700 feet above Honeoye Lake. The principal streams are the Canadice Inlet and Outlet and the Honeoye Inlet. The soil in the valleys is a clayey loam; upon the declivities of the hills it is mostly disintegrated shale and slate, and upon the summits in the s. part it consists of gravelly loam and black muck. Canadice Corners (p.o.) is a hamlet, forming the business center of the town. The first settlement was made by — Kimball, in 1807.7 There are now 3 churches in town.8

CANANDAIGUA9—was formed Jan. 27, 1789, and a part annexed to Gorham, March 16, 1824. It is the central town of the co., lying upon the w. and N. shores of Canandaigua Lake. The surface is hilly in the s., but level or gently rolling in the N. The highest summits are about 600 feet above the lake. Canandaigua Outlet, Beaver Creek, and Stevens Brook are the principal streams. The soil is a clayey loam in the N. and a deep, gravelly loam in the s., and in fertility this town ranks among the first in the State. Canandaigua, (p. v.,) situated at the outlet of Canandaigua Lake, is an important station on the N. Y. C. R. R., and a terminus of the N. F. & C. Branch and of the E. J. & C. R. R. A daily steamer connects it with Naples, at the head of the lake. It contains the co. buildings, 10 a State Arsenal, 11 5 churches, an academy, 12 a female seminary,13 a private lunatic asylum,14 3 newspaper offices, and a bank. It was incorp. April 18, 1815, and has a pop. of 4,154.15 Cheshire, (p.v.,) in the s. part, contains 20 dwellings. Centerfield (p.o.) is a hamlet, and Academy, near the s. line, is a p.o. Wm. Morgan, of masonic notoriety, was imprisoned at Canandaigua previous to his disappearance.16 Settlement was commenced in 1788, by Phelps and Gorham and their associates, and considerable accessions were made in 1789 and '90.17 The first religious service at Canandaigua was held in 1789, by

EAST BLOOMFIELD-was formed Jan. 27, 1789, as "Bloomfield." Mendon and Victor were taken off in 1812; its name was changed and West Bloomfield was taken off in 1833. It is an interior town, lying N. w. of the center of the co. Its surface is rolling, with a gentle inclination toward the N. The ridges are 50 to 600 feet above the valleys. The principal streams are the Mud, Fish, and Hog Hollow Creeks. The soil is a deep, fertile, gravelly loam, in places nixed with clay. Griffiths Mills in the E. and Brag Village in the s. E. part are hamlets. East Bloomfield, (p. v.,) \(\frac{3}{4}\) of a mi. from East Bloomfield Station, on the N. Y. Central R. R., contains 3 churches, an academy, 2 manufactories of agricultural implements and carriages. Pop. 590. This township having been purchased of Phelps and Gorham by a company from Berkshire co., Mass., its settlement was commenced in the spring of 1789.3 There are 4 churches in town; the first (Cong.) was formed Sept. 8, and organized Nov. 15, 1795, by Rev. Zadock Hunn. The first church edifice in all Western N. Y. was erected in this town in 1801.

FARMINGTON⁵—was formed Jan. 27, 1789. Manchester was taken off in 1821. It lies on the N. border of the co., w. of the center. Its surface is nearly level in the S., but in the N. it is broken by drift ridges which rise to a height of 50 to 100 feet above the general surface. The declivities of these ridges toward the N., E., and w. are generally steep, but toward the s. they become gradual slopes. The streams are Mud and Beaver Creeks and Black Brook. A strip of land across the s. part, embracing about 3 tiers of lots, has a clay soil. North of this is a marshy region; and farther N. the soil is a gravelly loam and very productive, with good proportions of arable, meadow, and grazing lands throughout the town. New Salem, (Farmington p.o.,) a village in the N. part, contains 206 inhabitants. Brownville (Nortons Mills p. o.) is a hamlet, East Farmington and West Farmington are p. offices. The settlement was commenced in 1789, by Friends from Berkshire, Mass., among whom were Nathan Comstock, his sons Otis and Darius, and Robert Hathaway.⁶ The first house of worship was erected by the Friends, in 1804. There are now 2 churches in town; Friends and Wes. Meth.

GORHAM'-was formed Jan. 27, 1789, as "Easton." Its name was changed to "Lincoln," April 17, 1806, and to Gorham, April 6, 1807. Hopewell was taken off in 1822. A part of Canandaigua was annexed in 1824. It lies upon the E. shore of Canandaigua Lake, s. E. of the center of the co. Its surface is rolling, the ridges rising in gradual slopes to a height of 25 to 200 feet above the valleys. Flint Creek is the principal stream. The soil in the E. part is principally a gravelly loam, and in the w. it consists of clay, and is generally fertile and productive. Gorham, 8 (p.v.,) 3 mi. from the Gorham Station, on the C. & E. R. R., contains 3 churches and 310 inhabitants. Reeds Corners (p, v.) contains 3 churches and about 20 houses. The first settlement was made at Reeds Corners, in 1789, by James Wood.9 There are now 6 churches in town.10

HOPEWELL—was formed from Gorham, March 29, 1822. It is an interior town, lying E. of the center of the co. The surface is level or gently undulating, with a northerly inclination. Canandaigua Outlet, Fall Creek, and Fall Brook are its principal streams. The soil is a sandy and gravelly loam in the w., and the same mixed with clay in the center and E. It is very fertile and highly cultivated. Chapinville, (p.v.,) a station on the N. Y. C. R. R., contains a church and about 30 dwellings; Hopewell Center (p. v.) contains 1 church and 16 dwellings.

by Major Wallis, in 1792. There were in that year 30 families in town. The Legislature granted, March 31, 1804, to Levi Stephens and Jason Parker the sole right of running stages from Utica to this place for a term of 7 years. The trip was to be performed twice a week, from June to October, within 48 hours, and at the rate of 4 cts. a mi. if with 6 or more passengers. A similar monopoly was granted, April 6, 1807, for 7 years, to John Metcalf, between this place and Buffalo.

NAPLES'-was formed Jan. 27, 1789, as "Middletown." The name was changed April 6, 1808. Italy was taken off in 1815, and a part of Springwater in 1816. It is the extreme s. town of the co. The surface consists of a hilly and elevated upland, broken by the narrow and deep valleys of Canandaigua and Honeoye Inlets and Grindstone Creek. The summits of the hills are 600 to 1000 feet above the surface of the lake and 1300 to 1700 feet above tide. Their declivities bordering on the streams are generally very steep. High Point and Hatch Hill are the highest summits. The soil upon the hills consists of clay and gravel mixed with disintegrated slate and shale; and in the valleys it is a rich, gravelly loam mixed with alluvium. Fruit growing is receiving much attention. Peaches are produced in great abundance; and an experiment is being made in the cultivation of grapes, which promises to be successful. Over 30 acres are now devoted to this object, and very satisfactory results have been realized. Naples, (p.v.,) on the Canandaigua Inlet, 4 mi. from the lake, contains 5 churches and 3 flouring mills. Pop. 700. The first settlement was commenced in 1790, by a company from Berkshire co., Mass., by whom the town was purchased from Phelps and Gorham.8 The first sermon was preached by Rev. Zadock Hunn, in June, 1792.9

PHELPS¹⁰—was formed in 1796, under the act of Jan. 27, 1789. A part was annexed to Lyons, (Wayne co...) April 11, 1823. It is the N.E. corner town of the co. Its surface is rolling, the ridges rising in gentle slopes 20 to 100 feet above the valleys. The highest point is 300 feet above Canandaigua Lake. The soil in the E. is a sandy loam with a clay subsoil, in the N. a mixed sandy and clayey loam, and in the w. a sandy and coarse gravelly loam, all highly productive. Canandaigua Outlet, the principal stream, flows E. and N. through the center. Along its course are extensive quarries of gypsum and water limestone. In the town are quarries of Onon

7 Originally called "Walkinstown," from Wm. Watkins, of Berkshire, Mass., one of the purchasers under Phelps and Gor ham, and called by the Indians Nurd-aw-ao, great hill.

8 In Feb. 1790, Samuel, Reuben, and Levi Parish, with their families, came in; and in April following, Nathan and Wm. Watkins, John Johnson, Jonathan Lee, and William Clark, with their families, 30 persons in all. The first birth was that of Pbiness P. Lee; and the first marriage, that of Benj. Clark and Thankful Watkins, in 1795. The first sawmill was erected in 1792, by Benj. Clark and Jabez Metcalf. Susannah Parish taught the first school, in 1792. Myron H. Clark, late Governor of the State, was born in this town, Oct. 23, 1806.

10 Named from Oliver Phelps, one of the original proprietors of

daga and corniferous limestone. Phelps,1 (p. v.,) on Flint Creek, near its junction with the Canandaigua Outlet, was incorp. Jan. 2, 1855. It contains a union school, newspaper office, and 6 churches. Pop. 1,278. Orleans (p. v.) is situated on Flint Creek. Pop. 218. Oaks Corners (p. o.) contains 15 houses.2 J. D. Robinson, from Claverack, Columbia co., settled at Pheips in 1789.3 Rev. S. Goodale was the first resident preacher; he held services in schoolhouses and dwellings before any church edifice was erected. The first church (Presb.) was built in 1804.4

EXECUTION D-was formed in 1796, as "Pittstown." Its name was changed to "Honcoye" April 6, 1808, and to Richmond April 11, 1815. Canadice was taken off in 1829. A part of Canadice was annexed April 30, 1836, and parts of Bristol and South Bristol in 1848; but these last were restored in 1852. It lies upon the w. border of the co., s. of the center. It consists of a nearly square portion of land lying near the foot of Honeove Lake, and a narrow strip extending along the E. shore of that lake and its inlet to the s. border of the co.5 A wide valley occupies the center, opening toward the N., and surrounded by hills from 50 to 200 feet high on the 3 remaining sides. The southern strip is very hilly, the summits rising 500 feet above the surface of the lake. Honeoye and Hemlock Outlets and Egypt Brook are the principal streams. The soil upon the lowlands is clay, upon the hills a sandy loam mixed with clay. Much attention is given to improving the breeds of cattle and sheep; and it is the largest wool growing town in the co., and second in the State. Honeoye, (p. v.,) at the foot of Honeoye Lake, is the business center of the town. Pop. 244. Richmond Mills (p.o.) and Allens Mill⁶ (p.o.) are hamlets. This town was purchased of Phelps and Gorham by a company; and the first settlement was made by Capt. Peter Pitts and his sons William and Gideon, in 1789.7 There are 5 churches in town.8

SENECA—was formed in 1793, under the act of Jan. 27, 1789. It is the s. E. corner town of the co., lying upon the w. shore of Seneca Lake. The surface is beautifully rolling, the ridges rising 20 to 200 feet above the valleys. The shores of the lake are bluffs about 100 feet above the surface of the water. The streams are Flint and Keshong Creeks and Burralis and Castle Brooks. The soil is a deep, rich loam, consisting of sand, gravel, and clay mixed together, the gravel predominating upon the ridges. The soil is admirably adapted to the production of fruit trees, and the business of the nursery has become one of the leading pursuits in the town. Two large nursery establishments are located within the limits of the village of Geneva. Com merce and manufactures receive considerable attention. Geneva, (p. v., incorp. April 4, 1806, is beautifully situated at the foot of Seneca Lake. It contains a flourishing union school, 10 a large private boarding school, 11 3 newspaper offices, and 9 churches. It is also the seat of Hobart Free College. 12 The Geneva Water Cure and Hygienic Institute is finely situated near the center of the village. A daily line of steamers connects this place with the upper ports upon Seneca Lake. Pop. 5,057. Castleton, (Seneca Castle p.o.,) on Flint Creek, in the n.w. part, contains 2 churches and 35 dwellings. Flint Creek, (p.o.,) Halls Corners, (p.o.,) and Stanleys

Sanborn. — Gould, — Pierce, Philetus Swift, and Elihu Granger, from Conn., settled in town in 1789; Thaddeus Oaks, Seth Dean, Oliver and Charles Humphrey, John Salisbury, Nicholas Pullen, Walter Chase, and Elias Dickinson in 1791; John Patten and David Boyd in 1792; Jonathan Melvin in 1793; and John Sherman, Joseph and Lodowick Vandemark, and John and Patrick Burnett in 1794. Henry H. Robinson was the first child born in town; and the first marriage was that of Philetus Swift and Sally Dean, in 1793. Thaddeus Oaks opened the first tavern, in 1793; and the first saw and grist mills were built by Seth Dean.

5 This strip was added to the town in consequence of its position, high mountain ridges separating it from the business centers of both Canadice and South Bristol.

5 Named in honor of Nathaniel Allen. Mr. Allen was among the first settlers, and established the first blacksmith's shop at Allens Hill. Subsequently he was sheriff of Ontario co.; in 1812 he was a member of the Assembly; during the War of 1812 he was army paymaster; and in 1819 he was elected member of Congress from the 21st district.

7 In 1795, Lemuel and Cyrus Chipman, Philip Reed, Levi Blackmer, Nathaniel Harmon, Pierce Chamberlain, Asa Denison, and Isaac Adams, from Vermont, settled in town. Capt. Pitts opened the first tavern; and the first saw and grist mills were built by Thomas Morris, in 1795. Upon the division of the lands, Capt. Pitts secured 3,000 acres at the foot of Honeoye Lake, embracing the flate and a cleared field which had been the site of an Indian village destroyed by Sullivan's army. Louis Philippe, during his travels in this country, spent a night in the log house of Capt. Pitts; and subsequently the

9 This village is justly celebrated for the beauty of its situation; and perhaps no village in the co. in this respect has been so generally and enthusiastically praised by tourists. For many years it was one of the leading business places in Central N. Y; but the completion of the r. r. lines has turned a large share of the business into other channels.
10 This union school was one of the first established in the State, and for a long time was taken as a model in establishing others. It early contained an academic department that enjoyed an excellent reputation. The schools of the village are now graded, and embrace a complete common school and academic course.

12 Formerly Geneva College. It was incorp. in 1825, and was
established mainly through the influence of Bishop Hobart,
whose name it bears. A medical department was organized in
1836. The trustees and members of the College Faculty are

From the beginning, however, the college has been equally open to all; and it is now free to all, no charge being made for tuition and room rent. It has now two large buildings for the use of students—one for libraries and lecture rooms, one for a chapel—and a spacious building for the use of the medical department. The college has a president, 4 professors, an assistant professor, and a resident fellow, who takes part in the business of instruction; and the medical department has a Faculty of 6 professors. In 1859 the number of students in the free classes was 85. The college buildings are beautifully situated in the s. part of the village, on a bluff which overlooks Seneca Lake. The college grounds contain above 12 acres. In 1858 the whole number of graduates in arts was 246 and in medicine 520.

Corners' (p. o.) are hamlets. The first settlement was commenced in 1787, upon the site of the Indian village of Kanadesaga, by immigrants from New England.² This village was situated at the foot of Seneca Lake, where Geneva now is; and for several years after Geneva had become a place of considerable importance it was called "Kanadesaga." An ancient fortification, known as Fort Hill, is located on lot 58. It was covered with large forest trees upon the first settlement of the town. Another beautiful ground, called the "Old Castle," is about 1½ mi. N. W. of Geneva. It is covered by an Indian orchard, and the ground has never been plowed, because of a stipulation to that effect made with the Indians in the treaty of purchase.3 It contains an Indian burial ground; and in one corner may be traced a trench of an ancient stockaded fortification. Here was the largest Indian settlement in Western New York, and it is still a place of much interest to the few remaining descendants of the once powerful Five Nations. Many relies—as stone hatchets, arrow heads, pipes, &c .- are found in the vicinity of "Old Castle." As early as 1765, the Rev. Samuel Kirkland came on a mission to the Indians at Kanadesaga.4 The first church (Presb.) was organized in 1798; and the first settled minister was Rev. Jedediah Chapman.⁵

SOUTH BRISTOL-was formed from Bristol, March 8, 1838. It lies upon the w. shore of Canandaigua Lake, s.w. of the center of the co. The surface consists of an elevated upland, divided into 4 ranges by the valleys of Grindstone and Mud Creeks and Egypt Brook. The summits of the ridges are about 1000 feet above the lake, and the declivities are very steep. The bluffs upon the lake shore are 300 to 400 feet high. The soil is a mixture of clay and disintegrated slate. Although the soil is rich and productive, the hilly character of the town has tended to retard its settlement. Cold Spring (South Bristol p.o.) is a hamlet about a mi. from Canandaigua Lake. Frost Hill is a hamlet in the w. part. Gamaliel Wilder, from Mass., purchased this township from Phelps and Gorham, and settled at Wilburs Point, on Canandaigua Lake, in 1789.6 An Indian orchard on the lake shore at this point induced him to settle here. Rev. Mr. Rolph was the first settled minister. There is now but 1 church (Presb.) in town.

VICTOR—was formed from Bloomfield, May 26, 1812. It is the n.w. conner town of the co. The N. part is occupied by the drift ridges, which rise 50 to 150 feet above the general surface. A ridge of 100 to 280 feet in height extends across the s. part in a general E. and w. direction. The principal streams are Irondequoit, Mud, Hog Hollow, and Fish Creeks, and Trout Brook. The soil in the center and N. is a light, sandy and gravelly loam, but in the s. E. it is principally clay. It is particularly adapted to the cultivation of potatoes and root crops. Victor, (p. v.,) near the center, contains about 75 dwellings. The Indian village of Gannagaro, which was destroyed by the Marquis de Nonville, was situated near this place.8 Fishers (p.o.) is a station on the N. Y. C. R. R., in the w. part; and East Victor is a hamlet, on Mud Creek The first settlement was commenced in 1789, by immigrants from Stockbridge, Mass. Among the first were Enos and Jared Boughton, and Jacob Lobdell.9 Rev. Reuben Parmelee, from Goshen, the first settled minister, came to the town in 1798.10

WEST BLOOMFIELD—was formed from Bloomfield, Feb. 11, 1833. It lies upon the w. border of the co., N. of the center. A ridge 200 to 300 feet high, forming the declivity of a southern terrace, extends across the N. part. The surface is gently undulating. The soil is a deep, rich, gravelly loam mixed with clay. In the s. part there is a spring of inflammable or carburetted hydrogen gas. Tile and earthenware are manufactured to some extent in town. West Bloomfield (p. v.) is a village of 350 inhabitants, 11 situated 1½ mi. s. of the W. Bloomfield Station, on

2 Among the first settlers were Horatio Jones, Asa Ransom, Lark Jennings, Dr. Benton, Peter Ryckman, Peter Bortte, Col. Seth Reed, and Dominick Debartzch, an Indian trader. Jonathan Whitney, Jonathan Oaks, Benjamin Tuttle, Phineas Stone, and John Reed settled in 1788 and '89; Solomon and William Gates, Thomas Densmore, Solomon Weaver, and Oliver Whitmore in 1790, and Adam, Christian, Christopher, and George Fisher in 1791. Lark Jennings kept the first tavern, in 178s; the first gristmill was erected by Cornelius Roberts; and the first swamill, by P. B. Wisner, in 1798. The first marriage was that of Dr. Joel Prescott and Miss Phila Reed; and the first school was taught by Samuel Wheaton, in 1792.

3 For many years after this purchase the Indians came regularly at plowing time and watched this orchard, to see that the stipulation was not broken.

ariyar plowing time and watched this school stipulation was not broken.

Stipulation was not broken.

Subsequently Mr. Kirkland was commissioned by the State of Mass. to treat with the Indians; and he conducted the treaty of purchase between them and Phelps and Gorham, in 1788; and afterward he acted as Indian agent for 30 years at Canandalous.

Nathaniel Hatch, and their families. Mr. Wilder built the first sawmill, the first gristmill, and distillery, at Wilburs Point, in 1795. He also erected the first public house, in 1808, which he conducted for 9 years. Dr. Hewitt and George Wilder opened the first store, in 1828. The first school was taught by Joanna Forbes. Eli Allen was the first child born, in 1793.

ORANGE COUNTY.

This county was formed Nov. 1, 1683. Rockland was taken off in 1798, and a portion was annexed from Ulster the same year. It lies upon the w. bank of the Hudson, s. e. of the center of the State. It is centrally distant 90 miles from Albany, and contains 838 sq. mi. The surface is mountainous upon the s. e. and n. w. borders, and a rolling upland through the center. The Matteawan or South Mts. extend in several parallel ranges from the N. J. line n. e. to the Hudson, ending in the rocky and precipitous bluffs known as "The Highlands." The highest summits attain an elevation of 1,000 to 1,500 ft. above tide. The ranges and peaks of these mountains are known by several distinct names. The whole region included between these ranges consists of steep and precipitous rocky peaks

and narrow winding ravines, a small portion only being susceptible of cultivation. The Shawangunk Mt. Range extends from Delaware River N. E. through the N. W. corner of the co. It is a high, unbroken range, precipitous upon the w., but with more gradual slopes upon the E. The highest summits are 1,500 to 1,900 ft. above tide. The extreme N. W. corner of the co. is occupied by the series of highlands extending from the Delaware into Sullivan co. The central portion of the co., lying between the two mountain systems, is a rolling upland, broken in many places by abrupt and isolated hills and the deep valleys of streams. This whole region, comprising more than one-half of the entire surface of the co., is susceptible of cultivation, and forms a fine agricultural district.

Along the s. w. border, extending through several towns and into N.J., is a low, flat region, lying upon the streams, and known as the "Drowned Lands." This tract, consisting of about 17,000 acres, was originally covered with water and a dense growth of cedars; but a large portion of it has been drained and reclaimed; and it now forms one of the finest agricultural portions of the co.

Neversink River flows s, along the w, foot of the Shawangunk Mts, and forms a tributary of the Delaware. Shawangunk River flows N. along the E. foot of the same mountains and forms a tributary of the Hudson. The Walkill flows N. through near the center of the co. and unites with the Shawangunk in Ulster co. Murderers Kil, and its principal tributary, Otter Creek, flow E. through near the center of the co. and discharge their waters into the Hudson. Wawayanda Creek flows s. into N. J. and, re-entering the State as Potuck Creek, unites with the Wall Kil. Ramapo River rises in the s. part of the co. and flows s. into Rockland. In the s. are several small lakes, the principal of which are Greenwood Lake and Thompsons and Mt. Basha Ponds. The rocks of the southern highlands are principally granite, gneiss, and signite, with occasional injected veins of trap. The rocks which compose the Shawangunk Mts. are the shales and sandstones of the Chemung group. The central portions of the co. are occupied by parallel strata of the Hamilton shales, Helderbergh limestones and grit, Medina sandstone, and the gray sandstones, all extending N. E. and S. W., respectively, from the E. foot of the Shawangunk Mts. An abundance of iron, consisting of magnetic ores and red and brown hematite, is found among the southern mountains; and several veins have been extensively worked.3 The soil is as various as the surface. Among the primitive mountains it is light, sandy, and unproductive. In the N. W. part it is a tough clay, generally underlaid by hardpan. Through the center it is a clay, sandy, and gravelly loam upon the hills, and a fine quality of gravelly loam and alluvium in the valleys, -all very productive. The Drowned Lands are covered with alluvium and vegetable mold, and are among the most fertile lands in the State. The various branches of agriculture form the leading pursuit of the people. The most important interest is the sending of milk to the N. Y. market. Butter, spring grains, and fruits are also largely produced. Market gardening is a large and increasing source of public wealth. The manufacturing interests of the co. are considerable, though they are mostly confined to a few places. The manufacture of iron has formed an exten-

¹ Among the principal ridges are the Warwick, Bellvale, Rough, and Sterling Ranges, near the s. border of the co., and the Schunemunk Range, between the towns of Monroe and Blooming Grove.

³ The skeletons of several mastodons have been found in this co.,—mostly in Montgomery and vicinity. One of these was exhibited many years in Peale's Museum, Philadelphia, One found in 1844 by Nathaniel Brewster, 20 ft. below the surface, was 33 ft. lorg. The whole number of bones was 220, and the aggregate weight nearly 1,995 pounds.

sive business from an early period until within a few years; but at the present time only two furnaces are in operation in the co. The proximity to New York renders the lands of the co. exceedingly valuable; and, with proper care, almost any crop adapted to the climate can be successfully and profitably cultivated. Considerable commerce is carried on by means of the Hudson, the principal export being lumber brought from the West upon the R. R. and trans-shipped at New-

burgh.

The county is a half-shire, the courts being held respectively at Goshen and Newburgh. The courthouse at Goshen is a brick building, situated upon a fine lot in the E. part of the village. The jail is a stone building, in rear of the courthouse. The co. clerk's office is a fireproof brick building, upon the street opposite the courthouse. The courthouse at Newburgh is located upon the high land in the w. part of the village. It is a fine brick building, fronting s. upon Second St. The Newburgh jail is not connected with the police establishment of the village. The poorhouse is located upon a farm of 267 acres in Goshen, 3½ mi. s. w. of the village. The average number of inmates is 200, supported at a weekly cost of \$1.04 each. The building is of stone, and has accommodations for 300. A school is taught during the entire year. The accommodations are reported by the Senate Committee of 1857 as good, and the general management of the institution as much above the average. The income from the farm is about \$2,000. The N. Y. & Erie R. R. extends through Monroe, Blooming Grove, Chester, Goshen, Wawayanda, Wallkill, Mount Hope, and Deerpark. The Newburgh branch of this road extends s. w. from Newburgh, through New Windsor and Blooming Grove, to Chester.2 The Delaware & Hudson Canal extends from the Delaware River N. along the valley of the Neversink, through Deerpark.3 In the central part of the co. a wide ditch has been dug, for the purpose of draining the Drowned Lands, which has been of immense value to the county.

Thirteen newspapers-1 daily, 9 weekly, 2 semi-monthly, and 1 monthly-are published in this co.4

1 The first courts were held at Tappantown, in the present town of Grang-town, Rockland co., March 8, 1702. Courts were first held at Goshen in 1727. The first co. officers under State authority were John Haring, First Judge; Thos. Moffat, Co. Clerk; Isaac Nicoll, Sheriff; and James Everett, Surrogate. Jesse Woodhull was appointed sheriff May 8, 1777, a few months previous to Nicoll, but was not commissioned. A courthouse was built at Goshen in 1735, by James Webster, a Scotch High-Inder, who served under Wolfe at the battle before quebee in 1759. This building was afterward converted into a jail. 2 The immense quantities of lumber brought from the pine forests of Allegany, Cattaraugus, and Steuben, over the N. Y. & E. R. R., are principally carried to Newburgh and transhipped. Milk trains run daily upon this road for the purpose of carrying the immense quantities of milk produced here to the N. Y. market. The milk business is the most important of all the local business of the R. R.

The first settlements in the co. are supposed to have been made by the Dutch, soon after the first occupation of Manhattan Island. Traces of an early occupation were found upon the first advent of the progenitors of the present race, among which was a road known as the "Old Mine Road," extending from the s. line of the co. along the valley of the Shawangunk to Esopus, on the Hud-These settlements were broken up; and no record is left of them. The next race of settlers came in about the commencement of the 18th century and located in various parts of the co. They were Dutch, French Huguenots, and English, nearly all seeking liberty in the wilderness. The first patent issued was the Minisink Patent, in 1704, embracing the greater part of the co. lying upon the Shawangunk Mts., and a considerable portion of Sullivan co. The remaining portions of the co. were embraced in Cheesecock's Patent, issued in 1707, embracing the s. E. part; the Wawayanda Patent, issued in 1703, embracing the w. and N. parts; and the John Evans Patent,3 which was granted in the year 1694. The boundaries of these various patents were so vague that it was found impossible to locate them without conflicting with others; and serious difficulties arose between the different claimants.4

The policy of granting large patents was soon abandoned, and the remaining parts of the co. were patented in small tracts to actual settlers, from about 1718 to 1750. The settlements progressed but slowly, in consequence of the fear of Indian hostilities. During the French War of 1755 the frontier settlements were often attacked by small parties of hostile Indians and the defenseless inhabitants were murdered and carried into captivity. The principal weight of these attacks fell upon the settlements in the Neversink Valley. During the Revolution the frontiers were again constantly in a state of alarm. In July, 1778, Brant, at the head of a large Indian force, laid waste the whole Minisink settlement; and on his retreat the disastrous battle of Minisink was fought, in which nearly the whole force of the Americans was destroyed.

The eastern part of the co. was also the scene of stirring military events. The importance of the passes through the Highlands was early appreciated by Washington, and strong fortifications were thrown up at various points to protect them. Fort Montgomery was erected on the river, at the s. line of the co., and Fort Clinton on the opposite side of a small creek in Rockland co. Several

other forts were built both above and below these, and chains were stretched across the river and various impediments were sunk in the channel, to prevent the passage of vessels. Gen. Putnam was left in command of these positions in 1777, when Gen. Howe marched to attack Philadelphia. but with an entirely inadequate force. About the 1st of October, Sir Henry Clinton, in command at New York, sent a force up the river to aid Gen. Burgoyne, who was then hard pressed by the American army. This force first landed at Verplancks Point on the 5th, but in the night following re-embarked, landed on the opposite shore, and on the 6th surprised and captured both Forts Montgomery and Clinton.

The official reports make the loss of the British and Americans about equal; but, as the former were fully exposed to a galling fire while approaching the works, and the latter mostly escaped, it is supposed that the British loss was much greater. The other American works were abandoned, and Gen. Putnam retreated to Fishkill. The British spent some time in removing the various obstructions from the river, and advanced slowly northward, plundering and destroying on their way. They reached Esopus on the 15th, and at the same time Gen. Putnam, whose force had been augmented to 6,000 men by Conn., N. Y. and N. J. militia, sent a detachment of 2,000 to take possession of Peckskill. The British, afraid to go farther N. with such a force in their rear, remained at Esopus until they received news of the surrender of Burgoyne; and then they returned to New

The result of this expedition demonstrated the necessity of stronger fortifications among the Highlands, and during the following winter the site of West Point was fixed upon, as the strongest and most eligible on the river. Earthworks were thrown up early in the spring, and from time to time more formidable works were added, until, at the close of the war, it was the

most strongly fortified of any place in the country.1

It was afterward the center of the American operations in the North. In the spring of 1780, Gen. Arnold, who had not entirely recovered from the effects of a wound received at Saratoga, solicited and received the command of this post. The instruction which gave him this command was dated Aug. 3, 1780. Arnold had been in correspondence with the British for more than a year; and he soon negotiated with Sir Henry Clinton to deliver up West Point, for the sum of £10,000 in gold and a commission of Maj. Gen. in the British army. The final consummation of the compact on the part of the British was intrusted to Maj. Andre, who crossed the American lines in disguise and held an interview with Arnold on the 22d of Sept. Upon his attempting to return to New York, he was arrested as a spy, and the whole scheme was discovered. Arnold escaped to New York, and Andre was subsequently executed.2

The headquarters of the American army of the North was for a long time at Newburgh; and it

was at this place that Washington finally took leave of his army,3 Aug. 18, 1783.

BLOOMING GROVE—was formed from Cornwall, March 23, 1799. A part of Hamptonburgh was taken off in 1830, and a part of Chester in 1845. It lies a little E. of the center of the co. Its surface is mountainous in the s. and E., and rolling and moderately hilly in the N. and W. Schunemunk Mts., upon the line of Monroe, are 1,300 to 1,500 ft. above tide. The other principal elevations are Lazy Hill, on the line of Chester, Toms Rocks, Peddlers, Rainer, Round, Musquito, and Woodcock Hills, and Red Ridge. These hills are generally too steep and rocky to be ever susceptible of cultivation. The hills in the N. have more gradual slopes, and are arable to their Otter Kil flows E. through the N. part, and receives as tributaries Cromlin, 4 Slattersummits. leys, and several smaller creeks. The extensive bog meadows along Cromlin Creek, in the s. part, have been drained, and are now the most valuable agricultural lands in the town. The soil is a sandy and clayey loam. Washingtonville, (Blooming Grove p. o.,) upon Otter Kil, in the N. part, contains 3 churches and 369 inhabitants; Salisbury Mills, (p. v.,) upon the line of Monroe, a church, paper mill, gristmill, and 241 inhabitants; and Craigsville, (p.v.,) in the w. part, a church, cotton factory, and 20 dwellings.⁵ These places are all stations upon the Newburgh Branch of the N. ³ In the spring of 1782, while the army was stationed at Newburgh, a feeling of discontent arose among the officers and men, to consequence of the arrearages in their pay and the hardships they were called upon to endure. CHESTER—was formed from Goshen, Warwick, Blooming Grove, and Monroe, March 22, 1845. It is an interior town, lying a little s. w. of the center of the co. The surface is rolling in the N. W., hilly in the center, and mountainous in the s. W. The principal elevations are Goose Pond Mt., Lazy Hill, Snake Hill, and Sugar Loaf Mt., -all steep, rocky peaks, unfit for cultivation. The highest summits are 500 to 600 ft. above the valleys. The principal streams are Gray Court, Black Meadow, and Ditch Creeks. Along Gray Court Creek, near the N. boundary, are extensive peat meadows, thoroughly drained, and forming the most productive tract in town. The soil is a light, yellow loam, underlaid by clay. Limestone and slate are both found in town. East Chester, (Chester p. o.,) Chester, and West Chester are three villages, situated at the three angles of an equilateral triangle, 1 mi. apart. They contain the Chester Academy. a bank, 2 churches, and about 1,500 inhabitants. Sugar Loaf, (p. v.,) in the s. w. part, contains a church and 36 dwellings. The first settlement was made in 1716, at Gray Court, in the N. E. corner of the town, by Daniel Crommeline, from Long Island.3 There are 3 churches in town; 2 M. E. and Presb.

CORNWALL—was formed March 7, 1788, as "New Cornwall." Its name was changed March 3, 1797. "Cheesecocks," now Monroe, and Blooming Grove were taken off in 1799. It lies upon the Hudson, in the E. part of the co. The surface consists mainly of rocky peaks and ridges of "The Highlands," Their declivities are steep, and their summits masses of rocks, in some cases covered with a scanty growth of dwarfed forest trees. The highest peaks are Butter Hill, Crows Nest, and Bear Mountain,—respectively 1,529, 1,418, and 1,350 ft. above the river. The valleys among the mountains are deep, narrow, and rocky. A small portion of the N. w. part of the town is rolling or moderately hilly. The principal streams are Murderers Creek and its principal tributary, Otter Kil, flowing through broad, beautiful valleys in the N. part, and Bog Meadow Creek, emptying into the Hudson below West Point. Upon the latter, near its mouth, is a series of caseades, known as Buttermilk Falls. Cranberry, Long, Sutherlands, and Bog Meadow Ponds are small bodies of water among the mountains. The soil in the valleys is a sandy, clayey, and gravelly loam. The hills are too steep and rocky for cultivation. Canterbury, (Cornwall p. o.,) in the N. E. part of the town, contains 8 churches, a woolen yarn factory, and tannery. Pop. 428. Cornwall Landing, on the Hudson, in the N.E. part, is the center of extensive brick manufactories. Pop. 615. West Point, (p. o.,) on the Hudson, is the seat of the U. S. Military Academy. It contains extensive barracks for the cadets and soldiers, 20 officers' quarters, a philosophical building, containing the library, apparatus, and observatory, a laboratory for ordnance and ammunition, a chapel, hospital, riding hall, stable, equipment shed, Catholic church, and 150 dwellings for employees.5 Buttermilk Falls, (p. v.,) 2 mi. below West Point, contains 3 churches and 307 inhabitants. Fort Montgomery, (p.v.,) in the s. E. part, contains 1 church and 16 dwellings; **Bethlehem**, in the N. w., a church and 12 dwellings. **Ketchamtown**, in the w., and Townsville, in the N., are hamlets. The first settlements are supposed to have been made about 1720.6 The first church (Presb.) was formed in 1730, at Bethlehem; Rev. Mr. Chalker was the first pastor, and Rev. Enos Ayres the second.7 Fort Putnam, of the Revolution, was situated immediately in the rear of West Point, and Fort Montgomery on the s. E. border of the town.8 Idlewild, the residence of N. P. Willis, is near the Hudson, in the N. E. part of the town.

Several small family classical schools are located in the village. ¹³ Christopher Denn, one of the proprietors of the Wawayanda Patent, located N. E. of Goshen Village in 1712. After visiting the place and deciding upon a location, he returned to his residence on Staten Island, and sent a company of carpenters, his household goods, and his adopted daughter, Sarah Wells, then 16 years of age, to his new home, under the guidauce of 3 friendly Indians. The carpenters erected a cabin, and Denn and his wife came on the next day after the cabin was built. Mr. Bull, a young Englishman just arrived in an emigrant ship, came in soon after. Among the other early settlers who came previous to 1721 were John Everett, John Carpenter, John Gale, William Ludlum, Jimes Jackson, Isaac Finch Michael Dunning, Solomon Carpenter, William Jackson, Samuel Seely, Samuel Webb, John Yelverton, Samuel Clowes, John Bradner, and John

GREENVILLE-was formed from Minisink, Dec. 2, 1853. It lies on the s. w. border of the co., w. of the center. Its surface is a hilly and broken upland. The Shawangunk Mts., extending along the w. border, are 400 to 600 ft, above the valleys and 1.400 to 1.600 ft, above tide. The E. slopes of the mountains are generally gradual, and the hills are arable to their summits. The principal stream is Shawangunk River, which takes its rise near the center and flows N. E. Benin Water Pond is a small body of water in the N. part. The soil is a sandy, gravelly, and clayey loam. Greenville, (Minisink p. o.,) in the w. part, contains 2 churches and 12 houses; and Smiths Corners, N. of Greenville, contains 15 houses. Center Point, 11 mi. s. E. of Greenville, is a p. o. Woodsville is a hamlet in the E. part. The first settlements were probably made from 1720 to 1730.2 There are 2 churches in town; Bap. and M. E.

HAMPTONBURGH3—was formed from Goshen, Blooming Grove, Montgomery, New Windsor, and Wallkill, April 5, 1830. It is an interior town, lying a little N. of the center of the co. Its surface is rolling and moderately hilly. The principal streams are Wall Kil, forming the N. W. boundary, and Otter Kil, flowing N. E. through near the center. The soil is a gravelly and slaty loam. Otterville, (p. o.,) on Otter Kil, near the E. boundary, is a hamlet. Otterkill. s. of Otterville, contains 12 dwellings. Campbell Hall, near the center, and Hamptonburgh, 1 mi. s., are hamlets. The first settlement was made by Wm. Bull, in 1719 or '20. In 1727 he creeted a stone house, which is still standing. There are 2 churches in town; Presb. and Asso. Reformed.

MINISINK4-was formed March 7, 1788. A part of "Calhoun" (now Mount Hope) was taken off in 1825, Wawayanda in 1849, and Greenville in 1853. It lies upon the N. J. line, s. w. of the center of the co. Its surface is rolling and hilly. The slopes are generally gradual, and the hills are arable to their summits. The principal streams are Wall Kil and Rutgers Creek, each of which forms some portion of the N. and E. boundaries. The Drowned Lands occupy a small portion of the E. angle. The soil is principally a gravelly loam. Unionville, (p.v.,) in the s. part, contains 2 churches and 25 dwellings; and West Town, (p.v.,) 3 mi. N. of Unionville, 2 churches and 15 dwellings. Waterloo Mills (p. o.) is a hamlet, containing 1 church and 6 dwellings. No records of the early settlement have been preserved. There are 5 churches in town.5

MONROE⁶—was formed from Cornwall, March 23, 1799, as "Chesecocks." Its name was changed to "Southfield," April 3, 1801, and to Monroe, April 6, 1808. A part of Chester was taken off in 1845. It is the s.E. corner town in the co. It lies mostly among the Highlands; and its surface is a hilly and mountainous upland. The principal ranges are Schunemunk Mts., in the N., Black and Bear Mts., in the E., and the Southfield Mts., near the center,-all extending N. E. and s. w.7 Their declivities are steep and in many places precipitous, and their summits are rough, rocky, and broken. A large share of the whole town is unfit for cultivation. In the N. w. part are several valleys containing arable land. The principal streams are Ramapo River, flowing s., and Murderers Creek, flowing N. The Forest-of-Dean Creek drains the E. part and discharges its waters into the Hudson. Among the mountains are a great number of fine, small lakes and ponds,8 The soil in the valleys is a sandy and gravelly loam. The mountains are too rough for cultivation. 4 Tradition says that long ago, before the Delaware River broke through the mountain at the Water Gap, the lands for 30 or 40 ni. bordering upon it were covered by a lake, but became drained by the breaking down of that part of the dam which confined it, and that a part of a tribe of Indians from New Jersey

settled upon these lands from which the waters had retired. The lands were called "Minsies," signifying "lands from which the waters had gone," and the name was afterward applied to the Indians living upon it. From this name the term "Minisink" is derived.—Eager's Hist. Orange Co., p. 408.

MONTGOMERY3-was formed March 7, 1788. Crawford was taken off in 1823, and a part of Hamptonburgh in 1830. It lies upon the N. border of the co., E. of the center. Its surface is generally a hilly upland. The Comfort Hills, 4 600 to 800 ft. above tide, extend along the w. border. Walkill Creek flows N. E. through near the center; its principal tributary, Tin Brook, flows through the E. part. In the Walkill, in the N. part, is a fall of 40 ft., affording an excellent water-power. Along the same stream, in the s. part, is considerable swamp land. The soil is a fine quality of gravelly loam. Montgomery, (p. v.,) upon Walkill Creek, s. of the center, was incorp. Feb. 17, 1810. It contains 2 churches, the Montgomery Academy, 3 gristmills, and a sawmill. Pop. 760. Walden, (p. v.,) on Wall Kil, 3½ mi. N. of Montgomery, was incorp. April 9, 1855. It contains 3 churches, a shawl factory, satinet factory, and a manufactory of cutlery. Pop. 641. St. Andrews, (p. o.,) in the N. E. part, contains 10 dwellings. Coldenham, 6 near the E. line, is a hamlet. The earliest patent comprising land in this town was granted in 1709, to Henry Hileman. It was located at the mouth of Tin Brook, below Walden. It was settled by the proprietor and divided into lots in 1712. Lieut, Gov. Cadwallader Colden, the owner of a patent in this town, located at Coldenham in 1728.7 The first church (Ref. Prot. D.) was formed at Montgomery Village in 1732.8

MOUNT HOPE—was formed from Wallkill, Minisink, and Deerpark, as "Calhoun," Feb. 15, 1825. Its name was changed March 14, 1833. It lies upon the N. border of the co., N. w. of the center. Its surface is a hilly and broken upland. The Shawangunk Mts. extend through the w. part; the highest summits are 1,400 to 1,800 ft. above tide. Shawangunk River flows N.E. through the center, and the Little Shawangunk along the E. border. The soil is a sandy and gravelly loam. Otisville, (p. v.,) near the w. border, contains 2 churches and 309 inhabitants. It is a station upon the Eric R. R. Mount Hope, (p. v.,) 2 mi. s. e. of Otisville, contains 2 churches and 120 inhabitants; New Vernon, in the N. part, a church and 20 dwellings. Finchville is a hamlet, in the s. w. part. The precise date of the settlement of this town is unknown. James Finch settled some time previous to the Revolution.9 There are 6 churches in town.10

NEWBURGH11—was formed March 7, 1788. It lies upon the Hudson, and is the N. E. corner town of the co. Its surface is a hilly and broken upland, the highest summits being 600 to 900 ft.

1 A family of Smiths settled very early in the town, and from them the town was called "Smiths Clove." Among the early settlers were families of Millers, Galloways, Carpenters, Bulls, Dobbins, Wygants, Wards, Coltons, Nobles, Cunninghams, Slaughters, and Lamoreaux,—mostly English families from the Eastern States. The first iron works was that of Ward & Colton, erected in 1751 for the manufacture of anchors. It was situated in Warwick, just over the line from Monroe. In 1752 Abel Noble, from Penn, erected a forge in this town, near the Ward & Colton furnace. Here the first anchor was made, in 1753. Steel was made in 1776; and during the Revolution one of the chains thrown across the Hudson was manufactured here. It weighed 186 tons. During the Revolution, Claudius Smith, a noted tory, resided in this town. He was hung at Goshen, Jan, 22, 1779.

Among the other early settlers were John Neely, Charles Booth, Wm. Eager, Fred. Sinsabaugh, and Johannes Youngblood,—all of whom settled between 1730 and 1741. The E. part of the town was originally settled by Irish, and the valley of Wall Kil by Hollanders. The first store was kept by Alexander Colden, in 1742; and the first gristmill was built at Walden, by James Kidd. In the fall of 1775 the people of Bos-

ton, by reason of the great scarcity of supplies and provisions, applied to this State for aid; and accordingly a public meeting was called, which convened in the town of "Hauwer," (now Montgomery.) In the mean time the friends of the mother country, always on the alert, had procured the services of a talented orator for the purpose of defeating the objects of the meeting. As no one could be found among the adherents of the cause of liberty who was able to speak in public, recourse was had to the Rev. Mr. Annan, of Neelytown, who at first declined, but at length consented. A multitude were assembled on the occasion to hear a discussion upon a subject which was then the absorbing topic of the day. The discussion was continued for some time with fairness and ability on either side, until at length, to check a strife of angry words and to test the disposition of the assembly, Mr. Annan suddenly said, "As many as are in favor of assisting the people of Boston and the cause of Liberty, follow me," The effect was electric. Immediately upon his leaving the house he beheld, to his utter astonishment, the whole multitude at his heels.—Eager's Hist. The principal stream is Quassaic Creek, forming a part of the boundary of New Windsor. It receives from the N. Fostertown and Gidneys Creeks and Orange Lake Outlet. Orange Lake, in the w. part, covers an area of about 400 acres. Along its inlet is considerable marshy land. The soil is principally a clay and sandy loam. Newburgh, (p. v.,) on the Hudson, near the s. E. corner of the town, was incorp. March 25, 1800. It lies upon a steep slope which rises from the river to the height of about 150 ft. and thence spreads out into a rolling region. Besides the Court House, it contains 14 churches, 4 banks, and several private schools and academies.4 It is largely engaged in the manufacture of printed cotton cloths, castings, beer, and a variety of other articles.5 The commercial interests of the place are also large and important.6 The village is supplied with water brought from Little Pond, 3 mi. s. w., by the Newburgh Waterworks Co. These works were erected in 1853, at a cost of \$115,448. In the lower part of the village the water has a head of 230 ft. A steam ferry connects this place with Fishkill Landing. Pop. 9,256. Overlooking the Hudson, in the s. part of the village, stands an old stone mansion known as "Washington's Head Quarters." It is surrounded by a fine lawn of several acres; and the whole premises are owned and kept in order by the State. Savil is a p.o., about 5 mi. N. W. of Newburgh. Middle Hope, (p. v.,) in the N. E. part of the town, contains 2 churches and 12 houses: Fostertown, 4 mi. N. W. of Newburgh, a church and 10 houses; and Gardnertown, E. of Orange Lake, a church and 14 houses. Coldenham is a p. o., in the w. part. Balmville, 2 mi. N. of Newburgh, is a hamlet. The first settlement was made on the present site of the village of Newburgh, by Palatinates, in 1708.8 The first church (the Lutheran) was formed about 1709; and the first minister was Rev. J. Kockerthal. The first Episcopal minister was Rev. Hezekiah W. Watkins, in 1747.9 An almshouse, for the support of the town poor, is situated upon a farm of 75 acres on the s. w. line of the village corporation of Newburgh. The buildings are of brick; and the cost of the whole establishment was about \$45,000.10

The kitchen on the S., was added in 1760, making it a long, narrow building. In 1770 an addition was made upon the whole length of the w. side, and a new roof was thrown over the whole. There are 8 rooms on the first floor, and from the principal room 8 doors open leading to every part of the house, including the chambers and cellar. Among the curiosities are the tables used by Washington and La Fayette, links from the chain which was stretched across the Hudson, and a great variety of warlike implements. Near the N.E. corner of the house is the grave of Uzal Knapp, the last of Washington's Life Guards; he died in Jan. 1856.

8 The Palatinates settled in Newburgh in 1708; but it was not until 1719 that lands were patented to them. When the patent was issued it was divided in farms to families,—50 acres being apportioned to each person. The patentees were George Lockstead, Michael Weigand, Herman Shoneman, Christian Henricke, Joshua Kockerthal, Burger Meynderse, Jacob Webber, Johannes Fyscher, and Andries Volck. At the same time, a tract of 500 acres was set apart as a glebe, for the support of a Lutheran minister and schoolmaster, and the settlement designated as "The Palatine Purish by Quassaick." In 1747, at the election for trustees of the "Glebe," the members of the Church of England elected trustees of their own faith, who closed the doors of the church against the Lutherans. The subject was laid before the Governor and Council, who, in 1752, confirmed the "Glebe" to the Church of England, and reissued a patent therefor to Alexander Colden and Richard Albertson, trustees, under the title of "The Parish of Newburgh." By acts of the Legislature, passed since the war of the Revolution, the income of the "Glebe" is now devoted to public schools. The name Newburgh is from a town in Scotland. From the early taxrolls the fact is placed beyond question that Newburgh was the first European settlement in Orange.

WARWICK—was formed March 7, 1788. A part of Chester was taken off in 1845. It lies upon the line of N. J., in the extreme s. angle of the co. Its surface is mountainous in the s. and E. and broken and hilly in the N. and W. The principal mountain ranges are the Sterling, Rough, and Warwick Mts. in the s. E., and the Bellvale Mts. in the E. They are high, steep, and rocky, and have all the characteristics peculiar to a wild, mountain region. In the extreme w. part is a nearly level region, occupied by the Drowned Lands.9 Several eminences in the midst of these lands are denominated islands, 10 The principal streams are Wall Kil, forming the w. boundary, Quaker Creek, forming the N. w. boundary, and the Wawayanda, or Warwick, and Pochuck Creeks. Greenwood Lake, upon the s. line, extends about 4 mi. into this town. The other principal bodies of water are Sterling, Wickhams, and Thompsons Ponds, near the E. border. The soil is light and unproductive upon the hills, and a gravelly and sandy loam in the valleys. Warwick, (p. v.,) on Wawayanda Creek, near the center of the town, contains 3 churches, the Warwick Institute, and 358 inhabitants. Florida, (p. v.,) in the N. part, contains 3 churches, the S. S. Seward Seminary, 11 and 45 dwellings; Amity, (p. v.,) in the w. part, 1 church and 36 dwellings; Edenville, (p.v.,) 2 mi. N.E. of Amity, a church and 24 dwellings; New Milford, (p. v.,) in the s. part, a church and 26 dwellings; Bellvale, (p. v.,) in the E., a church and 192 inhabitants; and Dutch Hollow, 2 mi. s. E. of Bellvale, a church and 15 dwellings. Sterling Works, in the extreme s. part, is a hamlet.12 The precise date of the first settlement is unknown. Daniel Burt, from Conn., came into town in 1746.13 The first church (Presb.) was formed in 1764, and the second (Bap.) in 1766.14 Hon. Wm. H. Seward was born at the village of Florida.

4 The principal establishments are a carpet bag factory, file factory, grain cradle factory, hat factory, 2 sash and blind factories, and a foundery and machine shop. In the aggregate these factories employ about 300 hands, and manufacture goods to the amount of \$450,000 annually.

5 2,500 gall, of milk are sent daily to N. Y. from the B. E. stations in this town.

11 This seminary was founded about 1845, by Judge S. S. Seward, father of Wm. H. Seward, who endowed it with a fund of \$20,000.

12 Sterling Works receives its name from the iron works located upon the outlet of Sterling Pond. The manufacture of iron has been carried on at this place for 100 years or more. Gen. Wm. Alexander, Lord Sterling, is said to have been interested in them at one time; and hence their name. Anchors and steel were manufactured here during the Revolution. 12 to 15 tons of pig iron are now made here per day.

13 Among the other early settlers were Thos. Willing, Daniel Whitney, Benj. Burt, John Vance, and David McCauley. The first mill was built by David Burt, at Bellvale, in 1760. Many of the early settlers were Dutch, and others English, from Mass. and

The principal elevations in town are Hogback, Decker, One Pine, and Hulls Hills, in the E.; Bill and Coxcomb Hills, in the Eunter; Long, Cedar, Pond, and Bill Whites Hills, in the S. E.;

WAVAVDA1—was formed from Minisink, Nov. 15, 1849. It is an interior town, lying s. w. of the center of the co. Its surface is rolling and hilly. The highest summit is Joe Geo Hill,2 in the N. w. part. The Drowned Lands occupy a portion of the s. E. corner. The principal streams are Wall Kil, forming the s. E. boundary, Rutgers Creek, forming the s. w. boundary, Wawayanda Creek, in the w. part, and Monhagan Creek, in the N. E. corner. The soil is chiefly a clay and sandy loam, and is best adapted to pasturage.3 New Hampton, (p. v.,) on Wall Kil, in the N. E. corner, contains a gristmill, sawmill, and 25 dwellings; Denton, 1 mi. s. w. of New Humpton, 1 church and 25 dwellings; Ridgebury, (p. v.,) near the center, 2 churches and 30 dwellings; Slate Hill, (p. v.,) 1 mi. w. of Ridgebury, 1 church and 25 dwellings; Centerville, in the w. part, 1 church and 15 dwellings; Millsburgh, (Wells Corner p.o.,) 1 mi. s. of Centerville, on the line of Minisink, a grist and saw mill and 15 dwellings; and Gardnerville, in the s. part, on the line of Minisink, a gristmill, sawmill, and 15 dwellings. The first settlements are supposed to have been made previous to 1700.4 There are 5 churches in town; 3 Presb., M. E., and Bap.

ORLEANS COUNTY.

This county was formed from Genesee, Nov. 11, 1824; Shelby was annexed from Genesee April 5, 1825. It lies on Lake Ontario, between Monroe and Niagara cos., centrally distant 232 mi. from Albany, and contains 405 sq. mi. Its surface is level or undulating, and, except in the extreme s. part, it has a gradual inclination toward the lake. It is divided into three distinct plateaus by the lake and mountain ridges, which extend E. and w. through the co. nearly parallel to the lake shore. The lower plateau slopes slightly and uniformly upward from the lake shore to the lake ridge, a distance of 6 to 8 mi., where it attains an elevation of about 165 feet. This ridge is composed of sand and gravel, and its seaward side is covered with coarse gravel and water-worn pebbles,

resembling the present lake beach.² It is clevated 20 to 30 feet above the lower plateau, to which it descends with a gentle inclination uniform in its whole extent. There is generally a similar slope upon its inland side; but in many places the level of the country is nearly and sometimes quite as high as that of the ridge. The ridge is 100 to 300 feet wide at the top, and nearly level. From the earliest settlement of the co. its summit has been used for a road. The second plateau is gently undulating, and 4 to 6 mi, wide, attaining an altitude of about 300 feet at the base of the mountain ridge. This ridge, entering from Niagara co., runs nearly E. through the towns of Shelby and Barre, and s. and E. through Clarendon. It preserves the character of a steep declivity in Clarendon and Shelby, but in Barre its ascent is gradual. The upper plateau is undulating, and from the mountain ridge southerly it gently rises for about 2 mi, to the culminating ridge, which is the highest land in the co. and nearly 450 feet above the lake. For about 2 mi, further the surface is quite level; and thence it gradually descends to the Tonawanda Swamp, on the s. border of the co. The principal streams are Oak Orchard, Johnsons, and Sandy Creeks, which take their rise in or near the Tonawanda Swamp and flow N. and E. to the lake. Their channels are deeply excavated; and upon them are numerous waterfalls and rapids.

The underlying rock of the N. part is the Medina sandstone; while the upper plateau rests upon a base of Niagara limestone. Along the ridge in Clarendon and on the banks of Oak Orchard Creek in Shelby are outcrops of this limestone. Hydraulic limestone has been obtained from both these localities, and quicklime is burned at various places along the ridge. The upper layers of the Medina sandstone afford an excellent material for building and flagging purposes, and several quarries have been opened at Medina and other places on the line of the canal. Elsewhere in the co. this rock is friable, and readily disintegrates upon exposure to the atmosphere. It separates at first into small, angular fragments, and then decomposes into a dark red, loamy clay. Numerous salt springs originate in this formation, from which salt was manufactured until, by the completion of the Eric Canal, they were brought into competition with the salines of Onondaga.5 The soil in the N. part of the co. is generally sandy; but it is everywhere modified by the underlying formation; and near the lake are several tracts in which clay predominates. In the s. it is a mixture of clay, sand, and lime, and the whole is well adapted to grain raising. The various branches of agriculture form the leading pursuits. Barley, oats, corn, beans, and potatoes are the principal crops,6 and considerable quantities of apples and other fruits are raised. A limited amount of manufactures is carried on within the co.

The county seat is located at Albion, on the Eric Canal, in the central part of the co.

¹ The lake ridge has been at some time the lake shore; the mountain ridge is a continuation of the mountain ridge of Niagara co., and is formed by the outcropping of the Niagara limestone.
2 The primitive character of this slope has become somewhat

The primitive character of this slope has become somewhat obliterated by cultivation.

So named from a fine grove of oaks formerly at its mouth.

Named after Sir Wm. Johnson, who, with his forces, encamped at its mouth one night when on his way to Fort Niagara in 1759.

⁶ Salt works were erected at a spring near Oak Orchard Creek, about 1½ mi. N. of Medina, at Holley, and at Oak Orchard; and salt was made by the early settlers in nearly every town N. of the canal. A boring of 140 feet at Oak Orchard resulted in slightly increasing the strength of the brine, but not its quan-

tity; and at other places, by blasting and boring, the springs

were destroyed.

6 Wheat was formerly the principal crop of this co.; but of

⁶ Wheat was formerly the principal crop of this co.; but of late the ravages of the midge have been so extensive that its cultivation has been nearly abandoned.

7 Previous to the erection of the co. buildings at Albion, the courts were held at the house of Selah Bronson, in the village of Gaines. The commissioners appointed by the Legislature to locate the county seat were Philetus Swift, of Phelps, Ontario co., Victory Birdseye, of Onondaga co., and J. Hathaway, of Cortland co. The site of the co. buildings was deeded to the supervisors by Nehemiah Ingersoll; and the courthouse was built in 1827. Gilbert Howell, of Ridgeway, Elihu Mather, of Gaines, and Calvin Smith, of Barre, were the commissioners

courthouse is a fine building, situated in the midst of a park, near the center of the village. It is built of brick, and is surmounted by a dome 110 feet above the ground. It contains the court, jury, supervisors', and surrogate's rooms.1 The jail, situated just E. of the courthouse, is a commodious edifice, built of Medina sandstone. The county clerk's office is a small, one story brick building, adjoining the courthouse. The poorhouse is located upon a farm of 107 acres in the town of Barre, 3 mi. s. of Albion. Its average number of inmates is 56, supported at a weekly cost of 80 cts. each. The farm yields a revenue of about \$700.

The works of internal improvement in the co. are the Eric Canal, extending through near the center; the Tonawanda Swamp Feeder, conducting the waters of the swamp into Oak Orchard Creek and the canal; and the Rochester & Niagara Falls R. R., a branch of the N. Y. Central.

Three weekly newspapers are now published in the co.8

Long before the advent of the whites this co. was the hunting ground and probable residence of the Iroquois; and there are traces of an occupation long anterior to them and by an entirely distinct race.4 The 3 eastern towns of the co. belonged to the Conn. Tract and the Pulteney Estate, and the remaining part of the co. to the Holland Purchase. There is a tradition that a Canadian, with his family, settled at the mouth of Oak Orchard Creek as early as 1792-93; but his stay was of short duration, and by some he is now regarded as a myth. The first permanent settlers were James and Wm. Walsworth, two brothers, who came from Canada by the way of the lake, and who located respectively at the mouths of Oak Orchard and Johnsons Creeks, in the present town of Carlton. A few settlers came in each year until 1809, when the great natural thoroughfare, the ridge road, was opened, inducing a much more rapid influx of settlers. Immigrants continued to pour in rapidly and settle near the ridge road, until settlement was checked by the War of 1812. Upon the capture of Fort Niagara by the British, in 1813, many of the people fled from their homes, but soon returned.⁵ After the return of peace, the tide of immigration again set in toward this region, and continued to flow steadily and uninterruptedly for several years, The settlers generally chose locations in the immediate vicinity of the ridge road, and continued to do so until the completion of the Erie Canal, when the regions further s. began rapidly to fill up. Since that time steady progress has been made in every element of material prosperity, until the co. has taken front rank among the best agricultural regions of the State.

BARRE6—was formed from Gaines, March 6, 1818. It is the most southerly of the middle tier of towns, and is the largest town in the co. Its surface is undulating, and its soil a rich loam underlaid by the Niagara limestone. The Tonawanda Swamp occupies the s. part. Albion,

appointed to superintend its erection. The first officers of the co. were Elijah Foot, First Judge; S. M. Moody, Cyrus Harwood, Eldridge Farwell, and William Penniman, Judges; William Lewis, Sheriff; and Orson Nicholson, Co. Clerk.

1 The courthouse was erected in 1857-58, at a cost of \$20,000.

The contributes was elected in 1817-28, at a test of \$2.500 to The contribute and 26 feet high.

The Medina & Darien R. R. Co. was organized in 1835, and the road was opened as far as Akron. Stages drawn by horses were put upon the road; but the whole was abandoned in 2 or 3

8 The Gazette, the first paper published in the co., was started at Gaines in 1822 by Seymour Tracy, and was continued

4 years.

The Newport Patriot was started at "Newport." now Albion, Feb. 9, 1824, by Franklin Cowdrey. In Feb. 1825, Time-thy C. Strong became proprietor, and changed it to The Orleans Advocate. In Feb. 1828, in the midst of the excite-

ment following the abduction of Morgan, Mr. Strong changed it to
The Orleans Advocate and Anti Masonic Telegraph; and in Feb.

The Orleans Anti Masonic Telegraph. In June of the same year it was changed to

The Orleans Telegraph; and soon after to
The American Standard. It was issued 2 years by J. Kempshall, when it passed back into the hands of Mr. Strong,

who changed it to

The Orleans American. In April, 1844, it passed into the hands of J. & J. H. Denio, and was continued by them until 1853, when it was bought by S. A. Andrews, by whom it is now published.

The Orleans Republican was commenced at Albion in Oct. 1829, by C. S. McConnell. It was published by him until 1841; by H. W. Dupuy a few months; by an association until 1845; by H. E. Purdy until 1846; and by C. S. McConnell until 1848, when it was sold to Wilder and the statement of the month of the statement publishers.

The Albion Times was established Oct. 23, 1853, by J. O. Nickerson. Jan. 11, 1855, it was changed to

The Spirit of Seventy-Siz, and continued until May 27, 1858.
The Orleans Whig was commenced at Gaines in July, 1827, by
John Fisk, and continued several years.
The Medina Herald was issued in 1852 by Daniel P. Adams, and
continued 2 or 3 years.
The Medina Continued was started in Aug. 1827, by L. L. H.

The Medina Sentinel was started in Aug. 1837, by J. & J. H.
Denio. The following year it was changed to
The Orleans Sentinel, and continued until May, 1842.

The Bucktail was commenced in 1840 by S. M. Burroughs. It was subsequently changed to
The Medina Democrat, and continued 2 or 3 years.

The Medina Citizen was started in 1850 by H. A. Smith. In 1852 it was changed to

1802 it was changed to

4 About 1½ mi. w. of Shelby Center are the remains of an an-

cent fortification, nearly circular in form, enclosing an area of about 3 acres. A broad ditch encircled the whole. Flint arrow heads, stone axes, several piles of small stones, and pieces of earthenware have been found within the enclosure. Trees of 400 years' growth stand upon the embankment. Large numbers of human skeletone, many of them of cigant size have been expensed. of human skeletons, many of them of giant size, have been ex-humed near the fort. Many of these seem to have been thrown promiscuously into one common grave; and it is generally sup-

⁵ As soon as the news of the capture of Fort Niagara reached the village of Gaines, Capt. Eleazur McCourty, with a company of volunteers, started for the Niagara frontier. On their way they surprised and captured, after a short conflict, a body of marauding British and Indians at Muleneux's tavern, in the town of Cambria, Niagara co. They subsequently captured another party near Youngstown, and compelled them to carry back their booty to "Hardscrable," (Dickersonville.) They remained upon the lines about 20 days, until the arrival of the militia drafted from Cayuga and the adjoining cos.

CARLTON—was formed from Gaines and Ridgeway, April 13, 1822, as "Oak Orchard." Its name was changed in 1825. It lies on the lake shore, between Kendall and Yates, and is crossed in a N. E. direction by Oak Orchard and Johnsons Creeks. The surface is level, and the soil generally sandy. Salt water has been discovered near West Carlton. Carlton, (p. o.,) East Carlton, (p. o.,) West Carlton, (p.o.,) Waterport, (p.o.,) Kenyonville, Oak Orchard Harbor, and Baldwin Corners are hamlets. Settlement was commenced in 1803, by two brothers, Jas. and Wm. Walsworth,—the former at the mouth of Oak Orchard Creek, the latter on Johnsons Creek. Matthew Dunham and his sons Matthew, Jas., and Charles, from N. Y. City, settled near Johnsons Creek in the fall of 1803.7 The first church (M. E.) was organized at West Carlton, about 1816.8

CLARENDON—was formed from Sweden, Monroe co., Feb. 23, 1821. It is the s. E. corner town of the co. The E. branch of Sandy Creek rises in the Tonawanda Swamp and flows N. Upon this stream are two waterfalls, -one at the village of Clarendon and the other in the N. part of the town. Along the line of the mountain ridge the surface is broken, and elsewhere it is gently rolling or level. The soil is a sandy loam; in the N. stony. Limestone for building purposes and hydraulic limestone have been obtained at Clarendon. Clarendon (p.v.) contains 2 churches, a limited number of manufactories, 10 and about 30 dwellings. The first settlement was made in 1811, at the village of Clarendon, by Eldridge Farwell. 11 There are now 3 churches in town. 12

GAINES¹³—was formed from Ridgeway, Feb. 14, 1816. Barre was taken off in 1818, and a part of Carlton in 1822. It is the central town in the co. It is crossed by Otter and Marsh Creeks, branches of the Oak Orchard, and by the w. branch of Sandy Creek. The lake ridge extends E. and W. through the center. The surface is level and the soil sandy. Eagle Harbor, (p. v.,) on the Erie Canal, contains 2 churches, 2 flouring mills, and a large stave factory and cooperage. Pop. 639,—509 in Gaines and 130 in Barre. Gaines 4 (p. v.) contains 3 ghurches and 342 inhabitants. East Gaines and West Gaines are p. offices; and Gaines Basin, on the canal, and Fairhaven, are hamlets. The first settlement was made prior to 1809, by —— Gilbert. 6 Locally known as "Two Bridges."

7 In 1804, Elijah Hunt, Henry Lovell, Moses Root, Elijah Brown, and Job Shipman settled in this town. The first death in town, unless it was that of a member of the Canadian family mentioned on page —, was that of a deserter from Fort Niagara, who was drowned in attempting to cross Johnsons Creek, about 1800. The first death of an actual settler was that of Elijah Brown, May 7, 1805. The first births were those of a pair of twins, children of James Walsworth, in 1806; and the first marriage, that of Wm. Carter and Amy Hunt, in 1804. The first gristmill was built on Johnsons Creek, by Matthew Dunham, in 1806; and the first store was opened in 1816, at West Carlton,

KENDALL'-was taken from Murray, April 7, 1837. It lies on the lake shore,2 in the E. part of the co., and is crossed by Bald Eagle Creek near the center, and Sandy Creek in the s. part. Its surface is level; and the soil, with the exception of a belt of clay across the s. part, is a sandy loam. There are several small salt springs in the town. Kendall (p.v.) contains 4 churches and about 25 dwellings. West Kendall (p. o.) and Kendall Mills (p. o.) are hamlets. The first settlement was made in 1812, by Samuel Bates, from Chittenden co., Vt. The first religious service, conducted by Elder Stephen Randall, was held in the spring of 1816.4

MURRAY—was formed from "Northampton," (now Gates, Monroe co.,) April 8, 1808. Sweden was taken off in 1813, Clarkson in 1819, and Kendall in 1837. It lies on the E. border of the co., between Clarendon and Kendall, and is crossed by Sandy Creek, the two branches of which unite at Murray, in the N. part of the town. This stream has worn a deep channel: at Holley it is about 75 feet below the level of the land. The embankment over which the N. Y. C. R. R. crosses the gulf is one of the largest on the line of that road. The surface is generally level, except in the s. w. part, where it is rolling. The soil is mostly a sandy loam; in some parts, however, it is clayev. Near Holley are two sulphur and several salt springs, at the latter of which salt was manufactured previous to the opening of the canal. The Medina sandstone approaches near the surface; and quarries have been opened in the neighborhood of Hulberton.5 Holley, 6 (p. v.,) incorp. Sept. 3, 1850, a station on the N. Y. C. R. R., is situated in the s. part of the town, on the Erie Canal. It contains 2 churches, the Holley Academy, and several manufacturing establishments. Pop. 614. Hulberton (p.v.) contains 278 inhabitants; and Hindsburgh (p.v.) 167. Murray8 (p.o.) and Brockville are hamlets. Murray Depot is a R. R. station. The first settlement was made by Epaphras Mattison, prior to 1809.9 The first church (Cong.) was formed Jan. 5, 1819, by Rev. John F. Bliss. 10

RIDGEWAY¹¹—was formed from Batavia, (Genesee co.,) June 8, 1812. Gaines was taken off in 1816, Shelby in 1818, and Yates and a part of Carlton in 1822. It lies on the w. border of the co., between Shelby and Yates, and is crossed by Johnsons and Oak Orchard Creeks. Upon the latter, at Medina, is a waterfall about 30 feet high; and at Jeddo and Oak Orchard, where the streams cross the lake ridge, are low waterfalls. The surface is generally level, and the soil a sandy loam. Some of the most important of the salt springs of this co. are in this town. 12 Within and near the village of Medina are extensive quarries; and large quantities of building, flagging, and paving stone are sent to Rochester, Buffalo, and other places on the canal. Medina, (p.v.,) incorp. March 30, 1832, lies on the Erie Canal, mostly within this town. It is an important station on the N. Y. C. R. R., and is connected with Ridgeway on the N. and Shelby Center on the s. by the Medina & Alabama Plank Road. It contains 5 churches, an academy, 14 a newspaper office, and several manufactories. 15 Pop. in 1855, 2,104,—in Ridgeway 1,915, in Shelby 189. Knowlesville, 16 (p. v.,) a station on the N. Y. C. R. SHELBY3-was formed from Ridgeway, March 6, 1818. It is the s.w. corner town of the co. Johnsons Creek and a branch of the Oak Orchard take their rise in this town, and the Oak Orchard crosses it through the center. Upon the latter stream, at Shelby Center, is a fall, affording a valuable water-power. The surface is undulating; and the soil a mixture of sand, clay, and lime. The Tonawanda Swamp occupies the s. part. Shelby (Shelby Center p. o.) contains 1 church and several manufactories; 5 Millville (p. v.) contains 3 churches, the Millville Academy, and about 45 dwellings. East Shelby (p. o.) and Shelby Basin (p. o.) are hamlets; and West Shelby is a p. office. Medina is partly in this town. The remains of Indian fortifications have been discovered in this town. The first settlement was made by Alex. Coon, from Rensselaer co., in 1810.6 The first church (Bap.) was formed July 25, 1818.7

YATES8—was formed from Ridgeway, April 17, 1822, as "Northton;" its name was changed the following year. It is the most westerly town upon the lake shore. It is crossed by Johnsons Creek and two smaller streams. Marsh Creek and Four Mile Creek have their whole course in the town. The surface is level, except along Johnsons Creek, where it is undulating; the soil in the s, is a sandy loam, and along the lake clayey. Lyndonville (p.v.) contains 3 churches and several manufactories. Pop. 242. Yates Center (Yates p.o.) contains 1 church and the Yates Academy. Pop. 191. County Line (p.o.) is on the w. line of the town. George Houseman, from Adams, Jefferson co., settled in this town in 1809, and John Eaton, from Penn., in 1810.9 There are now 6 churches in town.10

OSWEGO COUNTY.

This county was formed from Oneida and Onondaga, March 1, 1816. It is situated upon the s.e. extremity of Lake Ontario, centrally distant 135 mi. from Albany, and contains an area of 1,038 sq. mi. Its surface is generally level or gently undulating. A series of bluffs 20 to 40 feet high border immediately upon the lake; and from their tops the land stretches out in long and gradual slopes, occasionally broken by the valleys of the river courses. The general inclination is northerly, as indicated by the drainage, though the summits of the ridges within half a mi. of the lake have about the same altitude as those upon the s. border of the co. A low ridge extending in an easterly and westerly direction, from 3 to 5 mi. N. of Oneida Lake, forms the watershed between Lakes

Ontario and Oneida. In the E. part of the co. this ridge turns northward and unites with the system of highlands which separates Lake Ontario and the valley of Black River. The highest point of this range, in the town of Redfield, is 1,200 to 1,500 feet above tide.

The rocks of this co. consist of the Lorraine shales, in the extreme N. part, on the lake; the gray sandstone,2 extending from the N.E. corner to near the center, its southern limits being marked by a line drawn due E. from Oswego River about 1 mi. from its mouth; the Medina or red sandstone, bordering on the last, and comprising more than one-third of the area of the co.; and the Clinton group of shales, slate, and sandstone, occupying the extreme s. border. These rocks are exposed only in the N. E. part and along the river courses, being generally covered with a thick mass of drift and alluvial deposits, consisting of sand, gravel, and clay. The gray sandstone is hard and compact, and is little affected by the action of the elements; hence the disintegration is slight, and the soil upon it is thin and poor. The Lorraine shales are easily disintegrated, and form the basis of the strongest and richest soils in the co. The red sandstone crops out on the banks of all the streams which flow through the region which it occupies. It is extensively quarried for building stone, though it is more easily acted upon by the elements than the gray sandstone. Weak brine springs are found associated with this red sandstone throughout the co. The Clinton group, occupying the entire s. border, consists of parallel layers or beds of shale and red and gray sandstone. This is the same geological formation in which is found the principal iron ore beds of Penn. and Oneida co.; and throughout the formation in this co. iron ore is found.

The drainage of the w. and s. parts of the co. is principally through Oswego River, and of the N. and E. portions through Salmon River and a great number of smaller streams that flow directly into the lake. Oswego River is formed by the junction of Seneca and Oneida Rivers at Three River Point. It is 23 mi. in length, and falls 128 feet in its course, in several distinct falls, each of which furnishes an excellent water-power. Oneida River, forming the outlet of Oneida Lake, is 18 mi. in length, and falls about 12½ feet in its course. Salmon River and other streams flowing into the E. extremity of the lake all have successions of rapids and cascades, which furnish to that portion of the co. an abundance of water-power. The principal bodies of water are Lakes Ontario and Oneida. The former, constituting the N.W. boundary, presents an almost unbroken coast line for a distance of 40 mi. within the limits of the co. Little Sandy Pond, in the town of Sandy Creek, is the only considerable indentation. The mouth of Oswego River furnishes a valuable harbor, the only one of importance in the co. Oneida Lake, constituting a portion of the s. boundary, is 141½ feet above Lake Ontario.³ It is one link in the chain of the internal water communication of the State. A considerable portion of the land in its immediate vicinity is marshy. Iron ore beds and a fine quartz sand, used in the manufacture of glass, are found upon its N. shores. The soil found in the shale and sandstone region has already been noticed. The drift and alluvial deposits which cover the greater portion of the co. furnish a great variety of soil. The sandy portions are light and weak, while the clayey portions are hard, tough, and unyielding in many places. Where these are mixed, a rich, deep soil is the result. Along the E. border of the co. are great quantities of limestone boulders, which essen-

¹ Its name was derived from the Indian On-ti-ah-an-taque. The early French explorers called it "Chanaquen." The portion lying E. of Oswego River was taken from Oueida, and that lying w. from Onondaga. The Onondaga portion embraced the township of Hannibal and 33 lots of Lysander, belonging to the Military Tract.

tially modify the soil of that region. The marshes are generally composed of beds of black muck and other vegetable matter, and form the richest kind of natural meadow when drained and cultivated.

Agriculture, manufactures, and commerce about equally engage the attention of the people. Stock raising and dairying are the principal branches of agriculture; spring grains and wool are also extensively produced.\(^1\) The commerce is mostly concentrated at Oswego City, and is carried on by means of the lake, the Oswego Canal, and the R.R. The manufactures consist of flour, lumber, barrels, 2 starch, and a variety of other articles. The amount of flour annually manufactured is greater than in any other co. in the State. The principal mills are at Oswego City, Fulton, and vicinity.

The Oswego Canal, connecting Lake Ontario with the Erie Canal at Syracuse, is 38 mi. long, and for most of the distance is formed by the slackwater navigation of Oswego River. Oneida Lake and River also form a part of the internal navigable waters of the State, connecting with the Oswego Canal at Three River Point and with the Erie Canal at Higginsville. The Oswego & Syracuse R. R. connects with the New York Central R. R. at Syracuse. The Watertown & Rome R. R. enters the co, in the N. E. corner, and passes through Williamstown, Albion, Richland, and Sandy Creek.

This co. is divided into two jury districts,3 the courts being held respectively at Pulaski Village and Oswego City.4 At the former place a brick building, including a courthouse and jail, was erected in 1820, and at the latter a wood courthouse about the same time.⁵ A stone jail was erected in the city in 1850, and a fireproof co. clerk's office in 1851.6 The co. poorhouse is located upon a farm of 60 acres in the town of Mexico. It is an old building, and is poorly adapted to its purpose. The average number of inmates is about 50. An asylum for insane paupers is in process of erection adjacent to the poorhouse. The Oswego Orphan Asylum, located at Oswego City, is in part a co. institution. All the children of the inmates of the poorhouse between the ages of 4 and 6 years are supported at the Orphan Asylum at the co. expense,7

Two daily and 5 weekly papers are published in the co.8

1 The first settlers of the co. were principally engaged in the manufacture of lumber and potash. Wheat was once a staple production; but since the commencement of the ravages of the midge it has given place to the coarser grains.

2 Barrels to the amount of 1,500,000 are annually manufactured for the Oswego flour mills and the Syracuse salt works.

3 The eastern district comprises the towns of Albion, Amboy, Constantia, Hastings, Mexico, New Haven, Orwell, Parish, Redfield, Richland, Sandy Creek, West Monroe, and Williamstown; and the western, the towns of Granby, Hannibal, Oswego, Palermo, Schroeppel, Scriba, Volney, and the city of Oswego.

4 Perley Keyes and Ethel Bronson, of Jefferson co., and Stephen Bates, of Ontario, were appointed commissioners to locate the county seats and select the sites for the county buildings. The first co. officers, appointed by the Governor and council, were Barnet Mooney, First Judge; Henry Williams, Smith Dunlap, Peter D. Hugunin, David Easton, and Daniel Hawks, jr., Judges and Justices: Edmund Hawks, Judge; Elias Brewster, Surrogate; James Adams, Co. Clerk; and John S. Davis, Sheriff. The first courts were held in schoolhouses from the first organization of the co., in 1816, to the completion of the courthouses, in 1820–21.

At their last annual meeting the Board of Supervisors authorized the raising and appropriated \$30,000 for the erection of a new courthouse in the city, on the E. public square; and the building is now being constructed of Onondaga limestone.

⁶ Previous to this time the clerk's office was kept alternately in private houses at each of the shire towns for periods of 3 years, the books being carried back and forth at the end of each period.

The portion of the co. of Oswego lying near the mouth of the river was discovered in 1654 by French Jesuits, who established missions here for the conversion of the Iroquois.\(^1\) The French had previously explored the St. Lawrence; and in 1615 Champlain, in an expedition against the Onondagas, passed through the E. part of the co. In 1700 the English explored the country occupied by the Five Nations as far w. as Oswego; and in 1722 a trading house was built here under the direction of the N.Y. colonial government. From that period considerable trade was carried on by the Euglish between Oswego and Albany through Oswego River, Oneida River and Lake, Wood Creek, and the Mohawk.2 In 1727 the English built a fort on the w. bank of the river, near its mouth.3 The French, claiming this whole territory, remonstrated against the action of the English, and several times planned expeditions to destroy the fortifications, but did not carry them into effect. Upon the commencement of the "Old French War" of 1753, Fort Ontario was erected on the E. bank of the river; and another fort was built upon the summit of the w. ridge in 1755,4 In the summer of 1756, 5,000 French under Montealm, with a heavy train of artillery, consisting of 30 guns of large caliber, crossed the lake from Fort Frontenac (now Kingston) and appeared before this place. The forts were invested Aug. 11, and, after 3 days' hard fighting, they were surrendered on the 14th.5 The victors demolished the forts, burned the English vessels, and retired. In 1758, Col. Bradstreet, with 3,350 men, crossed the lake from this place and reduced Fort Frontenac. After destroying the fortifications and securing the military stores and vessels, he returned to Oswego and rebuilt the forts there. Fort Ontario was greatly enlarged, and built in the most substantial manner. In the summer of 1760, the powerful army of Lord Amherst embarked here on an expedition down the St. Lawrence. From this time Oswego became the most important military station upon the western frontier. During the Revolution it was strongly garrisoned, and formed the headquarters of many of the marauding parties that desolated the frontier settlements. It continued in possession of the British until 1796, when it was surrendered under the provisions of Jay's treaty.

In 1790, George Scriba, a merchant of N. Y. City, and a German by birth, purchased 500,000 acres of land lying between Lakes Oncida and Ontario, for the sum of \$80,000.6 This purchase, known as "Scriba's Patent," was bounded on the E. by Fish Creek and on the w. by Oswego River, and embraced 14 towns in Oswego co. and 4 in Oneida. In 1794, Mr. Scriba caused a settlement to be made and a sawmill built on the shore of Oneida Lake, to which he gave the name of "Rotterdam,"-now Constantia. In 1795 he built a gristmill-the first in the co.-and several other buildings at the same place. During the same year his patent was surveyed and divided into townships and subdivided into lots.7 About the same time he commenced a settlement at the mouth of Little Salmon Creek, on the shore of Lake Ontario, 12 mi. N. E. of Oswego, which he called

The Pulaski Advocate, and was published by Daniel Ayer until 1838. It was then sold to —— Dickinson and united with the Port Ontario Aurora, the united papers taking the name of
The Advocate and Aurora. The name, Aurora, was dropped in

The Aurocate and Aurora. The Bailer, Aurora, was dropped in 1840, when the Advocate again passed into the hands of Daniel Ayer, and was discontinued in 1842.

1 There is a tradition that the French established a military

⁴ This fort stood at the junction of West 6th and Van Buren Sts.

⁵ The French landed 50 mi. E. of Oswego, and marched along the lake shore under cover of their naval force. The English garrison numbered 2,000 strong. Col. Mercer, the English commander, was killed by a cannon shot on the 2d day of the siege of In this grant the State made reservations of the territory at the mouth of the river, within the limits of the city of Oswego, and also at the falls in the village of Fulton. Most of these reservations were disposed of at public sale in 1827. At an earlier date, considerable tracts in Scriba's Patent, on Oswego River, were jointly purchased by Gen. Alexander Hamilton, John Laurence, and John B. Church. Several other grants were also made along the river. Other tracts of considerable magnitude were purchased by Schroeppel, Rosevelt, and others.

⁷ This survey and subdivision was made by Benjamin Wright, who in 1793-94 ran the base line from Rome to Fort Ontario, on which the towns of Scriba's Patent were laid out. The town-

"Vera Cruz," (now Texas.) He here built a saw and grist mill, store, and other buildings, and commenced an active trade on the lake; and for some years the place bid fair to become a formidable rival of Oswego, and the most important commercial station upon the lake. A few other settlements were made at other points in the co., principally under the auspices of Mr. Scriba, previous to 1800; but immigration did not begin to flow in rapidly until a few years later. The lands of Mr. Scriba were divided and sold to a great number of different parties; and while his exertions and expenditures were of great service to the first settlers, they proved extremely unprofitable to himself.2 In common with all the frontier settlements, the growth of this region was seriously retarded by the War of 1812. Oswego Village became the theater of stirring military events; and on the 5th of May, 1814, it was taken by the British.3 At the return of peace, immigration again flowed in, and the subsequent history has been one of steady and continuous progress. The opening of the Eric and Oswego Canals, in this State, and of the Welland Canal, in Canada, greatly increased the commercial importance of the city and stimulated the manufacturing interests throughout the co.

ALBION—was taken from Richland, March 24, 1825. It is an interior town, lying E. of the center of the co. Its surface is level or gently undulating. The summits of the ridges are 50 to 100 feet above the valleys, and the highest point in town is 392 feet above Lake Ontario. The lowlands are wet and in some places marshy. Salmon River flows through the N. part. In the N.E. part are 2 or 3 small ponds. The soil consists of deposits of sand and gravel, and is of medium quality. Drift deposits cover the whole surface, except along the river courses, where the underlying rocks crop out. Much of the s. part of the town is yet unsettled. Considerable manufacturing is carried on. 5 Sand Bank, (p. v.,) on Salmon River, is a station on the Watertown & Rome R. R., midway between the two places. It contains 1 church, a hotel, 4 stores, 2 tanneries, 5 sawmills, and a flouring mill. Pop. 313. Pineville, (Salmon River p.o.,) a station on the W. & R. R. R., situated on Salmon River, contains 1 church, an inn, a store, a sawmill, and a large tannery. Pop. 144. New Centerville, (p. o.,) a station on the W. & R. R. R., Dug Way, (p. o.,) and South Albion (p. o.) are hamlets. Settlement was commenced in 1812, by Cary Burdic, of Williamstown, on Lot 29, and Peter Henderson, at Sand Bank.⁶ There are 4 churches in town.⁷

AMBOY—was formed from Williamstown, March 25, 1830. It lies upon the E. border of the co., s. of the center. The surface is rolling and has a general southerly inclination. Its highest point is about 450 feet above Lake Ontario. It is drained principally by Fish Creek and other small tributaries of Oneida Lake. In the s. and w. parts are numerous small lakes and ponds, the principal of which are Painter Lake, North and South Ponds. The N. half of the town is in the region of the gray sandstone, and the s. half in that of the red or Medina sandstone. The soil is principally a sandy or gravelly loam. Amboy Center (p. v.) contains 13 houses; West

ships of Scriba's Patent, like those of Macomb's Purchase, received names from the proprietors that are known only in deeds;

1 Vera Cruz was laid out into city lots by Mr. Wright, who was an agent of Scriba, and considerable improvements was an agent of Serina, and consideration improvements were made. A rod highway was cut from Rotterdam to Vera Cruz, a distance of 20 mi, from lake to lake. In 1798 a schooner was built there by Mr. Scriba's agent, which was engaged in the trade between Vera Cruz and the Canadian port of Kingston. It is said that in 1804 more merchandise was sold there than at Oswego or Utica; and in the imagination of many persons Vera Cruz was destined to command the trade of Canada and the West. But, by a series of disasters on the lake, a large portion of the male residents were lost to the infant settlement; and the restrictive policy of Mr. Jefferson's administration, followed by the War of 1812, extinguished the flattering prospects of Vera

Cruz. The events and the action of half a century have nearly obliterated all traces of the once promising city.

2 At the time of the purchase Mr. Scriba's fortune was estimated at \$1.500,000; but the whole of it became swallowed up in his efforts to promote the interests of the infant settlements; or he half of Apr. 14, 125, of the ears of \$4. a row man. and he died Aug. 14, 1836, at the age of 84, a poor man.

of salmon were annually taken.

Large quantities of lumber, leather, and barrels are manufactured, the latter for the Onondaga salt and Oswego flour markets. There are 38 sawmills, 3 tanneries, and 2 gristmills in town.

6 In 1813 David, Luther, and Benj. Lilly and Allen McClarn ettled in the town. The first birth was that of a son of Luther Lilly, in 1813; the first marriage, that of Henry Baker and Luey Burdic, in 1819; and the first death, that of a son of Luther Lilly, in 1813. The first inn was kept by Dr. Brace, at Sand Bank, in 1814; and the first store, by Anumi Hinkley, in 1828. The Lilly prothers built the first sawmill. in 1813 and Feetled. The Lilly brothers built the first sawmill, in 1813, and Ezekiel Smith the first gristmill, in 1818. The first school was taught by Sylvia Breed, in the summer of 1817.

Amboy (p.v.) 20; and Carterville (p.v.) 12. Joseph Perkins, from Conn., was the first settler, in 1805.1 There are 2 churches in town; M. E. and Bap., both located at Amboy Center.

BOYLSTON2—was formed from Orwell, Feb. 7, 1828. It lies upon the N. border of the co., E. of the center. Its surface is rolling in the center and E., and moderately hilly in the w. It has a westerly inclination, and its highest points are 700 to 800 feet above tide. The soil in the x. and W. parts is a productive, gravelly loam, the underlying rock being the Lorraine shale. The s. E. corner of the town extends into the gray limestone region, and the soil is light and thin, Boylston (p.o.) is in the n.w. part. The first settlement was made in 1810, on Lots 2 and 3, by John Wart and Michael Sweetman, both from Canajoharie.3 Meetings for religious worship are held in the town by the Episcopal Methodists and the Wesleyan Methodists.

CONSTANTIA4—was formed from Mexico, April 8, 1808. Hastings was taken off in 1825, and West Monroe in 1839. It lies upon the N. shore of Oneida Lake, in the s.E. corner of the co. The surface is nearly level, and is slightly inclined toward the s. The principal streams are Scriba and Black Creeks, flowing into Oncida Lake. Iron ore is found in the Clinton group of rocks, which extend through the s. part. The soil consists of clay, gravel, sand, and vegetable mold, and in general is fertile. Most of the interior is yet unsettled. Frenchmans Island, in Oneida Lake, about 4 mi. from Constantia, belongs to this town; it contains about 28 acres.5 Lumber, leather, glass, and iron are extensively manufactured.6 Cleveland,7 (p.v.,) incorp. April 15, 1857, is located on Oneida Lake, in the E. part of the town. It contains 2 churches, 2 glass factories, and several other manufactories. Pop. 1,005. Constantia, (p.v.,) in the w. part, on Oneida Lake, contains 2 churches and has a pop. of 600. Bernhards Bay, (p.v.,) on the lake, contains 2 churches, a glass factory, and 360 inhabitants. Constantia Center is a p.o. Soon after the purchase of Scriba's Patent, in 1790, Mr. Scriba commenced the first settlement of his lands at Constantia, and established agents and laborers there in 1793.8 There are 7 churches in town.9

GRANBY—was formed from Hannibal, April 20, 1818. A part of Oswego was taken off in 1836. It lies on the w. bank of Oswego River, in the s. w. part of the co. The surface is gently rolling, with a slight inclination to the N.E. Oswego River flows through a valley from 30 to 60 feet below the general level of the town; within this town it has a fall of 40 feet. Lake Nea-tah-wan-ta, near the center of the E. part, is about 1 mi. in diameter. It lies about 25 feet above the river at the head of the falls. The streams are Ox Creek, Six Mile Creek, and the outlet of Nea-tah-wan-ta Lake. The soil is generally a sandy or gravelly loam. Bradstreets10 or Battle Island is in Oswego River, about 4 mi. below the Oswego Falls. Starch, leather, lumber, and the products of wood are extensively manufactured. 11 Oswego Falls, (p. v.,) incorp. Oct. 12, 1853, a station on the S. & O. R. R., is situated on Oswego River, opposite the village of Fulton. Pop. 703. Granby Center and South Granby are p. offices. The first settlement was made at the falls, in 1792, by Laurence Van Valkinberg, from Rensselaer co., N.Y. 12 There are now 2 churches in town. 13

1 Among the early settlers were David Smith, in 1815; Wm. and Isaac Chaxton and John Drought, in 1818; and Sage Park, in 1821. The first inn was kept by Joseph Perkins, in 1805; the first sawmill was built by Joseph Murphy, in 1822, and the first gristmill by Sage Park, in 1828. The first school was taught by Cynthia Stoddard, in the summer of 1823.

Following the trail of emigration westward, they reached Oneida Lake, then on the great thoroughfare of travel; and, attracted by the beautiful island and its primitive forests, they landed upon it, and concluded to make it their future home. Here, in the deep solitude of nature, they enjoyed for many months perfect peace and quietude. Their place of residence was at length discovered by Chancellor Livingston, who had formerly enjoyed the elegant hospitalities of the lady's family at Paris. He visited them in their rural home, and, after spending some time with them, he prevailed upon them to return with him to his mansion upon the Hudson. There they continued to reside until Bonaparte

Several years after, as Livingston stood upon the bank of the Seine, amidst a crowd of distinguished Parisians, to witness the first experiment of Robert Fulton in steam navigation, he was recognized by the Count, who at once steam navigation, he was recognized by the Conia, who at Orac took him to his residence, and treated him during his stay at Paris as a generous benefactor and an honored guest. Livingston's man-sion upon the Hudson and the first steamboat of Fulton and Living-ston were both named, in honor of the lady's family, 'Clermont.'" 6 There are 34 sawmills, 2 flouring mills, 3 glass factoris, 2 tanneries, an iron foundery, and other manufacturing establish-

HANNIBAL—was formed from Lysander, as a part of Onondaga co., Feb. 28, 1806, and embraced all that part of Oswego co. lying w. of the river. Oswego and Granby were taken off in 1818. It is the N. w. corner town of the co. Its surface is gently undulating, the ridges being 30 to 50 feet above the valleys. In the E. part are several swamps, one of which covers 500 acres. The soil is a rich, sandy and gravelly loam. A salt spring, from which salt has been manufactured. is found in the N.W. corner. Springs of brine, characteristic of the Medina sandstone strata, have been discovered in several other localities, but none of sufficient strength to render their working profitable. The principal manufacturing establishments are those of leather, lumber, and the products of wood. Hannibal, (p. v.,) on Nine Mile Creek, a little w. of the center of the town, contains 3 churches and about 60 houses; Hannibal Center (p.v.) contains 20 houses; and Hulls Corners (South Hannibal p.o.) 18. Wheelers Corners is a hamlet in the N. part, and Kinneys Four Corners is a p.o. Settlement was commenced in 1802, by Thomas Sprague and his sons, from Milton, Saratoga co.² The first church (Bap.) was organized in 1815.³

HASTINGS—was formed from Constantia, April 20, 1825. It lies upon the N. shore of Oneida River, in the s. part of the co. Its surface is level or gently undulating, its northern boundary being about 75 feet above Oneida Lake. The soil is clay, sand, and gravelly loam. In some parts of the town it is difficult to find fresh water by digging. Brine springs are found in several parts in the red Medina sandstone formation. In the N.E. part is a tamarack swamp, of about 5 acres, in the center of which is an immense spring 10 feet in diameter. This spring is on a level with the surrounding summit; and it is surrounded by a deep, loose muck which extends downward to an unknown depth. There are 18 sawmills, several gristmills, and 2 tanneries in town. Central Square (p. v.) contains about 50 houses; Hastings, (p. v.,) in the N. part, 30; Caughdenov. (Cod-e-noy,) (p.v.,) on Oneida River, in the s.w. part, 30; and Hastings Center (p.v.) 15. Smiths Mills and Fort Brewerton are villages of about 20 houses each. The latter is situated at the foot of Oneida Lake, on the site of old Fort Brewerton.4 The first settlement was made at Fort Brewerton, by Oliver Stevens, in 1789.⁵ There are 4 churches in town.

MEXICO—was formed from Whitestown, April 10, 1792, as part of Herkimer co. Parts of Richland and New Haven were annexed May 9, 1836. It included the northerly towns of Oneida co., nearly all of Lewis and Jefferson cos. w. of Black River, and all of Oswego co. E. of Oswego River. Camden was taken off in 1799, Champion, Redfield, Turin, Watertown, and Lowville in 1800, Adams in 1802, Lorraine and Williamstown in 1804, Volney in 1806, Constantia in 1808, New Haven in 1813, and Parish in 1828. Its surface is gently rolling. It is well watered by numerous small streams, the principal of which are Little Salmon and Sage Creeks. There is scarcely a foot of waste or broken land in the town. The underlying rock is gray sandstone, covered deep with alluvial deposits. The soil consists of clay, sand, and gravelly loam, and is very productive. Considerable attention is given to stock raising and dairying; the manufacture of lumber, barrels, and leather is carried on to some extent.6 Mexico, (p. v.,) near the center, was incorp. Jan. 15, 1851, and contains 3 churches, an academy, 12 stores, 2 banks, 3 hotels, 3 flouring and grist mills, a sawmill, a furnace and machine shop, 3 coach factories, 4 carriage shops, and 3 cabinet shops. Pop. 948. Colosse, (p.v.,) in the s. E. part, contains 1 church, 2 inns, a store, 2 sawmills, and 2 gristmills. Pop. 119. Texas, (p.v.,) located near the mouth of Little Salmon Creek, contains 30 houses; Union Square, (p. o.) in the E., is a hamlet. The names of the earliest settlers within the present limits of this town are lost. There were about 25 who had already located in 1798; Jonathan Parkhurst and Nathaniel Rood, from Oneida co., came that year.9 By the upsetting of a boat upon the lake, in 1799, Capt. Geerman and 6 others were lost, and in 1804, by a similar disaster, 9 others,

NEW HAVEN-was formed from Mexico, April 2, 1813. A part was annexed to Mexico May 9, 1836. It lies upon the shore of Lake Ontario, w. of the center of the co. The surface is rolling and generally smooth. It is watered by Spring Brook, Catfish and Butterfly Creeks, 3 small streams flowing into Lake Ontario. There is quite an extensive marsh near the mouth of Butterfly Creek, in the N.E. part of the town, and another in the s.w. part. The underlying rock is gray sandstone, and the soil is principally a sandy and gravelly loam. Stock raising receives more atten tion in this than in the other towns of the co., and a limited amount of manufacturing is done.3 New Haven, (p. v.,) situated near the center of the town, on Catfish Creek, contains 2 churches, 2 inns, a store, a sawmill, a gristmill, and about 50 houses. Butterfly is a p. o. near the E. line of the town. The first settlement was made by --- Rood and --- Doolittle, at New Haven, in 1798.4 The first church (Cong.) was organized at New Haven Village, in 1817; and Rev. William Williams was the first minister, There are now 2 churches in town; Cong. and M. E.

ORWELL—was formed from Richland, Feb. 28, 1817, and Boylston was taken off in 1828. A part of Richland was annexed March 27, 1844. It is an interior town, lying N.E. of the center of the eo. The surface has a s.w. inclination, its E. border being elevated 300 to 500 feet above its w. and 700 to 1,000 feet above Lake Ontario. It is moderately hilly, and is considerably broken in places by the deep ravines of the streams. Upon Salmon River is a fall worthy of note. The stream flows over a rocky bed in a series of rapids for 2 mi. and then falls over a precipice 110 feet perpendicular. The banks of the stream below the fall are 200 feet high. The soil is generally a gravelly loam. The E. half of the town is yet uncultivated. Lumber and other products of wood form the leading articles manufactured; and considerable attention is given to stock raising and dairying.5 Orwell Corners, (Orwell p.o.,) in the w. part, contains 1 church, 3 stores, an inn, a sawmill, a gristmill, a tannery, a steam cabinet factory, and about 40 houses. Molino is a hamlet in the s. part. The first settlers were Nathaniel Bennett and his son Nathaniel, from Rensselaer co., N. Y., on Lots 82 and 83, and Capt. Noyes, on Lot 29, in 1806.6 There are 3 religious societies in town.7

OSWEGO CITY-formed from Oswego and Scriba, was incorp. as a village March 14, 1828, and was enlarged and organized as a city March 24, 1848.8 It is situated on Lake Ontario, at the mouth of Oswego River,9 that stream dividing the city into two nearly equal parts. The river is bordered upon each side by a ridge, which rises in gradual slopes to a height of about 100 feet, and ends in bluffs on the lake shore 40 to 60 feet high. The summits of these ridges are about 1 mi. apart, and descend from the river in the same gradual slopes as toward it. One mi. w. is a valley opening through the ridge into the river above the falls, through which the Oswego must have once flowed into the lake. The s. border of the city is skirted by a

bluff or escarpment about 160 feet above the lake, indicating an ancient lake or sea beach. Here commences the deep ravine excavated by the river through strata of red sandstone of the Medina group and underlying shale. From this the geological induction is made that, at the last great physical change which elevated the country from the bed of an ancient ocean and brought the river into existence, it fell directly into Lake Ontario, at the escarpment, by a fall of moderate

height, the upward movement being gradual and intermittent. The pauses by which it was interrunted are marked by ancient beach lines, ridges, and terraces found at different heights above the lakes. The Oswego Falls are now 11 feet high; and, as they have receded s. 12 mi., to the village of Fulton, with an ascending average grade of about 9 feet per mi. in the excavated bed of the river, they must have diminished in height and grandeur from age to age during the whole period of recession. This hypothesis is sustained by geographical and geological analogy with the Falls of the Genesee and the Niagara. The aggregate fall of the river within the 12 mi, is 110 feet, of which 34 feet are within the limits of the city; and the whole fall is so distributed by 6 successive dams. built by the State for canal and slackwater navigation, that the water of the river may be used by raceways nearly the whole distance, affording one of the finest water-powers in the world. river forms the outlet to the 11 lakes which cluster in the basin of Central New York, and drains a wide extent of territory. These lakes form natural reservoirs which prevent floods or undue exhaustion, the extreme elevation and depression of the river not exceeding 3 feet, so that destructive freshets, so common to great water-power rivers, never occur. The mouth of the river admits vessels of the largest class navigating the lakes; and the erection of piers and a lighthouse by the U.S. Government renders it one of the safest and most accessible harbors on the lakes, susceptible of indefinite enlargement, and combining canal and R. R. transportation with the advantages of position as the nearest lake port to tidewater. A hydraulic canal extending along both sides of the river is studded with mills, elevating warehouses, and other manufacturing establishments.

The city is handsomely laid out, with streets 100 feet wide, intersecting each other at right angles. The E. and w. banks of the river are connected by two bridges, built by the city,—the lower one, an iron bridge with a draw for the passage of vessels, on Bridge St., the upper on Utica St., at the terminus of the Oswego & Syracuse R. R. The principal public buildings are an edifice recently erected by the U.S. Government, containing a custom house, post-office, and U.S. courtroom, a city hall, jail, orphan asylum, city hospital, city library, and 12 churches.

The Orphan Asylum is situated upon the elevated ground in the southern part of the city, commanding a fine view of the city, harbor, and lake. It was founded in 1853, mainly through the influence of the ladies of Oswego, and continues to be principally supported by them. Orphans and children of destitute parents, from earliest infancy to 8 years of age, are admitted and cared for and afterward placed out in respectable families. A primary and Sabbath school are connected with the institution. The number of inmates ranges from 50 to 100.

The City Library was founded by a donation of \$25,000 from Hon. Gerrett Smith. The edifice is finely located upon the E. side of the river; and the library at present contains 9,000 volumes.4

The Public Schools are graded and free: they are under the care of a Board of Education and Superintendent. The system embraces the primary, junior, senior, and high school departments; and pupils can receive instruction from the primary branches to an extended academic course. In 1857 there were in the city 23 school districts, in which were employed 47 teachers,—8 males and 39 females. The number of children between 4 and 21 was 5,516, of which 4,175, or 75 per cent., attended school during some portion of the year. The total receipts and expenses during the year was \$26,341 14; the number of volumes in the district libraries, about 3,000.

The commerce of Oswego is very extensive, and is increasing much more rapidly than the population. Being situated near the foot of lake navigation, and nearer to N. Y. than any other lake port, it has commercial facilities superior to those of most of the Western cities. A considerable share of the produce of the West flows through this port on its way to the seaboard markets; and it is the principal entrepôt of the agricultural products of Canada West. The salt of Onondaga is mostly distributed through the Great West from this place; and vast quantities of the manufactured goods of the East are sent through the same channel. The official report of the value of the lake and canal trade, derived from the Custom House and Canal Collector's Office, for 1845, was \$7,951,409, and for 1856 was \$50,612,603, showing an annual average increase of nearly 20 per cent. The amount of registered tonnage in 1846 was 15,513 tons, and in 1856 it was 46,467 tons.

The manufacturing interests of the city have attained to considerable magnitude, although the vast water-power of Oswego River is occupied but to a limited extent. Flour made from the wheat

of Canada and the Western States forms the leading article manufactured. The Oswego mills, 18 in number, with an aggregate of 100 run of stone, are capable of grinding and packing 10,000 barrels of flour per day, -a greater amount than is manufactured at any other place on the continent.1

Shipyards and 2 marine railways rank among the important manufacturing establishments of the city, and give large employment to labor. The Oswego Starch Factory, erected in 1848, upon the hydraulic canal, on the w. bank of the river, is one of the most prosperous and extensive establishments of the kind in the world.2 Lumber is extensively dressed in the city for the Western markets, from Canadian sawed lumber entered free under the Reciprocity Treaty. The Oswego Cotton Mills is a well managed and productive establishment, operating 83 looms, 2,664 spindles, and giving employment to 65 operators. A little above, on the same canal, is an extensive tannery. The Ontario Foundery, Steam Engine and Machine Works, is one of the most extensive and prosperous establishments of the kind in the State. Many other branches of manufactures are carried on in the city.

The early history of Oswego has already been noticed in the general history of the co.3 Its distinctive and modern history dates from its surrender by the British in 1796. The withdrawal of the British garrison took away from the place all that had ever been established of civilized society, and left it as new as though man had never resided there. During the year following the evacuation, Neil McMullin, a merchant of Kingston, moved thither, bringing with him a house framed at Kingston.4 In 1802 but 2 or 3 vessels were owned on the American side of the lake, trade being principally carried on by vessels belonging to the Northwest Fur Company. During this year Benajah Boyington built a warehouse on the w. side of the river, and Arch. Fairfield became a forwarding merchant. Salt from the Onondaga Springs was at that time the most important item in the commerce of Oswego. In 1803, Matthew McNair engaged in the forwarding business and purchased a schooner. In 1804 he built another, and, in connection with other gentlemen, purchased a number of Canadian vessels.⁵ From this period shipbuilding was carried on briskly, and it formed a leading interest until the breaking out of the War of 1812.

The war put an end to commercial transactions; but the place became the scene of stirring military events. The fort was garrisoned and commanded by Col. Mitchell. On the 5th of May, 1814, the British fleet under Sir James Yeo appeared off the harbor and opened a heavy fire upon the place. The fire was returned by the 4 small guns which constituted the only armament of Fort Ontario, and by a small battery on the w. side of the river. The next morning the British took position still nearer the shore, and under the cover of a heavy fire 2 columns of the enemy effected a landing. After a gallant but vain defense, Col. Mitchell retreated, leaving the fort and town in possession of the enemy.6 The principal object of the attack was to secure the naval stores destined for the new vessels building at Sackets Harbor; but a large share of these were at Oswego Falls, 12 mi. above, and were not taken. Several cannon and other heavy articles lying upon the wharf were sunk in the river, at the command of Col. Mitchell; these were afterward recovered. On the morning of the 7th the British retired, and the fleet proceeded N. to blockade Sackets Harbor. Lieut. Woolsey, who had charge of the stores, immediately dropped down the river, and, with 19 boats laden with stores, set out on the lake under cover of night, and supported by a body of riflemen and Indians, under Maj. Appling, on shore. The boats were pursued, and took refuge in Sandy Creek, where an action took place, resulting in the capture of the entire attacking party.7

Oswego recovered slowly from the effects of the war, and its commercial transactions were comparatively unimportant until the opening of the Oswego and Welland Canals.8 In the mean time

Six grain warehouses on the harbor elevate and discharge in the same way. The other mills, located above, elevate from and discharge into canal boats. The elevating capacity on the harbor is 37,500 bushels per hour, and the storage room over 2,000,000 bushels of grain,—rendering 0swego the best receiving port on the lakes.

shipbuilding became a leading pursuit of the people. In 1816, steam navigation was first introduced on Lake Ontario, and its great progress since has been of immense importance to Oswego. In 1829-30, Alvin Bronson and T. S. Morgan erected the first flouring mill. In 1828 the Oswego Canal was finished, and in 1830 the Welland Canal was opened, giving a new impulse to trade and opening to the place an almost boundless commerce in the future. With the advantages of natural position and the stimulus of the lines of internal improvement, both the commerce and manufactures of Oswego have increased in an almost unprecedented manner; and there is every reason to believe that this increase is to continue for many years to come.

OSWEGO (town)—was formed from Hannibal, April 20, 1818. A part of Granby was annexed May 20, 1836. It lies upon the shore of Lake Ontario, on the w. side of the river. Its surface is generally rolling, ending in a bluff shore upon the lake. The streams are the Eight Mile, Rice, Snake, and Minetto Creeks. A fall in Oswego River within the limits of this town affords an abundance of water-power. The underlying rock is principally red sandstone, and the soil a gravelly loam. Boulders and water-worn pebbles are scattered over the surface, making it very stony in places. Minetto. (p. v.,) situated on Oswego River, 4 mi. from the city, contains 150 inhabitants. South West Oswego is a p.o. The first settlement was made in 1797, by Asa Rice, from Conn. Reuben Pixley came in 1800, and Daniel Burt in 1802.2 There are now in the town 2 churches; M. E. and Bap.

PALERMO—was formed from Volney, April 4, 1832. It is an interior town, lying just s.w. of the center of the co. Its surface is undulating. The large swamp in the E. part of the town is 57 feet above Oncida Lake, and the ridges are about 25 feet above the swamp. The streams are Scotts and Fish Creeks. The soil is generally a sandy loam. Lumber and the products of wood are the principal manufactured products of the town.3 Palermo, (p.v.,) situated near the center of the town, and Vermillion (p.v.) each contains 1 church and about 15 dwellings. The first settlement was made in 1806, by David Jennings, Simeon Crandall, and Sylvanus Hopkins.4 The first settled preacher was Rev. Asaph Graves. There are now 4 churches in town.5

PARISH6—was formed from Mexico, March 20, 1828. It is an interior town, a little s. E. of the center of the co. Its surface is undulating, but considerably broken by ravines, and in some parts rough and stony. The streams are Salmon Creek and its branches. The valley in the w. part is 246 feet above Lake Ontario, and the E. summits are 25 to 50 feet higher. The soil consists of clay, sand, and gravel, and is moderately fertile. Less than half of the town is under cultivation. There are 12 sawmills, 4 shingle factories, and other manufacturing establishments in town. Parishville, (Parish p.o.,) on Salmon Creek, in the w. part, contains 1 church and 34 houses. The first settlement was made in 1804, by Thomas Nutting, Eliada Orton, Jonathan Bedell, Amos Williams, and Rev. Gamaliel Barnes. There is 1 church in town; two denom's, M. E. and Bap.

REDFIELD—was taken from Mexico, as part of Oneida co., March 14, 1800.8 It is the N.E. corner town of the co. Its surface is hilly in the s., but in the n. it spreads out into a high, rolling plateau 800 to 1,000 feet above tide. A wide intervale extends along the course of Salmon River, which stream drains nearly the whole town. The underlying rock is gray limestone, and the soil upon it is generally a thin and moderately fertile gravelly loam. The soil of the intervale is a deep, sandy loam of good quality. The greater part of the town is still unsettled, and the uplands are frosty and forbidding regions. Center Square, (Redfield p.o.,) situated on Salmon River, in the s. part of the town, contains 2 churches and about 30 houses. Greenborough is a p.o. in the N. w. part. The settlement of the town was commenced in 1798, by immigrants mostly from Conn.9 The first church (Cong.) was organized with 19 members in 1802, by Rev. Joshua Johnson. There are now 2 churches in the town; Cong. and M. E.

RICHLAND—was formed from Williamstown, as part of Oneida co., Feb. 20, 1807. Orwell was taken off in 1817, Sandy Creek and Albion in 1825, a part of Mexico in 1836, and a part of Orwell in 1844. It lies upon the shore of Lake Ontario, N. of the center of the co. The surface is generally level or gently rolling, broken by the deep ravines of the streams. The E. part is 250 feet above Lake Ontario, and Pulaski Village is 131 feet above,-giving to the town a decided westerly inclination. The principal streams are Salmon River, Deer and Sandstone Creeks; and upon each of them are falls, furnishing a large amount of water-power.2 Spring Brook is a small stream flowing from several large springs in the E. part of the town, and in the course of 3 mi. falls 150 feet. The springs are perpetual, and rather increase than diminish in summer; so that the power furnished is abundant and constant. The mouth of Salmon River furnishes a good harbor. The underlying rock is the Lorraine shales; the soil is a sandy loam, with some clay in the s. w. part, and is generally fertile. Pulaski, (p.v.,) on Salmon River, about 3 mi. from its mouth, is the half shire of the co. and was incorp. April 26, 1832. It contains 4 churches, a courthouse, an academy, a newspaper office, a bank, and several manufacturing establishments. Pop. 1,168. Port Ontario, (p.v.,) on Salmon River, near its mouth, contains about 50 houses; and Holmesville (South Richland p.o.) 1 church and 20 houses; Selkirk, at the mouth of Salmon River, contains a church, a U. S. lighthouse, and 30 dwellings. Richland Station. on the W. & R. R., is in the E. part of the town. The first settlement was made near the mouth of Salmon River, in 1801, by Nathan Tuttle, of Canada, and Nathan Wilcox and Albert Bohannan, from Rome.⁵ The first church (Cong.) was organized Jan. 22, 1811; and the Rev. Oliver Leavitt was the first settled pastor. There are 7 churches in town.6

SANDY CREEK—was formed from Richland, March 24, 1825. It lies on the shore of Lake Ontario, upon the N. border of the co. Its surface is rolling and has a westerly inclination, its E. border being elevated about 500 feet above the surface of the lake. It is drained by Little Sandy Creek and many smaller streams, all of which have rapid currents and are frequently interrupted by falls, which furnish a good supply of water-power. Little Sandy Pond, a portion of Lake Ontario, nearly landlocked, lies principally within the limits of this town. The soil consists of gravelly loans and disintegrated shale, and is generally productive. Lumber is the principal manufactured product. Washingtonville, (Sandy Creek p.o.,) situated on Little Sandy Creek, 4 mi. from its mouth, is a station on the W. & R. R. Pop. 423. The first settlement was made in 1804, by Joseph Hurd and Elias Howe, from Oneida co.8 The first church (Presb.) was organized in 1817, by Rev. Mr. Dunlap. There are now 3 churches in town.9

SCHROEPPEL¹⁰—was taken from Volney, April 4, 1832. It lies in the s. part of the co., in the N.E. angle formed by the junction of Oneida and Oswego Rivers. The surface is level or gently rolling. It is watered by Scotts and Fish Creeks and many smaller streams. A swamp extends northward from the mouth of Fish Creek to the N. border of the town, and is a half mile to a mile in width. The soil is a rich sandy loam and clay. The underlying rocks, which belong to the Clinton group, nowhere crop out in the town. There are 10 sawmills, 4 shingle mills, and other manufactories in town. Phoenix, 11 (p.v.,) on Oswego River, 2 mi. below Three River Point, was incorp. in 1848. It contains 3 churches and a newspaper office. Pop. 1,164 bertsville, (Gilberts Mills p.o.,) in the N. part, contains 2 churches. Pop. 442. Hinmansville, (p. v..) in the extreme w. part, on Oswego River, contains 25 houses; and Pennelville,

SCRIBA3—was taken from "Fredericksburgh" (now Volney) as part of Oneida co., April 5, 1811. It lies upon the shore of Lake Ontario and the E. bank of Oswego River. Its surface is rolling. the ridges extending N, and s., and elevated 100 to 180 feet above the lake. It is drained by Black Creek, flowing s., and Nine Mile, Four Mile, and Wine Creeks, flowing N. Upon several of these streams are valuable mill privileges. The soil is a gravelly and sandy loam, stony in places, and only moderately fertile. Scriba Corners, (Scriba p.o.,) near the center of the town, contains I church and about 40 houses. North Scriba is a p.o. The first settlement was made by Henry Everts, in 1798.4 There are 3 churches in town.5

VOLNEY6-was formed-by the name of "Fredericksburgh"-from Mexico as part of Oneida co., March 21, 1806. Its name was changed April 5, 1811. Scriba was taken off in 1811, and Schroeppel and Palermo in 1832. It lies upon the E. bank of Oswego River, s. w. of the center of the co. Its surface is undulating, with high, steep banks bordering upon the river. The ridges are 50 to 100 feet above the valleys and 100 to 200 feet above Oswego River. The red sandstone crops out on the bank of the river and is extensively quarried for building stone. The falls upon the river furnish an immense water-power.7 The soil is a sandy and gravelly loam. Fulton, 8 (p. v.,) on Oswego River, at the Oswego Falls, 9 was incorp. April 29, 1835. It contains 6 churches, the Falley Seminary, 10 a newspaper office, and a large number of manufacturing establishments. Pop. 3,192. Seneca Hill, (p.v.,) on Oswego River, in the N. w. corner of the town, contains 50 dwellings and the largest flouring establishment in the State.11 Volney Corners, (Volney p.o.,) near the center, contains 18 houses. The present village of Fulton became the seat of a floating population in the early part of the eighteenth century; but permanent settlement was not commenced until 1793.12 The first church (Presb.) was organized in 1814; and the Rev. Mr. Leavitt was the first settled minister. There are 9 churches in town. 13

WEST MONROE—was formed from Constantia, March 21, 1839. It lies upon the N. shore of Oneida Lake, s. E. of the center of the co. The surface is level and marshy in the s., and rolling, broken, and stony in the N. A marsh on the bank of the lake covers an area of more than 1,000 acres, and a considerable portion of it produces cranberries. In the valleys between the ridges, in the N. part of the town, are several smaller marshes. Red sandstone, the underlying rock, crops out in this town and furnishes a plentiful supply of valuable building stone. Bog iron ore is found in the N. part; and it is said that traces of lead and silver have also been found. The soil is a medium quality of clay, sandy and gravelly loam. West Monroe and Union Settlement are p. offices. The first settlement was made in 1806, by Martin Owens, Abel and Joseph B. Ames, Ebenezer Loomis, and Sylvanus Allen. 4 The first church (Presb.) was organized in 1843.15

The first school was taught by Philander Alden, in Orton, in the spring of 1804. Isaac Alden opened the first inn, in 1803. | 2 There are now 2 churches in town; Cong. and M. E.

OTSEGO COUNTY.

This county was erected from Montgomery, Feb. 16, 1791, and embraced the 2 original towns of Otsego and Cherry Valley. A part of Schoharie was taken off in 1795, and a part of Delaware in 1797. It lies upon the highlands at the head of Susquehanna River, s. E. of the center of the State. It is centrally distant 66 miles from Albany, and contains 1,038 sq. mi. Its surface is a hilly upland, divided into several ridges separated by deep, broad valleys. The declivities are generally gradual; and the highest summits are 400 to 700 ft. above the valleys and 1,700 to 2,000 ft. above tide. The ridges have a general N. E. and s. w. direction. A high and rocky upland extends into the s. E. corner from Delaware, terminating upon Schenevas Creek in an abrupt and wall-like declivity 300 to

500 ft, high. The other ridges of the co. have a nearly uniform elevation, and generally terminate in steep declivities upon the valleys of the streams. The principal streams are Unadilla River, forming the w. boundary, Wharton and Butternut, Oak, and Otego Creeks, Susquehanna River, Cherry Valley and Schenevas Creeks. Charlotte River forms a small portion of the s. boundary. Besides these, there are a large number of smaller creeks and brooks, tributaries to the above. A few small streams rise in the N. E. corner and flow into the Mohawk. Otsego Lake, in the N. E. part, is a fine sheet of water 8 mi. long and about 1 mi. broad. It is 1,193 ft, above tide, and is surrounded by hills 400 to 500 ft. high. Its outlet forms the principal head branch of the Susquehanna. Schuyler Lake, N. W. of Otsego, is a similar sheet of water, 37 mi. long. The other bodies of water in the co. are small ponds. The rocks in the N.E. corner consist of the limestones of the Helderbergh division. The hills in the s. part are composed of the shales of the Hamilton group and the shales and sandstones of the Portage and Chemung groups. The summits in the extreme s. part and s. E. corner are crowned by the red sandstone and shales of the Catskill group. Almost all the valuable quarries of the co. are found in the limestone region of the N.E. The soil in the N. E. is a good quality of gravelly and calcareous loam; but further south it is a clay and shaly loam upon the hills, and a gravelly loam and alluvium in the valleys. The uplands are best adapted to grazing; and the river intervales are well adapted to the cultivation of grain. The people are principally engaged in stock raising and dairying. More than three-sevenths of all the hops produced in the State are grown in this co. The manufacturing interests are limited, though the available water-power is very great.

The county seat is located at Cooperstown, in the town of Otsego, at the foot of Otsego Lake.1 The courthouse is a brick edifice in the w. part of the village. The jail, near by, is built of stone, but has few of the modern improvements or conveniences. The average number of inmates is 8, supported at a weekly cost of \$3.00 each. The clerk's office is a fireproof brick building, contiguous to the courthouse. The co. poorhouse is situated upon a farm of 153 acres in Middlefield, 4 mi. s. of Cooperstown. Its average number of inmates is 90. The children attend the district school. The farm yields a revenue of \$1,400. The general arrangement and management of this institution are far better than the average. The only work of internal improvement in the co. is the Albany & Susquehanna R. R., now in process of construction. It extends along Susquehanna River and Schenevas Creek, through Unadilla Otego, Oneonta, Milford, Maryland,

and Worcester.

Five weekly newspapers are published in the co.3

The Impartial Observer was established at Cooperstown in 1808 530

by William Andrews. It soon after passed to John H.
Prentiss, who changed its name to
The Cooperstoon Federalist, under which title it was published
until 1828, when the name was again changed to
The Freman's Journal. In 1850 it passed into the
hands of Samuel M. Shaw, by whom it is now published.

The Otsego Republican was published at Cherry Valley in 1812
by Clark & Crandal.

The Watchtower was established at Cherry Valley in 1813. In
1814 it was removed to Coperstown, where it was
published by Israel W. Clark until May, 1817, when
Edward B. Crandal became proprietor, and continued
the publication until 1812 the publication until 1831.

¹ Thomas Farrington, of Tiega, Alvin Bronson, of Oswego, and Archibald Campbell, of Dutchess, were the commissioners appointed to locate the co. seat.

2 The first county officers were Wm. Cooper, First Judge; Jacob Morris, County Clerk; Richard B. Smith, Sheriff; and

Jacob Morris, County Clerk; Richard B. Smith, Sheriff; and James Cannon, Surrogate.

The Olsego Herald and Western Advertiser, the first paper published in the co., and the second in the State w. of Albany, was commenced at Cooperstown, April 3, 1795, by Elihu Phinney, a native of Conn. Mr. Phinney continued its publication until 1803, when he died. It was then published by his sons, E. & H. Phinney, until 1821, when it was discontinued.

The first settlement in this co. was made at Cherry Valley, in 1740, by John Lindesay, who, with 3 others, held a patent for a tract of 8,000 acres lying in that town. Mr. Lindesay was a Scotch gentleman of some fortune and distinction, and, by his influence, induced a settlement on his lands of several families, comprising about 30 persons, originally from Scotland and Ireland. A few years later, small settlements were made in the present towns of Springfield, Middlefield, Laurens, Otego, and at other points in the valley of the Susquehanna. These settlements then formed the extreme outposts in the advance of civilization west. They increased very slowly, in consequence of the fear of Indian hostilities. In 1765, 25 years after the first settlement, but 40 families had located at Cherry Valley. At the commencement of the Revolution it was still a frontier settlement. On the 11th of Oct. 1778, it was attacked by the tories and Indians, under the lead of Butler and Brant, and a horrible massacre ensued. The family of Robert Wells, father of the late John Wells of New York, consisting of 12 persons, were brutally murdered; and one of the tories boasted that he killed Mr. Wells while at prayer. John Wells, the only member of the family who escaped, was at school in Schenectady at the time. The wife and daughter of Mr. Dunlop, Mrs. Dickson, and the wife and 4 children of Mr. Mitchell were murdered in cold blood. Thirty-two of the inhabitants, mostly women and children, and 16 Continental officers and soldiers, were killed; the residue of the inhabitants were taken prisoners and carried off, and all the buildings in the place were burned. All the frontier settlements were ravaged, and nearly every building, except those belonging to tories, was burned. These horrible outrages aroused the whole country, and in 1779 Gen, Sullivan, at the head of a large body of troops, was sent against the Western tribes. In Feb. Gen. Clinton, with a force of 1,200 men, marched up the Mohawk, and thence opened a road to Otsego Lake, a distance of 20 mi. At the foot of the lake he halted and built a dam across the outlet, and prepared boats to descend the stream. When the lake was sufficiently high, the boats were launched, the dam was broken down, and the army descended the river on the flood thus produced. The Indians upon the banks, witnessing the extraordinary rise of the river at midsummer without any apparent cause, were struck with superstitious dread, and in the very outset were disheartened at the apparent interposition of the Great Spirit in favor of their foes. Gen. Clinton's forces joined Sullivan on the Chemung. At the close of the war, settlements progressed with great rapidity; and much of the best land in the co. was taken up before the fertile lands in the western part of the State were opened to immigration.

BURLINGTON—was formed from Otsego, April 10, 1792. Pittsfield was taken off in 1797, and Edmeston in 1808. It is an interior town, lying N. w. of the center of the co. Its surface is a hilly upland, divided into 3 general ridges extending N. and S. These ridges are about 400 ft. above the valleys, and are arable to their summits. The streams are Butternut Creek, flowing s. through the center, and Wharton Creek, flowing s. w. through the w. part. The soil upon the hills is a slaty loam, in many places underlaid by hardpan, and in the valleys a gravelly loam.

The Toesia was established at Cooperstown in June, 1829, by Futton & Hews, and was published by them until 1831, when it took the name of

when it took the name of

The Olsego Republican. It was issued by Dutton & Hopkins for
about 1 year; by Hopkins alone, 1 year; Hopkins &
Clark. a year; by A. W. Clark, about 1 year; and by
Andrew M. Barber, 4 or 5 years. In 1845 it was issued
by I. K. Williams & Co. Soon after it again came into
the possession of A. M. Barber, and was continued by
hiru until his death, in Aug. 1855. In Oct. 1855, the
paper was united with The Otsego Democrat, and
issued as

The Republican and Democrat, under which title

it was merged with the Republican in 1855.

The Otsego Examiner was commenced at Cooperstown in 1854 by Robt. Shankland, who soon after withdrew, and the publication was continued by B. W. Burditt until 1857.

The Cherry Valley Gazette was started in Oct. 1818. by Wm. McLean, who continued its publication until 1832. It then passed into the hands of Chas. McLean, who continued it until Jan. 1, 1847, when A. S. Bottsford became proprietor and continued it until 1851. It then reverted to Charles McLean: and in 1853 it was sold to John 19. prietor and continued it until 1851. It then reverted to Charles McLean; and in 1853 it was sold to John B. King, who published it 1 year under the name of The American Banner, when he sold it to A. S. Bottsford, who changed the name back to

The Cherry Valley Gazette, under which title it is still published. The Otsego Farmer was published at Cherry Valley in 1841.

The Otseyo County Courier was commenced at the village of

of Geo. B. Fellows, its present publisher.

1 During the first winter the snow fell to so great a depth
that it was impossible for Mr. Lindesay to go to the nearest
settlement, which was 15 mi. distant. His provisions gave out,
and his family were in danger of perishing by starvation. In
this extremity they were visited by an Indian. who came os
now shoes, and who, on learning their situation, undertook to
supply them with food. He went to the Mohawk, and returned
with a load of provisions, and continued his visits of mercy
until the close of the winter. Mr. Lindesay afterward left the
settlement, Joined the army, and served for several years.

Burlington Green, (Burlington p.o.,) on Butternut Creek, near the center, contains 3 churches and 118 inhabitants; Burlington Flats, (p. v.,) on Wharton Creek, N. w. of the center, 2 churches, a tannery, gristmill, sawmill, and about 30 dwellings; and West Burlington, (p. v.,) on Wharton Creek, a church and 143 inhabitants. The first settlement was commenced near West Burlington, in 1799, by Robert Garrat and Eber and Benjamin Harrington,1 The first church (Bap.) was formed at Burlington Green, in 1793; Rev. James Southworth was the first minister.2

BUTTERNUTS—was formed from Unadilla, Feb. 5, 1796. Morris was taken off in 1849 and a part of Unadilla was annexed in 1857. It lies upon the w. border of the co., s. w. of the center. Its surface is a hilly upland, divided into several ridges extending N. and S. Unadilla River, forming its w. boundary, is bordered by a narrow intervale, from which the highlands rise in a series of steep bluffs to a height of 500 to 600 ft. Butternut Creek flows s. w. in a deep valley through near the center of the town. A large number of smaller streams, tributaries to these, flow in deep valleys among the hills, dividing the ridges and giving to the region a peculiar broken character. The hills are arable to their summits, and the soil is a good quality of red shale and gravelly loam. Gilbertsville, (Butternuts p.o.,) near the center, contains 4 churches, the Gilbertsville Academy and Collegiate Institute, 3 carriage factories, tannery, and various other manufacturing establishments. Pop. 442. Settlements were commenced in 1788-89, at Gilbertsville, by Gordon and Wyatt Chamberlin and Abijah Gilbert.3 The first church (Cong.) was formed Sept. 3, 1797; Rev. Wm. Stone was the first preacher.4

CHERRY VALLEY—was formed from Canajoharie, (Montgomery co.,) Feb. 16, 1791. Middlefield, Springfield, and Worcester were taken off in 1797, and Roseboom in 1854. It is the N. E. corner town of the co. Its surface is a hilly and mountainous upland; and much of it is too rough and rocky for cultivation. Mount Independence, s. E. of the center, is a rocky eminence 1,000 ft. above the valleys and 2,000 ft. above tide. It is the highest summit in the co. A range of highlands extends along the N. W. boundary. The central and s. parts of the town are drained by the head branches of the Susquehanna, and the N. part by tributaries of the Mohawk. The soil upon the uplands is a slaty and gravelly loam, and in the valleys a fine quality of calcare us I sam. Upon a small creek in the N. part are the Tekaharawa Falls, 160 feet in height. In the vicinity are several sulphur springs and quarries of limestone. In the N. w. corner are several springs of weak brine, from which salt was formerly manufactured. Cherry Valley, 5 (p. v.,) at the head of the valley of Cherry Valley Creek, was incorp. June 8, 1812. It contains 3 churches, the Cherry Valley Academy, 6 a bank, newspaper office, gristmill, 2 melodeon factories, and 1 furnace. Pop. 1,000. Salt Springville (p.o.) is a hamlet in the N. w. corner. The first settlement was made on the present site of the village, in 1739, by John Lindesay, an emigrant from the Londonderry Colony of Scotch-Irish in N. H.8 The first religious services were held in 1743, by Rev. Samuel Dunlop, a native of Ireland.9

⁸ Mr. Lindesay was one of the original proprietors of Cherry Valley, under a patent granted in 1738, by George Clarke, then Lieut. Governor of New York, to John Lindesay, Jacob Roseboom, and others. David Ramsey and James Campbell, from Londonderry, N. H., and Wm. Galt and Wm. Dickson, from Ireland, settled on the patent, in 1742, at and near the village. John Wells, from Ireland, settled at the village, in 1744. From the fear of Indian hostilities, the settlement of Cherry Valley proceeded slowly, there being in 1752, 12 years after the first settlement, but 8 families in the town; and at the breaking out of the Revolution in 1775, the number of families did not exceed to. James Ritchle kept the first store and inn, anterior to the war; and James Campbell erected the first gristmill, in 1743–44. John Wells erected the second gristmill. Rev. Samuel Dunlop taught a classical school at his own house, in 1743–14.—the first probably, of the kind w. of the Hudson. The whole settlement was destroyed by the Indians, and the greater part of the inhabitants were murdered and taken priseners, on the evening of Oct. 11, 1778. See page 531.

streams. The hills generally have gradual slopes and rounded summits, and are elevated 250 to 300 ft. above the valleys. The town is drained s. by Oak and Parker Creeks, flowing into the Schenevas. The soil is a sandy and gravelly loam. Decatur, (p. v.,) near the s. w. corner, contains a church and 120 inhabitants. The first settlements were commenced in or about 1790, by Jacob Kinney, originally from New Milford, Conn., at or near the village of Decatur. The first religious association (M. E.) was formed at an early period.2

EDMESTON—was formed from Burlington, April 1, 1808. It lies upon the w. border of the co., x. of the center. The surface is an elevated upland, broken by numerous irregular valleys. The highest elevations are 400 to 500 ft. above Unadilla River, which forms the w. boundary. Wharton Creek flows across the s. E. corner. Mill Creek and several other small streams take their rise in the town. Smiths Pond is a small sheet of water in the N. E. corner. The soil is a sandy and clayey loam. Edmeston Center (Edmeston p. o.) contains 3 churches, a grist and saw mill, and tannery. Pop. 275. West Edmeston, (p. v.,) on Unadilla River, and partly in Brookfield, (Madison co.,) contains a church and 35 houses. South Edmeston (p. v.) contains a population of about 300 inhabitants. Of the first settlement in town, authentic data of the precise date are wanting. It was made, however, on Unadilla River, during the interval between the close of the French War, in 1763, and the commencement of that of the Revolution, in 1775, by Col. Edmeston, an officer of the French War, and Percifer Carr, a faithful soldier who had served under him.3 The first church (Bap.) was formed at Taylor Hill, March 8, 1794; Rev. Stephen Taylor was the first preacher.4

EXETER—was formed from Richfield, March 25, 1799. It is an interior town, lying N. W. of the center of the co. The surface is hilly and broken, consisting mainly of elevated uplands. Angel and Tunnicliff Hills, lying in this town, are 400 to 500 feet above the valleys. The town is drained E. by several small streams flowing into Schuyler Lake, and s. by Butternut and Wharton Creeks, both of which are in this town. The soil is a clay and gravelly loam, well adapted to grazing. Exeter Center (Exeter p. o.) contains 2 churches and 106 inhabitants, Schuylers Lake, (p. v.,) at the outlet of Schuyler Lake, on the E. border of the town, contains 2 churches and 280 inhabitants. West Exeter (p. v.) contains 1 church and 100 inhabitants. The first settlements were made by John Tunnicliff and Hendrick Herkimer, before the Revolution, near Schuyler Lake, and William Angel, on Angel Hill, in 1789.5 The first church was Prot. Epis.; Rev. Daniel Nash first pastor, in 1797.6

IIARTWICK⁷—was formed from Otsego, March 30, 1802. Its N. line was changed in 1803. 1t is the central town in the co. It is a hilly upland, the highest summits being 200 to 350 ft. above the valleys. Abbott, and Jas. Averell. The first religious association (Presb. and Cong.) was formed Dec. 29, 1798; Rev. Isaac Lewis was the first preacher.9

PITTSFIELD—was formed from Burlington, March 24, 1797. New Lisbon was taken off in 1806, and a part of Morris in 1859. It is centrally situated upon the w. line of the co. Its surface is a hilly upland, terminating in abrupt declivities upon Unadilla River, which forms its w. boundary. Wharton Creek flows across the N. w. corner, and several small tributaries of Butternut Creek flow through the s. part. The soil is generally a slaty and gravelly loam. Pittsfield. (p. o...) on Wharton Creek, contains 10 houses. Aaron Nobles, Hubbard Goodrich, and Matthew Bennett settled in the valley of the Unadilla, about 1793.10 The first church now in town was organized in the E. part in 1849.11 A part of Morris was annexed in 1859.

1 Ransom Hunt, Abraham Blakesley, John Birdsall, Benjamin Cummings, Jacob Yates, Joseph Pierce, and Barnard Overhuyser, were among the first settlers at Otego Village and along the river. Phineas Cook settled on the E. branch of the Otsdawa in 1800, and built there the first cloth dressin mill, in 1801. Ransom Hunt kept the first inn, and Neh. Sleeper erected the first gristmill in town. Smith & Morey opened the first store.

2 The census reports 6 churches; Presb., Prot. E., Bap., F. W. Bap., Christian, and M. E.

3 The first academy was formed in 1795, and the building burned down March 31, 1809, and has not been rebuilt. A classical school has been sustained, and has prospered for most of the time, for half a century.

4 This institution was established and opened in 1854, and extensive and commodious buildings were erected at a cost of \$30,000. It started with J. L. G. McKown as Principal. It suspended operations in 1857, was purchased by R. C. Flack in 1859, and the school is again in operation, with indications of permanent prosperity. See p. 749.

5 The Hope Cotton Factory, erected in 1813, with an aggregate capital of about \$100,000, has through a long series of years given employment to 80 persons. After undergoing various changes in construction, machinery, and proprietorship, the establishment is still continued, with reduced operations.

5 J. Fenimore Cooper, the novelist, resided here: and his mancion and grounds were near the centre of the village.

7 At this place is a fork factory, with a capital of \$75.000, employing 30 men; a pail factory; a manufactory of agricultural 1 Ransom Hunt, Abraham Blakeslev, John Birdsall, Benjamin

implements and machinery, employing a capital of \$25,000; and a foundery and machine shop, employing 25 men.

8 The first child born was William Jarvis, at Fly Creek, in 1787. The first deaths in town were those of two deserting soldiers, who were shot by order of Gen. Clinton, in 1779, before the settlements were commenced. The first school was taught at Cooperstown, by Joshua Dewey, in 1788. William Ellison opened the first inn. in 1786; and Judge Wm. Cooper the first store, in 1789–90. The first mill was erected by Samuel Tubbs at Toddsville, in 1790. In 1779, General Clinton, on his way to join Sullivan's expedition, built a dam scross the ontlet of the lake to raise the waters sufficiently to float down the Susane-Join varies the waters sufficiently to float down the Susque-hanna the boat, containing his men and military stores. The remains of this dam are still visible. In 1784, den. Washing-ton, on a journey of observation, visited the foot of Orsejo-Lake. In 1786, John Miller felled a large tree across the outlet to serve as a bridge. Judge Cooper removed his family from

N. J. in 1790.

10 Seth Harrington and Benj. Eddy settled in the E. part of the town soon after the settlements on the Unadilla. The first school was taught by Benjamin Pendleton at littsfield P. o. Matthew Bennett kept the first inn, in 1797. and Henry Randall the first store, in 1810, at the P. O. Benj. Atwell built the first mill, and the Arkwright Manufacturing Company the first cotton factory, both on the Unadilla.

11 There are 2 Union churches in town.

PLAINFIELD—was formed from Richfield, March 25, 1799. It is the n.w. corner town of the co. Its surface is a broken and hilly upland. Unadilla River, forming the w. boundary, is bordered by steep bluffs rising to the height of 400 to 600 ft. The soil is a clay and sandy loam. Unadilla Forks, (p.v.,) at the junction of the E. and w. branches of Unadilla River, contains 2 churches, a hoe factory, flouring mill, sawmill, and machine shop. Pop. 253. Plainfield Center contains a church and 15 houses; Spooners Corners is a p. o.; Leonardsville, (p.v.,) on the Unadilla, in the s. part, is mostly in Madison co. The first settlement was made at and near Plainfield Center, in 1793, by Ruggles Spooner, Elias Wright, and John Kilbourne. The first church (Bap.) was formed and the church erected in 1800; Rev. John Wait the first preacher.

RICHFIELD—was formed from Otsego, April 10, 1792. Exeter and Plainfield were taken off in 1799. It is the extreme northern town of the co. Its surface is rolling and moderately hilly, with a mean elevation of 150 to 200 ft. above Schuyler Lake,—Pray and Nine Hills, on either side of the head of the lake, rising about 200 ft. higher. Schuyler Lake, in the s. e. corner, occupies a deep valley; and into it flow several small streams from the n. and w. The soil is of a diversified character, consisting of gravel, slate, clay, and sandy loam, well cultivated and productive. About 500,000 pounds of cheese are made in the town annually,—being more than double that made in any other town in the co. Richfield Springs, (p.v.,) near the head of Schuyler Lake, in the n. e. corner of the town, contains 3 churches, a flouring mill, and 500 inhabitants. Brighton contains a church and about 15 houses. Settlements were made prior to the Revolution; but they were broken up during the war. The first settlers after the war were Seth Allen, Richard and William Pray, John Beardsley, Joseph Coats, and John Kimball, in 1787. The first church (Prot. E.) was formed at Monticello, May 20, 1799; Rev. Daniel Nash was the first pastor.

ROSEBOOM⁶—was formed from Cherry Valley, Nov. 23, 1854. It lies on the E. border of the co., N. of the center. The surface is a hilly upland, broken by the valleys of several streams. The hills are generally rounded, and their summits elevated 300 to 350 ft. above Schoharie Kil. The soil is a gravelly loam. Roseboom, (p.v.,) in the N. W. part, on the line of Middlefield, contains a church and 111 inhabitants; and South Valley, (p. v.,) in the s. E. part, 2 churches and 175 inhabitants. Pleasant Brook (p. o.) is a hamlet. The settlements in this town were commenced about 1800. There are 5 churches in town.

SPRINGFIELD—was formed from Cherry Valley, March 3, 1797. It lies upon the N. line of the co., E. of the center. The surface is a rolling and moderately hilly upland, the hills generally rising about 200 ft. above the valleys. Mt. Wellington, E. of the head of Otsego Lake, in the s. part of the town, is 300 to 400 ft. high. Summit Lake, in the N. part, in high water discharges its waters both N. and s. The streams are small brooks. In the N. part is a deep sink, called "The Chyle," into which a considerable stream of water runs and flows through a subterranean passage to Braman's Factory, where it again appears on the surface. The sink is tunnel-shaped, 240 feet in circumference and 15 ft. deep. After heavy rains it is sometimes filled with water, which, while discharging through the orifice below, often moves round in rapid gyrations. The soil is a black and yellow loam, resting upon limestone and slate. More hops are grown in this town than in any other town in the co. Springfield Center (p. v.) contains 2 churches, a tannery, and 15

in 1797-98. Wm. Lincoln kept the first inn at Lloydville, and Luce & Woodward the first store. Capt. Caleb Brown built the first mill, in 1805, on the Unadilla.

houses: and East Springfield (p.v.) a church and 20 houses. Springfield is a p.o. near the center. The first settlements were made in 1762, by John Kelly, Richard Ferguson, and James Young, from Ireland, at East Springfield; and Gustavus Klumph and Jacob Tygart, at the head of Otsego Lake. Most of these settlers were driven off during the war.1 The first church (Bap.) was formed at an early period; Rev. — Fairman was the first preacher.2

UNADILLA—was formed from Otsego, April 10, 1792, Butternuts, "Suffrage," (now Milford,) and "Otego" (now Oneonta) were taken off in 1796, a part of "Huntsville" (now Otego) in 1822, and a part of Butternuts in 1857. It lies at the junction of Unadilla and Susquehanna Rivers, in the s. w. corner of the co. The surface is a rolling and hilly upland, the highest summits being 400 to 500 ft. above the valleys. Unadilla River, forming the w. boundary, Susquehanna River, the E., and Sandy Hill Creek, in the E. part, are the principal streams. The soil on the river bottoms is an alluvial loam, and on the uplands a slaty and gravelly loam. Unadilla, (p. v.,) on the Susquehanna, was incorp. April 2, 1827. It contains 4 churches, the Unadilla Academy, a bank, newspaper office, woolen factory, furnace, 2 tanneries, a flouring mill, sawmill, paper mill, and various other manufactories. Pop. 795. Unadilla Center (p. v.) contains a church and 15 houses; Sand Hill, on Sand Hill Creek, in the E. part, contains 2 churches, a tannery, and a dozen houses. Settlements were made at Unadilla, along the valley of the Susquehanna. prior to the Revolution; of the precise date, and by whom, no records or tradition inform us. A conference took place between Gen. Herkimer and Brant, the Indian warrior, at Unadilla, in July, 1777. The first church (Prot. E.) was formed Nov. 1, 1809; Rev. Russell Wheeler was the first pastor.4

WESTFORD-was formed from Worcester, March 25, 1808. It is an interior town, lying s. E. of the center of the co. Its surface is hilly, the highest summits being 400 to 500 ft. above the valleys. It is drained s. by Elk Creek and w. by tributaries of Cherry Valley Creek. The soil is a sandy loam of good quality. Westford, (p. v.,) a little E. of the center of the town, contains 4 churches and 40 houses. Westville, (p. v.,) in the w., on the line of Middlefield, contains 2 churches and 15 houses. The first settlements were made about 1790, in the s. E. part. by Thomas Sawyer, Benjamin Chase, Oliver Salisbury, Alpheus Earl and father, Artemas, Moses, and David Howe, and Ephraim Smith,—all from Vt.6 The first religious association (M. E.) was formed in 1791.7

WORCESTER—was formed from Cherry Valley, March 3, 1797. Decatur, Maryland, and Westford were taken off in 1808. It is the s.E. corner town in the co. The surface is a hilly and broken upland. The highlands which occupy the s. part of the town descend toward the N. by an abrupt declivity 350 to 400 ft. high. This declivity forms a continuous ridge extending N. E. and s. w. through near the center of the town. The principal streams are Charlotte River and its tributaries and Schenevas Creek. The soil is a sandy loam. Worcester, (p. v.,) in the N. W. part, contains 2 churches, 2 gristmills, a tannery, and 40 dwellings; East Worcester (p. v.) 2 churches, a gristmill and sawmill, and 25 dwellings; and South Worcester, (p. v.,) on Charlotte River, a church, a bank, and 20 dwellings. PUTNAM COUNTY.

This county was formed from Dutchess, June 12, 1812. It lies upon the Hudson, between Dutchess and Westchester cos., and extends E. to the Conn. line. It is centrally distant 85 mi. from Albany, and contains 234 sq. mi. It embraces nearly all of The Highlands E. of the Hudson. The mountains consist of several steep, rocky ranges, extending in a N. E. and S. W. direction and separated by deep, narrow valleys, the principal of which are Peekskill Hollow, and Canopus and Pleasant Valleys. The co. is watered by the upper branches of Croton River and several smaller streams. Among the mountain valleys are numerous picturesque lakes, the largest of which are Lakes Mahopac,2 Canopus,3 and Gleneida.4 In the valleys the soil is a productive, sandy

loam, but the mountains are bare and rocky, and only valuable for their mines and quarries.6 Iron ore abounds; and serpentine, magnesian limestone, and several other minerals are also found. The rocks belong chiefly to the primitive and lower sedimentary or metamorphic series, consisting of granite, gneiss, granular quartz, talcose slate, metamorphic limestone, serpentine, greenstone, and hornblende. Peat and marl are found in various localities.8 In the farming districts the people are principally engaged in dairying and furnishing milk for the New York market. Manufacturing is extensively carried on at Cold Spring. The principal works of internal improvement are the Hudson River R. R., extending through Philipstown, and the Harlem R. R., through Patterson and Southeast. The county seat is located at Carmel.9 The co. buildings consist of a courthouse, 10 jail, 11 and co, clerk's office.12 The poorhouse is located on a farm of 196 acres in Kent, about 25 mi. from Carmel.13 Two newspapers are published in the co.14 A strip 580 rods wide along the E. border of the co. constitutes a part of the "Oblong" Tract, and was patented by Thomas Hawley and his associates, June 8, 1731.15 The remaining part of the co., and a small part of Dutchess, are included in the great Highland Patent of Adolph Philipse. At the time of the Revolution this patent was owned by Philip Philipse, and Mary and Susannah, wives of Col. Roger Morris and Beverly Robinson, of the British army. Morris and Robinson, together with their wives, were attainted, and their property was confiscated and sold by the Commissioners of Forfeiture. It was subsequently shown in court that one-third of the patent was vested in the children of Col. Morris and his wife, and was not reached by the bill of attainder. The State was therefore obliged to

1 Named from Maj. Gen. Israel Putnam, who was stationed in the co. a part of the time during the Revolutionary War. In the act of Dec. 16, 1737, the co. was styled "South Precinet," March 24, 1772, it was subdivided into "Southeast," "Fredericksburgh," and "Philips" Precincts. The first of these precincts included the present towns of Southeast and Patterson, the second Carmel and Kent, and the third Putnam Valley and Philipspural

Magnetic oxyd of iron is the most important of the ores found, although limonite and other varieties are obtained. A bed of magnetic ore was opened several years since on Breakneck Mt.; but it has not been extensively worked. Another bed has been opened on Constitution Island, opposite West Point Foundery. The Simewog vein was formerly worked at the Townsend Mine on Simewog Hill. The Philips vein has been traced at short intervals a distance of 8 mi., and several mines have been opened along its course. The Stewart Mine is the principal of these. Large quantities of ore obtained from the Denny Mine, in the N. part of Putnam Valley, were formerly used at the Cold Spring Furnace. Coal Grove and Gouverneur Mines are in the neighborhood of the Denny Mine. The "Harvey Steel and Iron Co." have opened several mines in Southeast, from which an excellent quality of ore for the manufacture of steel was obtained; but they are not now worked.

cellent quality of ore for the manufacture of steel was obtained; but they are not now worked.

⁶ Blunt's Quarry, on the s. side of Breakneck Point, near the line of Dutchess co., affords a bluish gray granite, which has been extensively used for the Delaware Breakwater, Fort Calhoun, and Fortress Monroe. The Highland Granite Co.'s quarry, principally owned by Howard & Holdane, is near the Hudson River, a short distance from Blunt's Quarry. It is elevated about 200 ft, above, the river. Stony Point Ougrry, on a rocky nepins. 200 ft. above the river. Stony Point Quarry, on a rocky penin-

sula extending into the Hudson, Philips Quarry, on an estate of the same name, and other quarries in the co., have been worked. Marble is found in the N. part of Patterson.

7 Among the minerals of the co. are arsenical and common iron pyrites, arsenite and chromate of iron, pyroxene, tremolite, arragonite, graphite, kerolite, brucite, actynolite hornblende, albite, laumonite stilbite, chabasite, epidote mica, zircon, sphene, and diallage.

and diallage.

8 The principal localities where peat is found are near Patterson and on the E. side of Lake Mahopac.

9 The first courts were held at the Baptist Church. The first co. officers were Stephen Barnum, First Judge; John Jewett, Co. Clerk; Wm. H. Johnston, Sleriff; and Joel Frost, Surrogate, 10 The courthouse is a wooden building, erected in 1813, at a cost of \$2,500. Joseph Crane, Stephen Barnum, Joel Frost, Jona and Joseph Crane, Stephen Barnum, Joel Frost, Jona and Johnston and Jo than Ferris, and John Jewett were appointed to superintend its erection.

13 The sverage number of inmates in the poorhouse is 52, supported at a weekly cost of 43 cts. each. The income from the farm is \$600 per annum. A school is taught throughout the year.

protect the purchasers by settling the claims of these children. During the Revolution the passes through the mountains in this co. were carefully guarded, and at different times large bodies of troops were stationed there. It was the principal scene of the consummation of Arnold's treason, and of many events of minor interest, though no battle took place within its limits. Gen. Putnam had command of the army stationed here most of the time.

CARMEL—was formed from "Frederickstown," March 17, 1795. It lies upon the s. border of the co., between Putnam Valley and Southeast. Its surface is rolling and hilly, with intervening valleys extending in a N. and S. direction. Peekskill Hollow Range and Big Hill are the highest summits,2 The w. branch of Croton River and Michaels Brook flow through the E. part of the town, and Peekskill Hollow Creek through the N. w. In the town are several beautiful lakes and ponds, the principal of which are Lakes Mahopae, Gleneida, and Gilead, and Kirk and Long The soil is a light, sandy and gravelly loam intermixed in some places with clay. Carmel, (p. v.,) the co. seat, is situated on Lake Gleneida. It is the seat of the Raymond Collegiate Institute,5 and contains 3 churches, a bank, and 2 newspaper offices. Pop. 391. Mahopac (p. v.) contains 1 church, and about 40 houses; and Red Mills,6 (p. v.,) contains 2 churches and about 20 houses. Settlement was commenced about 1740.7 Enoch Crosby, the "Harrey Birch" of Cooper's Spy, lived in this town till after the Revolution, when he removed to Southeast. A church was organized, and an edifice erected near Gilead Lake, a short time before the commencement of the Revolution. There are now 7 churches in town,8

KENT9—was formed as "Frederickstown," March 7, 1788. Its name was changed to "Frederick" March 17, 1795, and to Kent April 15, 1817. Carmel and a part of Patterson were taken off in 1795. It is the central town on the N. border of the co. Its surface in the E. part is broken by hills, and in the w. by steep, rocky mountain peaks separated by deep ravines. Smally Hill is the highest peak. The w. and middle branches of Croton River, and Horse Pound and Pine Pond Brocks, are the principal streams. In the town are several ponds and small lakes, the principal of which are White and Pine Ponds.10 Farmers Mills (p.v.) contains 1 church and several manufacturing establishments.11 Coles Mills (Kent p. o.) and Ludingtonville (p.o.) are hamlets. The first settlement was made about 1750, by Zachariah Merritt.12 The census reports 3 churches in town,-2 Bap. and 1 Union.

1 The Philipse Patent was granted June 17, 1697, to Adolph Philipse, a merchant of New York, who died in 1749, without issue, leaving his estate to his nephew, Frederick Philipse. The latter had 5 children,—Frederick, Philip, Susannah, Mary, and Margaret. By his will, dated June 6, 1751, Frederick was disinherited, and, Margaret dying young, the property was equally divided among the remaining three. Philip left a widow, who married one Ogilvie; Susannah married Beverly Robinson, and Mary married Col. Roger Morris. On the 7th of Feb. 1754, the patent was divided into 9 lots: 3, each 4 mi. square, bordering upon the Hudson and denominated "water lots;" 3, each 4 mi. square, bordering and Adams Rige, in the central part.

In 1809, John Jacob Astor bought the interest of the heirs of Morris in this property of £20,000. The State, to protect those who held title from the Commissioners of Forfeiture, passed a law, April 16, 1827, directing 5 suits to be prosecuted to judgment in the Circuit Court of the S. Dist. of N. Y., and presented by writs of error to the Supreme Court of the U. S. for review and final decision. If against the defendants, the State agreed to pay \$450,000 in 5 per cent. stock, redeemable at pleasure; and if the decision included the improvements that had been made by occupants, \$250,000 more with the comproler was 506,000. Few suits have been tried in the State involving larger interests to greater numbers, or which were argued with more ability, than this. In the suit against James Carver the course of the passed and the same and the same

is hilly: but, with a few exceptions, the hills are arable to their summits. The principal streams are the E. branch of Croton River and its tributaries, Quaker, Birch, and Muddy Brooks. Croton Lake is in the w. and Little Pond in the E. part. "The Great Swamp" extends along the E. branch of Croton River. The soil is a sandy loam. Patterson, (p. v.,) a station on the Harlem R. R., contains 2 churches and 37 houses. Towners Station (Towners p. o.) and Haviland Hollow (p. o.) are hamlets. The Prot. E. Church at Patterson was built in 1770. There are 4 churches in town.2

PHILIPSTOWN³—was formed March 7, 1788. A part of Fishkill (Dutchess co.) was taken off in 1806, and Putnam Valley in 1839. It is the most westerly town of the co., and extends about 10 mi, along the Hudson. Its surface is broken by numerous steep and rocky mountain ridges separated by deep and narrow valleys.4 These mountains constitute the most elevated portion of The Highlands.⁵ The ranges have a general N. and S. or N. E. and S. w. direction. Creek flows through the N. part of the town, and Canopus Creek through the N. E. corner. Foundry, Breakneck, Andreas, Indian, and other brooks flow through narrow valleys and rocky ravines into the Hudson. The greater part of the surface is unfit for agricultural purposes. Constitution Island⁶ is a promontory opposite West Point, connected with the mainland by a marshy meadow. The "Sunk Lot" is a tract of 1300 acres of low and apparently sunken ground. Several mines of magnetic iron ore had been opened in town; but none are now wrought. Granite is extensively quarried, and brick are made at several points along the river. The soil is a gravelly. sandy, and clayey loam. Coldspring, (p. v.,) situated on the Hudson, was incorp. April 22, 1846, and includes the suburban villages of Nelsonville and Marysville. It is a station on the Hudson River R. R., and contains 6 churches and an extensive foundery. Pop. 2,237. Breakneck and Griffins Corners contain each about a dozen houses. Davenport Corners contains 1 church and 10 houses. Continental Villages has 1 church and about 12 houses. Garrisons, (p. o.,) on the Hudson, is a station on the Hudson River R. R. The first settlement was made about 1715, by Thos. Davenport.9 This town was principally settled under Col. Beyerly Robinson, 10 who acquired title by marriage with Susannah, daughter of Frederick Philipse. Undercliff, the residence of Gen. Geo. P. Morris, is situated on a high bluff in the N. part of Cold Spring. The census reports 9 churches in town.11

4 "Martlaers Rack," or the Martyrs Reach, was a short stretch of the Hudson just above West Point, where early navigators were often retarded by baffling winds. There were 13 racks, or sreaches, on the Hudson, known to sailors as "Horse," "Sailmakers," "Gooks," "High," "Fox," "Bakers," "John Pleasures," "All "Harts," Surgeons," "Fishers," "Fast," "Martlaers," and to Krom Elleboogh.—Bensom's Memoir, p. 42.
5 Among the peaks of The Highlands in this town are Anthonys Nose, Sugar Loaf, Breakneck Mt., and Bull, Hog-Back, lingar, Cot, Pine, and Fort Hills. Anthonys Nose is 1228 feet above the Hudson, and Sugar Loaf 800 ft.
6 This promontory was called "Martlaers Island" before the Revolution. In July, 1775, a fort was built upon it, under the direction of Bernard Romaine; and in 1778 a heavy chain was stretched across the Hudson from this fort to West Point. Col. Timothy Pickering, appointed to have charge of this work, in March, 1778, contracted with Peter Townsend (at the Sterling Iron Works at Warwick, Orange co.) for the construction of the chain. The task was done in 6 weeks, and the huge chain carted in sections to West Point. The links weighed from 100 to 150 spounds each; and the entire weight was 186 tons, and its length (Labout 1998). 7 The West Point Foundery is one of the largest establishments of the kind in the country. It was established in 1817, by an association organized for that purpose. A tract of 150 acres was purchased of Frederick Philipse, and a moulding house, boring mill, blacksmith and pattern shops, and drafting and business offices, were erected. An act of incorporation was obtained, April 15, 1818; and in 1839 the finishing or machine, smiths' and boiler departments of the establishment were brought from New York. The works now consist of a moulding house, with 3 cupola furnaces; a gun foundery, with 3 air furnaces; 2 boring mills—one driven by an overshot waterwheel and the other by a steam engine; 3 blacksmith shops; a turning shop; a finishing shop, with a pattern shop on the second floor; a boiler shop, a punching machine house, 5 pattern houses, a fre engine 7 The West Point Foundary is one of the largest establishments a finishing shop, with a pattern shop on the second floor; a boiler shop, a punching machine house, 5 pattern houses, a fire engine house, an office, and several smaller buildings. A dock on the river belongs to these works, and a branch from the R.R. extends to them. From 400 to 600 men are employed. Shafts 2 ft. in diameter, and of 15 tons' weight, have been forged here.

8 This village, together with barracks for 2000 men, was burned in Oct. 1777, by a detachment of the enemy on their way up the Hudson to co-operate with Gen. Burgoyne. Two small forts were erected here during the Revolution, and traces of them are yet

David Hurtis, and several families named Haight, Bloomer, and Wilson, settled in the town in 1730. John Meeks was the first settler at Continental Village, and John Rogers settled a little N. of the same place about 1730. Jas. Stanley settled in the town in 1750, and Thos. Sarles in 1756. The first gristmill was built about 1762, by Beverly Robinson, at Continental Village.

name was changed Feb. 13, 1840. It lies on the s, border of the co., between Philipstown and Carmel. Its surface is broken by steep and rocky mountain ridges extending in nearly a N. and s. direction, and separated by narrow valleys. These mountain ranges constitute a part of The Highlands. The principal streams are Canopus Creek, Canopus Lake Creek, and Peekskill Hollow Brook. Canopus Lake is a beautiful sheet of water near the center of the town. The soil in the valleys is a moderately fertile, sandy and gravelly loam. Iron ore has been found in several localities, but in places so difficult of access that it is not mined to any considerable extent. Oregon, at the confluence of Peekskill Hollow Brook and Canopus Lake Creek, contains 17 houses, and Crofts Corners contains 2 churches and 10 houses. Tompkins Corners is a hamlet. Among the early settlers were families named Dusenbury and Adams.2 The census reports 4 churches in town; 3 M. E. and 1 Bap.

SOUTHEAST—was formed from Frederickstown and "Southeasttown," March 7, 1788. A part of Patterson was taken off, as "Franklin," in 1795. It is the s. E. corner town of the co. Its surface is rolling and hilly. The streams are the E, and middle branches of Croton River and Several small lakes and ponds lie among the hills.4 The soil is a sandy and their tributaries. gravelly loam. Iron ore abounds, but no mines are wrought at the present time. About 4,000 gals, of milk are sent daily from this town to the New York market. Brewsters Station, (p. v.,) on the Harlem R. R., contains 1 church and a bank, and has a pop. of 176. **Hedding**ville and Brush Hollow are hamlets. Southeast Center has 144 inhabitants, and Milltown (p.v.) 167. De Forest Corners, Doanesburgh, Foggingtown, and Dykemans Station (Dykemans p.o.) are hamlets. This was one of the first settled towns in the co.5 The first religious services were conducted by Rev. Elisha Kent, grandfather of the late Chancellor, about the year 1730.6

QUEENS COUNTY.

This county was organized Nov. 1, 1683,1 having previously been included in the North and West Ridings of Yorkshire.2 Its original bounds have not been changed. It lies upon Long Island, near the w. extremity, is centrally distant 133 mi. from Albany, and contains 410 sq. mi. It extends across the island, bordering both upon Long Island Sound and the ocean. Its coasts are deeply indented by irregular inlets, bays, and harbors. The principal of these upon the sound are Oyster Bay, Cold Spring and Oyster Harbors, Mill Neck Creek, Hempstead Harbor, Manhasset Bay, Little Neck Bay, Little Bay, Powells Cove, Flushing Bay, and Bowery Bay. Upon the East River are Halletts Cove and the narrow passage of Hell Gate, and upon the s. shore, Jamaica, Hempstead, and South Oyster

Bays. Along these bays and the creeks that flow into them are wide salt meadows, the most extensive being upon the s, shore. Outside of the bays on the ocean side is a series of beaches and shifting sand-ridges, affording a complete protection from the storms of the ocean. These beaches

are divided into distinct parts by several inlets opening into the bays.3

Inclosed in the bays within the beaches is a great number of low, marshy islands separated by narrow tidal streams and covered with sedges.4 A wide strip bordering immediately upon the bays is of the same marshy character. Along the deep bays upon the N. coast are small patches of salt meadow; but the greater part of the land upon the capes, necks, and promontories is of a most excellent character.5 A range of hills 100 to 300 feet high extends in a general E. and W. direction through the co., a little N. of the center, and irregular spurs extend northward to the sound. From the base of the ridge a wide, unbroken plain extends to the s. to the salt marshes which surround the bays.6

The streams of the co. are mostly small, and afford but a limited amount of water-power. At the mouth of several of the creeks on both the N. and S. shores the ebbing tide is used for hydraulic purposes. At the head of several of the streams are little, fresh water ponds, the principal of which is Success Pond,8 near the top of the high ridge in the s.E. corner of Flushing. The soil upon the x. side is a productive, sandy loam, in some places mixed with clay. The plains have a coarse, sandy soil, which is rendered productive only at considerable cost. Along the borders of the salt meadows is a strip of light, sandy soil, easily cultivated and of moderate fertility.9

The people are principally engaged in agriculture and market gardening. Fishing and the taking of oysters afford occupation to a large number of people. An extensive coasting trade is carried on, and the co. each year furnishes a large quota of sailors. Manufactures are extensive and various, and are confined principally to the N. shore.

The co. courthouse is situated upon the plains of North Hempstead, a little N. w. of Mineola station and p.o., and near the geographical center of the co.10

The Hempstead Branch of the R.R. descends 40 feet in 21 mi.,

The Hempstead Branch of the R.R. descends 40 feet in 2½ mi, and the Syosset Branch rises 66 feet in less than 4 mi. The highest point on the island is Harbor Hill, at the head of Hempstead Harbor, 319 feet above tide.

7 Several of these ponds have recently been purchased to supply the Brooklyn Waterworks.

8 Called by the Indians "Sacut," from which the present name is supposed to be derived. The water is clear and cold, with an average depth of 40 feet. The pond is about 500 rods in circumference, is surrounded by a high bank, and has an outlet, but does not usually overflow. It is said to be 100 to 150 feet above tide.—Prime's Hist. L. I., p. 27; Thompson's L. I., II, p. 60.

feet above tide.—Prime's Hist. L. I., p. 27; Thompson's L. I., II., p. 60.

Extensive tracts in the southern section are devoted to gardening for the city markets. The N. side, originally covered with a heavy growth of timber, is under fine cultivation, and is largely devoted to the raising of fruit. Flushing excels in nurseries of fruit and ornamental trees, for which this co. is second only to Monroe. Locust-timber is raised along the N. shore eastward from Little Neck, in considerable quantities, for treenails and posts. In Oyster Bay large quantities of asparagus are raised for market; and the soil appears to be finely adapted to this crop. Milk is sent to market in large quantities by R. R. especially from near Jericho, Westbury, and Hempstead.

3 The principal of the inlets are Hog Island, New and Gilgo
Inlets, and the entrance into Jamaica Bay; and the principal
beaches are Jones, Long, and Rockaway Beaches. The last
named is afavorite resort for summer residences and sea-bathing.
4 These islands are mostly the common property of the towns,
and are valued chiefly for their hunting and fishing grounds.
Immense numbers of waterfowl frequent, them; and a considerable number of persons gain a livelihood by fishing here in
summer and hunting in winter. The U.S. Government has
erected 5 lifeboat stations upon the s. shore, and the Governor
appoints 12 wreck masters for the co.
6 A considerable portion of this coast is high, affording beautiful sites for country residences.
6 The R. E. at Jamaica is 45 feet above sea level. The ascent
from Jamaica to Hempstead Junction is 59 feet, and from
thence to the Syosset Branch 50 feet, making the latter 154 feet,
which is the highest point on the road. The descent of these
plains southward is so gradual as scarcely to be apparent.

The jail occupies a portion of the courthouse building. The county records are kept in a spacious brick building in the village of Jamaica; and in the same building are offices for the Surrogate and Board of Supervisors.2 The co. has no poorhouse; but each town provides for the accommodation of its own paupers.

The Prooklyn and Jamaica R. R., extending w, from Jamaica to the co. line, is leased by the Long Island R. R., which extends E. from Jamaica through Hempstead, North Hempstead, and Oyster Bay. The Flushing R. R. extends w. from Flushing Village through Newtown to the mouth of Newtown Creek. The Syosset Branch R. R. connects Hicksville, upon the L. I. R. R., with the village of Syosset, 31 mi. N.

There are 7 newspapers published in the co.; 2 at Jamaica, 2 at Hempstead, 2 at Flushing, and 1 at Glen Cove.3

The co. was mostly settled by English immigrants, under the authority of the Dutch Government during the last 20 years of its existence. The E. extremity of Long Island was claimed by the English colonies of New England; and the boundary line was the subject of a long and angry dispute, which was never entirely settled until the final subjugation of New York by the British in 1664.4 The whole of this co. was under the Dutch, except Oyster Bay, which was a disputed territory. The first planters came on in considerable numbers, and were associated in the purchase of the lands from the Indians. They were mostly united by a common religious faith; and they were invested with certain civil rights, which were afterward confirmed by the English Government of New York, and some of which continue to the present time. The people chose a duplicate set of magistrates and municipal officers, from which the Dutch Governor selected such as he pleased.

The people employed their own minister, and enjoyed comparative religious freedom. The Dutch, however, did not faithfully carry out the agreement which they had entered into with the settlers, and, in 1653, delegates were sent to the city to remonstrate against certain abuses. This was not heeded, and when the people again met for a like purpose they were ordered to disperse. The inhabitants rejoiced when the Dutch rule was finally broken and they came under the protection of the English. Gov. Nicoll, the first English Governor, convened deputies from the several towns upon Long Island, who met at Hempstead in the spring of 1665. A code of laws and ordinances was adopted, a shire was erected, the names of towns were changed, boundaries were settled, and affairs were regulated to meet the views of the new government. From this time no land could be taken without purchase from the Indians and patent from the Governor.

During the Revolution considerable numbers of the people joined the loyalists, and the co. was mostly in quiet possession of the enemy. Robberies were common, especially along the N. shore. Presbyterian churches were everywhere used for military purposes. A petty warfare was carried on in whaleboats, and daring exploits were performed by partisans of both sides.

Hall' was erected in 1684. From 1700 to 1708 the courts were held in the Presb. church, when a new co. hall was built, which continued in use until the Revolution, when it was burned. By an act of March 1, 1785, the sum of £2,000 was raised to erect new buildings on the present location under the direction of the co, judge. The building is a half mi. N. of the R. R., and trains stop opposite when courts are in session. Efforts have been made to remove the site to Jamaica, but thus far without success, although most persons will admit that the present site is is recoverage to a pricety of the impositance.

4 Commissioners were appointed to settle these claims in 1650. They were Simon Bradstreet and Thos. Prince on the part of the New England colonies, and Thos. Willett and Geo. Baxter on the part of the Dutch. The boundary was fixed along the w. line of Oyster Bay; but the States General did not ratify the agreement, and the Dutch Governor neglected to carry it into effect. The Dutch subsequently planted a colony at Brookville, (Wolver Hollow,) E. of the line, to assert their claims.

FLUSHING1—was first granted by letters patent—issued by the Dutch Governor Keift, Oct. 10, 1645—to a company of English immigrants.² This grant was confirmed by Gov. Nicoll, Feb. 1666, and by Gov. Dongan, March 23, 1685.³ Under the provisions of these charters a considerable amount of land was held in common, to be under the charge of 5 trustees, elected annually.4 It was recognized as a town under the State Government, March 7, 1788.5 It lies upon the N. border of the co., w. of the center. Its surface is moderately uneven and has a gentle inclination to the N. A low range of hills extends along its s. border and separates it from Jamaica. Flushing Creek, the principal stream, forms a portion of the w. boundary. The princi pal indentations upon the coast are Flushing Bay, Powells Cove, Little Bay, and Little Neck Bay An extensive salt marsh extends along Flushing Creek and the head of Flushing Bay. 6 The soil is a fine quality of productive sandy loam. Gardening, fruit growing, and the nursery business constitute the leading pursuits of the people. The town supports its own poor, and has a house and farm for their accommodation. Flushing, (p. v.,) at the head of Flushing Bay, was incorp. April 9, 1813. It contains 8 churches, 2 newspaper offices, several private seminaries, and has a limited amount of manufactures.10 It is connected with New York by the Flushing R. R. and by a steam ferry from Hunters Point. From its proximity to New York, it has become the residence of many wealthy persons doing business in the city. Pop. 3,488. College Point, 11 (p. v.,) on the sound, E. of Flushing Bay, is a modern village, settled mostly by Germans. It contains 2 churches, and an immense manufactory of whalebone, India rubber, and ratan, giving employment to 500 to 700 hands. Pop. 1,150. Whitestone¹² (p. v.) is located on the sound, in the extreme N. part of the town. It contains 2 churches, and an extensive tin and sheet ironware manufactory, 13 Pop. 630. Marathon, at the head of Little Neck Bay, is a small, straggling village with one church. Several of the neighborhoods in this town are known by distinct local names.14 Wilkins Point has recently been purchased by the U. S. Government for the site of a fort. 15 There are now 13 churches in town. 16 The first settlements were made by English, who probably had first settled in Holland. They arrived at "New Amsterdam" in 1645. They were Non-conformists in religion, and settled on the Dutch dominions under the promise of entire religious freedom, 17 But the Dutch soon commenced a series of persecutions that continued until the time of the British conquest in 1664. Several French Protestant families found their way into this town after the revocation of the Edict of Nantes; but few of their descendants are now found. The fruits introduced by these people are said to have given the first direction to the nursery business for which this town is so celebrated. During the Revolution a British force was stationed here.

HEMPSTEAD—was granted by Gov. Keift to several English families, Nov. 14, 1644. This patent was confirmed by Gov. Nicoll, March 6, 1666, and by Gov. Dongan, April 17, 1685.18

Upon the erection of North Hempstead, in 1784, its name was changed to South Hempstead; and its present name was re-adopted Feb. 5, 1796. It was recognized as a town March 7, 1788. It lies upon the s. side of the island, extending 20 mi. along the ocean, and embracing about 100 sq. mi. The shore is bordered by a line of beaches and sand hills; and within them are Hempstead and South Oyster Bays, inclosing a large number of low, sedgy islands. West of the bay a long, narrow sandbar, known as Rockaway Beach,1 extends to the s. w., forming the E. boundary of Jamaica Bay. Wide salt meadows border upon the bays, and from them the land spreads out into an almost perfectly level plain.2 The soil along the borders of the marshes is moderately fertile, and upon the plain it consists of sand and fine gravel, which is naturally barren, although it may be made productive by the proper application of manures. A considerable portion of the marshes and plain belongs to the town and is used as common property.3 The people are largely engaged in market gardening. There is no poorhouse; but the paupers are annually put up at auction and struck off to the lowest bidder. Hempstead. (p. v.,) near the center of the town, was incorp. June 20, 1853. It contains 3 churches, the Hempstead Seminary, and 1,486 inhabitants. Along the s, shore are several villages, generally scattered and extended over a large territory. They are mostly surrounded by gardens and orchards. Jerusalem South, (p. v.,) in the s. E. corner, contains a gristmill and Friends' meetinghouse; next w. are respectively Bridge Haven, containing a gristmill and church, Merrick, (p. o.,) and Greenwich Point, two farming neighborhoods; Freeport, 6 (p. v.,) a fishing village, containing 2 churches; Milburn, Baldwinville, and Christian Hook, hamlets; Rockville Center, (p.v.,) containing I church; Near Rockaway, a hamlet, and Far Rockaway, (Rockaway p. o.,) a noted seabathing place. Valley Stream and Fosters Meadow are two scattered settlements along the E. border. New Bridge, (formerly "Little Neck,") Washington Square, and Brookfield are farming neighborhoods. The first settlements were made in 1643, by a colony of English, who had previously settled at Weathersfield and Stamford, in Conn. They founded the first English settlement within the co.8 The town early acquired a prominent rank, and its records (preserved at North Hempstead) contain a large amount of valuable historical information. Horse races were established here by the Governor in 1690. The first church (Presb.) was started in 1648. There are 18 churches in town.9

JAMAICA¹⁰—was first granted for settlement by Gov. Stuveysant, March 21, 1656; and a more ample patent was granted in 1660. The rights of the town were confirmed by Gov. Nicoll, Feb. 15, 1666, and by Gov. Dongan, March 17, 1686.11 It was recognized as a town March 7,

1 The co. seal presents a view of sea and shore from this beach. The name is of Indian origin. This point was formerly inclosed by a fence from Hempstead to Jamaica Bays, and was used for pasturing cattle, horses, and sheep.

2 This plain is 15 mi. long and 4 broad. When first known to the Europeans, it was destitute of timber and covered with grass. The annual burning of this grass was prohibited by statute in 1726. It is mostly uninclosed, and used as pasture.

3 About 16,000 acres of the plain and the salt meadows are common property. The time for cutting the hay is fixed at the annual town meetings, and the first one on the ground has the choice of location. This leads the farmers to the meadows at an early hour on the appointed day, and sometimes during the night previous. where they stand scythe in hand, ready at the first glance of sunrise to strike into the grass before them and mow around as large a piece as they may be able. Several hundred men are often thus employed. Each inhabitant may hire as many laborers as he chooses, and may cut for sale. North Hempstead formerly enjoyed the right of cutting grass upon these meadows, but has been practically deprived of it for many years. See page 545.

11 The first patent of confirmation contained the names of Daniel Denton, J. P., Robt. Coe, Capt. Bryan Newton, Wm. Hallet, Andrew Messenger, and Nathaniel Denton: and the second named 24 persons.—Patents, I, 66, 91, V, 432; Sec. Office.

1788. It is the s.w. corner town of the co. A range of low wooded hills forms its N. boundary: but the remainder of the town consists of an extensive sand plain, and a series of wide salt marshes along the shore. Jamaica Bay, forming its s. boundary, incloses a large number of low, marshy islands. Several small streams take their rise in springs and small ponds among the hills and flow s. to the bay. The soil is light and sandy. A considerable tract immediately bordering upon the marshes is kept in a high state of fertility by artificial means, and is devoted to market gardening. This town has long been celebrated for its race courses.2 The town poor are annually let to the lowest bidder. Jamaica, (p. v..) near the x. border of the town, was incorp. April 14, 1814. It contains 7 churches, the Union Hall Academy, several private semimaries, a union school, 2 newspaper offices, and several manufactories.⁵ Pop. 2,817. Woodhaven was organized in 1850 by a number of capitalists for the manufacture of shoes. Cypress Avenue is a R. R. station near the line in Kings co. The country in the immediate vicinity is laid out in a village plat, and named Unionville, from the Union Race Course; Clarenceville is a village plat on the R. R., w. of Jamaica; Centerville, a plat adjacent to the trotting course; Hopedale and Jamaica Heights, two prospective villages in the N. part; Willow Tree, a R. R. station, E. of Jamaica; Queens, (p. o.,) a R. R. station near the E. line, and Springfield, a vicinage 3 mi. long, in the E. part, extending to the bay. The first settlement was made about 1656, by people from Hempstead, who in that year obtained leave of the Dutch Government to purchase lands and erect a town, "according unto their place limited, named Canarise, about midway from Hempstead." In 1702 the civil officers of government removed to this place, on account of prevailing sickness. An attempt was made soon after to appropriate the church to the use of the Episcopalians,-which was resisted, and a controversy commenced, which was not settled until 1728. In 1753 the General Assembly again convened at this place. During the Revolution the town was occupied by the British, and, especially in winter, large bodies of troops were stationed here. The Dutch Church was used as a storehouse. The first church (Presb.) was formed in 1663. The Ref. Prot. D. Church was formed in 1702; and the first Prot. E. services were held during the same year. The Chapel of the Sisters-a neat edifice, built of hewn granite-was erected in the Presb. Cemetery, by Nicholas Ludlum, of New York.7

NEWTOWN⁸—was first conveyed by patent, by Gov. Stuyvesant, in 1652. The grant was confirmed by Gov. Nicoll, March 6, 1666, and by Gov. Dongan, Nov. 25, 1683,9 It was recognized as a town March 7, 1788. It lies upon the East River and Long Island Sound, in the N.W. corner of the co., and includes North and South Brother, Rikers, and Berriens Islands. A range of hills extends along the s. border; but the remaining part of its surface is level or moderately uneven. Flushing Creek forms a portion of the E. boundary, and Newtown Creek a portion of the w. boundary. Extensive salt meadows border upon these creeks and the bays. Hell Gate is a narrow, tortuous passage between Wards Island and Hallets Point, near the N. extremity of the town.11 The soil is a fine quality of sandy loam. Market gardening and the cultivation of flowers are the most important business. The town poor are let out by contract. Astoria,12 (p.v.,) upon East River, near Hell Gate, was incorp. April 12, 1836. It contains 5 churches, a female seminary, union school, and several extensive manufactories.13 It is particularly distinguished for its floral gardens

1 Several of these ponds have been purchased by the Brooklyn Water Works Company. The remains of a mastodon were found in excavating at Baisleys Pond, in this town, March 27, 1858. They consisted of six molar teeth and some small fragments of bones, blackened, but not mineralized.

2 A course was laid out, in colonial times, around the border of Beaver Pond,—a sheet of water adjacent to the village, since drained. Union Course was laid out soon after the passage of the act of 1821, and continued under that of 1834. It is now owned by the "Union Association," formed under general act, Aug. 2, 1858, with a capital of \$100,000. It is a few feet over a mile in circuit. There is a trotting course s. E. of the former.

3 The town elects trustees annually to manage its property. It has a fund—given by Henry Townsend nearly two centuries since—"for the relief of poor widows and children, "persons blind, lamed, or aged, and such as should be unable to get a living, or any that should suffer by fire and whose necessities might call for relief."

In These islands are cultivated as gardens. Berrians, near Lawrence Point, has an area of 12 acres. Rikers is the largest and most valuable, and was formerly called "Hewletts Island," from its having been the residence of Geo. Hewlett. It is 1 mi. from the mainland, and contains over 50 acres. It was confirmed to Guisbert Riker by Stuyvesant, Dec. 24, 1667, and is still owned by the family.—Thompson's Hist., II, 154.

12 This place was formerly known as "Hallets Core." and was settled by Stephen A. and John C. Halsey. At the time of its incorporation it was proposed to call it "Stanswick," from the Indian name of a stream near by; but the name Astoria was adopted, in hope of securing a gratuity from John Jacob Astor. In this, however, the people were disappointed, as he gave only \$100 to the seminary.

13 The principal manufactories are the chemical works for

and greenhouses.1 It is connected with New York by ferries, and is inhabited by many persons doing business in the city. Pop. about 3,200. Ravenswood, (p. v.,) upon the East River, is a suburban village, and the houses consist mostly of costly residences. The poorhouse farms of New York City were located at this place previous to the purchase of the islands in the river for that purpose.2 A rifle cartridge factory exploded here about 1850, occasioning a great destruction of life. Hunters Point's is a newly surveyed and thinly settled village, immediately x. of the mouth of Newtown Creek. It has several manufactories, and is rapidly increasing in business and population. Newtown, (p.v.,) near the center, and Penny Bridge are stations upon the Flushing R. R.; and Winsfield and West Flushing are village plats upon the same roads. Maspeth⁵ (p.o.) lies near the head of Newtown Creek; and Melvina, Columbusville, and Winantsville are village plats in the same vicinity. Lawrenceville, N. w. of Winfield, and Middletown, s. E. of Astoria, are village plats. Locust Grove, Linden Hills, New Astoria, Middle Village, and South Williamsburgh are localities and prospective villages. Dutch Kills is a gardening neighborhood. St. Ronans Well, a wooded island near the head of Flushing Bay, contains 7 acres, and is a favorite resort for picnic parties. Calvary Cemetery, on the Laurel Hills, N. of Newtown Creek, contains 59 acres, and is owned by the R. C. denomination. The Cemetery of the Evergreens, in the s. w. corner, is partly in Brooklyn and partly in New Lots, Kings co. It is beautifully situated upon the Cypress Hills, and contains 115 acres, with the privilege of extending its area to 500 acres. Cypress Hills Cemetery, E. of the latter, is also situated upon the highlands, and contains 400 acres.6 Mount Olivet Cemetery lies near Maspeth, and the Lutheran Cemetery near Middle Village. The National Race Course, incorp. May 31, 1854, is located near the Flushing R. R. 7 The first settlements were made in 1651, by English immigrants, who had first located in New England. The first grant of privileges obtained from the Dutch in 1652 was followed by another more liberal in its character in 1665. The early records of the town were lost during the British occupation in the Revolution. A blockhouse was built at Hell Gate during the Revolution, and a water-battery, named Fort Stevens, during the War of 1812. The first church edifice (Presb.) of which there is any record was erected, in 1670, at Newtown Village; and the first preacher was Rev. John Moore, who was employed from the first settlement until his death, in 1661. The census reports 15 churches in town.9

NORTH HEMPSTEAD 10 - was formed from Hempstead, April 6, 1784. It lies upon Long Island Sound, between Hempstead Harbor and Little Neck Bay, and on the s. extends to near the center of Hempstead Plains. A range of hills extends E. and W. through near the center; and from them spurs extend to the Sound, giving to the N. part a moderately hilly character. Hempstead Harbor and Manhasset Bay are irregular bays extending far inland, dividing the coast into "necks" and points,—the principal of which are Cow and Great Necks, Motts, Prospect, Sands,

making dry alkalies, the U.S. Vulcanized Gutta Percha Belting | it from Dutch Kills. De Witt Clinton formerly resided here,

making Gry anales, the U.S. Vulcanized Gutta Percha Betting and Packing Works, and an extensive carpet factory.

1 Grant Thorburn, the celebrated seedsman and iborist, had a nursery here from 1832 to 1851. There are now iboral establishments for supplying the city market, besides many gentlemen's greenhouses, graperies, &c.

2 About 1834-35, the corporation of New York City erected extensive buildings, about 1½ mi.s. from Astoria, for a pauper establishment, which were sold at public auction, April 15, 1847, upon the removal of these institutions to the islands in the piper tensive buildings, about 1½ ml. s. from Astoria, for a pauper establishment, which were sold at public auction, Aprillib, 1847, upon the removal of these institutions to the islands in the river. Three large buildings—called the "Boys" Nursery," 'School House," and "Infant Nursery," the property of Wm. W. Miles—were leased (May 25) to the Commissioners of Emigration for a ship fever hospital, and other purposes. A public meeting was held immediately after at Astoria, to express indignation at the application of the property to these uses and to remonstrate against it. The people failing to obtain their object, the premises were assailed and destroyed on the night of May 26–27, 1847, by a large mob in disguise. An attempt was made to fasten the expense of these losses upon the town; and, after repeated efforts, the owner recovered \$3,000 from the State by act of March 17, 1855.—Assem. Doc. 1848, Nos. 19, 161, 164, 186; Senate Doc. 1849, No. 31, and 1850, Nos. 62 and 82.

3 Criginally called "Dominies Hook." The place was afterward owned by Geo. Hunter, who died before 1825. It is designated in deeds as "Long Island City?" Much of the property given to Union College by Rev. Dr. Nott as an endowment is located here, and consists of graded lots.

E. church was erected near Middle Village in 1836, chiefly through the liberality of Jos. Harper, father of the Harper Brothers, publishers in New York.

10 Under the act of organization each town was to enjoy the right of oystering, clamming, and fishing in the other; and both continued to cut grass upon the South Meadows until 1815. They each assumed the sole care of the common lands that fell within their several bounds. At the town meeting in Hempstead, April, 1797, a resolution was passed, giving to the people of that town 10 days' precedence of right in cutting grass. A suit was instituted, and was appealed to the Court of Errors, which decided, in Dec. 1828, that North Hempstead had no power to interfere in the regulations of Hempstead.—Opinion of Chancellor Kent, Johnson's, II, 320–338; of Chancellor Sanford, Hopkins, I., 259–300; Decision of Court of Errors, Wendell, II, 109–137. The public lands of the town were sold under an act passed March 25, 1830. Obadiah Townsend, Singleton Mitchell, Benj. Albertson, and Jos. Dodge were appointed commissioners for this purpose. for this purpose.

Barker, and Hewletts Points, and Plum Beach.1 The soil upon the plains is light and sandy, and in the N. part a sandy and clayey loam, very productive. The town poor are supported by the Jones Fund,2 at an institution situated at Brookville, in the town of Oyster Bay; and 2 trustees are annually elected to the board having this fund in charge. Manhasset, 3 (p. v.,) near the center, a straggling village, contains 4 churches. The neck of land extending eastward of Manhasset Bay is called Manhasset.4 Roslyn, (p. v.,) at the head of Hempstead Harbor, 2 mi. above the steamboat landing, contains 2 churches and several manufactories. Pop. 592. North Hempstead (p.o.) is 2 mi. E. of the courthouse; Mineola (p.v.) is a scattered villag at the junction of the L. I. & Hempstead Branch R. Roads; Flower Hill is a farming neigh borhood near the center of Manhasset Neck; Montrose, a village plat near the country seat of Wm. C. Bryant. Westbury is a farming neighborhood, extending from near the courthouse to the E. line of the town. Carl Place, near Westbury, and Clowesville, near Mineola, are village plats. Hyde Park, near the R.R., Lakeville, near the line of Flushing, and Farmers Village, on the edge of the plains, are farming localities. Port Washington (p. o.) is a small village on the w. side of Manhasset Bay. The first settlement was made in the spring of 1640, by a small company of English immigrants from Lynn, Mass., under the lead of Capt. Daniel Howe, who took possession of the head of Cow Bay, under the authority of Farrett, agent of the Earl of Stirling. The Dutch sent a party of soldiers, who captured several of the intruders: but they were released upon promising to quit the place. These persons afterward made the first settlement at Southampton. The necks of land of this town were first used for pasturage in commons. During the Revolution marauding parties committed various depredations upon the people of this town, rendering both property and life insecure. The census reports 9 churches in town.9

OYSTER BAY10—was patented by Gov. Nicoll, Nov. 29, 1667, and confirmed by Gov. Andross, Sept. 29, 1677.11 It was recognized as a town March 7, 1788. It occupies the E. extremity of the co., and extends across the island from the sound to the ocean. The N. shore is deeply indented by irregular bays, the principal of which are Oyster Bay, Cold Spring, and Oyster Bay Harbors, Mill Neck Creek, and Mosquito Cove. Cove Neck, Center Island, 12 and Mosquito Neck are long peninsulas formed by these bays: 13 Lloyds Neck is a peninsula extending E. of Cold Spring Harbor. The great indentation of South Oyster Bay, separated from the ocean by Jones Beach, forms the s. boundary. This bay is bordered by salt meadows, and incloses several marshy islands belonging to the town. A range of hills extends through the N. part; and the remainder of the surface is level. The soil is a sandy and clayey loam, and with proper care is very productive. The town poor are supported by the Jones Fund.14 Oyster Bay, (p.v.,) on Oyster Bay Harbor, contains 6 churches and 900 inhabitants;15 Glen Cove,16 (p. v.,) near Hempstead Harbor, in the N. w. part, contains 3 churches, a printing office, fire insurance office, and a large starch factory. 17 South Oyster Bay (p.o.) is a scattered village on the s. shore. Farmingdale (p.o.) is a hamlet and R. R. station near the E. line; Hicksville 18 (p.o.) is a R. R. station near the w. line. Syosset19 (p.o.) is the present terminus of a R. R. extending N. E. from

⁴ Formerly called "Con Nock." and by the Indians "Sint Sink." It was originally inclosed from Hempstead Harbor to the creek by a fence separating it from Great Neck; and every person was entitled to put as many cattle upon it as he built standing gates or panels of fence. When afterward distributed, in 1674, these rights were called gate-rights. The number of contributors in 1658 was 60, and the number of panels of fence 526. ⁵ Formerly called "Hempstead Harbor." Harbor Hill, in the rear of the village, is 319 feet high. The first paper mill in the State is said to have been built here in 1773, by Hendrick Onderdonk, (grandfather of two bishops of this name.) Hugh Gaine, and Henry Remsen. There are 2 paper mills, 2 gristmills, and a sawmill at this place.
 • The people in this vicinity are chiefly employed in furnishing milk for the New York market.
 • Upon the open grounds S. of this place, anciently called "Schizbury Plains," a race course was established by Gov. Nicoll in 1665. It was called "New Market," and continued devoted to the sports of the turf more than one hundred years.
 • Formerly called "Success." from Success Pond in the vicinity. The name was changed to Lakeville in 1835. The towns of Flushing and Hempstead gave 618 acres, between the lake and Hyde Park, to Gov. Dongan, who had a country residence here.

14 In 1836, Sam'l Jones gave \$30,000—known as the "Jones Fund"—for the support of the poor of this town and North Hempstead; and if the income of this fund was more than sufficient for this purpose, the overplus was to belong to Flushing. A farm was purchased at Brookville, upon which suitable buildings have been erected for the support of the poor. Walter R. Jones, the distinguished financier, also a citizen of this town, gave \$5.000 more for the same purpose. The fund is managed by 3 trustees, chosen by this town, and 2 by North Hempstead. The institution is known as the "Jones Institute;" and it supports 60 to 70 indigent persons annually.

An attempt was made by a party of English to make a settlement in this town in 1640; but the settlers were driven off by the Dutch. In 1642 other English parties, who had purchased lands of the Indians, were also driven off. The question of jurisdiction was a matter of debate until 1650, when commissioners were appointed on both sides to settle it. The w. boundary of Oyster Bay was fixed upon as the line of separation of the two colonies; and in 1653 the first permanent English settlement was made, upon land previously purchased of the Indians.9 In 1662 the town formed a close alliance with Conn. De Lancey's corps of royalists built a small fort on the hill, s. of the village of Oyster Bay, in 1776; and it was occupied by Simcoe's Queen's Rangers in 1778 and '79. The census reports 16 churches in town.10

4 This neck, containing 2,849 acres, is separated from the remainder of the town by Cold Spring Harbor. It is connected with Huntington, Suffolk co., by a narrow isthmus. It is principally devoted to the raising of stock. The Indians called it "Caum-sett," and it is called "Horse-Neck" on old documents. It was patented, in 1985, to Jas. Lloyd, of Boston, and erected into a manor. The British maintained a post here during the Revolution; and one of the officers stationed there was the Duke of Clarence, afterward William IV. Daily steamers touch set Lloyd's Deck on the wested of the reach set. Daily steamers touch at Lloyd's Dock, on the w. side of the neck.

RENSSELAER COUNTY.

This county was formed from Albany, Feb. 7, 1791, and named from the Rensselaer family. It is centrally distant 12 mi. from Albany, and contains an area of 690 sq. mi. Its surface is very broken and hilly. Two distinct ranges of mountains extend through it n. and s., known as the Taghkanick and Petersburgh Mts. The Taghkanick Range occupies the extreme E. borders of the co., and is divided from the Petersburgh Mts. by the long, deep valley through which flow Kinderhook Creek and Little Hoosick and Hoosick Rivers. These mountains are wild, rugged, and rocky, rising to a height of 1000 to 2000 feet above tide, and affording wild and picturesque scenery. Their declivities are usually precipitous, and their summits are crowned with forests or masses of naked rocks. These mountains

are composed of the slate, quartz, sandstone, and limestone which constitute the Taconic rocks of Prof. Emmons. The quartz exists in the form of injected veins, and in many places the slate has been decomposed and washed away, leaving the quartz veins in the form of sharp pointed rocks, or of isolated masses. Upon the summits and sides of the mountains the soil is thin and poor; but in the valleys it consists of gravelly loam, and is moderately fertile. The Petersburgh Mts. occupy the whole central part of the co. They are wild, irregular, and broken mountain masses, with precipitous sides on the E., but with more gradual declivities on the w. In some places the summits spread out over a wide surface, constituting a high, sterile plateau broken by hills and rocks. They are composed of the graywacke slates and limestone belonging to the Hudson River group. An extensive tract among these mountains, comprising a portion of Stephentown, Berlin, Sand Lake, and Poestenkill, is still covered with forests. The soil is generally hard and sterile, consisting of a stiff clay and disintegrated slate, largely underlaid by a retentive hardpan.

Hudson River is on the w. boundary of the co.; and along its bank extends an intervale varying from a few rods to a half mile in width, and bounded by a series of bluffs 100 to 200 feet in height. From the summits of the bluffs to the foot of Petersburgh Mts. the country assumes the character of a broken, hilly upland. This region is composed of the drift deposits mixed with disintegrated slates, in some places the clay, and in others the sand, predominating.

The valley of Kinderhook Creek, Little Hoosick and Hoosick Rivers extends through the E. part of the co. The summit level in this valley at S. Berlin, between the waters flowing s. and those flowing N., is 600 feet above tide. The numerous streams that flow from the Petersburgh Mts. westward to the Hudson have worn deep ravines through the clay bluffs, forming lateral valleys, which extend eastward from the valley of the Hudson. Among the wild and rocky regions of the Petersburgh Mts. are numerous small lakes and ponds, forming a peculiar and beautiful feature of the landscape. Several interesting mineral springs are found within the county.

The narrow intervales, and a large portion of the uplands, are adapted to grain, and produce liberal crops, chiefly of corn, oats, spring wheat, potatoes, and flax; but the soil is generally best adapted to graing and dairying, especially along the E. towns, where these occupations form the leading pursuits. Manufactures are extensively carried on at Troy and in the Hoosick Valley, and commerce has received much attention at Troy, and, at an earlier day, at Lansingburgh.

The principal works of internal improvement in the co, are the Troy & Greenbush R. R., a continuation of the Hudson River R. R. to Troy; the Albany & West Stockbridge R. R., extending from Greenbush in a s. e. direction, through East Greenbush and Schodack, to the s. bounds of the co, 7 mi. from the river; the Troy & Boston R. R., extending from Troy N. e. through Lansingburgh, Schaghticoke, Pittstown, Hoosick, and a corner of Petersburgh, to the Vt. line; the Troy & Bennington R. R., forming a branch $(5_{700}^{100}$ mi. long) of the Troy & Boston R. R., from Hoosick Fall Junction to the State Line toward Bennington, Vt.; and the Albany, Vt. & Canada R. R., extending through Schaghticoke across the N. w. corner of the co., terminating at Eagle Bridge, where it connects with the Vt. roads. Besides these lines, which are within the co., several others communicate with Troy from the w. side of the river. Among these are the A. V. &

C. R. R., which sends a branch to West Troy; a branch of the N. Y. Central R. R., extending to Schenectady; and the Rensselaer & Saratoga R. R., extending from Troy to Saratoga. Northern and Eric Canals also both connect with the Hudson at Troy, and there is an uninterrupted steamboat navigation to New York.2

The first newspaper in the county was established at Lansingburgh, in 1787.3

The county seat is the city of Troy, situated at the head of sloop navigation on the Hudson. The courthouse-built at the joint expense of city and co., and containing the courtroom and co. and city offices5-is situated on the corner of Congress and Second Sts.6 The jail is on Ferry, corner of Fifth St. A house of industry, for the support of paupers, located on a farm of 140 acres 2 mi. s. E. of the city, was founded in 1821, on the plan of Count Rumford. In 1857 the co. poorhouse was reported as being located upon a farm of 152 acres. The co. poor were let, by contract, at \$1 per week, the contractor having free use of the farm, and the services of the paupers as far as they were able to labor.7

The greater part of the co. was included in the patent of Killian Van Rensselaer, in 1630; and the first settlement was made by tenants under him the same year.8 The lands were held by the same tenure as those in Albany co., and similar difficulties have frequently occurred in endeavoring to enforce the collection of rents. Upon the death of the late Stephen Van Rensselaer the manor was divided, the portion E. of the river passing into the hands of his son William P.: and since that time a considerable portion of the leased land has been conveyed a fee.9 During

2 These ample facilities for travel are in striking contrast to the condition of things 60 years ago. By an act of March 30. 1798, Alexander J. Turner and Adonijah Skinner, for a period of 5 years, obtained the exclusive right of running a stage wagon, drawn by at least two good horses, at intervals of one week, (unless prevented by badness of roads), from Troy to Hampton, on the border of Vermont. They were allowed to charge 5 cts. per mi. for passengers, and a like sum for every 150 lbs. of baggage over 14 lbs.

9 The proportion of leased land in the several towns in 1858 is stated by the agents as follows:—In Stephentown nearly all leased; in Grafton, Nassau, Schodack, E.Greenbush, N. Greenbush, and Brunswick, each about two-thirds leased; Berlin and Petersburgh, each about one-half leased; Poestenkill, nearly all freehold; and Sand Lake, one-third originally deeded, and one-third of the remainder now leased.

the French wars, the N. border of the co. was repeatedly ravaged by the energy and the settlements were broken up. Upon the approach of Burgoyne's army, in 1777, the American families hastily fled with such property as could be easily removed, leaving the houses and farms to be plundered by the enemy. Scouting parties of the British penetrated as far s. as Lansingburgh. The battle of Bennington was fought within the limits of the co., Aug. 16, 1777;1 and from that moment the American cause daily grew brighter.2 The proprietor of the manor extended every possible assistance to the distressed families flying before the invaders, proving to them a sincere friend in their hour of need.

BERLIN—was formed from Petersburgh, Schodack, and Stephentown, March 21, 1806. A portion of Sand Lake was taken off in 1812. It lies near the center of the E. border of the co. Its surface consists of 2 ranges of mountains separated by a narrow valley extending N. and s. The hilly region is wild and broken, and the declivities are generally precipitous. The principal streams are Kinderhook Creek, flowing s., and Little Hoosick River, flowing N. The headwaters of these streams are but a few rods apart, near S. Berlin. The w. part of the town is covered with forest, in which are several fine lakes. The soil in the valley is a gravelly loam, but among the mountains it is a hard sterile clay intermixed or covered with fragments of rock. Berlin. (p. v.,) containing 326 inhabitants, South Berlin (p. v.) and Center Berlin. (p. v.,) are all situated in the valley of the Little Hoosick. West Berlin is a p. o. Godfrey Brimmer located near N. Berlin in 1765.3 The first church (Seventh Day Bap.) was formed at N. Berlin, in Dec. 1780; Wm. Coon was the first preacher.4

BRUNSWICK-was formed from Troy, March 20, 1807. A part of the town was reannexed to Troy, April 15, 1814. It lies a little N. w. of the center of the co., upon the hilly region w. of the summits of the Petersburgh Mts. The most elevated portions of the town, in the extreme E. and in the N. W. parts, are 800 to 1000 feet above tide. The principal streams are Poesten Kil, its tributary Quacken Kil, and Tomhannock Creek. The soil upon the summits of the hills is hard and sterile, but in the valleys and lowlands it consists of a fertile, gravelly loam intermixed with clay. The people are largely engaged in furnishing milk, vegetables, and hay to the Troy market. Brunswick Center, East Brunswick, Millville, (Eagle Mills p.o.,) and **Cropseyville**⁶ (p.o.) are small villages. The first settlement was made about 1760, by a company of Germans.⁷ This town suffered greatly upon the approach of Burgoyne in 1777, and after the battle of Saratoga many families of royalists withdrew to Canada, and but few returned. There are 4 churches in town.8

EAST GREENBUSH—was formed from Greenbush, as "Clinton," Feb. 23, 1855, and its name was changed April 14, 1858. It lies on the bank of the Hudson, s.w. of the center of the co. The bluffs which border upon the river rise from the edge of the water to an elevation of 100 to 300 feet. The principal one of these, opposite Albany, is known as Pon-o-kose Hill.9 From the summits of these bluffs the surface spreads out into a rolling upland, rising toward the E. The chief streams are Tierken Kil, 10 or Mill Creek, in the central, and Moordeners Creek in the s.w. part of the town. The soil consists of sand, gravel, and clay, and is very fertile. There are several sulphur springs in town, the principal of which is opposite Albany and is known as "Harrowgate." A large island called Papskaneell lies in the river, and belongs to this town. East Greenbush (p.o.) is the only village. It contains the Greenbush and Schodack Academy12 and about a dozen houses. Settlements are supposed to have commenced here as early as

3 Among the other early settlers were Renhen Bonesteel and a family named Richer, who came in soon after Mr. Brimmer. In 1709, Peter Simmons and Jacob O. Cropsey lived at the Hollow, and in the same year Daniel Hull and Joseph Green came into town. Col. Bentley settled near N. Berlin, and Thos. Sweet, a blacksmith, at S. Berlin. Jas. Caleb Bentley built the first grist mill, and Amos Sweet the first saw-mill. in 1780. Dr. John Forbes, the first physician, located at S. Berlin in 1775. Soon after the battle of Levington, two companies were formed in this and the adjacent towns, a part of whom were stationed at D. Hull's for local projection; the others were engaged elsewhere in active service.

Tamong the early settlers were David Coons, and families named Hardwick, Braunschweiger, Springer, Borck, Hayner, Outhout, Van Arnam, Hogg, Fisher, Benn, Watson, Fret, Quackenboss, Muller, Goeway, and Clum. A man named File kept the first inn, near the Lutheran Church, in 1790, and Henry Clum the first store at Cropseyville. The first factory was erected by a company at "Albia," now a part of Troy. The first mill was built by — Cross, in 1792, with no tools but an ax, saw, and auger.

1650.1 During the war of 1812, extensive barracks were erected on the hills E. of Greenbush Village; and for several years the place was the center of active military preparation, and the rendezvous of large bodies of troops.2 Edmund C. Genet, Minister of the French Republic to the U.S., was long a resident of this town, and died here July 14, 1834. There is but 1 church (Ref. Prot. D.) in town.

GRAFTON—was formed from Troy and Petersburgh, March 20, 1807. It lies N. of the center of the co., upon the summits of the Petersburgh Mts. Its surface is very rocky and broken, and a large part of it is yet covered with forests. The summits of the hills are 800 to 1200 feet above tide, and many of them are covered with huge and jagged masses of graywacke. Among the hills are 25 ponds, several of which cover an area of several hundred acres each.³ The Quacken Kil is the principal stream. The soil is chiefly clay, underlaid by hardpan, and is wet, cold, and hard of cultivation. Mineral paint is made from the red argillite at Quackenkill. Considerable quantities of wood, tan bark, and charcoal are sent from this town to Troy. Grafton's (p.v.) contains 14 houses, East Grafton (p.v.) 12, and Quackenkill (p.o.) 10. The first settlements were made by tenants under Van Rensselaer; they paid an average annual rent of 10 bushels of wheat per 100 acres.⁵ The census reports 2 churches; Bap. and M. E.

GREENBUSH⁶—was formed from "Rensselaerwyck," April 10, 1792. Another act of incorporation is dated March 17, 1795. A part of Sand Lake was set off in 1812, and "Clinton" (now E. Greenbush) and N. Greenbush in 1855, leaving but the corporate bounds of the village as defined by the act of April 9, 1852. Its surface consists of the flat intervale on the river and a portion of the adjacent hillsides. The soil is clay mixed with sand and alluvial deposits. Greenbush (p.v.) was incorp. April 14, 1815. Pop. about 3303. The upper part of the village, locally known as "East Albany," contains the depôts, freight houses, and machine shops of the several railroads which terminate opposite Albany, and is a place of considerable business.8 The first settlement was made previous to 1631.9 A ferry was established at the mouth of Beaver Creek in 1642, and was first kept by Hendrick Albertsen. The country around "Beverwick" was thrown into alarm by the news of the Indian massacre at Esopus in June, 1663, and the settlers took refuge in Fort Cralo, on the patroon's farm, and a night watch was established.¹⁰ There are 4 churches in the village.11

HOOSICK¹²—was formed as a district, March 24, 1772, and as a town, March 7, 1788. It lies in the N.E. corner of the co. Its surface consists of the narrow valley of Hoosick River, and the wild, rocky regions of the Taghkanick and Petersburgh Mts., rising respectively on the E. and W. The two highest peaks are Fondas Hill in the s.E. and Potters Hill in the s.W. each about 900 feet above tide. The valleys are very narrow, and are bordered by steep hillsides. A belt of dark slate, which is quarried for roofing, extends along the E. bank of the river. East of the river, the rocks consist of a slaty shale and limestone, the latter furnishing lime. The principal streams are Hoosick and Walloomsac¹³ Rivers, Punch Kil, White Creek, and Shaw Brook. The soil among the mountains is hard and sterile, but in the valleys it is principally clay, mixed with disintegrated slate. In the s. E. corner are 3 springs, from which issue nitrogen gas.14 Flax 's very extensively cultivated. 15 Consideral le attention is also paid to manufactures. Hoosick

6 It was named Greene Bosth by the Dutch, from the pine woods which originally covered the flats. Called by the Indian names of Petuqua-poen and Tus-cum-catick in early documents. A part of Sand Lake was annexed in 1843.

7 The village was purchased and laid out in 1806, and for several years after its growth was quite rapid. During the War of 1812 it contained from 50 to 70 houses.

It contains Ball's Seminary. 2 foundries, 2 cotton factories, 2 reaping and mowing machine factories, and 1 establishment for the manufacture of machinery for cotton and woolen factories. North Hoosick1 (p. v.) contains 175 inhabitants, and Buskirks Bridge (p.v.) 125; Hoosick Corners (Hoosick p.o.) contains 30 houses, Eagle Bridge (p.v.) 14, Walloomsac2 12, West Hoosick (p. o.) 10, and Potter Hill (p.o.) 7. This town was included in the Hoosick Patent, 3 granted June 3, 1688, and the Walloomsac Patent, granted June 15, 1739. The first settlements were made upon the Hoosick Patent by several Dutch families.⁵ A Dutch church was founded, and known as the "Tyoshoke Church," at San Coick, near the N. border of the town. The settlement at Hoosick was entirely broken up by a party of French and Indians on the 28th of Aug. 1754. Two persons were killed, and the houses, barns, and crops were destroyed. The next day the settlement of San Coick, s. of Hoosick, was also destroyed. The battle of Bennington was fought in this town, Aug. 16, 1777.7 The census reports 6 churches in town.8

LANSINGBURGH⁹—was formed from Troy and Petersburgh, March 20, 1807. A tract was annexed from Schaghticoke in 1819. A part of Troy was taken off in 1836, and a part of Brunswick in 1839. It is a narrow strip of land extending along the Hudson. In the s. part the river intervale is one-fourth of a mile in width; but in the N. the bluffs rise directly from the water. In the N. E. is a high, rocky hill, 400 to 600 feet above the river. The high bluff E. of the village is called Diamond Rock. The streams are Deepi Kil and Koola Kil. The soil is a gravelly and clayey loam. The people are largely engaged in the manufacture of brushes, oilcloths, flax cordage, and malt liquors. A lock at Troy admits the passage of sloops up to this place. 10 Lansingburgh 11 (p.v.) contains extensive brush, oilcloth, and other manufactories, the Lansingburgh Academy, 12 a Female Seminary, 13 6 churches, 2 printing offices, and about 4000 inhabitants. 7 The Battle of Bennington was one of the most important of the military events connected with the expedition of Burgoyne in 1777. About the first of Aug., the British army reached the Hudson and took possession of Fort Edward. For several weeks they had been engaged in repairing the bridges and in clearing the roads from the impediments left by the retreating Americans; and, upon their arrival at the Hudson, Burgoyne congratulated himself that his troubles were at an end. His greatest source of embarrassment was in securing provisions for his army and in obtaining means of transportation. With 15 days' hard labor he was only enabled to bring 10 bateaux and 4 days' provisions from Lake George. Learning that the Americans had collected a large quantity of military stores, cattle, and horses at Bennington, he was persuaded by Maj. Skene, against the advice of his most experienced officers, to send a party to capture them. The detachment consisted of 500 Hessians, Canadians, and tories, under the command of Col. Baum. They were instructed "to try the affections of the county, to mount Reidsel's dragoons, to complete Peter's corps, [of loyalists,] and obtain a large supply of cattle, horses, and carriages." This accomplished, he was to soour the country from Rockingham to Otter Creek, go down as far as Brattleboro, and join the main body by the great road to Albany. The detachment left the camp at Fort Edward, Aug. 13; and on the evening of the same day they surprised and captured 5 Americans at Cambridge. On the 14th they advanced as far as the mill upon Walloomsac. River, in the N. E. part of Hoosick and within 12 mi. of Bennington, learning of the approach of the enemy, took i

morning of the 14th he marched with his whole force to the support of Gregg, and about 5 mi. from Bennington he met support of Gregg, and about 5 ml, from Bennington he met Gregg in full retreat, with the enemy, within 1 ml. of him. Both armies chose strong positions and threw up temporary intrenchments. Baum, alarmed at the number of Americans, sent for a reinforcement. On the 15th a heavy rain set in; and the day was spent in skirmishing and in preparing for the battle. Col. Warner's regiment arrived at Bennington in the evening, and there stopped to dry themselves and recruit after their fatiguing march. Stark, fearing the enemy might receive reinforcements, resolved to attack them early on the morning of the 16th. Previous to the sirrad for attack he made the follow. remoterations; resolved to attack the made the following laconic speech to his men: "See there, men! there are the red-coats. Before night they are ours, or Molly Stark will be a widow." The attack was at once made simultaneously at all points. The Indians fled at the beginning of the conflict, and the tories were soon driven from their posts, leaving the Hesthe tories were soon driven from their posts, leaving the Hessians to sustain the weight of the engagement. After 24 hours of hard fighting the enemy gave way at all points, and commenced a disorderly retreat. While the Americans were busy in plundering the abandoned camp of the enemy, and in detached parties were engaged in pursuit, Col. Breyman, with a reinforcement of 500 men, arrived. He met the flying fugitives about 2 mi. from the scene of action, and immediately charged upon the broken ranks of the Americans. The fide of battle now turned, and Stark had the mortification of seeing his army driven helplessly from the field where they had so lately been driven helplessly from the field where they had so lately been victorious. At this moment Col. Warner's regiment arrived from Bennington and checked the advance of the British. from Bennington and checked the advance of the British. Stark rallied his broken forces behind the fresh troops, and soon the battle again became general. At sunset the British fled toward the Hoosick and were pursued by the Americans until dark. The Americans lost about 30 killed and 40 wounded. The British loss, in killed, wounded, and prisoners, was 634. The result of this battle was disastrous in the extreme to Burners. goyne, and contributed more than any other event to his final surrender at Saratoga.

here crosses the Hudson to Waterford. The Troy & Boston R. R. passes through the town. The village was founded by Abraham Jacob Lansing, about 1770. It was first organized under the name of "Stone Arabia" in 1771. In May, 1775, 50 of the citizens—at the head of whom was A. J. Lansing, the proprietor—signed articles of association pledging themselves to sustain the measures recommended by the Continental or Provincial Congress. The first act of incorporation under the State government was passed April 5, 1790, at which time the village was included in the town of "Rensselaerwyck." In 1791 it was included in the town of Troy. The place rapidly increased in population, and early became an important trading and commercial village. The first church (Ref. Prot. D.) was organized in 1784; and reorganized in 1792 as a Presb. church.3 Speigletown is a village of 15 houses.4

NASSAU-was formed from Petersburgh, Stephentown, and Schodack, March 31, 1806, by the name of "Philipstown." Its name was changed April 6, 1808. It lies near the center of the s. border of the co. Its surface is very broken. Snake Hill, in the s. w., is about 800 feet above tide. The principal streams are Kinderhook and Tsatsawassa⁶ Creeks, and Valatie Kil. There are several fine lakes among the hills, the principal of which are the Tsatsawassa and the Pattawassa. The Psanticoke Swamp, w. of the center, covers several hundred acres. The soil is clay and gravel underlaid by hardpan. Considerable manufacturing is carried on in town. Nassau, (p.v.,) incorp. March 12, 1819, is the seat of Nassau Academy. Pop. 300. East Nassau (p. v.) has 45 houses, Hoags Corner (p. v.) 25, Alps (p. v.) 24, North Nassau (p. v.) 15, and Millers Corners 10. Slab City8 is a hamlet. Brainards (p. v.) contains a female seminary and 20 houses,9 The first settler was Hugh Wilson, who located on the site of Nassau Village in 1760.10 At that time a few families of the Stockbridge Indians were living where Mr. Hoag's orchard now stands.11 The Indians conveyed to Jos. Primmer a tract of land N. of Hoags Pond,12 and another tract s. of it to Hugh Wilson, May 16, 1760.13 Within the last 20 years a considerable quantity of land has been allowed to produce a second crop of timber. There are 7 churches in town.14

NORTH GREENBUSH-was formed from Greenbush, Feb. 23, 1855. It lies upon the Hudson, directly w. of the center of the co. The clay bluffs, 100 to 200 feet high, rise from the edge of the water, leaving little or no intervale. From the summits of the bluffs the surface spreads out into a rolling upland, broken by the deep gulleys of the streams. The principal stream is Wynants Kil, in the N. E. Aries Lake, on the E. border, is a fine sheet of water. The soil is a sandy and gravelly loam interspersed with patches of clay. The people are extensively engaged in supplying the markets of Albany and Troy with garden vegetables and milk. Bath, 15 opposite the upper part of Albany, contains about 12 houses, **Defriestville**¹⁶ (p. v.) 12, and **Wynants**kill (p. v.) 15. The first settlement, made by tenants under Van Rensselaer, was among the first in the manor.17 There are 3 churches in town.18

PETERSBURGH¹⁹—was formed from Stephentown, March 18, 1791. Its boundary on the line of Berlin was changed, Jan. 4, 1793; parts of Berlin and Lansingburgh were taken off in 1806, and parts of Nassau and Grafton in 1807. It lies upon the E. border of the co., N. of the center. Its surface consists of two precipitous mountain ridges separated by the narrow valley of Little Hoosick River. The highest peaks are 1000 to 2000 feet above tide. The mountain regions are barren and almost inaccessible. The Hoosick River breaks through the Taghkanick Mts. in the N. E. part. The soil in the valley is a gravelly loam. Petersburgh, (p. v.,) formerly "Rens-

PITTSTOWN—was erected as a township by patent, July 23, 1761, and was formed as a town, March 7, 1788. Its boundary was changed Feb. 14, 1793. It lies in the center of the N. part of the co. Its surface is mountainous in the s. and E. and declines into a moderately hilly region in the N. The highest summits, in the s. E., are 800 to 1,000 feet above tide. The soil is principally a gravelly and slaty loam. Flax is extensively cultivated,3 and there are several manufactories in town. Johnsonville (p. v.) contains 35 houses, Tomhannock (p. v.) 40, Raymertown (p. v.) 27, Pittstown Corners (Pittstown p. o.) 22, Boynton 20, Pittstown Station (Valley Falls p. o.) 16, North Pittstown 20, and Cooksborough (Haynerville p. o.) 10. Shermans Mills is a hamlet. Settlement was commenced about 1650.5 The first church (Bap.) was formed in 1784; Elder Isaac Webb was the first preacher.6

POESTENKILL'—named from its principal stream—was formed from Sand Lake, March 2. 1848. It lies near the center of the co., upon the western declivities of the Petersburgh Mts. The central and E. portions are rugged, rocky, and mountainous, and the soil is cold, sterile, and unproductive. The w. part is hilly, with a gravelly loam well adapted to pasturage. Snake Hill, near the center, is one of the principal elevations. Upon the Poesten Kil is a fall of about 80 feet. One mi. w. of the falls is a medicinal spring, with a local celebrity for the cure of eruptions and cutaneous diseases.8 Poestenkill (p.v.) contains 300 inhabitants, East Poestenkill (p.o.) 10 houses, and Barberville 16. A union academy was formed in this town in 1854, but it is not under the regents. The census reports 4 churches.9

SAND LAKE-was formed from Greenbush and Berlin, June 19, 1812. A part of Greenbush was taken off in 1843, and Poestenkill in 1848. It lies a little s, of the center of the co. Its surface is mountainous in the E. and hilly in the w. Perigo Hill, in the N. E. corner, is 900 feet above tide, and Oak Hill, near the center, is but little less in height. The E. part of the town is mostly covered with forest. Wynants Kil, flowing N. w. through the center, and Tsatsawassa Creek, in the E., are the principal streams. Along the valleys of these streams are several fine lakes, the principal of which are Sand, Glass, and Crooked Lakes, and Big Bowmans Pond. The soil among the mountains is a hard, sterile clay, but in the w. it is a good quality of gravelly loam. Three fourths of a mi. E. of W. Sand Lake is a chalybeate spring. Large quantities of cordwood, charcoal, and tan bark are carried to the Troy and Albany markets. Sand Lake (p. v.) contains the Sand Lake Seminary, a boarding school, 11 foundery, cotton warp factory, 2 knitting mills, and 300 inhabitants. West Sand Lake12 (p.v.) contains 300 inhabitants, Sliters Corners 106, and Glass House 200,13 South Sand Lake is a p.o. Settlement commenced before the Revolution.¹⁴ The census reports 7 churches in town.¹⁵

SCHAGHTICOKE16—was formed as a district, March 24, 1772, and as a town, March 7, 1788. Pittstown was taken off, March 7, 1788, and a part of Lansingburgh in 1819. It lies on the Hudson, in the N. w. corner of the co. The surface is principally a rolling upland, about 200 feet above the river. The summits of the hills in the s. are 800 feet above tide. Hoosick River,

Mills, a paper mill at Valley Falls, and manufactories of cordage and axes at Johnsonville.

5 Wm. Prendergast, Stephen Hunt, and Edmund Aiken were among the first settlers near Johnsonville; Ludovicus Viele at Valley Falls, in 1772; and Christian Fisher and Michael Vander-cook at Cooksborough. In 1770, Wm. Shepard (from New England) settled on 500 acres; in 1778-80, Benj. Aiken (from Dutchess co.) on 950 acres: and in 1785, Alex. Thompson, on 500 acres. Wm. Hammoud kept a school at N. Pittstown in 1785, and Rebecca Thompson at Shermans Mills in 1789. Rebecca Thompson at Shermans Mills in 1789.

Schaghticoke Hill contains 25 houses, The Borough 8, Junction (p. v.) 17, and Old Schaghticoke 6. About 1670, Gov. Andros settled a remnant of the Pequots and other Eastern tribes, under the name of "Schaghticokes," in this town, on land given them by the Mohawks, as a barrier against the Northern Indians.3 By the charter of 1686 the city of Albany was allowed to purchase of the natives 500 acres of land in this town: but, neglecting to do so, Hendrick Van Rensselaer obtained the same privilege in 1698. He sold his right to the city the next year, and in 1707 an Indian deed was obtained for a tract 6 mi. square, mostly within the limits of this town. In Oct. 1709, the city conveyed the land to actual settlers.4 The early settlements suffered greatly from Indian hostilities. A fort was built in 1746 at Old Schaghticoke and garrisoned by 2 companies of soldiers. The whole settlement was abandoned on the approach of Burgoyne; but, through the influence of the royalists, the place was not burned, though held for some time by the British and Hessian outposts.⁵ The Schaghticoke Seminary was incorp. May 4, 1836. The first church (Ref. Prot. D.) was formed in 1714.6

SCHODACK⁷—was formed March 17, 1795, at the time of the division of "Rensselaerwyck;"8 parts of Berlin and Nassau were taken off in 1806. It lies upon the Hudson, in the s.w. corner of the co. From the river the surface rises in a series of bluffs 200 feet high, from the summits of which it spreads out into an undulating upland inclined toward the w. Bunker Hill, the highest point, is about 500 feet above tide. The surface is intersected by numerous deep gulleys of small streams. The principal streams are Vierdee Kil, Moordeners Kil, Vlockie Kil, Muitzex (Mitch-es) Kil, and Valatie (Vola-she) Kil.11 The soil in the E. is clay, and in the w. a fertile, sandy and gravelly loam. Castleton¹² (p.v.) is a fine village upon the Hudson. Pop. 431. Schodack Landing (p.v.) contains 250 inhabitants, Muitzes Kill 20 houses, Schodack Depot (p. v.) 18, East Schodack (p. v.) 15, and Bunker Hill 9. Schodack Center and South Schodack are p. offices. This vicinity seems to have been thickly inhabited by native tribes at the time of Hudson's visit in 1609.13 The first settlements were made by tenants under Van Rensselaer. Over 40 settlers are mentioned in Bleeker's survey of 1767.14 The census reports 7 churches.15

TROY CITY—was formed as a town from "Rensselaerwyck," March 18, 1791. Brunswick, and parts of Grafton and Lansingburgh, were taken off March 20, 1807, and a part of Greenbush in 1836. A part of Brunswick was annexed in 1814. The first village charter was passed in 1791;3 and another Feb. 16, 1798. The village was formally incorp. by acts passed April 2, 1801, and April 9, 1805. The city charter was granted April 12, 1816. A portion of Lansingburgh was annexed May 4, 1836. It lies upon the Hudson, near the center of the w. border of the co. Its surface comprises the alluvial flat, three-fourths of a mile wide, upon the river, and the high bluffs which border it on the E. The high land immediately E. of the

city is known as Mt. Ida, and that on the N. E. as Mt. Olympus. Mt. Ida is principally clay, and has been the scene of several destructive landslides. Poesten Kil and Wynants Kil both break through these hills in narrow ravines and in a series of cascades, forming an excellent water power.

The first religious meetings were held in a store, and afterward in a schoolhouse, about 1785. The first framed house of worship was erected in 1791, now the First Presb. Church; Rev. Jonas Coe, of Lansingburgh, was the first pastor. There are now 33 churches in the city.4

The Public Schools are under the charge of 20 commissioners, elected for two years.⁵ In 1857 the city was divided into 25 school districts, and employed 76 teachers,-14 males and 62 females. The number of children, between 4 and 21, was 11,200, of which 7228, or 65 per cent., attended the public schools during some portion of the year.6

The Troy Academy, incorp. May 5, 1834, and received under the regents Feb. 5, 1839, is located near the center of the city.

The Troy Female Seminary, situated on Second Street, between Congress and Ferry Sts., was first established at Middlebury, Vt., in 1813, removed to Waterford in 1819, and to Troy in 1821. It was incorp. May 6, 1837, and received under the regents Jan. 30, 1838. It has gained a national reputation under the charge of Mrs. Emma Willard.

The Rensselaer Polytechnic Institute,8 endowed by Stephen Van Rensselaer, is situated near the head of State St. It was organized in 1824. It was formed for the purpose of teaching the application of mathematics to civil engineering and the natural sciences. It numbers 14 professors and has about 100 students. Next to West Point, this institute has the best reputation, in its special departments, of any school in America.

The Troy Lyceum of Natural History was incorp. March 7, 1820. Its cabinet and library are kept in the Troy University.

The Troy University⁹ is located upon Mt. Ida, a beautiful situation, overlooking the city and valley. It is under the charge of the M. E. denomination, and was opened in 1859.

St. Peter's College¹⁰ is under the charge of the R. C. denomination, and is not yet fully organized.

St. Joseph Academy, under the charge of the R. C., was founded, in 1842, as a free school. In 1852 it was enlarged, and a boarding house was annexed.

The Tray Hospital, a charitable institution, was incorp. March 1, 1851. It was founded chiefly through the exertions of Rev. P. Havermans, and is supported by the R. C. denomination. The nurses belong to the Sisters of Charity.

Marshall Infirmary was incorp. in 1851. It was founded by Benjamin Marshall. The building and grounds cost \$35,000; which sum was donated by its founder.

Troy Orphan Asylum, incorp. April 10, 1835, is situated on Grand Division between 7th and Eth Streets. The building is of brick, and has about 100 inmates. The Asylum is supported by donations and State appropriations; and children are received between the ages of 3 and 9, and dismissed at 10 if an opportunity offers. At this age they are indentured to farmers until the age of 17. During the first 22 years over 500 had been dismissed; and most of them have since filled respectable stations in life. A school is maintained regularly in the Asylum.

St. Marys Orphan Asylum is an institution connected with St. Marys Church, (R. C.) The male department is under the charge of the "The Brothers of the Christian Schools," and the female, of "The Sisters of Charity."

The Warren Free Institute, a school for indigent female children, was incorp. March 19, 1846. It was founded and endowed by the Warren family. A free church, (Prot. E. Church of the Holy Cross,) for the pupils and their parents, is connected with the Institute.

The Troy Water Works were built by the city in 1833-34, and they have been subsequently extended. The water is drawn from Piscawin Creek, and the reservoir is sufficiently high to throw the water to the top of most of the houses. The works are under the charge of water commissioners, and the rents are charged to property owners and collected with the taxes.

The city is 150 miles from New York, with which it is connected by R. R., and, In the season of navigation, by lines of steamers. Its commerce is extensive, and it has a large trade with the region N. and E. The Union R. R. Co. have erected a magnificent depôt in the central part of the city for the accommodation of the various lines of roads that center here.1

The manufactures of Troy are extensive and various.² Wynants Kil, on the s., furnishes 12 mill sites, with an aggregate of 2000 horse power; Poesten Kil, on the N., has 10 sites, equivalent to 1000 horse power, and the dam across the Hudson furnishes 4000 horse power. Besides these there is an immense amount of steam power in use.

In 1720, Derick Vanderheyden³ acquired from Van Rensselaer the title to 490 acres of land, now included in Troy, at an annual rent of 34 bush, of wheat and 4 fat fowls. The tract was occupied as a farm until about 1786, when a company of New Englanders induced the owners to lay it out as a town. It was surveyed between 1786 and '90, and was variously known as "Ferry Hook," "Vanderheydens Ferry," and "Ashleys Ferry." In the spring of 1789 the place contained 5 small stores and about a dozen dwellings. The name, Troy, was adopted at a meeting of the freeholders, Jan. 5, 1789. The first settlers came in soon after the war.⁵ The completion of the Erie Canal gave an impulse to this place that speedily raised it from a comparatively obscure village to a large and important city.6 Several destructive fires have occurred, occasioning great losses.7

¹ The Troy Union R. R., 214 mi. long, was built by a company, composed of persons chosen by, and representing the interests of the Hudson R., N. Y. Central, Troy & Boston, and Renselaer & Saratoga R. Rs. The depôt, built in 1853-54, is 400 by 150 feet, walls 27 feet, and roof a single arch, (Briggs's patent,) gupported only by the walls. It is built for 10, and has 7, parallel tracks its entire length. Tower, 115 feet high. Four complete suites of rooms and offices.

2 The iron manufactures consist of R. R. iron, rolled iron, spikes, mails, stoves, firearms, malleable iron, steam engines, safes, agricultural implements, &c. The business is carried on by more than 30 firms, and gives employment to 2500 men. The Troy nail works are among the most extensive in America. Besides these, there are 6 large flouring mills, 3 grist mills, several breweries and distilleries, and establishments for the manufacture of cotton and woolen goods, hosiery, paper, carriages, 10thing, &c., in the aggregate employing about 7000 hands One establishment for the manufacture of shirts, bosoms, and collars employs 670 hands; 3 others employ 1070 hands, and 17 others 2750 hands. The most extensive mathematical instrument manufactory in the U. S. is located in this city.

3 A descendant of his was known as the "Patroon of Troy."

RICHMOND COUNTY.

This county was organized Nov. 1, 1683. It includes Staten Island, Shooters Island, and the islands of the meadow in Staten Island Sound. It is separated from Long Island by New York Bay, the Narrows,4 and New York Harbor; from Bergen, N. J., by the Kil Van Kull; and from N. J. on the w. by the Arthur Kil, or Staten Island Sound.⁵ Staten Island is nearly oval-shaped, its longest diameter extending N.E. and s.w. It is 14 mi. long by 8 broad, has an area of 58½ sq. mi., and is centrally distant 146 mi. from Albany. Princess Bay and Great Kils are small bays upon the s. shore. Fresh Kils is a tidal estuary extending about 3 mi. inland from Staten Island Sound, and during high tide it is navigable nearly its whole extent. The surface of the co. is mostly level or

gently undulating. A broad range of hills extends from the Narrows across the island, terminating between the branches of the Fresh Kils. Near Tompkinsville these hills attain an elevation of 310 ft. They are composed of granitic rock upon the N. slope and steatitic rock and serpentine Hematitic iron ore6 and many other interesting minerals are found in the co.7 Along the Fresh Kils, and along Staten Island Sound, in Northfield, and also around the head of Great Kils and the mouth of New Creek, are extensive salt meadows. The waters of the sound and the bays adjacent to the island abound in oysters; and the oyster trade is the principal industrial pursuit of those inhabitants not engaged in business in New York, Brooklyn, or Jersey City. The right of taking oysters belongs to the owners of the adjoining banks.8 At Port Richmond, Factoryville, and other places along the N. shore, are extensive manufactories.9 Market gardening is followed to a limited extent, chiefly to supply the home demand. The erection of forts, hospitals, and other public establishments of the General and State Governments has given employment to great numbers of persons and caused the expenditure among the people of the co. of large sums of money. Since the establishment of regular steam ferries, 10 many wealthy citizens engaged in business in New York City have erected residences upon the island. These country seats are mostly upon the N. shore and upon the heights that overlook the bay and sound. All the villages along the N. shore are lighted by gas furnished by the Richmond Gas Light Works, located near the Quarantine. A company was incorp. in 1836 to build a R. R. across the island to connect with the Camden & Amboy R. R.11

The co. seat is located at Richmond.12 A courthouse and jail, in the same building, was erected pursuant to the act of March 23, 1837, at a cost of \$10,000.13 The co. clerk's office was erected in

severe winters it has been frozen many weeks together. It is

6 This ore has a fibrous texture, and is found in botryoidal
forms, often with black polished surfaces, and in the granular
condition it is known as "shot ore." It is said to be abundant.

A heavy gray ore is also found. These ores have never been
smelted on the island.

7 The minerals of the co., beside iron ore, are red and yellow ochre, asbestus, amianthus, marmolite, hydrate and carbonate of magnesia, sulphuret and chromate of iron, quartz, chalcedony, feldspar, and lignite.

Feldspar, and fighte.

8 This right is often leased. The average annual rent is 75 cts. per ft., measured along the shore. By an act passed May 9, 1846, the taking of oysters from the planted grounds of another is pronibited, under a penalty of \$50 for each offense.

A large amount of lager beer is made in Castleton and Southfield, and the island has of late become a Sabbath day resort of the German population of N. Y. City, thousands of whom repair every Sunday to the saloons and gardens attached to the harmonics. to the breweries.

10 The boats of the Staten Island & New York Ferry Co. ply hourly between Whitehall St., in New York, and the island, touching at Port Richmond, Factoryville, New Brighton, Quarantine, Stapleton, and Vanderbilts Landing. This company was organized Oct. 26, 1853, with a capital of \$900,000, and now has 7 boats in constant use.

11 This enterprise was recently revived, and a route surveyed

¹¹ This enterprise was recently revived, and a route surveyed running s. of the hills from Vanderbilts Landing to a point opposite S. Amboy. About \$40,000 were expended in purchasing the right of way and grading; and the work is now in progress. ¹² The first record of an order for the erection of a prison is dated March 4, 1710. It runs as follows:—"Ordered that Mr. Lambart Garisone and Mr. Wm. Tillyersee the prison house built at Cuckols Towne. Ye Demensions Twelve ffor in breadth, flourteen foot Long, two story high, six foot ye Low Roome from beam to plank, and the uper story, 6 foot: and all to be built with stone." This building was inadequate to the requirements of the co., and a larger one (of brick) was afterward built. The latter building is still standing, and was used as a co. prison until 1837. co., and a larger one (of brick) was afterward built. The latter building is still standing, and was used as a co. prison until 1837. The first colonial Court of Sessions on Staten Island was held Oct. 4, 1680. The first court after the Revolution convened May 3, 1784; and the first court of Oyer and Terminer under the State Government was held May 22, 1787, Richard Morris, Chier Justice, presiding. The first co. officers under the State Government were David Mersereau, First Judge; Cornelius Mersereau, Hendrick Garrison, Peter Rezeau, Anthony Fountain, John Wandle, Gilbert Jackson, and Lambert Merrill, Judge's and Justices.

1848 and enlarged in 1857. It is a 2 story brick building, and contains the supervisor's room, office for the surrogate and district attorney, and accommodations for the sheriff. The poorhouse is located upon a farm of 105 acres in Northfield.\textsupers Several of the public schools of Castleton and Southfield have been organized as union schools under a special act, and are in charge of a board of education. The schools of the co. generally are in a flourishing condition.2 Richmond co. is within the jurisdiction of the Metropolitan Police Commissioners; but no men have hitherto been detailed for ordinary service within its limits.

Two newspapers are published in the co.3

Staten Island was visited by Henry Hudson in his celebrated voyage of discovery in 1609. It was purchased from the Indians, Aug. 10, 1630, by Michael Pauw, one of the 4 Patroons of New Netherlands, and formed a part of the tract known as "Pavonia" in the early Dutch records.4 It soon reverted, however, to the West India Co.; and in 1636 a part of the island was granted to D. P. De Vries, by whom a colony was planted upon it in Jan. 1639. The remaining part of the island was granted by the Directors of the West India Co. to Cornelius Melyn in July, 1640. The following year, Melyn with his family settled upon this grant, and in June, 1642, he obtained letters patent. In Sept. 1641, the settlement of De Vries was attacked by the Indians,⁵ and hostilities between them and the whites ensued. A peace was concluded in 1642; but in Feb. 1643, under a frivolous pretext, the Indians were attacked opposite Manhattan and at Corlaers Hook and great numbers of them slain. This barbarous measure invoked retaliation, and the white settlements within reach were laid waste. The island was again purchased of the natives, Dec. 6, 1651, by Augustine Herman, and finally quitelaimed to Gov. Lovelace, April 13, 1670.6 Possession was given on the 1st of May following, and at this time the island was finally abandoned by its primitive inhabitants.

A considerable number of French Huguenots, after the revocation of the Edict of Nantes in 1685, found their way into the English colonies, and a part of them settled upon Staten Island. The family names of these immigrants are still common in this co. The earliest grants upon the island under the English were made to the officers of the ship Elias, immediately after the conquest.8 Two manors were subsequently granted,—one on the N. shore, styled "Cassillown Manor," to Gov. Dongan,9 and the other in the s. part, known as "Billop Manor." This island was first occupied by British troops in the Revolution, July 4, 1776, and it was held by them until their final removal from the State late in 1783. On the 21st of Aug. 1777, the British posts upon the island were attacked by an American force under Gen. Sullivan. The expedition was well planned, but it failed to accomplish its main object.10 During the severe winter of 1779-80, while the Americans were encamped near Morristown, (N. J.,) a second expedition was sent out, under Gen. Lord Stirling, to surprise the enemy in the interior of the island. The party, consisting of 2500 men, crossed the sound on the ice from Deharts Point, on the Jersey shore, on the morning of the 15th of Jan.; but the movement was observed in time to prepare for defense. Contrary to expectation, the passage to New York was found to be free from ice, and during the day the British were reinforced from the city. Two or three were killed on each side, and a few prisoners were taken by the Americans. While the party remained, some persons from the mainland passed over and plundered several of the inhabitants; but a strict search was made and the stolen property was recovered and restored to its owners.¹¹ On the 11th of

9 The greater part of the lands to which existing titles are traced were granted under Dongan's administration. The descendants of Gov. Dongan were living upon the original estate until the close of the last century. Between 30 and 40 grants of land from the colonial governors are upon record in the co.

¹ The county house consists of 2 stone buildings, each 2 stories high. The Senate Com. in their report of 1857, say that it is "without ventilation and without any provisions for bathing; and a general survey of the house, with its fixtures, as you approach it, is entirely in harmony with its name." The average number of inmates is 80, who are supported at a weekly cost of \$1 each. The farm yields an annual revenue of \$3000.

2 In 1817, efforts were made by Gov. Tompkins and other residents to establish a college upon the island. A provisional charter was obtained from the regents, under the name of "Washington College," and a subscription of \$10,000 for a site old \$5,000 for a library was secured. The effort failed; and it was afterward proposed to unite the institution with Columbia College,—but without success. An act was passed. April 18, 1838, incorporating "Richmond College" upon condition that \$50,000 be raised within 2 years; but the effort failed.

Sept. 1776, a conference between Lord Wm. Howe and a committee of Congress consisting of Dr. Franklin, J. Adams, and E. Rutledge was held at the house of Capt. Billop, opposite Perth Amboy. No events of special interest occurred upon the island during the late war with Great A brigade of militia, consisting of 2000 men, was stationed here, and remained in camp from Aug. to Dec. 1814. During the troubles that preceded the War of 1812, the Legislature of New York memorialized Congress for the erection of defensive works around the harbor of New York, claiming protection against the arms of a foreign power as no more than an equitable return for the revenues which the State had surrendered to the General Government upon the adoption of the Constitution.2 Failing in this, the governor was directed to purchase a tract, not to exceed 25 acres, at the Narrows;3 and upon this tract fortifications were afterward erected. The amount of the appropriation made by the State for the defenses upon Staten Island previous to 1820 was \$154,105 46. These works were purchased by the General Government, pursuant to an act of Congress passed Aug. 3, 1846,4 and they are now being rebuilt at an immense cost. When these and the other contemplated works along the approaches to New York Harbor are completed, the city will be among the best fortified in the world.⁵ A quarantine was established by the State, under an act passed Feb. 25, 1799, upon the N. extremity of the island, in the town of Castleton, and maintained until it was destroyed, on the evenings of Sept. 1 and 2, 1858, by the people encouraged and led by prominent citizens.6

CASTLETON—was first recognized as a town March 7, 1788. It lies in the N. part of the island, and is the smallest but most populous and wealthy town in the co. The surface is mostly hilly. The people are principally engaged in manufacturing. Factoryville (North Shore p.o.) is a populous village in the N.W. part of the town, containing extensive dye and print works7 and other manufactories. Elliottsville8 is a hamlet. A little E. of this place is the

¹ These defenses consisted of Fort Richmond, a water battery near the water's edge; Fort Tompkins, a heavy fortress on the heights above, and Batteries Hudson and Morton. The last was named from Gen. Jacob Morton, of the N. Y. Artillery. In 1811, the removal of the U. S. Military Academy to this island was proposed, and the governor was empowered to convey to the General Government the jurisdiction of so much territory as might be necessary for this purpose. No further steps toward its removal have been taken.

General Government the jurisdiction of so much territory as might be necessary for this purpose. No further steps toward its removal have been taken.

5 Additional land was bought in 1857 near Fort Tompkins, and this work is now about to be replaced by one of great strength, at an estimated cost of over \$500,000. The aggregate of the appropriations made by the General Government for these works has been as follows: for Fort Richmond, \$375,000; for Fort Tompkins, \$192,300; for Batteries Hudson and Morton, \$10,000. A new fort is to be erected upon Sandy Hook, (N. J.,) which it is estimated will cost \$1,500,000. \$250,000 of which has been appropriated. For an account of Fort Hamilton and the fortification of the inner harbor, see pp. 373,419. The recent defensive works and those now in progress were chiefly ordered upon the advice of Gen. Totten.

6 In 1758 an act was passed to prevent the spread of infectious diseases, and a law of similar import was enacted May 4, 1784. By the act of May 4, 1794, Governors Island was assigned as a quarantine; and in March, 1177, a lazaretto was directed to be built upon Bedoes Island. The awful visitation of yellow fever in 1798 led to the passage of an act (Feb. 25, 1799) for the purchase of 30 acres upon Staten Island for a permanent quarantine. Of this lot 5 acres were sold, and ceded (April 1, 1800) to the U. 8, for warehouses. The first buildings erected were of materials taken from the Lazaretto on Bedloes Island. In 1819 a long brick building was erected; in 1823, a fever hospital; in 1828–29, a smallpox hospital; and subsequently other buildings as the wants of the institution required. As the surrounding country became thickly settled, the same difficulty arose that led to the pressure of quarantine from the vicinity of New York, and for many years an earnest desire had existed among the citizens of this island for its removal. Memorials for this object were met by remonstrances from the importers, and nothing was accomplished. In 1856 the yellow fever appeared, and 769 were met by remonstrances from the importers, and nothing was accomplished. In 1856 the yellow fever appeared, and 750 cases occurred, of which 538 were on Staten Island, between New Brighton and Ciliton, 138 in Fort Hamilton and Bay Ridge, 64 on Governors Island, and 29 in Brooklyn. Of those upon Staten Island one-third were fatal. This alarming event convinced the Jublic that new safeguards were necessary, and the citizens of this co. renewed their demand for the removal of the quarantine. An act for the removal of the "Quarantine Station" was passed. March 6, 1867, under which George Hall, Egbert Benson, and Obadiah Bowne were appointed commissioners to purchase a

new site and erect the necessary buildings. The sum of \$150,000 was fixed as the limit of expenditure under this act. After inefectual efforts to obtain a site on Sandy Hook, the committee purchased a farm of 50 acres, late the property of Joel Wolfe, situated at Seguines Point. in Westfield. The sum paid was \$23,000, and the land had upon it farm buildings valued at \$15,000. The site was approved, and the purchase completed, May 1, 1857. On the night of the 5th of May all the buildings were burned to the ground by some 40 persons without disguise. Temporary buildings were erected on the site in June. An attack was made on the 12th of July by a few armed persons, and several shots were fired. The new buildings, consisting of two hospitals and a cock and wash house, were burned on the evening of April 26, 1858, and no effort was made to rebuild them, or to bring the incendiaries to justice. The hostility against the old establishment continued unabated, and gained confidence from the approval of many of the leading citizens, some of whom declared their willingness to unite openly, by daylight and without disguise, to destroy the premises that they deemed an insufferable nuisance. In the summer of 1856 a barricade had been erected, by order of the Board of Health of Castleton, to prevent communication with the premises. This new site and erect the necessary buildings. The sum of \$150,000 Darricade had been erected, by order of the Board of Health of Castleton, to prevent communication with the premises. This was taken down by a party of men from the city under the direc-tion of the Health Office. The occurrence of a few cases of yellow fever outside the walls in Ang. 1858, led to the passage of a series of resolutions by the town Board of Health, declaring the whole quarantine establishment a nuisance too intolerable to be borne quarantine establishment a nuisance too intolerable to be borne any longer, and recommending the citizens of the co. to protect themselves by abating it without delay. Copies of these resolutions were posted up in the village on the lst of Sept., and on the evening of the same day the walls were broken down and the gates burst open by the excited populace, the sick carried out upon their mattresses, the family of the resident physician hurried from their dwelling, and every building except the women's hospital was burned. On the following evening they destroyed the last building upon the premises. The U. S. stores were saved by a party of marines stationed for the purpose. On the 7th the governor issued a proclamation declaring the co. in a state of insurrection. Temporary quarantine accommodations the 'fit the governor issued a proclamation declaring the co. In a state of insurrection. Temporary quarantine accommodations were soon after erected under the protection of a detachment of the State militia, who were detained in the service till the closa of the year. The expenses attending this duty were assumed and paid by Governor King, and reimbursed by a special appropriation soon after. The necessity for a permanent removal of quarantine from Staten Island has been conceded by most persons who have given the subject an investigation; and the practicability of constructing an artificial island upon one of the sons who have given the subject an investigation; and the practicability of constructing an artificial island upon one of the shoals in the lower bay has been certified by competent engineers. The governor, in his message of 1859, recommended the appoinment of a new commission to investigate this difficult but highly important subject and report to the legislature.

1 This establishment was founded by Robert Richard Randall, of New York. By the provisions of his will, dated June I, 1801, several annuities and legacies were to be paid, and the residue of his estate conveyed in trust to the State Chancellor, the Mayor and Recorder of New York, the senior minister of the Episcopal and of the Presbyterian churches of the city, the President of the Chamber of Commerce and the President and President of the Chamber of Commerce and the President and Vice-President of the Marine Society, and their successors for the support of aged and infirm sailors. The trustees were incorp. Feb. 6, 1806. The property thus bequeathed lay near Union Square, in New York, and a protracted and expensive lawsuit prevented the trustees from fully executing the intentions of the benefactor until many years after his death. This suit was decided in the U.S. Supreme Court, in Feb. 1830, in favor of the trustees. It was allowed to accumulate until 1830, when the present site (embracing 163 acres) was purchased, and preparations were made for the erection of the necessary buildings. The cornerstone of the edifice was laid Oct. 21, 1831. The buildings consist of a main edifice with two wings, a hospital, (erected in 1855,) a commodious dining and lodging hall, (erected in 1855,) a chapel, (erected in 1856,) the governor, physician, chaplain, and steward's dwellings, a laundry, a gardener's house, chaplain, and steward's dwellings, a laundry, a gardener's house, and other buildings. The officers of the establishment consist of a president, secretary, governor, treasurer, chaplain, physician, assistant governor, steward, and agent, chosen annually by the trustees. Capt. John Whetten was the first governor, and since 1845 Capt. De Peyster has held that office. The total number of immates received since 1845 has been 477; the present number (Aug. 1888) is 380. 13 In March, 1801, a tax was imposed upon seamen and passengers entering the port of New York, the proceeds of which were applied to the Quarantine Hospital. But the injustice of devoting a revenue derived from the hard earnings of seamen to objects having no connection with their interests or support led to the passage of a law in 1831, by which this tax was directed to be paid to the Board of Trustees of the Seamen's Fund and Retreat in the city of New York. A surplus that had been paid into the State treasury, amounting to \$12,197 68, was also placed in the hands of the trustees. A tract of 40 acres was bought for \$10,000, temporary buildings were erected, and, on the 1st of Oct. 1831, 47 patients were admitted. ROCKLAND COUNTY.

This county was formed from Orange, Feb. 23, 1798. It is triangular in form, Hudson River, New Jersey line, and the s. bounds of Orange co. being respectively its E., s. w., and N. w. boundaries. It is centrally distant 105 mi. from Albany, and contains 208 sq. mi. The Ramapo Mts., extending along the N. w. border, are the connecting link between the Blue Ridge of Eastern Penn, and N. J. and the Matteawan Mts. of Putnam co., E. of the Hudson. They are separated into numerous distinct spurs, ridges, and peaks, and occupy more than one-third of the entire surface of the co. They are generally steep, rocky, and barren, and the valleys between them are narrow, rocky ravines. The Palisade Range from N. J. enters the extreme s. angle of the co., and terminates abruptly s.

of Piermont. A broken ridge, known as the Nyack Hills, forming a N. spur of this range, but without its continuous and wall like character, extends N. along the river to the N. part of Clarkstown, where it unites with Verdrieteges Hook, an E. spur of the Ramapo Range. The surface of the central and s. w. portions of the co., lying between these ranges, is rolling or moderately hilly. The highest summits in the N. W. part are 700 to 1,000 feet above tide. The principal streams are Hackensack River, flowing s. through Clarkstown and Orangetown, Ramapo River, in the w. angle of Ramapo, and Minisceongo Creek, Minas Fall Creek, and Spar Kil, tributaries of the Hudson. The rocks of the Ramapo Mts. are principally primitive. Granite, gneiss, and metamorphic limestone abound. The hills along the river and Verdrieteges Hook are composed of red sandstone, known to geologists as the New Red Sandstone; and the central and w. portions of the co. are principally underlaid by limestone. These rocks yield an abundance of most excellent building material, and from the white limestone in the N.E. corner of the co. large quantities of lime are manufactured.2 Trap rock extends from N.J. into the s. border of the co. The people are largely engaged in fruit growing and gardening. Milk is sent from some parts of the co. in considerable quantities to the New York market. The manufacture of lime and brick and the exportation of ice are important branches of the industry of the co. Large quantities of red sandstone for building are annually quarried and exported. The manufactures of the co. are also important and various, consisting principally of shoes, wooden ware, and woolen yarn.

The co. seat is located at the village of New City, in Clarkstown. A combined courthouse and jail, built of brick, is situated upon a beautiful eminence overlooking the village.3 The clerk's office is a fireproof brick building adjacent to the courthouse. The poorhouse is located upon a farm of 43 acres at Mechanicsville, in Ramapo, 7 mi. w. of the courthouse. The average number of inmates is 100, supported at a weekly expense of 75 cts. each. The farm yields a revenue of \$700. A school is taught during the entire year, and the house is well kept. The N. Y. & Erie R. R. extends through the w. part of Ramapo, and the Piermont Branch of the same road extends from Piermont, on the Hudson, to Sufferns, where it unites with the main track.4

Two weekly newspapers are now published in the co.5

This co. was included in patents known as the Kakiate Patent, granted to Daniel Honan and Michael Hawdon, June 25, 1696; the Wawayanda Patent, granted to John Bridges, April 29, 1703; and the Cheesecocks Patent, granted to Ann Bridges and others, March 25, 1707. The first patent recorded in the co. clerk's office is one granted to Samuel Bayard, bearing date Sept. 16.

This lime is used exclusively for agricultural purposes.—See

page 569.

The first courthouse after the erection of the co. was built in 1793-99. The present house was crected in 1827, and the jail was added in 1856. The whole cost was about \$16,000. The

was added in 1856. The whole cost was about \$16,000. The first co. officers were John Suffern, First Judge; David Pyc, Co. Clerk; Jacob Wood, Sheriff; Peter Talman, Sherrogate.

1703.1 The old courthouse, built about 1739 for that part of Orange co. s. of the mountains, was at Tappantown, opposite the old Ref. Prot. D. church, and was burned before the Revolution. The first settlers were Dutch, who located in the s. E. part of the co. from 1690 to 1710.2

CLARKSTOWN—was formed from Haverstraw, March 18, 1791. It lies upon the Hudson, and is the central town upon the E. border of the co. Verdrieteges Hook, a rocky ridge 500 to 800 feet above tide, extends along the N. line, and the Nyack Range occupies a considerable portion to the s. E. corner. The remaining parts of the town, comprising four-fifths of its surface, are rolling or moderately hilly. Hackensack River flows s. through near the center, and a narrow swamp extends along the greater part of its course. Rockland Lake, about 1 mi, from the Hudson, is a fine sheet of pure water, 3 mi. in circumference and 160 feet above the river. The soil is a reddish, sandy loam underlaid by clay. Considerable attention is given to fruit growing. Rockland Lake, 3 (p.v.,) in the E. part of the town, and extending from the lake to the river, contains a church, a foundery and machine shop, and a ship yard. Pop. 430. An extensive business is carried on at this place in preserving and exporting ice.4 New City, (Clarkstown p.o.,) the co. seat, a little N. w. of the center, contains the co. buildings, a church, and 28 dwellings. Nanuet, (p. v.,) formerly "Clarkstown Station," a station upon the Piermont Branch of the Erie R. R., in the s. w. part, contains 1 church and 20 dwellings. Clarksville, (Nyack Turnpike p.o.,) in the s. part, contains a church and 18 dwellings. Dutch Factory, a hamlet in the w. part, contains a cotton factory and 2 woolen yarn factories. The first settlements were made by the Dutch, at an early period. The first church (Ref. Prot. D.) was formed near Clarksville.⁵

HAVERSTRAW6-was formed March 7, 1788.7 Clarkstown and Ramapo were taken off in 1791. It lies upon the Hudson, in the N. angle of the co. Nearly the entire surface is hilly and mountainous. The Ramapo or Blue Mts., extending through the N. w. part, are divided into numerous precipitous and rocky peaks, and spurs from the principal range extend to the banks of the Hudson.8 Verdrieteges Hook, a long, rocky ridge, forms a considerable portion of the N. border. The s. E. portion is moderately hilly. The valleys separating these mountains are mostly narrow, rocky ravines. Stony Point is a small rocky peninsula on the river, near the center of the E. border of the town.⁹ The principal streams are Minisceongo and Cedar Pond Creeks, flowing into the Hudson, and Stony Brook, a tributary of Ramapo River, a branch of the Passaic. The soil is a sandy loam underlaid by clay. Extensive beds of a fine quality of clay border upon the river above Warren, and from them are annually manufactured 150,000,000 of bricks, giving employment to over 1,000 men. Limestone crops out near Tompkins Cove, from which large quantities of lime are manufactured. A gas spring is found 2½ mi. s. of Stony Point, 10 Warren, 11 (Haverstraw p. o.,) situated upon the Hudson, in the s.E. angle of the town, was incorp. in 1854.

¹ This tract is described as follows:—"A certain tract of vacant land within our county of Orange called by the Indians Whorinims, Peruck, Gemakie, and Nanashunck, and is in several Whorinims, Peruck, Gemakie, and Nanashunck, and is in several small pieces; and also another parcel of land, beginning at the south bounds of lands lately granted to Daniel Honan and Michael Hawdon, being a small creek that runs into Demaree's Creek to the southward of Nanashunck, and runs from thence by Demaree's said creek as it runs southerly to the lyne parting our said Province from the Jerseys; and soe by the said parting line westward to a small river called Saddle River, thence by the said river northward until an east line doe run to the southwest corpor of the said Haways and Hawdons Jand containing by

4 200,000 tons of ice are annually exported. The business sizes employment to 1000 men during the season of securing the ice, and to about 100 men continually.

5 There are 4 churches in town; 2 M. E., Ref. Prot. D., and

Second Signifying Oat Straw. The name is said to be derived from

the quantities of wild oats growing on the borders of the river when the town was first settled.

7 The date of formation as a precinct was not ascertained.

9 During the Revolution, Stony Point and Verplancks Point, on the opposite side of the Hudson, were strongly fortified, the two fortresses commanding the channel and Kings Ferry, the prin-cipal route between New England and the South. On the 1st of June, 1779, Gen. Vaughn, at the head of a considerable British of June, 1779, Gen. Vaughn, at the head of a considerable British force, made an attack upon these places and captured both. The garrison at Fort La Fayette, on Verplancks Point, consisting of 70 men, were taken prisoners; and that at Stony Point, consisting of 40 men, evacuated the place on the approach of the British. Gen. Cliuton immediately ordered the works strengthened, and prepared for permanent occupation. Stony Point was surrounded on 3 sides by water, and on the fourth by a marsh covered at high tide, and crossed by a narrow causeway. On the night of July 16, 1779, this place was stormed and taken by an American force under Gen. Wayne. The loss of the Americans was 16 killed and 35 wounded, and of the British, 63 killed and 543 prisoners. This action was one of the most daring and britliant that occurred during the war. A light was erected on the site of the fort in 1826. site of the fort in 1826.

the Sampson Iron Co., $1\frac{1}{2}$ mi. w. of this place, usually employing 100 to 150 hands, has suspended operations.

It contains 5 churches, a newspaper office, academy, 1 paper mill, ship yard, foundery, and a silk manufactory. Pop. about 1,700. Tompkins Cove, upon the Hudson, is a village grown up around the extensive limeworks of C. Tompkins & Co. It contains a church, a private school supported by the company, and 60 dwellings.2 Garnerville, 2 mi. x. w. of Warren, contains 1 church, the Rockland Print Works, and 40 dwellings. North Haverstraw, (p.v.,) upon the Hudson, 3 mi, N, of Warren, contains 2 churches and 28 dwellings. Thiells Corner, 4 mi, w. of Warren, contains a needle factory, 2 gristmills, a church, and 15 dwellings. Montville, Caldwells Landing,4 and Grassy Point are hamlets. Fort Clinton, the ruin of which are still visible, was situated upon the river, in the N. E. angle of the town. The house in which Arnold and André met to consummate the bargain for the delivery of West Point to the British is still standing, about halfway between Warren and North Haverstraw. There are 11 churches in town.5

ORANGETOWN-was formed March 7, 1788, and was named from Orange co., of which it then formed a part. It lies upon the Hudson, in the s. angle of the co. Its surface is broken by abrupt and rocky hills in the E.; but in the center and w. it spreads out into a rolling or moderately hilly region. The Nyack Hills, extending along the river, are 300 to 500 feet high, with steep, rocky declivities upon the E., but more gradual slopes upon the w.6 Their summits are rocky and covered with a light growth of forest trees. Snake Hill, in the N. E. corner, upon the line of Clarkstown, is one of the principal peaks. The principal stream is Hackensack River, flowing s. through the w. part. Pascack Creek flows through the extreme w. angle, and Spar Kil is a tributary of the Hudson. Near the N. line are several bog or peat meadows, generally well drained and under cultivation. The red sandstone which crops out on the E. declivities of the hills, within a few rods of the river, between Piermont and Nyack, is extensively quarried and exported for building stone.7 The soil is a reddish, sandy loam intermixed with clay. Fruit growing and furnishing milk for the New York market have become leading pursuits. Nyack, (p. v.,) upon the Hudson, in the N. E. corner of the town, contains 5 churches, 5 shoe manufactories, 8 a steam tub and pail factory,9 the Rockland Female Institute,10 and a private academy.11 Pop. 1,458. Piermont, 12 (p.v.,) upon the Hudson, in the s. part, was incorp. May 21, 1850. It is the E. terminus of the Piermont Branch of the N.Y. & Erie R.R.,-the one over which the freight is carried. Nearly the whole business of the place is connected with the R. R. establishment. A pier 1 mi. long has been built into the river, where the freight is transferred to and from the cars and barges in the river. Upon each end of the pier are extensive offices for the transaction of the business of the road. At this place the R. R. co. also have a large iron foundery and extensive repair shops. Pop. 2,204. Tappantown, 13 (p. v.,) near the N. J. line, contains 2 churches and 30 dwellings. This place was the scene of the trial of André, and for a time in 1780 was the headquarters of Gen. Washington.14 Rockland, (Palisades p.o.,) upon the Hudson, in the s. part

14 The house occupied by Gen. Washington, still standing, is owned and occupied by Dr. Smith. It is a stone house, and is said to have been erected in 1700. The house in which André was confined during his trial is now kept as a tavern, under the name of "The Old "76 House." The trial was held in the old Ref. Prot. D. Church. The scene of André's execution and burial was upon an eminence \(\frac{1}{2}\) mi. w. of the village, and about 20 rods from the N.J. line. In Aug. 1831, his remains were disinterred, under the superintendence of Mr. Buchanan, British Consul at New York, and taken to England. A small cedar tree that stood by the grave was also taken away, and a box was afterward made from its wood, lined with gold, and sent to Rev. Mr. Demarest, of Tappantown, in acknowledgment of the seratterward made from its wood, lined with gold, and self to be Wr. Demarest, of Tappantown, in acknowledgment of the services rendered by him at the disinterment. On the box was the following inscription:—"From his Royal Highness the Duke of York to the Rev. RAMAPO—was formed from Haverstraw, March 18, 1791, as "New Hampstead." Its name was changed to "Hampstead" March 3, 1797, and to Ramapo in 1828. It is the most westerly town in the co. The Ramapo or Blue Mts. extend N. E. and S. W. through the W. part. They are steep and rocky, and the valleys between them are deep and narrow. Ranges of rounded and arable hills extend through the s. E. half of the town and occupy the greater part of its surface. The principal streams are Ramapo River, flowing s. through the w. corner, and its tributaries Maway River and Stony Brook. Niggar and Shepard Ponds, on the line of N. J., in the s. w. angle, are small bodies of water. The people are principally employed in raising vegetables for the New York market. Ramapo, (Ramapo Works p. o.,) a station on the N. Y. & E. R. R., in the w. part of the town, contains 1 church, several manufactories, and 50 dwellings. Sufferns, (p. v.,) near the line of N. J., in the w. part, contains a rolling mill and 20 dwellings. It lies at the junction of the two branches of the Erie R. R., and is an important station. Sloatsburgh, (p. v.,) on the Erie R. R., in the extreme w. part, contains a church, cotton twine factory, hoe factory, and 180 inhabitants. Spring Valley, (p.v.,) on the Piermont Branch of the Erie R. ² Among the early settlers were families named Auriancey, Haring, Blauvelt, Van Houten, and Talman. These names appear upon the records of the church in 1694. The first baptism on record was that of Derick, Richard, som of Cornelius Cooper and Elsie Bogert, his wife, Oct. 13, 1696; and the first marriage, that of Marinus William Flousse Crom and Gertrude Femusse Van Houten, in 1699. The first school was taught by Hermanus Van Huyser, from Hclland, soon after the first organization of the church. The first inn is neitered to have been kept by Casparus Maybee, in the "Old "76 House," now ccupied for the same purpose. Abram Muybee built the first mill: his son, Cornelius Maybee, owned it during the Revolution, but, espousing the cause of the British, his property was confiscated.

ST. LAWRENCE COUNTY.

This county was formed from Clinton and parts of Montgomery and Herkimer, March 3, 1802.1 It contains an area of 2,880 sq. mi., and is the largest co. in the State. It is centrally distant 140 mi. from Albany. The surface is broken by a series of parallel ridges extending in a N.E. and s.w. direction, and gradually declining in height from the summits, about 1000 ft. above tide, on the s. border, to the level of the banks of the St. Lawrence. The highest summits, in the s. E., are about 2000 ft. above tide. The declivities of the ridges are usually gradual slopes, giving to the surface a rolling character, changing from gentle undulations along the river to a hilly and almost mountainous character in the s.E.

The principal streams are the Indian, Oswegatchie, Grasse, Racket, These streams all have their rise upon the highlands, which occupy St. Regis, and Deer Rivers.2 the center of the great northern wilderness, flow for a considerable distance in a N. w. direction, and most of them gradually bend toward the N. E. and finally traverse the greater part of the co. nearly parallel to the St. Lawrence. They all are frequently interrupted by rapids and cascades in their upper and middle course, but as they approach the St. Lawrence they become sluggish; and most of them are navigable for short distances from their mouths.3 The southern and central parts of the co. are thus abundantly supplied with water-power. In the s. part are numerous small lakes, the principal of which is Cranberry Lake. Black Lake, the largest body of water in the co., lies along the course of Indian River, near its junction with the Oswegatchie.

The geological formation of the co. is very simple. The whole central and southern portions are underlaid by the primitive formation, consisting of gneiss and white limestone.4 The northern extremity of this formation may be readily traced, by a line commencing upon the border of Jeffercon co., about 2 mi. w. of the Ox Bow, thence extending northerly to near the center of the s. shore of Black Lake, thence bending toward the E., and extending to the E. border of the co. on the N. line of Hopkinton. A belt of country 5 to 10 mi. wide, N. of the primitive region and parallel to it, is underlaid by Potsdam sandstone; and the remainder of the co., comprising a belt 3 to 20 mi, wide bordering upon the St. Lawrence, is underlaid by the calciferous sandrock. The primitive portion of the co. is generally elevated and considerably broken. Its soil is light and sandy; and in some parts are extensive sand plains, entirely unfit for agricultural purposes. A considerable portion of the co. is covered with drift deposits, which go far to neutralize the effect of the underlying rock upon the character of the soil. In this region the intervales along the streams are usually fertile; but the whole is best adapted to grazing. Magnetic iron ores abound in the s. part; but they have never been examined or worked to any considerable extent, owing to their remoteness from settlements.⁶ In Rossie rich veins of lead have been found and extensively worked: and the rich specular iron ore found along the w. border of the co. and in the adjacent portions of Jefferson, lies between the gneiss and sandstone.7 The sandstone region is level or gently undulating, broken in some places by disrupted masses of the underlying rock. In this region are numerous quarries, from which are obtained sheets of sandstone of 2 inches to a foot in thickness and of almost any desirable size. This stone acquires hardness by exposure and is indestructible by atmospheric agencies. The soil in this region is usually thin, but fertile, and is derived principally from drift. The calciferous sandstone region commences as a narrow strip on the St. Lawrence, in the N. part of Hammond, and continually widens to the E. border of the co. The soil, consisting of drift and marine clay, is usually very productive.

¹ This co. included the " Ten Towns;" and Great Tracts Nos. II and III of Macomb's Purchase were provisionally annexed, and

and II of Machine Co.

2 These streams are known to the St. Regis Indians by the following names:—Indian, O-tsi-kwa-ke, "where the ash tree grows with knobs;" Oswegatchie, a Huron word, said to signify 'b black water;" Grass, Nikent-si-a-ke, "full of large fishes;" Racket, Ni-ha-na-wa-te, "racket, or noisy river;" St. Regis, Akwis-sas-ne, "where the partridge drums;" Deer, Oie-ka-rout-ne, 'Trout River."

8 In severe cold weather the tributaries of the St. Lawrence

are liable to a sudden reversal of their currents near their mouths, from the damming up of that stream by ice:

mounts, from the damming up of that stream by ice: the streams in consequence overflow the lowlands, making the maintenance of fences and bridges impossible.

Dairying and stock raising are the branches of agriculture most extensively pursued.1 Grain is also cultivated to some extent.2 Fruits are not extensively cultivated. Manufactures, consisting of iron, castings, lead, lumber, and articles of wood, are carried on. Commerce to some extent is carried on by means of the St. Lawrence and the various railways.

The chief works of internal improvement in the co, are the Ogdensburgh R. R., extending from Ogdensburgh to Rouses Point, on Lake Champlain; the Potsdam & Watertown R. R., forming a connection with the O. R. R. on the N. and with the W. & R. R. R. and N. Y. Central on the s. Improvements have been made by the State in the navigation of several of the rivers, for the pur pose of floating down logs from the s. forests.9 Daily lines of steamboats connect Ogdensburgh and other points on the river with Montreal and with the various ports on Lake Ontario.

The county seat is located at the village of Canton, 10 on the P. & W. R. R., 18 mi. s. r. of Ogdensburgh. The courthouse, jail, 11 and clerk's office are in separate buildings, situated adjacent to each other. The co. poorhouse is situated on a farm of 130 acres 1 mi. w. of Canton Village. 12

Six newspapers are now published in the co.; 3 at Ogdensburgh, 1 at Potsdam, and 2 at Canton. 13

10 The county seat was first located at Ogdensburgh, but was removed to Canton in 1828. The first courts were held in the stone barracks, w. of the Oswegatchie; and a bomb-proof magazine adjacent was used for a jail. The first courthouse stood on the site recently purchased by Government for a customhouse.

The present courthouse was located by Joseph Grant, Geo. Brayton, and John E. Hinman, commissioners from Oneida co.; and the buildings were erected under the supervision of Ansel Bailey, David C.

The first white settlement in this co. was made by Francis Picquet, a French Sulpitian, who established an Indian mission at the mouth of the Oswegatchie in 1749 and styled it "La Presentation." In 1759 the first island below Ogdensburgh, 3 mi. down the St. Lawrence, was taken possession of by the French and strongly fortified.2 It was named Fort Levi; and here the last French resistance was made against the English, in 1760. During the Revolution it was the rendezvous of scalping parties of tories and Indians, who harassed the frontier settlements on the Mohawk and Hudson. Two expeditions were fitted out against this place during the Revolution; but the English held possession of the fort at Oswegatchie until 1796, when it was surrendered under the provisions of Jay's Treaty.3 The Oswegatchies collected by Picquet were removed, in 1793, from the vicinity of Johnstown, U. C., to a point opposite, on the s. shore, known as Indian Point. In 1807 they removed to St. Regis and elsewhere.4

The co. includes the tract known as the "Ten Towns," Tract No. II,6 of Macomb's Purchase, containing 821,879 acres, Tract No. III,7 of the same purchase, containing 640,000 acres,8 a small portion located by Revolutionary land warrants,9 and the islands in the St. Lawrence.10 The first settlement under State authority was made at Ogdensburgh, in 1796, by Nathan Ford, agent of Samuel Ogden. Before 1800, small beginnings had been made at Lisbon, Madrid, and Massena. The "Ten Towns" were opened for settlement, under the original purchasers, within the next 5 years, and the adjacent parts of the Macomb Purchase soon after. At the commencement of the War of 1812 there were about 8,000 inhabitants in the co., thinly scattered over nearly the whole territory now settled. Great alarm was felt along the whole frontier, and many families left the river towns. It soon became the theater of stirring military events, and various expeditions were planned and attacks made on both sides of the border.11

At the close of the war the co. rapidly filled up with an immigration chiefly from Vt. and the other New England States. The completion of the Erie Canal checked the growth of the co. by opening to emigration the more fertile lands of the West. The price of wild lands greatly fell, and many visions of immense wealth were blighted. For the last twenty years a steady and healthy improvement has been going on, which has been greatly increased by the lines of railroad completed through it.12 In 1837-40 the whole frontier was greatly excited by the "Patriot

³ Upon the approach of Lord Amherst in 1760, the fort at the mouth of the Oswegatchie was abandoned. The island was invested on the 18th of Aug. Upon Gallop Island the English found a number of scalps, which so exasperated them that they burned the chapel and houses, the ruins of which ar still visible. The batteries opened on the 23d, and on the 25th the place, under Pouchot, surrendered. The English named the forterss, Fort Frederick Augustus. On their voyage down the river from this place to Montreal, the English lost in the rapids 46 bateaux, 17 whaleboats, and 84 men. The island was occupied but a short time, and the works soon fell into ruins.—Knox's Journal; Mante's Hist.; Memoir of Pouchot; Entick's Hist.

11 A regiment of militia was stationed at Ogdensburgh during the summer of 1812. In July, 1812, a fleet of 6 schooners—caught at Ogdensburgh by the war—attempted to reach the lake, but were intercepted: 2 were burned, and the rest hastened back. On the last day of July a bloodless engagement took place between the American schooner, Julia, and the British vessels, Earl of Moira and Duke of Gloucester. In Sept. an attack was made upon a number of bateaux at Toussaint Island, opposite Lishon, in which the Americans lost one and the British several made upon a number of bateaux at Toussain¹ Island, opposite Lisbon, in which the Americans lost one and the British several men. On the 2d of Oct. the British made a show of attacking Ogdensburgh, and on the 4th made a real attack, but were repulsed, with the loss of a gunboat and 2 men killed. In Jan. the Americans surprised and captured Brockville, liberated several prisoners, paroled 50 of the citizens, and took a quantity of stores. On the 22d of Feb. the British, in retaliation, captured Ogdensburgh, carried away the cannon and stores, and paroled a large number of citizens, who were afterward exchanged for those of Brockville. War." The battle of Windmill Point, the most memorable event of that ill-concerted movement, was fought within sight of Ogdensburgh, in Nov. 1838.1 The U.S. Collection Dist. of Oswegatchie was established March 2, 1811, and embraces the whole co. Its chief office is at Ogdensburgh. with subordinate offices at each of the river towns.

BRASHER2—was formed from Massena, April 21, 1825. A part of Lawrence was taken off in 1825. It lies on the w. border of the co., N. of the center. Its surface is generally level, with gentle undulations in the E. part. The principal streams are St. Regis and Deer Rivers and Trout Brook. The soil in the w. part is stony and in parts sandy; in the s. E. it is light and sandy; and in the N. it is a clay loam and very productive. Bog iron ore is obtained abundantly in the E. part, in the range where the sand rests upon the clay deposits. Brasher Falls' (p.v.) is a manufacturing village upon the St. Regis, in the s. w. corner of the town, 1 mi, below the R. R. station. Pop. 257. Helena' (p. v.) is situated at the mouth of Deer River, and has a limited amount of water-power. Pop. 100. Brasher Iron Works, (p.o.,) 23 mi. above Helena, on Deer River, is the seat of an important furnace. Brasher Center is a hamlet on the St. Regis River. The first improvement in town (at Helena) was under the agency of Russell Atwater, in 1817. Stillman Fuller built the furnace at Brasher Iron Works in 1825.5 The first settlement at Brasher Falls was made in 1826. In 1839 C. T. Hulburd purchased 600 acres, including the village site of Brasher Falls, and in 1841 made the first considerable improvement. On the 26th of May, 1857, a fire in the woods ravaged this town, and destroyed the furnace and nearly the whole village at the "Iron Works." The gensus reports 7 churches in town.

CANTON⁸—was formed from Lisbon, March 28, 1805. It occupies a nearly central position in the co. Its surface is level or gently undulating. Grass River, flowing through the center, and the Oswegatchie, flowing through the N. w. corner, are the principal streams,9 It is underlaid by white limestone and gueiss in the s., and by Potsdam sandstone in the central and N. parts. The soil is a deep, fertile, gravelly loam. Iron pyrites, from which copperas (sulphate of iron) has been manufactured, is found in abundance near High Falls, on Grass River. 10 Canton, 11 (p.v.,) the county seat, is pleasantly situated on Grass River, a little E. of the center of the town. It is an important station on the P. & W. R. R. It has a number of manufactures, 12 and is the seat of the Canton Academy, founded in 1831, and of the St. Lawrence University, 13 an institution founded under the auspices of the Universalist denomination in 1856. Pop. 1,029. Morley14 (p. v.) is on Grass River, near the N. border of the town. Pop. 350. Rensselaer Falls 15 (p. v.) is a small village on the Oswegatchie, in the N. W. corner of the town. It was formerly the seat of an iron forge. Crarys Mills (p.o.) is a hamlet on the line of Potsdam. South Canton is in the E. part. Daniel Harrington settled on the site of the Agricultural Fair Grounds in Canton Village in 1800. The first permanent settler was Stillman Foote, who bought a mile square where the village now stands, and removed thither in 1801, accompanied by several men. In 1802 he built a mill, and the town began to be rapidly settled. Religious meetings were held as early as 1804. The first church (Presb.) was formed under the Rev. Amos Pettingill, in 1807.17

1 The leaders in this movement dared not risk their own lives in the battle, and left the few, consisting mostly of young men and boys, to engage the greatly superior numbers of the British. The battle was short and bloody. Of the 159 patriots taken prisoners, 18 were released without trial, 3 were acquitted, and 129 were sentenced to be hung. Of the last number, 10 were hung, 60 transported to Van Diemens Land, 56 pardoned, 2 sennung. or transported to van Diemets Land, so pardoned, 28er tenced to a 7 years' term in the penitentiary, and 2 died of their wounds.—Hough's Hist. ⁵ Mills, a fork and not accord, and an agricultural implement factory, are located here. ⁴ Named from Helen, daughter of Joseph Pitcairn, of New York, former owner of a large part of the town. ⁵ In 1827 the furnace was purchased by Isaac W. Skinner and R. W. Bush. In 1830 the latter was succeeded by W. H. Alex-R. W. Bush. In 1830 the latter was succeeded by W. H. Alexander, and the business was continued by Alexander & Skinner until the village was destroyed by fire in 1857. The works are about being rebuilt.

The fire desolated nearly the whole town, and for a time threatened Brasher Falls. The country around was also desolated by running fires in 1849.

COLTON1—was formed from Parishville, April 12, 1843. A small part was annexed from Parishville in 1851. It is a long, narrow town, lying s. E. of the center of the co. and extending to Hamilton co. on the s. Its surface is broken and hilly; and it is nearly all covered with forest. It is crossed by the Racket, Grasse, and Oswegatchie Rivers. In the central and s. parts are numerous small lakes, the principal of which is Cranberry Lake. The extreme n. part only is inhabited. The principal business is lumbering. Colton (p. v.) is an important lumber station upon Racket River, near the N. W. corner of the town. Several extensive gang sawmills were erected here in 1850-52; but the business has been partially suspended. An extensive tannery for the manufacture of sole-leather was built here in 1857.2 Pop. 379. South Colton is a p.o. at Three Falls. The first settlement was begun in 1824, at Colton Village.3 There are a M. E. and a Univ. church in town, both built in 1852, and a Bapt, church built in 1860.

DE KALB⁴—was formed from Oswegatchie, Feb. 21, 1806. A part of De Peyster was taken off in 1825, and a part of Hermon in 1830. It lies on the Oswegatchie, w. of the center of the Its surface consists of broken ridges of white limestone and gneiss with narrow valleys between them. The soil is excellent and is generally under a good state of cultivation. De Kalb⁵ (p. v.) is situated on the Oswegatchie, near the center of the town. Pop. 120. Richville' (p. v.) is situated on the Oswegatchie, in the s. w. corner of the town. Pop. 250. East De Kalb is a p. o. and station on the P. & W. R. R. Coopers Falls is a hamlet. The first settlement was made in 1803, under Judge William Cooper, of Cooperstown, as agent. The first settlers were principally from Otsego co. . There are 5 churches in town.7

DE PEYSTER⁸—was formed from Oswegatchie and De Kalb, March 24, 1825. It lies on the s. E. shore of Black Lake, N. w. of the center of the co. Its surface is broken in the s. by the parallel primitive ridges, and is level in the N. The principal streams are the Oswegatchic, on the N. border, and Beaver Creek, on the s. Moon Lake lies in the s. part. The soil along the lake is very fertile, in the center of average fertility, and in the s. it is light and sandy. The "Old State Road," the first traveled route through this part of the co., extended through this town. De Peyster Corners (De Peyster p. o.) is a small village. Edenton is a p. o. The first settlement was made in the fall of 1802, by Sam'l Bristol and others.9 The census reports 2 churches; a M. E. and a Cong.

EDWARDS¹⁰—was formed from Fowler, April 7, 1827. A part of Hermon was taken off in 1830, and a part was annexed from Hermon in 1850. It lies on the Oswegatchie, s. w. of the center of the co. Its surface consists of ridges of the primitive formation and the narrow valleys between them. The soil is generally a light, sandy loam, and in the valleys is very productive; but the town is best adapted to grazing. A large number of minerals are found among the primitive rocks. Edwards (p. v.) is situated on the Oswegatchie. Pop. 350. South Edwards¹² (p. v.) contains a grist and saw mill and several mechanic shops. The first settlement commenced along the St. Lawrence Turnpike, in 1812.13 Several Scotch families came into town in 1817. There are 5 churches in town.14

15 Named from John Fine, of Ogdensburgh, principal pro-

part of the co. Its surface is elevated and broken, and its soil is a moderately fertile, gravelly loam. It is drained by the Oswegatchie and its branches. It is principally a wilderness, the settlements being confined to the N. part. Iron ore is found in town. Fine is a p.o. in the N. There is no village in town. The first clearing was made in 1823, by Elias Teall.1

FOW LER2—was formed from Rossie and Russell, April 15, 1816. The townships of Edwards and Fitz William (now a part of Hermon) were annexed from Russell in 1818. Edwards was taken off in 18-7, a part of Hermon in 1830, and Pitcairn in 1836. It lies upon the Oswegatchie, in the southwesterly part of the co. Its surface is much broken by ridges of gneiss. It is drained by the Oswegatchie and its branches. Silver Lake lies s, of the center of the town. The soil along the streams is a fertile loam, in the N. W. a clavey loam, and in the E. a light sand. Several valuable minerals are found in town.3 Hailesborough, on the Oswegatchie, and Little York (Fowler p. o.) are small villages. Fullerville (Fullerville Iron Works p. o.) is the seat of an extensive manufactory of iron.4 West Fowler is a p.o. The first settlements were made by Brig. Gen. Haile, at Hailesborough, in 1807,5 and by Sam'l B. Sprague, at Little York, in 1811. The town did not begin to be settled rapidly until after 1820. The census reports 4 churches in town.6

GOUVERNEUR'-was formed from Oswegatchie, April 5, 1810. A part of Macomb was taken off in 1841. It lies in the w. part of the co. Its surface is generally level, but somewhat broken in the N, by low ridges of white limestone. It is drained by the Oswegatchie, which twice flows across the town. The town abounds in interesting minerals.8 The soil is sandy in a few places, but is chiefly clay and loam, and is highly productive. The Kearney Iron Mine, in the s. corner, has furnished an immense quantity of ore. Gouverneur (p. v.) was incorp. Dec. 7, 1847. Pop. 785. It is the seat of a flourishing academy, and has a considerable local trade and the only p.o. in town. Riverside Cemetery is beautifully located on the opposite bank of the Oswegatchie, E. of the village. It was consecrated June 23, 1858. It is a station upon the P. & W. R. R. The first settlement was made in the summer of 1805, by Dr. Richard Townsend, agent of Gouverneur Morris, the proprietor. 10 The first church (Bap.) was formed in 1810.11

HAMMOND¹²—was formed from Rossie and Morristown, March 30, 1827. A part was annexed to Macomb in 1842, and a part to Rossie in 1844. It lies upon the St. Lawrence, in the extreme w. part of the co., and includes a portion of The Thousand Islands. The surface is generally level, but broken upon its N. and S. borders by low primary ridges. A level terrace of sandstone, forming a continuous and regular mural wall, extends from the n. shore of Black Lake through the center of the town into Jefferson co. Black Brook flows through a stagnant swamp, which borders upon this sandstone terrace. Its soil is generally a deep, fertile loam. Hammond, (p.v.,) on the Rossie Plank Road; South Hammond, on the "Old Military Road;" and Oak Point, 13 (p.v.,) a landing on the St. Lawrence, are small villages. Chippewa is a hamlet on a bay of the same name. Slight improvements began here in 1812; but settlements did not increase until 1818-21, when a number of Scotch families located just w. of the present site of Hammond Village.14 There are 4 churches in town.15

By the treaty of 1796, a mile square at the mouth of Grass River was reserved by the St. Regis Indians; and most of the other lands in the town were located on Revolutionary land warrants before the sale of the rest of the co. Before the treaty the Indians issued unauthorized leases to different parties; and hence arose much annoyance from conflicting claims. The first improvements were made on Grass River, on land leased of the Indians, in 1792. The first settlements on Revolutionary grants were made in 1798, by Amos Lay and others.2 In 1812 the U.S. Government erected barracks here, which were occupied 3 months by militia. In Sept. 1813, a party of Canadians burned the barracks and carried away several prisoners. There are 6 churches in town.3

MORRISTOWN4-was formed from Oswegatchie, March 27, 1821. A part of Hammond was taken off in 1827, and a part of Macomb in 1841. It lies between the lower end of Black Lake and the St. Lawrence. Its surface is gently undulating, rising from either side toward the center. Chippewa Creek, flowing though the center, is the principal stream. The soil is a gravelly loam and generally fertile. Morristown (p.v.) is situated upon the St. Lawrence. Pop. 254. Edwardsville⁵ (p. o.) is a small village on Black Lake, at which point a ferry has been established. Brier Hill (p.o.) is a hamlet. David Ford—as agent of Gouverneur Morris, the proprietor—made the first settlement on the site of the village, in 1799.6 John K. Thurbur and Henry Ellenwood made the first improvement in the vicinity of Edwardsville, in 1810. In 1817-18 several English families located at a place still known as the "English Settlement." There are 7 churches in town.

NORFOLK—was formed from Louisville, April 9, 1823. A part of Stockholm was annexed in April, 1834. A part was annexed to Louisville in 1844. Its surface is moderately uneven. Racket River, the principal stream, flows diagonally through near the center of the town, and affords a large amount of water-power, partially improved.8 The soil is generally fertile. resting upon drift deposits of gravel and marine clay, and all underlaid by calciferous sandstone. The E. part is sandy; and a swamp lies between the Racket and Grasse Rivers. Norfolk (p. v.) is situated upon Racket River. Pop. about 200. It has manufactories of lumber, shingles, and articles of wood. Raymondville' (p. o.) is a small village on the Racket, below Norfolk. The first settlement was made by Erastus Hall, in 1809, at Raymondville.10 The Racket was formerly navigated, to some extent, as far as this place. There are 4 churches in town. 11

OSWEGATCHIE¹²—was formed from Lisbon, March 3, 1802. De Kalb was taken off in 1806, Gouverneur in 1810, Morristown in 1821, and a part of De Peyster in 1825. The surface is level or gently undulating. Oswegatchie River, the principal stream, affords water-power at Ileuvelton and at Ogdensburgh, which is available most of the year. The soil is a fine quality of gravelly loam, and is under a good state of cultivation. Ogdensburgh, 13 (p. v.,) situated upon the St. Lawrence, is one of the largest and most important villages in Northern New York. It is the w. terminus of the Ogdensburgh R. R., and stands at the foot of sloop navigation upon the great lakes and St. Lawrence River, giving to it important commercial advantages. A limited amount of manufacturing is also carried on, chiefly on the w. side of the Oswegatchie. It contains the depôts and buildings of the Ogdensburgh R. ton1 (p.v.) lies upon the Oswegatchie, 7 mi. above Ogdensburgh. It has a limited amount of manufactures. Pop. 300. Black Lake is a p. o., in the s. w. part of the town. The early history of the town has already been noticed.² The first improvement, after Ogdensburgh was abandoned by the British, was made in 1796, by Nathan Ford,3 and it soon became a place of commercial importance. The war checked the prosperity of the place, and after the return of peace business revived slowly. The opening of the Welland Canal and completion of the Ogdensburgh R. R. greatly increased the trade and added to the population of Ogdensburgh. The completion of the Grand Trunk Railway through Canada has in some measure checked its growth, by diverting business into other channels. The first religious meetings were held while it was a French, and afterward a British, post. The census reports 11 churches.5

PARISHVILLE6—was formed from Hopkinton, April 15, 1818. Colton was taken off in 1843, and another part of Parishville annexed to it in 1851. It lies upon St. Regis River, s. E. of the center of the co. Its surface is level in the N. and considerably broken in the s. The soil is a deep loam in the N., but in the s. is light and sandy. A large portion of the town is yet a wilderness. Parishville (p.v.) is situated upon the w. branch of St. Regis River. Pop. 236. It has a limited amount of manufactures. Parishville Center, in the N. part, is a hamlet. Daniel Hoard settled in 1810, as agent for the proprietors.8 During the war the settlement was greatly increased by immigrants from the frontier towns. The census reports 4 churches.9

PIERREPONT¹⁰—was formed from Russell, April 15, 1818. A part of Fine was taken off in 1844. It occupies a long, narrow strip s. of the center of the co. The surface is quite broken. The three branches of Grass River, E. branch of the Oswegatchie, and Racket River are the principal streams. The soil in the N, is well adapted to grazing, and that in the s, is light and sandy. Settlements are confined to the N. part. Magnetic iron ore and other valuable minerals are found in large quantities. Pierrepont (p. o.) is a small village upon the hills, near the center of No. 3. East Pierrepont¹¹ (p. v.) is situated on Racket River. Pop. about 100. Flavius Curtis settled upon the line of Canton in 1806-07. The principal settlement commenced upon the completion of the St. Lawrence Turnpike, in 1811-12.12 There are 2 churches; M. E. and F. W. Bap.

PITCAIRN¹³—was formed from Fowler, March 29, 1836. It lies on the s. border of the co., w. of the center. Its surface is much broken by ridges, separated by swamps, lakes, and fertile intervales. The soil is light and sandy, with a few alluvial flats along the streams. Iron ore, marble, and lead are found in town. The Jay Iron Ore Bed has been worked; and unprofitable attempts have been made to work some lead mines. The town is thinly settled. Pitcairn and East Pitcairn are p. offices. Settlement was begun in 1824 by immigrants from Potsdam. 14 There is no church in town.

POTSDAM¹⁵—was formed from Madrid, Feb. 21, 1806. It lies on Racket River, N. E. of the center of the co. Its surface is rolling; and its soil is a deep, rich loam. The streams are Racket River, affording a large amount of water-power, and Grass River, with a limited amount. Lumber and articles of wood are largely manufactured. There are extensive quarries of sandstone above the village. 16 This is the leading agricultural town in the co., and every part is under improvement. Potsdam17 (p. v.) is located upon Racket River, E. of the center of the town. The river is here divided by islands and broken by rapids, and furnishes an extensive water-power Pop. in 1st and 4th election districts, 2,123. It has a considerable amount of manufactures and

is the seat of an academy.1 It also contains a bank and a printing office. Racketville (North Potsdam p. o.) lies on Racket River, in the x. corner of the town. Pop. about 150. It has an extensive water-power, and is the Potsdam Junction station on the Ogdensburgh R. R. Bucks Bridge is a hamlet upon Grass River, in the w. part of the town. West Potsdam (p.o.) is a small village in the midst of an agricultural region. The first settlement commenced in 1803. under Benj. Raymond, agent for the proprietor, and the town rapidly filled up by immigrants from Vt.3 In Nov. 1804, Wm. Bullard took up 2,427 acres of land, and formed an association, styled "The Union," holding the land in common. The association broke up in 2 or 3 years. There are 10 churches in town.5

ROSSIE⁶—was formed from Russell, Jan. 27, 1813. A part of Fowler was taken off in 1816, and a part of Hammond in 1827. A part of Hammond was annexed in 1844. It lies on the s.w. border of the co. Its surface is level in the E., and broken by ledges of gneiss, limestone, and sandstone in the remaining parts. It is drained by Oswegatchie and Indian Rivers. Its soil is like that of the adjoining towns. Between the gneiss and limestone, near Indian River, are extensive and valuable mines of lead and iron,7 and a great variety of valuable minerals,8 Rossie (p. v.) is situated on Indian River, at the head of the Black Lake navigation. Pop. 214. It owes its importance to its iron manufacture, commenced here in 1813. Churchs Mills,9 (Wegatchie p. o.,) situated on the Oswegatchie, is the seat of a furnace. Pop. about 170. Somerville (p. v.) contains 20 houses. Shingle Creek is a p. o., in the s. E. corner. The first settlement was made in 1807.10 A number of Scotch families came in about 1810. A blockhouse was built near Somerville in 1812. There are 2 churches in town; Univ. and M. E.

RUSSELL¹¹—was formed from Hopkinton, March 27, 1807. Rossie was taken off in 1813, a part of Fowler in 1816, Pierreport in 1818, and a part of Fine in 1844. It lies upon Grass River, s. of the center of the co. Its surface is much broken, and its s. part is still a wilderness. Its soil is light and sandy, but fertile in the valleys. Russell (p. o.) is a small village, upon Grass River, in the central part of the town; North Russell is a p.o. The first settlement was made in 1804, under the agency of R. Atwater.12 A State arsenal was built in the village in 1809;13 and the St. Lawrence Turnpike was opened the same year. The principal growth of the village was received in 1811 and 1812. A forge was built in 1846, and supplied with bog and magnetic ores. There are 2 churches in town; Bap. and M. E.; the Presb. and Prot. E. each have societies formed.

STOCKHOLM14—was formed from Massena, Feb. 21, 1806. A part of Norfolk was taken off in 1834. It lies in the northeasterly part of the co. Its surface is rolling. Its soil is a light, sandy loam, generally productive. It is watered by the two branches of St. Regis River. It is strictly an agricultural town, and one of the most wealthy in the co. Stockholm Depot (p. o.) is a small village upon the R. R., in the E. part of the town. East Stockholm (Stockholm p.o.) and Sanfordville are hamlets of a dozen houses each. West Stockholm (p. o.) is a small manufacturing village upon St. Regis River. Knapps Station (North Stockholm p. o.) is a R. R. station on the N. W. border of the town; and Southville is a p. o. Skinnerville is a hamlet on the w. branch of the St. Regis. The first settlement was begun in 1802, by Ebenezer Hulburd and Dr. Luman Pettibone, agents. 15 The census reports 5 churches. 16

1 The St. Lawrence Academy was commenced, through the exertions of Benj. Raymond, in 1812. It has long maintained a high reputation among the schools of Northern New York.

2 Named from Isaac Buck, who settled here in 1807.

3 Among the early settlers were Wm. and Gurdon Smith, Benj. Stewart, John Delance, David French, Chester Dewey, Joseph Bailey, Bester Pierce, Roswell Parkhurst, Wm. ¹ Named from Joshua Waddington, proprietor. Formerty called "Hamilton," Incorp. April 26, 1839. A furnace, supplied with bogorc, was established here in 1834: but it was abandoned in 1840. A tract of 1,135 acres on the shore opposite the island, together with the island and water-power, were conveyed in 1811 to Joshua Waddington and Thos. L. and David A. Ogden.

2 In 1808-11-15, acts were passed to improve the navigation at this place, and a lock was built for the passage of small boats.

² Among the early settlers were John Sharpe, Barton Edsall,

John Tuttle, Benj. Bartlett, Godfrey Myers, Benj. Campbell, E. Demick, Amos Wells, Asa and Jason Fenton, Charles North, Wm. Powell, and R. C. Hepburn, Ira Hitchcock, T., A., R., and W. Rutherford. J. H. Hawley kept the first im; J. Redington was first justice of the peace; Dorothy Fields taught the first school. Mills were built at Waddington, in 1803-04.

⁴ There are 6 churches in the town; 1 Presb., 1 Epis., 1 M.E., R.C., 2 Scotch Presb.
 Pop. 1860, 2,735; village, 789.

SARATOGA COUNTY.

This county was formed from Albany, Feb. 7, 1791. It lies in the N. angle formed by the junction of the Hudson and Mohawk Rivers, centrally distant 31 miles from Albany, and contains 862 sq. mi. Its surface is hilly or undulating in the s. and mountainous in the N. Two ranges of mountains traverse the co. from N.E. to s.w. The Palmertown or Luzerne Mts., the most eastern of these ranges, extend from Warren co., through the w. part of Moreau and Milton and the E. part of Corinth, into Greenfield, where they terminate in a series of low, irregular hills. Hudson River breaks through this range on the N. border of the co. in a deep ravine 3 mi. in extent. The mountains rise abruptly from the water's edge to a height of 800 feet. Their declivities are generally rocky and pre-

cipitous, and their summits spread out into a broad, rocky upland covered with forests. The Kayaderosseras Range extend through the N. part of the co. and occupy the greater part of Corinth, Edinburgh, Day, and Hadley. The declivities of these mountains are generally precipitous, and their summits spread out into broad, rocky uplands broken by ledges and craggy peaks. A group of isolated hills, 450 feet high, with rounded summits and terraced declivities, extend through the w. part of Stillwater and Saratoga. A broad intervale extends along the Hudson, bordered by a range of clay bluffs 40 to 200 feet in height. From the summits of these bluffs an extensive sand plain extends westward to the foot of the mountains, covering the greater part of Moreau, Wilton, Northumberland, Saratoga Springs, Malta, and Clifton Park. The s. w. portion of the co. is rolling or moderately hilly.

Hudson River flows nearly 70 mi. along the E. border of the co. It is interrupted by falls and is crossed by several dams and bridges.² The Mohawk forms a portion of the s. boundary. The Sacandaga, forming the outlet of the principal lakes in the s. part of Hamilton co., flows in a tortuous channel through Edinburgh, Day, and Hadley. It is navigable for boats and steamboats of light draught from Fish House, on the border of Fulton co., to Conklingville Falls, in Hadley, a distance of 20 mi. Below the falls it flows between high, rocky hills in a series of rapids to the Hudson. Kayaderosseras River drains the central part of the co. and flows into Saratoga Lake. The outlet of the lake takes the name of Fish Creek. The other principal streams are Snook Kil, Anthonys Kil, and Kayawese Creek. Saratoga Lake is a beautiful sheet of water, 63 mi. long and 2 broad, situated about 4 mi. s. E. of Saratoga Springs. Ballston, Round, and Owl Lakes are small sheets of water in the s. part of the co. Among the mountains and forests in the N. are numerous other small lakes but little known.

The Kayaderosseras and Luzerne Mts, are both principally composed of primary rocks. A stratum of crystalline limestone extends along the foot of the mountains; and this is succeeded by Potsdam sandstone. In these formations iron ore has been obtained; but the beds have been imperfeetly explored.3 The rocks in the s. half of the co. belong to the shales and slates of the Hudson River group. A large part of the co, is covered with drift deposits, consisting of sand and clay. The soil among the mountains is a light, sandy or gravelly loam, and is best adapted to grazing; upon the intervales along the rivers it is a deep, fertile, clayey loam and alluvium; and in the s.w. part it is a heavy, clayey loam. A strip of light sand occupies the greater part of the two eastern tiers of towns. The people are chiefly engaged in grain and stock raising. Lumbering and tanning are extensively carried on in the N. part of the co. Considerable attention is also paid to the manufacture of cotton and woolen goods and paper.4

The county seat is located at the village of Ballston Spa, in the town of Milton.⁵ The courthouse, a

¹ The origin of the word Saratoga is uncertain. The termina-tion "oga," or "aga," is said to signify "place." The first part of the word has been thought to imply "hillside" by some, and "place of salt springs" by others,—"soragh" in some Indian dialects being the name for salt.

3 Among the other minerals are agate, chalcodony, chrysoberyl, garnet, tournallo, phosphate of lime, graphite, iron pyrites, and tufa. A full catalogue of minerals is given by Dr. John H. Steele in his geological survey of the co.

⁴ Important manufactures have for many years been carried on in Milton, Moreau, Mechanicsville, Schuylerville, and Water-ford. The manufacture of lumber is chiefly limited to Glens

ford. The manufacture of lumber is cheely limited to delens Falls and Jessups Landiding, on the Hudson.

⁵ The first courthouse was located 2 mi. s. w. of Ballston Spa. By act of March 26, 1794, the sum of £1500 was appropriated to build a courthouse and jail: and in each of the following two years £600 was added to the amount. John Bradstreet Schuyler, Richard Davis, jr., John Ball, John McClelland, and Jas. Emott, were appointed commissioners to superintend the erection of the

plain brick building, contains the usual rooms and offices and the jail. The co. clerk's office is a small building situated on Main Street. The co. poorhouse is situated on a farm of 112 acres 14 mi. N. w. of Ballston Spa. The average number of inmates is about 100; and the institution yields an annual revenue of \$900.1

The Champlain Canal extends along the Hudson from Waterford to the s. border of Northumberland, at which point it crosses the river into Washington co.2 The Saratoga & Scheneetady R. R. extends from Saratoga Springs through Milton, Ballston, and Clifton Park to Schenectady.3 The Saratoga & Whitehall R. R. extends from Saratoga Springs N. through Wilton and Northumberland to Moreau, where it crosses the Hudson to Fort Edward. The Rensselaer & Saratoga R. R. crosses the Mohawk at Waterford, and passes through that town, Half Moon, Clifton Park, Malta, and Ballston to Ballston Spa. The Albany, Vermont & Canada R. R., crossing the Mohawk at Cohoes, intersects the R. & S. R. R. at Saratoga Junction, and crosses the Hudson at Deepikill into Rensselaer co. The Lake Ontario & Hudson River R. R.4 has been laid out and partly worked from Saratoga Springs through Greenfield, Corinth, and Hadley.

Eight weekly and 4 daily papers are published in the co.5

The greater part of this co. is embraced within the "Half Moon," "Clifton Park" or "Shannondhoi," "Saratoga," "Appel," and "Kayaderosseras" or "Queensborough" Patents.6 The last named patent includes the greater part of the co. The purchase of the tract was confirmed by the Mchawks, July 26, 1683. The bounds were so loosely defined that disputes arose between the

6 The "Half Moon, was granted to Anthony Van Schaick. The "Saratoga Patent," including the present towns of Easton, Saratoga, and Stillwater, was granted, Nov. 4, 1684, to Cornelius Van Dyck, Jan Jans Bleecker, Peter Phillips Schuyler, Johannes Wendell, Dirk Wessels, David Schuyler, and Robt. Livingston. The "Clifton Park Patent," embracing the E. part of the present town of Clifton Park and the w. part of Half Moon, was granted Sept. 23, 1708. The "Appel Patent," in the w. part of the present town of Clifton Park, was about \(\frac{1}{2}\) mit wide on the Mohawa and extended back nearly \(\frac{1}{2}\) mit. The "Kayaderosseras Patent" was granted Nov. 2, 1708, to Manning Hermanse, Johannes Beekman, Rip Van Dam, Ann Bridges, May Beckley, Peter Fauconneer, Adrian Hogelandt, Johannes Fisher, John Tuder, Jovis Hogelandt, John Stevens, John Totham, and Samson Broughton. This patent contained 400,000 acres, and embraced nearly all of Saratoga co. N. of the small patents already described, and por tions of Montgomery, Fulton, and Warren cos. The portion of the co. proprietors and the owners of the Schenectady, Clifton Park, and Half Moon Patents, which were not settled until after the Revolution.

The first settlements in the co. were made by the Dutch, within a few years after their first colonization of the country about Albany. These settlements commenced near Waterford, on the Mohawk, and gradually extended up the valley of the Hudson. Lying in the great thoroughfare between the English settlements at Albany and the French posts on Lake Champlain, the continual passing of military parties checked the progress of settlement and exposed the few hardy pioneers to all the dangers and anxieties of border warfare. Immediately after the conquest of Canada, in 1760, settlements rapidly extended along the river valleys and to some distance into the interior. During the Revolution, some of the most important events of the war transpired within the limits of this co. Upon the approach of Burgoyne in 1777, Gen. Schuyler retreated from Fort Edward and made a stand first at Saratoga, then at Stillwater, and finally at the mouths of the Mohawk,1 This last stand he considered the best position for checking the advance of the enemy, which he was expecting both from the N. and W. The inhabitants of the co. above fled in consternation to Albany, leaving their homes and fields of grain to be destroyed by the advancing foe. The islands at the mouth of the Mohawk were fortified about the 1st of August, and Burgovne took possession of Fort Edward at nearly the same time. While the armies lay in this position, two events took place which served greatly to embarrass Burgoyne and to render sure his final defeat. The first of these was the defeat of Baum at Bennington, and the second the retreat of St. Leger from the siege of Fort Schuyler.2

The American army in the mean time, under Gen. Gates, who had superseded Gen. Schuyler, advanced toward the enemy, and about the 1st of September took possession of and fortified the high bluffs known as Bemis Heights, upon the river, in the N. part of Stillwater.3 Greatly perplexed and embarrassed, Burgoyne finally concluded to continue his march toward Albany. On the 14th of September he crossed the Hudson, above the mouth of the Batten Kil, into the N. part of Saratoga, and continued his march southward. On the 19th the first battle of Stillwater was fought, in front of the American intrenchments at Bemis Heights. The American loss was 315 and the British 500, the former returning to their camp and the latter retaining possession of the battle field. On the 7th of October another severe battle was fought, in which the British lost 700 and the Americans 150. During the succeeding night the British abandoned their camp and retreated northward, and finally took position upon the heights of Saratoga, just w. of the present village of Schuylerville. Here Burgoyne found himself completely hemmed in. A victorious and hourly increasing army was in front; a strong detachment was posted on the E. bank of the river to prevent his crossing that stream; Fort Edward, in his rear, had been taken by the Americans; his bravest officers had fallen in battle; Lord Howe had failed to afford the promised support from New York; and his army was reduced to the last extremity for want of provisions. Under these circumstances, the British commander reluctantly yielded to an imperative necessity, and on the 16th of October signed articles of capitulation. On the 17th the whole British army laid down their arms and were marched eastward to Mass.5 The close of this campaign left the co. stripped of nearly every evidence of civilized occupation. The fear of continued Indian hostilities prevented the immediate re-occupation of the abandoned lands; but after the close of the war settlements rapidly spread. Since this period few incidents of general interest have occurred, and the history is but the record of the everyday events connected with the conversion of a wilderness into fruitful fields and happy homes.

¹ This retreat was occasioned by the limited number of Schuy-ler's forces and the fact that the militia were every day flocking to his standard. Burgoyne's progress was arrested by felling these aer as the roads, breaking down bridges, and by every other possible means of annoyance. Every hour thus gained added to the strength of the Americans and weakened the British forces; so that, when all the obstacles were finally over-come, the American army was in a condition to meet the British in core hattle.

At Oswego he was joined by a body of Indians under Brant. making fore 1700 strong. On the 2d of Aug. he invested Fort Stanwix, (where Rome, Oneida co., now stands,) and continued the siege until the 22d, when, learning that an American re-enforcement was approaching, he hastily retreated.

the direction of Kosciusko, then holding the office of engineer in the army. They were so constructed as to completely command the passage down the river. The position afterward chosen by the British was about 1 mi. distant, and separated from the American works by a deep ravine.

4 Instead of co-operating with Burgoyne and sending the promised aid up the Hudson, Lord Howe had marched to Philadelphia, leaving the British forces in N. Y. under the command of Sir Henry Clinton. The latter officer made a diversion in Burgoyne's favor, but too late to be of any service.

5 The place where the British laid down their arms was a green on the river, N. of the mouth of Fish Creek. It was in front of Fort Hardy, an old fortification erected by Dieskau in 1755. The number of the army at the time of the surrender was 5,792, of whom 2,412 were Germans. The Americans also captured 42 brass cannon, 4,647 muskets, 6,000 dezen of cartridges, and a large amount of carriages and camp equipages,

ton was changed March 5, 1795. It lies upon the border of the co., s. w. of the center. The surface is gently rolling. Mourning Kil and the Outlet Creek are the principal streams. Ballston Lake, in the s.E. part, is a long, narrow, and deep body of water, the outlet of which is the principal inlet of Round Lake. The soil s.E. of the lake is generally a light sand, and N.W. it is a clayey and gravelly loam. Ballston (p, v.) is situated on the line of Milton. A small portion only of the village is within the limits of this town. Burnt Hills, 1 (p.v.,) in the s. part, contains 42 dwellings. Ballston Center (p.o.) and Academy Hill, near the center, are hamlets. East Line, (p.o.,) on the border of Malta, contains 15 houses. It is a station on the R. & S. R. R. South Ballston is a p.o. The first settlement was made in 1763, by two brothers named Michael and Nicholas McDonald,2 who located near the w. bank of Ballston Lake. In 1770, Rev. Eliphalet Ball, with his three sons John, Stephen, and Flamen, and several members of his congregation, removed from Bedford, N. Y., and settled in the vicinity of Academy Hill.3 Soon after their arrival a large number of settlers came in from New England, N. J., Scotland, and the north of Ireland.4 The settlements in this town were twice invaded during the Revolution, and several of the inhabitants were carried away prisoners to Canada.⁵ The first church (Presb.) was organized Oct. 6, 1792.6 There are 6 churches in town.

CHARLTON—was formed from Ballston, March 17, 1792. It is the s.w. corner two of the co. Its surface is undulating, with a gentle inclination toward the s. Its streams are the Aalplaats' and a branch of the Mourning Kil. The soil is an excellent quality of sandy, gravelly, and clavey loam. Ledges of limestone in the w. part, affording an excellent quality of building stone, are extensively quarried. Charlton, (p.v.,) in the s. E. part, contains 3 churches and 38 houses; West Charlton (p.v.) contains about 20 houses. The commissioners appointed to divide the Kayaderosseras Patent appropriated 5,000 acres in the s. part of this town to defray the expenses of the division. The first settlement was commenced in 1774, by Thos. Sweetman, who located in the E. part of the town.8 The first church (Presb.) was incorp. Dec. 11, 1792; Rev. Wm. Schenck was the first pastor.9

CLIFTON PARK-was formed from Half Moon, March 3, 1828, as "Clifton." Its name was changed March 31, 1829. The surface is level or undulating, except in the N.E., where it is broken by sand hills and ravines. A line of rugged clay bluffs borders upon the Mohawk Valley. Stony Creek, Swarte and Dwaas Kils are the principal streams. A belt of heavy clay and gravelly loam extends along the river above the bluffs. The soil is alluvial upon the Mohawk flats and a sandy loam in the central and N. parts. Clifton Park, (p.v.,) on the border of Half Moon, contains 2 churches and 22 houses; Amity, (Visschers Ferry p.o.,) a canal village in the s. part, contains 1 church and 45 houses; **Jonesville**, (p. v.,) in the N. part, 1 church, the Jonesville Academy, 10 and 30 houses; and Rexford Flats, 11 (p. v.,) a canal village in the s.w corner of the town, 25 houses. Grooms Corners, (p. o.,) in the s. w., Dry Dock, (p. o.,) in the s. E., and Forts Ferry, on the Mohawk, are hamlets. Part of this town was included in the "Clifton Park" or "Shannondhoi" Patent, granted Sept. 23, 1708.12 Settlements were made in the

Kenneth Gordon, and — McCrea, from N. J.; families named Shearer, McDermids, and Frazers, from Scotland; and Gen. Jas. Gordon, George Scott. Francis Hunter, and 3 brothers Kennedy, from the north of Ireland. The Scotch families settled in "Scotch Bush" and "Paisley Street." Gen. Gordon was a colonel in the army during the Revolution, and afterward a prominent citizen in the town and co. The first death recorded by tombstone in town was that of Gen. Gordon's mother, who died in 1775.

CORINTH-was formed from Hadley, April 20, 1818. A part of Moreau was annexed Jan. 28, 1848. It lies upon the Hudson, in the N.E. part of the co. The Kayaderosseras Mt. Range occupies the central and N. parts, and the Palmertown Mts. the s.E. corner. The declivities of these mountains are steep, rough, and broken, and their summits are rocky and mostly covered with forests. A valley 4 mi, wide separates the two ranges. The principal streams are the Hudson, forming the N.E. border, and Cole Brook, flowing along the s. foot of the mountains. Falls, in the Hudson, are on the border of this town. Among the mountains in the N. part are several fine lakes, the principal of which are Efnor, Hunt, Jenny, and Black Lakes. The soil is a sandy and clayer loam. Lumbering is extensively carried on, the Hudson River and small streams from the hills furnishing an abundance of water-power. Jessups Landing, (Corinth p.o.,) on the Hudson, contains 3 churches and 88 dwellings; and South Corinth (p.v.) 1 church and 30 dwellings. The first settlement was made near S. Corinth, in 1790, by Fred. Parkman, Washington Chapman, Jeremiah Eddy, Jephtha Clark, and Jonathan Dewel.³ The first church (Bap.) was organized June 1, 1822.4

DAY—was formed from Edinburgh and Hadley, as "Concord," April 17, 1819. Its name was changed Dec. 3, 1827. It is the x. w. corner town of the co. Its surface is principally occupied by several spurs of the Kayaderosseras Mts. Oak and Bald Mts., the principal peaks, near the center of the town, are 900 feet above the river. The whole mountain region is wild, rugged, and rocky, and scarcely susceptible of cultivation. The Sacandaga River flows in a narrow valley through the s. part. Its course is tortuous, and it is navigable through the town. Paul, Glass House, and Allens Creeks are the other principal streams. Livingston, Sand, and Mud Lakes are small bodies of water in the N. part. The soil is a moderately fertile, sandy and clavey loam. Lumbering is extensively carried on. **Huntsville** (West Day p.o.) is a hamlet in the s.w. part. **Day** is a p.o. The first permanent settlers were Phineas Austin, James Thomas, and Dyer Perry, and families named Clay and Bond. The first religious meetings were held in the barn of Peter Van Vleck, in 1801-02. The first church (Bap.) was formed in 1809. The census reports 2 churches; Christian and Ref. Prot. D.

EDINBURGII—was formed from Providence, March 13, 1801, as "Nortkfield," and its name was changed April 6, 1808. A part of Day was taken off in 1819. It lies upon the w. border of the co., N. of the center. Its surface is principally occupied by two high mountain ridges separated by the valley of the Sacandaga River. The mountain regions are rocky and broken, with a thin, sandy or gravelly soil, and are covered with forests. Beechers Creek is a small mill stream w, of the river. The soil on the river flats is a good quality of clavey and gravelly loam. Lumbering is the chief occupation of the people. Batchelerville, (p.v.,) on the E. bank of the Sacondaga, contains 30 houses; and Beechers Hollow, (Edinburgh p.o.,) on the w. side of the river, 12. The first settlers came in about 1790 and located in the valley below "Fish House." The first church (Bap.) was organized in 1798, by Rev. Mr. Munroe, from Galway.6 Traces of an ancient Indian burial place are visible on the s. bank of the Sacandaga, near the border of Day.

GALWAY8—was formed from Ballston, March 7, 1792. Providence was taken off in 1796. It lies on the w. border of the co., s. of the center. Its N. half is occupied by a group of rounded hills forming the southern continuation of the Kayaderosseras Mts. The surface of the s. half is gently undulating. The principal streams are head branches of Feegowesee and Calderwood Creeks and the Mourning Kil. The soil is generally a heavy clay, intermixed in places with sand and gravel.
